In the elimination of other wastes the initiative must come from the advertising agency. First of all, I think the overhead of total agency costs in relation to the creation of advertising is too high. The services of some agencies

in the development of new advertising cannot be too highly praised. They, and those others in the great majority which are devoting energy and intelligence to the production of good advertising, do a real service to our common interests. But there are some who merely receive commissions for advertising charged to them and perform no commensurate service. Newspapers, agencies and advertisers are all a part of our business. It is a waste, a tax on advertising, if any one does not make a contribution to the business in proportion to what is paid. We have all had the experience of receiving advertising, with directions to charge it to some agency, when that agency has had no hand whatever in the preparation of copy or the selection of mediums.

It is impossible to estimate the wastes in advertising due to duplication of circulation, the choice of unsuitable mediums or market, the waste circulation of national publications, the excessive use of space, ineffective copy or the neglect to make full use of the material available for the preparation of interesting copy. We know these wastes to be large. First, advertisers should employ intelligently the fruits of research into quality of circulation and buying power. A bureau under the direction of the agencies is now engaged in such research. There is nothing more certain than that that bureau will find that the index of buying power of a given newspaper's readers is a factor of supreme importance to the advertiser; that the unit of circulation of a newspaper reaching a high quality of readers is of many times the value of a so-called mass circulation. Another field in which there is waste is in the placing of good advertising of reputable firms in mediums in which the readers have little confidence. The factor of confidence in buying is tremendous. The better class of newspapers have spent millions of dollars by rejecting unworthy advertising to build up that confidence. It is a waste not to take advantage of that confidence for which no extra charge is made in the rates.

I shall not attempt to discuss in detail the ways in which waste occurs in the preparation of copy. The books on advertising set forth what not to do. One waste is the excessve use of space. We are not helping the progress of advertising if we encourage the use of space beyond what the advertiser legitimately needs to present his message. Obviously a housemaid seeking a position does not need as much space for her announcement as a $25,000,000 bond issue. There would be distrust of a maidservant taking a quarter page of a newspaper to seek a place. This is an exaggerated contrast; but we have all seen examples which were flagrant. There is no need of white space beyond what is required for attractive typography. The so-called "attention-value" of advertisements too often rests upon the surprise value of illustration or brief text whose chief merit is that it is in a sea of white space as isolated as Robinson Crusoe. Give all support to the principle of the use of common sense in advertising. Profits in sound business always come from the dictates of common sense.

Every newspaper advertising manager is familiar with the advertising waste due to carelessness. The copy and art departments of an agency may turn out work of a high order, and the effectiveness of it may be spoiled by sending broadcast to the newspapers on the schedule mats poor in quality of insufficient depth for good reproduction. Good newspaper advertising is so powerful that no laxity should be permitted to waste its effectiveness. Every newspaper advertising department should do educational work in preventing this waste.

It is wasteful if the advertiser does not put in his announcements the full power of whatever interest his product or service may have. Generally speaking, the greatest interest is news. What would be thought of a newspaper which went to press without using the best news available? Making all allowance for the effect of reiteration of name and product, conviction is accomplished by appealing to the reason. The grounds on which this appeal is based have news value. In a speech before the staff of The New York Times to celebrate the record of 26,000,000 lines of advertising in the New York Times in 1924, Adolph S. Ochs, the publisher, to whose far-seeing vision I pay my tribute, said:

"The best advertising is that which gives information. And I hope the day is coming when we will have less, not more, than 25,000,000 lines of advertising which has stood the acid test of being advertising that contains information; that we shall exclude from the use of our columns billboard advertising, such as placards, &c., that contain no information for the reader, but only advertise a trade-mark, a copyrighted name and so forth. We are growing steadily toward the ideal. It will come about, not because we resolve to do it, but necessities will force us to do it. We shall eventually have more advertising than we can find space for in the paper, for there must be some limit to the number of pages. Then, naturally, the process of elimination will apply, and we will select that which is most newsy and most interesting, and to that extent improve and make more attractive the Times as a newspaper."

The newspapers can be influential in increasing the news quality of advertising. They can also eliminate waste, incidentally, in recognizing the fact that publicity has no general news value. The sums of money spent to obtain this so-called free advertising—not free to the advertiser—are wastefuly spent. Newspaper publishers can do away with this form of waste.

Newspapers can approach the study of elimination of advertising waste because they offer the advertiser a medium in which there is a smaller element of such loss than any other. In keeping with the efforts of Secretary Hoover and of business in general, I think that this association might well appoint a general committee to report on the subject at the next meeting.

HOW TO FIND AND TRAIN ABLE ADVERTISING SALESMEN

By W. E. DONOHUE

Local Advertising Manager Chicago Tribune and Vice-President Association of Newspaper Advertising Executives

Address This Week Before American Newspaper Publishers' Association at White Sulphur Springs

THIS is probably one of the few cases on record where the advertising executive has had the publisher in a position where he can talk to him for a period of 20 or 25 minutes and not have the publisher talk back, and therefore, following the instructions of the members of the A. N. A. E., I would like to take this opportunity to impress upon you the important part the advertising department plays in the publishing of the newspaper and ask your co-operation in the future to a greater extent than you have been giving in the past in aiding the advertising department to function better. Advertising is as important news to the average newspaper reader as the news itself. You compliment the reporters when they produce a scoop and we in the advertising department are as human as the writer of news and we like to be complimented when we are showing gains.

W. E. Donohue

I believe the advertising news appearing in a newspaper is to some extent just as much a circulation getter as some of the news therein and I believe that many newspapers that are now trailing in circulation and advertising linage can probably put themselves in a foremost position through the inspiration of the publisher in the advertising department.

The great newspaper that I have the privilege to be employed by this year we will print over one hundred thousand columns of advertising as compared with 43,000 columns twelve years ago. The inspiration for this volume of business came from the president of the *Chicago Tribune,* Colonel Robert R. McCormick.

This possibly can be explained in his own words to the advertising staff once said: "There is no one, be priest or preacher, or rabbi; be he or editorial writer—there is no one w calling is more exalted than yours."

Now, having carried out the instructions of the A. N. A. E., so much that.

We define good salesmanship in ori ization as follows: Good salesman is selling goods that won't come b to customers who will. We believe salesmanship is a science. We know one of the basic principles of salesm ship is propaganda and we start sales training with propaganda within organization. We sell our men on fact that their calling is exalted— sell them on the institution itself. tell them of opportunity by pointing the executive positions now occupied men who started at the bottom. instruct them that no army can be c posed of its officers and no business run because of its officers. We in a spirit of co-operation and team wo Then we teach them salesmanship newspaper advertising.

Now here is the way the system opera Young men from all walks of life come kn ing at our doors seeking an opportunity to advertising space in the *Chicago Trib* Usually these men are interviewed by Classified Manager and if they measure u the standard he has set, they are given application blank to fill out, and maybe in diately, or at some future date, the candi is started on the counter accepting want from the public or is given, after a few d training, what is known as a cash territo usually removed from the downtown dist The young man is instructed to stay withi and get all of the want ads he can on a basis. Clippings of ads appearing from territory from other newspapers are furni him as leads, and he is supposed to can the rooming houses, boarding houses, ho real estate offices, etc. If he shows ability is moved, until he earns his way to a do town territory and into the charge departmen

During all of this time he receives literat about the Tribune, its policies and meth He is given a certain amount of instruc by his immediate superior. If a vacancy sh occur in the Local Department he is then to the local display manager, competing p ably with from six to twelve other men the positions that are open. Usually we mote three or four men at a time. If candidate does not pass certain tests he advised to seek his fortune elsewhere.

The three big factors in life, heredity, edu tion and environment are gone into in det his personal appearance is noted and the succ that he has made as a classified solicitor considered. He is closely questioned and selected goes into the Local Display Advertis Department for a try-out. Here he is taught four big rules of salesmanship: first, he m sell himself; second, his personality; third, house he represents, and fourth, the contents that house.

A great many men think they are advertis men because they know type; know how c are made, can write copy and make layo But in our organization we know that a g advertising man must know much more t the mechanics of advertising. A good adver ing man must understand business in gene and when I say business in general I m he must know something about economics, ab finance, about costs and accounting. He m understand merchandise and merchandising, alone merchandising service as we in the ne paper speak of it, but he must understand manufacturer of merchandise, the cost of p duction, the channels of distribution throu the wholesaler and the jobber. The buying the retailer from the wholesaler and the sell of the retailer to the consumer. He must unc stand overhead and the definition of the w "net profit," because where there is no profit, business cannot remain. He must h a knowledge of markup and turnover of m chandise, and he must be familiar with re store service and management. He must kn how to arrive at advertising appropriations a then he must know the mechanics of advertisi and lastly he must have the ability to execute

A course of home study is outlined for e salesman. He is advised to read economi He is told to read the History of Chicago a the history of the Tribune and other Chica institutions. If he is not a high school gradua we advise night school to improve his educati He is impressed that without knowledge in t day and age he can't hope to get anywhere, a also with the fact that knowledge is power o when properly disseminated. He is then coach in his method of approach and warned again a stereotype method of approach. He is structed to be a positive salesman and not negative one. He is told that sales "almo made" are expenses almost paid and we do need "almosters." We must have finishe therefore, he must know when to ask for t order. The importance of How to Say Thin is pointed out to him because it isn't the thin we say that count, but the way we say them.

He is properly introduced to seven words the dictionary. These words are: Study, Thin Vision, Ideas, Suggestion, Judgment and Wor He is told that mortality in advertising has be high because a great many so-called advertisi salesmen are only space sellers and care nothi about what gets into that space.

For some years I have used a yard stick

HART URGES A. N. P. A. BUREAU OF STANDARDS

Mechanical Expert's Illuminating Talk Before Publishers Sketches Problems of Manufacture—Situation in Hands of Publishers—Need for Standardization Urgent—How to Obtain Factory Efficiency

By CHARLES F. HART
Mechanical Superintendent, New York Times

(In Address This Week at American Newspaper Publishers' Association Convention at White Sulphur Springs)

THE mechanical departments of a newspaper have not been given the serious attention by the publishers its importance the present day requires.

CHARLES F. HART

Aside from the automobile industry, few manufacturing propositions have developed with such rapid strides as the manufacturing of newspapers.

Twenty years ago, the approximate newsprint consumption in the U. S. was 800,000 tons; in 1925 the estimated consumption will be well over 3,000,000 tons, an increase of four hundred per cent in raw material.

Apparently, no one has ever cared to dignify the printing of a newspaper as a manufacturing operation. It is, however, and one of the most difficult and expensive of manufacturing problems, due to the fact the time element is so acute. Newspaper circulation has not only increased in numbers, but the size of the daily paper has increased so much in the last ten years, it would have required a great stretch of imagination to have anticipated such a growth. However, while it is not sound to predict we have reached the limit of size of the daily paper, in larger cities, the growth will be of comparatively small increase as based on the size of the paper today and the size of the paper 20 years ago.

There is not an industry in the country that has been so sadly neglected by the engineer. The general layout of many newspapers has been left to the printing press builder, regardless of efficiency. Publishers have yet to learn the lesson of the "high cost of cheapness."

There are two important factors—quantity and quality. In general manufacturing one would state quality first. But a fairly well printed paper, out on time, is of much more value to readers and advertisers than a well printed paper that misses its deliveries.

One of the real problems, owing to this all-important time element, is to produce the raw material in the shape of advertising and other copy in a steady flow to the office of the publication and to have it handled through its clerical staffs as quickly as possible and reach the composing room in the shortest possible time. If the publishers would adhere to a reasonable closing schedule for advertising copy, they would make the first step toward cutting costs. The news department is gathering news and not manufacturing it, and it is impossible to keep a steady flow of copy to the composing room. I do think, however, there is too little thought given in the news and editorial rooms to keep copy moving.

It is the tendency of the heads of all departments, to keep down expenses. This is as it should be, excepting often an increase of expense in one of the early departments may speed up production, so that a general cut may be made in the department coming later in the cycle of operation. This might more than offset the increase in the preceding department.

It is far beyond the province of the mechanical department to correct the abuses surrounding advertising copy in the composing room.

A mechanical department will be at its peak of success when its various branches are working as a unit. The composing room, engraving room, stereotype room, press room, mail and delivery rooms are of equal importance. Friction is fatal.

Striking Statements in Hart Address

Newspaper printing is a manufacturing operation.
It is the only great industry neglected by the engineer.
Many publishers are making frantic efforts to improve quality, but do not know how and borrow advice; yet the power to improve conditions is in their hands.
Stereotype department is the keystone of the mechanical arch.
Press room personnel demands strict attention of publishers.
Dry mat is out of experimental stage.
Price of newsprint deserves high quality.
Good illustration copy necessary for printing results.
Co-ordination of departments under a superintendent is essential in large and small plants.
How A. N. P. A. Bureau of Standards or Research could function.

In rambling around newspaper offices throughout the country, one often hears the foreman of the press room say—"I can't print with the plates the fellow in the stereotype room is giving me. His metal is not good; his mats are not good,"—and the stereotyper comes back—"Your blankets are bad; rollers no good; your men don't know how to print." The stereotyper meanwhile is damning the composing room for high and low lines and bad metal.

Some of the most successful mechanical departments I have seen are those where some coordinating head kept the various departments in step with each other.

On the larger papers, it is not a serious overhead expense to employ a superintendent. On the smaller papers the head of one of the three mechanical departments may act as superintendent, clothed with authority by the publisher.

To my mind, the stereotype room is the keystone of the mechanical structure both for quality and quantity. A well organized, snappy stereotype room will cut down press room and mail and delivery room costs, and will greatly simplify many of the composing room problems. There are not many elements that enter into a good stereotype plate, and there are no secrets in the work. Some stereotyping foremen make a more substantial mat than others. But generally stereotype methods are standard.

The question of stereotype metal is unfortunately often misunderstood. Lead, tin and antimony, with the melting point of antimony 1166, lead 621 and tin 450, is most difficult to keep in a perfect mixture unless it is well taken care of. Metal analyses by assayists are deceptive. I have taken a piece of plate and cut it up into six pieces and sent it to six different analysists, all of high repute, and each has returned a different analysis. Your metal man is as important as your family doctor.

Centralization has tended to transform the metal business and the old time metal man, who could analyze by the working quality and appearance of the plate, is fast passing; the theoretical, high-pressure salesman taking his place.

Large newspapers should mix their own metal. It is not a difficult undertaking. I doubt if any money would be saved, but a consistent stereotype metal would be produced. This applies also to linotype metal.

While on this subject thought naturally turns to the dry mat. * * * *

The best German mats are not available for use in this country, as the supply is limited and the Continental and English papers are using them as fast as they can be made, and at a fairly high price. During the last two years some very excellent dry mats have been made in this country; not perhaps, of as fine a texture as the best German mats or as strong,—that is, for the number of casts possible—but to all intents and purposes, suitable for work in large newspapers. There is no doubt the American manufacturer of dry mats will steadily improve on the strength and quality of his mat.

The dry mat is far beyond the experimental stage, and the stereotype room of a large daily newspaper, once organized on a dry mat basis, would never want to go back to the wet mat when speed, facility of handling and comfort are considered.

The question as to the quality of printing of the dry mat over the wet, is open to discussion. My experiences lead me to believe that more uniform printing will result from a plate cast from a dry mat, than from a wet. The dry mat lends itself to a good facing composition, which should be put on a few hours before using the mat. There are many formulas, the base being China clay, starch and gum arabic. The object of this facing composition is to close up the pores of the mat. This intensifies the blacks and the high lights and middle tones show up more clearly.

The press room has always been more or less a thorn in the side of the publisher, as this department is blamed if the run is bad and the finish late, or the quality bad. Often, the press room is not to blame. Publishers have given press room personnel the consideration it deserves.

With sextuples, octuples and double-sextuple, the pressman's responsibilities have increased enormously. There is not enough differential in the pay of the pressman in charge of a large press over the journeyman simply working on the press, putting on plates, etc. We have, in our own office, several young fellows who have been in line for promotion several years. They will not take the responsibility for the performance of a press printing a large daily newspaper for one dollar a day more in wages than the assistants on the press are receiving. I have also felt that the positions on the press should be graded as to their responsibility. A modern octuple press, fully installed, represents an investment over $100,000 and its performance, in a great measure, depends on the pressman in charge and the tension man. He can do more to speed up or slow down production than any one on the press.

The fly-boy, as the coming pressman in charge, should be carefully selected. Our unpleasantness in New York in 1923 was, in a great measure caused by fly-boys.

* * *

For many years I have been profoundly impressed with the frantic efforts of many publishers to improve their printing. The

George M. Rogers, B. P. Bole and Mrs. Bole of the *Cleveland Plain Dealer* went riding. Mr. and Mrs. Bole are trustees of the L. E. Holden Estate, owner of the *Plain Dealer*.

Scores they were proud of were made by this group (left to right) Mrs. Charles Austin, *Auburn* (N. Y.) *Citizen;* Mrs. Dietrick Lamade, *Williamsport* (Pa.) *Grit;* and Mrs. William A. Thomson, whose husband directs the Bureau of Advertising.

most important question of good printing is wholly in the hands of the Publisher. In order to produce a well-printed paper, you must have a good sheet of newsprint paper, of good color and surface (not high finish) and reasonably good running qualities. At the present price of paper, $70 a ton, at the mill, publishers should insist on a suitable sheet of good printing and running qualities.

Another necessity for good printing is good copy, both for advertising illustrations and news pictures.

Some of the larger papers, in recent years, have employed a man working direct from the business office who is familiar with printing quality, with power to reject advertising copy that will not reproduce. It has always been a mystery to me why the advertiser will spend several hundred dollars for an advertisement and refuse to spend a few additional dollars to produce a good cut or illustration. He will even send in a poor mat taken from a flat stereo.

In newspaper printing there are no secrets, no short cuts to success. We will presume the press blankets are in good shape, not too hard and not too soft; the rollers in good condition and well set; the impression in the hands of an experienced pressman, with a quick-drying black ink. He can only produce what is in the plate. Fully 90 per cent of the quality of the printing must be put in the plate before it reaches the press room. There has been a procession of press room foremen in and out of some of the large metropolitan dailies in this country, many of them displaced for causes over which they had no control.

Few realize the large amount of money that has been wasted in ink experiments. For many years news ink was made from carbon black, rosin oil, toners and binders, thoroughly ground through the ink-grinding mills. This ink was expensive and comparatively slow drying, with the result that when used on fast running presses, there was both set-off and offset. This ink had a slight luster, but also a tendency to pull the face off the form rollers and to collect dust. In the past ten years, with the advent of faster running presses, ink makers developed a method of mixing carbon black with a mineral oil and passing it rapidly through special, high-speed grinders. This ink could be manufactured more cheaply. There are several papers using expensive ink on their picture pages with some success, but on the general run of paper I doubt if news ink made under the old methods at triple prices, is any better than our present news ink. It is the only commodity in newspaper manufacturing we are using today that is cheaper than it was previous to 1914. Sadly, however, there are grave menaces today to the supply of carbon black. * * *

At home in golf togs is Frank E. Gannett, owner of the Gannett Newspapers of New York.

Newspaper publishers are in a most unique position in the manufacturing end of their business. They really have no mechanical competition between each other. I think publishers can offer no better service than the inauguration of a Bureau of Mechanical Standards and Research, as suggested last April. This bureau could function by a series of bulletins, keeping the publisher informed as to mechanical progress; to answer all questions and give advice on new equipment, layout of new plants, and also when needed advice on the all-important labor problem. It would take a year or two to get this bureau established and a going concern, but it would build for the future. On the question of standards, so important in this age, it would be of immense value.

The accepted standard of a great many of the large paper sizes now are 8 columns, 12½ ems. There is a tendency among publishers to go even further, to 9 columns, 12 ems. One thing to bear in mind with this change, is the question of the paper-making machines. For more than a year two of the New York papers wanted to go from 7 to 8 columns but the paper makers could not supply 73-inch rolls.

Many press parts could be standard with all press builders. One large New York paper has three different types of presses, all made by the same builder and over a period of comparatively few years; and it is necessary to carry three different vibrator, form and ductor rollers; also three sizes of press blankets, and what adds to their misery, must use five different gauges in cutting blankets to put on the presses.

It does not require any particular engineering knowledge to know this is an unnecessary hardship. On the electrical question, we are at sea; not on questions of voltages or different forms of current, but for some unknown reason, an electrical equipment for printing machinery assumes a greater value than would a similar equipment for driving some other type of fast running or automatic machinery. All large manufacturing industries draw up specifications for their various requirements. Not so with the machinery used in newspaper machines. We simply take, as a rule, what the manufacturer offers. It is a well established fact that progress in all manufacturing industries comes from within and not without. I can offer you no greater example of this than the progress made by typesetting machinery in the past thirty-five years. Practically all the great development of these machines has been in the last ten years, and a great deal of it in the last five years, due to two causes—competition and the urge of the men using this equipment.

Manufacturers are loath to give up old designs; drawings and patterns cost money. Forged steel, plate and impression cylinders, roller bearings, chain-driving and a multitude of improvements have come from the urge of the publisher's mechanical men. The press blanket situation is at present deplorable.

Previous to 1914, the type of press blanket generally in use was rubber and felt, with a muslin or tympan sheet drawn over the felt to keep the ink from the felt. This muslin was changed as frequently as necessary and there was for a great many years, particularly during the bicycle period, a great demand for it in buffing; and there was a period when the demand was so great, publishers received more for the used tympan than they had originally paid for it. It is true, considerable experimenting has been done with linoleum and cork blankets as a substitute for rubber, but I am firmly convinced the only substitute for rubber and felt blankets on newspaper presses is rubber and felt.

Something must be done to protect the felt from gathering the ink. Soon after the war broke out, the price of muslin rose by leaps and bounds. For several years there had been an effort made to coat felt blankets with a preparation that would protect the surface of the blanket from the ink; but not a great deal of encouragement was afforded to the inventors. However, with the high price scarcity of muslin, pressroom fore were inclined to experiment and in c paratively few months, there had developed a successful, coated felt blan Several people claim the invention, finally the matter came into the courts was decided in favor of one man, decision forbidding all other makers of coating blanket to continue to make sell these blankets.

We are now confronted with problem, of doing one of two thin either take this blanket at their own pr or look around for a suitable substit I yield to no one my respect for pate An inventor is entitled to reap the be fits of his ingenuity but there were many angles to this blanket coating qu tion that I am satisfied that, had the P lishers Association sensed the importa of this suit they would have interes themselves in it and carried it to the ter end. There are, I understand, seve attempts being made to find a suitable s stitute and with some measure of succ The people working along these li should be given every encouragement, a I am quite certain you cannot afford to at the mercy of any one manufacturer such an important commodity as felt pr blankets.

There are many things along these li that your Bureau of Standards and R search, or whatever name you care to c it, could be of inestimable value.

SCHMID ON CURBING CIRCULATION WASTE

mous Circulation Expert Tells How Economies May Be Made—Day of Reckless Competition Over —Advises Publishers to Hold Services of Trained Men—Turn-Over Costs $400 or $500

By JOHN M. SCHMID
Business Manager, The Indianapolis News

(Address Read on Thursday at American Newspaper Publishers' Association Convention at White Sulphur Springs)

IE newspaper publishers have in nor- mal times many great problems to e, and the complexity of these prob- s increases with each passing year. wspaper circulation departments are important part of these newspapers, in the past have contributed their e in solving these great problems. ing the past few years many economi- things have been done in the circula- department, to counteract in a meas- the ever increasing expenses.

Wrapping paper and twine have been ensed with wherever practical, canvas s and patented straps or ties taking r place.

eturns have been almost wholy elimin- l.

xchanges and "deadheads" have been off.

dvertisers' copies have been reduced minimum, clipping of advertisements g substituted.

ree copies to employes have been off, many of whom have become reg- subscribers.

ress room and mail room waste and erruns" have been largely reduced. pecial trains have been consolidated ntirely dispensed with.

uch mail matter is now being for- ded by express and baggage to reduce nsportation charges.

gents have been appointed in com- nities where individual subscriptions mail were formerly the only means listribution, bringing about a saving in ippers, time in the mailing department, transportation costs.

echanical mailing devices have been alled to replace human labor, thereby ing down the pay roll.

Office systems have been simplified in er to reduce expenses.

romotion work has been scientifically anized to reduce number of employes to prevent lost motion.

ducational campaigns have been in- urated to induce subscribers to renew scriptions of their own accord, and not end upon personal call of publisher's esentatives, thereby cutting off a big n of expense.

ubscription rates have been increased. lubbing offers have been reduced, or off entirely.

remiums and other inducements have n abandoned by many publishers, bring- about a big saving of money and at

. L. McLean, Jr., *Philadelphia Bul- in*, nicknamed "Little Nemo," with R. Michener, general manager, *Harrisburg Telegraph* (left).

the same time educating the subscriber to consider the merit of the newspaper instead of the bait that has been offered with it.

Co-operation between circulation departments of newspapers in various cities have eliminated waste of money through old methods in practice, such as paying of newsboys and dealers for representation, boosting and so-called personal service. This makes it necessary for newsboys and dealers to hustle more for themselves to make money, and the result is an increased sale of papers, and the public gets what it wants and not what is thrust upon it.

The greatest abuse in the newspaper business has always been the "return privilege," and the drain upon the resources of the newspapers incident to this privilege has been a great burden to the publishers.

The paper I represent has always been a big newspaper in number of pages, and only last month averaged aproximately 43 eight-column pages per issue.

When I assumed the management of the circulation department of The News, newspaper agents throughout Indiana, handling local and foreign papers, were making big profits on "junk," which by long standing custom was given in the form of newspapers they were supposed to sell.

Excessive return privileges, for which the paper received nothing, and for which it took no circulation credit, amounted on paper alone to over 650,000 pounds the preceding year. This meant a waste of about $13,500 annually at the current price of paper in those days.

Excessive transportation charges figured at an average of ¾ cents per pound, cost about $4,800 more, and wrapping paper, twine, and extra cost of handling these excess returns, cost an additional $1,000 —a total of $19,300.

If this practice were in effect today, the loss would perhaps reach the enormous sum of one hundred thousand dollars a year. Today, we are on a non-returnable basis, with more than 100 percent increase in circulation.

Our daily average shrinkage in October 1925, was only 421 copies in the way of "returns," in face of World Series extras.

There are of course achievements of other newspapers along similar lines. If your newspaper so far excels others in its field, it will create for itself so strong a demand that readers will have it, and if on a non-returnable basis, the dealer will push its sale to the utmost.

As long as newspapers are published, the "return privilege" must receive the most serious consideration.

"Over-runs" and "left-overs," are largely due to having too many editions. The tendency in cities where there is a large street or dealer sale, is to issue frequent editions, so-called "extras," when there is little justification for such an edition, and due to exchanges from one edition to another the surplus copies pile up.

With a little closer co-operation between editorial and circulation departments, this abuse can be cut down very materially.

Considerable waste in the press-room is caused by a bad run of paper, or due to atmospheric conditions, affecting both the running of the presses and the paper supply. In our press-room, we frequently find it necessary, in cold weather, to open a number of steamjets, to produce artificial moisture to insure better press runs. There must be the closest co-operation between mail and press room forces, to prevent over-runs on various editions.

Surplus copies are used to great advantage on our paper as tops and bottoms to our city dealers' bundles. We use practically no wrapping paper or twine on our large city circulation, using spoils on over-runs exclusively, and patented "ties," all of which comes back to us by truck, to be used over and over again. Checking copies for advertisers, and copies for office files are taken from our mail and press-room "left-over."

There can be much waste of white paper in the distribution of sample copies, unless the work is done systematically. Throwing samples here and there promiscuously is a waste of money and effort. Sample distribution should be followed by a diligent canvass either by the agent or by newspaper representatives. This will produce new business and prevent waste.

We perhaps all remember the days when free copies were given to employees of street and interburban railways, baggagemen, express messengers, depot employes, public, city employes, public officials, postal clerks, and the like. In addition to these, nearly every employe of the paper carried home a copy and in some instances he delivered one or more copies to his neighbors.

My paper does not give a single copy free to anybody, and even employes have become paid subscribers. At one time certain of our large advertisers received as many as fifty copies a day, free. Most of the papers had the advertiser's copy torn out, to be posted in the departments for information to the sales-people, and the rest of the paper was taken home by employes of the advertiser, and the publisher was thereby deprived of that much legitimate paid circulation. The advertiser now receives a limited number of proofs of his advertisement, and his employes have largely become subscribers. The matter of "Exchange" copies between publishers, until recent years, was another source of waste. Our paper has no exchange list. We prefer to subscrbe and pay for, at regular rates, for all the newspapers and periodicals we need, and in return ask those who want our paper to do likewise.

Not a single correspondent on our staff receives our paper free. This of course does not apply to our salaried representatives in distant cities.

Hundreds of thousands of dollars could be saved by publishers every year, if an effort were made to get together, and promote their respective business in a saner way.

By co-operating, I do not mean entering into agreements or arrangements that will in any way destroy competition. The life of circulation work is competition. Let there be plenty of competition, but of the constructive kind, which produces profits, rather than competition for "competition's sake alone," so often indulged in for the sole purpose of placing the opposition at a disadvantage, which usually degenerates into a contest of spending money with reckless abandon.

Competing newspapers in a given field sell to the same general public, and that public, today expects to pay a fair price for everything it buys. If you are not getting maximum prices for all of your circulation, you have a wonderful opportunity for quick results.

Scores of newspapers have during the past few years, raised their prices, in practically every case by co-operating.

AVERAGE ORGANIZATION EFFICIENCY

By LOUIS H. BRUSH

(*East Liverpool* (O.) *Review*)

Address at American Newspaper Publishers' Convention This Week at White Sulphur Springs

IN conducting newspaper properties, we all seek two very distinct results. If our success is to be continued and enduring, each one is necessary to the other.

One is profit; the other is the building of a solid, stable institution that cannot be sent topsy-turvy by a whiff of wind or a strike in the mines—and, much more to the point, by the constantly menacing competitor. In seeking this, we are dependent almost entirely on organization.

Department heads are the key men—not the kind of men around whom each separate department is developed, but men to whom every key man in the scheme of things can go for consultation and advice concerning the more important and crucial situations that develop within his own division.

These men, at least we so regard them in our own properties, should be capable of coming into the office of the general manager of the newspaper and giving an intelligent opinion on any important question that may be up for decision. They must be men whose judgment on those questions from time to time will compel the wholesome respect of the front office, and this means they must be constantly in touch and everlastingly thinking of the whole newspaper in addition to bringing their individual departments up to the highest point of production and economy in operation.

Positively, the most dangerous department head in any organization is the well known "yes" man, whose consultation, if it is sought, simply encourages the chief executive to plunge headlong into a mistake. Less dangerous, but equally aggravating is the opposite type who simply must argue the point to avoid suspicion of "yessing" the boss. * * *

The position should be filled by a man whose helpful analysis of this or that question might be of incomparable value to the management of the paper. * * *

Editorial policy matters are not by any manner of means, the only questions that come up for an organization's decision. However, we treat editorial comment when it is a matter of opinion and accurate information, most seriously. I have known our fellows to discuss and argue for three days over a public utility editorial, and it is not uncommon to hold them out until next edition. You may call it boastful, but I say this with pardonable pride and extreme confidence: I challenge the city voters in any city where we operate, to elect a councilmanic body that will treat more seriously or with more thorough analysis—or with any greater intelligence—any question of public concern on which we take an editorial stand.

We believe that when we get four or five of the key members of our organization together to discuss any subject of civic or municipal government importance, we arrive at a point that the city council seldom quite reaches. * * *

The manner in which the payroll has a tendency to crawl up and up—always up—sometimes makes me shudder, for it is so like creeping paralysis. The fact that an employe hasn't had a raise for a year doesn't begin to mean that he should be immediately boosted. The first question and the last is: has he developed himself in the organization so that he is worth more than he was a year ago, or hasn't he?

But if you ask my humble advice, I would certainly urge that you never let a good department head, who approximately answers my description of that rarity, get away from you. We feel that no newspaper needs good men more than we do, and when we get a good man, we keep him. * * *

I have found that the one most difficult thing to do in the newspaper business is to reduce the payroll. I have also found that where there is an absolute need for creating a greater breach between the total expense figure and the gross income figure—that when the profit shrinks to a disagreeably low ebb, it is usually much easier to increase the income than to reduce the expense. * * *

Mr. and Mrs. Frank B. Noyes, leaving the Greenbrier for a stroll.

It has always seemed to me that the newspaper business is of necessity different from almost any kind of productive effort. The product of a day's work is the printed page which forthwith and forever becomes history. It is a service rendered to the great public, the masses and all the classes, rather than to or within a certain trade or clientele. Moreover, it is its own mouthpiece and does all the talking to a listening audience. There is no back-talk, the speaker has the floor every day and the privilege of expounding his theories and his beliefs constantly. If anyone doesn't like it he can hire a hall and talk at most to a few hundred, while the newspaper can again issue forth within the hour to many thousands—even garbling the opponent's speech if it so wishes.

Such an opportunity as this must impress the publisher not only with the power of the press that he holds in his lone hands, but with the tremendous responsibility these privileges carry with them.

That brings forth the need for an organization of a variety that would not be contemplated in a manufacturing plant or a distributing system or a sales department. It must positively be an organization of intelligence, of fair and square motives, of keen, fearless analysis and the courage of convictions. Would you call that efficiency in newspaper organization, when the common interpretation of the term instantly connects it with economy in operation? Would you hold that sort of an organization should be sacrificed for a higher degree of economy when the very house you are building is one that must have as its foundation the absolute confidence of the newspaper reading public? * * *

I humbly submit that the real efficiency of a newspaper organization depends upon those key men who will walk right into the front office and give an honest, fearless and intelligent opinion, who will think and think, every minute of the time, of the whole newspaper problem, to make their newspaper the institution it ought to be and has the opportunity of becoming.

If it presents its opinions as a group of thinking men arrive at them rather that the biased decisions and personal prejudices that are bound to creep into a newspaper wholly dominated by one mi

Beware of the "Yessirs"; get rid of "Nosirs"; surround yourself with vertising managers, circulation manag editors and others who will think a unit in efficient newspaper managemen and you will have just what you are se ing.

MILLIONS WASTED IN NEWSPRINT TRAFFIC CAN BE SAVED BY EXPERT ADVICE

By E. M. ANTRIM

Traffic Manager, Chicago Tribune

Address this week before American Newspaper Publishers' Association at White Sulphur Springs

A TRAFFIC manager's duty is to eliminate lost motion and waste and he is, of course, primarily in the *transportation business.* Within the limits of my time I shall give some idea of the importance and profit a closer and more specialized attention to traffic will be to each newspaper.

You will recall that prior to 1915 newsprint was sold by the mills at a price F.O.B. press room.

About ten years ago all of these mills got together and told you that in the future their prices would be on a basis F.O.B. mill. Ever since that time you have been paying the freight. It is up to you to see that your cars are delivered on schedule by the carriers and to protect yourselves against excessive damage.

The paper mills are no longer interested in the volume or measure of the freight rates; they are only interested in their parity, that is, each mill has a highly organized traffic department to see that its freight rates are on relatively the same level (be it high or low) as its competitors. For example, the average distance from four newsprint producing points I have in mind to New York City is less than 200 miles and the carload freight rate on newsprint to New York from these mills is 25 cents per 100 pounds. Another mill is 319 miles from New York City and it pays the same rate. Another mill located in Maine is 404 miles from New York City and it has an all rail rate of only one cent higher and a rail and water rate exactly the same,—25 cents. In addition to being unreasonable, the 25 cent rate from the four points first mentioned to New York is also in direct violation of the long and short haul provision of the Interstate Commerce Act.

Why does this situation exist? The main reason is that the owners of these four mills know that they have as low a freight rate as any of their heavy competitors and so long as the publishers pay the freight the mills do not care to antagonize the carriers. As far as I have been able to find, the publishers have done nothing about it because they did not realize they were being stung. Here is where a good traffic man could probably save one dollar on each ton of paper shipped from those four mills to New York.

The publisher who pays the freight is the one who is vitally interested in the volume of freight rate. The publisher bears all the transportation burden and with newsprint carrying about 50 per cent. of his total publication cost, the transportation expense should have highly specialized attention.

Consider some ways in which a traffic man can make real money for a newspaper. A certain publication in New York was in the habit of taking delivery of its newsprint on railroad piers on Manhattan Island. These cars loaded with different sizes and kinds of paper did not arrive in New York in the same order that the publisher wished to consume the paper contained therein. The result was that pier storage accrued at the rate of 1½ cents per 100 pounds per day for the first five days and 3 cents per 100 pounds per day for the sixth and each succeeding day. These charges ran as high as $75. per car and totalled more than $1,000 per month. The advice of a traffic man was sought. He showed that new paper how it could hold cars not want immediately on the Jersey side for period of four days free, and at a char of only one cent for a period of five da for six periods or thirty days beyond t free time, and then float the cars to Ma hattan piers only when the paper w actually needed. He thus saved them most $1,000. per month and showed h they could get an increased amount storage at a reasonable price without a expense of unloading to and from a wa house.

E. J. Lynett, *Scranton Times*, and Miss Lynett, among those on Casino Walk.

In the past it has been the practice carriers in Central Freight Associati territory to unload carloads of newspr through their freight houses free charge. They did this because newspr is about the most desirable traffic th handle and actual unloading expense small. They recently decided, howev to assess a charge of 50 cents per t for this service in Chicago, Clevela Detroit and several other places. Tari carrying the charge were published a filed with the Interstate Commerce Co mission. A few paper jobbers asked t Commission to suspend the tariffs pen ing an investigation. Not one publish made any real attempt to forestall t effectiveness of those tariffs. The r sult is that the commission allowed t charge November 1 and you who do n have private sidings have 50 cents ton on all paper received through freig houses tacked on to your costs. It much easier to prevent a rate's becomi effective than it is to reduce or cancel

Fifty cents per ton on a car of 26 to is $13., and five good men can unload car of paper in 15 minutes. It seems me that $10.40 per hour for steved labor is somewhat unreasonable.

A newspaper's traffic manager should be given absolute control of the routing on all its freight shipments. All contracts for newsprint should reserve to the publisher the right to route the shipments on which he pays the freight. Routing is the most valuable asset a receiver of freight has in dealing with the carriers under private ownership. By means of it, your traffic man can secure for you the most efficient service in movement and delivery of your cars in good order. He can insure that your legitimate claims will be paid promptly and often he can save you money from the standpoint of a freight rate because the lowest rate does not always apply via all routes from and to given points.

More and more of our newsprint comes from Canada and Newfoundland each year. The Great Lakes and Atlantic Ocean are wonderful highways for carrying freight. It is true that many of you are located inland, but a traffic man can likely figure out a way of getting your newsprint to you at least part of the distance by water at a substantial saving. When I speak of boat freight I am immediately confronted with the statement that the damage in boat shipments is so high that it offsets any saving in freight charges. That is a problem for your traffic manager to solve. I have been working at it for several years now, and I know that paper can be handled in a boat with no greater damage than all rail traffic receives, provided every one who takes part in the operation is properly educated. The publisher must show some interest in this matter or it will never succeed. By the close of navigation this year my company will have received approximately 20,000 tons of newsprint from one mill shipped via rail and lake at a cost of $2.70 per ton less than the all rail rate, and we have seen to it that our expense for damage is no greater than that of the all rail shipments. This is our third year in this particular trade. If there is anything that needs to be executed and delivered with clocklike regularity it is newsprint. Your traffic man knows, when your press room can be supplied with the different sizes and grades. He can act as the point of contact between the press room and the mill. If you have never had such traffic supervision I will venture to say a good traffic man could materially cut down the amount of paper you have been holding in storage. The interest on a few thousand tons of paper at $80 per ton runs into money and storage charges are important.

I do not know how much car demurrage each of you pays in a year, but whatever it is it is too much. The proper coordination between a paper mill, traffic department, receiving clerk, warehouse foreman and press room will eliminate demurrage charges entirely. The paper from which I draw my salary has not paid one dollar of demurrage in the last six years.

A "pure quill" traffic manager's hobby is freight rates and their adjustment. When he has an opportunity to consider whether a freight rate or a group of them violates the transportation act he is in his element. As a matter of fact, if he can reduce your cost of newsprint, say, a dollar a ton through a reduction in the freight rate from your principal source of supply, I believe you would agree he has found sufficient excuse for his existence. Things of this sort are being accomplished quite frequently.

* * *

When I first started on this proposition our railroad damage was around 20 pounds per ton, or about 1 per cent. At that time it meant between $60,000 and $75,000 a year to us. At the present time our railway damage is less than one-half pound per ton.

Wet damage, transferred car damage, poor equipment damage and rough handling damage are all railway liabilities and they should reimburse us for all of this. Mill loading damage, incidental chafing and unloading damage we can not fairly ask the carriers to stand for. To correct these we depend on a campaign of education.

We developed our Standard Loading Rules. During this time we were busy with our unloading crews, our warehouse men and our truck men. It was a tedious process. We tried first to eliminate the damage for which we could not hold the railways responsible. We then tackled the carriers.

"Honesty is the best policy," is the rule you must follow if you want your claims paid.

During the past few years the railroads have been doing wonderful work in freight claim prevention. In 1920 they turned their special attention to shipments of newsprint paper. The American Railway Association, under A. E. Halderman, made an extensive investigation of methods of loading and handling newsprint. They inspected a total of 1,660 cars and found that the damage ran as high as 1,222 pounds per car from one mill, and out of 173 cars inspected from our own plant, they found our average damage was only 6 pounds per car. The average from all mills was 105 pounds. The loading rules they promulgated as a result of this investigation were almost an exact duplicate of our own.

No record is available as to claims paid by railroads for damage to newsprint prior to 1920, but since 1920 they have been reduced from $375,000 to $172,498.

I believe that the total economic waste this year due to transit damage will reach half a million dollars. You see there is still room for improvement. This is purely a traffic problem and you can solve it for your own publication if you have the proper traffic advice. Don't be too hasty in instructing the mill which ships you paper to cut down on the amount of wrapper they use on their rolls.

Now, if a traffic department is a profitable thing for your own individual organization, why would it not be a good thing for this association as a whole. My judgment is that it would be a wonderful thing, but I don't want you to get the idea that if you organize such a department for the American Newspaper Publishers Association it can come into your own home town and handle all of your local traffic problems. The only way a traffic manager for any association of industries can successfully operate is to handle matters of a general nature, that is: matters that effect the Association as a whole. He cannot deal with rate situations, for example, for the sole benefit of one member who is in competition with another member. The paper mills of Wisconsin and Michigan and New England for years have had traffic associations of their own to handle traffic matters of a general interest to each group and in addition, each mill has its own traffic manager. They have found the arrangement profitable. If the American Newspaper Publishers' Association had a specialized traffic department of its own it could negotiate with the carriers and paper mills in their own language upon these important subjects and in a manner which I believe would eliminate a large amount of waste and lost motion.

COOPERATION IN THE LOCAL NEWSPAPER FIELD

By T. R. Williams

(*Pittsburgh Gazette Times* and *Chronicle Telegraph*)

Address at American Newspaper Publishers' Convention This Week at White Sulphur Springs

WHY there is not more cooperation in the local field is difficult for some of us to understand, because it is thought that in some respects the greatest benefits may be derived. However, there seems to be an explanation for this lack of cooperation in the fact that there seems to be a feeling among local publishers that their chief object in life is to put other competitors out of business. Their swords are always sharpened, their axes always ground and at all times they are ready to practically drive out all opposition. In certain fields in the smaller towns where there is only one newspaper established my remarks, of course, are not applicable. These members are in an admirable position, but in the field of larger cities where there is a larger number of papers—to them my remarks are particularly addressed.

To such members it is my purpose to point out some few things that they may find grounds to cooperate upon and which might prove to be a nucleus for the formation of the local publishers' association that will without question save them many thousands if not hundreds of thousands of dollars every year, and in doing this it is not a pioneer movement at all, the ground has already been broken. It has been done by newspapers in some cities and has proved most satisfactory. I refer particularly to what the Pittsburgh Newspaper Publishers Association has done in this line. Some of you are familiar with it and it is a pleasure in referring to this association in Pittsburgh that has been in operation for 15 years or more with the idea of local cooperation obtained from Victor F. Lawson of Chicago, whose memory was so effectively eulogized by Mr. Frank B. Noyes the other day.

It is quite apparent that before we can have proper cooperation in the local field there must be an entirely different mental attitude toward our contemporary publishers. Instead of desiring to drive them out of the field there must be a feeling that next to making money for your organization you should be interested in seeing that your competitors in your local field make money. Whatever helps your competitor indirectly in raising the rates, in the promotion of their business, directly and indirectly helps your business. In Pittsburgh where this cooperation has been in effect, real competition is just as keen or perhaps keener than in most other cities of Pittsburgh's size or in larger cities, but the difference is that instead of expending resources in wasteful practices of competition, this money is expended in the direction of producing better newspapers, putting more between the column rules that the readers want, more news, more entertainment, more of the things that make the public buy the paper and more real service to the public.

The point is that if there are too many newspapers in your field why should you not select the most likely competiter to sell out, purchase their plant and equipment and discontinue the publication. This was done in Pittsburgh two years ago when the three present newspapers bought out and discontinued the publication of two other papers, reducing the number of daily papers from seven dailies and five Sundays to three evening, two morning and three Sundays. This is regarded as possibly unique in American newspaper business, but it is my belief that the principal is correct, and that it would be a very good investment for papers similarly situated to clean up the field in this way. In fact it is really cheaper than throwing away immense sums of money in useless competition.

It must have occurred that under the subject of plant equipment there is room for local cooperation that may mean a great deal to newspapers in all cities. I refer to the number of columns to the page, the width of columns, length of columns and equipment of stereotyping and press room. Some years ago in Pittsburgh there was a great divergence on these subjects. There were seven and eight column papers, there were papers 12½ ems column widths and 13 ems column widths. There was a divergence of length of column. On account of conditions during the war time period, it was found advantageous to standardize this equipment and it was standardized for the good of all members of the A.N.P.A., making a page of eight columns, 12 ems column width and 22 inch column length. In addition the stereotyping equipment was standardized in so far as it was possible to be, with the result that with one exception it is now possible in Pittsburgh to stereotype pages in any one plant for all the other papers in Pittsburgh and to print the plates on any press in any of the offices of the city. This is a distinct advantage not only because of the necessity that might arise for doing this from calamity, fire, etc., but in addition it is a great advantage because of the great amount of local advertisements that are exchanged from one office to the other. Besides this it is possible when there is a shortage of news print to exchange rolls, as has been the case in the past ten years, so that publication can go ahead in all offices without interruption. Only recently it was found that in all the Pittsburgh newspaper plants it was possible to add five agate lines to the length of column without throwing the page out of proportion. This was done at little or no expense and without the expenditure of any more money for news print, and there was added to the earning power of the Pittsburgh newspapers approximately $300,000 per year and on the basis that 60 per cent would be reflected in advertising revenue it meant an addition of $180,000 a year increase in advertising revenues.

Local cooperation furnishes to my mind the best method and in many instances the only method of helping the free publicity evil. The effective solution is to make an agreement with your competitor that publicity matter, both from the national and the local field will not be published unless paid for, and in this way every one will benefit and neither the local nor foreign can penalize or favor any paper for publishing and not publishing his publicity and you are all on the same footing.

In advertising it is not advisable to cooperate for obvious reasons, although it would seem to be the interest of every newspaper in one city to lend more help to another competitor as attempting to increase rates and bring them to a point at which they belong. It is within the scope of local cooperation to have an understanding as to what may be allowed for larger rates for advertising, also to learn what may be regarded as local advertising and national advertising. It is also within the province of the local organization to agree upon the minimum number of columns to be carried in double trucks. Possibly the most important cooperation on this subject in the local field is agreement on the amount or the absence of amount of cooperation that will be given to the national advertiser. It would seem to be a simple matter to agree with your competitors, for instance, to recognize the A.N.P.A. recommendation on the subject of cooperation with advertisers and then all stand pat, as you will all be in the same boat and the national advertiser cannot favor nor penalize any one.

It is scarcely a matter of cooperation for newspapers in the local field to get together and agree upon subscription prices, but after the subscription prices have been determined individually, it is not an improper matter for the local publishers to decide upon a date for putting into effect the subscription prices for both the daily and the Sunday. It is also advantageous to agree upon the territory in which these rates will apply, to agree upon commissions to branch offices and dealers, to agree to eliminate free copies and upon the number of copies given advertisers for checking purposes.

Possibly the greatest saving in circulation can be made if the publishers can be brought together and made to see the advantage of eliminating the giving of premiums in soliciting subscriptions and in the elimination of conducting contests and awarding prizes in subscription campaigns.

On the subjects outlined above the Pittsburgh newspapers have been cooperating for a number of years. It is no longer an experiment, it is an established fact that it has advantages. It cannot work to the detriment of any newspaper because in the Pittsburgh Association the rule is that all agreements must have the unanimous vote of all members before becoming effective and it is also the privilege of any member to abolish any agreement upon 60 days notice, if that member finds that the particular agreement may be working to his disadvantage.

It is therefore a matter of working our local problems to the mutual advantage and whenever a member finds that an agreement is not working right, he can have it changed.

Taking Classified on Typewriters

The *New York Times* has installed a new system whereby classified ads are taken on typewriters equipped with special carriage rolls with a capacity of 200 ad blanks. The new roll was designed by Louis M. Snyder of the typewriter department and places no extra weight on the carriage, it is said. All 30 positions in the classified department have been equipped with the new system. The typewritten copy is expected to increase production in the composing room and eliminate "free-for-error" often due to illegible handwriting.

Dodge Gets G.O.P. Post

Arthur J. Dodge, for many years a Washington correspondent, has been appointed assistant to the chairman of the Washington headquarters of the Republican National Committee, succeeding L. White Busbey, deceased. Mr. Dodge will direct preparation of literature in national campaigns.

Page Leaves Wurlitzer

C. W. Page, advertising director of the Rudolph Wurlitzer Company, Cincinnati piano and music house, has resigned to return to Richmond, Va., where he formerly conducted an advertising agency, the C. W. Page Company.

ADVERTISING AGAIN VEXING TRADE COMMISSION

But Publishers Deny to Editor & Publisher Existence of Alleged Coercion of Newspapers by Local Merchants Against Mail Order Advertisers, Who Demanded Investigation

By J. BART CAMPBELL

(*Washington Correspondent of* EDITOR & PUBLISHER)

WASHINGTON, D. C., Nov. 11.—The Federal Trade Commission has begun an investigation, under cover as usual, of a complaint registered by mail order advertising interests against local merchants dictating the advertising policy of local newspapers by giving them the choice between accepting local or mail order advertising. Smaller newspapers, it is alleged, are particularly affected by a standing threat of local business men's organizations that if mail order advertising is carried, local merchants will withdraw their announcements.

It is hinted unofficially that the commission may seek to require newspapers to accept mail order advertising despite the objection of local merchants and it is said that some newspapers have already indicated that they would welcome such an official order from the commission. The commission, it is stated, has been so informed by officials of a number of newspapers and may soon issue a complaint. In that event, under the present rules, the complaint would not be made public until an answer was filed or decision recorded.

By PHILIP SCHUYLER

WHITE SULPHUR SPRINGS, W. Va., Nov. 12.—Newspaper publishers decide their own advertising policies, without the aid or advice of department stores or mail order houses, it was generally asserted by newspaper men attending the A. N. P. A. convention, when questioned regarding the Federal Trade Commission's investigation of coercion of newspapers by local merchants against mail order advertising.

As to whether mail order advertising should be accepted, opinion was divided. While some held that all legitimate advertising should be accepted by a newspaper, others declared mail order copy should be refused. But which ever policy was arrived at, all said it was not the result of department store or mail order dictation.

The controversy hinges on the question, "is advertising a service or a commodity," it was asserted. Newspaper publishers here showed themselves inclined to regard it as a service, with which no one might interfere.

S. E. Thomason, *Chicago Tribune,* and association president, was one of those who believed mail order business should be refused by a newspaper.

"We do not print mail order advertising," he said, "not because of any threat by department stores, but because the mail order method of doing business is not congenial to the method of distribution on which the success of newspaper advertising depends. That is, the distribution through local wholesalers, jobbers and retailers.

"If the mail order method of distribution is correct, distribution through local dealers, wholesalers, and jobbers is incorrect.

"We are committed to the latter method."

An opposite view was taken by Louis Wiley, *New York Times.* "We treat all advertising on its merits," he said. "If the advertised product is genuine and meritorious, the Times will accept the copy. The only business we refuse is refused in the interest of our reading public."

Of the same opinion was Edwin S. Friendly of the *New York Sun.*

"No department store has ever threatened to withdraw its patronage because we accepted mail order advertising," he declared.

"We accept mail order advertising, have never refused to publish it, and see no reason why we should, providing it comes from a reliable firm, and the copy is truthful and not exaggerated."

"Of course we refuse mail order advertising," was the terse comment of Fleming Newbold, *Washington Star.*

"Mail order houses do not pay Washington taxes or rent. They are not, in fact, identified in any way with merchandising in Washington."

Frank E. Tripp, general manager of the Gannett newspapers, said:

"In five New York cities with which I am familiar, Rochester, Utica, Elmira, Ithaca and Newburgh, there has been no concerted scheme or effort on the part of local advertisers in any way to attempt control of newspaper policies. The principal interest of local merchants is at present rather concerned with house-to-house solicitation, which constitutes a serious menace to local advertisers and also national advertisers who depend upon retail stores for distribution."

"We would print all legitimate mail order business," Frank E. Gannett, president of the newspaper group said.

"While there are some lines of mail order advertising we would not accept, we would print all legitimate copy offered," was the view of T. R. Williams, *Pittsburgh Chronicle-Telegraph.*

"The question hasn't come up in my city but I certainly will refuse mail order business," declared John Stewart Bryan, *Richmond News-Leader.*

A. C. Deuel, *Niagara Falls Gazette,* said: "We accept some mail order business and reject others, but not because of any request or threat on the part of our local merchants."

All Philadelphia newspapers accept mail order business, according to Rowe Stewart, *Philadelphia Record.* "We have had no complaint from department stores. In fact, three dailies in Philadelphia in their classified departments run between two and three pages of mail order advertising every day. Some display advertising from mail order houses is also printed."

"We accept a limited amount of mail order business," stated W. B. Bryant, *Paterson Press-Guardian.* "Our sel tion depends on whether or not the adv tising is legitimate."

Hilton U. Brown, *Indianapolis Ne* made the following statement:

"Newspapers censor advertising mat the same as news matter. I don't kn that the procedure is any different n than it ever was, that is, we exercise discretion as to what we print.

"I believe, for instance, we print so medical advertising and some financi and some we don't. The same judgm pertains to mail order business, Flori real estate and political advertisemen The advertising department doesn't any blanket rule in rejecting any classi cations, but treats all on the merits of offerings."

T. F. Merseles, president of Mo gomery Ward & Co., Chicago, made t following statement to EDITR & PU LISHER:

"Selling goods by mail is a legitima method of merchandising. The m order business is fundamentally an eco omic good to this country. Mail ord catalogs bring into homes standard f price comparison.

"During the war when merchandi brought any price, the mail order catal was the one big factor that kept pric down to fair levels in thousands of con munities. That was an economic good a price-maker and stabilizer.

"The mail order catalog has save millions of dollars for the America people. It has been said mail ord houses are taking away a large volum of orders from local stores througout t country. The director of the Retail R search Association of the United Stat in classifying the total volume of reta trade, shows that mail order houses all kinds taken together do but 4.6 pe cent of America's total retail business.

"My personal opinion is that the ma order catalog has helped the small me chant more than it has hurt him. It ha given him a healthful stimulus that ha bettered his merchandising methods. has made him a better business man an therefore increased his business.

"While at present we do not offer ou advertisements to local papers ther seems to be no good ground for its re fusal if offered."

CARROLL SEES DANGER

Court Order to Force Acceptanc of Advertising a Menace

(*By Telegraph to* EDITOR & PUBLISHER)

INDIANAPOLIS, Nov. 12.—"I believ the policy of newspapers generally, ex cept possibly in metropolitan centers, i to exclude mail order advertising as un fair competition with local retail store who are paying taxes, wages, etc., i upbuilding the city and using columns o local newspapers liberally to promot sale of merchandise, said Frank T. Car roll, advertising director of the *Indiana polis News* and president of the Associa tion of Newspaper Advertising Execu tives. "My impression is that a pub lisher of a newspaper has the privileg of excluding any advertising which h deems objectionable either as to subjec matter, illustration, or as conflicting witl the established policy of the newspaper

"I can conceive that the newspape publisher would be seriously embarrasse if any court ruling would force him t accept and publish advertising that th publisher did not desire to carry, sinc this might automatically force many pub lishers with a strict ruling as to the typ of medical and financial advertising car ried to change the entire character of hi publication and thus make it a much less valuable advertising medium for the othe advertisers whose copy he is willing t accept."

Hunting-Accidents Increasing And Statisticians Urge Code Of Safety Rules For New Season

UNDERWOOD-UNDERWOOD INT. NEWSREEL

With the approach of colder weather a new activity has developed among the sportsmen of the country. Shot guns are being overhauled for the season of hunting ahead and camping outfits are in the process of refurbishing.

Timely advice is offered at this stage to the adventurer who finds his thrill in stalking game, and, if it is heeded, it should serve to remove from that sport the most tragic of its features—the accidental deaths that yearly exact such a tremendous toll of lives. The words of caution are given by the Prudential Insurance Company's statistical department, which recognizes the necessity for extreme care among those who venture into the woods with fire-arms.

"Don't take it for granted," the huntsman is told, "that an 'unloaded' gun is safe. Many persons have been victims of 'unloaded' weapons.

"Be safe, not sorry, in shooting at your quarry. In dense undergrowth it is easy to mistake a man for an animal when only part of his body is visible. Look before you shoot.

"Don't climb a fence with a shot gun or rifle in your hand. There is danger of death through slipping or dropping the firing piece.

"Be watchful of danger spots in the pursuit of game. Animals may venture where man may not. Many hunters have been swallowed up without trace through carelessness in this regard.

"In all friendly scuffling see that fire arms have no part. Victims have been slain by their best friends through failure to exercise this caution."

The wisdom of this advice is attested by the records of death claims paid last year by the Prudential to the dependents of hunting accident victims. A boy of sixteen, hunting with two companions, lost his life because of this lapse from eternal vigilance. The group reached a small stream and it was decided that one, who wore boots, should carry the others across. He shouldered one and carried a shot-gun in either hand. Arriving on the opposite bank he put down his companion and handed him the rifles. There was an accidental discharge of one, the shot ricocheted from the rock and struck the boy who had been left behind on the other bank. Tragedy.

A hunter started out early last Christmas morning to bag rabbits. In climbing a fence he thrust his gun through stock first and the trigger was pulled by a twig. Instant death ensued.

Another Nimrod stopped to roll a cigarette and made the fatal mistake of leaning on the muzzle of his gun while doing it. A slip, a shot, and another life sacrificed to recklessness.

Newspaper offices are now being deluged with this cunningly concealed free advertising for an insurance company that, considering its huge profits, should flush at such a measure to promote its interest at the expense of the daily press.

RADIO ADVERTISING CONDEMNED BY CONFERENCE

ourth Assembly of the Industry's Leaders Under Hoover's Chairmanship Finds Broadcasting of "Direct" and "Mixed" Advertising Always Objectionable, and Indirect Advertising Potentially Harmful

By J. BART CAMPBELL
Washington Correspondent of EDITOR & PUBLISHER

ASHINGTON, Nov. 12.—A smash-ing blow at the use of the radio for vertising purposes was dealt this week the fourth annual radio conference d in the big assembly room of the ited States Chamber of Commerce der the auspices of the United States partment of Commerce.

The report of the committee on ad-tising and publicity, in which both ect and mixed advertising on the radio re strongly condemned as objection-e to the listening public, was adopted animously by the large gathering of dio manufacturers, experts and editors. Resolutions reported by the committee re adopted which placed the conference record as deprecating the "use of radio oadcasting for direct sales effort, and y form of special pleading for the oadcaster or his products, which forms e entirely appropriate when printed or ough direct advertising mediums."

The stamp of unqualified approval ven the committee report by the con-ference was one of the most far-reaching d significant of the many important ves made by the conference toward the provement of radio conditions.

The text of the committee report fol-lvs:

'The Committee divided advertising or blicity into three classes:

'1. Direct advertising.

'2. Mixed advertising.

'3. Indirect advertising.

'It was the concensus of opinion that th direct and mixed advertising were jectionable to the listening public. In ct, indirect advertising could be made trimental to the interests of both the blic and the broadcasting station.

"Advertising to achieve its best results rst create the good will of those to om it is addressed. Hence the first quisite in the successful operation of y broadcasting station in which the ex-cellence of programs depends largely on the support of the advertiser is the esentation of the material transmitted such a manner that it may appeal to e majority of the listening public.

'The following resolution has been animously adopted by this committee r the guidance of all broadcasting sta-ons:

"WHEREAS, The excellence and public rvice value of radio programs is in-eased by the support of those seeking propriate publicity,

"AND WHEREAS, The use of inappro-iate publicity methods meets with the arty disfavor of the listening public,

"AND WHEREAS, This public disfavor fatal to the purpose of those seeking blicity and good will, as well as detri-ental to the interest of the broadcaster d all branches of the radio industry,

"RESOLVED, That it is the sense of this mmittee that the best interests of the tening public, of the radio industry, and the broadcaster, are all served by that rm of broadcasting which provides a eritorious program of entertainment d educational nature and which limits elf to the building of good will for the onsor of the program whether he be e owner of the station or a subscriber ilizing its facilities,

"RESOLVED, That the Conference depre-ates the use of radio broadcasting for rect sales effort, and any form of ecial pleading for the broadcaster or his oducts, which forms are entirely appro-iate when printed or through direct ad-rtising mediums,

"RESOLVED, That the Conference con-rs in the suggestion of the Secretary of mmerce that the problems of radio blicity should be solved by the indus-y itself and not by Government com-lsion or by legislation, and

"RESOLVED, That the Conference urges on all owners of radio broadcasting ations the importance of safeguarding their programs against the intrusion of that publicity which is objectionable to the listener and consequently detrimental to others in the industry, as well as to the reputation of the individual broadcasting station."

Upon the suggestion of Secretary of Commerce Hoover, who presided, the conference agreed that no more licenses be issued to proposed broadcasting stations until the present air congestion has been reduced materially.

Mr. Hoover stated plainly that no more wave lengths are available and resolutions limiting the number of stations on the air were adopted unanimously. Approximately 175 proposed broadcasting stations now seeking a wave length will therefore have to wait until more are available.

Another resolution adopted recommended that the Department of Commerce carefully scrutinize the sale of wave lengths so that the possibility of speculation be eliminated. Consideration was given to the fact that wave lengths already have been sold for the purpose of profit.

International broadcasting and the exchange of programs between the United States and foreign countries were discussed as certain events of the near future. David Sarnoff, vice-president of the Radio Corporation of America, announced his organization soon hopes to exchange programs with England and Germany.

Arthur Lynch, of New York, explained the arrangements being made for the international week tests which, to be conducted during the last week in January, will afford American listeners an opportunity to hear European radioed concerts.

Spokesmen for the American Society of Composers, Authors and Publishers revived the copyright controversy and suggested as a present, "and perhaps only temporary solution of the subject, that it continue its present system of licensing the use of the works of its members for broadcast performances, by individual bargaining with users of its copyrighted musical works, and that the Broadcasters' Association and the Society respectively promptly appoint committees representing their respective organizations, to continue conferences on this subject, and endeavor thus to work out a solution of many vexing and difficult problems."

"TO GET DISTRIBUTORS AND SELL QUICKLY WE USE THE DAILY NEWSPAPER"

By Lee Fleming, Sales Manager, Flyer Garment Company, Fort Smith, Ark.

An excerpt from an address made before Advertising Clubs under the auspices of the National Speakers' Bureau, Associated Advertising Clubs of the World.

"THE newspaper, we have found, is the great selling medium.

When we want to increase sales in any territory and increase them quickly, a newspaper campaign in that locality, without exception, will move the goods from the dealer's shelves and create a demand for our product in stores of the dealers not stocking our brand.

"When we wanted additional dealers in a territory, a newspaper advertising schedule in the hands of the salesmen invariably added the new dealers.

"There is as much difference in the results from different advertising mediums as there is difference in the mediums themselves. In advertising our overalls we use newspapers, farm papers, magazines, painted bulletins and signs. A check over a period of years has taught us what to expect from each type of medium and in most instances they run true to form year after year.

"Farm papers build a substantial background for our product. It is a slow process as the farmer is not a person to be easily influenced. Our experience has convinced us that the greatest value to be had from farm papers is a continuous campaign over a long period.

"Magazines bring more inquiries and create a confidence and dignity for the product. Painted bulletins are a reminder that ties the advertising to the local dealer and are of value in keeping the public familiar with the brand.

"But the very nature of a daily newspaper is favorable to creating immediate sales. The fact that a newspaper is born and dies today, and tomorrow an entirely new one comes into existence, creates the thought of action in the reader's mind. The opportunity is present. It may be gone tomorrow, and creating the psychology of action is the most important of the four steps to a sale: Attention, Interest, Desire, and Action.

"In newspaper advertising there is the same opportunity afforded by the other mediums to get attention, interest and desire, with the added advantage of creating the thought of action.

"Monthly publications give the impression of leisure to the reader's mind. He may be attracted and interested, but there is no hurry. Another won't be published for a month. That is the reader's impression. The same is true of bulletins and signs, there is a permanency in connection with them that does not suggest immediate buying.

"The daily newspaper gives the thought of action without stating it. The paper is published today amid a rush and hurry. Tomorrow it is gone. Today's news is stale tomorrow and yesterday's opportunities are gone today. The buyer has learned to read today's newspaper to find today's buying opportunities. Daily newspapers are the greatest action getting mediums on earth. When we want to sell our goods and sell now, we use the daily newspapers."

DAILY ROTO SECTION ON MIAMI TAB

Vanderbilt Tabloid Printing Four Page Supplement With Regular Edition—Eight Pages on Sunday

A daily rotogravure section of four pages became on Oct. 29, a regular feature of the *Miami Illustrated Daily Tab* one of the Vanderbilt newspapers.

Thus far the daily rotogravure section has been devoted about equally to local pictures syndicated pictures and advertisements. The first page carries every day the pictures of one of more prominent Miami business and professional men, according to Frank Bailey, general manager.

Because of the distance to the nearest rotogravure plant about two weeks elapse from the time rotogravure pictures pass through the editorial room until they appear in the paper. This difficulty is overcome, Mr. Bailey said, by using timely pictures in the four pages of the black and white section and interesting, but not necessarily timely pictures, in the roto section. The inauguration of the daily rotogravure has not changed the Illustrated Daily Tab's policy of using eight pages of rotogravure every Sunday, Mr. Bailey stated.

The Miami Daily Tab is the second U. S. newspaper to use daily roto. The *New York Evening Post* launched a daily section April 1 this year. It was discontinued June 27.

100 Years at Same Office

During 100 years of its 121 years of life the *London Morning Advertiser* has been published from the same offices in Fleet street, and the Incorporated Society of Licensed Victuallers commemorated centenary at a luncheon recently. It was recalled that 75 years ago the paper gained a circulation second only to that of the *London Times*. The Morning Advertiser is the only daily newspaper in England whose profits are devoted entirely to benevolent works, providing pensions for needy members of the Society and free education for their children. James Grant, early editor of the paper aided largely in the growth of Reuter's.

CONVENTION PAUSES TO PAY LAWSON TRIBUTE

Publishers Saddened by Death of Chicago Daily News Owner Hear Tribute Read by Frank B. Noyes

(*By Telegraph to* EDITOR & PUBLISHER)

WHITE SULPHUR SPRINGS, W. Va., Nov. 10.—Publishers gathered here today for the convention of the A. N. P. A., paused a short while at their opening session to pay tribute to the memory of Victor Lawson, late publisher of the *Chicago Daily News*.

FRANK B. NOYES

A eulogy of the Associated Press founder was read by Frank B. Noyes, publisher of the *Washington Star* and A. P. president, as follows:

"It is not as a transcendent genius who through the exercise of mental powers beyond those of normal men created a great newspaper that was also amazingly prosperous financially that we remember Victor Fremont Lawson, but as the simple, honest gentleman, who believed that a newspaper could be conducted on the same lines and with the same limitations as those on which his life was lived and found his faith well grounded.

"I first met Mr. Lawson nearly forty years ago, for more than thirty years we were closely associated and I held him as a very dear friend. In all these years I never knew him to fail to meet a duty, I never knew him to be unfair in his dealings with any man or woman and I knew of countless kindnesses of his to others, though I knew of only a fraction of his generosity.

"Holding the highest ideals for newspapers he steadfastly pursued those ideals in his own newspaper, always refusing to be led into less worthy ways however successful they might seem to be.

"All familiar with the civic life of Chicago know of his sustained devotion to the betterment and development of all that was good in that city. It seems to me that no citizen ever made a more complete dedication of heart and mind and purse to the real betterment of a community than did Victor Lawson to the city of Chicago.

"One of his monuments is the Associated Press, which I think owes its existence to his passion for honesty and truth in news. He would be the first to add another name on that monument, the name of his partner from early manhood, Melville Stone.

"It is not in my heart or mind to list the material successes of Victor Lawson. From my knowledge of the man, I am sure that they were not of controlling importance in his scheme of life.

"Herbert Spencer wrote, 'Not as adventitious therefore will the wise man regard the faith which is in him. The highest truth he sees, he will fearlessly utter, knowing that, let what may come of it, he is thus playing his right part in the world—knowing that if he can effect the change he aims at—well; if not—well also; though not so well.'

"This, I think, was Victor Lawson's code: to strive for the best attainable, if he succeeded, well; if not, well also, though not so well.

"I would like to dwell a little time on some of the characteristics of the man we honor today.

"He was a man of great ability and of remarkable judgment. He had a sturdy common sense. Not governed by intuitions or aided by flashes of genius he reached his conclusions after careful deliberation and really laborious thought.

"What shortened this deliberation and lightened this labor was his high ethical sense. No time was lost in deciding between what was right and what was expedient. His response was automatic in such cases and they are many.

"Of his many admirable characteristics, his courage, his patience, his tolerance, his consideration, his tender kindness were notable but I think I most often dwell in my own mind on his beautiful serenity—a serenity of character and of conduct.

"I have been with him under many varying conditions, happy and sorrowful, in conferences with others when much bitterness was expressed and when anger was uppermost; when he had been wronged by opponents or friends; and always there was the same wonderful serenity of pleasure, of approval or disapproval or of grieved surprise.

"Shy, modest, reserved, he was sometimes regarded by those who did not really know the man as cold and unapproachable. He was in fact the reverse. He loved his fellow men, any kindness or tenderness to him touched him to the soul and he craved, I think, as much as any man I know the good opinion and affection of those with whom he came in contact.

"He was too hard a worker and his mental inability to share his burdens with others made him do much work that I feel he should have put on others.

"I have spoken in my own halting fashion of the man we honor today, dealing only perfunctorily I fear with his great ability and extraordinary successes, because these I confess are not uppermost in my heart. I am proud of him as a great newspaper man but I loved him for his simple self.

"Mr. Adolph Ochs in a noble tribute to Mr. Lawson alluded to him as Christian gentleman. Christian in the sense of being a practiser as few men are of the teaching of Him who taught that we should do unto others as we would they would do unto us, and to love our neighbors as ourselves.

"I pray that today he knows that we take pride in his achievements, that we acknowledge our great debt to him as a leader in our calling and that we hold him in our hearts very tenderly, very lovingly."

DRIVE FOR MEMBERS

New York Advertising Club Start Intensive Campaign

During the week the Advertising Club of New York launched a novel drive to increase its membership to its full quota of 2,250.

Several hundred active members were brought together at a luncheon at the Hotel Astor and Gilbert T. Hodges announced that each person present had been put in charge of a squad to bring in new members during the drive.

A long list of attractive prizes were offered to the squads delivering the highest number of acceptable candidates.

Radio Writers Organize

The National Association of Radio Writers was organized at Washington this week, by writers who attended the Fourth National Radio Conference. Harry La Mertha of the *St. Louis Globe-Democrat*, was elected president, Stephen L. Coles of the *New York Herald Tribune*, vice-president, Thomas Stevenson of Washington, secretary and Stuart C. Mahanay of the *Country Gentleman*, treasurer.

Councilman Sues for $25,000

H. E. V. Porter, president of the Jamestown, N. Y., city council, has brought suit against the *Jamestown Journal* for $25,000, charging he was libelled in a political advertisement in that newspaper.

SONGS OF THE CRAFT

(*Written Exclusively for* EDITOR & PUBLISHER)

By Henry Edward Warner

ADVICE-TO-THE-LOVELORN

Advice-to-the-Lovelorn sat in state
In the hole that he called his den,
And pondered deeply the swing of Fate
In affairs of the things called Men;
He lit his pipe and he puffed away
And he stroked his whiskery face
As he muttered: "Well, it's a sorry day
For the rest of the human race!

"Now I, I never have fooled with love
Nor stuff of the heart, not I!
I have never sung with the turtle dove
Nor heaved with a lover's sigh.
I'm Sister Anna, the Lover's Friend,
And they come to me for advice;
I throb for them, but I don't unbend—
I am built like a cake of ice!

"I know the dope! . . . I know this game
From Eve to the crack of doom!
And ever and ever it's ever the same,
And the sum of it all is gloom!
For I can read, and the thing I read
Is a story of grief and pain;
For a lover's heart, it will always bleed,
Yet he'll do it all over again!

"And the Girl . . . poor thing! I almost weep
As I think of her troubled plight!
Can't eat, can't work, can't dance nor sleep,
And bathes in her tears all night!
And Sister Anna will calm their fears
And tell them that love is true,
But the saline bath of a young love's tears
Is a picture in deep dark blue!"

Advice-to-the-Lovelorn sat alone
And stroked at his beard, did he,
And muttered with Puck in a sneering tone:
"What fools these mortals be!"

NEW SHOPPING NEWS IN MILWAUKEE

Five Firms Cooperate in Publication—To Print 100,000 Copies Weekly —A. G. Heinmiller Named Manager

Milwaukee is again to have a shoppin news it was learned this week with th announcement that the *Downtown New* published for several months last sprin by a private individual is to be revive on a cooperative basis by a group downtown stores. General Manager Kent Cooper, of th A. P., was the guest of honor and a dressed the members on the work of th general organization and the state ass ciations.

C. W. Danziger and T. R. William of the Gazette Times and and Chronic Telegraph and Charles F. Lewis, of th *Pittsburgh Sun*, also spoke.

TRAIL BLAZERS OF ADVERTISING

How Barnum Promoted His Woolly Horse

by Chalmers L. Pancoast

COPYRIGHT 1925 BY EDITOR & PUBLISHER CO.

This is the second installment of Chalmers L. Pancoast's vivid narrative of advertising in the early days when P. T. Barnum and Buffalo Bill were the chief exponents of the art of publicity.

Chapter III

The Woolly Horse

BARNUM also confesses to getting up enterprises which were genuine humbugs. The most notorious was the Woolly Horse, which Barnum put over on the public through sensational stories followed by a most unusual advertising campaign.

In the summer of 1848 while in Cincinnati, O., with General Tom Thumb, his attention was attracted by handbills announcing the exhibition of a "woolly horse."

Being always on the lookout for everything curious, with which to amuse or astonish the public, he visited the exhibition and found the animal to be a veritable curiosity.

It was a well-formed horse of rather small size, without any mane or the slightest portion of hair upon the tail. The entire body was covered with thick black hair or wool curling tight to the skin. It was a mere freak of nature, and a very curious looking animal.

Barnum purchased the horse and hid him away in a barn in Bridgeport, Conn., until the proper advertising opportunity arrived. This came very quickly. Col. Fremont was lost in the trackless snows of Colorado. The public was greatly excited over it. Serious apprehension existed that the great soldier had fallen a victim to the severe winters of Colorado.

At last the newspapers announced he had come through his trying experience safely. Barnum here saw a chance for the "Woolly Horse." He was brought from Bridgeport to New York and hidden in a stable where no curious eye could reach him.

The next day newspapers carried a sensational story that Col. Fremont and his hardy band of warriors had after a three days' chase succeeded in capturing, near the river of Gila, a most extraordinary nondescript, which resembled a horse, but which had no mane or tail, and was covered with thick wool.

The newspapers further reported that Col. Fremont had sent this wonderful animal as a present to the U. S. Quartermaster.

Two days after this sensational newspaper announcement, the following advertisements appeared in the New York papers:

"Col. Fremont's Nondescript or Woolly Horse will be exhibited for a few days at the corner of Broadway and Reade street, previous to his departure for London. Nature seems to have exerted all her ingenuity in the production of this astounding animal. He is extremely complex—made up of the elephant, deer, horse, buffalo, camel and sheep. It is the full size of a horse, has the haunches of a deer, the tail of an elephant, a fine curled wool of camel's hair color, and easily bounds 12 or 15 feet high. Naturalists and the oldest trappers assured Col. Fremont that it was never known previous to his discovery. It is undoubtedly 'Nature's last,' and the richest specimen received from California. To be seen every day this week. Admittance 25 cents; children half price."

The building where he was exhibited, opposite Stuart's old dry-goods store, was mounted by several large transparencies representing the "Nondescript" in full flight, pursued by the brave Fremont and his handful of soldiers. The streets were also lined with handbills and posters, illustrating in wood-cuts the same thrilling event. If the nondescript had made the fearful leap represented, he would have jumped not less than five miles; and if he was alive when he struck on the other side of the valley, I imagine even the speed of Fremont's horses would never have overtaken him.

In his account of this stunt Barnum says:

"My agent tried 'Old Woolly' in several of the provincial towns with tolerable success, and finally he was taken to Washington to see if the wool could be pulled over the eyes of the politicians. It was done successfully for several days, when Col. Benton, ever regardful of the reputation of his son-in-law, caused my agent to be arrested on a grand-jury complaint for obtaining from him twenty-five cents under false pretences, and the Senator from Missouri testified, that having no mention of this horse in any of the numerous letters received from his son-in-law, he was sure Col. Fremont never saw the animal.

"Such testimony could not prove a negative. The complaint was ruled out, and 'Old Woolly' came off victorious. The excitement which Col. Benton unconsciously produced added materially to the receipts for the succeeding few days. But, always entertaining the greatest respect for 'Old Bullion,' and out of regard to his feelings, I ordered the horse back to Bridgeport, where in due time he gave his last kick.

"For some time, however, he was turned loose in a field lying on the public road, where occasional New York patrons recognized their woolly friend in his retirement."

Advertising men today still talk about Barnum and his sensational advertising stunts. There is no doubt that Barnum was a very keen student of human nature and knew how to make an advertising appeal to the masses. He played on such chords in the human mind and heart as curiosity, humor, and the desire for melodrama, the strange and unusual.

Barnum's "Woolly Horse" was another fake but adroit advertising whetted public curiosity and crowds poured in

Chapter IV

Buffalo Bill — Famous Scout and Showman

BUFFALO BILL—Honorable Wm. F. Cody—was another old-time hero, and a notorious buccaneer in the advertising game of yesteryear.

This Buckskin Bravo was a great showman, a clever stunt and trick advertiser, and a smooth manipulator for free publicity.

The notoriety which Buffalo Bill received through being nationwide advertised as the Buckskin Hero of dime novels, made him a hero of thousands of red-blooded American boys in the early days.

Buffalo Bill dime novels were sold by the hundreds of thousands. Such titles as "Deadly Eye, The Unknown Scout"; "Kansas King, or, The Red Right Hand"; "Border Robin Hood, or, The Prairie Rover"; and "The Phantom Spy," or, Pilot of the Prairie," won him fame as a fighter.

Those old thrillers, read in the quiet and secret back-of-the-barn library, such as "Buffalo Bill's Bet," or, "The Gamblers Guide," will long live in the memories of many American boys, who are today some of our big executives. He simply rode and shot his way into the hearts of thousands of boys.

Perhaps one of the most famous authors of "Buffalo Bill" novels was Col. Prentiss Ingraham who wrote for Beadle's Half Dime Library, which was the most popular boy's publication in the 'eighties and 'nineties.

One well remembered masterpiece was Buffalo Bill's Mazeppa Chase, or, Dick Dearborn's Death Ride. The deep mystery of the black mustang was a story of Buffalo Bill, which was purely fiction, but it gave him credit for shooting his way through a band of desperadoes and rescuing the son of an army officer.

To American boys Buffalo Bill was not merely a dime novel hero. They knew he actually existed. Perhaps they had read of his real exploits; that Buffalo Bill, in less than 18 months, while employed as a hunter of the construction company of the Kansas Pacific Railroad, in 1867, killed nearly 5,000 buffalo, which were consumed by the 1,200 men employed in track-laying.

He was one of the famous plainsmen, employed by the Government as guide and scout against the Comanches. He lived an exciting and thrilling life which made good material for the dime novel writers.

This old Indian Scout had been advertised with thrills and heart-stopping escapades before he appeared as a showman. Then when the real Buffalo Bill came along with his Wild West Show, the minds of American people were stirred and their hearts sent jumping by his advertising of the real "Wild and Woolly West Exhibition."

The flaring, colorful billboards of Indian massacres, wild horse bucking, daredevil riding, hair-raising Indian dances was popular advertising—it caught and set fire to the imagination of American boys.

The story of the attack on the old stage-coach by a band of blood-thirsty red devils was the most sensational advertising of its day. People knew it was merely an exhibition, but somehow Buffalo Bill's personal appearance gave it a touch of reality.

Thousands of thrilled readers went to Buffalo Bill's show to see the bloody stage-coach massacre. As the rocking old stage dashed around the arena, a band of yelling Indians dashed after it, held it up and were about to scalp the driver and passengers. The Indians wore war-bonnets of feathers, and their faces were painted hideously.

This was one of Buffalo Bill's great advertised attractions. The Indians always outnumbered the passengers. With mighty war whoops, which thrilled the breathless crowd, the Indians were about to burn the poor white victims at the stake when, just in the nick of time, came the rescue party headed by no other than Buffalo Bill himself.

The yipping, madly riding cowboys, then engaged in a spirited pistol duel with the Indians who finally escaped on their ponies.

The Wild West Show was an event which lent itself to sensational advertising, and Buffalo Bill knew all the tricks of staging and advertising his show. He always led his wild west parade. His buckskin suit, big black sombrero, high boots, black shirt with white buttons and lurid crimson neckerchief made him a striking figure. He rode a spirited mustang and his saddle was ornamented with silver.

The stage hold-up was one of Buffalo Bill's most widely and successfully advertised attractions. The show actually lived up to its thrilling advertising, because the exhibitions were put on by men who could ride spirited horses, who could conquor wild, bucking broncos, who could rope and throw jumping steers, and who could shoot Indians dead with blank cartridges.

His advertising copy was a review of wild west history; it exploited a pageant of a passing era, of events which had once been the daily life of famous heros and frontiersmen.

STONE WHICH SAW BIRTH OF THE PRESS NOW SHRINED ON MISSOURI CAMPUS

Sir Esme Howard Presents University with Relic from St. Paul's Cathedral on Behalf of Empire Press Union

COLUMBIA, Mo., Nov. 10.—A stone from walls which have looked down upon three centuries of British journalism was presented today to the University of Missouri by Sir Esme Howard, British Ambassador to the United States. The stone, which will now be exhibited on a pedestal of Missouri limestone in the Jay E. Neff Hall, devoted to the School of Journalism, was accepted for the University by George B. Dealey, president of the *Dallas News* and a former vice-president of the Associated Press. Following the ceremony, the University conferred the degree of Doctor of Laws on the Ambassador and Mr. Dealey. E. Lansing Ray, editor of the *St. Louis Globe-Democrat*, as chairman of the executive board of the board of curators, presided, and other newspaper men present included R. E. Stout, *Kansas City Star;* W. Laurence Dickey, *Kansas City Journal-Post;* Louis T. Golding, *St. Joseph News-Press;* William Southern, *Independence* (Mo.) *Examiner,* and James W. Brown, EDITOR & PUBLISHER.

DEAN WALTER WILLIAMS

"The reason why a stone was chosen from St. Paul's rather than from Canterbury or Westminster Abbey or one of the older cathedrals," Sir Esme said, "is that St. Paul's looks down on Fleet street, Patternoster row and Printing House Square, which for generations have been the centre of British journalism, and have been connected with all the great writers and pamphleteers of England for generations past.

"The power of the press is a theme which has been so often discussed that I need not expatiate upon it here, but I may say this, that the power of the press in a country like yours is probably greater today than any power that has ever been. A great writer in the Press whom men follow can make and unmake governments, can turn the thoughts of men to peace or war, can alter the whole course of policy and, when it is a question of the policy of a nation such as yours, this may well mean the history of the world. Think then of this as a serious vocation, not one to be lightly entered upon nor easily followed.

"I have in the course of what is now a fairly long diplomatic career had to read papers in many languages—French, German, Italian, Spanish, Swedish and Greek, as well as English papers and American papers. I may perhaps be over critical, but I have no where yet found what seems to me to be the perfect paper. Almost everywhere, with rare exceptions, I have met with what appears to me the great defect of an inclination to excessive partisan spirit, and a lack of impartiality and objectiveness. It is true that you find the same lack in most histories whether they deal with internal or external events. It is this spirit which, whether it refers to internal political struggles or to external affairs, breeds ill feeling, antagonism and ultimately possibly even war. It is the serene spirit, which trying to understand the viewpoint of those with whom we do not agree—of our adversaries—alone is capable of averting disasters which we all afterwards deplore.

"'Yes,' you will say, 'but if we write serenely and objectively won't that make the papers so dull that no one will read them? A paper has to interest its readers.'

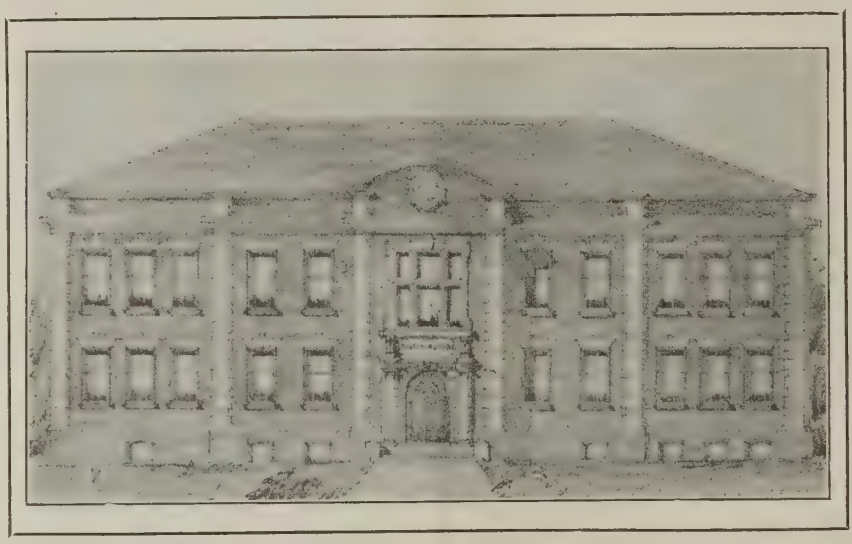
"That is no doubt an objection but I often think that too much is made in the Press of those great twin brethren Pep and Punch—a little Pep is a very good thing, like a taste of mustard on a slice of beefsteak, but if you habitually eat your beefsteak covered with mustard you ruin your digestion.

'Then there are the two great twin sisters Gush and Slop which must also be avoided—sympathy with misfortune and pity are all good but not misplaced and misguided sympathy. As an instance of misplaced sympathy I could quote the old story of the little girl who on seeing Dore's picture of the Christian Martyrs in the Roman Colosseum being devoured by lions turned to her mother and said, 'Oh, mummy, do you see that poor lion who hasn't got a Christian to eat?' There are quite a lot of people who from ignorance or misunderstanding get into a flutter of sympathy with the poor starving lions of this world, and apparently overlook the perhaps equally deserving viewpoint of the victims of other lions.

"So, Gentlemen, the moral of this little sermon of mine which I have been bold enough to preach is this—Restrain your natural inclinations to attack those who disagree with you until you are sure that you have studied their point of view and that you understand something of it.

"Restrain also your first keen movement of sympathy until you are sure that it is well founded and well deserved for an excess of sympathy with *A* may often lead us into an excess of undeserved indignation against *B*.

"Especially in dealing with other nationalities whose ways are not our ways and whose maner of thought is different to ours should we be careful not to rush into rash judgments by doing which we are more likely to do harm than good.



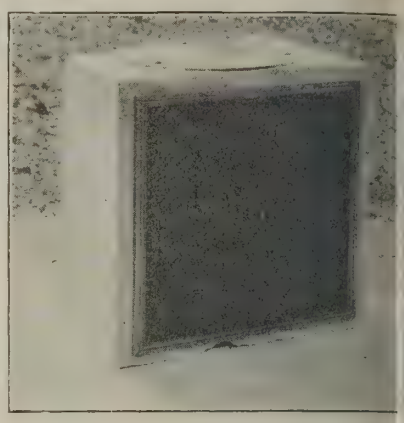
"In all such dealing a judicial, calm, serene and impartial spirit is necessary if we are not to make gross and often irretrievable blunders. Such a spirit is necessary for that good will which alone can bring real peace on earth. I am inclined to think that over and over again serious crises would have been averted if such a spirit had prevailed in international dealings."

"This is a happy day for the University of Missouri, for the press of America and for the people of this country," responded Mr. Dealey. "We are gathered here to celebrate the presence of this token, carved from the very heart of Old England and pedestaled here in the heart of our own land. It stands as a concrete symbol of the bonds of thought and friendship existing between the United States and the mother country.

"By happy inspiration this gift comes from the British Empire Press Union to rest in the care of this School of Journalism as custodian for the press of America. The honor is well merited. Than this School of Journalism there is, in my opinion, no more effective force at work in the United States to establish and make all-pervading that sense of duty and responsibility which must govern our newspapers if they are to be equal to the opportunity which is theirs.

"It is a fine and gracious thing for the British journalists to present this stone from Old St. Paul's to the journalists of America. It is a mark of interest and friendship which not only they, but the citizens generally highly value. To Lord Burnham, your distinguished journalist, through whose courtesy this gift is bestowed, and to Dean William Ralph Inge of St. Paul's Cathedral, whose gracious consent made its transfer possible, we shall ever labor under a debt of gratitude.

"The use to which this stone is to be put also is peculiarly fitting. It was quarried two centuries ago in the vale of Portland. Here it is to rest upon a freshly quarried block of native Missouri stone. Thus recognition is given to the bonds between the past and the present and between the two nations. There is significance, too, in the fact that the old stone is to bear a meridian plate, showing the directions and distances to the leading cities of the world, this plate carrying the inscription, 'I have set thee a watchman.' Here will be a perpetual reminder of the debt that we owe to the great men of the past and of the fact that our fortunes in America are interwined and enduringly linked with those of the other peoples of the world.



Jay H. Neff Hall, home of the School of Journalism at the University of Missouri, where Sir Esme Howard presented a stone from St. Paul's in London in behalf of the British Empire Press Union.

The journalism of America had its beginning in, and yet draws inspiration from the shadow of St. Paul's. It was the journalists of England that had the first great vision of a free press and the courage to battle for that principle through centuries of disappointment and discouragement. The journalists of continental Europe have not yet arrived at that vision of an untrammeled press, born in England and inherited by America. The lack of this vision is responsible for the more or less frequent social and political upheavals that have taken place in those countries in modern times. Their acquisition of it would count immensely for international peace and international harmony.

"For newspapers have the duty of publishing not only the overt acts of men and governments, but they have also the duty of enlightening the people as to the true conditions that lie behind these acts. What is needed is a clear and perfect understanding on the part of the masses of the people of the motives which actuate governmental and economic policies. When this ideal of news publication is universally attained, peace congresses and leagues of nations will be unnecessary, for where there is understanding, national suspicions and national jealousies are, in large measure, automatically dissipated..

"Between the British press of today and that of America there are differences, of course. The press of England is th more conservative; that of America th more dashing. Our motto is, Do now; that of England, Do it thoroughly. Each group of newspapers has it excellencies. They differ as one sta

The stone from St. Paul's with inscription and Meridian plate.

differeth from another. And the dif ference is easily accounted for. Americ is a new country, of yet unwelded popula tion, of far flung dimensions. Englan is an old country, of limited territory, it people united in blood and guided by com mon traditions and ideals.

"Despite these surface differences, how ever, there is a mutual opportunity an responsibility to the press of the tw nations to which each is deeply sensibl Nowhere does there exist a more powe ful force for the preservation of peac which is now—the world's chief pre occupation, than in a harmonious activit of the peoples of these two countries an the influence that that mutuality of pu pose may exert upon the other nations c the earth."

Mr. Ray, in opening the ceremonie said:

"This stone is a tribute from the Bri ish Empire Press Union to the Scho of Journalism established here, the fir of its kind in the world, and to th man who began here a work for the de velopment and advancement of journalis that has been a rapidly increasing ar cumulative influence to that end.

"Any survey of journalism in th twentieth century would be incomple without adequate reference to the sig nificance of the beginnings of journalist education, and to the vision, courage ar initiative of Walter Williams as the fir pioneer, and the first constructive forc in this field. The stone is a declaratio of the impress made upon contempora journalism by this man and the institutio which he created.

"But it is more than that. It is a sig and symbol of the international relatio of journalism. It is a silent plea for th fostering of understanding and good w among nations through the pervasive ar constant power of the press. It is a mu protest against that journalistic chauvi ism which has done so much to fome international discord. Therefore it mu constantly suggest the high responsib ity that rests upon the press for t promotion of peace through the develo ment and maintenance of internation friendship.

"The press is the medium of inform tion throughout the world. Informati is the essential means to understandin and understanding is the first necessi of enduring friendship. Therefore t press, if it fulfills its obligation to cou try and humanity, must see that the i formation it supplies to the public is a curate, and that its comment upon inte national events is based upon fact and fair and unprejudiced, in order that pu lic opinion may be guided by truth."

A. W. Searles Dies in San Antoni

Capt. A. W. Searles, 52, night edit of the *San Antonio Express,* for 25 yea a newspaper man, principally in Chica New York and Philadelphia, died in S Antonio, Nov. 8. He was at one ti editor of the *Milwaukee Telegra* Capt. Searles was a West Pointer.

LOOKING AHEAD TO GREATER LINAGE DURING NATIONAL THRIFT WEEK

Building and Loan Associations, Banks and Insurance Companies Best Prospects—How Dailies Tied Up Successfully Last Year

By HAMMOND EDWARD FRANKLIN

CARTOONS by leading newspaper artists will distinguish the copy of 1926 National Thrift Week, which during the week to start Jan. 17, promises to be a large source of revenue for many newspapers.

The following newspapers and cartoonists have co-operated with the National Thrift Week Committee: E. W. Gale, *Los Angeles Times;* J. F. Knott, *Dallas Morning News;* C. K. Berryman, *Washington Star;* Grover Page, *Louisville Courier-Journal;* Lute Pease, *Newark Evening News;* C. H. Morris, George Mathews Adams Service; and H. P. Alley, *Memphis Commercial-Appeal.*

A general cartoon by Berryman of the Washington Star will open the week's concentration period. This will depict Uncle Sam with smiling face arrayed as a sandwich man and serving as town crier walking down the street, bell in hand, the Capitol glimpsed over his shoulder. The bulletin board will bear wording appropriate to the week. On the special days to be set aside for various aspects of thrift during the week, the cartoonists will furnish suitable material, which will be obtainable in mat form through the local Y. M. C. A. or local Thrift Week Committee or from the committee's headquarters, 347 Madison Avenue, New York City, in charge of John A. Goodell, director, and Aloph Lewisohn, chairman.

Still another phase will be the emphasis placed upon increasing newspaper advertising of local building and loan associations, many of which have failed to realize the importance of spending a small percentage of their total funds for regular pace the year 'round, but which are beginning to see what can be done.

In Greensboro, N. C., for instance, an advertising fund of $7,000 was created jointly by the building and loan association and building interests with the result that a total of more than $1,200,000 in mortgage money for home building was underwritten.

"No apology need be offered for the suggestion that a public sentiment should be cultivated in active sympathy with the organized movement to encourage thrift among our own people," George W. Marble retiring president of the National Editorial Association, declared at Richmond last summer. "If 20 years ago, each newspaper in this organization had begun a studied and constructive campaign to promote thrift among its readers, each community in which such a campaign had been properly conducted would today be justly more wealthy than it is."

The *Trenton* (N. J.) *State Gazette* piled up more than 1500 agate lines daily during the week last year, making a total of 11,095 lines in six days. Bankers were the most interested prospects.

The *Peoria* (Ill.) *Journal-Transcript* for Saturday, Jan. 17, solicited each downtown merchant for his signature in connection with "Pay Your Bills" day. Each merchant contributed $5. On "National Bank Day," Monday four quarter pages were taken by banks. For "Life Insurance Day," the paper picked out the seven largest agencies and confined the space strictly to them, and the page was put over. The year before the paper found the small insurance agencies difficult to sell.

For national "Own Your Own Home Day," the page was sold to building and loan associations by the classified department with the help of the real estate men. "Safe Investment Day" copy proved easy to get from five bond and mortgage houses. One style of border was used on all thrift week advertisements in this paper.

The *Rochester* (N. Y.) *Democrat-Chronicle* realized about 5,000 lines. Life insurance men and members of the Rochester Realtor's Association took a goodly list of cards, the savings banks a half a page, and a final advertisement was used by the investment houses. The *Times-Union* discovered banks and life insurance companies the most interested. Real estate men contributed $150 each.

The Hartford, Conn., newspapers, as usual, won a large amount of linage in connection with the Week. The Times landed 17,798 lines and the Courant 25,954, which included two double trucks on "Budget day" and "Own Your Own Home Day," three full pages of bank advertising on "Pay Your Bills" day and "Make A Will" day, and three pages on "Safe Investment Day," together with miscellaneous thrift advertisements.

The *Atlantic City* (N. J.) *Gazette-Review* succeeded in increasing its linage about 13,000 during the week.

The insurance agents proved indifferent at Easton, Pa., but the *Express* managed to sign up 14,112 lines among other organizations.

The *Toledo Blade* received 12,000 lines.

In some cities, the banks have joined together to advertising Christmas Clubs for five weeks in December. If any of them consider a campaign in January an anti-climax, the copy should be shaped, according to one banker, to make this Thrift Week drive a followup to keep Christmas Club depositor coming with their payments. At Toledo copy headed "Now Comes The Real Test," did this.

The *Flint* (Mich.) *Daily Journal* met with excellent results in getting merchants back of the campaing by showing them it includes wise spending as well as wise saving.

The advertising at Detroit was handled through a committee and the *News* and *Free Press* state results were very satisfactory.

A text book written on thrift by well-known local people was made up at Madison, Wis., and during the week children in all grades study this, applying it in arithmetic, themes and many school room activities in public and parochial schools, with prizes awarded, as a part of the program.

"On arrival of the Thrift Week mats, they were passed out to our regular solicitors for likely prospects along with our regular mats from our services, which also treated the thrift week idea," says W. W. Pigue, advertising manager of the *Houston Post-Dispatch.*

"We started out Saturday with two full pages from the Wholesale Credit Men's Association, Retail Credit Men's Association and Retail Merchants Association. This double page spread was run in each daily in Houston. Throughout the week, various banks, building and loan associations, etc., came in with their message of thrift." It is estimated each paper carried 700 or 800 inches.

On Sunday, Jan. 18, the *San Antonio Light* published a special Thrift Week section containing 1,028 inches, including considerable from insurance companies.

B. J. Horner, advertising manager, says he found the thrift appeal more universal than in the past.

The opportunity to combat wildcat stocks, which absorb millions a year, by something constructive is obvious.

Although the rush of Christmas advertising will be monopolizing attention for the next few weeks, it is well to start planning for the month after.

VanAlstin to Florida

R. D. VanAlstin, manager of the *St. Joseph* (Mo.) *Gazette,* has resigned, to become associate publisher of the *Miami* (Fla.) *Tribune.* Mr. Van Alstin expects to leave for Florida, within the next ten days.

Court Quashes Libel Suit

A verdict of no cause of action was returned in supreme court at Buffalo in the libel action of Mrs. May H. Neeson against the *Buffalo Tribune,* based on what was said to be an improper report of a divorce action in which Mrs. Neeson figured.

New New Orleans Weekly

The *Vieux Carre News,* a weekly paper, dedicated to the business and social interests of the old French quarter of New Orleans, made its first appearance in that city recently. Joseph N. Liuzza is publisher and Peter Martino business manager.

OLD UNCLE CARRIES THE BANNER

Cartoon by Berryman of *Washington Star* used to promote National Thrift Week, to start Jan. 17

STAFF CHANGES AFTER SYRACUSE SALE

Entire Journal Organization Retained Under Harvey D. Burrill, Publisher —Syracuse Herald Takes Six Men

Many personnel changes on Syracuse newspapers resulted from the purchase last week of the *Syracuse Journal* by the *Telegram and Sunday Advertiser,* owned by William Randolph Hearst.

Organization of Syracuse Newspapers, Inc., formed to take over the consolidation, enabled the new company to automatically discharge the employes of both organizations the day of the consolidation. However, by agreement, Harvey D. Burrill, publisher, and the entire Journal organization has been retained, except in the case of the unionized help, which was hired according to meritorious service from each newspaper.

Many of the Hearst editorial, executive and business staff have been taken over by the consolidation as follows: Milford E. Wesp, Sunday editor, Sunday American; E. R. Vadeboncoeur, reporter, made city editor, Sunday American; Herman L. Harding, reporter, Sunday American; James F. Estes, news editor, made assistant managing editor, Sunday American; Francis J. Murphy, state editor, made feature editor, Sunday American; Victor L. Stephenson, George Lythgoe and Edgar Spicer, continued on the copy desk of the Sunday American; Francis H. Murphy, copy desk, made makeup man on Sunday American; Lewis Crabtree, music critic, in same capacity on Sunday American; Phillip H. Bernes, continued as artist on the Sunday American; Mary Frances Phelps, continued as society editor of the Sunday American; James Fenton Phelps, continued as promotion manager of the Sunday American.

Ray Sturman as city circulator, and A. S. Towne, as country circulator, are continued with the Sunday American.

It was stated that the executive staff of the Telegram and Advertiser will be transferred to other Hearst newspapers.

The *Syracuse Herald,* only competing evening newspaper, has taken over a number of the Hearst staff as follows: Chester B. Bahn, dramatic critic; Stephen P. Toadvine, financial editor; James G. Calligan, political reporter; George A. Carroll, rewrite; Fred T. Martin, police reporter; and David S. Bruce, assistant in sports.

Members of the Hearst staff who have gone to other papers are: L. Michael Gratz, feature writer, *Rochester Herald;* Thomas T. Flaherty, reporter, *Miami Herald;* William H. Jones, photographer, *Boston American;* Thomas J. Murphy, *Rochester Journal and Post-Express;* C. D. O'Connell, head of copy desk, *New York American.*

Correspondents in the Hearst service, for the most part, have been absorbed in the consolidated newspapers, including the Sunday American.

N. Y. SPECIAL CHANGES NAME

Cone, Rothenburg & Noee, Inc., Succeeds Cone, Hunton & Woodman, Inc.

Cone, Hunton & Woodman, Inc., publishers' representatives, New York, announced this week that the firm name has been changed to Cone, Rothenburg & Noee, Inc.

Grover V. Rothenburg joined the firm Nov. 1 as vice-president. He was for years one of the executives in the sales and advertising departments of the Postum Cereal Company, Battle Creek, Mich., and for the past ten years had been in the advertising agency business in Chicago and New York.

George Noee has beeu secretary of the company and in charge of the Chicago office for the past two years.

E. S. Cone is president and senior member of the company.

EDITOR & PUBLISHER supplies wants.

S. F. DAILIES CO-OPERATED TO WIN SMASHING POLITICAL VICTORY

Power of Press Reaffirmed When Entire "Newspaper Ticket" Was Swept Into Office Nov. 3—Daily News, Examiner and Call Joined in Fight

SAN FRANCISCO has just had an eye-opening demonstration of the power of the press.

It is a story of how three newspapers forgot their differences in a common civic cause, joined hands and staged a spectacular cooperative "clean-up" campaign that, unaided by other elements in their city swept out of office the most powerfully intrenched political organization controlling the city since the days of the old Schmitz-Reuf regime.

Led by the Scripps-Howard militant afternoon paper, the *Daily News*, a campaign was launched several years ago against what was termed "The Hetch-Hetchy Sell-Out." San Francisco had developed its first crop of hydro-electric power at its Moccasin Creek dam in connection with the city's $45,000,000 mountain water and power project at Hetch-Hetchy Valley in the high Sierra mountains. The power was to be used as a revenue-maker for the huge water development.

One day the Daily News discovered that the city "dads," instead of providing for a distribution system for the electricity, had surveyed the power trunk lines to the very doors of the step-down station of the Pacific Gas and Electric Company, a powerful private company serving northern California, and said to have more influence at the San Francisco city hall than the more humble of the city's citizens.

At the same time the city engineer and the majority supervisors were urging a contract under which the city would sell its crop of "juice," developed at a cost of $18,000,000, wholesale to the Pacific Gas and Electric Company for $2,000,000 a year. The Daily News pointed out that this same company would re-sell the same power to the consumers for $8,500,000, a profit that would have enabled the city to build or buy a distribution system. Over the protest a contract was signed and soon afterward the majority came before the people for re-election. Unfortunately for them the incumbent majority had just raised the city's tax rate 66 cents besides increasing assessments $50,000,000 at the same time.

One month before election three papers announced an opposition ticket to the majority candidates, besides progressive opponents for recorder, treasurer, public administrator and city attorney. Joined with the Daily News were the two powerful Hearst papers, the morning *Examiner* and the evening *Call*. The spectacle of three leading dailies joining with a common ticket one month before election aroused the city to its most strenuous campaign. The papers delivered a series of smashing exposures showing the influence of corporate interests at the city hall. Five great mass meetings were held to support the "newspaper ticket." The incumbents, put on the defensive, resorted to radio and bill-board advertising. The "Hetch-Hetchy Sell-Out" and the tax rate boost became issues in a bitter fight.

Election Day, Nov. 3, proved to be Waterloo for the "machine." All nine supervisors and every other candidate supported by the three newspapers were swept into office by tremendous majorities. "Boss" Ralph McLeran, a wealthy contractor was buried under the avalanche of votes. So was Eugene Schmitz, former mayor under the Schmitz-Ruef reign. Even the city's lone woman supervisor, Miss Margaret Mary Morgan, supported by the feminists, was defeated with the rest.

In the winning ticket, incidentally, was a well-known newspaper man, Frank R. Havenner, formerly secretary to Sen. Hiram Johnson. The winning public administrator was Phil Katz, Legion of Honor man and the coast's leading war hero.

The victory was one solely of aggressive and intelligent newspaper editing and enterprise. There are some who have said that since the radio, the movie and other modernities have come newspapers have lost their kick.

No one is saying that in San Francisco today.

COL. BERRY RETIRES

New Controlling Company for El Dorado News and Times

Control of the News Publishing Company of El Dorado, Ark., publishers of the *Morning News and Evening Times* passed Nov. 1, to the News-Times Publishing Company. Coincident with change Col. C. A. Berry retired as active member of organization publishing the News and the Times.

Col. Berry has been in ill health for several months and upon the advice of physicians will go West soon.

The new company is composed of, Stanley Andrews, vice-president of the old company, Lewis Callow, business manager, Floyd Miller circulation manager and Alex Washburn, who was added to the board of directors in the re-organization. Col. Berry will still hold stock in the company but the control passes to the new board of directors.

Mr. Andrews, is editor of both papers and Mr. Washburn becomes associate editor of the News while Mr. Callow and Mr. Miller will retain the titles held in the old company.

The News is five years old having been founded at the beginning of the oil development here and the Times was launched as an afternoon daily four months ago.

New Plant for Paterson Call

The *Paterson* (N. J.) *Morning Call* has started construction of a new building at 33 Church street. It will be completed late in the fall of 1926.

FORESHADOWED EVENTS

Nov. 16-18—Association of National Advertisers, annual convention, Mayflower Hotel, Washington, D. C.

Nov. 17-18—Sixth District, A.A.C. W., annual convention, Chicago.

Nov. 19-20—Tenth District, A.A.C. W., annual convention, Fort Worth.

Nov. 19—Association of Foreign Press Correspondents, annual dinner, New York.

Nov. 22-24—Seventh District, A.A. C.W., annual convention, Oklahoma City.

Dec. 2-4—Texas Editorial Assn., annual meeting, Brownsville, Tex.

HUGE CROWDS INSPEC DAILY'S MODEL HOME

300,000 Drawn to 19 Model Hous in Columbus Dispatch's Home Beautiful Exposition—Realtors and Contractors Cooperate

The *Columbus* (O.) *Dispatch* has ju completed its third annual Fall Hon Beautiful Exposition, a yearly prom tional feature sponsored each fall in c operation with the Columbus Retail Fu niture Dealers' Association, an organiz tion of 28 stores. More than 300,000 vi itors inspected 19 model homes, whi were completely draped and furnished a thrown open to public inspection Oct. to 21, inclusive.

The Dispatch inaugurated the Bett Homes idea in Columbus in 1922. that time six model homes, loaned f the purpose by contractors and realto without charge, were furnished and t public invited in to inspect them. Eigh thousand visitors responded. In 192 14 homes were used. The registrati of visitors numbered 230,000.

The 1925 exposition differed from fo mer events of the kind, in that the car paign was begun in the latter part April although the show did not mat rialize until October. House plans a sites were selected from many offered real estate men and contractors. Pro ress of the homes in course of constru tion formed the basis for weekly ne stories.

Each builder entering a house in t exposition contracted for a half-page classified advertising, to be used befo the show, and a full page of display, us in the special section run the openi day of the exposition. Furniture m were not tied to contracts for advertisin Music and radio dealers, electrical app ance and picture merchants respond favorably with space in the special se tion, piano dealers using up to full pag

When the Better Homes movement w begun furniture merchants joined in fu nishing all homes, no individual identi being made public. The 1922 expositi saw as high as four dealers co-operati to furnish one house. In the 1924 e position dealers expressed a desire to fu nish individual homes in many instanc The number of homes was increased 14 and the attendance nearly tripl despite some thought before the expo tion that perhaps the increased number homes might cut down attendance p house. Attendance increased also in t 1925 exhibit, although 19 homes were e tered. Attendance ran as high as 70 per house per day.

The exposition was managed for t Dispatch and the furniture organizati by George H. Bricker, executive direct of the Ohio Valley Retail Furniture A sociation. Dealers assumed expense connection with draping and furnishi The Dispatch expense in connection w the exposition consisted of its contra with Mr. Bricker as manager, and t expense of signs directing the public the homes.

The special section published Sund Oct. 11, contained 48 pages. Considera special advertising also appeared in t main sections of the paper, which on t date consisted of 158 pages. Sunday, O 18, dealers and realtors again respond with advertising.

Members of the Columbus Retail Fu niture Dealers' Association in a meeti following the exposition, pronounced the most successful of the three sponsor by the Dispatch. An experiment of d closing prices of merchandise in the 19 exposition, instead of keeping the pub in the dark as to prices, as was done 1922 and 1924, apparently was success and did not detract from the educatio value of the exposition.

Loses Fingers in Job Press

T. E. Thompson, editor-publisher the *San Juan* (Tex.) *Sentinel*, suffer the loss of two fingers while operati a job press in his mechanical departm recently.

TONE URGES BETTER LIBEL LAWS AT BRADFORD ANNIVERSARY

lany Litigants Make Use of Present Legislation to Blackmail Newspapers, He Says, in Address Honoring 200th Anniversary of First New York Newspaper

A PLEA for better libel laws was made Nov. 8, by Melville E. Stone, sec-:tary and counselor of the Associated 'ress, in an address read to members of ıe New York Newspaper Club gathered › honor the 200th anniversary of the ›unding of the *Gazette,* first New York aily, established in 1725, by William radford.

'Many litigants use present laws as a ıeans for blackmailing newspapers, he ıid, holding that punitive damages were ıly reasonable when the libel tended to isturb the public peace.

Mr. Stone was unable to attend, and is paper was read by William Preston eazell, assistant managing editor of the *'ew York World.* Dwight Perrin, city ditor of the *New York Herald Tribune* nd club president, read the paper pre-ared by Edward P. Mitchell, former ditor-in-chief of the *New York Sun,* also nable to be present. Mr. Perrin also ead a telegram from President Coolidge, aying tribute to Bradford, and extend-ıg cordial greetings to the club.

"The press of America has ever been n inconvenience to bigotry and oppres-ion and the vital aid of free thought and spiration," President Coolidge wrote.

Discussion of the libel laws came up ı Mr. Stone's speech following his men-on of the fact that William Bradford, ı defending himself against a charge f seditious libel, brought about an en-rely new view of libel in this country. 'he old maxim of Lord Mansfield that the greater the truth the greater the bel," gave way to the doctrine in this 'ountry that the truth, when published rom good motives and for justifiable nds, was a good defense.

"But I would not have you assume hat I think the present libel law enforced ı almost all of the states is perfect any ıore than I would want you to believe hat I thought the William Bradford of 'hiladelphia and New York was free rom error," he said.

"In the befuddled state of American aw, very few people seem to understand /hat the libel law is or what it should e. I have had very definite views on ıis subject for 50 years.

"As I have said, there are two things › be avoided for the protection of the ountry and the protection of the citizen. 'he country at large is interested in libel ecause it tends to disturb the peace. Wherefore, punitive damages are quite easonable to impose upon the accused ewspaper proprietor.

"And the victim of the libel is likewise ustified in claiming all of the damage ıental, physical, or financial that he has ıffered from the publication.

"My view is that the law should draw sharp line between the two characters f offence—the one against the state and ıe other against the individual—but the ıw does not do so. Quite the contrary, permits the plaintiff in a libel suit to sk for punitive damages entirely over ıd above the personal damages suffered.

"This is made use of by many litigants › blackmail the newspaper. The really nocent victim of a libel as a rule hesi-tes about bringing an action because ven if he wins, it proves in nine cases ıt of ten a pyrrhic victory. The pub-city of the trial may do him more ımage than the original publication. Therefore, I think a very large per-ntage of the libel suits are brought by ersons of no fine feeling, either to ex-rt money, or to threaten to extort money om the newspaper.

"Punitive damages should always go the state and private damages should appraised fully and fairly and ac-ırded the individual sufferer. Punish-ent is a function of government and ıt of an individual.

"Even though I feel that the William radford, Quaker printer, was by no leans perfect, I think we do well to spect his memory and I think the New York Historical Society has done a worthy thing by putting tablets on the scenes of his New York activities."

Mr. Stone traced the beginning of the free newspaper press to William Bradford.

"I think it only fair to say that in large measure his contribution to our welfare was unwittingly rendered," he said. "He quarreled with his fellow-Quakers when he was still a young man. He published certain aggressive tracts against the New England churches. In 1691 having been cited and having a quarrel with the authorities for having printed his 'Appeal to the People,' and other tracts, he was arrested for seditious libel and his press, forms, materials and publications were confiscated. He was tried on a charge of having printed a paper tending to weaken the hands of the magistrates, but, conducting his own case with shrewdness and skill, escaped punishment through the disagreement of the jury. He contended in his defense, in opposition to the ruling of the court directing the jury to find only as to the facts of the printing, that the jurors were judges of the law, as well as of the fact and competent to determine whether the subject matter was seditious, a point that in after times was much controverted in similar cases. Having incurred the displeasure of the dominant party in Philadelphia, he received an invitation from Governor Burnet, to come to New York, and establish a semi-official journal, and the New York "Gazette" was started here by Bradford on November 8th, 1725, to serve as an organ of the English administration of the Colony. He left his paper in Philadelphia in the hands of his son, Andrew, but continued as a partner in that enterprise. He was appointed Public Printer in the Colonies of New York and New Jersey with a salary of fifty pounds a year.

"A few years later a former employe of his, John Peter Zenger, established a competing paper in New York called the *Journal.* There was a fierce contest between the two and finally Zenger, who bitterly opposed Governor Cosby, the British Provincial Governor, was arrested and brought to bar for libel of the Governor. Bradford, in his paper, the Gazette, was entirely controlled by the Governor. Then an American lawyer, born in Scotland, one Andrew Hamilton, and whose home was in Philadelphia, was called in to defend Zenger. Of course he knew all about the trial of Bradford and Bradford's own successful defense of himself, and he adopted Bradford's policy, defended Zenger in one of the most notable cases ever tried in this country, and achieved a great victory, notwithstanding the attitude of the Judge who denied the right of the jury to be judges of both the law and the fact. Who and what this old Andrew Hamilton was has never been known.

"All this resulted in an entirely new view of libel in this country."

Mr. Mitchell told of William Bradford's "memorable failure," which occurred two years before he started his Gazette. He said:

"A runaway Yankee printer boy besought a job in the Hanover square establishment. 'Conceiving myself a pretty good workman,' the rejected applicant wrote afterwards in his memoirs, 'I offered my services to a printer of the place, old Mr. William Bradford. . . . He could give me no employment, having little to do and hands enough already,' And so young B. Franklin was passed on to Philadelphia to make that second-choice settlement the headquarters of an immortality of fame.

"If the worthy old William Bradford could have known! If he could have foreseen! If he could have understood that at critical times it may be less a question of hands enough already than of brains enough already! There, asking only to be admitted and to go to work, was the first real journalistic genius developed anywhere in the Colonies. There, right on the doorstep of the forthcoming Gazette, was the all-around newspaper man capable of making it, or any other periodical, a power and a financial success; all the qualities there in that embryo that have counted in the two centuries—Greeley and Raymond and Bennett and Dana and Pulitzer and Godkin and Arthur Brisbane and the rest of the more modern practitioners tied up in embryo in one parcel, and that to be had for the asking.

"Consider what Bradford missed, as well as what he did."

Chester S. Lord, former managing editor of the old *New York Sun* under Charles S. Dana, who was scheduled to speak was unable to attend and his address was read by Robert Livingston.

Mr. Lord declared he was particularly sorry he was unable to attend for the reason that he is a direct descendant of William Bradford. His great grandmother, Jerusha, was a sister of Noah Webster, the lexicographer, and they in turn were great-grandchildren of William Bradford, the Pilgrim.

Mr. Lord called attention to the vastly superior work newspapers are doing now compared with the old days. He cited the way the November elections were covered as an example.

"In the famous Blaine-Cleveland election of 1884, the Sun was a four page paper with ten columns only alotted to the news of the day. On the morning after election it printed six and a half columns of election returns. On Wednesday morning, Nov. 4, the *New York Times* printed about 30 columns.

"The public can hardly appreciate the painstaking labor necessary to such a result—the mass of detail to be overcome, the system of collection involved. It was not until about 1882 that the newspapers made much attempt to print election returns promptly. About that time John Reid, managing editor of the Times, and the managing editor of the old New York Sun got into sharp competition to give the best election results. These two managing editors invented, each, a system of collection in the attempt to beat each other and it is from their efforts that the present greatly improved system has grown. Their first real test was in that same Blaine-Cleveland campaign, but even then it required the official count, one week after the voting, to verify the announcement of these two newspapers that Cleveland was elected. Most of the other newspapers insisted up to the last moment of the official count that Blaine was elected."

He advised critics who condemn the press for printing so much news of crime to urge the newspapers to print more, rather than less.

"If the newspapers do not print the details of crime the people cannot know the extent to which crime exists. It is through widespread publicity that evil is stamped out. And so I say to our complaining clergymen and to our criticising reformers; 'Advise the newspapers to expose crime, not suppress it or minimize its hideousness!'"

About 140 New York newspaper men and their friends attended the Newspaper Club dinner. At each place was a spindle on which "takes" from each morning newspaper concerning the event were spiked, and also a poem by Henry Edward Warner quoted from EDITOR & PUBLISHER.

"PRESS VITAL AID TO FREE THOUGHT," SAYS COOLIDGE

"The White House,
"Washington, D. C.

"Nov. 7, 1925.

"Mr. Dwight S. Perrin,
"President Newspaper Club.

"I am glad to have an opportunity to participate in the services in commemoration of the two hundredth anniversary of the issuance of The New York Gazette and in tribute to William Bradford, its founder.

"Whatever may have been the limitation imposed upon him by the Government under which William Bradford lived, his contribution to the cause of liberty is none the less real in the life and career of his descendants and those who worked with him in the establishment of the Gazette.

"It is almost prophetic that the very order of the Crown, which aimed to stifle liberty of thought and expression, should have contained the words: 'Great inconvenience may arise by the liberty of printing,' for the press of America has ever been an inconvenience to bigotry and oppression and the vital aid of free thought and aspiration.

"I ask that you will extend to those gathered with you my most cordial greetings.

"CALVIN COOLIDGE."

Placing the Newspaper Club wreath on the grave of William Bradford in Trinity Churchyard. Left to right: Dwight Perrin, city editor *New York Herald Tribune* and president, Newspaper Club; William Bradford VIII, lineal descendant of William Bradford; William P. Beazell, assistant managing editor, *New York World,* vice-president, Newspaper Club; Robert L. Livingston, chairman, arrangements committee; James Melvin Lee, second vice-president; Rev. Alfred W. Treen, curate of Trinity.

NEWSPAPER MAKERS AT WORK

War or Waste—CHARLES H. NEWELL

CHARLES H. NEWELL, vice-president and general manager of the *Dallas* (Tex.) *Dispatch* is a former editorial man who after achieving success in that field of newspaper work, changed to the business side and found it none the less interesting.

"The job of selling advertising from an editorial man's standpoint is applying common sense," he declared. "The gap between the two fields is not as wide, in my opinion, as many believe.

"The resourcefulness of news men is their chief asset in selling advertising. If they can't get in the front door they get in the back."

There are two classes of space buyers, Mr. Newell said. First merchants who cannot afford an advertising department for preparation of their copy. This class appreciates solicitors who come to them with definite copy ideas, and give them the benefit of their advertising experience The second class, consisting of firms which have copy departments are more interested in service than ideas. Both must be efficiently served.

The question of free publicity is one of free determination in each city, Mr. Newell believes.

"If one publisher gives free space the matter should be taken up and settled locally, he said. Local publishers agreements in regard to free publicity will do much to eliminate the evil.

"The greatest weakness in the newspaper profession is that publishers are the slowest group to cooperate to eliminate waste," Mr. Newell declared.

"The most obvious and most costly waste is that caused by laxity in advertising copy deadlines.

"If every publisher would make a rule that no copy would be set on day of publication more money would be saved than by the yearly solemn argument with the unions over wages."

Paraphrasing direct mail letters of local business firms Mr. Newell has found a good way to call attention to the merits of newspaper space.

"For instance, at the time of an important local football game a men's clothing store sent out a letter urging the purchase of a new hat to wear to the game," he explained. "We wrote the letter telling about what a fine story on the game the Dispatch would carry, and suggesting that the firm might want to capitalize on the interest in that story to place an ad in the paper."

Mr. Newell began newspaper work on the old *Oklahoma Times-Journal,* now the *Times.* He attended the University of Oklahoma, leaving in 1907 to join the *Oklahoma City News.* Later he went to the *Cleveland Press* and *Akron Press.* From Akron he went to Denver as editor of the *Express.* He was editor of NEA at Cleveland in 1920. In 1922 he bought into the *Dallas Dispatch* owned by A. O. Andersson.

CHICAGO PRINTING GAINING

Association of Commerce Reports on Growth of Industry

Chicago challenges the supremacy of New York as a center of printing and publishing in a partial report just issued on the survey conducted as part of a general inventory of industry and commerce by the Association of Commerce as part of its 21st anniversary celebration.

"While Chicago is not in first place," the report concedes, "it is forging ahead more rapidly than New York. In fact in the twenty years period from 1899 to 1919, Chicago had advanced 96 per cent in this respect while New York showed an increase of only 42 per cent."

Some 500 papers and periodicals are published in Chicago and more than 200 of these are trade papers.

The report estimates that the value of the products of the printing industry in Chicago is more than $275,000,000 a year.

The committee responsible for the report is composed of W. Frank McClure, chairman, Homer J. Buckley, Bernard J. Mullaney, J. H. Scherm, Clifford R. Hunn, T. E. Donnelly, William Eastman, W. W. Buchanan, Burley B. Ayers, Charles H. Stoddart, Lawrence M. Brady, R. C. Jacobsen, Herman Fabry, W. E. Shoemaker, George R. Schaeffer, Stanley Clague, George K. Kroeck, Robert J. Kane, A. W. Shaw, Merritt Lun, Edward W. Houser and Carroll Shaffer.

200 ATTEND DINNER

Jewish Telegraphic Agency Celebrates Sixth Anniversary

More than 200 attended the dinner held Nov 5, in New York, celebrating the sixth anniversary of the founding of the Jewish Telegraphic Agency, Inc.

Adolph S. Ochs, publisher of the *New York Times,* who was to have been guest of honor, was unable to attend. A letter written by Mr. Ochs, and read at the dinner praised the ability, enterprise and impartiality with which the agency was conducted.

Speakers paid tribute to Jacob Landau, founder and director of the agency. The news service now maintains bureaus in London, Paris, Berlin, Warsaw, and Jerusalem.

80 Years a Reader

The *Peekskill* (N. Y.) *Highland Democrat* claims the "Oldest Subscriber" in the person of David J. Reed, 91, of Adams Corners, who declares he started reading the paper when it was first published 80 years ago.

COOPER DEFINES NEWS

A. P. Manager Says It Has Two Elements—"Surprise and Substance"

News was defined as having two elements "surprise and substance," by Kent Cooper, general manager of the Associated Press, in an address before Oklahoma A. P. members recently.

In part he said: "Substance offers opportunity for fine treatment, the application of intelligence in its preparation for the market, that it may not be a crude product, and, of course, it must be the truth in order to have any substance at all. Sound and sane treatment of the substance in news, therefore, accentuates the element of surprise. Being a creditable product, it never dulls the desire for the surprise so far as the reader is concerned. On the other hand, stressing the element of surprise lowers the quality of the substance. Any one can cry 'wolf' once where there is no 'wolf.'"

Cooper said of the requirements of a reporter: "Of all the requisites for a good reporter, I put first a mental urgency, an intense, compelling force from within that brings contentment while on the job and fretfulness when not."

DAILY BUYS TOLL BRIDGE

St. Petersburg (Fla.) News Then Reduces Charge to Users

The *St. Petersburg* (Fla.) *Daily News,* tabloid, has purchased the long bridge reaching from St. Petersburg to the islands off the coast in the Gulf of Mexico. It is the only connection between the peninsula, on which St. Petersburg is situated and the bathing beach

The first act of the Daily News after the purchase was to reduce the toll on all automobiles and to make the bridge absolutely free to children from schools and orphan asylums or Sunday schools when accompanied by an attendant.

The Daily News had been fighting excessive tolls to the bathing beaches, and in order to be consistent with their fight on this subject, purchased the wharf bridge and brought the toll down.

The Daily News is owned by Frank F. Pulver, and published by Maj. Alfred Birdsall.

QUEER LITTLE GRAFT

Two Chicago Schemers Working Free Copy Game in West

Publishers in the middle west who have been puzzled by a large number of requests for "sample copies of your paper" from distant cities will be interested to learn that a couple of Chicago schemers are promoting a "home clipping service" and for $1 sell to prospects a list of 1,000 newspapers, advising their custimers to ask the publishers to furnish free sample copies, from which the home clipper may extract items to sell to persons appearing in the news. The matter has been brought to the attention of the authorities.

To Enter Daily Field

The Youngstown Telegram Leads

1. The Youngstown Telegram is FIRST in total circulation.
2. The Youngstown Telegram is FIRST in local circulation.
3. The Youngstown Telegram is FIRST in total advertising.
4. The Youngstown Telegram is FIRST in local advertising.

The radius of the suburban territory of Youngstown is only 14 miles. The eight nearby towns, with one exception, have no big stores. These towns have grown with Youngstown into one big metropolitan community—into one continuous city.

City and suburban circulation, i.e., Local circulation, is therefore comparable with "city" circulation in other markets; and country circulation compares with what is called "suburban" elsewhere.

According to the latest available figures, the circulations of Youngstown newspapers are:

NEW ENGLAND LEADERS HONOR R. L. O'BRIEN

Boston Herald Editor Guest of Honor at Dinner Celebrating His Fifteenth Year of Editorship

Leaders in community life in New England—journalists, educators, clergymen merchants, financiers, lawyers and public officials—gathered at the Algonquin Club Nov. 5, at a dinner in observance of the fifteenth anniversary of the *Boston Herald* under its present management and the editorship of Robert Lincoln O'Brien.

ROBERT LINCOLN O'BRIEN

Prominent among the guests were Gov. Alvan T. Fuller, whose father was composing room foreman on the Herald when the governor was born; U. S. Senator William M. Butler; Mayor-elect Malcolm E. Nichols, former Boston newspaper man; Kent Cooper, general manager of the Associated Press; President Ernest M. Hopkins of Dartmouth College; Bishop Charles L. Slattery; George S. Mandell, *Boston Transcript;* Rear Admiral Francis T. Bowles, representing the family which has published the *Springfield Republican* for the past century; Philip S. Marden, *Lowell Courier-Citizen;* Major Frank Knox, *Manchester* (N. H.) *Union;* Richard Hooker, *Springfield Republican;* Maurice S. Sherman, *Springfield Union;* Theodore T. Ellis, *Worcester Telegram and Gazette;* E. W. Preston, Harold F. Wheeler, Philip Hale, George B. Ryan, Edward E. Whiting, John Clair Minot, Burton Whitman, Thomas Carens and Frank W. Buxton, all of the Boston Herald. Charles F. Choate, Jr., presided as toastmaster.

Brief addresses were made by Gov. Fuller, Senator Butler, Mayor-elect Nichols and Messrs. Cooper, Marden and Bowles in which they paid high tribute to Mr. O'Brien for the part he has played in the upbuilding of the Herald in the past decade and a half. They paid tribute to the newspaper itself, and to the place that it holds in New England, with references to the rapid strides it has made in the past 15 years, during which the circulation has almost trebled in that period.

In responding to the greetings and best wishes of his friends, Mr. O'Brien declared that the men who had been associated with him for the past 15 years were more deserving of credit than he for what the Herald has done in that time. He review the paper's history in the past decade and a half, telling of the unhealthy condition in which he found it, and of its steady growth since that time.

In closing Mr. O'Brien said in part:

"We have much to be thankful for in America in the institutional spirit of our journalism, in distinction from that which is petty, and personal, and factional, and commercial. When you look at the journalism of France for example, at the 106 daily newspapers in Paris, each one in almost every case the recognized organ of some man, or group, or financial interest, each with an axe to grind, each more or less discounted on this account, you realize what an enormous advantage our civilization enjoys in the tradition of journalism which we have in America, and I hope in some small degree, in the Boston Herald. We do not think of it as a paper for the editor and his associates to expound their views, or even for the directors, or the owners, or for any party or other factional group; but rather we think of it as an institution growing out of a great body of New England tradition, responding to its best impulses: in no sense a monarchy of its editor, or an oligarchy of its owners, but rather, a republic of its readers.

"We must never let our journalism become petty, or personal, or factional, or partisan, but rather we must keep it broad in world outlook and free in expression. For without such an agency in the great cosmopolitan community we have become, with its diverse racial groups and antagonistic business and social interests, our community breaks into a scrap heap. From such a fate the newspaper, more than any other institution of modern times, can save us. It furnishes the unifying force that the modern era needs. It ranks among our great educational establishments. It is in a sense the light of our modern democracy."

NEW AIR MAIL ROUTES

Contract Let for Five New Lines by Postmaster New

Postmaster General New on Nev. 7, signed contracts with private corporations and individuals to operate air mail service on five commercial routes throughout the country, as follows:

Boston to New York via Hartford: Colonial Air Lines, Inc. Naugatuck, Conn.

Chicago to St. Louis, via Springfield: Robertson Aircraft Corporation, St. Louis.

Salt Lake City to Los Angeles: Western Air Express, Inc., Los Angeles.

Chicago to Dallas and Ft. Worth: National Air Transport, Inc. Chicago.

Elko, Nev. to Pasco, Washington: Walter T. Varney of San Francisco.

Carmichael Editing New Daily

Claude Carmichael has been named editor of the *Okemah* (Okla.) *Ledger,* which was converted into a daily following its purchase recently by Raymond Fields and Edward M. McIntyre, publishers of the *Guthrie Daily Leader.* William O. Loftus, formerly circulation manager of the *Oklahoma City News,* has been named business manager. Arnold Brown of the Guthrie Leader staff goes to the Ledger as mechanical superintendent.

Oklahoma Papers Consolidated

The *Bristow* (Okla.) *Weekly Record* and the *Bristow Tribune* have been consolidated, the Record Company purchasing the Tribune outright from E. M. Skaggs. R. C. Wright has purchased the mechanical equipment of the Tribune and will move it to Blackwell, Okla., where he will start a new semi-weekly.

Foreign Writers Hold Luncheon

The Association of Foreign Press Correspondents, New York, held its first fall luncheon Nov. 11 at the Lawyers Club. M. Julean Arnold, United States commercial attache who has just returned from Peking was chief speaker. Annual dinner of the Association will be held Nov. 19, place to be selected.

Young Joins Philadelphia News

T. J. Young, merchandising manager of the *Philadelphia Public Ledger* has joined the *Philadelphia Daily News,* tabloid, as national advertising manager.

SMALL DAILY AIDS TO NATIONAL FIRMS

Six Points Offered in Answer to How Much Merchandising Service Advertisers Should Expect from Country Papers by A. G. Mayse

How far can a small daily go on merchandising service to a national advertiser?

Six points in answer to this question were offered recently by A. G. Mayse, vice-president and general manager of the *Sherman* (Tex.) *Democrat.* Mr. Mayse was addressing the annual convention of the Texas Daily Press League at Dallas.

The six points were:

"1—We can and should protect the national advertiser with good position, a good, clearly printed advertisement on a page of live news.

"2—We should promptly send checking copies and statements and be diligent in these essentials which he naturally expects.

"3—We should be willing to cheerfully furnish information and a reasonable survey and other data on the market which we offer for the various products.

"4—Letters to the trade, broadsides and other service of this nature on good sized schedules where the cost does not exceed five per cent of the amount of the schedule.

"5—To be willing always to endeavor to obtain window displays and in some exceptional cases assist in putting in windows and to encourage interior displays on the products advertised.

"6—To be willing, on any sized ad, to advise the local dealer concerned about the schedule, its size and duration in your publication."

Previously in his address, Mr. Mayse said it was the theory of one of the best Texas publishers that he can afford to give service to the national advertisers when the cost does not exceed five per cent of the total price of the schedule.

"It is his opinion that this servicing of foreign advertising has been an important factor in moving national accounts to the newspapers," he said.

"Here is a publisher, who has given almost every kind of service asked for.

"The other day we received 1,100 lines for one insertion with the request that the publisher send out letters accompanied by proof of the advertisement, to obtain show window displays and to give any other cooperation possible. Needless to say that was too far for him to go. And yet because of this unreasonable request he would not change his policy, for to his mind, it is essential for the publisher to use every reasonable means to insure the maximum results for his national advertisers, for, as he said, it is results that the advertiser seeks and our national business must of necessity be governed by the results we get for our patrons."

Ad Writing Contest Via Radio

The Dallas (Tex.) Advertising League, of which Alfonso Johnson is president, is conducting an advertisement writing contest to start Nov. 24, from Station W. F. S. S., of the *Dallas News and Dallas Journal.* The article to be advertised is to be announced and described over the radio, and contestants asked to submit advertising copy not later than Nov. 30. In judging the winners, choice of words, selections of selling arguments, conciseness and grammar will be the main points taken under consideration.

The Cincinnati Department Stores Furnish a Cross Section of Business

The department stores in Cincinnati are prosperous and busy. No class of business houses in this city can boast of a more consistent, a more uniformly maintained prosperity over equally long periods of years. And department store prosperity in Cincinnati has been secured and maintained primarily by means of consistent local newspaper advertising.

Like the grocery business and the clothing business, the department stores of Cincinnati place more display advertising in the Times-Star than in any other medium in the Cincinnati trading area. In fact, the Times-Star carries more department store advertising than the three other Cincinnati newspapers combined, including the Sunday editions of the morning papers.

There are two outstanding reasons why this should be so. First is the fact that the Times-Star reaches more homes, more families in Greater Cincinnati than any other newspaper. Second is the fact that the Times-Star makes the strongest appeal to the members of these families. Quantity plus quality—a winning combination.

When you realize that the Times-Star carries more food advertising, more clothing advertising and more department store advertising than any other publication in Southern Ohio you will readily understand why it also dominates its field in general display advertising, both local and national. The newspaper that pays the grocer and the clothing merchant and the department store can be relied on to pay the manufacturer of automobiles, or of roofing and building materials, or of radio sets, talking machines, pianos or electrical goods. It will pay the railroads, the steamship lines, the tourist companies, hotels and banking houses.

So you see there is no mystery about Times-Star leadership in display advertising.

CINCINNATI TIMES-STAR

Member of Audit Bureau of Circulations

A New Record In Advertising!

445 COLUMNS

The New York Evening Journal today (Friday, November 6th) prints 445 columns of paid display advertising (Brooklyn and Harlem and Bronx Sections included). This is MORE than was ever published before in any regular issue of a New York evening newspaper.

"Nothing succeeds like circulation"

The following editorial by Arthur Brisbane is reprinted from the November 6th issue of the New York Evening Journal.

Read the Advertisements

The Evening Journal Today Prints 445 Columns of Advertising

Copyright, 1925, by New York Evening Journal, Inc.
Registered U. S. Patent Office.

We do NOT apologize to our readers for the crowded condition of the paper. On the contrary, we CONGRATULATE them.

For, this extraordinary collection of advertisements, representing the greatest and most enterprising firms, contains the news that readers—and especially women that do the buying—want and NEED.

Advertising in the Evening Journal today not only eclipses the records of all other evening papers, which is usual, but it eclipses all records for the EVENING JOURNAL itself.

Frank A. Munsey, owner of our bright little contemporary, the Evening Sun, says very earnestly, "Money tells the story." Yes, and in those few wise words, Mr. Munsey tells the story. The amount of money invested by intelligent advertisers in today's Evening Journal is a good deal more than double the amount invested in Mr. Munsey's Evening Sun or any other evening newspaper.

Business men of intelligence know that GREAT CIRCULATION counts. They offer to the Evening Journal readers their best inducements. They know that the Evening Journal is read by millions of women and that the careful, discriminating buyers do their ADVANCE SHOPPING in the Evening Journal.

Women are advised to look through every advertising page of this paper. The economy news that they want is there. While the Evening Journal carries in advertising more than double that of any competitor, it spends revenue—much more than double what any competitor spends—to interest its readers and give them the best.

To produce the Evening Journal costs more than three times what it costs to produce any other evening paper.

For instance on the Evening Journal one single editor is paid a salary greater than the combined salaries of all the editors on the Evening Sun—and a great deal more.

Mr. Munsey might call that wasteful. We don't. The Evening Journal plan is to use the money that readers and merchants contribute TO MAKE A BETTER EVENING JOURNAL.

That is why the Evening Journal has DOUBLE the circulation of the Evening Sun plus 123,337.

That is why the Evening Journal is carrying today more advertising than it ever carried before—more than any evening newspaper ever carried, even among the Journal's cheaper competitors, and that's why the Evening Journal leads successful journalism in New York.

The circulation of the Evening Journal, for instance, is double the circulation of the Evening Sun, plus 123,337, as shown by Government reports of Oct. 1st.

It is true, as Mr. Munsey says, that money tells the story in some things. But more important to merchants is the fact that CIRCULATION GIVES THE RESULTS.

NEW YORK JOURNAL

America's largest evening newspaper circulation—and at 3c a copy

DOUBLE THE CIRCULATION OF ANY OTHER NEW YORK EVENING PAPER

WAR CLOUDS AU GRATIN

(By Percy Piffle, telegraph editor *The Evening Blah.*)

Take two dispatches from Southern Europe, (written in New York,) and stir in three drops essence of ultimatum. Beat until mixture is pregnant with the possibilities and crisis looms. View situation with alarm and flavor to taste with clashes on frontier. If richer mixture is desired stir up several mobilizations and wild demonstrations. Rush to stereotyping rooms and steam quickly before mixture falls:

WAR CLOUDS HOVER OVER BALKANS!

Mars Girds on Sword as Freece and Gulgarians Clash; "Apologize or Fight!" Demand Both Nations.

PEACE PERILED AS CRISIS LOOMS.

Tiny Spark of Hatred Threatens New Conflagration in Europe; Britain Rushes Warships to Egypt.

RAGOUT OF RUM RINGS

(By J. Semicolon McSniff, editor the *Sunday Wail and Squawk.*)

Take one small prohibition raid and beat rewrite man on back. Add "prominent higher ups," international plots and mysterious rum ships. Pour in banana oil and beat vigorously until mixture will drop easily from typewriter keys. In separate machine prepare following mixture of fake interviews with dry chief, Anti-Saloon league heads prominent politicians and unnamed bootlegger. Spice each with several slices of bologny. Then put two mixtures together and serve with lots of applesauce:

INTERNATIONAL RUM RING BARED BY RAID ON HEADQUARTERS HERE!

Conspiracy With Ramifications in Canada, Mexican and Guam Revealed by Seized Papers

Tuckahoe Citizen-Bulletin Sold

The *Bronxville Press,* new community weekly which started last February in Westchester County, N. Y., this week purchased the *Tuckahoe* (N. Y.) *Eastchester Citizen-Bulletin,* and the printing and publishing plant of A. H. Seaman & Co. of Tuckahoe. Both newspapers will be continued, the Bulletin on Wednesdays and the Press on Fridays. Maj. C. E. Lovejoy, who started the Press, is also publisher of the Tuckahoe Bulletin.

CLASSIFIED SERVICE MEETS SUCCESS

Edward Green, Director of National Business Bureau, Reports Newspaper Publishers Approve of New Work —Probed 208 Advertisements

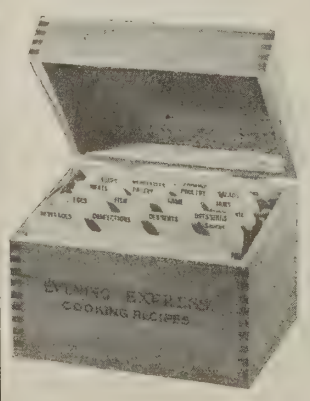
Success of the classified advertising service being offered newspaper publishers by the National Better Business Bureau, Inc., was reported this week by Edward L. Green, managing director.

In a statement to Editor & Publisher covering the first two months of operation Mr. Green declared letters from newspapers characterize the new work as "the most practical and valuable service so far offered to publishers by the truth in advertising movement."

The bureau sends out a bulletin service to classified managers reporting on advertisements which have appeared in newspapers. Advertisements are printed together with the responses the bureau has received to them. A survey is made of classified pages in key cities of the nation.

During September and October, the National Better Business Bureau sent out 58 bulletins to a list of 1,200 newspapers. Investigations of classified copy numbered 208, and a total of 271 inquiries on classified advertising from newspapers, Better Business Bureaus and Chambers of Commerce were answered, Mr. Green said.

His statement follows in part:



"Since the inception of the service, the National Bureau has received from newspapers alone almost 150 requests for information on classified copy submitted to them for insertion.

"The service has apparently stimulated a desire on the part of several classified managers to censor copy submitted to them more rigidly. In one case, a newspaper frankly admitted that much copy upon which we have reported had previously been carried in the classified columns, inasmuch as they had no way of knowing what the offer was as made to respondents. Several smaller newspapers have asked us for suggestions for censoring copy, and were desirous of learning in what way the larger newspapers handle this work.

"To sum up the whole situation, it seems to me this: newspapers are now receiving a service never before rendered by an organization except by the Association of Newspaper Classified Advertising Managers to its members in a limited way. Newspapers have not always had time nor inclination to investigate thoroughly the proposition as offered to their readers through classified advertisements, their interest being solely to see if it was misleading or objectionable on its face. The service is a time saver to the classified manager, a protection to his readers, and a good will builder for his newspaper."

K. C. M. Million Dollar Postal Class

Postal receipt figures for the 50 selected cities for October, 1925, made public by Postmaster General New, disclose that Kansas City, Mo., for the first time, entered the million-dollar-a-month-class. The total receipts for the 50 cities were $32,489,042.23 as compared with $29,118,862.75 for October, 1924, an increase of $3,370,179.48, or 11.57 per cent. Jacksonville, Florida, led the list in percentage of gain with an increase of 33.10 per cent.

Paid Classified Advertisements During the First Ten Months of 1925 Ending October 31st, Showing an Increase of

97%

Over the same period 1924

This remarkable increase is due entirely to the fact that The Miami Herald gets results for its advertisers.

And since advertisers realize that classified leadership is a reliable standard by which to judge a "result getting" medium, this record should convince the space buyer that The Miami Herald is the choice of the Miami public in the use of classified advertising.

OLDEST JERSEY DAILY CHANGES HANDS

Trenton State Gazette, Published Continuously Since 1792 Sold to F. W. Roebling, E. C. Rose and Frank D. Schroth

TRENTON, N. J., Nov. 9.—The oldest newspaper in continuous circulation in New Jersey has passed into new hands, with the sale announced recently of the *Trenton* (N. J.) *State Gazette* to take effect Nov. 30. The newspaper, a morning publication, has been purchased from the State Gazette Publishing Company by Ferdinand W. Roebling, Edward C. Rose and Frank D. Schroth, all natives of Trenton who have for years been prominently identified with the business life of the city.

Mr. Roebling is vice-president and treasurer of the John A. Roebling's Sons Company. He is the son of the late Ferdinand Roebling and grandson of the late John A. Roebling, father of the Brooklyn bridge. Mr. Rose is head of the investment house of Edward C. Rose & Co. and is also vice-president of the First National Bank. Mr. Schroth is at present secretary of the State Board of Taxes and Assessments. There are no other stockholders.

In addition to the newspaper, the purchase carries with it proprietorship of the job printing plant. A book bindery is also included. The purchase price is understood to be approximately $600,000.

Mr. Schroth, who is a newspaper man of long experience, will serve as editor and will also direct its business management. He received his early training on the *Trenton Times* and for more than 15 years was political writer for the *New York Tribune* and the *Philadelphia Record.*

It is anticipated that Mr. Rose will be president of the company under the new ownership and, with Mr. Roebling, will be actively identified with its administration.

The State Gazette has been published by the State Gazette Publishing Company consisting of Henry W. Comfort, president; Charles B. Case, secretary; and Charles H. Baker, treasurer and general manager, for almost 25 years. During this period it has been under the personal management of Mr. Baker.

Under the terms of the sale, the new owners purchase all of the stock of the State Gazette Publishing Company, and as Mr. Baker, Mr. Comfort and Mr. Case own all of the stock, they will retire from the company.

Ever since the Republican party was founded the State Gazette has always been a staunch supporter of the principle of protection. According to an announcement made by Mr. Roebling the paper would continue to be a Republican newspaper in national affairs. The first paper under the auspices of the new owners will be issued Dec. 1, and following this date it is understood that extensive improvements will be made to both the job printing and newspaper departments.

The State Gazette was founded in 1792. Matthias Day, a practical printer, issued the first number of the *State Gazette and New Jersey Advertiser.* The memories of the older generation concerning it go back to John L. Murphy and Charles Betchel, who purchased the newspaper in 1869. For many years the old home at the northwest corner of State and Broad streets was one of Trenton's familiar establishments.

The last owners purchased the State Gazette from the John L. Murphy Publishing Company.

Commenting on the sale the *Trenton Sunday Times Advertiser* and *Evening Times* said iditorially:

"For the new owners of the State Gazette, as for the old, the Sunday Times-Advertiser and the Trenton Evening Times have the most kindly feeling. In this solid community there is room enough for us all. And glory enough, too! Rivalries and differences between decent newspapers are largely fanciful. They are much like the fictions between opposing counsel.

"The days of abusive personal journalism are happily gone forever. Publishing a newspaper is now too costly and carries with it too much public responsibility for that sort of thing. It is no longer possible for the rollicking adventurer to launch a lasting newspaper. Success only comes where there is business stability, character and a lively interest in human affairs.

"Ferdinand W. Roebling, Jr., Edward C. Rose and Frank D. Schroth bring to the property a deep sense of civic duty, business acumen and first-rate integrity. All natives of Trenton, they have seen the city prosper and they have grown with it. We are frankly glad to see the Gazette in such excellent hands."

SPARTANBURG SUN SUSPENDS

South Carolina Afternoon Paper Forced to Quit Nov. 9

The *Spartanburg* (S. C.) *Sun,* afternoon newspaper which has been published since March 1924, under the caption "The Sunset" announced its suspension Nov. 9.

The Sun was started first as an afternoon and Sunday morning newspaper, but after a few months the Sunday morning issue was suspended. A. M. Carpenter, editor, resigned recently.

George Koester, formerly with the *Columbia Record* and later with the *Greenville Piedmont,* was publisher.

Lack of revenue was given as the cause of the suspension.

CLUBS BACK REFORESTATION

Every A.A.C.W. Member Club to Be Asked to Boost Forest Week

Every Advertising Club in the United States and Canada will be asked by the Associated Advertising Clubs of the World to co-operate with the program of the American Forestry Association in carrying out plans for American Forest Week, which probably will be observed in April of next year. Malcolm Muir, vice-president of the McGraw-Hill Company, New York, and chairman of the Association's Committee on Reforestration, stated following a meeting of the committee at the Advertising Club of New York.

"It may be recalled," said Mr. Muir, "that the Executive Committee of the Associated Advertising Clubs, at its Detroit meeting in January of this year, gave full and hearty endorsement to the plan of the American Forestry Association for increasing the number and extent of our national forests.

"We believe that the Advertising Clubs last year were a very important factor in creating public interest in this important subject, through their observance of Forestry Week. We trust that every Advertising Club in this country and Canada will stage a forestry week this coming year and I have reason to believe that the vast majority, at least, will do so.

"We will appreciate the full and hearty co-operation of all the interests represented in organized advertising."

This is Mr. Muir's second year as chairman of the Association's Reforestation Committee. Other members of the committee are: William F. Rogers, Gilbert T. Hodges, J. C. McQuiston, James Wright Brown, F. D. Zimmerman, Shirley Walker, Harry C. Macdonald, and F. W. Stewart.

PLAN NEW OHIO DAILY

Semi-Weekly Press to Appear As Evening Paper

The Steubenville (O.) Press Publishing Company, Inc., organized last week, is planning to make an evening daily of the *Press,* semi-weekly, now published by the company, James J. Weir, publisher of the Press stated this week.

Plans are going forward for the installation of a modern mechanical plant.

The press entered the field when Louis H. Brush and Roy Moorr, publishers of the *Marion Star, East Liverpool Review* and the *Salem News* purchased the *Steubenville Herald-Star* from Charles D. Simeral last July.

Incorporators of the Press Publishing Company are James J. Weir, John D. Gardner, Harry A. Cooper, Carl F. Allebaughm and A. G. Gardner.

Dramatic Critic as Trial Witness

Edward H. Crosby, dramatic critic of the *Boston Post,* was called as witness in New York last week in the plagiarism trial brought by William Henry Roberts. British naval officer, who charges Mme. Olga Petrova, actress and playwright, appropriated the plot and characters for her play "The White Peacock" from his play "La Rubia." Mr. Crosby has written 15 plays and has had nine of them produced.

Bristol to Raise Ad Fund

The Bristol (Va-Tenn.) Chamber of Commerce on Nov. 23, will launch a campaign to raise a fund of $25,000 for one year, $10,000 of which will be used for the purpose of advertising Bristol to the country.

PEGLER JOINS CHICAGO TRIBUNE

United News Special Feature and Sports Writer Takes New Post

Westbrook Pegler, since 1919 with the New York staff of the United News writing special features and sports has joined the *Chicago Tribune* as Eastern sports representative.

WESTBROOK PEGLER

Mr. Pegler has been given a roving commission to cover the major sports contests in the East and Middle West. His headquarters are at the *New York Daily News* office, and his daily articles are carried by the Chicago Tribune Press Service.

The New Chicago Tribune writer obtained virtually all of his newspaper experience with the United Press Associations, his first newspaper work having been done in the Chicago office of the United Press. From there he went to the staff of the *Des Moines News.*

Subsequently he served as bureau manager for the United Press in St. Louis, Dallas, Denver and New York. During the war he served in the U. P. London bureau, and since 1919 has been a member of the United News New York staff writing signed daily features. One of his first assignments for the Chicago Tribune was covering the Chicago-Illinois football game at Chicago last Saturday.

New Paper at Oakfield, N. Y.

The *Oakfield* (N. Y.) *Independent* made its first appearance recently with an issue of 16 pages. Peyton R. Holt is editor and publisher. Charles C. Avery is president of the publishing corporation. Roy C. Searles is vice-president.

Oh, Boy! Gum

7 Reasons why

You Should At Least Try Our

CERTIFIED DRY MATS

(1) they are easily conditioned WITHOUT steaming

(2) they do not crush standing type

(3) they are readily molded, giving deep, sharp, even impressions

(4) they have "stayback" which requires only a minimum of packing

(5) they do not stick to the plates

(6) they shrink UNIFORMLY

(7) they enable stereotypers to produce perfect printing plates.

We invite you to make a trial of Certifieds in your own plant at our expense—samples are yours free of any charge or obligation.

Now is a good time to get acquainted!

October in Los Angeles....How the various papers fared....and what it means to national advertisers

Without verbosity, let us get right down to figures pointing the advertising trend in Los Angeles

COMPARISON OF ADVERTISING GAINS AND LOSSES IN LOS ANGELES MORNING FIELD, OCTOBER, 1925, OVER OCTOBER, 1924

	Los Angeles EXAMINER	2nd Morning Paper	3rd Morning Paper
LOCAL DISPLAY GAIN	**110,085 Lines**	Gain . . . . 14,115 lines	*Loss* 100,965
FOREIGN DISPLAY GAIN	**14,480 Lines**	Gain . . . . 7,182 lines	*Loss* 4,046

THE Los Angeles EXAMINER at the end of October was the ONLY newspaper in Los Angeles that showed a GAIN in Local Display Advertising in the first 10 months of 1925. . . . Here is something significant for space-buyers throughout the land to think about. . . . If Los Angeles merchants, month in and month out, put an increasing amount of their advertising in The Examiner, it is because, being on the ground floor, they know where they are getting results. . . .

In the four months of July, August, September and October, The Los Angeles Examiner GAINED 5,986 new average daily subscribers. The next morning paper LOST 3,747 average daily

Place your advertising in the Los Angeles paper that is not only constantly gaining advertising because of its pulling power, but readers because of its superiority

More Than 165,000 Daily; More Than 380,000 Sunday

TRIBUNE'S NEW PRESS IS MECHANICAL WONDER

Turns Forty-five Miles of Paper Into Finished Newspapers in Hour

Weighs Seventy-Five Tons, Measures Fifty Feet Long and Eleven Feet High and Required Four Cars to Bring It Here

THE TERRE HAUTE TRIBUNE, having found that its rapid growth and steadily increasing circulation required greater printing facilities, has purchased a new heavy-design unit-type octuple newspaper printing press from R. Hoe & Co., Inc., world famous printing press manufacturers of New York City. This machine is one of the most modern types manufactured and will enable The Tribune to print complete news papers at the following running speeds:

24,000 newspapers of 4, 8, 10, 12 or 14 pages an hour.

12,000 newspapers of 16, 20, 24, 28, 32 or 36 pages an hour.

8,000 newspapers of 40, 44, 48, 52, 56, 60 or 64 pages an hour in two or four sections.

It required four cars to transport the press to Terre Haute.

It required twenty months to build the press in the Hoe factory.

It required seven weeks to erect the press in the Tribune building.

The automatic ink pump distribution is hailed as the greatest advance in newspaper printing presses in 40 years.

The majority of the leading newspapers and magazines throughout the country are printed on Hoe presses.

A somewhat detailed description of this huge printing machine and the way in which it produces the following results should interest the reader. First of all, it is composed of four distinct printing sections or units, two of which are at one end and two at the other with the super-speed double folders coming in the middle. Each of these four units is composed of two plate cylinders and two impression cylinders, the purpose of the former being to carry the curved stereotype plates from which the actual printing is done and of the latter to press the web of paper up against these plates. Every plate cylinder carries eight stereotype plates, each the size of a full page of the newspaper and as there are two plate cylinders to each printing unit and four printing sections, the entire press has a capacity of 64 plates. As a plate weighs about 70 pounds the "fully dressed" press carries approximately 2¼ tons of stereotype metal on it in the form at whatever rental of the Tribune.

Ink Pumped In.

In addition to the plate and impression cylinders the printing units are all equipped with R. Hoe & Co., Inc., new patented pump system of ink distribution, one pump for each plate cylinder by means of which the ink is pumped from a central supply tank directly to the ink distribution cylinder.

This patented improved method of ink distribution is the greatest made in newspaper press construction since the introduction by R. Hoe & Co. of the inimitable former folder 44 years ago the invention of which made the modern newspaper possible. The pump system of ink distribution eliminates the ordinary type of ink fountain with its ductor or inking rollers. Each pump consists of 32 small pumps at work in unison and is mounted with its controls, in a small box on the end of a long transverse bar or rail in a position outside of the press permitting easy and convenient adjustments by the pressman. The rail contains 32 small brass pipes connected to the 32 small pumps, through which the ink is conveyed to each column of the four 8-column plates on the plate cylinder. Each pump-box has four rows of control screws for regulating the flow of ink to the plates, one row for each plate, one screw for each column and a master screw for each row. Through these control screws the flow of ink can be shut off or regulated for a single column or an entire page as desired by the simple adjustment of only one screw.

Unfailing Ink Supply.

The pump-box also contains a float for keeping the ink at a constant level so that the supply is regulated automatically without any attention to the pressman. The pump itself is directly connected to the distributing roller, which is in turn driven from the plate cylinder to supply an amount of ink fed to the plates at all times, automatically proportionate to the speed of the press. This improved method of ink distribution is an unmistakable improvement in newspaper printing, insuring a better printed newspaper, and saving time in getting editions on the street.

The 72-inch white paper, in rolls weighing six feet wide and 22 inches in diameter, is placed on rolls below the press sections and runs in continuous webs through the sections, passing over the plate and impression cylinders where it is printed first on one side and then on the other or perfected, as it is called. Having been printed upon, it is then led over rollers to the "superspeed double folders and here the collected webs, after being slit in the center, are led down two "V" shaped "formers" where they receive their first longitudinal fold. The folded webs are then led through nipping rollers to the folding cylinder where they are held by sharp, movable steel pins and cut to the proper length by a special form of knife on the cutting cylinder, which revolves against this folding roller. At the same time the papers receive their second or half-page fold and are then delivered on an endless belt entirely finished, ready for distribution. By an ingenious mechanism on the press every fiftieth paper is pushed out a little in advance of the others thus showing at a glance the number delivered and saving time and trouble which would be required to count them singly.

To perform all these operations at the tremendous speed at which the press runs it is necessary that these folders should be very perfect mechanisms, and capable of functioning properly at an almost unlimited speed. For this purpose R. Hoe & Co. Inc., has designed and patented a special folder which they call their "superspeed internal gear folder," in which the motion is entirely rotary and at the same time continuous. This does away with the use of cams and tapes and will fold the paper accurately and positively at a speed restricted only by the limitations of the paper, ink composition rollers and other conditions of printing. Some idea of the wonderful speed and accuracy of these folders can be obtained from the fact that while the course of an hour a reel of paper about six feet wide and approximately 45 miles long goes through the press and folders to be turned into finished newspapers.

All the plate and impression cylinders are constructed from a special design, perfected by R. Hoe & Co., Inc., and they are all carried in roller bearings. The main driving shaft below the bed plates runs in self-oiling pillow blocks which are so arranged that the supply of oil is automatically controlled and regulated without the necessity of a man constantly watching to lubricate them. The press is equipped with locking roller sockets, quick acting plate clamps, transverse collecting arrangement, enabling many special products to be run, independent nipping roller drive, etc.

As will be seen from the illustrations of the press, it is a particularly desirable pattern since all the printing sections and the two folders are easily accessible from all sides, thus making it a convenient press to plate and handle. A good idea of the size of the machine can be obtained from the fact that it occupies a floor space of approximately 50 feet long by nine feet wide and is 11 feet in height. It weighs approximately 75 tons and is composed of many thousands of parts.

A WEEK IN EPIGRAM.

Sixteen has produced units two great national organizations; title of those is Jane music and the other is the newspaper.—Irvin Kahn.

If you give up beer and wine, anything may happen.—Hilaire Belloc.

I have come to the United States to see a 400 price fight, a good horse race, a good play and to swim in Long Island sound.—Donna Byrne.

Nations cannot understand each other, and they cannot help disliking what they do not understand.—Viscount Cecil.

We have no right to comparison with the things that are fundamental. Some idea of the wonderful speed and accuracy of these folders can be obtained from the fact that.—Lord Haig.

Dad's Request.

"Son," said the father to the lad just starting for college, "it is going to cost me a lot of money to send you to the institution of learning and I want to make just one request of you."

"What is that dad?" inquired the son.

"That while you are there you try to learn something besides the college yell."

THE TRIBUNE'S WONDER PRESS

72,000 papers per hour up to sixteen pages.

36,000 papers per hour up to thirty-two pages.

18,000 papers per hour up to 64 pages.

Patented automatic pump system of ink distribution.

Self-oiling bearings and gears.

Printing cylinders of each unit separated in couples.

Patented tubular folding cylinders.

Improved folding roller drive, accommodating sixty-four pages.

Patented safety bayonet-locking cylinder knife boxes.

Independent vertical shaft drive.

Patented flash safety plate lock-up.

HUM OF THE PRESS THEIR DAILY MUSIC

Story of the Husky Fellows Who Start the Editions On Their Ways.

The reporter found Mr. Roscoe Mason, pressman, down in the room lovingly wiping an imaginary speck off of one cylinder of this splendid new octuple press and you can just bet your last dime that Mr. Mason was sure he had secured this "best word" in production of a daily newspaper for about 22 years. He started in to learn the game right here at The Tribune in 1902 when he took up work as an apprentice with Phillip Eckhagen. It fascinated him so he has never stopped. He worked here for five years, was away awhile and since his return has been foreman for eight years. His assistant is John P. Finan.

"What do we do? Well, we are on the job for eight hours. We come on early and fill up the fountain which by way of being intermeted means we get the ink ready and into the machine.

"We oil up the press and clean it up. Then we get the paper ready, go to the paper house, get the roll, take off the wrapper and then adjust it on the spindle and she's ready to start. When the forms begin to come from the stereotyping room we are ready for them and lock them into the press.

"You see they come in halves, and when the whole cylinder is complete it makes one page of the paper—and thirty-two of them were locked on the old press.

"It is quite different now with this new 'baby,' and you are reminded that there is nothing 'baby-like' about this great iron and steel 'horse' which harnesses, through its mechanism, the outside reading world with The Tribune newspaper. However it is a 'baby' to this pressman, who is second only in his pride to the owners of the plant.

"The old quadruple Hoe press which has just been discarded has been in use for thirty years. When the press was run on the 22 page seven-column width, it turned out 12,000 papers an hour. The new press, which turns out 64 pages eight columns wide and 22 inches long, will produce 36,000 of these an hour.

"Sixteen-page papers it fairly eats up, showering out 72,000 sixteen-page papers per hour.

"It is going to be different all the way around. We can come down in white shirts and stand-up collars if we want to. With the old mach nery we had to submerge in overalls, which were always generously splattered with ink and grandure as well as paints, ink, for of course we had to clean the press and it was operated with the old style belt system with no oils. The belt would get greasy and slip off, then it was up to the pressman to put her on and get started. The start and stop lever caused the shifting of the belt on the motor by the old system.

"The paper on the old press was placed by hand power, while an old-fashioned lockup slackened the plates. An old folder with tape carriers was eliminated on the new.

According to the pressman, Mr Mason, who declares that there is nothing like his new press this side of New York City. The press is 45 feet long and eight feet wide, standing 10 feet high. Its weight is 13,000 pounds and the pages can be produced either in "book" or in sections.

It has an automatic control governed by compressed air, with an automatic paper hoist, run by two 50-horsepower motors and a Cutler-Hammer electric control. There are 14 control stations. "Count 'em," declared Mr. Mason, who pointed out the value in starting and stopping the press by these, and the patent lock-up for the plates and the electric brakes.

"See, this is the very latest model that the R. Hoe company of New York had produced. Let's see a 'dirty 5' and again Mr. Mason went to smoothing up the glittering machine.

He stopped long enough to say "This is a great time-saving device; the plant will save a lot of time and money by it, and it is indeed with pleasure that I meet my duties as pressman each day with the splendid new equipment to work with. It is the crowning pinnacle of my 22 years of service as a pressman, and when I approach my day's work it is indeed not with lagging feet, but with inspiration."

AEROPLANES QUIETER.

A new research, now yielding significant though secret results, aims to silence the propellers as well as the engines of airplanes. When an aero-engine is silenced the noise of the whirling air screws, previously drowned by the roar of the motor, becomes penetrating and facreaching.

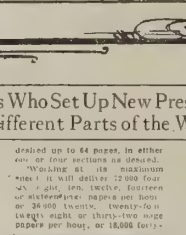
The first step, taken recently was to experiment with propellers having a number of small blades instead of two large ones. The noise reduction that resulted was appreciable. The new phase also deals with the shape as well as the size of the blades. Prolonged tests, closely guarded, now show that by the adoption of certain curves the stress noise can be further lessened. Difficulties are many, but the importance of the quest, it must be admitted, is great.

Mechanical Genius Who Set Up New Press Has Been Doing Same Task In Different Parts of the World for 36 Years

H. A. Collins.

Installing a press, especially one the size of that which has just been installed in the Tribune press rooms, which is slightly too big to be handled conveniently by one person, is not the job of a newspaperman, and so the job of telling about our new press and its installation was left to Victor Seelander, who was in charge of the installation for the R. Hoe company, of New York and London, of whom the press was purchased.

Mr. Seelander installed the old press, which has just been replaced for the Tribune seventeen years ago and it is an evidence of the faith that his company has in him that he was sent back here after that long a time to install the new one.



Mr. Seelander has been with the R. Hoe company for a period of thirty-five years, during which time he has spent twenty-five years in the installation of presses. "This work has naturally taken him over a wide territory, and in addition to installing presses in every state in the union, he has worked on the same job in Paris, Paris, The Republic of Argentine, Cuba and several other countries in all corners of the globe.

His story is as follows

"The press which has just been installed in the Tribune press rooms is the latest model press on the market today. I do not hesitate to say this, as thirty-five years experience has given me the right to speak from the standpoint of an expert in this line of work.

"The press is an octuple, high-speed, heavy unitype press, capable of delivering any size paper desired up to 64 pages, in either one or four sections as desired.

"Working at its maximum speed it will deliver 72,000 four, six, eight, ten, twelve, fourteen or sixteen-page papers per hour, or 36,000 twenty, twenty-four, twenty-eight or thirty-two page papers per hour, or 18,000 forty-

VICTOR SEALANDER.

eight, fifty-six or sixty-four page papers per hour, and any of these can be delivered in one, two or four sections as desired.

"The running parts of the press are travelling and roller bearing. The cutting parts are so designed that the largest paper listed above may be delivered without any undue strain on the press or the cutting cylinders. The cylinders themselves are of solid cast steel.

"The press is driven by two fifty horse-power Cutler and Hammer motors with direct drive shaft of the press by means of lineal chains. These motors are controlled by the Cutler and Hammer control system, which permits the operator to handle the machine from any one of sixteen control stations, with which the machine is equipped.

"The press is equipped with a Hoe automatic inking device, which may be operated for each of the four units of the press from a separate station located on each unit. The ink is sprayed onto the cylinders by compressed air instead of by the old roller system, and is mechanically operated by a device on the press itself.

"I don't know how many pieces there are altogether. I never counted them. There must be a million at least, it seems so.

"The press weighs about 150,000 pounds and rests on a solid concrete base 45 feet, ten inches long by 9 feet, 6 inches wide. The press itself is the same dimension as the base and stands ten feet one inch at its highest point.

"It took us approximately sixty days from the time we started until we were ready to print the first paper to install the press. It is a big job and I had some very exceptional help from Jack Sovern, which I appreciated very much.

As a last word, I want to say that the Tribune has a press now which will give them a metropolitan paper in every sense of, paper in the world today can claim a more up-to-date press than the one just installed here, the word and no metropolitan

SPEED'S OWN KIN; TRIBUNE MAILERS

When the Edition Is Off, These Nimble Fingered Fellows Escort It to the Mails.

Earthquakes and typhoons have some speed, but they haven't a thing on a good, handy, slippy newspaper parlay.

The mailing room of The Tribune is indeed an interesting place, an adjunct to Uncle Sam's domain, a kingdom ruled over by Gordon C. McLaughlin, mail man, upon whose efficiency depends the getting of the paper out on time to the rural districts and surrounding cities.

Mr. McLaughlin has had 18 years experience in his duties, which begin at 10 o'clock in the morning when he arrives to prepare the agent's wrappers, make corrections and apply the mail lists, tag the sacks and have everything in readiness to get out the bull dog.

What do we mean by bull dog? That is the first edition from the press and it is hastily sent out for street sales. When the press begins to roar and each revolution turns out its quota of folded newspapers, these are grabbed and wrapped and tied into bundles saved to drivers of the wagons which start on their runs to the bus terminals, the post office and traction station and then—the mail man goes to dinner. From dinner he hastens back to get ready for the pre-date edition, which goes up all the rural cities, and then Mr. McLaughlin gets ready for the third and home edition of the newspaper.

This department will be affected but little by the advent of the new press, as it will not change the schedule, and Mr. McLaughlin's duties will remain the same.

It will be up to him to get out papers for delivery in the towns where The Tribune is read for 100 miles each way from the office.

He said: "While the old press was no fancy speeder it gave us a brisk run for our money in the mailing room, once she started. But this new press starts a paper flood from the folder any minute she's started."

SPEED OF A HORSE.

Doubt Expressed About Racers of Former Days Being Faster.

In the meeting of the British association, Prof. A. V. Hill, University of London, said that "the horse of 150 years ago could run just as fast as its modern successors in racing." This statement may be doubted.

Much may be made of the alleged feat of Flying Childers, credited with having run four and one-fifth miles in 7 30 in 1721, working out about 7.12 for four miles. That time has been beaten, but by so little as almost to sustain Dr. Hill's view. But four miles, a great distance for the horse, and slow for the spectators, is not much used in modern racing; and, as the Encyclopedia Britannica hints, timing horses was not in 1721 very accurate.

We have records of the British derby since 1852. It is unfair to make comparisons year by year—in 1857 there was snow on the course; in 1925 it was a quagmire. But before 1889 the time of the famous race, for one mile four furlongs 28 yards, was on three Derby days more than three minutes. The average time of the first five Derbys was 2.57, of the first five of the present century, 2.42. In the first 50 years the record was tied or broken 13 times.

What happened in harness racing in the United States is familiar. Dexter never beat 2.17. Maud S was sold for $21,000 on a record of 2:17¼, which she afterward bettered. Nancy Hanks, Alix, Cresceus, Lou Dillon, Peter Manning knocked 20 seconds off the record; part of this may be ascribed to better equipment and tracks—but give the horse some credit. More intensive breeding for another century and a half does count for something.

If Flying Childers were racing today he might be a profitable purse-winner in minor contests. It is doubtful if he would be placed in the front rank.—New York World.

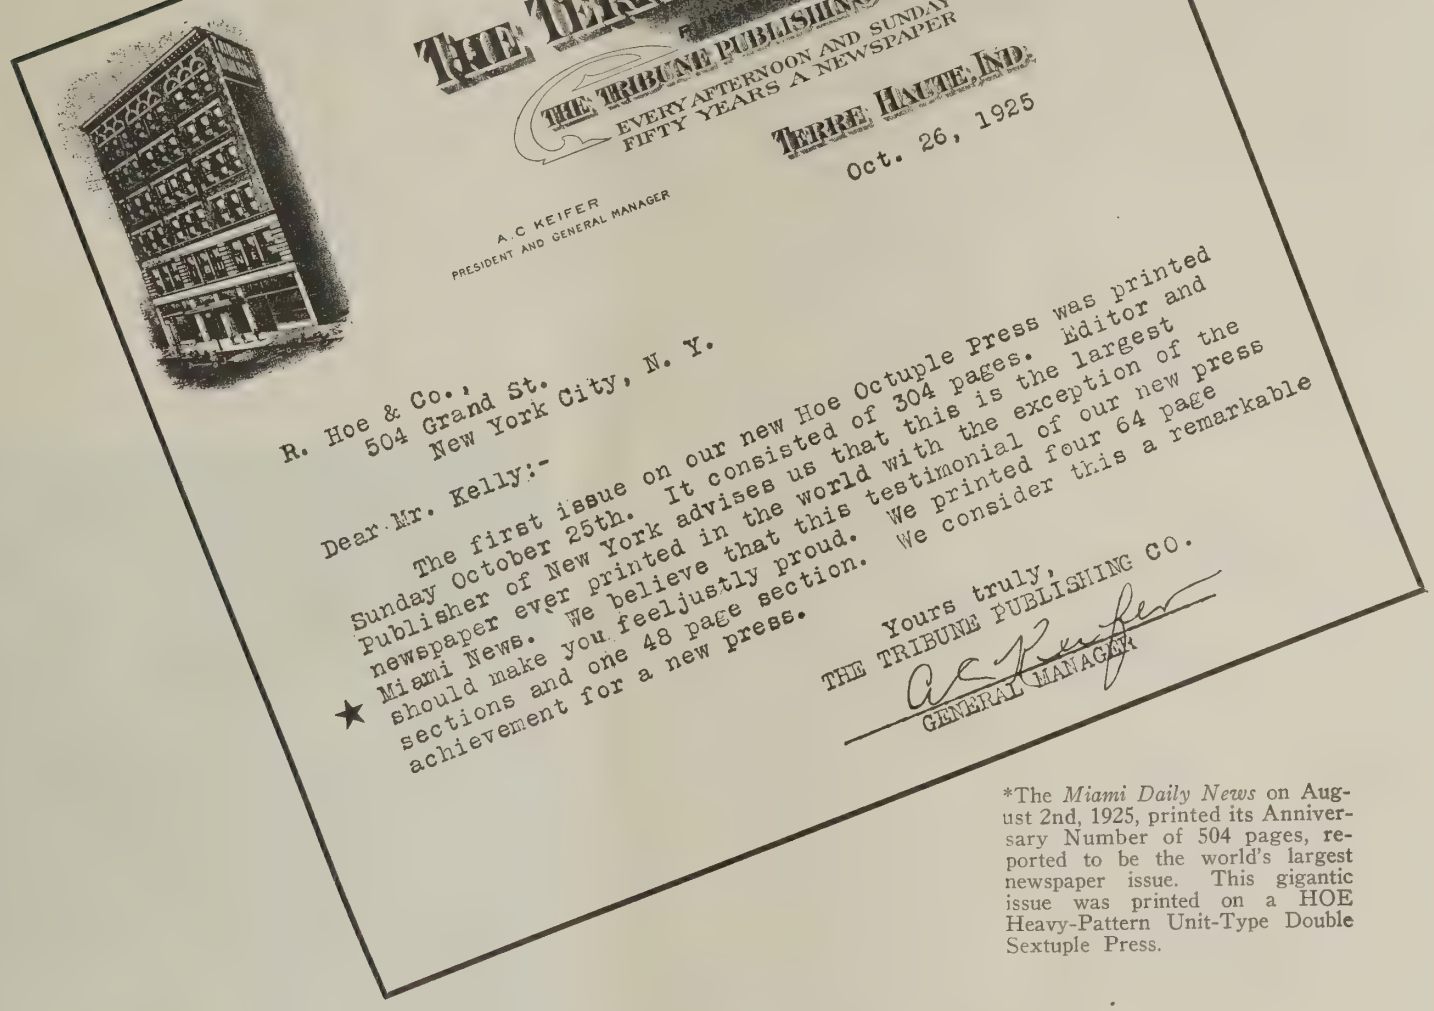
He Relief To Married Men.

Henry Ford believes that vegetable fuel will be produced on American farms before long. Now we see where carrots and spinach are going to have a chance to be useful.—Houston Post-Dispatch.

The style of beauty that a man prefers generally depends upon the girl he is with.

SOME FACTS AT A GLANCE OF THE TRIBUNE'S NEW PRESS

ACTUAL RUNNING SPEED CAPACITY



72,000 Papers per hour of—— 4, 6, 8, 10, 12, 14 or 16 pages, inset
36,000 Papers per hour of 18, 20, 22, 24, 26, 28, 30 or 32 pages, inset
36,000 Papers per hour of 18, 20, 22, 24, 26, 28, 30 or 32 pages, inset
18,000 Papers per hour of 36, 40, 44, 48, 52, 56, 60 or 64 pages, collected

NEW AND DISTINCTIVE FEATURES

Patented Automatic Pump System of Ink Distribution.
Cast-Iron plate and Patented Tubular Impression Cylinders running in Self-oiling Bearings.
Printing Cylinders of each Unit separated in couples, thus reducing the liability of breakage of gears, localizing the damage in case of accident and minimizing the breakage of paper webs between the cylinders.
Cast-Iron Gears for Printing Cylinders.
Independent Vertical Shaft Drive.
Shearing Hubs for Press and Folder Drives.
Patented Quick-Acting Safety Plate Lock-Up.
High-Speed Rotary Folders with Internal-Gear Folding Mechanism and Spur Gears for driving the Folding Cylinders.
Patented Tubular Folding Cylinders.
Steel Cutting Cylinders.
Independent Nipping Roller Drive.
Nipping and Folder Roller Adjustment by Hand Wheel outside of Folder Frames.
Improved Folding Roller Drive, accommodating sixty-four pages.
Roller Bearings for all free running Pipe Rollers for Web after passing through Printing Cylinders.
Locking Roller Sockets.
Adjustable Turning Bars.
Impression Cylinders elevated.
Wedge Adjustment for setting the Impression while Machine is working.
Vertical Shaft Drive to Drag Roller at top of Formers.
Patented Safety Bayonet-Lock Cutting Cylinder Knife Box.

Reproduction of page from the *Terre Haute Tribune*, 50th Anniversary Number, October 25th, 1925. The issue consisted of 304 pages—the second largest newspaper ever printed in the world—and was *the first issue* printed on a *new* HOE Heavy-Pattern Unit-Type Octuple Press.

Another World's Mark Set on Hoe Presses

*The *Miami Daily News* on August 2nd, 1925, printed its Anniversary Number of 504 pages, reported to be the world's largest newspaper issue. This gigantic issue was printed on a HOE Heavy-Pattern Unit-Type Double Sextuple Press.

The *first issue* printed on The Tribune's *new* Hoe Heavy-Pattern Unit-Type Octuple Press was 304 pages—the *second largest newspaper issue in the World.*

BOSTON : CHICAGO : LONDON : DUNELLEN

N. A. N. A. ELECTS NEW FOREIGN MEMBERS

Exclusive Feature News Co-operative Organization Extends Membership to Europe, Egypt, and South America—Further Plans

The North American Newspaper Alliance has extended its membership internationally and now includes in addition to its American and Canadian members 19 newspapers in Europe, Egypt, Cuba and South America, Loring Pickering, general manager, announced this week.

The Alliance is a co-operative organization of newspapers for the gathering and distribution of news features, reporting to its executive committee. Mr. Pickering announced that the total circulation of its members was now approximately 22,000,000.

Plans are under way for the admission of important newspapers in Asia and Australasia.

The Alliance's London offices and staff have been enlarged to care for the European members. H. J. J. Sargint, formerly telegraph editor for Reuter's Ltd., has been appointed foreign editor.

The new foreign members of the Alliance are:

Vienna, Neue Freie Presse; Brussels, L'Etoile Belge; Havana, Diario de la Marina; Prague, Ceske Slovo; Copenhagen, Berlingske Tidende; Helsingfors, Uusi Suomi.

Paris, Petit Parisien; Berlin, Berliner Tageblatt; Budapest, Pesti Naplo; Milan, Corriere della Sera; Rotterdam, Nieuwe Rotterdamsche Courant; Oslo, Tidens Tegn; Warsaw, Gazeta Warszawska Poranna.

Lisbon, Diario de Noticias; Madrid, Prensa Espanola; Stockholm, Dagens, Nyheter; Zurich, Neue Zurcher Zeitung; Buenos Aires, La Prensa; Alexandria, Egyptian Gazette.

Membership on the North American continent is to continue limited to 71 newspapers, with the possible addition of one more.

Maj. Pickering's announcement was made exclusively to EDITOR & PUBLISHER following his return to this country from a four months' trip abroad, during which he concluded negotiations with the new European members. It was first decided to extend the Alliance's interests abroad last April. Details, however, were kept secret and were not revealed until this week, when Maj. Pickering submitted a report to the executive committee of the Alliance.

Operation of the Alliance as an international membership organization has been functioning for the past two months, Maj. Pickering revealed.

Future plans call for the appointment of a similar administrative executive in New York to direct dealings with members in Asia, Australasia, and South America.

"We found first of all that three-quarters of our feature stories were international in scope," Maj. Pickering declared in commenting on the expansion program.

"We had correspondents abroad, whom we will continue to maintain, but we believed the addition of foreign newspapers as members would give us added protection, and would aid materially in arranging the gathering and distribution of the feature stories."

Members of the executive committee of the N. A. N. A. to whom Maj. Pickering's report was submitted, include: J. R. Bone, *Toronto Star;* Robert McClean, *Philadelphia Bulletin,* George E. Miller, *Detroit News;* Ralph Pulitzer, *New York World;* and C. E. L. Wingate, *Boston Post* and J. Edwin Murphy.

PROBING FAKE POLICE CARDS

New York District Attorney's Office Investigating Forgeries

The New York district attorney's office is investigating the appearance of spurious newspaper police cards among persons not entitled to carry them.

One of the cards to the attention of the District Attorney reads:

"Official; International News Service, members of the Associated Press. The bearer is an accredited representative of this service and any courtesies shown him gathering news will be highly appreciated. New York, San Francisco, New Orleans, London, Paris, Montreal. (Signed) C. W. Willis, superintendent field service. F. H. Worthington, managing director."

The absurdity of the forgery is seen in the wording at the beginning which makes the International News Service a member of the Associated Press. The two names appearing on the cards appear to be mythical persons, neither the Associated Press nor the International News Service having any one with these names associated with them.

Waukegan Editor Marries

The marriage of William J. Smith, editor of the *Waukegan* (Ill.) *Daily Sun* and *Lake County Independent* and Eula S. Clark of East St. Louis took place Nov. 11, at the home of the bride's parents in East St. Louis. The bride is a niece of A. T. Spivey, editor of the *East St. Louis Journal.*. Mr. Smith is president of the Illinois Press Association.

Turns Readers Into Proofreaders

The *New York Evening World* this week asked its readers to list errors in each day's paper for cash prizes of $50, $25, $15, and $10. A woman won Tuesday's contest with 340 errors, the majority of them typographical. In explanation the paper stressed the speed of newspaper publishing.

Herbert E. Ehlers Dies

Herbert E. Ehlers, 57, city editor of the *Newark Sunday Call* for the past 20 years, died at his home in Newark Nov. 12. He is survived by his wife and three sons.

HUMORIST TELLS 'EM WHAT IS NEWS

Neal O'Hara, Syndicate Columist, Says Dana's Epigram Has Changed—Explains Why to Young Men Entering Journalism

Neal O'Hara, who writes the daily column "Telling the World" for the New York World Syndicate, took occasion last week to furnish young journalists with "the latest dope" in answer to the question "What is News?"

In his column he wrote, in part:

"Fifty years ago an editor defined news. 'If a dog bites a man,' he said, 'that is not news. But if a man bites a dog, that IS news.'

"A lot of journalism has flowed into the waste basket since that wise crack was got off. News is a different article today. The old epigram changeth.

"Young men who are rushing into journalism nowadays should get hep to the following dope:

"If somebody robs a gasoline filling station, that is not news. And if a gasoline filling station robs somebody, that isn't news, either.

"If Miss America appears in a half-piece bathing suit, that is not news. But it would make a swell picture for a rotogravure section.

"If John D. Rockefeller gives $10,000 to a hospital, that is not news. But is he gives a dime to a traffic cop, that is news.

"If a widow parts with her life's savings, that is not news. But if Valentino parts his hair on the side, that is news.

"If Prohibition is a success that is news to everybody.

"If Jack Dempsey says he is raring to fight, that is not news, even if he bites a dog to prove it."

"If Morris Gest imports a new theatrical troupe, that is not news, but you have a tough time keeping it out of the paper.

"If the Meat Trust announces That giving turkeys will be cheaper this year that is news but there's a trick clause in it somewhere.

"If a visiting British author says America is wonderful, that is not news. But if he says America gives him a pain in the neck, it will be under a London dateline.

"If a bandit robs a bank of $10,000 that is not news. But if Gerald Chapman's old pals are suspected, it will have a place in the paper somewhere.

"If President Coolidge has nothing to say, that is not news. But the Washington correspondents will make a column and a half out of it."

An interesting situation in "Love Bound." The wife solving the mystery of the gold vanity case.

LOVE BOUND

BEATRICE BURTON'S

latest and best newspaper serial is now ready for release. Better than her "THE FLAPPER WIFE," which was a circulation sensation. Mrs. Burton's newest serial—"Love Bound"—is an amazing and intimate story of the business office girl who in a few short months knows "husbands" better than the wives who have lived with them for years.

Educational Value of The New York Times

AN intelligent and clear understanding of the day's news is an absolute necessity in present-day business and social contacts.

Each day the true newspaper asks arresting questions. It is alive with suggestions toward a fuller insight into the ways of man and his universe. In the broad sweep of the news, it deals in a single day with many of the great problems that confront the world. In its pages there is a wealth of human drama; there are many facts far stranger than fiction; there is an abundance of interest and a multitude of directions for extending your information.

What do you get out of your newspaper?

The news, of course.

But do you get out of it also—

a knowledge of current history,
a clear picture of the course of great events,
a multitude of suggestions for building up your information,
a stimulus to thought,
a method of arriving at sound judgments—

In short, does your newspaper contribute vitally to your education?

If it does not, you are getting only a small part of what the true newspaper can give you; for the time you spend on newspaper reading you are receiving only half a return. The New York Times will give you a full return, if you will use it as it can and should be used.

Newspaper reports of governmental and industrial affairs give the reader current material for the study of political science and economics.

Investors, bankers and brokers find in its pages a continuing course in finance. The business man is daily given the facts of industry and commerce.

In the Magazine Section of the Sunday edition are illustrated articles on the outstanding subjects of the hour, both in this country and abroad.

The Book Review Section is a compendium of authoritative information on current literature.

Students at schools and universities find The New York Times valuable in courses of history and current events.

Those interested in foreign affairs obtain light from The Times on the political and economic problems of Europe.

The New York Times *is a day-by-day history of events—important as a means of giving the reader a conscious part in the life of the whole world.*

Once you begin to follow the unfolding of history day by day in the newspaper, there will be aroused a curiosity that will lead you deep into the reference books. If you will give to the newspaper only the application and the reflection you accord to your simplest problem, the questions it raises will carry you eagerly into your library.

To answer these questions is to broaden your information immeasurably; to consider their significance is to train your powers of analysis and reasoning and thus to arrive at sound judgment.

The process is simple. The only requirement is that you read the important news thoughtfully, not merely scan headline and text. If you will do this, you will possess the facts; without such possession sound judgments are not possible.

The largest group of intelligent and thoughtful people in the country, professional men and women, leaders in educational groups and in business read The New York Times regularly. It is kept on file in college and public libraries and in business institutions. Students of current history, politics, economics, public speaking and allied subjects use The Times as a textbook. *When you quote* The New York Times *you speak with authority.* The New York Times is the newspaper preferred above all others by leaders of education.

There are few more helpful influences in shaping the course of educational progress toward larger and better things in school work than the editorials on educational topics that appear in The New York Times, from time to time. Unlike so much of the editorial comment in the newspapers on school and college conditions, The Times editorials show a clear and comprehensive understanding of present-day needs and tendencies in American education. From October issue "American Education," Albany, N. Y.

EDITORIAL

APPLAUSE

NEVER has the crying need of standards in newspaper mechanics been better exposed than during this week at the mid-season convention of the American Newspaper Publishers' Association. We urge our readers to closely examine and ponder the proceedings, printed on other pages of this issue.

The A. N. P. A. has never done a better job in its existence than in calling this conference for a showdown on the long-neglected question of newspaper waste and lost motion. Some of the cleverest experts in newspaper manufacture, speaking there, were in perfect agreement that the time had come for the organized press to do something to bring order out of chaos, to stop wasteful, uneconomic practices, to get mechanics of the daily press under the supervision of the engineer, to supplant harum-scarum methods with order according to the dictates of modern science.

The resolutions adopted at White Sulphur Springs are to be applauded by the press in general. The April convention will most certainly put the big enterprise in motion. The A. N. P. A. is chartered for large service to the daily press industry, and those in command of it are determined that it shall function to full capacity. The White Sulphur Springs resolutions strike a new and happy note.

What must be the thoughts of a reader of a Sunday newspaper which contains 300 *pages, impossible to read short of two or three days of constant application?*

PRESS AGENT ON THE RUN

THERE is substantial evidence that the industrial press agent graft is having hard sledding. Grafters who for years have had easy picking in some daily newspapers and many weekly papers are not finding it so easy these days to place their deceitful "news" and "feature stories." Their employers are awakening to the fact that the game has been as much at their expense as the press, the great bulk of the material sent out representing pure waste. Editors, publishers and advertising men are adopting the policy of candidly informing heads of reputable business concerns of unethical and in instances scandalous methods of press agents operating in their names. Press agents are losing their accounts.

That the press agent is squirming is shown by such incidents as the following: A Chicago advertising agency, which also conducts an industrial press agent business, has abandoned the method of sending free advertising direct to editors, but now hands the stuff to the special advertising representatives of newspapers, which helps a little as the special may with one sweep of the hand toward a waste basket save a whole group of editors from the trouble of opening the futile mail. Other press agents are mailing their stuff in envelopes which bear no printing. Another game is to induce a local advertiser or local agent to hand the copy in to the editor. The demand to get the stuff printed is increasingly frantic, indicating that the press agent is hard pressed.

Some of the grafters are growing ugly. One of the smoothest of the tribe attempted this week to get EDITOR & PUBLISHER to print a subtle attack, intended to impugn honesty, upon a mid-west newspaper editor who recently made an address charging press agents with fraud. When EDITOR & PUBLISHER refused to comply the press agent became insulting.

Editors: Stop using all press agent material; get your own news or go without it; make national distributors of merchandise who employ press agents buy their space on even terms with local advertisers; meet the spirit as well as the letter of the law which, for the protection of readers, demands that advertising be labelled as such!

Advertising executives: Send the stuff back, not to the press agent, but to his employer and frankly expose the graft!

Publishers: When you see a piece of press agentry in your columns find out who put it there and who was paid!

The press agents are on the run—keep 'em running, say we.

Wisdom strengtheneth the wise more than ten mighty men which are in the city.
For there is not a just man upon earth, that doeth good, and sinneth not.—Ecclesiastes, VII; 19, 20.

PATTEE'S DIRECT MAIL

J. G. PATTEE, sales director of the Newcomb-Endicott department store at Detroit, continues to boost the direct-mail business. We notice an article by him contributed to *System*. He tells how his company sold $21,608 of merchandise for 4.4 per cent for advertising.

Fortunately, for those who hold that direct-mail advertising does not compare in efficiency or economy with newspaper advertising, Mr. Pattee reproduces with his article facsimiles of letters he sent by mail to the store's customers offering merchandise. These letters explain much. One describes oriental rugs of amazing beauty, valued at from $65 to $125, for only $38. The letter is one of the most alluring sales arguments we have seen in a long time. It would melt a heart of stone. Who would ever dream of being able to buy a $125 Persian rug for $38? Mr. Pattee, as a lure to the store's "best customers," even put a "card of admission" into the envelope—think of it, a card of admission to a private sale of cheap rugs!

Mr. Pattee's sensational letters naturally pulled a high average of trade, but such tricks soon wear out, according to time-tested experience. When his store wants to move its legitimate merchandise, not at sensational bargain prices and with such doubtful expedients as a "private sale," but for true values, it uses newspaper columns.

In the lead of the *System* article the gentleman states that his firm is traditionally committed to "only honest merchandise at a fair price," so it must be true that those Persian rugs were actually worth two or three times the price asked for them in letter advertising. Such startling bargains might be sold on sight, without advertising of any kind. Put the Persian rug described in Pattee's letters in any high-class store's display window marked: "This Persian rug is worth $125; price today, $38," and we submit that police reserves would be called to preserve the peace.

SATURDAY ADVERTISING

THERE is no better example of what can done with Saturday newspaper advertising th is offered in *The Philadelphia Bulletin*. V have just been noticing the issue of November 7, 48-page paper, produced normally, without special e fort. It contains 165 individual retail store adve tisements, as well as the announcements of all t department stores that advertise in the paper on oth days of the week.

There are also approximately 4,200 separate class fied advertisements in the issue.

The Bulletin's half million circulation does busine for the merchants who advertise on Saturday, just the same circulation does business for those who a vertise on other days of the week. William Simpso business manager, tells us Bulletin advertising clien are well satisfied with Saturday results.

Saturday editions of newspapers of merit that a unprofitable are simply not being sold. Much bus ness is more suitable for a Saturday edition than th more crowded Thursday or Friday numbers. Satu day advertising is a subject that must be intensive studied. It is a newspaper problem that can be solv by management, indeed, is being solved by enterprisir executives on many newspapers.

Christmas is coming—for Newsboys, who make possible the success of daily journalism.

RADIO ADVERTISING

EDITOR & PUBLISHER has come in for co siderable censure during the past two years f its editorial attitude of objection to radio broa cast advertising. In some quarters our motives ha been regarded as merely partisan to the newspape As a matter of fact we have objected to radio adve tising for the sound seasons: (1) In its indirect for it is deceptive and an imposition on the public; (2) cannot obtain direct-advertising results; (3) it vi lates the long-sought ethical rule that advertising mu be labelled; (4) in that it cannot, by its nature, d liver substantial values to advertisers, it is a menac to the advertising business; (5) it is not only unfa to established media but is a blow at the fine ne science of communication, radio, a blessing if properl used, a curse if abused.

EDITOR & PUBLISHER this week calls attention to th resolutions adopted at Mr. Hoover's radio conferen at Washington, published in full in another colum officially confirming all we have been contending fc two years.

"Christian Science Monitor" recently published an Ohio special edition which might be used as a model for such enterprises—a special edition of such editorial merit as to warrant permanent filing.

A NOVEL CONTEST

PRIZES to readers who detect errors in the new editorial or advertising columns, are being of fered by the *New York Evening World*. Th sum of $50 is paid for the longest list of inaccuracie in a single issue, $25 for the second, $15 for the thir and $10 for the fourth. Errors in punctuation d not count. But if a reporter mis-spells a name o intersects parallel streets, or if an editorial write mixes his dates in historical reference, or a printe transposes or makes a typographical blunder, it i valid for a count. Any statement of fact may b challenged.

This is a novelty and nothing could be better cal culated to stimulate newspaper makers in the ceaseles quest of accuracy. That the contest is interesting t the public was shown by the large response the Worl received from its first contest issue. Hundreds o keen-eyed readers reported an error in a date an also a reporter's slip in reference to the celebratio of a Saint's Day. World writers have not only t pass the copy-desk, but run the gauntlet of a critical throng of readers who are well paid for th detection of errors. In the meantime the Worl builds an enviable public reputation for accuracy.

PERSONAL

CLARENCE W. BARRON, publisher of the Boston News Bureau and *Wall Street Journal,* sailed Nov. 7, from New York on the liner "Paris" for a European tour.

John L. Stewart, publisher of the *Washington* (Pa.) *Observer and Reporter* and president of the Pennsylvania Newspaper Publishers' Association, sailed this week from San Francisco for a trip around the world. He will return next April.

Oscar Woodruff, editor and publisher of the *Dansville* (N. Y.) *Express* for the last 50 years, observed his 86th birthday recently.

PRESS ASSOCIATION NOTES

M. M. OPPEGARD, St. Paul correspondent of the Associated Press, and Mrs. Oppegard are parents of twin girls.

Joseph L. Jones, United Press foreign editor sailed from New York for London, Nov. 7, to join the London U. P. staff. Larry Allen, London manager, arrived this week in New York to take charge of the foreign desk.

Ralph Turner, news manager of the United News, New York, visited the United News Washington bureau this week.

CHANGES OF OWNERSHIP

ROSCOE H. LARSON, has purchased the *Irene* (S. D.) *Tri-County News,* succeeding W. W. Myreholt, Nov. 1.

F. H. Plumb of Bagley, Ia., for the last year a partner with H. E. Hankins in the publication of the *North Guthrie* (Ia.) *News* published at Bayard, has sold his interests to Mr. Plumb and will retire.

George S. Peck, who with C. F. Brown of Palouse, purchased the *Lacrosse* (Wash.) *Clipper* in the early summer, sold his interest in the paper to his partner recently.

FOLKS WORTH KNOWING

AMONG the many progressive publishers of small growing Florida newspapers, is H. H. Hudson, publisher of the *Titusville* (Fla.) *Star Advocate.*

H. H. Hudson

Mr. Hudson entered the newspaper business in 1914 as classified solicitor on the *Des Moines News.* After a year in that capacity he was transferred to the display staff where he remained nine years. The last year he was with the News he was manager of the advertising department.

In the fall of 1922, he was transferred to the *Cleveland Press,* where he served nearly three years in the advertising department.

Just recently, he realized an ambition he had long held in the purchase of the Star Advocate.

L. E. Eskelson has taken charge of the *Pukwana* (S. D.) *Press-Reporter,* succeeding J. W. Jackson, who has gone to Nebraska.

Robert Good, of the *Cawker City* (Kan.) *Ledger,* and former assistant state business manager, has purchased the *Ottawa* (Kan.) *World,* Democratic weekly.

R. L. Barnard, one of the owners of the *Ketchikan* (Alaska) *Chronicle* since it was established five years ago, has sold his interest to his partner, E. C. Morrissey.

Fred Zeigler, Jr., editor of the *Greencastle* (Pa.) *Echo-Pilot,* owned by the late William J. Patton, has purchased that paper.

Selah (Wash.) *Optimist* was sold, Oct. 29, by Roy C. Irvine to John Simonson, former newspaper man and now a fruit ranch owner.

WITH THE SPECIALS

FREDERIC A. KIMBALL has joined the staff of the S. G. Lindenstein, Inc., publishers representatives, New York. He has been in the newspaper representative business in New York for the past 20 years.

Paul F. Clark formerly with the *Portland* (Me.) *Press Herald* has joined the staff of Carroll Swan, publisher's representative, Boston.

Photoplay News, illustrated weekly newspaper has appointed the following representatives: New York, Michael Altschuler; Chicago, E. H. Moran; Kansas City, J. H. Miller.

NEW PLANTS AND EQUIPMENT

AKRON (N. Y.) JOURNAL, published by J. C. Murphy, will be moved soon into the Buchner building on Main street. The property has been purchased by Mr. Murphy.

Buenos Aires La Prensa has ordered a second 16-page Hoe intaglio press for rotogravure printing.

Elrod casters have been installed by the following papers: *Cincinnati Times-Star, Daytona Beach* (Fla.) *Journal, Deland* (Fla.) *News, Evangelical Messenger,* Cleveland, and the *Calcutta Statesman,* India.

Brooklyn Times has ordered two 16-page press units and one double folder from R. Hoe & Co.

MARRIED

SOUTHARD P. WHITING, for eight years with the advertising department of the *Des Moines Register and Tribune-News* to Miss Florence M. Blount recently. Mr. Whiting is now with the advertising department of the Ford Motor Company.

Ralph M. Rhoderick, editor of the *Middletown* (Md.) *Valley Register,* to Miss Mildred M. Speak of Middletown, Oct. 31.

Gilson B. Gray, Jr., formerly of the *New York Herald Tribune,* and now with Barton, Durstine & Osborn to Miss Mary Frances Buffum of Louisiana, Mo., recently.

SPECIAL EDITIONS

LAKELAND (FLA.) LEDGER, 224-page Tourist edition, Sunday, Nov. 1.

Lebanon (Ind.) *Reporter,* 32-page edition in connection with annual Corn Carnival.

Ottawa Citizen, 22-page edition in connection with Eastern Canadian Laundry Owners Association convention, Nov. 5.

Minneapolis Daily Star, 40-page Progress of Minneapolis edition, Oct. 31.

Duluth News-Tribune, 68-page Enclosed Car edition, Nov. 1.

Cobleskill (N. Y.) *Times,* 26-page Progressive New York edition, Nov. 6.

Atlantic City Press-Union, 64-page Know Your City Day edition, Nov. 6.

ASSOCIATIONS

NEWSPAPERMEN'S GOLF CLUB OF BOSTON held its last tournament of the season at the Bellevue Golf Club last week. Thanksgiving turkeys were given to the winners. They were: Class A, C. S. Jacobs, *Boston Post;* Class

Figures Don't Lie!

IF YOU want to know the name of the most popular daily illustrated feature news service, take a look at the figures we are going to give you in a series of advertisements in the Editor & Publisher, of which this is the first.

Central Press is dominant in the dominant states.

Consider North Carolina, for instance.

The newspapers with the largest circulation and widest influence in this important key state are the Charlotte Observer, the Raleigh News and Observer, the Greensboro News and the Winston-Salem Sentinel.

All four are using the Central Press Association's full daily general service in making and holding readers.

The Central Press Association

V. V. McNitt, President — Central Press Bldg., Cleveland — H. A. McNitt, Manager

P.S.—We produce the world's best daily picture page.

B, Alex Kennedy, *Globe;* Novice class, J. J. Hallahan, Globe.

Woman's Press Club of Denver has inaugurated a series of evening "Shop Talks," to be held once a month informally about the club fireplace. At these gatherings established writers will discuss magazine and syndicate markets and allied topics.

Medina (N. Y.) Advertising Club has elected these officers: President, Raymond Feller; vice-president, Frederick Neff; treasurer, D. A. Barnes; secretary, Percy Krompart.

Missouri Republican Editors' Association will hold its annual session at Jefferson City, Nov. 20-21. Walter S. Dickey, publisher of the *Kansas City Journal-Post* and president of the Association will preside.

Advertising Club of Danbury, Conn., was organized recently with the following officers: President, Harry S. Palmer; vice-president, Joseph S. Landsman; secretary, Harold J. De Puy; treasurer, Leopold Levy; board of directors, E. R. Barnard, Frank W. Hanson, Leonard Brady, Jesse W. Hill, Fred C. Brown, C. J. Fisher, William A. Deakin, R. F. Foster, E. Janeway, R. E. Landers, Miss Katheryn Lane.

Aurora (Ill.) Advertising Club, inactive for several years, has been reorganized with 43 members and the following officers: C. W. Hoefer, *Aurora Beacon-News,* president; W. F. Hitchcock, vice-president; J. M. Strotz, secretary; and C. H. Curtis, treasurer.

First district conference of the **Iowa Press Association** was held at Cherokee, Iowa, last week with publishers and editors from 15 counties attending. Justin Barry, Cherokee, was elected president; W. J. Stearns, Inwood, vice-president, and Otto Bartz, Sheldon, secretary-treasurer.

Advertising Club of Baltimore heard an address by Robert K. Leavitt, secretary-treasurer of the Association of National Advertisers at its regular meeting, Nov. 11. Mr. Leavitt spoke on the preventable wastes in advertising.

ASSOCIATION CHIEFS

BECAUSE he thought the work interesting, C. E. Blewer, circulation manager of the *Binghamton Press,* became a newspaper man 15 years ago. His interest carried him beyond mere routine office work, and into association endeavor. A few weeks ago, he was elected president of the New York State Circulation Managers' Association.

C. E. Blewer

Mr. Blewer started newspaper work in 1910 on the Press, his only newspaper connection. After three years as outside traveling agent, he was promoted to his present position, which he has held since.

"Harmony and co-operation," Mr. Blewer said, "are the two words which mean most, when translated into action in a newspaper circulation department.

"I favor the independent carrier system," he added, "because I believe the psychology of co-operation it produces is conducive of greater effort and better service by each carrier to the subscriber."

Before his election as association president, Mr. Blewer was first vice-president of the New York State Circulation Managers' Association.

ON THE MECHANICAL SIDE

ERNEST ROBBINS, foreman of the stereotyping department, *Salt Lake City Deseret News,* has gone to southern California on a visit.

Charles Thomas has joined the composing force, *Des Moines Register and Tribune-News.*

Furniture Ad Standards Adopted

Advertising standards for the sale furniture were this week adopted by th furniture dealers of Washington, D. C the Better Business Bureau announce The campaign to correct any wrong im pression in the advertising of furniture known as "Name the Woods" progra The program provides for the naming advertising of articles of furniture th actual woods composing the expose surface of the piece of furniture. Wash ington is one of the first cities to ado this program. The Washington Furn ture, Carpet and Upholstery Associatio which has approved these new adverti ing standards, has appointed a committe to co-operate with the Better Busine Bureau.

WHAT'S WHAT IN THE FEATURE FIELD

Rev. S. Parkes Cadman, D.D., Becomes a Syndicate Writer—"Great Love Moments" in Picture, New Ledger Offering—McClure Preparing "The Review of the Year"

REV. S. PARKES CADMAN, D. D., noted Brooklyn clergyman, has decided to enter the syndicate field as a writer for the New York Herald Tribune Syndicate, Harry Staton, syndicate manager, announced this week.

A contract was signed by Dr. Cadman late last week. He will begin writing a daily feature Jan. 1, 1926.

The name of the Cadman feature has not yet been decided. As described by Mr. Staton, it will endeavor to be a sort of "clearing house of human emotions."

"Dr. Cadman will answer five questions each day submitted by newspaper readers," Mr. Staton said. "These questions are not to be religious or controversial, but regarding the readers' own problems, ethics, and human and social conduct."

The clergyman on Sundays occupies the pulpit of the Central Congregational Church, Brooklyn, but is known to a wider audience, because of his addresses over the radio. He is said to have "stepped into the shoes" of Henry Ward Beecher.

Ledger Syndicate, Philadelphia, announces a new illustrated series under the caption "Famous Sweethearts, Love Stories of Life and Fiction," by Blanche Greer.

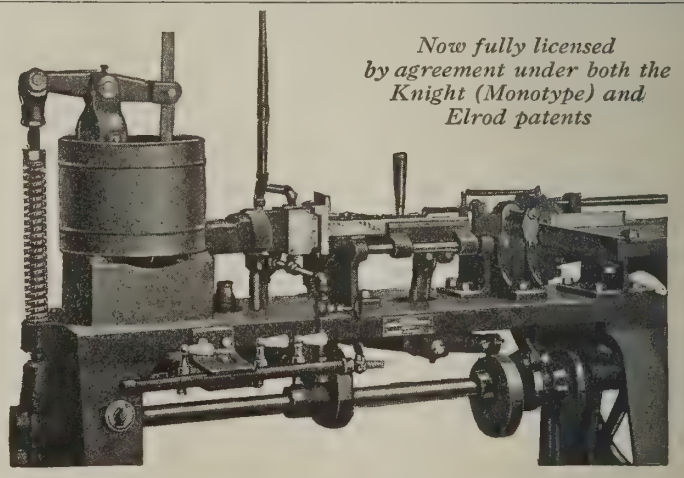
Preparations are now under way for "The Review of the Year," offered annually by the McClure Newspaper Syndicate. The same syndicate announces "Who Began It," a new daily service relating the origin of inventions.

Joseph F. Hanratty has resigned as promotion manager of the Christy Walsh Syndicate, New York, and is now in the promotion department of King Features Syndicate, Inc., New York.

Beatrice Burtan Morgan has gone to Hollywood to complete her newspaper serial "Love Bound," which is being distributed by Johnson Features, Inc., New York.

Christmas stories announced this week by the McClure Newspaper Syndicate include: "Lyn's Way" and "The Great Man," by Fannie Hurst; and "A Christmas Story," by Margaret Sangster.

N. T. N. Robinson has written a series of six daily articles on the inside of the Shipping Board for Current News Features.



"Judge Rummy," a comic strip by T. A. Dorgan, has been revived by King Features Syndicate.

William Allen White, editor and publisher of the *Emporia* (Kan.) *Gazette,* will write a special Christmas editorial for the United Feature Syndicate.

A two column novelty cartoon, the "Name-Me Game" drawn by Darrell McClure is recent addition to the list of the Premier Syndicate, New York.

George Herriman, creator of "Krazy Kat," has returned to New York after a long stay in the West.

Jack Hornday, King Feature Service, is making a swing through the Southwest visiting clients. He recently spent two months in Florida.

Now fully licensed by agreement under both the Knight (Monotype) and Elrod patents

Elrod Slug Caster

for Leads, Slugs and Plain Rules

THIS machine will cast leads, slugs and plain rules of various point sizes, any length desired, at less than the cost of distribution.

It is so simple no expert operator is needed, and so automatic it requires no constant attendant.

Elrod material is solid and it stands up under the most severe press and stereotyping conditions.

"The Proof Of The Pudding Is The Eating"

In October, 1925, The Birmingham News carried the largest volume of paid advertising ever printed in a single month in the paper's history

During October, The News, in addition to carrying the largest volume of paid advertising in the history of Alabama newspapers, broke all records for local advertising, all records for national advertising since 1920, and twice during the month broke the all-time record for total advertising carried in a regular week-day issue. The following figures tell the story, and prove beyond doubt, that The News produces results for its advertisers at minimum cost:

	THE NEWS		AGE-HERALD		POST	
	1925 October Lines	1924 Lines	1925 October Lines	1924 Lines	1925 October Lines	1924 Lines
Local	1,194,102	1,133,132	501,578	541,044	436,590	272,230
Classified	166,152	154,266	136,892	137,032	29,260	21,364
National	288,918	236,936	114,380	122,514	59,640	45,388
Total	1,649,172	1,524,334	752,850	800,590	525,490	338,982
	Gain 124,838		Loss 47,740		Gain 186,508	

Widening the Margin of Advertising Supremacy

The progress of The News has been steady and consistent. For five years, however, October, 1920, stood as its banner month. The figures below serve only to widen the margin of supremacy between The News and its competitors. The Birmingham Post was not established until January, 1921, hence no figures are shown on it.

	THE NEWS		AGE-HERALD	
	1925 October Lines	1920 Lines	1925 October Lines	1920 Lines

THE SOUTH'S GREATEST NEWSPAPER

NATIONAL REPRESENTATIVES

KELLY-SMITH CO. New York — J. C. HARRIS, Jr. Atlanta — KELLY-SMITH CO. Chicago

ADVERTISING AGENCY AFFAIRS

Cole-McDonald-Wood, Inc., Formally Opens Detroit Office—Sulcer Heads A.A.A.A. Western Council—New Manager of McCann's Denver Office

FORMAL opening to the public of Cole-MacDonald-Wood, Inc., Detroit's newest advertising agency, with headquarters in the Metropolitan building, was held Nov. 10.

The company is headed by Col. Walter C. Cole, who for years was secretary of the Detroit Board of Commerce. Col. Cole has also been general manager of two other Detroit national agencies and a direct-by-mail house.

The vice-presidents of the company are Edmund D. Wood, and Arch H. MacDonald.

Mr. Wood for several years was connected as sales and advertising executive with several large automobile manufacturers. He was, for four years, metropolitan distributor of motor cars.

Mr. MacDonald is a Detroiter and has been connected with the *Detroit News*, the United States Rubber Company and Devoe & Raynolds, paint manufacturers in New York.

Associated with these three will be Russell E. Brown, formerly office manager and assistant treasurer of McManus Inc., and Power, Alexander & Jenkins; H. M. Hastings, space buyer, formerly with C. C. Winningham, Hudson Motors and Power, Alexander & Jenkins; A. F. McCrea, account executive, formerly with Campbell-Ewald, Brotherton Company and Velie Motors Corporation; Paul H. Bruske, copy chief, formerly with Studebaker, Maxwell and Power, Alexander & Jenkins. W. C. Dudgeon, creative department, formerly with Campbell-Ewald, Gardner Advertising Agency, St. Louis, and Power, Alexander & Jenkins.

Henry D. Sulcer, president of Vanderhoof & Co., Chicago advertising agency, was elected chairman of the western council of the American Association of Advertising Agencies at a recent Chicago meeting. Mr. Sulcer was for many years western advertising manager of the *Chicago Tribune*.

James A. Henderson has been appointed manager of the Denver office of the H. K. McCann Company. For the past three years he has been with McCann's San Francisco office.

C. I. Heikes is now with the Betram May Advertising Agency, Philadelphia. At one time he was associated with the Frank Presbrey Company.

The De Forrest Porter Advertising Service, Inc., Buffalo, announces the appointment of Willard A. Pleuthner as account executive.

Col. Walter C. Cole, president of Cole-MacDonald-Wood, Inc., Detroit advertising agency announced this week that his agency had established a radio broadcasting advertising department. Harold M. Hastings, space buyer, has been named manager.

Col. Cole was a delegate this week to the Fourth National Radio Conference in Washington. He said the concensus of opinion at the conference was that advertising has a place in radio programs after a concern has built a solid background of good-will by using newspapers and magazine space to such an extent that the mention of their name over the radio will recall the product. He is emphatic in the belief, however, that no one should be allowed to broadcast pure advertising.

Frank E. White, formerly dramatic editor of the *Denver Post* and more recently advertising manager for a Denver amusement park, has been made vice president of the Conner Advertising Agency, Denver. White was engaged in advertising in New York City for five years before coming to Denver.

Phil Jarnagin, formerly of the *Storm Lake* (Ia.) *Pilot Tribune*, has joined the staff of Fairall & Co., Des Moines advertising agency, as copy writer.

E. D. Ring, formerly with Marquis Regan, Inc., sales counsellors of New York, has bought an interest in the St. Paul Advertising Company, of which he is now vice-president.

Willard A. Pleunther has been appointed account executive of the DeForest Porter Advertising agency at Buffalo.

Alan Lehmann has joined the staff of Barton, Durstine & Osborne at their Buffalo office.

WHEELER LEAVES LIBERTY

Editor of Chicago Tribune's Magazine Announces Resignation

John N. Wheeler, editor of *Liberty Magazine* since it was launched by the *Chicago Tribune* in 1924, announced his resignation this week.

No successor has yet been appointed, it was stated at Liberty's New York office. Harvey Deuell, managing editor, is acting as editor.

Mr. Wheeler during his editorship of Liberty continued as president of the Bell Syndicate, New York.

Ferguson to Canandaigua

J. W. Ferguson, at one time general manager of EDITOR & PUBLISHER and for years with the old *New York Herald* has joined the *Canandaigua* (N. Y) *Messenger* as associate manager.

WITH THE GENERAL ADVERTISERS

Electrical Society Booming Christmas Newspaper Advertising Calumet Discusses Ad Program With Jobbers—The Story of "Simon the Pieman"

THE Society for Electrical Development, Inc., 522 Fifth avenue, New York, this week announced plans for organizing the electrical industry for special advertising efforts during the Christmas season.

The plan is divided in two parts:

First:—Promotion of the idea that electrical products make excellent Christmas gifts. Dealers are being urged to purchase newspaper space to tell this story. Members of the society are being furnished with advertising mats to be placed in paid space in local newspapers.

Second:—Promotion of the Community electrical Christmas tree idea.

The society is sending out several thousand copies of a full page advertisement for insertion in newspapers. The proofs carry a caption to the effect that the advertisement may be signed and paid for by a local electrical league or electrical concern.

Consider the story of "Simon the Pieman."

Simon Hubig opened his first baking plant in Fort Worth, Tex., eight years ago. He began and maintained a policy of continuous newspaper advertising.

The quality of pies he produced and the consistent policy of newspaper advertising had made possible a program of expansion, which today is being chronicled as among the big business successes of the country.

During the eight years, Simon Hubig Company Pie Bakeries have been opened in Dallas, San Antonio, Houston, New Orleans, Birmingham, Atlanta, Memphis, Cincinnati, and Louisville. These plants will produce 25,000,000 pies this year.

One feature of the Simon Hubig Company advertising program is the way the opening of a new plants is announced. The complete opening campaign is prepared in advance and opening announcements appear daily for six or seven days before the plant actually begins operation.

Mr. Hubig expects to carry on his policy of persistent newspaper advertising in 108 cities in which he plans eventually to install his bakeries.

To use of advertising "not as a temporary sales stimulant, when business is poor or when there is an overproduction of pies, but as a method of building up a permanent business," Mr. Hubig attributes much of his success.

Copy is being placed by the Wimberly Advertising Agency, Fort Worth.

The Calumet Baking Powder Co. pany discussed the power of newspa advertising in a recent letter mailed jobbers of the United States. The let emphasized the potency of newspa advertising as compared with magaz space.

"Compare the Calumet advertis found in your newspaper with the 'off' mediums advertising other brands baking powder. Calumet invites customer to buy at your custome store," it read.

Calumet is one of the largest us of newspaper advertising in the count

"LIFE," Oct. 24, 1925

Now is the time to start Held's great newspaper feature OH! MARGY! and tune in with the new generation. Pungent humor, unexcelled art, a famous name, and the keenest understanding of what *young* people, whether they're fifteen or fifty, will appreciate and look for: these become a part of your paper when you print OH! MARGY! regularly.

Margy is a regular feature in such papers as the Washington Post, San Francisco Chronicle, Birmingham Age-Herald, Pittsburgh Post, Buffalo Express, Omaha News, Columbus Journal, Philadelphia Inquirer, Louisville Times, Minneapolis Tribune, Portland Journal, and others.

OH! MARGY! service consists of a daily single column piece as shown above, and a big Held drawing, which we make either half-page size or five columns wide, for Saturday or Sunday. Also, some excellent promotion pieces, drawn by Held himself.

RED HEADED GIRL AND TRAFFIC COP KEEP BALTIMOREANS LAUGHING

Clark S. Hobbs Character Creations in "Good Evening Column" a Permanent Fixture of Baltimore Sun—"Sometimes a Frankenstein," He Says

FOR four years Clark Simpson Hobbs has written "The Diary of the Traffic Cop" as a part of the "Good Evening Column" of the *Baltimore Evening Sun.*

And in that time the cop, his boarding house lady, the red-headed girl and the adventures in which each of the three react on the other have become as much a part of the daily lives of thousands of Baltimoreans as are their meals. Mr. Hobbs writes the whole of the "Good Evening" column which includes short poems and humorous flings at fads of the moment. But the characters in the diary have, through familiarity, become actual persons always good for a laugh for those who follow them.

The cop is of course a bachelor. He lives in a boarding house kept by a widow. And, in the main, he travels from his semaphore downtown to his boarding house. He takes the widow or the red-headed girl to circus or church supper or dance or theater. Or he discusses with them the burning issues of the day. Since both the red-headed girl and the boarding house lady have their minds on marriage and the pay envelope of the cop and since the cop is wary, the situation is full of complexities. The question of how it will be decided in the end, the question of who will finally land him, is one of the most interesting problems offered to the newspaper readers of Baltimore. And the antipathy of the cop to flivvers and flivverites and the adventures he has with them at his post entertain those who drive flivvers, those who drive more costly cars and those who drive none at all.

The "Diary" occupies one third of a column. The "Good Evening Column" is a full column first page feature except in the final sporting edition. In each third of a column there are at least three incidents. That means that in the more than four years Hobbs has been writing, he has invented about 4,000 incidents.

It began when J. Edwin Murphy, managing editor of the Evening Sun, assigned Hobbs to write a diary of the traffic cops' troubles at a time when Charles street, which runs past the buildings of the Sun and the Evening Sun was being torn up for repaving. Hobbs was then a reporter. He had been in the business for several years and, in the line of his daily work, had proved his gifts as a humorist.

One day after the Soviets took charge of Russia and adopted the red flag as their emblem a tip to the effect that the red flag which had formerly been used by contractors as a sign of danger had been replaced by a yellow flag because some business people objected to the use of the symbol of radical Russia. The Evening Sun, in line with its policy of laughing such things to death, sent Hobbs out to find a yellow flag in use.

It happened that the city was at the moment in the grip of a two-day sleet storm with temperatures well below zero. The streets were covered with ice and as slippery as glass. Hobbs didn't find the yellow flag, but his story of his slipping adventures as he tried to find it landed him in the "Good Evening" editor's chair. The chair was brand-new. It was created for him.

Many comic incidents have grown out of the column. The traffic cop who was on duty at The Sun corner when the column began is said to have been actually worried about how the thing would be taken at home. He was a big, good-natured Irishman, but he didn't know about this red-headed girl stuff. He didn't know how the Missus was going to take it. Finally he quit traffic and went back to his post. No; it wasn't the column. He didn't like standing so much.

"There is one element about this occupation of being a humorist to which I have never grown accustomed," says Hobbs. "I meet people who have read my column and have found it funny. They look at me and I heard them whisper 'Is *that* the fellow who writes the traffic cop?' Then they take a long breath. Then they say 'I can't believe it. The traffic cop's funny'. You see Nature has constructed my physiognomy along solemn lines. When I feel funniest I look most serious. And I have been told that much of the time I look like an undertaker.

"Wherever I go in Baltimore I am asked how the red-headed girl or the boarding house lady or the traffic cop is until sometimes I feel myself almost as if they were members of my family. It is so natural to thank a friend for inquiring after their health.

"Real enough they are sometimes. They are Frankensteins. You remember Shelley's story of the scientist who built a man synthetically out of chemical materials and who was driven almost into insanity by his own creation? They don't drive me crazy. But imagine getting up in the morning with the certain knowledge that you've got to invent three incidents that day involving three certain characters, that there is no sleep for you that night until you have done that! Imagine keeping it up year after year!

"I get down to the office around 9 a. m. I leave it at about 11 with the column for that day written. That's the easiest part of that day's work. I go home and then the hard part begins. I must think up incidents for the next day. Sometimes I sit on my porch alone for hours and just stare ahead of me. I find that my mind is wandering off. I bring it back to my Frankensteins and it wanders again. It gets off again and I haul it back. Finally I land the incidents. Now and then I finish at 2 o'clock in the afternoon. At other times I lie in bed at night and think about it.

"When I meet my readers I ask them if it isn't quite natural that I should look solemn—since I have to carry these three characters around with m wherever I go."

San Antonio to Use Newspapers

Advertising San Antonio as "Th Winter Playground of America," th San Antonio Chamber of Commerce wi place advertisements in 17 newspaper and eight magazines with national circu lation, as the result of a recent campaig which provided $51,000 to be spent o publicity during the year.

Westchester Group Plans Meeting

Means of obtaining more national ad vertising will be discussed by members o the Westchester County (N. Y.) News paper Publishers Association at a meetin to be held in White Plains, N. Y., Nov 16. Thomas Kennett, of the *Pelham Sun* is association president.

"Recent Developments in the Standardization of Process Colors," G. A. Heintzemann, advertising manager, Dexter Folder Company.

"The Postal Outlook," R. N. Fellows, advertising sales manager, Addressograph Company.

Report of Resolution Committee.

Advisers' Service in Session—Committee under Chairmanship of W. K. Burlen, advertising manager, New England Confectionery Company.

Tuesday Evening 7:00 P. M.

Annual Dinner.—Speakers: Strickland W. Gillilan, of Baltimore; Merle Thorpe, editor, *The Nation's Business,* Washington, D. C.

Wednesday Morning

"Advertising and Distribution," Alvin E. Dodd, manager, Domestic Distribution Department, United States Chamber of Commerce.

"What We Think of Inquiry Advertising and Why We Use It," Lee H. Bristol, advertising manager, Bristol-Myers Company.

"What We Think of Institutional Advertising and Why We Use It," Martin P. Rice, manager, publicity department, General Electric Company.

"Installment Sales—Their Place in Distribution," William H. Grimes, president, Commercial Credit Company, Baltimore, Md.

BAN SPORT PROPAGANDA

Canadian Dailies Favoring Amateur Contests Over Professional

Professional sport promotors in Canada, who up until recently have had things all their own way as far as getting free sporting-page space is concerned, are beginning to get alarmed. Under the leadership of a number of journals including the *Vancouver Province, Ottawa Citizen, Halifax Chronicle, Toronto Globe, Toronto Star* and others, the press of the dominion is rapidly awakening to the necessity of differentiating between real sporting news and the propaganda material with which the newspapers have been flooded ever since the development of professional sport.

Several of these journals have recently made definite announcements that their policy from now on will be to restrict their columns entirely to authentic reports and comment, and to feature amateur rather than professional sporting activities.

POSTAL COMMITTEE MEETS

New Predicts Higher Rates Will Only Half Cover Wage Rise

At the resumption of the hearings before the Joint Subcommittee on Postal Rates of the Congress in Washington, on Nov. 9, the only witnesses heard were representatives of the Post Office Department.

The Postmaster General, Harry S. New, made a preliminary statement estimating the probable effect on this fiscal year's revenues of the increases in rate which became effective April 15, 1925. He explained that this was an estimate based entirely on revenues from the 50 largest post offices, covering the first four months of this fiscal year, and that it did not necessarily forecast the actual result under a full year's operation. He predicted that the increase in revenues from these rates would be $32,000,000, which is less than one-half of the wage increases granted by the last Congress.

Postmaster General New was followed by his executive assistant, Joseph Stewart, who referred to the various suggestions made by different interests at the hearings during the summer, and talked particularly upon the suggestions made then in connection with second class rates.

The only rate recommendation made by the Department was a reduction in the second-class transient rate which applies on newspapers and periodicals remailed by others than the publishers. This rate was increased on April 15, from one cent for each four ounces, to two cents for each two ounces, and the Department now recommends a rate of one cent for each two ounces, which is a reversal of the recommendation made by it in December, 1924.

The hearings adjourned until Tuesday, Dec. 8, at which time it is expected the Department will have additional figures, and other interests may be given an opportunity to present additional testimony. No final action is anticipated by the subcommittee until after the Christmas holidays.

NEW YORK DAILIES GAIN 2,000,000 IN OCTOBER OVER 1924

NEWSPAPER linage in New York showed a gain of 2,072,282 lines during October as compared with October, 1924, according to figures compiled by the statistical department of the *New York Evening Post.*

The 1925 linage totalled 17,387,908 agate lines as compared with 15,315,626 lines carried in October, 1924.

The Evening Post compilation follows:

WASHINGTON FAVOR TOKYO ARMS MEET

Proposal of Scripps-Howard Newspapers to Hold Next Conferenc in Orient Welcomed at Capital

By Bart Campbell

Washington, Nov. 11.—Interest in o ficial and diplomatic circles here in t proposal made by the Scripps-Howa newspapers that the next world ar limitation conference be held at Tok has increased rapidly since Roy A. Ho ard broached the subject first in a rec cable dispatch from the Japanese capit

Advices reaching Washington ha shown that the Japanese press seized up Mr. Howard's idea as one that wou promote a better world understanding.

The *Japan Times,* an influential week publication, stated recently:

"Far Eastern problems too long ha been discussed at long range. Ev though the conference should not discu Pacific problems exclusively, or even pr marily, it should nevertheless meet whe the delegates may gain fresh knowledg and with greater profit than were th to gather in Washington, or in a Eur pean capital which offers nothing new

There are unofficial indications Washington that this is becoming the a cepted viewpoint in some sections official and diplomatic circles. The *Japa Advertiser,* foremost newspaper in Japa printed in English, gave Mr. Howard suggestion unqualified approval.

Mr. Howard is due to arrive at Sa Francisco from the Far East aboard th "President Wilson" Nov. 18. He spe much time in Japan, where he interviewe leading statesmen, business men and news paper men of that country and in Chir where he obtained two exclusive inte views of international scope. One inte view was with Marshal Chang Tso-lin once a bandit, now ruler of Manchuri The other was with Feng Yu-hsiang, th "Christian General" in command of th Peking forces.

NEW ENGLAND GROUP ELECTS

C. H. Hastings, Lynn (Mass.) Iter Publisher, Heads Newspaper Alliance

Charles H. Hastings, publisher of th *Lynn* (Mass.) *Item* was elected presi dent of the New England Newspape Alliance at its annual meeting held i Boston, Nov. 10.

Charles L. Fuller, business manage *Brocton,* (Mass.) *Enterprise,* was re elected secretary. Frank Almy, pub lisher of the *Fall River* (Mass.) *News* was re-elected treasurer.

The following advisory board wa named:—William H. Reed, genera manager, *Taunton* (Mass.) *Gazette* Robert L. Wright, general manager *Haverhill* (Mass.) *Gazette;* Timothy F Dwyer, advertising manager, *Providenc* (R. I.) *Tribune.*

Round table discussions of newspape problems proceded election of officers.

The next meeting of the Alliance wil be held the second Tuesday in December

NEW MEMBERS ELECTED

Ohio Circulator's Group Growing—Moorehead Chosen President

Four new members were added to the Ohio Circulation Managers' Association at the 18th semi-annual convention held at Columbus, O., Oct. 28.

They are J. A. Abey, *Lima Star;* P. W. Stiles, *Piqua Call;* C. V. Barr, *Cambridge Jeffersonian;* R. M. Caldwell, *Marietta Register.*

The convention elected T. S. Moorehead of the *Cambridge Jeffersonian* president of the group, with Thomas J. Dowling of the *Cleveland Press,* vice-president; and C. L. Sink, of the *Zanesville Morning Times Recorder and Evening Signal,* secretary and treasurer.

Mr. Moorehead served last year as secretary-treasurer. He succeeds Charles S. Wilson of the *Columbus Dispatch.*

Ever since the start of newspaper advertising—the inevitable question—

Where Do the Checking Copies Go?

If the Checking Proof Problem is ever to be solved it will be by co-operation between Publishers and Agencies thru a standardized medium that will give thought and attention to every detail in the interests of all concerned.

The individual Publisher may have a practical and efficient method for distributing his checking proofs—but to what avail, if it is out of harmony with the problem that confronts the agency?

No individual Publisher or Agency can find the practical and satisfactory solution to his "checking proof problem" unless he takes into account every existing condition that effects the entire situation.

When a publisher sends out a checking proof, does that end his problem or does it just begin? What control has he over the many other factors which go into the making of this problem? Newspaper and Agency service alike is no more efficient than the quality of its help, and human errors are inevitable.

We have solved this problem for over two hundred newspaper publishers, and we welcome the opportunity to prove our ability to solve the problem of every other newspaper publisher in the United States and Canada.—The Advertising Checking Bureau, Inc.

The Sioux City Journal
Sioux City, Iowa.

"We want to write you about how satisfactory your checking service is to the Journal. We have been receiving this service now for about a year. The complaints we receive from agencies and advertisers for missing copies has been practically done away with. We feel obligated to you for the opportunity to use a service that eliminates much detail and grief in our advertising department, and your promptness in delivering tear pages to advertisers should be greatly appreciated."

Yours very truly,
THE SIOUX CITY JOURNAL
John B. Perkins.

The Charlotte Observer
Charlotte, N. C.

"Your service in my opinion is a most valuable one to all Newspapers, and relieves them of one of the worst troubles that could come to them; that of looking up and bothering with checking copies.
Very few requests come to us now for checking copies, and formerly they were a torment; first because they took up unnecessary time, and secondly, because they told us our Agencies were not getting the attention they deserved and should have.
I think you win in your line, and hope you continue."

Yours very truly,
THE OBSERVER CO. C. J. Cook.

Press-Telegram
Sheboygan, Wis.

"After having used your service for the past year and one-half, we find that it efficiently and promptly takes care of all checking copy needs.
It would seem next to impossible to go back to former methods of supplying checking copies."

Very truly yours,
THE SHEBOYGAN PRESS
E. S. Gerlat,
National Advertising.

The Pawtucket Times
Pawtucket, R. I.

"We have now used your service for one year and desire to compliment you on the efficiency you have achieved in this very difficult work. Frankly, the writer did not believe when we took your proposition on trial, that your service would even approximate such a high degree of efficiency.

Previous to taking on your service, when handling the matter through this office we were sending out a large number of tear sheets by first class mail and also complete papers. We believe that our service was as efficient as the average, but the number of continual complaints regarding the non-receipt of proofs of insertion was as irritating to us as they must have been to the agency. At present we receive only a half-dozen or so requests for proofs of publication each month, with the result that many invoices which were formerly held up due to lack of proof, are now paid promptly and continual letter writing is avoided.

Wishing you further success and trusting that your service will be even more widely used during the coming year than it has in the past, we are,"

Very truly yours,
THE PAWTUCKET TIMES
Harry B. Adsit,
Advertising Manager.

The Boston Herald-Traveler
Boston, Mass.

"Since taking on your checking service, over two years ago, the results we have obtained from this have been more than satisfactory. We receive very few requests for checking copies now.
We would be willing to recommend this service to any newspaper, as it is the most efficient way of handling checking service and most satisfactory from an agency point of view, as well as ours."

Very truly yours,
E. W. Preston,
General Manager.

New Haven Journal-Courier
New Haven, Conn.

"Allow us to express our appreciation of the service of the Advertising Checking Bureau. As one of the first newspapers to send out tear sheets in proof of insertion and as one of the subscribers to your service at the time of its foundation, we are in a position to realize its value.
It not only eliminates the work of sending out tear sheets on each and every advertisement but also does away with the numerous calls for lost checking copies with which papers not affiliated are constantly pestered.
It also means that the agencies get their checkings on time so that there is no hold up of payments on that score. We would not be without it and cannot recommend it too highly." Yours very truly,
NEW HAVEN JOURNAL COURIER
Herbert Peterson,
Publisher.

The Duluth Herald
Duluth, Minn.

"We have given your service a thorough test during the past few months and unhesitatingly recommend it as the final solution of one of the most annoying problems in newspaper work, that of supplying advertisers with checking copies. The expense of your service is very little more than what it used to cost us for envelopes and postage and it relieves our office of an immense amount of detail work. There is now no excuse for delay in payments on the part of advertisers awaiting checking copies which they used to claim were not received.
Keep up the good work."

Sincerely yours,
THE DULUTH HERALD
J. L. Dorsey, Auditor.

Jacksonville Journal
Jacksonville, Fla.

"We are receiving wonderful service from your company on checking copies. We are having practically no complaints from foreign advertisers.
Hope that this service will continue and we will gladly recommend you to any newspaper needing a good checking bureau service."

Very truly yours,
JACKSONVILLE JOURNAL
Frank P. Beddow,
Business Manager.

OUR SERVICE IS OFFERED ON A TWO MONTHS' TRIAL TEST BASIS—WILL YOU ACCEPT IT?

SILVERWARE AND THANKSGIVING MEATS PRIZES FOR A.N.P.A. GOLFERS

Hawley Quier and J. P. Fishburn, Princeton Classmates, Low Gross Winners—Trainor Takes Low Net—Thomason's Raid on Stockyards

WHITE SULPHUR SPRINGS, W. Va., Nov. 12.—P. T. Barnum might have staged the A. N. P. A. Golf Tournament, but the honor goes to Maj. Allen Potts, *Richmond News-Leader.* It was one of those lotteries in which everybody wins. There was a prize for one of every pair with nerve enough to enter their names, and the whole crew won by blisters and sore muscles.

Twenty-six prizes were awarded last night, with Maj. Potts behind the table, which looked like a Jewelry shop-Delicatessen combination counter.

Lined up for inspection were silver loving cups, pitchers, and vases together with roast Virginia hams, roast turkey, and sides of beef. The edibles were of papier-maché, but inspection of the stuffing disclosed certificates entitling winners to real meat upon application to S. E. Thomason, *Chicago Tribune.* Mr. Thomason had raided the stock yards before coming to the Springs.

First prize winner called by Maj. Potts was Hawley Quier, *Reading* (Pa.) *Eagle,* who turned in a low gross of 79 for the eighteen holes. Junius Parker Fishburn, *Roanoke* (Va.) *World-News* was second gross winner, with his card showing 93 strokes. Fishburn and Quier were class mates together at Prineton. To Quier went a silver cup.

A. R. Trainor, *Saginaw* (Mich.) *News-Courier,* will carry back a handsome silver vase for winning the low net score of 74. Second to him was C. A. Webb, *Asheville* (N. C.) *Citizen,* also with a 74, but with a handicap of 20 strokes compared to Trainor's fourteen.

Other prize winners in order were Frank E. Gannett, Gannett newspapers; Guy Davis, Bureau of Advertising; Walter Dear, *Jersey City Jersey Journal;* Joseph A. Blondell, *Baltimore Sun;* J. A. Muehling, *Manchester Union-Leader;* President Thomason; Charles Osborne, *Auburn Citizen;* J. S. Douglas, *Toronto Mail & Empire;* F. I. Ker, *Hamilton* (Ont.) *Spectator;* D. P. Olmstead, *Perth Amboy Evening News;* L. B. Palmer, manager; Lafayette Young, *Des Moines* (Ia.) *Capital;* Elisha Hanson, A. N. P. A.; Victor Ridder, *New Yorker Staats-Zeitung;* Fleming Newbold, *Washington Star;* Rowe Stewart, *Philadelphia Record;* S. L. Slover, *Richmond Times-Dispatch;* Major J. O. Adler, *New York Times;* E. J. Stackpole, *Harrisburg Telegraph;* and A. C. Deuel, *Niagara Falls* (N. Y.) *Gazette.*

There was a rush to the golf course Tuesday immediately after lunch. Bright jerseys, checkered knickerbockers, and brighter stockings made a rainbow of Casino Walk between the hotel and the club house at the links. Hardened fans were first to arrive.

To Lafayette Young went the honor of the first drive. Despite the fact a camera was focused to catch his form, his drive made a good distance towards the green. With Young's foresome were President Thomason, E. H. Butler, *Buffalo News,* and Fleming Newbold, *Washington Star.*

Louis Wiley, New York Times, Edwin S. Friendly, *New York Sun,* and Charles F. Hart, Times, were a trio about last to get away.

And waving them in and waving them out was the major from Richmond.

The women on another course held their own tournament, from which Mrs. Charles Osborne, Auburn Citizen, emerged the victor with the best low net score and a silver vase to boot. Mrs. R. E. Lent, wife of the publisher of the *Passaic News,* took second low net and was presented a cook-book.

Mrs. William A. Thomson, wife of the director of the Bureau of Advertising, also took home a vase for the first low gross, with Mrs. D. Lamade, *Williamsport Grit,* her runner-up.

The booby prize, a roast ham, went to Mrs. E. K. Gaylord, *Oklahoma City Oklahoman.*

But the prize which caused perhaps the greatest sensation was won by Hilton U. Brown, *Indianapolis News.* So important was this award, that Mr. Potts called on Mr. Palmer to make the presentation speech.

On the prize loving cup was engraved: "To the worst player at the A. N. P. A. convention, from Charles H. Taylor of the *Boston Globe.*"

Mr. Taylor kept safely distant. He is in Europe.

SCHMID SPEAKS ON CIRCULATION WASTE

(*Continued from page 9*)

It has been the salvation of many. Meet your competitor face to face. Forget petty grievances.

To illustrate the point about the reckless spending of money, I desire to draw attention to publishers in one of our large cities, who offer prizes to carriers who increase their routes, costing the publisher $12 for five six months subscribers, net ting him at the wholesale rate, only slightly more than the cost of the prize. Not to be outdone, one competitor offered a prize costing $16.50, for five new six-months subscribers. Another paper charging $7.80 a year to city subscribers offered his paper six days a week to rural subscribers for about $3.00 and gave as many as five magazines in addition. There is no sense in doing business that way, and publishers must sooner or later realize it.

The amount of white waste varies greatly. Much depends on the care in handling it at the mill, enroute, or while in storage. Whatever the white waste may amount to, it may usually be put to good use. It may be cut up for proof or copy paper or used in the job room.

The running of special trains, cars or trucks in order to beat a competitor into a certain locality, is often a waste of money. So-called exclusive service of this kind is usually of short duration, as the competing publishers either meet the situation by similar service, or by going the other fellow "one better," all, however, at a tremendous cost.

Would it not be better to join together, and give the service at half the cost, by a division of expense? It certainly would help to reduce waste of money.

The same thing applies to other practices, where one publisher tries to out-do the other, and is perhaps sorry afterwards for having started something he couldn't stop.

Any great loss in circulation collections, is waste. City carriers and newsboys should pay cash upon deliverv, for their supply.

Newsdealers and large country agents should be made to pay weekly, while the small agent may be allowed to pay monthly.

By keeping in close touch with out of town dealers through traveling representatives, and by correspondence, losses may be cut to a minimum.

The practice of daily payment by city carriers, brings about more regular collections from subscribers, and a minimum of disputes and loss of regular readers.

An outstanding asset to any circulation department is the permanency of its organization. Labor turn-over in the department is expensive. A man, who has been trained in the territory knows the country, the routings, means of transportation, is acquainted with all of his agents, knows the people in the district, and in a general way, has a knowledge of their wants, is valuable.

It has been our experience, that no man with a complete knowledge of these things can be replaced by another without the necessary training, for less than four or five hundred dollars. This figure is not a mere guess.

The turn-over cost in the city is considerably less, as supervision over a new man's work is more readily obtained.

You might ask, "Why is a circulation man thoroughly trained in a particular field harder to replace, than a man in enther the editorial or advertising departments?"

A good reporter, or a good advertising solicitor can be transferred from place to place, and can make good more readily than a circulation man. I don't, of course, refer to the canvasser, who knocks on doors and rings bells day after day, but a man who appoints agents, collects, routes, opens new avenues of circulation, and who does the bigger things in circulation work. Hold your trained circulation men, save turn-over costs.

Turn-over can be avoided to a gr extent by inaugurating bonus and pens systems, group insurance, sick and accic benefits, establishing loan department, perhaps limited profit-sharing. Our pa has established some of these features, our turn-over is extremely light.

Newspapers with large mail subsc tion lists in near-by localities, can s much mail room expense, labor and t by appointing agents or dealers in to where delivery could be made to s scribers, or where the paper would called for, instead of sending individ copies through the mail at great exper

The number of packages would greatly reduced, and in most cases, circulation could be taken out of the ma and sent by baggage, bus, or by truck

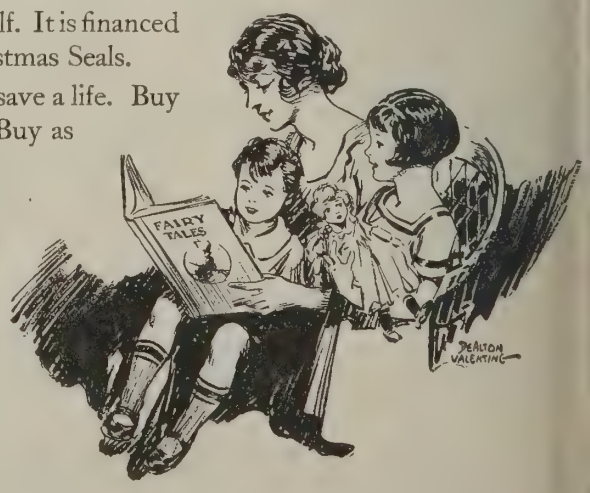
Would you save a life if you could?



WOULD you reach out and snatch a child from under the rushing wheels of a motor car? Of course you would—and you can help save a life in a simpler, easier way than that.

Tuberculosis is a constant threat to you and your children. It takes an annual toll of thousands of lives. Yet other thousands of lives are saved every year by the organized warfare against tuberculosis carried on by the tuberculosis crusade. That organized fight against the dread disease has cut the tuberculosis death rate in half. It is financed by the sale of Christmas Seals.

Stamp Out Tuberculosis with this Christmas Seal

You *can* help to save a life. Buy Christmas Seals. Buy as many as you can. Christmas Seals save thousands of lives every year. Your help is needed. Buy Christmas Seals.

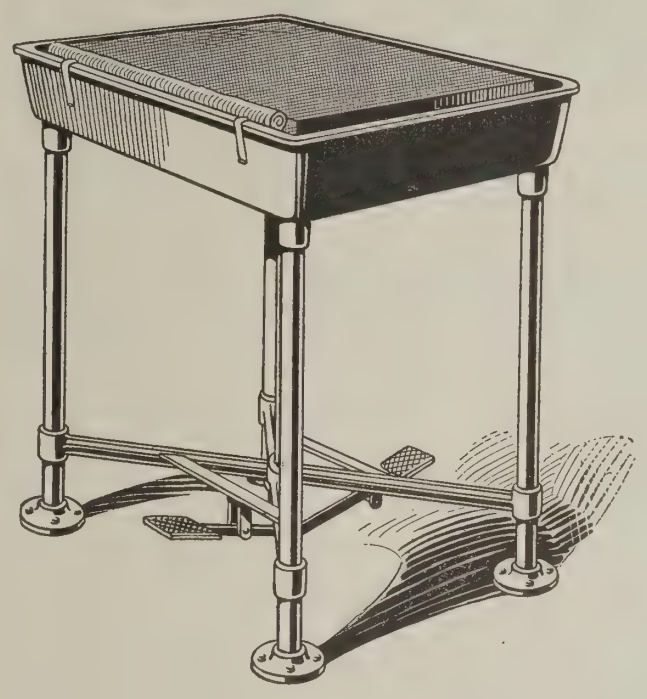
POWERS PERFECTION COOLER

Every Newspaper Photo Engraving Plant should have at least one

The Powers Perfection Cooler requires no water connection of any kind.



It can be moved at will by simply picking it up and placing it where it is wanted.

It has no mechanical parts to get out of order.

It applies cold water evenly and simultaneously to all parts of the plate—ON THE BACK OF THE PLATE only.

It cools the plate instantaneously to the exact temperature required and saves wiping, mopping and reheating.

The price of the Powers Perfection Cooler is $350

The *Powers Perfection Cooler* met with the instantaneous approval of both the workers and the owners wherever it was installed and tried. The men in the shops like it because it helps them in their work. They save time and effort, turn out more work and better work, and do it with very little physical labor. It is a clean, workmanlike way of doing what is otherwise a messy, sloppy task.

Proprietors like it because it saves gas, water, time and makeovers. These savings mean money and profits and that is what we all want. To satisfy yourself, go into your etching rooms and see what happens when the etcher tries to cool a large plate by dragging it over a roller wrapped in old towels and rags or a piece of burlap. Watch the plate buckle and then see him try to straighten it out. You know what that means in color work.

The use of the Powers Perfection Cooler does away with buckled and twisted plates, the splashing of water on the face of the plate and the constant work and worry connected with etching. A zinc etching is heated from 13 to 16 times by the etcher. That tells the story.

COOK TELLS EYE-WITNESS STORY OF "FALSE ARMISTICE" DISPATCH

Washington Star Writer, An Officer at Brest in 1918, Heard Admiral Wilson Tell Roy Howard the War Had Ended, According to Paris Embassy

(*By Telegraph to* Editor & Publisher)

WASHINGTON, D. C., Nov. 12.—Justification for the news dispatch from Brest which was responsible for the "False Armistice Day" excitement on Nov. 7, 1918, may be read in a two column article in the *Washington Star,* describing in detail the dramatic circumstances under which the dispatch was cabled.

The article, written by C. Fred Cook of the Star's editorial staff, relates how he personally observed Admiral Henry B. Wilson, U. S. N., furnish Roy Howard, of the Scripps-Howard newspapers, who sent the dispatch, with official information that the world war was ended.

Cook was Base Adjutant of Base Section No. 5, A. E. F., with headquarters at Brest. He states in part:

"During the early afternoon of Thursday, Nov. 7, an orderly announced that Gen. Harris desired to see me. I stepped to his office, to be introduced to Mr. Roy W. Howard, president of one of the press associations in the States,' as a newspaper man I had heard of Mr. Howard, of course, but had never met him.

The General continued:

" 'Mr. Howard is sailing for home. He is anxious to meet Admiral Wilson before he leaves. Please arrange to present him to the Admiral.'

"We started at once for the navy 'flag office,' about five city blocks distant from Army Base headquarters. The Navy occupied a tall building facing the Place President Wilson, a public square which had been renamed in honor of the president of the United States.

"There being no elevator, Mr. Howard and myself climbed the stairway to the fifth 'deck' of the flag 'ship,' and entered the office of Ensign Sellards, Admiral Wilson's personal aide, confidential secretary and interpreter. I introduced the visitor and explained our mission. Ensign Selards departed, returning a moment later with the statement that the Admiral would see us 'in just a little while.'

"Suddenly the door between Ensign Sellard's room and Admiral Wilson's office was opened. We turned from the window as the Admiral stepped toward us, a paper in his hand. Before I could utter a word, he said:

" 'Hello, Cook; how do, Mr. Howard. Here's a telegram from Jackson, in Paris, saying the armistice was signed at 11 o'clock this morning, effective at 2 o'clock this afternoon.'

"We all were aware that Jackson was Commander Jackson, the naval attache at the United States Embassy in Paris. There was absolute silence for a second or two. The announcement seemed to have paralyzed the vocal chords. Finally, Howard managed to blurt:

" 'Admiral, may I use that?'

"Admiral Wilson hesitated, as though in doubt how to reply. At length, he said, slowly and hesitatingly:

" 'Why, I suppose so.'

"With a hasty 'I'll see you later,' to me Howard fairly jumped down that stairway. He must have touched only about every tenth step. From the window I watched him as he ran across the Place President Wilson to the French Post Office, which was also the telegraph and cable office, located on a corner diagonally opposite the Navy flag office.

"In my judgment, the most remarkable incident of 'the false armistice' was the fact that the message filed by Mr. Howard was dispatched immediately, and without question. There was no demand, so far as I am aware, that it be censored and approved. No other message, personal or official, ever was sent from the office unless it bore the censor's stamp of approval. I happen to know for the reason that I was the custodian of that all important stamp—for the army. I stood at my point of vantage, the open window, gazing down while a warrant or petty officer was summoned and directed to 'break out the big flag' which when 'broken out,' stretched from the admiral's 'deck' almost to the sidewalk; I stood there, and looked and listened, while an announcement was written and sent to the bandstand and read to the populace. I saw from my post a bulletin as it was placed on the display in front of the office of *La Dépèche,* a french afternoon newspaper; I followed the french people with my eyes as they gathered in front of that bulletin to read the 'news' that the war was over. I heard the first shouts of joy and exultation, and then I observed —pandemonium.

"Other writers have touched on the probability of German propaganda having been at the bottom of the false armistice. Some one telephoned the United States Embassy in Paris that morning. He claimed to be speaking officially for the french ministry of war. As a result the telegram was ultimately sent to Admiral Wilson. By one chance in a thousand Mr. Howard happened to visit Admiral Wilson in Brest just as the telegram was received. By chance I was 'among those present.'

"The foregoing is the true story based on my recollection of the details as I observed and heard them—not on hearsay —of the actual transmission to the United States of the 'news' of 'the amazing armistice,' which completely upset this country, Thursday, Nov. 7, seven years ago."

A. N. P. A. APPROVES NEW ACTIVITIES

(*Continued from page* 3)

vention, R. L. P. Wallace, of Wallace, Delany & Co.. New York tax consultants, spoke before the convention Thursday on "Taxation Problems."

"The invested capital problem, which newspaper publishers thought especially applicable to themselves," he said, "and which many accountants and some publishers thought was settled by promulgation of the ruling providing for the restoration of surplus of invested capital of expenditures made to build circulation, has been up again and again in manufacturing and trading cases.

"Officials of the Treasury Department claim that not more than 1 in 20 newspaper publishers had any justification for looking to this ruling for relief. Most of you had to go to the special assessment section for relief. By this proceeding your profits tax was determined on the basis of competition with representative firms in your own line of business, and it may be some consolation to you to know that the rates established for your trade are 15 to 20 per cent below the high rates at which many other lines were taxed. Outside of court and tax board cases, I do not know of any one else to whom relief of this kind has been extended."

With the exception of Mr. Wallace's address the keynote of the final day's session was better advertising.

R. E. Lent, *Passaic News,* one of the speakers, went so far as to suggest that a special bureau be established by the A. N. P. A. to aid newspapers in the smaller cities to improve the appearance and sales-producing power of the advertising from their home merchants. His suggestion was taken under consideration.

Other speakers, included William Donohue, *Chicago Tribune* and Louis Wiley, *New York Times,* A. R. Michener, *Harrisburg Telegraph,* and J. M. Schmid, *Indianapolis News.* Mr. Schmid was unable to attend and his paper was read.

The Thursday meeting ended in paeans of praise. Tributes were paid to Mr. Bryant, chairman of the program committee, and the board of directors. is now certain that the Fall A. N. P. meeting, outside of New York, will be regular feature.

Lafayette Young, *Des Moines Capi* in moving to thank Mr. Bryant and board, suggested that the next meet be held in the Middle West. He wo be delighted, he said, to return to Wh Sulphur Springs, or any similar reso however.

The motion was seconded by Noyes and carried unanimously by rising vote.

That a vote of thanks be especia extended to the president of the assoc tion and to the members of the board directors for inaugurating this excell innovation in the career of the assoc tion.

The motion was regularly second Mr. Wiley putting the question, at request of the president, and it was c ried.

To L. B. Palmer, association mana equal praise was accorded.

of directors, and Mr. Palmer had arrived Sunday and on Monday had greased the wheels so that everything would run smoothly during the three convention days.

Delegates were enthusiastic at the success of this convention and vote at the session was unanimous for repetition of the event in the fall of 1926.

Some small city or secluded resort such as this probably in the Middle West, will be selected by the board of directors.

Particular praise was given W. B. Bryant, *Patterson Press Guardion,* chairman of the program committee on his choise of topics and selection of expert speakers.

The only guest speaker of the con-

Why They Write For Information

One of the concerns asking EDITOR & PUBLISHER for information this week says:

"I shall appreciate this information very much, especially as I fail to find any such house advertising in your current issue."

There is the point. This man wanted to purchase certain products for use by the circulation department. A salesman was not in his office. He reached for his copy of EDITOR & PUBLISHER only to find that the Manufacturers of the required product were not advertisers.

Then he wrote a letter and we replied, giving him the name of a concern we believe to be reliable.

Equipment, Supplies and Services should be listed on the classified page of

EDITOR & PUBLISHER

BUSINESS CONDITIONS IN NEW ENGLAND

OF IMPORTANCE TO ADVERTISERS

The steady gains in nearly all lines during the Fall Season have fulfilled and in some instances surpassed expectations.

New England shoe factories are booking more contracts. Colder weather has given a new stimulus to retail sales of dry goods and clothing. In various commercial channels frequent purchases by dealers are necessitated by the enlarging demands from consumers. The constant repeating of orders by distributors shows plainly that stocks of most kinds of merchandise are moderate and the buying, though still chiefly to cover actual requirements only, is of sufficient magnitude to maintain or raise the rate of operation at most manufactories.

New Englanders are noted for their conservatism and reports of steady trading in this territory can be taken as an assurance that merchandising conditions are ideal.

Sales promotion—creating consumer demand—can be best accomplished with the cooperation of local merchants and newspapers.

It is the most direct way. It is the most economical way.

The newspapers listed below cover the New England market thoroughly and at an exceedingly low cost.

T. E. NILES, EDITOR, DIES IN PROVIDENCE

General Manager of Providence News Was for Many Years Managing Editor of the Old New York Mail

Theophilus E. Niles, general manager of the *Providence News,* and for many years managing editor of the *New York Evening Mail,* died at his home in Providence, Nov. 8. Ten weeks ago he had undergone an operation and was making progress until Saturday, when heart trouble developed.

T. E. Niles

Mr. Niles began newspaper work on the old *New York Sun,* when that newspaper was under the editorial direction of Arthur Brisbane. He came to the Sun from a school teaching position on Long Island, which he had accepted, following graduation from Wesleyan College, Connecticut, in 1888.

Later Mr. Niles joined the staff of the old *New York Mail and Express,* under Col. Shepherd, which later became the Evening Mail. He remained on that newspaper until it was sold to Frank Munsey in 1924. Altogether he was for 16 years managing editor of the Evening Mail, beginning in 1898, but his service on that newspaper was interrupted on various occasions.

For a time during that period, he was associated with the office of the District Attorney in New York, and then became successively managing editor of the *New York Tribune,* member of the *New York Globe's* editorial staff and managing editor of the old *Newark* (N. J.) *Daily Advertiser,* until it was purchased by Col. George Harvey.

It was while he was managing editor of the Mail that he employed and held Franklin Pierce Adams, now conductor of the "Conning Tower" for the *New York World,* Gratland Rice, noted sports writer of the *New York Herald Tribute,* Rollin Kirby and Rube Goldberg, cartoonists, although he was frequently ordered to discharge them.

Because he gave these men, and other present journalistic celebrities work and kept them on the Evening Mail, when other New York managing editors turned them down, Mr. Niles has been given credit for "discovering" them.

Arthur Brisbane wanted Goldberg to come from the Evening Mail to the *New York Journal,* but the cartoonist remained loyal to Mr. Niles. The same was true in regard to F. P. A., to whom Lord Northcliffe made a brilliant offer.

Once in an interview in Editor & Publisher, however, he was quoted as saying:

"I get a lot more credit than I deserve. I just didn't prevent their coming through, that was all."

In January 1925, Mr. Niles became general manager of the Providence News.

FREDERICK E. POND

Rod and Gun Editor of N. Y. Herald Tribune Dead

Frederick E. Pond, 69, conductor of the rod and gun column in the *New York Herald Tribune* under the name of "Will Wildwood," died recently in a New York hospital.

Mr. Pond was born in Packwaukee, Wis., April 8, 1856. He was educated in Montello, Wis. His boyhood passion for fields and streams remained with him, and as a lifework he turned to writing about them. He came to New York in 1881 as field editor of *Turf, Field and Farm,* one of the first outdoor magazines. In 1888 he started his own publication, *Will Wildwood's Magazine,* which later was merged with Turf, Field and Farm. After several other magazine posts, he became rod and gun editor of the *New York Herald,* and then of the New York Herald Tribune after the merger. He was buried at Warwick, Orange County, N. Y.

T. H. PRESTON DEAD

Brantford (Ont.) Expositor Publisher Was Prominent Liberal

T. H. Preston, proprietor of the *Brantford* (Ont.) *Expositor,* died at Brantford, Nov. 7.

Few Canadian newspaper men have been known throughout the dominion then was Thomas Hiram Preston. Born at Mount Vernon, Ind., on Oct. 22, 1855, he came to Canada when quite young and was educated in Ontario schools.

He began his apprenticeship as a printer in the office of the *Woodstock Sentinal,* and completed it on the *Stratfor Beacon.* He was a compositor on the *Toronto Globe* in 1871. Later he removed to the United States, but returned to Canada in 1874 and joined the staff of the *Ottawa Free Press.* After having been a member of the Press Gallery at Ottawa for some time, Mr. Preston became night editor of the *Toronto Globe.* This was in 1881. Afterwards he represented the Globe and other newspapers in the House of Commons press gallery. In 1882, he became connected with the *Winnipeg Sun.* He made a fine record for enterprise for his newspaper during the Northwest Rebellion in 1885. Shortly afterwards he represented the Canadian Press at the Durbar in Delhi, India.

He was elected to the Ontario legislature as a Liberal for Brant South in 1899 and re-elected in 1902 and 1904. He retired from membership in the legislature in 1908 voluntarily for private reasons. In 1906 he was offered the leadership of the Liberal party in Ontario, but declined it.

EDWARD E. BRITTON

Well Known Newspaper Writer, Once Secretary to Josephus Daniels, Dies

Edward E. Britton, widely known Washington newspaper correspondent died Nov. 9, in Washington after an illness of only three days.

Mr. Britton came to Washington in 1917 as private secretary to Josephus Daniels, then Secretary of the Navy. For a long time previously he had been associated with several North Carolina newspapers. He was editor of the *Wilson Daily News* from 1899 to 1901 and succeeded Mr. Daniels as editor of the *Raleigh News and Observer* when the latter entered the Cabinet.

Since the Wilson Administration's close Mr. Britton had been Washington correspondent for the Raleigh News and Observer and the *Greenville* (S. C.) *News.* He had been prominent in southern politics for many years and was permanent secretary of the Democratic National Convention in Baltimore in 1912.

T. M. HOLLINGSHEAD

Veteran St. Louis Globe-Democrat Business Manager Dies

T. M. Hollingshead, 68, business manager of the *St. Louis Globe-Democrat* for more than 25 years of his 39 years' connection with that newspaper, died in Mullanphy Hospital, St. Louis, on Monday, following an operation the previous Thursday. He had been in failing health for about a month.

Mr. Hollingshead was born in Cincinnati. He went as a young man to Fargo, N. D., and worked in a bank, but shortly returned to his home and engaged in the printing business. From Cincinnati, he went to St. Louis with his two elder brothers, the late Mark and Murdock Hollingshead, and all entered the employ of the Globe-Democrat. T. M. Hollingshead was employed in the auditing department for six years before being transferred to the business office.

He is survived by his widow and two sisters. The body was cremated and returned to Cincinnati for burial.

Obituary

Martinez Lujan, chief of the telegraph department of *La Prensa* of Buenos Aires, was killed there Oct. 26, in a street car accident.

Edward B. Duffy, for 50 years a press telegrapher, died recently at La Crosse, Wis. Mr. Duffy was one of the oldest Associated Press operators in the service having started when long hand reception was the rule. He was stricken with apoplexy while at his key in the office of the *La Crosse Tribune.*

Frank B. Dallam, 56, veteran ne paper man, who had worked on m papers in New York and other cit died Monday in New York, after an ness of many months. Mr. Dallam be his newspaper career in 1895 on *Chicago Times.* Later he was with *Louisville Courier-Journal.* He star in New York on the *World,* later wo ing on the *Sun, Tribune* and in 1912 the *Times.* Recently he had been on *American.*

Rapid Growth In Church Advertising

Church Advertising in newspapers is growing with great rapidity.

There is ten times more of it today than when we first printed these advertisements in EDITOR & PUBLISHER four years ago.

The growth in church attendance in the United States last year is reported to have exceeded the growth in population.

Get your churches to avail themselves of our congregation-building service. A new series of Come-to-Church advertisements will soon be released. They have been written by men and women prominent in business and in public life in the United States, and they appeal to those of every faith.

Let us help you with your church page.

COMPLAINT AGAINST RAILROADS

Washington Trade Union Weekly Protests Newsprint Charges

Alleging overcharging in rates and charges on shipments of newsprint paper from points of origin in Maine and Canada to Washington, *Labor* a trade union weekly, asked the Interstate Commerce Commission this week to institute an investigation into the reasonableness of the rates complained of. Fifteen railroads are named as respondents in the complaint.

The complaint declares the railroads named have levied unjust and unreasonable rates on shipments of newsprint paper since Sept. 21, 1923, to the extent that the rates charged exceeded the rates contemporaneously in effect from the same points of origin to Baltimore plus a differential of 1 per cent per 100 pounds.

The complaint asks establishment of reasonable rates and seeks reparation in the sum of the alleged overcharges. A similar complaint by the Washington Publishers' Association and several Baltimore newspapers is pending before the commission.

Why Terre Haute Unanimously Chose the Plus Plan

THREE Terre Haute, Ind., newspapers—The Star, Post and Tribune were unanimous in choosing the Imperial Plus Metal Plan to serve their type metal. The publishers of these three Hoosier papers know type metal problems. They are fully aware of the fact that type metal becomes unbalanced through continual use and if not properly cared for, in time becomes unfit and must be replaced by a new supply. They also know that type metal troubles and replacements are hard on overhead expenses.

That's why they chose the Plus Plan.

The Plus Plan (used by hundreds of newspapers) keeps type metal in its highest state of efficiency and prolongs its working life for many years. Users of the Plus Plan call it an Economy Plan.

Have You a Definite Metal Plan?

Is your metal being cared for by a definite, systematical and economical Plan? If so, the Plus Plan invites comparison. If not, send for a copy of the plan today.

WHAT THEY ARE SAYING

AN EDUCATIONAL INFLUENCE

"IF merchants are to sell more goods they must advertise their wares more extensively and must describe them faithfully. The buyer must be informed accurately as to the nature of the goods, for advertising is not only a selling, but an educational influence."—Charles W. Myers, Director of Trade Relations, Armour & Co., Chicago.

* * *

TALK TO THE ENTIRE COMMUNITY

"USE of newspaper advertising costs money but it doesn't cost much in consideration of what you get, which is the opportunity to talk to the entire community, to say just what you want to say, when and how you want to say it."—M. S. Sloan, President, Brooklyn Edison Company.

* * *

GUARD AGAINST DISCOURTESY

"THOSE who believe that they are putting on an armor against attack by buying advertising space in a newspaper are apt to have a rude awakening when least expected. A discourteous representative of a business can easily undo all that has gone before toward the making and holding of friends."—Robert E. Livingston, director of public relations, Consolidated Gas Company of New York.

WEEK'S AD TIPS

N. W. Ayer & Sons, 308 Chestnut street, Philadelphia. Placing orders with newspapers in various sections for the Encyclopaedia Britannica, Inc., New York City.

George Batten Company, 383 Madison avenue, New York. Placing orders with newspapers in selected sections for Booth Mills, toweling, Lowell, Mass.

Before joining the News, Mr. Davis was circulation manager of the *Jacksonville Journal.* Fred W. Idler, formerly of the circulation department of the *Rochester* (N. Y.) *Times Democrat* will succeed him on the News.

Clapper Back on Job

Raymond Clapper, Washington bureau manager of the United News, who was taken ill with typhoid shortly after returning North from covering the Scopes trial at Dayton, Tenn., has recovered and resumed his duties in Washington this week.

Folks in

Indiana

Are Real Home Folks

Indiana people are home people with typical American homes and a high percentage of native-born whites. These folks constitute an ideal market for American products.

Indiana people are industrious, with an income in wages and salaries from manufactures exceeding $400,000,000 and incomes from agricultural productions amounting to nearly $500,000,000.

Indiana people are thrifty, as indicated by bank deposits of $725,000,000. Indiana people are pleasure loving and have one automobile to every five persons in the state.

Indiana people read their daily newspapers and are responsive to advertised offerings of nationally distributed foodstuffs and other necessities, and can buy luxuries in proportion to any other state in the country.

Cultivate Indiana through these newspapers

ASSOCIATED CLUBS ACT ON REVENUE PROBLEM

75 Per Cent of Money Raised to Go to Better Business Bureaus, 25 Per cent to A. A. C. W. Activities

How revenue shall be divided between the Associated Advertising Clubs of the World and the National Better Business Bureau, Inc., the vigilance body of the A.A.C.W., was outlined by resolutions passed at a recent meeting of the executive committee of the A.A.C.W. held in New York.

The following resolution was passed:

"FIRST: That funds and revenues for all purposes and activities of the Associated Advertising Clubs of the World be raised by the A.A.C.W. and be allocated to the various purposes and activities of the Associated Clubs including the work of the National Better Business Bureau as may be determined and provided by budgets to be approved and controlled by the executive committee of the Associated Advertising Clubs.

"SECOND: That any solicitation of funds for the Associated Advertising Clubs including the funds for the work of the National Better Business Bureau shall be on some unified plan determined and established by the executive committee of the Associated Advertising Clubs of the World to the end that duplication of effort in soliciting be avoided."

This resolution had the endorsement of E. Allen Frost, William H. Hodge, Charles R. Frederickson and Maurice Saunders, a special committee of the National Advertising Commission, whose counsel was sought, and past president, A. D. Gibbs of the president's Advisory Committee.

In formal discussion the directors of the National Better Business Bureau, those present being, Lou E. Holland, C. K. Woodbridge, Henry L. Doherty, Lewis E. Harriman, Herbert S. Houston, Paul T. Bollinger and William S. Patton, emphasized the value of vigilance work as part of the A.A.C.W. activities, and it was the opinion of the Board that present methods of enlisting support be followed and the following resolution was adopted:

"That there shall be a definite division of sustaining memberships of the Associated Advertising Clubs on the present basis of 75 per cent net to the National Better Business Bureau and 25 per cent net to the Associated Advertising Clubs of the World, with the exception that in special cases in specific industries the National Better Business Bureau shall be allowed to solicit funds and to use 100 per cent net of such funds for work by the National Business Bureau in such industries, subject to the consent of the President of the Associated Advertising Clubs of the World; and that selling expense is to be deducted from the gross amount of sustaining memberships and that the balance then be divided as agreed."

The Board appointed the following committee to devise ways and means of raising money: Lou E. Holland, president of the National Better Business Bureau; Edward L. Greene, managing director of the National Better Business Bureau; C. K. Woodbridge, president, A.A.C.W., Earle Pearson, general manager A.A.C.W.; W. Frank McClure, chairman, National Advertising Commission, and Robert A. Warfel, executive secretary, National Advertising Commission.

Those attending the meeting included C. K. Woodbridge, Lou E. Holland, Ethel B. Scully, William S. Patton and Jesse H. Neal.

DONOHUE ON TRAINING OF ADVERTISING SALESMEN

(*Continued from page 6*)

test whether or not an advertising campaign will be successful and I think this yard stick is bullet proof. I call it the five-point rule and the salesman is given a great deal of instruction on how to use it.

The five point rule is as follows: Is the Medium right? Is the Time proper? Is the Copy right? Is the Merchandise right? and is the Management of the proposition right?

The medium: The test on the medium is not the volume of circulation alone, but the volume plus the territory it covers, the kind of people that read the paper, their shopping habits, their buying habits, their buying power and their responsiveness.

The time: The time as to Seasons—The time as to days—The time as to climatic conditions—and the time as to events.

The copy: The copy must be a traveling salesman for the house it is sent out by and must have all the requisites of a good salesman. A salesman must sell himself, his Personality—The House he represents and the contents of that house. Therefore, the copy should insure attention, create interest, create desire and compel action.

The merchandise: Is the merchandise right? Is there a market for it? Will the public buy it? Is it priced right?

The management: Is the management efficient? By management I do not mean the officers or the executives of the company, but everyone connected with the firm from the office boy to the president.

The salesman is instructed in the Who, What, When, Where, Why and How rules of salesmanship. He is schooled in the buying and selling of merchandise—in the wholesale market—in the jobbing market—in the retail market. In the markup and turnover of merchandise and in retail store service the management. Also how to compare his merchandise, that is the newspaper he represents, with that of his contemporaries, because things are great or small only by comparison. He is warned never to oversell and to realize that after all the man who pays his salary is really the merchant whose advertising he solicits. He is advised against exaggerated statements in order to sell a client, because by bad advice while he may gain temporary linage he may kill a permanent advertiser. He is instructed to be truthful in his statements, be honest with himself, the house he represents, and the merchant on whom he calls.

He is taught how to analyse circulation figures and not merely quote them, is coached in the mechanics of advertising. Hypothetical sales problems are put to him with a fellow salesman placed against him so that he may recognize the points of contact and the course to pursue in order to dominate from that point, so that he may carry the conversation to a successful sale and he is warned to get out when he has the order for fear that he may talk himself out of it again. After he is released from the school he is assigned for a period of about 20 days with salesmen, being changed each day so that he can see how the other fellow works. Then at least twice a week he sits in with a group of salesmen at which time sales talks and sales instructions are given. In these meetings as well as at the end of each day he is being instructed, he is required to talk on his feet, thus giving him confidence in himself and aiding him to get rid of his timidity if he has any. This is done because more and more we are compelled to sell a group of individuals such as the president, general manager, sales manager and advertising manager, where a few years ago we were selling individuals. From time to time his mistakes are pointed out to him, thus aiding him to improve his ability to execute.

I have spent twenty-seven years in the newspaper business, the greater part of twenty-one years with the Chicago Tribune, thirteen of which I have occupied the position of Local Advertising Manager. I have worked in the editorial, auditing, circulation and mechanical departments, as well as the advertising department of newspapers.

Due to the generosity of my superiors who have allowed me the time and paid my expenses, I have been able to study merchandise and merchandising both here and abroad. I have sat in with buyers of dresses, coats, and suits and millinery at that New York market and I have made trips with furniture buyers and with buyers of men's wear. I have been through the New England and Brooklyn shoe factories. I have been through piano factories. I have followed the merchandise from the manufacturer to the consumer because I have worked in retail stores and as I have studied retail store service and management, and the markup and turnover of merchandise, I know something about overhead and the meaning of the words "net profit," and am well acquainted with The Chicago Tribune and the Chicago territory.

When men are needed to sell national advertising, they are taken from the Local Display Department and put through a training of investigating market, gathering data, etc., then they move to merchandising service and then into the National Advertising Department. A family spirit is always present, a spirit which not only prevails in the advertising department, but throughout the entire Tribune family—and that spirit is kept alive by our dynamic and democratic but firm business manager, S. E. Thomason, who sets the pace and who never fails to compliment good work done.

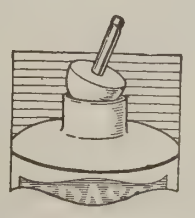
E. W. Parsons, our Advertising Manager and the guiding star of the department, as well as every sales executive in the department, is a graduate of the Want-ad Department. The volume of advertising carried year after year, coupled with the fact that we have been able to build the Cathedral of all buildings on upper Michigan Avenue in Chicago—The Tribune Tower—out of the earnings of that great newspaper, would seem to indicate that we have succeeded in a large measure in the elimination of lost motion and wasted energy from our advertising sales force.

Police Reporter Sues Traction Co.

George Stayton, police reporter for the *Houston Chronicle*, brought suit last week against the Houston Electric Company for $5050 for damages sustained in an auto-street car crash last summer. Stayton was riding in an ambulance when it crashed with a street car. He sustained severe injuries.

QUICK STICK PASTE POWDER

For Single and Bundle Wrapping



For the mailing room of a newspaper Quick-Stick has no equal. It is mixed in a minute—possesses greater strength than the paper itself and when once applied it will not let go. Use Quick-Stick for single and bundle wrapping. Mixed thin and strained it forms a highly efficient paste for facing and backing matrices.

No. 705 A Superior Paste for the Mailing Machine

A smooth, easy flowing white paste that permits the fastest labeling possible. It will not sour or mould regardless of weather conditions and will not clog or gum up the fountain. It will pay you to give No. 705 a trial in your mailing machine.

COPASCO

Let the boys use it

Copasco is a convenient desk paste—economical—never dries out—never needs water—won't cake—spreads smoothly and evenly at all times. Let the men at the desks give Copasco a trial.

TRADITION CAUSES CIRCULATION WASTE

By A. R. Michener

(General Manager *Harrisburg* (Pa.) *Telegraph*)

Address This Week at A. N. P. A. Convention

IN a department, the operation of which is so much a matter of detail as the circulation department, there is so much possibility of waste that it is almost impossible to point out any specific item. It seems to me, however, that the two things, more than any others, that cause waste in the operation of the circulation department, are these—tradition and turn-over. I will take up turn-over first.

Every newspaper, every year, attracts to it sufficient new readers with practically no effort of its own to show a healthy growth in circulation, if all its old subscribers were retained. The loss of subscribers is so great, however, that constant promotion effort must be put forth to show a constant growth.

On one paper of less than 50,000 circulation that I know, in a single year it was necessary to write fifty-two thousand new six-month and yearly contract subscriptions to maintain this circulation and show a gain of a few thousand copies. On another paper of much the same circulation, in one year thirty thousand subscribers were written. In the first case the turn-over was more than 100 per cent and in the other over 75 per cent. The waste in such turn-over is staggering.

A few years ago we decided on our paper that instead of stressing circulation promotion effort so much, we would endeavor to eliminate waste by reducing the circulation turn-over. In the year that this decision was made, we had written thirty thousand new contract subscriptions to maintain our circulation of forty thousand, and show a gain of only a few thousand copies. During the following year we wrote but seventeen thousand new subscribers and maintained the same circulation growth. And the third year less than 20,000 contract subscriptions were written.

In approaching this problem our attention was first turned to a study of the kind of features which subscribers want. By questioning circulation road men, district men, and canvassers, we found the type of features that were desired according to the views of readers as reflected to these representatives with whom they came into intimate contact. Instead of giving our readers the kind of features we thought they wanted, we are giving them the kind that the readers themselves tell us they want.

The local city news report was next placed under the microscope, and we found that it did not come up to the expectation of our readers. Here again we endeavored to give the readers what the readers wanted.

These changes naturally cost money—but, in order to make certain that our experiment would be properly conducted, every time that we increased the cost of the material we were giving the subscriber in the columns of our paper, we reduced by a similar amount the money allotted to circulation promotion work.

Another way to reduce turn-over is to make certain that your new subscriptions are properly written.

Too many newspapers, when they want to increase circulation, hire the cheapest kind of road men and solicitors and send them out with no training.

And, in this connection, I might venture the opinion that the best kind of subscription orders and the ones with the smallest turn-over are—first, orders obtained by carriers, agents, and newsboys on merit alone. Second, by carriers, agents and newsboys spurred on by prize offers. And, next the subscriptions that are obtained through solicitors.

And, last but not least, in maintaining a low ratio of turnover it is highly important that you look to the delivery service of your carriers, agents and newsboys. Every subscriber wants his or her paper at the same place, at the same hour, each day, and when he or she so receives your paper the reading of it becomes a fixed habit and cannot easily be changed.

We will next take up tradition. Failure to adopt new methods, particularly in delivery, are today costing newspapers all over the country thousands of dollars.

Most of us are still using the heavy weight craft paper in wrapping our bundles, although we all know that we can save money by using spoiled copies.

Truck lines today offer an economic means of transportation. Yet, very little study has been placed on this method of distribution by most publishers. I checked up on some of the shipments out of our city and was surprised to learn that within a distance of 50 miles we could just about break even on delivery cost by truck and save money should the railroads succeed in their efforts for higher rates for newspapers transported in baggage cars. If you will look to your home transportation possibilities, I am sure you can save money.

Another possibility of reducing circulation cost is in the consolidated delivery by papers in the same city. This is now being worked out in Pittsburgh very successfully. I know of no greater example of tradition causing waste expenditures in circulation departments than in the matter of money paid railroad companies for transporting newspapers in baggage cars. When you keep in mind that the newspapers in Pennsylvania pay about $750,000 a year to the railroads you can figure what tradition has cost these publishers in this one case alone.

Had the newspapers of Pennsylvania accepted the now proposed further increase in rates of 66 2/3 per cent in the same manner that previous increases have been accepted, these papers would now be paying more than half a million dollars a year increased baggage rates. The protest filed in Harrisburg and in Washington last March with its postponement of the effective date has at least resulted in a saving of more than three hundred thousand dollars to the newspapers of Pennsylvania already.

CAMPAIGN FOR STEEL

Advertising for Magazines, Publicity for Newspapers Is Reported Plan

WHITE SULPHUR SPRINGS, Nov. 12.—The American Institute of Steel Construction started its annual convention at the Greenbrier Hotel while the meeting of the newspaper publishers was still in progress.

Possibility of inaugurating a national cooperative advertising campaign was one of the topics discussed, after the report of the publicity committee by George E. J. Poster, chairman.

Questions were referred to W. H. Page, and D. McConaughy, representatives of N. W. Ayer & Son, advertising agency which prepared the report.

Several delegates to whom EDITOR & PUBLISHER'S reporter talked declared it was the hope of the institute to start a national campaign like that of the Portland Cement Association. It was said the campaign proposed use of large magazines with free publicity for the newspapers. This was denied by the Ayer representative.

Newspaper publishers, however, are well acquainted with the fact that N. W. Ayer & Son are at present sending out "free news" and "free features" for the steel group.

GANNETT BUYING ANOTHER

Empire State Group Chief Negotiat for N. Y. State Daily

WHITE SULPHUR SPRINGS, W. V Nov. 12.—Negotiations are under v for the purchase of another New Y State daily to add to his chain of ne papers, Frank E. Gannett, president the Empire State Group of newspap told EDITOR & PUBLISHER here today.

Mr. Gannett, at the A. N. P. A. c vention here declined to divulge name of the property he expected to b He declared, however, that the deal virtually completed, and indicated definite announcement might be made n week.

Gannett newspapers are: the *Roche Times-Union; Elmira Star-Gazette, mira Advertiser,* and *Telegram; Ith Journal-News; Utica Observer-Dispat* and *Newburgh News.*

RECORD NEWSPAPER LINAGE RESULTS IN RECORD SALE FOR GIMBELS

Department Store, Operating in Three Cities, Reports Net Sales of $13,300,000 for October, Gain of Nearly $2,000,000—Employed Multiple-Page Advertising

A REMARKABLE story of successful department store advertising was told ıewspaper readers in New York, Phila-ɛlphia, and Milwaukee, on Nov. 6. On hat date Gimbel Brothers, Inc., an-ounced in half-page space that net ales for the month of October were ·13,300,000, a net gain over the same ıonth last year of $1,900,000.

October each year is "Gimbel Month," nd the 30-day sale is annually backed 'y large newspaper advertising.

"Our investment this year in news-aper space was larger than ever be-ɔre in our history," Sheldon Coons, ad-ertising director, informed EDITOR & 'UBLISHER in an exclusive interview. And the results speak for themselves."

Gimbel linage during the month in 15 ıorning, evening and Sunday newspapers ·as given as 510,210 by a reliable New ·ork checking service.

Of the 15 newspapers used in the ıonth's campaign, four were evening ɛwspapers; four were standard size .orning and Sunday; two daily tabloids; ıd one Sunday tabloid.

Basing his optimism on the October ɛsults, Mr. Coons predicted that the hristmas retail business would be ɔigger than ever" this year.

"Our policy is virtually confined to use f newspaper advertising," Mr. Coons ıid. "We do little or no direct mail dvertising, although that is no index ıat we disapprove of this form of ad-ɛrtising in some cases.

"One feature of our October news-aper campaign was our return to mul-ple-page advertising, that is, the pur-ıase of several successive pages in a ngle edition. Years ago this was com-on department store practice. Because seemed to have lost its pulling power, owever, Gimbel Brothers together with her department stores, broke away om its use. For the past several years e have opened our annual October sales ith several pages, but this year we ɛed multiple pages more than usual.

Prior to "Founders Day," which, com-g Oct. 17, is the peak of the sale ɔnth, Gimbel Brothers employed multi-e-page advertising on a particularly rge scale. As high as seven pages ere purchased in a single newspaper.

"As a result, we did the largest day's siness in the history of our company," as Mr. Coons' comment.

Gimbel Brothers, advertising men int out, is one of very few depart-nt stores in the country which can ccessfully sustain public interest for sale extending over a month's time. Ir. Coons said the last day of this year's le was as good as the first, amazing roof of the efficiency of daily news-per advertising.

During the progress of the Anniversary le last month the 15,000 employes ho constitute the Gimbel organization re called upon to work at increased ed and for longer hours. The de-nd for the advertised goods was so at that it was impossible to care for t customers in the usual shopping iod. Not only did housewives avail mselves of the bargains offered, but large sales were reported to Federal, State and Municipal institutions throughout the country and to clubs, hotels, railroads, and steamship lines.

Anticipating lasting benefits from this year's sales the management has prepared for enlargements and extensions in the three cities where it has stores.

In Philadelphia, the Market street store is being doubled in size. In Milwaukee a large addition has just been completed, while in New York, the 18-story Cuyler building across 32nd street from the Gimbel store has been acquired. Three floors of this building are already in use and two more will be opened shortly.

The story of the successful month, believed to be a record in American retailing was told newspaper readers in the half-page copy written by Mr. Coons as excerpts from which follow:

"The impressive figures published here are set down in the belief that they constitute a new record in American retailing.

"Coincident with their publication Gimbel Brothers wish to publicly express their appreciation to their patrons in New York, Philadelphia, Milwaukee—and to the 15,000 co-workers in the Gimbel organization whose diligence and energy sustain the business.

"October and the Gimbel Anniversary sales of 1925 are but a memory.

"But the 'largest purchasing power' of this organization will continue to provide merchandise of quality at lower prices every day in the year."

PREDICTS LOWER POSTAL RATES

Hanson Say Drop Will Come Before Coming Congress Adjourns

WHITE SULPHUR SPRINGS, W. Va., Nov. 12.—Newspaper publishers today were told to expect a reduction in second class postal rates by Elisha Hanson, Washington representative of the A. N. P. A. In an interview with EDITOR & PUBLISHER, he predicted postal charges would drop before adjournment of the coming congress.

"I look for a return of the 1919-1920 scale long advocated by the A. N. P. A." he said. "That is a cent and a half per pound in nearby zones as compared with the present rate of two cents, which went into operation last winter, following the raise of post office department pay."

Mr. Hanson arrived here from Washington, fresh from what was to have been the final hearing of the Joint Congressional Committee. According to plan, the postmaster general was to have presented figures to show results from the last "emergency measure" raise in rates which newspapers have been fighting for.

Postmaster General New, however, called on his aid, Joseph Stewart who said he could not submit figures on the results. Stewart asked and was granted a delay until Dec. 8. It understood that at this later date a further extension will be asked until the middle of February. Allowing more than eight months trial of the fifty per cent increase on second class matter.

"We have conclusively proved to Senator Moses and his Joint Committee that the increase in second class has resulted rather in a withdrawal of newspapers from the mails, then increased revenue to the Post Office Department," Mr. Hanson said.

"The new law has not produced the revenue expected. Several billion pounds of newspapers have been diverted from the mails.

"The publishers are not going to sit on the end of a limb and let it be sawed off by the Postmaster General."

TRIBUTE TO WAR DEAD

Publishers Interrupt A. N. P. A. Convention for Silent Moment

(By Telegraph to EDITOR & PUBLISHER)

WHITE SULPHUR SPRINGS, Nov. 11—Sixty seconds of silence was observed here today, as an Armistice Day tribute to the soldier dead in the World War.

The business session of the A.N.P.A. convention was interrupted, while W. B. Bryant, chairman of the program committee, made a fitting address, and the delegates sat with bowed heads, during the brief period devoted to the departed heroes.

"The hour is now 11 o'clock," Mr. Bryant said.

"Seven years ago at this time Armistice Day was born.

"The poet said: 'The path of glory leads but to the grave.' Can this be true? Are we who sacrificed sons, brothers, husbands, fathers, to be satisfied with ignominious death as finale to their efforts?

"In their glorious stand for Liberty they perished and so passed from the finite to the infinite.

"On this day let us show how immortal is their glory by standing in silent reverence to the unfading memory of our heroes."

Staff "Hard Times" Party

Employes and executives of the *Cedar Rapids* (Ia.) *Evening Gazette* enjoyed their annual Hard Times recently. John L. Miller and Harry L. Marshall were judges and prizes were awarded for best costumes.

LETTERS FROM OUR READERS

Checking Copies

To Editor & Publisher: I want to congratulate you and the writer of the article which appeared in Editor & Publisher, entitled "Where do the checking copies go?"

This is a true statement of conditions in our office, and I have no doubt that it is general.

Keep up the good work.

The Ohio State Journal Company,
W. H. Rible, Business Manager.

Fire Insurance Advertising

To Editor & Publisher: Your issue of Oct. 31 carried an article called the "Latest Insurance Advertising Trend." This was a report of the Insurance Advertising Conference meeting in Boston. This article ran from page 20 to page 42, and in the first three or four paragraphs on page 42, reference was made to the magazine advertising done by the Hartford Fire Insurance Company. Then the article went on to say, "The agents are not expected to rely solely on the magazine advertising," etc. And "Just hinted at in the prize book is the free publicity obtained through the annual fire prevention week, of which the Hartford Company is one of the originators. Quite generally among insurance companies at the present time efforts are being made to obtain free publicity in newspapers, while, as described by Mr. Collins, the 'experimental stage' of insurance advertising, using magazines is under way," etc.

It seems to me that there is a possibility that your readers may infer that the Hartford Fire Insurance Company is endeavoring to pick up crumbs of free publicity, and there is just a hint in the copy that there is something wrong in the fact that we are using magazines instead of newspapers.

It appears to me rather unfortunate that your article should have conveyed this impression, for I feel that I will not be disputed when I say that no insurance company has done more to increase the amount of paid advertising space used by individuals engaged in the insurance business than has the Hartford. We doubt, for example, if you can find any insurance company that has in its agency Handbook twelve pages of copy telling how to use local newspapers and how the Company will, through writing copy, supplying mats, cuts, etc., help an agent make his newspaper advertising effective. We doubt if you will find any other insurance company that supplied over 200 full-page mats to large city papers that netted these papers a page of paid space that they never would have sold during Fire Prevention Week were it not for the mat that we furnished them. In the great majority of these pages not even a credit line was used to protect a copyrighted drawing that we had heretofore kept for our exclusive use. Neither the name of the Hartford Fire Insurance Company nor the trade-mark of the company appeared in most of these advertisements. We did, however, by sending out this mat, permit a great many agents and other local concerns to get back of a very effective fire prevention message.

And as far as our own agents' newspaper advertising goes, we have actual proof (for we function like an advertising agency) of the insertion during the year 1924 of $104,916.01 worth of newspaper advertising for which we furnished cuts, copy, layouts, schedules and everything else that an agency would furnish for the advertising of his clients.

We venture to say not a quarter of this advertising would have been run were it not for the fact that we sold our agents on the desirability of using paid space to advertise themselves, and, incidentally advertise the fact that they represent the company whose national pression of what the Hartford Fire Insurance Company is trying to do, and we feel that we are right in assuming that the author of your article wished to take a gentle crack at us. We do hope that he may be set right by this letter.

Cordially yours,
J. W. Longnecker,
Advertising Manager.

Evolution Theory

To Editor & Publisher: There has been so much said about teaching science of evolution in the schools that when I read Walter Lippmann's speech in the October 24 issue, I thought I had to express briefly my opinion in the matter.

In the first place, evolution is not a science as yet. It is only a theory. And while a theory might be taught to persons of mature mind without injury, the teaching of it would have effect on immature minds.

But that is not the thing that grouches me. The thing that I object to is the continual harping on the short comings of the Tennessee Legislature in barring the teaching of evolution and never a word said about the barring from the schools the reading of the Holy Bible.

I am not certain, but I think that the Bible has been banished from the schools in every state in the Union. And if a majority of the people by vote either direct or by legislature could banish the Bible and it is a perfectly all right proposition, why isn't it a perfectly all right proposition for them to prevent the teaching of evolution until it really becomes a science.

In all the efforts to get evolution into the schools, I have not seen a single article that insisted at the same time that the Bible should go into the schools like when you and I were boys.

Regarding Mr. Evjue's opinion about big business influencing newspapers in the same issue of the E. & P. I don't believe that the gentleman can name any specific case where the editor of a newspaper has violated his own conscience and gone against his own opinions in what he has published about any of the different things cited by him as evidence that the newspaper's opinion is controlled by the business office.

I rather think that Mr. Reisner in the same issue of the E. & P. has advanced a good idea, but I think that the way to try it out would be for Mr. Reisner to prepare copy carrying out his idea and have some syndicate manager try putting it on the newspaper market. If he can sell the idea to the syndicate manager, I have an idea that it would go; or, the syndicate men know the kind of stuff that will appeal to newspaper publishers.

J. K. Groom,
Aurora, Ill.

"No Propaganda Year"

To Editor & Publisher: I snickered when I read that recent suggestion from one of your good readers—a newspaper publisher—about the good that might come from having a "No Propaganda Week."

The press agents would "lay off" that week, and the other fifty-one weeks of the year would show the usual amount of free puffery that comes alone or as a part of a display contract.

If the publishers are really in earnest about this matter—which some of us have to doubt when we measure the free stuff appearing constantly—they should try a "No Propaganda *Year,*" and then take stock of their progress.

I am one of those advertising agents that manages to get along without asking publishers for a free line, but I see the publishers in almost every part of the country handing out the free stuff in good-sized chunks, apparently without realizing that they are providing a type of unfair competition for the agent who is not imposing on their easy natures.

S. Roland Hall.

Must Publish City's Financial Reports

Detailed statements showing the receipts and expenditures of cities and towns of Kansas must be published quarterly under the state law, Attorney-General C. B. Griffith has ruled. The ruling was made at the request of O. W. Little, field secretary of the Kansas Press Association. A statute enacted in 1913 by the legislature made provision for publication of all city financial reports.

INTERNATIONAL STOCK SPLIT-UP APPROVED

Shareholders Ratify Project For $10,000,000 Additional Capital—Mills to Be Developed and Production Cost Cut—New Investment

Readjustment of the capital structure of the International Paper Company was approved Nov. 6, by stockholders. The readjustment was proposed by the paper company's management.

The company's common stock will be changed from shares of $100 par value to shares without par value, and the number of common shares will be increased from 500,000 to 750,000. The preferred stock will be increased from 500,000 to 750,000 shares of $100 par value each.

Of the 500,000 shares of common stock of $100 a share par value, 250,000 shares are outstanding. The management intends to exchange 250,000 shares of the new no par value stock for the outstanding common stock on a share for share basis, and to offer an additional 250,000 shares of no par value common stock to present shareholders on a share for share basis at $50 a share. The sale of this stock will give the company an additional $10,000,000.

About $4,000,000 of this new money will be used to acquire an interest in the New England Company, a holding corporation for the New England Power Company, and part will be used to develop further the company's paper mills, especially the plant on the Gatineau River in Canada, which is being modeled along the lines of the famous Three Rivers Mills. Development of these properties is expected to reduce the company's cost of production.

Subscription warrants entitling stockholders to subscribe to the new stock are expected to be mailed in a few days, as they expire at the close of the month. Payment for the new stock may be made either in full or in four quarterly instalments on Nov. 30, 1925, March 1, June 15, and Aug. 1, 1926. The Board of Directors intends to start dividend payments on the new no par value common stock at the rate of $2 a share annually, beginning Aug. 15, 1926.

Advertising Man Sentenced

Brom Ridley, well known advertising man of South Texas, now located in Denver, was fined $1000 and sentenced to six months in jail for his connection with the promotion of the Southern Motors Association by Federal Judge J. C. Hutcheson in Houston, Tex., last week. Ridley's jail sentence was suspended. Nine defendants were found guilty and received fines and suspended jail sentences.

Our Own World of Letters

By JAMES MELVIN LEE

OR various reasons "Everyman's Genius" by Mary Austin (The Bobbs-rrill Company) deserves at least pass- mention in this department. As a ult of a talk which she gave before of the Journalism classes which John rar, editor of *The Bookman,* teaches New York University, arrangements e made for publication in that maga- e of a series of articles giving her ervations on the interior phases of ting life—"as a corrective to the mech- ation of creative processes, following the recent practice of including rses in creative writing as part of ular university courses."

Maxwell Aley, fiction editor of the *man's Home Companion,* contributes appendix in which he tells how he l the series of artcles—now put into k form—in the Journalism class which teaches at New York University. smuch as Mr. Aley pays a nice trib- to myself in this Appendix, I feel ier embarrassed to do anything more n merely mention the volume. But he author has drawn so many of her strations from the field of letters I perfectly safe in bringing the book the attention of the reporter who ts to do good creative work.

n the section "Notes On Personal hods" I want to mark those pages which Ryan Walker, the cartoonist he *New York Graphic,* tells how he es his cartoons.

* * *

a note to the review editor the Bell- an Company of Minneapolis, frankly attention to the fact that "The al of Gold" by William C. Edgar is arily a history of the Washburn by Company, but at the same time an authoritative account of the de- lopment of the milling industry in the ed States and especially in the North- . Mr. Edgar, the author, has been more than forty years editor of *The thwestern Miller.* The text consists 70 pages with some 60 odd illustra- s.

he volume deserves mention in this rtment for several reasons. In the s place, Mr. Edgar holds a high place e journalism of the Northwest. For mber of years in addition to editing h Northwestern Miller he conducted *Bellman*—one of the finest literary ellies ever printed in America. When ased publication American literature red a distinct lose: no other peri- ul has arisen to take its place.

hapter XIV justifies the mention of book. This chapter might have been ed "Gold Medal Plus Printer's Ink." ls the story of a phrase made famous advertising—"Eventually—Why Not ?" Of this phrase which broke into print at an initial cost of 5000 Mr. Edgar says:

> In an incredible short time the perpetual obgation became a by-word. If anyone med to say "Eventually," another would with "why not now?" and "Gold Medal" would be brought to the minds of both. men used it with telling force in their s, clergymen slyly incorporated it into sermons, newspapers aptly employed it in headlines and editorials, children lisped it in their talk, mothers sang their babies to sleep with rhythmic repetitions of it, while other advertisers, at home and abroad, tried in vain to adapt it to their own purposes, lacking the brains to invent something for themselves. In all the history of advertising few catch-words or phrases equalled and none exceeded it as an instantaneous and permanent success.

More than a million dollars is now spent annually to keep this publicity before the American people. The phrase, as Mr. Edgar points out in chapter XIX, suggested the title for the magazine printed in the interests of employes of the Washburn Crosby Company—*The Eventually News.* Those who edit house organs or employes' magazines will find the chapter just mentioned of special interest.

In the last place, "The Medal of Gold" deserves space on the shelves of the newspaper library because of the valuable information contained about the milling industry. The author has a passion for accuracy. I know because I used to write a weekly Gotham letter for him when he conducted *The Bellman.*

I am tempted to say a few words about the literary charm of the volume but I am afraid readers would think my opinion may be biased because of my connection with The Bellman. But the book needs no puff or editorial boost. It stands on its own bottom like the barrel of flour which in a certain sense of the term it advertises.

* * *

ARTICLES on newspapers have appeared so frequently in *The Kiwanis Magazine* that they almost constitute a brief study of American journalism.

In the current issue Erie C. Hopwood, editor of the *Cleveland Plain Dealer,* prints one of the ablest articles on newspaper ethics that has yet appeared in type. The best thing about this discussion by Mr. Hopwood is the logic of his deducations. He answers the question, "How Far May a Newspaper Go?" by saying that "the right of a newspaper to attract and hold readers is restricted by nothing but considerations of public welfare."

One of the pivotal points of the article is the discussion of the regulation of the press. "One of the characteristics of the generation," says the editor of the Plain Dealer, "is the degree to which everybody concerns himself with everybody else and undertakes to regulate his life, liberty, and pursuit of happiness."

Both the pedantic and the practical students of newspaper editing and making will agree with Mr. Hopwood when he says that "anyone who will study newspaepr history with an open mind will be convicted that newspaper morals have generally gone along pretty well with the morals of the times and usually a little ahead."

In some respects—and these the most essential—"Newspaper Ethics" by Erie C. Hopwood is the most important magazine article of the month for members of the working press.

To an earlier issue of The Kiwanis Magazine O. R. Smith of the *Milwaukee Journal* contributed "The Metropolitan Newspaper." In this article Mr. Smith wears the stock and frock of his press-pulpit and preaches a sermon on the verses found in Mathew VII :24-25. Mr. Smith too touches upon the matter of newspaper ethics as he discusses accuracy in reporting.

In speaking of the influence of the editorial he makes this pertinentcomment:

> Whenever the newspaper is in discussion, someone invariably speaks of the declining influence of the editorial, and in the same breath recalls the halcyon days of Charles A. Dana and Horace Greeley, when personal journalism flourished and the editorial was a potent influence. This someone never reasons that the newspaper of any generation is part and parcel of the society in which it exists. If something of the personal touch has left the newspaper, so likewise has it left the entire field of American industry, with the increasing use of machinery and organization for machine production. If there has been any loss by the change it is the price we pay for a civilization that won't stand still.

In a recent issue of this same magazine Lou E. Holland, retiring president of the Associated Advertising Clubs of the World, takes up the matter of ethics in advertising in answer to the rhetorical question, "Why Truth in Advertising Means Better Business."

IN my little chat about *McNaught's Monthly* for November and the newspaper men and women who contributed to it I overlooked one of its most charming features, "A Splendid Young Woman," by Roxana B. White who is connected with the *Hagerstown* (Md.) *Daiy Mail.* The author evidently has many friends among her readers of EDITOR & PUBLISHER—to judge by the number of times I have been reminded of my sin of omission.

* * *

WALTER LIPPMANN, chief editorial writer of the *New York World,* is the author of "The Phantom Public" (Harcourt, Brace & Co.)—a book that will be reviewed more in detail in a later issue.

Gannett Goes to China

Lewis S. Gannett, one of the editors of *The Nation,* sailed from San Francisco Nov. 10, for China where he will report the Chinese situation for his publication.

BUSINESS OFFICE

Appraisers

Appraisers—Recognized authority on Printing and Newspaper plant valuations. Standard Appraisal Company, 90 John St., New York.

BUSINESS OPPORTUNITIES

Brokers

Consolidations, Sales—Omar D. Gray, Sturgeon, Mo., specializes in consolidating newspapers—has for sale half million dollars dailies and 189 weeklies.

Evening Newspapers—One in New York; one in Pennsylvania; one in Ohio; one in Indiana; one in Illinois, and one in Florida. All occupying exclusive fields and earning dividends warranting the price asked. J. B. Shale, Times Building, New York.

Newspapers For Sale

Daily Newspaper for Sale; to settle estate. 18,000 circulation and growing, in Middle West. Well equipped plant. Rare opportunity. Address A-970, Editor & Publisher.

Daily—Half or whole interest in Pacific Coast daily for sale to capable newspaper-man. Fine property making money. Address A-976, Editor & Publisher.

Newspapers Wanted

Evening Daily—Wanted to buy controlling interest in small daily evening newspaper, preferably in Middle West. Box A-959, Editor & Publisher.

The Publisher and his executives read EDITOR & PUBLISHER. This page never loses its interest for them.

CIRCULATION

Promotion

Circulation—When quick, additional circulation coverage becomes necessary, remember that our twenty years in this one line of endeavor is your proof against experimenting. Write or wire Pacific Coast Circulation Service, Bell Block, Cincinnati, Ohio.

EDITORIAL

Syndicate Features

Weird Words from the West—New feature for daily and weekly publications. 50c per column. Not profound. But occasionally sparkling. It's homespun philosophy and comment on every subject. Doesn't take itself too seriously. Sometimes tart, sometimes ridiculous, but always intriguing. Going over big in Middle West. Couched in plain, blunt language of the plains. Might make easterners sit up and take notice. Written by Carl Brown, writer of "Globe Sights" and "Snort Column" in Atchison, Kans., Daily Globe. Samples on request. Brown-Martin Syndicate, 524 Q street, Atchison, Kans.

EMPLOYMENT

Help Wanted

Assistant Circulation Manager—Wanted: Young man; must be ambitious and willing to work. Opportunity for immediate advancement to position as circulation manager. Previous experience necessary. Position offers unusual training and fine prospects. City of 20,000, circulation 4,000. Give full details and salary expected. Webster Evening Times, Webster, Mass.

Advertising Salesman, experienced, wanted for a Metropolitan newspaper. One capable of developing business through promotion and merchandising experience. A-960, Editor & Publisher.

Business Manager wanted at once, with real experience, for daily newspaper in the East. Must have had advertising and circulation experience. Splendid opportunity if successful. Address A-977, Editor & Publisher.

Business Manager—A morning paper in a midwest city with a population of 80,000 desires contact with a capable, experienced business manager. The man desired must be thoroughly conversant with the business affairs of a newspaper and at the same time have had sufficient advertising experience to be able to conduct advertising if necessary. He will head the advertising department and his advertising experience must be such as to enable him to direct his men. The salary is liberal enough to attract capable, experienced men; the position is prominent and offers opportunities to the right man in the way of salary increases. Address with a record of your experience and your references to A-975, Editor & Publisher, New York City.

Circulation Manager—During the last six years we have placed a large number of former newspaper circulation managers in lucrative managerial positions in our large national circulation organization. The progress in the expansion of this organization enables us to place additional capable men from time to time. We prefer men over the age of 30 and those who have had not less than five years' experience in the hiring and training of house to house canvassers. To such men, who have the ability and good character required, we offer the opportunity for a permanent location with an assured good income. Answer with full particulars regarding yourself. Ernest A. Scholz, Circulation Director, Butterick Publishing Company, Butterick Building, New York City.

Combination Pressman and Stereotyper wanted, for Goss Comet Flat Bed. Will pay $35 per week to start. Best working conditions. Address C. L. Atwood care The Morning Call, Key West, Florida.

Combination Machinist and Proofreader wanted. Four machine plant. Models nine, fourteen, three and nineteen. A-967, Editor & Publisher.

Reporter—Desk Man—I want a young man for a position on a morning newspaper in the middle west. Must be a good reporter, fairly good desk man, steady, with some idea of responsibility and some ambition to pep up and develop and improve a newspaper. There is a good steady position for such a fellow if he will win his spurs by hard work, loyalty to the organization and attention to detail. He will work into a job by degrees, and a knowledge of basketball and other sports will help him at the outset. His salary will never be over $50.00 for the next three years at the top. It will start from $32.00 to $37.00. Address A-980, Editor & Publisher.

EMPLOYMENT

Help Wanted

Positions Now Open—Artists; Photoengravers; Camera Men; Zinc Etcher; Pressmen; Stereotyper; Advertising, Editorial and Circulation Men. Publishers' Placement Service, Seitz Bldg., Syracuse, N. Y.

Rewrite and Copy Reader, wanted by afternoon daily. Must be 24-25 years old, good personality, not afraid of work. Good community, fine working conditions. $40. Particulars first letter. A-978, Editor & Publisher.

Stereotyper, union, wanted immediately. Scale forty-three dollars and overtime. Wire or write Jacksonville Journal, Jacksonville, Fla.

Syndicate Salesmen—High-class, alert men in every territory to handle complete line new features on liberal commission. Opportunity to build good permanent income through connection with long-established publishers now entering newspaper field. Answer fully, experience, references. A-965, Editor & Publisher.

Operators and Printers, experienced, wanted for daily morning paper. Union shop with best working conditions. Address The Morning Call, Key West, Florida.

Situations Wanted

Accountant—College graduate, Christian, 34, now employed in executive capacity; thorough knowledge of newspaper accounting. Has instituted system for prominent newspaper. Seeking connection with newspaper or periodical. Highest references. A-983, Editor & Publisher.

Advertising Manager—Assistant.—Eleven years' experience, executive, solicitor, copy writer. Splendid record. Aggressive. Five years present position. Age 32. Married. Seek connection with daily offering permanency and future. A-968, Editor & Publisher.

Advertising Manager, thoroughly trained newspaper executive; on present work has increased linage 75 percent on a 20 percent production cost. Specialist developing readers' interest and general promotion. Field analyst and merchandiser on local and national. Endorsement by present metropolitan publisher; American; protestant; forty years old; married. A-986, Editor & Publisher.

Business Executive—A competent $10,000 executive contemplates change for more desirable opportunity after January 1st. Under forty, thoroughly experienced. Morning, Evening, Sunday. Gaining this year at rate of $200,000 per annum as compared with 1922 on evening in community of 100,000. Will consider reasonable proposition. Salary and bonus or profit-sharing basis preferred. I thrive on difficult tasks and opportunity. Address Box A-976, Editor & Publisher.

Cartoonist, art Director, Feature Illustrator. Front page topics. Humorous illustrated current columnist and sports. Also commercial art experience. Available after 20th. A-973, Editor & Publisher.

City Circulation Manager with 5 years' experience on metropolitan newspaper wants position. Can show good record in a very competitive field. Knows promotion, distribution and A. B. C. records. A-974, Editor & Publisher.

Circulation Manager or will accept offer as city or country circulator. References from past employers direct to you will prove honesty, ability and successful record. Years of varied experience from bottom to circulation manager with Scripps-Howard and Clover-Leaf Group; Independent papers and manager publishing office. Age 39. Member I. C. M. A. Wire or write. Will talk terms, long distance. C. M. Platzer, Hotel Armistead, Baltimore, Md.

Composing Room Foreman or Superintendent is available to publishers willing to pay commensurate with results obtained. A-963, Editor & Publisher.

Classified Advertising Manager, thoroughly experienced, desires position offering better chance for advancement. Writes good promotional copy, directs and develops sales of contracts, multiple ads and white space. Understands training of counter clerks and telephone operators. Familiar with bookkeeping systems and detail work. A loyal, hard worker who is qualified to take charge of classified department on large newspaper. Neat appearing, clean habits, college education, age 28. Past record as steady and consistent producer. Best references. A-979, Editor & Publisher.

Desk or Street—Wide experience both large and small papers. Good on make up. Seek desirable connection in Texas or Southwest. A-984, Editor & Publisher.

GOSSIP CASE STILL HOT

Citizens Back Covington Post Editor in November Election

The arrest last July of Bruce I. Susong, editor of the *Kentucky Post*, a Scripps-Howard newspaper on a charge of violating the state's "gossip" law, in the printing of facts concerning the finances of the city of Covington, is still attracting attention in Kentucky.

In October in the city primaries, Judge L. L. Manson who found the editor guilty and fined him $15, a sum not appealable in Kentucky, was defeated at the polls, running a bad fourth in a five cornered race and the brother of the mayor seeking to be one of the eight nominees for city commissioner was overwhelmingly defeated.

In the November elections the city administration which for two years had been controlled by Mayor Daniel O'Donovan, with two other votes in a commission of five, went down to defeat when one of the two supporters of the mayor finished sixth among eight nominees, and the man supported by the Post polled more votes than had ever been polled by a candidate in Covington before.

But while the people in two successive elections have practically driven out of office, those who participated in the gossip case, the courts continue to balk the effort of the editor to get legal justice.

Judge M. L. Harbeson of the Kenton-Circuit court has just refused to review the case. However, the way has been paved for the case to be carried to the court of appeals, and this step is to be taken at once.

The $15 fine has not been paid, a stay of execution having been issued pending further court action, and the case is being fought out to the limit to protect newspapers of the future in their right to print the news.

ONE DOLLAR WILL BE PAID FOR EACH IDEA PUBLISHED

BUSINESS TICKLERS

CANVASS some of your larger industrial firms and business houses and as certain what make of typewriter is in predominent use. You can make this the basis of an ad series by the local agency for that machine.—B. A. T.

The heading, "Special Christmas Offers" on the classified page early in December allows many small advertisers to get their messages before the public at low cost.—Fremont Kutnewsky.

Credit losses mean a great deal to many merchants and a series of well written advertisements on "KEEP YOUR CREDIT GOOD" can be sold cooperatively or to the credit association. They should be run just before the first of the month.—Donald O. Ross, *Washington* (Ia.) *Democrat.*

Instead of having the society editor call the same list of persons have her vary it and call 10 or 12 non-subscribers each day. We tried it and not only added new names to our news columns but also added many new subscribers.—Thora Eigenmann, Bloomington, Ind.

Out of his diamond-lore, every dealer in diamonds can give a write-up man material for a highly interesting series of three or four articles on the difference between the many different grades of diamonds, methods of cutting and polishing that add or detract from their value, flaws and their detection, etc. These articles run in the center of a group of ads by the reputable jewelers of your town, are certain attention-getters and make the sale of the page easy, as they reflect prestige and honesty on the advertisers. Now is the time.—M. S. M., Denver.

The *San Antonio Express* recently ran two entire double center pages of bank statements under the last call of the Treasury Department with a double page spread head, using the left-over spaces for bank advertisements. The results were a fine showing for the city and for the banks, and incidentally nice linage for the Express.—W. H. M., Austin, Texas.

On one of the first of the real cold fall days send a reporter to linger around the mitten and heavy underwear counters in department stores. Observations as Mother buys articles for the entire family will add color to the otherwise routine weather story of the day.—E. H. Derby, Greensburg, Pa.

"NEW RADIO SETS AT $50 AND UNDER."

That sort of a heading in your paper would attract a lot of attention. Put that heading on a page and then solicit advertising from local radio concerns that are handling such low priced sets.—Frank H. Williams.

Under the caption: "Service Stations" the *Monrovia* (Cal.) *Daily News* ran a page of advertisements around the service idea. Cuts were used in the ads which called attention to the stores specializing in service.—Harold J. Ashe.

"The Most Interesting Christmas Gift I Ever Received" would be a stimulating theme for a column to run early in the fall. It would help bring on the holiday spirit in good time, and be a spur to early advertising.—Fremont Kutnewsky.

INDIANA A.P. REELECTS HORST

Ed Fehn of Evansville Courier-Journal Named Vice-President

R. H. Horst, managing editor of the *South Bend Tribune,* was re-elected president of the Indiana Associated Press Editors' Association at the recent annual meeting in Indianapolis. Ed. J. Fehn, managing director of the *Evansville Courier-Journal,* was chosen vice-president, and G. D. Seymour, Indianapolis correspondent of the A. P., was named secretary-treasurer. Fred A. Miller, publisher of the South Bend Tribune, was named Indiana representative on the central division advisory board.

Kent Cooper, general manager of the A. P., attended the meeting. He is a native of Indiana and this is his first visit to the state since his elevation to his present office.

Resolutions on the death of John L. Stuart, for nine years Indiana correspondent, who died early last summer, and Charles G. Sefrit, pioneer publisher of the *Washington* (Ind.) *Herald,* were adopted and copies were sent to the families of both men.

HUNCHES

ONE DOLLAR WILL BE PAID FOR EACH "HUNCH" PUBLISHED

Many people say that the fellow or girl who in business does a bit more than they are paid to do and who is always willing to work and see the job through is the one to get ahead. Some people, however, tell you from their own experience that such people are always taken advantage of and never get the reward that they expect. Interview men and women in your city and find out what has been their experience. Names would probably have to be left out but the story will have genuine reader interest.—R. R. Voorhees.

"Would You Marry Your Husband Again?" is a subject that was thoroughly expounded by the women readers of *Capper's Weekly,* Topeka, Kan. While these letters were all writen by women the subject was of such a nature that men "just couldn't keep from reading them."—B. F. Clark, Hutchinson, Kan.

What would happen if the police were to enforce all the ancient and unrepealed "blue laws" on your city statute books? A study of the ancient laws in most instances will show that enforcement of them now would probably wreck business and cause tremendous protest in modern cities.—E. V. R.

Who is the best paid official in your state? One newspaper conducted an investigation and found that there were many anomalies in the public payroll. For instance, the governor was the third highest paid official while the president of the state university received the highest salary. Various public officials were then listed with their salaries.—A. L. F., St. Louis.

Christmas will be rolling around very shortly. The plants have turned out a lot of new toys and novelties for this season. Tell the boys and girls about them now so they can get their in to Santa Claus early.—B. A. T.

Have the auto and the porch forced the hammock manufacturers business? A few years ago every had to have a hammock during the mer months—now you seldom see Interview retailers who handle the did formerly and find out how sales dropped off and to what they attribu slump.—Bruce Cole.

Marble Heads Kansas A.P. Meml

George W. Marble, editor of th *Scott* (Kan.) *Tribune-Monitor,* wa elected president of the Kansas Ass ed Press members at the annual me in Kansas City. R. A. Harris, e owner of the *Ottawa Herald* was n vice-president; R. H. Heppe, K City, A. P. correspondent, secre treasurer; and Hugh J. Powell, *C ville Journal,* member of the Ce Division Advisory Board.

Advertise In Pennsylvania For Results

Pennsylvania with immense manufacturing, mining, agricultural and financial interests, with trade sufficiently diversified to warrant attractive advantages to National Advertisers, is a merchandising and sales promotion territory worthy of intensive cultivation.

Commercially a leader, and leading in individual wealth, this great commonwealth is becoming richer and richer in prospects.

In this market of unusual trade advantages the local daily newspapers offer marketing and territorial information that are of great value and assistance to National Advertisers in the sales promotion of their merchandise.

The local merchants, alert to the interest of their clientele and to their own personal trade advantage will, by responding to consumer demand, cooperate in the distribution of products that are persistently advertised.

The market is here, in Pennsylvania, the merchants are ready to stock up on your merchandise and the daily newspapers will carry your message into the home of the consumer in the urban, suburban and rural districts.

These Daily Newspapers Offer Exceptional Cooperative Service

THE SPORTING GOODS
By WESTBROOK PEGLER

JOURNALISM LIBRARY
Not to be taken from this roo

WHEN the football season is over, it might be a useful idea to trot out a few conspicuous bull-baiters among the faculty, under-grads, and alumni of some schools and run a few plays over them with the full varsity.

WESTBROOK PEGLER.

In the seizure of a wild desire for victory, a professor at the University of Chicago insulted the Maroon squad in public just before the Illinois game. He called them "ladies."

A piece in the papers reports that when the Harvard team entrained for Princeton and another licking, there were scarcely enough rooters present to man the stations of a four-part song.

The Maroons had been beaten precisely once in two seasons up to that time, but that makes no difference. They were the varsity of their school, and if they had any insults coming, their coach, A. A. Stagg, could have attended to the matter. That's one of the things a coach is paid for, and football men who have served under Stagg assert that he has great gifts and a soft, sour manner for these duties.

———o-o-o———

LAUGHING IT OFF

When I read a certain portion of the papers,
And discover that a million is the price
For a single demonstration
Of the art of mutilation,
The sentiments I feel are not so nice.

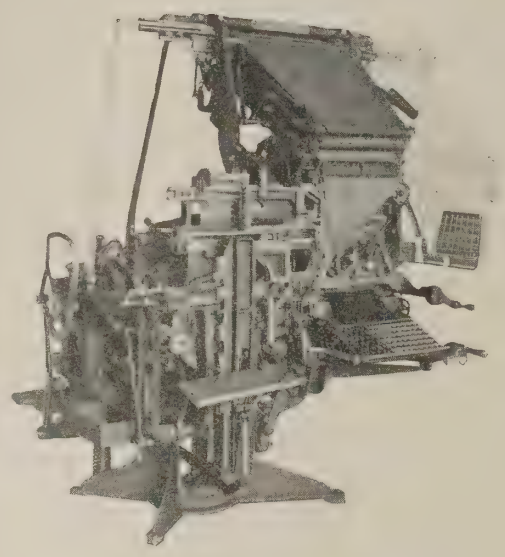
Full of indignation, anger and resentment,
I prepare to write an essay rough and cross;
But my wrath is temporary,
For I apprehend that very
Likely this is what is known as applesauce.

I suspect that much of what we see presented
Concerning Mr. Dempsey and his plans—
If the truth were but reported—
Is, to say the least, distorted,
And intended for the pleasure of the fans.

So I try to take my reading with a giggle
And control the urge to holler, boo and hiss.
After all, the guy is skidding
And his chatter's idle kidding,
And, as maybe you've suspected, so is this.

Westbrook Pegler is now writing for The Chicago Tribune

WESTBROOK PEGLER, formerly of United News Service, is now writing for The Chicago Tribune. His humorous articles on sporting events and sports characters have made him one of the most widely read sport writers in the east. He is familiar with all popular forms of American sport from baseball to six-day bike racing and roque. He can even write an absorbing report of a chess tournament. His wide acquaintanceship among sportdom's elite gives him abundant material for feature articles.



It is these feature articles that are being syndicated in the form of a weekly letter entitled "The Sporting Goods." Westbrook Pegler's stuff is funny, authoritative and contains that much-sought-for quality, human interest.

* * * *

Your sporting department is a very important part of your paper and by adding Westbrook Pegler to your staff you can immeasurably increase circulation and prestige.

In New York

First
in advertising gains

Second
in total advertising lineage

In October, 1925, the New York Herald Tribune gained 377,738 lines of advertising over October, 1924—*a greater gain than any other New York morning or evening newspaper.*

The Herald Tribune's total advertising lineage for October, 1925, was 1,774,878 agate lines, which volume was exceeded by but one New York newspaper, thereby placing the Herald Tribune *second* in total volume of advertising.

IN LOCAL DISPLAY ADVERTISING the Herald Tribune carried 1,146,130 lines *and led the field in gains* with 176,910 lines.

IN NATIONAL ADVERTISING the Herald Tribune carried 459,632 lines and *led the field in gains* with 183,454 lines.

IN AUTOMOBILE ADVERTISING for the first ten months of 1925 the Herald Tribune with 747,808 lines gained 252,534 lines—a greater gain than *all* other New York morning newspapers *combined*, and more than *all* New York evening newspapers *combined*.

And this is the reason — For the six months ending September 30, 1925, the Herald Tribune was the only morning newspaper of standard size in New York to show a circulation gain as compared with the same period of 1924.

New York Herald Tribune

AMERICA'S COMPLETE NEWSPAPER

Selling Confectionery IN PHILADELPHIA

Philadelphia, having the third largest population in the United States, is naturally a very important market for the manufacturing confectioner.

Advertised brands of chocolate, candies and other confections have first call in the 2033 retail and wholesale confectionery shops of "the city of homes," and the alert manufacturer who wants to increase his business will find here attractive possibilities.

Telling all the Philadelphia public about your confectionery is easy if you will use the newspaper that goes into nearly every home in Philadelphia, Camden and their vicinity—THE BULLETIN.

Send for a free copy of THE BULLETIN ROUTE LIST OF CONFECTIONERY SHOPS IN PHILADELPHIA AND CAMDEN. It will be of great help to your salesmen when calling on the trade.

DOMINATE PHILADELPHIA

Create maximum impression at one cost by concentrating in the newspaper "nearly everybody" reads—

The Evening Bulletin.

PHILADELPHIA'S NEWSPAPER

"In Philadelphia nearly everybody reads The Bulletin"

520,072 Copies a Day

Average daily net paid circulation for the six months ending September 30, 1925.

The circulation of the Philadelphia Bulletin is the largest in Philadelphia and is one of the largest in the United States.

Free Publicity System Is Denounced by Studebaker Corporation Chief

In Clear, Cold Business Terms Erskine Lays Wasteful Practise at Publishers' Door—Studebaker Will Not Discriminate Against Any Newspaper That Discards All Press Agent Material

By MARLEN PEW

A SMASHING blow was struck this week against uneconomic, inequitable, distorted industrial "free publicity" which has developed into the leading destructive force in the newspaper and advertising business of the United States.

The new champion of the clean newspaper and sound advertising practice is Albert R. Erskine, president of the huge Studebaker Corporation.

This clear-sighted business man on Nov. 13, broadcast to leading newspaper publishers a letter on the subject of "free publicity" which is the most enlightened document that EDITOR & PUBLISHER has encountered in its long campaign against the press agent evil.

The letter was designed to inform newspaper publishers that one great advertiser, investing more than two million dollars per annum in the newspaper press of the United States, does not approve of harum-scarum publicity methods that sections of the American press are not only tolerating but encouraging. He denounces the confusion that has resulted from irresponsible press agent activity. His company will not discriminate against any newspaper that eliminates free publicity entirely, but any paper that gives disproportionate free space to the rivals of Studebaker will lose Studebaker advertising. The gaunlet is thrown down in these terms, and Mr. Erskine says: "We are as much opposed to free publicity as any editor. It is wasteful from the standpoint of the advertiser as well as the publisher.

Mr. Erskine speaks for himself so clearly that his letter needs no interpretation here. His circular communication, dated at South Bend, Ind., which EDITOR & PUBLISHER is privileged to reproduce, follows.

"As the publisher of a newspaper, you have doubtless read, listened to, and possibly been the author of, denunciations of the 'Free Publicity Evil.' In such discussions (among publishers, editors and advertising managers of newspapers) the automobile industry usually figures as chief culprit.

"This letter is to express the attitude of the Studebaker Corporation of America on this subject.

"Newspapers have done a splendid patriotic work in promoting good roads, improved traffic control, etc. Newspapers render great service to their readers by suggesting routes for pleasant tours, and by collecting and distributing road information. As long as this material is not associated with the boosting of any particular car, accessory, manufacturer, or dealer it is not 'free publicity.'

"At times, of course, there are items of real news connected with a business institution the size of Studebaker. These should find a place in the main news or financial section of every paper regardless of advertising schedules. But such genuine news can stand on its own feet with city editor and financial editor. It is not what we mean by 'free publicity.'

"'Free publicity' is the material which newspapers print about automobiles, accessories, dealers, factory officials, only because it is sent to them by the advertising department of an automotive advertiser. It is designed merely to get the name of an automobile, a man, or an accessory in the news columns.

"We are as much opposed to 'free publicity' as any editor. We consider it an evil and would be glad to see it eliminated. There is no more reason why you should print pictures of automobiles than of pianos and washing machines. Gossip of the automotive trade is no more entitled to space than gossip of the department stores.

"The practice of giving free publicity along with automobile advertising has been instrumental in increasing the rates for automobile advertising without proportionate return. It seems to us wasteful from the standpoint of advertiser as well as publisher.

"Therefore, we assure you that we shall not discriminate against any newspaper which eliminates free publicity entirely, but we do intend to insist more strictly than ever on receiving our full share of free publicity in those newspapers which give it.

"We do not believe that any automotive advertiser places such a large proportion of his total appropriation in newspapers as does Studebaker—last year exceeding 90 per cent. We are surely entitled to a square deal from newspapers. We are not receiving a square deal if competitors who buy a similar amount of advertising space are given a larger volume of space in the news columns.

"We, therefore, intend in the future to check this matter carefully and to discriminate against those papers which are discriminating against us.

"In other words, we are quite content to receive no free publicity whatever, if all competitors are treated in the same manner; but if publicity is being used we believe that no competitor should receive a line more than Studebaker, except as he uses more advertising space.

"Very truly yours,
"A. R. Erskine,
"President."

Manifestly this forward-looking attitude of the Studebaker Corporation puts the publicity evil strictly on the doorstep of the newspaper publishers of the United States where EDITOR & PUBLISHER has long maintained it belongs.

From the outside the journalistic industry is told to clean up its own household.

President Erskine is merely representative of many intelligent business men, in control of America's greatest industries, who discountenance uneconomic practises in any industry and naturally revolt at participation in the press agent orgy which has so distorted both advertising and editorial functions as to menace the whole structure of the press. But President Erskine is the first of the Captains of Industry to proclaim so clearly his convictions and indicate to newspaper publishers a disposition to cooperate in a clean-up.

Following the news that the circular letter had been sent to publishers across the country EDITOR & PUBLISHER, through R. H. Horst, managing editor of the *South Bend Tribune*, Wednesday obtained from President Erskine an interview in amplification of his letter. He said:

"Newspaper advertising constitutes one of the major expenditures of the Studebaker Corporation of America. We pay more than two million dollars a year for space in American newspapers, not to mention our regular schedules in Amsterdam, Bagdad, Buenos Aires, Cape Town, Shanghai, Tokio, etc.

"Naturally, we are interested in buying advertising in the same scientific, business-like-way that we buy alloy steel, mohair or plate glass.

"Every expense of the Corporation must be paid by the ultimate purchasers of Studebaker cars. Therefore, we must get the utmost value for every dollar we spend in order to maintain high quality at reasonable prices.

"We can no more afford waste in our advertising appropriation than we can afford to pay double the market price for white ash or to pay the market price and receive inferior quality or a deficiency in quantity.

"There are characteristics inherent in advertising space and particularly in newspaper space which make the task of business-like purchasing most difficult. We cannot weigh it and test it as we do other commodities. It is essentially different in each community and in each newspaper. Even in the same paper it varies with daily and Sunday issues.

"At best, this is a difficult, complex problem. It is needlessly complicated by the practice of giving the advertiser an indefinite bonus or rebate in the form of free publicity.

"It is usually the weaker paper, of course, that offers the most free publicity. But the weaker paper may be well worth using if the rate is low enough.

"But when rates are cut by giving free publicity it is difficult to determine what the net rate actually is. From the standpoint of a business man looking at the newspaper business from the outside, it would seem that more space could be sold and more profit made by the publisher if he would cut out the free publicity bonus and make the reduction in his card rates.

"Let me take a parallel instance from the automotive field.

"You are about to buy a new car and wish to trade in your old one on it. The old car has an actual market value of $500. If you advertised it, spent considerable time interviewing prospects and

A SHOW-DOWN ON PRESS AGENT ORGY

HERE is one great American advertiser, employing $2,000,000 of newspaper space per annum, who has no illusions regarding the press agent evil. It is wasteful, uneconomic, unfair, unjust and its abuses fall equally upon newspaper and advertiser.

ALBERT R. ERSKINE

President Erskine's action calls for a show-down! It is a challenge to publishers who encourage practices which not only distort the whole scheme of space selling, but grossly impose on the reading public and make editorial responsibility farcical.

Reputable business in America does not expect or respect destructive advertising methods. Hundreds of high executives of industries are totally ignorant of crimes committed in their names by irresponsible press agents.

Responsibility for the condition is chargeable, not to industry, but to newspaper and advertising men who countenance free publicity and yield to the wiles of the here-today-and-gone-tomorrow press agent.

The ringing rebuke of the president of the Studebaker Corporation is: Clean house! No newspaper will be discriminated against for this sane and honorable course. Untangle advertising rate systems and bring this great industry out into the light of the ordinary equitable terms of commodity trading. Do business with equal justice to all advertising customers.

EDITOR & PUBLISHER, in behalf of the rank and file of newspaper and advertising men, applauds the sentiment and hails the sign of a new order.

agreed to take $200 down and notes for the balance you could probably obtain $500.

"You take the car to a Studebaker dealer and he offers to buy it from you for $450. If you buy a new Studebaker. He expects to sell it for $500, but it will cost him $50 to do so.

"You take your automobile to a dealer who sells an assembled make of car, less economically made than Studebaker, higher priced, carrying a higher discount to the dealer, and you are offered $1,000 for your old machine.

"How can they do it? They can't possibly get more than $500 for your car and it will cost them rent, overhead, advertising and salesman commission. How can they allow you $1,000?

"Only by placing an excessive price on their new car in the first place can the excessive price be paid for the old car.

"The excessive differential between local rates and automobile rates, which some newspapers demand, is a matter which I need not go into at this time, except to point out that it merits serious consideration from publishers who wish to build their business on the sound foundation of equitable treatment of customers. That this differential is often unjust, illogical, unfair, could easily be demonstrated to any impartial judge, jury or arbitrator.

"Since the high rates charged for automobile advertising are frequently defended as necessary to compensate for the space wasted in free publicity Studebaker has pointed out that this waste is entirely in the control of publishers.

"For years, Studebaker sent out publicity because it was the customary routine in the industry, but made no effort to see that it was used. We have been forced to a new attitude by the large volume of free space given to others who buy less advertising . This means that in certain papers we are buying the largest amount of space and paying the highest rate.

"Studebaker will not discriminate against any newspaper which eliminates free publicity entirely, but we shall check all publicity carefully in the future and withdraw our advertising from papers which discriminate against us by giving more publicity to competitors who use less space.

"We believe that free publicity should be eliminated. It results in a different rate for every advertiser, a rate dependent not upon the volume or continuity of his advertising but upon the skill of competitors, press agents, the whim of automobile editors, or the urgency of his dealers in badgering newspapers for stories.

"Surely, publishers should find this an unsatisfactory basis for selling their product, which is at best intangible.

"Certainly, it makes needlessly difficult the wise expenditure of money for newspaper advertising."

Senator Copeland Sells His Paper

Senator Royal S. Copeland, former New York City Health Commissioner, announced in an edition of the *Nyack* (N. Y.) *Daily News,* which he purchased a year ago, that he had turned over the controlling interest in the paper to John W. Martin, advertising manager. Mr. Martin is a native of the Senator's home town, Grand Rapids, Mich.

WELLIVER WITH OIL CONCERN

Washington Writer Joins American Petroleum Institute

Judson Welliver, newspaper and magazine writer, has stepped from the White House, where he had been in charge of the Bureau of Information since he was appointed to the position by President Harding, to the office of director of public relations for the American Petroleum Institute.

In the latter part of 1916, he went to Europe as European manager and London correspondent for the *New York Sun,* remaining there a year and a half.

Returning to Washington, he resumed newspaper work until he was drafted in the campaign of 1920. He was an aide to Harding, following the latter's nomination.

HOWARD SEES TOKIO ARMS PARLEY A STEP TOWARD WORLD PEACE

Theater of World Affairs Will Move to Pacific, Says Scripps-Howard Chief on Return from Three Months in Orient—Discusses Problems of Far East

(*By Telegraph to* Editor & Publisher)

SAN FRANCISCO, Cal., Nov. 18.—Roy W. Howard, chairman of the board of the Scripps-Howard Newspapers, arrived here from a three months' trip through the Far East enthusiastic over a new idea for world peace.

It is that the next disarmament conference, broached as an American venture, should be held in the capital of Japan. Mr. Howard sees a shifting of the center of world interest from the Atlantic to the Pacific Ocean. With the moving of three-quarters of the American fleet to the Pacific the machinery of peace should be moved hither also, he says.

"The theater of world affairs and world interest will be along the China coast and throughout the Far East in the next generation," Mr. Howard said, on his arrival from the Orient.

"If a conference is to be held as has been indicated, it should be held in Tokio. From conversations I have had with prominent Japanese statesmen and business men, such a conference would be more than welcome. The only possible drawback I could see would be the lack of hotel accommodations in Tokio, a situation that could be met by opening up some of the palaces to the visitors, or by holding it at one of the big summer resorts."

Mr. Howard believes that such a conference would not only do much toward preventing an armament race between the two strong nations on the Pacific but it would open up a new world, a world practically unknown to the newspaper reading public of America.

"We are densely ignorant of what is transpiring in the Far East," he said. "For instance war between the United States and Japan is, in many person's minds, a remote possibility. I am satisfied that this is the last thing Japan wants. There is a possibility that Japan might go to war with a powerful neighbor to protect her trade with the United States—but not to destroy it. War with

Roy W. Howard
Photographed at Tokio

the United States would not only spell the difference between prosperity and poverty for Japan, it would spell economic ruin for Japan.

"The great bulk of Japan's export trade is silk, and I am told that about 80 per cent of this silk trade is with the United States. There is only one possibility of war as I see it and, while remote, this is strong enough to justify our continued attention to coast defences. Russia is turning towards Asia, not towards mid-Europe. If Bolshevism took possession of any great part of China, as is possible, Japan might be its next objective. In that case, Japan might seek an external war to prevent radical revolution within. At present there is considerable radicalism in Japan among the unions. This is not to be confused, however, with the Bolshevism that the rulers of her empire fear.

Japan's present attitude toward America is better than in years but the Japanese were and are bewildered by the recent American Exclusion Act. Every Japanese politician and business man is a propagandist against the Act—not because it excludes Japanese immigration, but because of the manner in which it accomplishes that end. I expected to find rancor. Instead I found bewilderment over the fact that the great United States should have found it necessary to legislate against Japanese as a nation and a race when the same results could have been accomplished otherwise.

"The Oriental civilization stresses what we call 'a saving of face' above anything. It is in fact a high sense of honor. They feel that they have been humiliated before the world. They have 'lost face.'

"As to war, with the exception of a few jingo papers of no standing with the government or ruling classes, Japanese are, in my judgment, as strongly disinclined toward hostilities as we are."

Mr. Howard sees a need in the Orient of better wire news facilities, more high type American news writers and a better machinery for interpreting the teeming nations of the Far East to the United States. These ends would be given big impetus by a conference at Tokio, he said just as they have been enhanced by the recent Pacific Relations Conference at Honolulu.

"Nothing is going to stop the American economic invasion of the East," he said. "We are in to stay. Each year sees with better American steamship lines, new trade possibilities open between the United States and China, Japan, and other Oriental nations. For instance, American automobiles are seen all over the Far East. With such expansion mapped by destiny for us, we should know more about what is going on in China.

"Most Americans have a feeling that the so-called uni-lateral treaties should be abrogated. Yet a close-up of China opens a serious question whether it would be advisable at this time.

"A prominent Chinese politician of the highest type told me that to abolish extra territoriality now would plunge China into chaos. China is a republic only in name. It is a loosely conferedated nation of little principalities ruled over by a group of powerful military despots who exercise absolute dictatorship.

"But China is changing rapidly and may soon become a nation of newspaper readers. Just as it is essential that we should understand China better, it is essential that they should understand us."

Mr. Howard found the Chinese much more friendly toward the United States than toward Great Britain. The British work in close cooperation with Reuters, which news agency has a practical monopoly on the Chinese coast. The Chinese newspapers in Shanghai and Pekin want world news through channels that are independent of British bias.

Mr. Howard brought another definite impression as to the future of the Philippines. This is that for Uncle Sam to "pull out" now would jeopardize the good already accomplished and almost certainly subject the Islands to aggression from less benevolent hands.

Congress, he said, at its coming session, definitely should declare this nation's policy toward the Philippine Islands, to end the present uncertainty.

The most influential of the Island leaders, he asserted, are agreed that the immediate exodus of America would be highly undesirable to both native and foreign business interests alike. They place the period in which this nation might safely leave at about eight years.

From the viewpoint of an American newspaper publisher, Mr. Howard was impressed particularly with the Manila newspapers, which, he said were the best in the Orient for news content.

During his trip Mr. Howard covered a vast range of territory. Accompanied by Mrs. Howard, he left Victoria only three months ago. By boat, auto and train he visited all the leading Japanese and Corean cities, Mukden, Harbin, Pekin, Shanghai, Honkong, Manila and Honolulu.

FORD MOTOR POLICY DOES NOT FIX ADVERTISING BY PRESS AGENT STANDARD

A LETTER written by Snyder Atwell, of the advertising department of the Ford Motor Company at Dallas, Tex., reproduced in facsimile in EDITOR & PUBLISHER, Nov. 7, drew a gratifying response this week from George W. Cushing, secretary of McKinney, Marsh & Cushing, of Detroit.

EDITOR & PUBLISHER readers will learn from this authoritative source that Mr. Atwell did not act in the Ford policy when he suggested that a record he is keeping of free publicity published in the press concerning Mr. Ford and his enterprises had "a wonderful bearing in the preparing of our schedule contracts for the coming year."

On Sept. 19 EDITOR & PUBLISHER called attention to a letter J. J. Callan, a Ford advertising man at Milwaukee, had broadcast among editors in his sales district, which was almost identical with that sent out to Texas editors by Mr. Atwell. At that time EDITOR & PUBLISHER said editorially: "We are inclined to believe that a minor official in the Ford concern has blundered and that if the matter were brought to the attention of Mr. Ford he would end the practice."

This appears to be the exact fact. In a letter to EDITOR & PUBLISHER this week Mr. Cushing said:

"I am writing you today after reading a story that appeared in your Nov. 7 issue pertaining to a letter written by the advertising man at the Ford Motor Company branch in Dallas.

"We all agree with you that this letter should not have been written, and such practices are not condoned by the advertising department at the main office.

"I wish, however, that you could have brought the matter to our attention or at least to the attention of the Ford Motor Company in Detroit before broadcasting it as you did, particularly in view of the references made to the car as a 'Lizzie,' etc.

"I think you appreciate that the Ford Motor Company, last year spent nearly $3,000,000 in newspapers and while such a letter should never have been written, one does get out occasionally from an over-enthusiastic man in the territory.

"I want to assure you that we know there is no attempt on the part of the Ford Motor Company or anyone here in Detroit connected with its advertising policies to use any club over any publisher to get publicity."

NEWSPAPER RATES STUDIED AT A. N. A. MEET

dvertisers Hear Answer to Question of "Rate Differential"—Resolution Passed Urging Co-operation With A.N.P.A. for Readjustment—Hall, New President

By PHILIP SCHUYLER

EWSPAPER advertising rates came up for close study at the annual con-ntion of the Association of National dvertisers held in Washington at the ayflower Hotel, Nov. 16-18.

In two resolutions passed at the clos-g session Wednesday the convention nt on record as "unalterably opposed" combined morning and evening rates ld as a single unit, and in favor of con-nued co-operation by A. N. A. directors th the American Newspaper Publishers sociation and the American Association Advertising Agencies, looking towards linging about what the advertisers allege ould be "a more logical and equitable wspaper advertising rate structure to e end that this medium may be utilized national advertisers in a larger meas-e as a factor in more economical selling d distribution."

The latter resolution was aimed, dele-tes said, at the so-called differential ex-ing between local and foreign rates. g advertisers want department store vantages.

But newspaper men invited to present ir case to the nearly 200 delegates at-nding insisted that newspaper rates re not exhorbitant, that the differential, here it existed, was fairly arrived at, d that it was not what is paid for ad-rtising but the results obtained which unted.

'Pit results against rates and you ad-rtisers will find the newspaper charges f advertising fair and not exhorbitant," n Seitz, *New York Evening World*, sd in an address prior to passage of the olution.

The high cost of obtaining and keeping tional advertising, because of agency nmissions, merchandising services and e expenses were held responsible for t higher cost to national advertisers for ice than the charge to local merchants Marcellus Murdock, *Wichita Beacon*, ther newspaper speaker.

For years these advertisers, who as an ociation represent a total advertising restment each year of $150,000,000 have od opposed to what they declared was wide a differential between local and eign newspaper advertising rates. Sur-vs they conducted showed, they said, t this differential varied from 200 per t to 15 per cent.

Presenting the newspaper view of the stion, Mr. Murdock said that in ac-lity in most cases no differential ex-d. He maintained that since the cost getting national business and holding twas so much greater than the cost of aining local business, the two were alized.

"Newspapers," he said, "are part and rcel of their communities. No two wspapers are alike, except in the funda-ntals of presenting news, of service to ir communities, and of making a fit for themselves. This fact accounts re than any other for any differences newspaper rates that exist."

Mr. Seitz began his speech with a de-nciation of the present advertising ncy system.

"The agency is now paid by the news-per or magazine and works for the ad-rtiser," he said. "We have no author-it over him and I don't know how much u have. The agency should be definitely rs or ours and should work for the ow who pays him."

The tendency of advertising agents to ise the purchase of space in the *Satur-y Evening Post* "largely for conven-ce and personal profit" was also cited an "alarming factor" by Mr. Seitz.

"In a recent number of the Saturday Evening Post I counted up $1,000,000 rth of advertising," he said. "If this unt had been distributed among the wspapers it would have brought won-erful results.

"The trouble is the agencies and ad-rtisers have made an idol of conven-

Edward T. Hall

ience, and as a result there are fewer organs of expression, fewer people of different minds. It is turning us into a lot of Ford cars. It is standardizing everything."

Mr. Seitz declared it makes no difference what is paid for advertising it is results that count, and named two factors upon which results hinged. These two were, he said, advertising copy and a closer study of the field by the advertiser, in order that he can choose the best media for his product.

"Advertising copy," he advised, "should not be a flow of fine literature, but rather a simple statement of fact, short and sensible, telling what the product is and where it can be obtained.

"The extravagance of modern advertising makes one shudder," he concluded.

On Tuesday afternoon five newspaper men were allowed the platform to talk about their medium, the reason for advertising rate differential, the good and bad of merchandising services, and results obtainable from correct use of space in the daily press. The story of the tabloid was also told.

These speakers were L. E. McGivena, *New York Daily News*, Don Bridge, *Indianapolis News*, J. Thomas Lyons, formerly of the *Baltimore Evening News*, Mr. Murdock, and Mr. Seitz.

While all advertising angles and media were given due consideration during the three-day convention, particular significance was attached to the newspaper session in view of the fact it evidenced continuation of the policy inaugurated by A. N. A. in 1924 of closer co-operation with other advertising interests. Last year the magazine men were allowed the privilege of answering attacks on alleged circulation duplication.

E. T. Hall, of Ralston Purina Company, St. Louis, who was elected president, gave promise that this "co-operation policy" was now firmly fixed as A. N. A. procedure.

"We should try," he declared in his acceptance speech, "to put our feet under the same table with other big advertising interests."

With their feet under the newspaper table, the advertisers heard in brief these following points.

1. National advertisers are not paying an exhorbitant price for newspaper advertising.

2. It is not what is paid for advertising, it is what advertising pays that counts, and newspaper advertising pays highly, if rightly employed.

3. There is actually no differential between local and foreign rates, when the costs of obtaining the latter and other purely local factors are taken into consideration.

4. Merchandising services are valuable to advertisers and newspapers alike when conservatively and intelligently conducted.

5. The tabloid newspaper has a definite place and fills a gap in other existing media because of its convenience, its brevity, its news pictures, and its special features.

First newspaper men to speak were in order Mr. McGivena and Mr. Bridge, whose talks are reported extensively elsewhere in this issue.

Newspaper merchandising service, if intelligently conducted, is of value to the national advertiser was the theme of the address made by Mr. Lyons.

Three main points of service he stressed were the introduction of new products; contact with wholesalers and jobbers; and shopping in retail stores to see if established lines are being given proper display.

"When the manufacturer of a new product desires to enter a town, the newspapers should be called upon to find out first whether or not the people will accept it," he said. "An advertiser would waste money by going into a town, where resistance is great.

"A good newspaper does not want an advertiser's business unless he is sure it will profit the advertiser. The merchandising department should see first if the repeat merit is there before accepting a new account."

While jobbers and wholesalers may be on the wane, Mr. Lyons contended they were still of such importance that they should receive considerable attention from the service men working on the newspaper for the advertiser.

"If copy isn't pulling on old established lines, the agency should be notified." he declared, and concluded by saying that newspapers had no right to work for one advertiser to the detriment of another.

In addition to president, the convention elected three vice-presidents, W. K. Burlen, New England Confectionery Company, Boston; S. E. Conybeare, Armstrong Cork Company, Lancaster, Pa.; and A. D. Welton, Continental and Commercial National Bank of Chicago.

Directors are: Carl Gazley, Yawman & Erbe Manufacturing Company; Bernard Lichtenberg, Alexander Hamilton Institute; E. E. A. Stone, Standard Oil Company of New Jersey; P. B. Zimmerman, National Lamp Works of the General Electric Company; W. A. Hart, E. I. du Pont de Nemour; and G. R. Dickinson, Hupp Motor Car Corporation.

Mr. Hall succeeds Carl J. Schumann, Hilo Varnish Corporation, who has been acting chief of the A. N. A. since the recent resignation of G. Lynn Sumner, formerly of the International Correspondence Schools.

Full text of resolutions passed at the meeting were:

WHEREAS, The Association of National Advertisers has found among newspapers no consistent practice in the establishment of rates as between local and national advertisers, be it

Resolved, that this convention recommend to the Association's Directors that they continue their efforts by and with the co-operation of the A. N. P. A., the A. A. A. A., and other organizations interested to bring about a more logical and equitable newspaper advertising rate structure to the end that this valuable medium may be utilized by national advertisers in larger measure as a factor in more economical selling and distribution.

WHEREAS, the members of the Association of National Advertisers are extensive users of newspaper space and

WHEREAS, their use of such space

THE BIG MERCHANT'S PROBLEM

CHARLES W. Mears, recognized expert in marketing and advertising, has just written a penetrating analysis of present-day complexities in city retailing. It is a liberal education for advertising men and of great value to merchants who seem hopelessly confused by the swift cross-currents of modern merchandising and advertising.

See EDITOR & PUBLISHER *next week for the first installment of Mr. Mears' searching examination of the causes of success and failure in department store administration! It contains some amazing statistics concerning disproportionate costs of operation. What does it profit a merchant to organize a fine establishment, stocked with choice merchandise, if the people of a city do not know the store exists? What should he be willing to pay to gain and hold the interest of a community in his enterprise? Mr. Mears tells.*

WHEN THE ADVERTISERS GET TOGETHER

By PHILIP SCHUYLER

THESE advertisers get their golfing done early. Some few arrived here in Washington for a few rounds Sunday at the Congressional Country Club. But it was done very quietly, very modestly, and it was worth your life to find out the scores and even who won, if anyone.

The nights, however, were filled with music and dancing, likewise at the Congressional. And the business sessions, held all day at the Mayflower Hotel, were not without their opening and closing songs. The A. N. A. Canaries, "four human songbirds who never took a lesson in their lives, but whose marvelous sweetness is guaranteed to lull the savagest into complete gentleness"—so they were advertised—were the chief attraction at the dinner-dance cabaret, staged Monday evening. At this function, too, "Mr. America—the most beautiful advertising man in the world" was selected, more of which elsewhere.

Between dances and between speeches, delegates talked shop. I met T. A. Carroll, advertising manager of E. C. Atkinson & Co., makers of Silver Steel Saws, outside the convention floor. Mr. Carroll has had striking success, using special newspaper advertising campaigns in key cities to increase sales and add names to his dealer lists.

The method, he said, is very simple.

"We ask the newspapers," he explained, "and they usually agree, to check up the number of hardware dealers in their city. When the list is complete, we hold a meeting of our salesmen sent to the city for the special drive, and divide the names obtained among them. Each salesman is also provided with proofs of the advertisements which are to appear in the local newspaper or newspapers selected. They then go out and sell the dealer, before the advertisements appear.

"The next step is to obtain the cooperation of the jobbers' salesmen. We lay the plan of the special newspaper drive before the jobbers' salesmanager, and enlist his aid and sympathy in the undertaking.

"By following this method, we can usually sell 85 or 90 per cent of the dealers in a city.

"Take St. Louis, as an example. Here was a city of a million population, where we had less than two dozen dealers handling our product. Such a big city should obviously give us better representation.

"Well, we started a campaign as outlined above, using one of the local dailies. We carried on the drive for a period of eight weeks, with the result that we got more than 175 new hardware dealers to handle Silver Steel Saws.

"It is very simple, you see. When you can show dealers that you are going to help them obtain quick turnover and added profit by placing advertising in the newspaper or newspapers that their customers read every day, they listen to you. We also make a point to publish all the dealers' names in the advertisements we purchase in the local paper.

"After all, by using newspapers you can tell your story well, and reiterate it until it becomes a part of the consciousness of the prospect who is going to buy your goods."

Fleming Newbold, business manager of the *Washington Star,* returned from the White Sulphur Springs convention of the American Newspaper Publishers' Association in such good spirits that he arranged a luncheon and sightseeing tour for the ladies attending the A. N. A. convention. A bus called for them at 11 o'clock on Monday morning, and Mr. Newbold kept wives away from busy husbands, until late in the afternoon.

O. C. Harn, National Lead Company, and president of the A. B. C., greets Carl J. Schumann, Hilo Varnish Corporation, and acting A. N. A. chief.

J. F. Wallace, advertising manager of the Douglas Pectin Corporation, who is attending this meeting, told me his advertising campaigns conducted during the past year were most successful. His company makes "Certo," which is advertised only during the summer months. Both newspapers and magazines were used this year, with a total investment mounting to approximately $400,000. Results obtained from newspaper space, he said, were entirely satisfactory, and he intends to continue use of this medium. The Certo newspaper list last summer numbered 350. A special campaign was tried out in New York State using small town newspapers, which Mr. Wallace declared "worked out very well, indeed." The Certo account is handled by the J. Walter Thompson Company, New York.

Something new was inaugurated at this convention in the Advisors Service Bureau, of which W. K. Burlen of the New England Confectionery Company, Boston, was chairman. A group of nearly 30 advertising managers, recognized authorities on various phases of advertising, were gathered together and held available to answer questions or hold private consultations with delegates seeking advise on advertising problems. This group of experts was prepared to answer questions and give advice on a host of topics, including newspaper and magazine advertising billboards; dealer cooperation; direct mail, film advertising; trade papers; market analysis; postal problems; research work; sales conventions; branch offices; export advertising; mailing lists; house organs; radio advertising; plates and electros; street car space; cooperative advertising; house-to-house selling; and printing and lithography.

"Just the other day," said J. E. D. Benedict, advertising manager of the Metropolitan Life Insurance Company, this reporter, "I was looking over m scrap book and found it filled with clip pings about our company from newspapers all over the country. The clippings were of news items on particular big insurance policies, stories of son striking case showing the need of in surance, and features telling of the r search and welfare work our company doing.

"Yes, we send out a lot of free pul licity to newspapers.

"But we do not advertise in news papers. It is too expensive. Our prob lem is one of general health educatio and we use the magazines, particularl those which appeal to women."

Mr. Benedict said there were approx mately 20,000 Metropolitan Life Insu ance Company agents and that only handful of them invested in local new paper advertising.

Mr. Benedict has been advertisin manager for Metropolitan for six month Previously he was connected with Fran Seaman, Inc., New York advertisin agency.

"Is newspaper advertising expensive I turned and asked Merle B. Bates, a vertising director of Life Savers, Inc of Port Chester, N. Y. Mr. Bates ear this year decided to put newspapers u der the microscope to find out whethe or not use of newspaper advertisin columns would increase Life Saver sale He has already reported himself sati fied with results. At this convention h is one of the advisers, telling prospecti newspaper customers his experiences wit the medium.

"What a foolish question," was h reply to my question on expense. "Yo are putting newspaper advertising in a entirely wrong light, if you say it expensive.

"It is a relative matter, anyhow. $100 suit of clothes is too expensive fo some people, but it is a cheap suit fo others.

"Expense does and should not ente in to the question of newspaper adve tising. Whether or not this mediu should be used depends entirely on th product and upon market and sellin conditions."

Two by two on Tuesday mornin delegates filed through the White Hou and shook President Coolidge's han The party was arranged by G. Loga Payne, publisher of the *Washingto Times.* Two Amherst graduates wer photographed on the White House law when cameramen caught President Coo idge and President Hall together.

There came a crash of splinterin glass and a crestfallen look on the fac of W. K. Burlen, of the New Englan Confectionery Com pany. Mr. Burle at the Congre sional Club part had been vote "Mr. America" b the ladies attendin the conventio Cartoons of th handsomest men A. N. A. had bee flashed on a scree and from them th choice had bee made. The priz was to be awarde Grandly a tray sparkling "c glass" was bor across the room and dropped, ju before reaching M Burlen's hands. Th prize, he was late told, was purchase at Woolworth's.

Guests of Fleming Newbold, *Washington Star,* wives of delegates, were treated to luncheon and a sightseeing tour.

MANY FACTORS CAUSE RATE DIFFERENTIAL

Survey Discloses Intangible as Well as Tangible Reasons for Higher Charge to National Than Local Space Buyers—Prices Fair and in No Case Exorbitant

By MARCELLUS MURDOCK

Publisher of the *Wichita* (Kan.) *Beacon*

Excerpts from an Address Before the Association of National Advertisers

WITH a modest disclaimer of the plain simple and lucid logic of perfection, I proceed to give you what enlightenment I can on the reasons for the national advertiser being charged a little higher rate for his advertising than the local man. Of course, there is a lot of simple logic in the difference, for what, after all, is logic but reason.

First of all as a basis of better understanding, let me present some facts which I found in a study of this subject.

For preparation, I made a survey of newspapers from one end of the country to the other. I did not attempt to include all the country's newspapers. That was too big a task and seemed unnecessary. The survey included 40 newspapers. These newspapers are located in New York, Pennsylvania, Connecticut, Ohio, Indiana, Illinois, Iowa, Wisconsin, Minnesota, N. Dakota, Oregon, Washington, Missouri, Kansas, Nebraska, Colorado, Texas, Arkansas, Louisiana, Georgia and Tennessee.

The cities vary in size from 50,000 to 300,000 people for the most part with a couple of cities of the greatest size completing the list.

The first fact that discloses itself in this survey is one which many, if not all, of you know. No two sets of rate cards either per thousand of circulation or in requirements of linage are alike. This may on first thought seem strange and illogical but it is neither. It is both natural and reasonable. Keep this statement of mine in mind. It has a most significant bearing on any difference that exists between national and local rates.

This brings us to the second fact disclosed. It is misleading and incorrect to infer that newspapers are charging national advertisers more than they are local advertisers. What? Do you mean to say that newspapers are not doing this, charging higher national advertising rates than local?

No and yes. Some do and some don't.

I have divided the 40 newspapers surveyed into two groups, the most natural divisions that presented themselves to me.

One of these divisions is the newspapers that publish and charge the same rates for national as for local advertising. The second group is composed of those papers having rates that are higher nationally than locally, considerably higher when big local contracts of four or five hundred thousand lines are used in the comparison.

The first group, those charging the same for both national and local, are, according to my cross section survey, the largest centres. It is the second group in which we are most concerned and directly and properly comes under the subject of this dissertation.

There are three significant facts connected with this group.

First, the newspapers in this group, the group of newspapers whose published national advertising rates are higher than their local rates are situated in centres of population of from 50,000 to 300,000 people. In every case, the city of publication is not an entity in itself but a centre of population with a dependent circulation territory of from 100 to 300 mile radius—unlike the largest cities as publication centres.

Second, these newspapers are not in any one or two sections of the country. They are found in any state in the union.

Third, there is no standard or uniformity in the differential between the national and local rates of any three of them in an exactly determinable sense. There is almost as great a lack of uniformity in those newspapers circulations, their subscription prices, their expense accounts and their profits.

Three buyers of Big Newspaper Space at the Convention (left to right): S. E. Conybeare, Armstrong Cork Company; Verne Burnett, General Motors Company; and Merle B. Bates, Life Savers, Inc.

These three significant facts are fundamental in their bearing on the question before us. They prove that you cannot treat nor operate a newspaper property as you would a cotton mill or a collar factory. It may be a pity, but it is a fact never-the-less.

The newspaper is not just a counting house. It is not just a manufacturing concern. It is not just a business institution. It cannot be standardized like some businesses to a predominating extent, if newspapers are to retain their character and proper and effective place in the world's affairs. If they could be standardized to the nth degree, or ever are, as great a calamity would result as would were you to standardize the character, initiative and genius of the world's highest types of men.

Each newspaper is an exception to the rule. That fact is emphasized by the lack of uniformity in national and local advertising rates and the differentials existing between those rates; in circulations; and subscription prices.

Each newspaper is an exception to the rule of the newspaper business itself and by that very token a greater exception to the rule of general industry.

Each newspaper, particularly of the cross section we are considering, is a part and parcel of the city in which it is published. It is bone of that bone, blood of that blood, flesh of the flesh of its home city and that city's population and its suburban neighbors.

But however exceptional newspapers may be, there is one fundamental that must enter into all institutions that survive and is therefore equally applicable to the newspapers. Newspapers must secure a price for that which they have to sell which will net them a profit.

That makes the problem sound very simple—just find the cost and add a percent for profit and you have the correct selling price. But even in this, the newspaper cannot be figured as many other lines of a different character.

Many of the factors of cost are the same in all lines of industry. Be these what they may, let me tell you some of the additional factors that do enter into the cost and resulting selling price of advertising in a newspaper.

There are all those expenses, such as raw material, labor, sales overhead, common to us all. Then, in the case of the newspaper, weigh in these factors:

The size of the city of publication; the size of that city in comparison with the neighboring territory dependent on that newspaper.

The obligation of the newspaper to its home city and to the neighbors in that dependent territory.

The very foundations and avowed purpose of its existence to build its home city.

Its volume of circulation.

The selling price of that circulation.

The volume of local advertising and its potentiality for increases.

The importance of preponderant local linage as a selling factor both locally and nationally.

The volume of national advertising and its ever increasing cost to the publisher.

Granted, you say, but why charge one price to the national advertiser and another to the local merchant? What have all these things that you have been telling us got to do with the difference in national and local advertising rates. How do they prove or justify the difference in selling prices?

This is my answer. Every one of them has very much—almost as much as the price of newsprint or the wages of a compositor—to do with the determination of the advertising rates charged to the national and local advertiser. Every one enters into the justification or logic of the difference between the national and local rate.

In the problem of determining rates for advertising, a publisher has two general classes of display advertising; that from local merchants and that from national advertisers. The advertising rates he has started using in the beginning, with modifications as the years went by, were of the barter and trade kind.

He has recourse to his costs. Circulation receipts, the subscription prices varying during the years as mainly determined

FILENE SEES GROWING ADVERTISING VOLUME

Mass Selling and Distribution, Boston Merchant Predicts to A. N. A. Will Come with Era of Super Competition Between U. S. and Europe for World Trade

By EDWARD A. FILENE

Address This Week Before Association of National Advertisers at Washington

I BELIEVE that big advertising is a social service and not a social evil. At its best, it will result in a great good to all concerned, so that nothing I am about to say should be construed as being against big advertising, either local or national. On the contrary, I am convinced that the maintenance and further development of big advertising will directly promote the necessary reorganization in production and distribution, and indirectly will help solve many of our social and political problems.

Let us examine briefly the conditions under which business and industry must operate during the coming years. I will constantly refer to mass production and mass distribution the principles as adopted and applied by Henry Ford. I use Ford as an illustration because he has more than any other producer in the world demonstrated in his business what seems to me to be the principles upon which American business and industry will be forced to build in the days ahead. Ford has demonstrated the relation of mass production and distribution to the reduction of prices and the raising of wages. He has done both to a degree unapproached by any other producer and made enormous total profits in the process.

For some years to come, American business men will devote their surplus energy to a keener competition for domestic business. Super-competition will result, that will tend to drive American business and industry into mass production and mass distribution. It will bring businesses together into consolidations and trusts. This supercompetition will force economies and efficiencies that will make possible a marked reduction in prices, for the main idea of mass production and mass distribution in the matter of profits is that the largest total profit is to be made from the sale of an enormous number of articles at a small profit per article. Mr. Ford has produced the best and cheapest article of its kind, at the same time paying the highest wages ever paid for like work. And he has made by it the greatest fortune any producer ever made, perhaps the greatest fortune in all history.

But this super-competition will also mean a domestic battle of price-cutting which will quickly lead to a campaign of drastic wage-cutting. The early period will be a fight for readjustment which will ultimately witness a ruthless weeding out of the businesses that do not go beyond mere price-cutting and wage-slashing. The survivors will be the businesses in which waste has been conquered and scientific methods introduced.

For some years to come European nations, as a result of the war, will be under the greatest conceivable pressure to export their goods—a pressure never before equalled in the history of commerce. They will produce them under a scale of living lower than ours, lower than their own pre-war scale. Before the war exports in Europe stopped when profits stopped. Under the pressure of present conditions exports will continue even after profits have stopped. This pressure will have a vital reaction upon our domestic business and we shall find it increasingly difficult to find adequate outlet in the markets of the world for our surplus products.

The nations of Europe will be forced into supercompetition between themselves. This is understood by the financial and industrial leaders in Europe, but in a close study of economic conditions there, which I have recently made, I found that the remedies which they were proposing began at the wrong end. Three remedies were generally proposd:

1. Reduction of wages.
2. Prolongation of working hours.
3. Exportation of surplus population.

These remedies are not practical, in my judgment. There is no certainty that increasing hours of work will mean greater production. Reducing of wages not only brings with it a reduction of purchasing power, but will also result in very great opposition, both industrial and political, on the part of organized labor. Finally, there probably is no need for exporting surplus population anywhere in the world, provided that the right methods of production and distribution are applied.

When discussing these matters with leading people in the different countries of Europe, I asked them what would happen if all prices could be reduced overnight to one-half. They agreed that this would mean the solution of most of the present difficulties in Europe, not only in trade and industry, but in politics also.

For it must be borne in mind that the basic difficulties in Europe are lack of work and of the ability to export. The solution is through the introduction of mass production and mass distribution, which will reduce prices for the necessities of life by cutting down the profit by piece and by increasing wages, and thereby the purchasing power of the masses to use up the surplus. At the same time this will allay the political discontent of the masses by satisfying their legitimate wants.

Fortunately, decrease in prices is not a dream, but is achievable in practice in this country and in Europe by the adoption of the principles of mass production and mass distribution. The investigation carried out by Secretary Hoover's Commission on the Elimination of Waste in Industry definitely showed that preventable waste is one-half the cost of production and further established that it costs about the same amount of money to transfer a product from the factory to the consumer as it costs to produce it.

Finally, it should be borne in mind that mass production can live only through mass distribution—and mass distribution means a mass of people who have buying power. The introduction of mass methods will greatly increase the buying power of the people because there result two effects from mass production which have not actively dominated production until now.

The first is that it pays to pay higher wages because the difference, under mass production where a great number of things are produced, between a high wage and a low is not reckonable on the average sale price. And the second is that even the static wage is increased, if its buying power is increased.

It is apparent, I think, that mass production and mass distribution will be better prepared to meet the coming supercompetition than production and distribution not organized on mass lines. Nationally advertised products are made under conditions of mass production and national advertising has performed a real service in the development of mass methods in production and distribution. It is plain that mass production is dependent on mass selling and it will be an important servic of national advertising to educate th public to this vital principle.

National advertising now needs to tak the necessary step forward and apply th basic principles more completely. Na tionally-advertised products produced un der mass production can obtain market incomparably greater than at present provided they apply the further principl of mass production, namely the productio of articles that are not only desirable but that will sell at the lowest price Mass production will sell standardize articles in enormous quantities if quality and prices are right, but in order to sel in enormous quantities quality and pric must both be right.

If nationally advertised articles adop these principles—and use creative thinking that is, of the Ford kind—they will mee and beat competition by offering a bette article at a lower price than ordinary competition can supply. They will also estab lish a basis where price maintenance is unnecessary. Cutting their prices will be a self-defeating measure for any retailer that tries it, because the public will know that the regular price gives only the smallest legitimate profit, and that a cut price is unprofitable, and must be made up by an illegitimate profit on other goods.

I should like to mention the very important contribution which advertising has made to the good work of the modern newspaper in this country. There is a difference in the newspapers of a country where advertising is general and large, and a country where ad-

HOW A NEWS MAN CLIMBED TO PUBLISHER'S CHAIR

ohn E. Cullen, Once Special Delivery Boy, Then Cub Reporter, Now Directing Baltimore News for Hearst—Received First Executive Post from Charles H. Grasty

WELVE years ago John E. Cullen was the star reporter on the *Baltimore m.*

Ten years before that he was a special livery boy employed in the Baltimore stoffice. He carried special delivery tters at 8 cents a letter.

Today he is publisher of the *Baltimore ews* for William Randolph Hearst and said to receive in the neighborhood of 0,000 a year.

The changes are characteristic of the an. He has a flair for quick and star- ng contrasts; for doing things in a way nich knocks the wind out of his friends. Cullen's career is a proof that self-made en are still possible in this country in ite of the changes which have taken ace since the 90s and the first decade the present century. In those days if successful man could not say that he as self-made he felt that there was me flaw in his career.

"Jack," as his intimates call him, was rn in South Baltimore. He was an ly child. When his father died Jack nt to work.

The ambition to become one of those ar reporters who run through the lines fires showing their badges and defying e police who stop other people but who ave the newspaper man through was a ther natural ambition for a special de- very boy. Cullen was bitten by it. haracteristically he went after the job star reporter.

He worked for a short time on the *altimore World,* around 1905. It was small paper, still remembered in Bal- nore for the pep of its news columns id its editorials. Any reporter on it as likely on short notice to find half the assignments on the assignment ook dumped on him—and with the ex- ctation that he would cover them. One the virtues of the paper was that, since was irresponsible, much latitude was lowed its writers. Cullen learned to rite on this paper and attracted the at- ntion of men on the Sun.

It happened, however, that at this pe- od, he was then less than 20, he was ed by an ambition to become an actor. nother man would have mooned about dreamed, and in the end concluded at it was unwise to try it. In a month ullen was on the boards, playing the le of a grave Roman Senator in a road mpany presenting "The Sign of the ross" in the cotton belt states. He was ender and pale, with what might be lled a spiritual face in those days. nd it is said that, with his tall form d stern face and dignified manners, he as well on the way to becoming a mati- e idol. Then the star reporter bug bit m again. It was helped out by an ill- ss which laid him up in a hospital for veral week, far from home and friends.

He returned to Baltimore and got a job the *Baltimore American.* There, it is id, he learned that star reporters don't ake quite the salaries movie stars make d thereupon took himself off in a cor- r and agreed with himself that it asn't a star reporter that he wanted to , but a publisher. He told himself, so is said, that he wouldn't say anything out it for a while.

From the American he went to the n. There he became a star reporter fact. With the assistance of numer- s cubs, he "covered" the Halethorpe iation meet, probably the first aviation eet ever held south of New York. His per paid Hubert Latham $5,000 to fly er Baltimore in the first over-city ght ever made in this country. Jack ote pages about it.

When Charles H. Grasty came back m his experiment in St. Paul journal- m and began his negotiations for the m a year or two before this meet, llen was the reporter who saw him ring the negotiations and wrote "pieces for the paper" about his activities. Cullen's method of covering the aviation meet would have attracted Grasty's attention under any circumstances. For Cullen can write, write exceptionally well. He has imagination to see things and an unusual gift for putting what he sees on paper.

John E. Cullen

It wasn't long after the meet that the star reporter of the Sun was made the city editor of the Evening Sun, then only a year or two old.

Cullen had married just a short time before this. His wife was Catherine Fay, a Baltimorean like himself. And perhaps he made up his mind that a married man should speed up that process of becoming a publisher. As city editor he was always thinking up some new stunt for the local staff to do. He was the despair of lazy members of the staff and the delight of those who wanted to be out shaking up the town and getting the adventure which is the real appeal in a reporter's life.

When he passed on up to become managing editor of the Evening Sun, he left in the seat he had vacated a city editor who had learned a lot of tricks from him. Incidentally that man, Philip B. Perlman, is now the city solicitor of Baltimore.

Cullen quit the managing editor's job after about a year and went into the advertising department of the Sunpapers. It was at a time when the papers were beginning to pick up advertising in a much larger way than they had ever done before in their history. Cullen saw this development and helped accelerate it. He stayed about a year, then went to New York.

His first job was with a commercial concern. But he didn't stay long. He was on his way towards the publisher's chair he was after. He became managing editor of the *Mail.* From managing editor he became general manager and remained in that position until the Mail was suspected of pro-German leanings. Then he quit and returned to Baltimore to join the United Railways and Electric Company as assistant to the president. He ironed out several difficulties which had been bothering the management.

About three years ago the announcement was made that he had signed as publisher of William Randolph Heart's Milwaukee papers. He stayed in Milwaukee about a year and then returned to Baltimore when Mr. Hearst took over the *News* and the *American.* His ambition was realized. He was a publisher, and a publisher in his own home town at that. When he first took charge the windows of his office looked down on the doors of the postoffice, out of which he had popped many a time in his boyhood hurrying to deliver special delivery letters at 8 cents a letter.

"Jack" is still well under 40. He has five children. He takes his responsibilities as a husband and father very seriously.

But he hasn't "settled down." Those who know him, know he never will. He's too dynamic—that overworked word is the right one to apply to him. He is always doing the unexpected thing.

SONGS OF THE CRAFT

(*Written Exclusively for* EDITOR & PUBLISHER.)

By Henry Edward Warner

THE PERFECT SHEET

If I were a millionaire,
I know what I would do:
I'd buy myself a printing press
And a linotype or two,
And get a little paper out
Just for myself . . . and You.

I'd write my leads and heads
The way they ought to be! . . .
I'd never print a single line
Of fake, because, you see,
It really wouln't pay to fake
Just for yourself . . and Me!

I'd work for love, and count
The toil a lot of fun;
I'd never let an error pass—
No, not a single one!
And you would never think to quit
The paper I would run.

If I were a millionaire! . . .
I like the thought! . . . It seems
To have a cheerful sort of ring,
It smiles like pleasant dreams!
It warms me like the summer's sun
Or charms like Luna's beams.

But I'm no Croesus; I
Reach no ambition's star!
I'll have to make, you'll have to take
Your papers as they are!
Hand me a match, old thing—ah—thanks!
And light a fresh cigar!

LORD ROTHERMERE IN U. S.

Arrives in Boston Incognito Nov. 15—Plans Unannounced

Traveling under the incognito of "Smith," Viscount Rothermere of London, brother of the late Lord Northcliffe and proprietor of the *London Daily Mail,* arrived in Boston, Nov. 15, on the *Franconia* from Queenstown and Liverpool. He was accompanied by Ward Price, an English newspaper correspondent, who was with the Prince of Wales on his recent African trip.

Considerable secrecy surrounded the Viscount's visit. No announcement was available on his plans while in this country.

Texas Dailies Win Rate Case

Dallas and Fort Worth papers have been awarded reparation from railways for unreasonable rates charged on shipments of newsprint paper from Minnesota, Niagara Falls and other producing points. The Interstate Commerce Commission held that the present rates to the two cities were reasonable, but that rates in the past had been excessive.

TOTAL NEWSPAPER ADVERTISING, 30 PRINCIPAL CITIES FOR OCTOBER

A LINAGE gain of 11,748,092 was registered during October, 1925, as compared with October, 1924, by 133 newspapers in 30 principal cities of the country, according to a report just issued by the Statistical Department of the New York Evening Post. Only four cities of the 30 showed a linage loss. Total 1925 linage was 141,584,481 against 129,836,389 lines carried in 1924. The totals collectively and by cities follow:

SUMMARY OF ADVERTISING BY CITIES

TRAIL BLAZERS OF ADVERTISING

Writing An Ad For Buffalo Bill

by Chalmers L. Pancoast

COPYRIGHT 1925 BY EDITOR & PUBLISHER CO.

Chapter V

Writing an Advertisement for Buffalo Bill

The scream of the outlaw split the air,
As we tied him hard and fast,
o the snubbing post in the horse corral,
For his turn had come at last."

N the days of yore when the smoking of a Sweet Caporal cigarette was a ime that went hand-in-hand with read- g a Buffalo Bill dime novel, my hero of eroes was Buffalo Bill, and he still is, id always will be.

When physicians attending Col. Wil- am F. Cody, whose fame as "Buffalo ill" was nation-wide, said he could not cover a great depression came upon me. o me, who had interviewed him, he presented the last of the links con- ecting the present with those glorious ontier days.

Buffalo Bill, the Scout, Indian Fighter, uffalo Hunter and Show Man was a eat advertiser.

At the time I was a frontier reporter own in the Southwest I wrote a great lvertisement for Buffalo Bill without alizing I was doing it.

Tenderfoot that I was, I thought I was ise to all the tricks that had been put er on newspaper reporters, but the old out slipped one over on me.

When Buffalo Bill's Wild West Show me to Albuquerque my great ambition as to get an interview from this old ndian fighter himself. I had read every me novel about Buffalo Bill, and to me was about the greatest man in ex- tence.

It was a great moment in my life when permitted me to enter his private tent e morning the show arrived. After he id presented me with some "comps" to e show, he told me he had been very rtunate in getting back to Albuquerque. is first entrance into that city had been 1850 when he came in as an Indian out.

He told me confidentially, to give me scoop on the other papers, that he had st bought the most vicious outlaw onco, he had ever seen. He gave me e name of the Mexican rancher, and the wn, where he bought this untamable rse. The first attempt to ride him ould be made in the arena that night. e described this horse somewhat as arnum had described his "Woolly orse" which Col. Fremont had captured the wilds of Colorado.

If the horse Buffalo Bill had picked turned out to be a bad-bucker, and a nsation, he was going to name him Albuquerque." This he told me in eatest confidence, but I was to write e story for our paper, an evening blication.

The story came out, and it was a nock-out" as a publicity stunt for the ow. That night I had a ringside seat, d I was close by the exciting perform- ce. The desperate chances taken by the ers in saddling and riding the bucking onco thrilled me. Of course Albuquer- e, the new bad horse, was a star per- mer.

After many attempts, the cowboy of nderful nerve finally kept his seat. e wild outlaw gave a fine exhibition of vious jumping and bucking and threw daredevil rider over his head. He s on his feet in a moment and was dy for another attempt. The third e he stuck and the audience cheered al shouted. I wrote a great story about s bucking exhibition.

The attack on the stage coach by the age looking Indians, repulsed by the oting cowboys led by Buffalo Bill, himself, was just as picturesque and ex- ng as it had been described in the dime novels, although I really believe the dime novel accounts were more hair raising.

Buffalo Bill made his appearance all decked out in a buckskin suit, riding a beautiful black horse, and showed his skill by shooting glass balls tossed into the air. He hit eight out of eleven. Although at this time he was well along in years he proved the dime novel was not exaggerating his marksmanship.

It was in Beadle's Half-Dime Library that Buffalo Bill performed his most amazing feats to awe and thrill a generation of American youth. The thrillers advertised the white-haired Indian fighter from coast to coast.

You can imagine how my egotism was wrecked when the rival newspaper carried this story a day later:

"TENDERPOOT REPORTER FOOLED
BY OLD GAG
Buffalo Bill Gives "Scoops" Wild Yarn
About an Outlaw to be Called
Albuquerque—And he Falls

And here was the story that my rival reporter pulled on me:

"The splendid grey, which was reported to be a wild, vicious beast fresh from the plains, was a well trained bucker that will buck long and hard when required to.

"He is as kind as a kitten, and not the mean, ornery brute described by the tenderfoot. Had it not been for his lamb-like attitude as he walked out of the arena he would have deceived even some of we experienced Westerners.

"As it was, the tenderfoot reporter the hills to be named after the city, the bunch fell for it. But in Albuquerque there was one wise reporter who gave them the 'horse laugh.'

"However we sympathize with one guileless reporter who believed the story."

Well, all I had to say was that there were a lot of people who enjoyed the show more by believing my story. Like Barnum, I pulled a "humbug" but the people liked it better than acting. They enjoyed believing the performance was genuine, which I did, and I'll never lose the thrills of the bucking of my wild horse; or my long desired interview with Buffalo Bill.

Chapter VI

Sandwich Man for Uncle Tom's Cabin

IN youth my thoughts ran to adventurers bold, to those picturesque Soldiers of Fortune, Kings of Chance, Champion Rolling Stones and Daredevil Dicks of old.

In my imagination, which painted all thoughts with vivid, riotous colors, I saw the adventurer creeping stealthily through an African Jungle. He crouched behind a tree looking upon a band of ferocious cannibals, roasting alive his only companion. In the picture were also lions, tigers and cold-chill dangers.

My idea of existence was adventures, changes, pioneering and uncertainties—something to make the spectacle of life exciting. With this kind of an imagination I have found in the immense life of business much excitement and many thrilling adventures.

In the amazing twists and turns along the pathway of advertising I have discovered the things which perhaps I missed by not being born to a life in the African Jungles. If I had not become a wanderer in the jungles of business, I might have been a pirate bold, who did nothing more exciting than to terrorize the Spanish Main.

The best that I have been able to get out of life is to have found the advertising business a fascinating, thrilling and colorful adventure.

I started my advertising career in the high chair. As a mere infant I was attracted by advertising. The only thing that stopped my wails was an advertising puzzle. A Hood's Sarsaparilla Puzzle was my earliest toy. I came from the kindergarten school of Hood's, Arbuckle Coffee, Ivory Soap and Mail Pouch Tobacco. As I began to walk and talk I played store with empty packages of nationally advertised goods. I still retain the memory of the delicious smell of an Arbuckle Coffee package. It was then a ship on the sea of adventure and mystery. I learned my A-B-C's on a Star Soap box and other advertising packages.

As a school-boy I canvassed back doors urging housewives to buy Arbuckle's Coffee so that I could collect the travel and history cards. I made advertising pay without realizing it. I had the first complete set of Arbuckle's Coffee cards, and as a collector of these advertisements became the envy of the school yard.

I never ran away to sea like Moby Dick, or other adventurous boys I loved to read about. But I did run away from school one snowy afternoon and passed advertising hand bills from door to door to see my first show from the gallery of the old Music Hall.

When Uncle Tom's Cabin came to town I wasn't old enough to handle that most enviable job of leading the much advertised blood hounds. I blacked-up as a colored boy and carried a beautiful advertising banner, and also helped rock the cakes of ice—made of canvas.

There was a big thrill in this first adventure of being part of a street parade advertising such a celebrated show. On the second day I was promoted to a sandwich man following the brass band in the parade.

The sandwich man has ever been considered the original advertising man—the showiest at any rate. He has had to carry the burden of advertising entirely upon his shoulders. Thus, I qualify as an advertising man by having successfully served as a sandwich man—an animated billboard for Uncle Tom's Cabin.

The parade at the Fourth of July celebration, around the Public Square in our town, was the most exciting and colorful event of the year. Following the lure of advertising I always had a job of dressing up to represent some advertising character, or firm, and thereby getting a free ride on a beautiful float.

(Further Adventures of Mr. Pancoast Will Be Told Next Week)

A.N.A.E. SURVEY SHOWS BIG WASTES IN MERCHANDISING SERVICES

Don Bridge, Indianapolis News, Calls for Conservation, When Advertisers Replying to Questionnaire Tell Aid They Want

RESULTS of a survey conducted by the Association of Newspaper Advertising Executives among buyers of national advertising to determine just how much and what aid they wanted from newspapers in merchandising and selling their goods were made public this week by Don Bridge, *Indianapolis News* and A. N. A. E. secretary, addressing the Washington convention of the Association of National Advertisers.

DON BRIDGE

Through questionnaires answered by 165 big buyers of space, both advertisers and agencies, types of services they considered proper newspaper functions were classified according to advertiser preference and divided into three groups in the survey.

Twenty-one different types of services were arranged thus in chart form. Of the 21 it was shown that between 82 and 50 per cent of the space buyers questioned favored only six.

This fact, Mr. Bridge pointed out, proved that "extensive merchandising service" by newspapers is economically unsound.

"Replies to the questionnaires," he said, "indicate an astounding waste in expenditures by some newspapers for service that is of negligible value to the advertisers. The survey proved definitely there is a vast difference between the degree of service requested and the service that is expected or actually desired."

The chart appears in a box on this page.

"The conclusions from the figures given on the chart are obvious," Mr. Bridge said, "but I am going to risk the proposal to newspapers of several definite recommendations, as based upon a detailed study of the one hundred and sixty-five complete answers received to the questionnaire.

"1. Frankly admit that all merchandising service is included in the advertising rate in one form or another. Nearly every advertiser and agency man pointed out the fact that the cost must necessarily be a part of the newspaper's overhead.

"2. Since the cost of all service is in the rate, confine activities to those functions that the newspaper can perform cheaper or more efficiently than the advertiser can do them for himself. Eliminate as economically unsound, all functions that the advertiser can handle to better advantage for himself.

"3. Do not permit merchandising service to be the principal sales argument in soliciting national business. Any experienced buyer of advertising space knows that a salesman who has as sales arguments circulation, character, prestige, reader influence and confidence, dealer influence, advertising censorship, advertising linage and other fundamentals will not make merchandising service the backbone of his solicitation. If a salesman talks service as a primary argument he is merely notifying the buyer that his paper does not possess the fundamental factors that determine advertising results.

"4. Frankly tell the advertiser or the agency man what you will or will not do. The average buyer of space is satisfied if he is getting reasonable service and if it is all of the service that is available to any other advertiser under similar circumstances. A definite, but courteous, refusal usually is acceptable but an indefinite refusal opens the way for bargaining.

"5. Do not give service to the new advertiser that is not available to the old customer. Do not permit any advertiser to be justified in calling merchandising service 'taxation without representation' as one prominent national advertiser described it. Neither should service be given to the advertiser who is hard to sell if the same service is not available to the regular advertiser upon whose account the sales cost is already very low.

"6. Give honest and efficient service when it is promised and employ men who are capable of providing it. The most common complaints against newspaper merchandising service are that it is much more extensive in the promise than in the fulfillment and that important activities are placed in the hands of office boys and other inexperienced persons. The survey showed plainly that advertisers and agency men have the newspapers 'spotted' and they know where honest and efficient service is available and where the service becomes largely imaginary after the account has been secured."

Mr. Bridge discussed the charts in detail taking up each of the 21 different types of merchandising services. His comments on the six considered the best by advertisers follow.

"General market statistics," he began, "which ranked first in value to the advertiser, are also of tremendous value to the newspaper from the standpoint of constructive salesmanship. These general statistics in regard to characteristics of population, wealth, home ownership, home equipment, number of dealers, etc., are really as essential to the newspaper as a sales argument as they are to the advertiser.

"1. In discussing this form of service, the degree of accuracy was by all odds, the most important factor. Such figures are very valuable to the advertiser if they are accurate but they are worse than useless if inaccurate.

"2. Specific market surveys refer to the compilation of data by the newspaper concerning the relative position in the market of various competitive brands and other information of a nature applying only to a specific marketing field. This service ranked second in value to advertisers and it, also, is of tremendous value to the newspaper. The advertising salesman who can discuss the advertisers' marketing problems in an intelligent manner has an obvious advantage of tremendous proportions. In this form of service, accuracy is the prime requisite. An erroneous report not only is worse than useless to the advertiser but reacts to the disadvantage of the newspaper.

"3. The ranking of lists of retailers and wholesalers in third place is not surprising as these routings enable salesmen to cover all available outlets in the shortest period of time. A good route list creates good will for a newspaper while a poor list reacts to the disadvantage of the newspaper. The compilation of route lists by the newspapers is economically sound, even though the cost is included in the rate, because hundreds of advertisers are able to use the routing.

"4. Strictly speaking, the sale of advertising to national newspaper accounts is not a merchandising service but is classed as such by many advertisers. This form of service, which brings substantial additional advertising revenue to the newspapers, pays for itself.

"5. The publication of a trade paper to be circulated among retailers and wholesalers ranked fifth in importance. This form of service has become relatively more important during the past few years as indicated by the fact that trade papers ranked much farther down the list at the time a somewhat similar survey was made by the Indianapolis News in 1921. The almost universal endorsement of advertisers and agencies was

Broadcasting
Radio Leadership
The Detroit News

FROM the beginning, in August, 1920, when WWJ, The Detroit News' radio station, was the only newspaper broadcasting station in America, The News was regarded by radio enthusiasts as their particular organ. It was natural, then, that it should take the lead in radio advertising.

Today, with the situation fast approaching the time when there will be a radio set in almost every home, The News is more than ever the radio medium of Detroit. During the first 10 months of 1925 The News published

384,692 Lines
of Radio Advertising

practically three times as much as the nearest paper. This achievement in the radio field, while significant of the advertising power of The News, is only one factor that contributes to the leadership of The News in total advertising. The News also shows equal dominance in practically every selling classification.

The Detroit News

FIVE CLERGYMEN TO EDIT "TOLERANCE EDITION" OF MINNEAPOLIS STAR IN UNIQUE TEST

(*By Telegraph to* EDITOR & PUBLISHER)

From left to right—W. C. Robertson, editor of the *Star;* Dr. G. K. Stark, Emanuel Lutheran Church; Dr. H. P. Dewey, Plymouth Congregational; Father James W. Reardon, Procathedral; and Rabbi C. David Matt.

MINNEAPOLIS, Nov. 18.—An experiment unique in newspaper annals will be made on Nov. 24, by the *Minneapolis Daily Star* when it will print a "Goodwill" or "Tolerance Edition" which will be edited by four prominent clergymen representing in the broader sense all the divergent religious faiths.

The editors will be the Rev. James M. Reardon, Roman Catholic, Rev. H. P. Dewey, Congregationalist, Rev. G. K. Stark, Lutheran, and Rabbi C. David Matt and Rev. Roy L. Smith, Methodist. The latter, who in his younger days was a chalk talk artist on the Chautauqua circuit, will act as cartoonist.

Dr. Dewey will represent the Minneapolis Council of Churches which includes all Protestant dominations except the Lutherans. The pastor-editors will lay down the policy of the Star and pass upon every piece of copy for its news and editorial columns.

Each editor will furnish a signed editorial touching upon the virtue of tolerance from either the religious, racial, social, or political angle, and an effort will be made to issue a model newspaper from the standpoint of fairness to all classes and groups which make up our own citizenship and that of other countries.

Dr. Smith's cartoon will show the Spirit of Tolerance closing Pandora's Box and imprisoning again the evils of the world which intolerance permitted to escape.

Letters of commendation from Archbishops, Bishops, and other prominent clergymen and statements on the value of tolerance from prominent laymen, among them Charles Evans Hughes, will have a prominent place in the news columns.

The streamer headline will be placed on a news story announcing a dinner to which men representing various conflicting opinions have been invited for the purpose of forming a permanent Tolerance Club whose mission it will be to hold monthly meetings for the purpose of promoting respect for the sincerity of others who do not think as we do.

The idea of a permanent Tolerance Club was the outgrowth of Goodwill Week which was celebrated in Minneapolis last may as the result of an editorial in the Daily Star. Goodwill Week was proclaimed officially by Mayor Leach. Tolerance was preached from every pulpit in the city. Each night of the week tolerance addresses were delivered over station WCCO and the climax of the celebration came at a mass meeting addressed by twelve pastors all of different faiths.

W. C. Robertson, editor of the Star, who originated the tolerance movement said:

"When Goodwill Week was first proposed to a group of six ministers, repre-

Dr. Roy L. Smith, of Simpson Methodist Church.

sentative of various faiths, some doubt was expressed as to the practicability of the plan. An interview, however, with Archbishop Dowling of the Roman Catholic Church, Bishop Locke of t Methodist Church and Bishop McElw of the Episcopal Church showed plai the hearty cooperation the movem would and did receive.

"When the members of the commit which fathered the movement met to wi up their work regret was expressed all that they would no longer be able meet at luncheon twice a week as th had been doing and to enjoy the fi friendships they had formed there.

"A permanent Tolerance Club was pr posed. Action was deferred, howev until after the vacation period with t result that the project will be officia launched next Tuesday night.

"After asking clergymen of vario faiths to point out to individuals how th should conduct themselves in order deal fairly with their fellowmen, it w only natural that I should conceive t idea of asking these same ministers demonstrate how a newspaper should edited with proper regard for the feelin and the rights of all classes and con tions of men.

"They have accepted the invitation a the widespread interest manifested in t edition has convinced me it not only w be a fine thing for the Star but a fi thing for the community."

Haynes Joins Type Founders

Merritt W. Haynes, formerly educ tional director of the United Typothet of America, has joined the Education D partment of the American Type Founde Company, Jersey City, N. J. Mr. Hayn will devote his time to educational r search applied to instruction in printing.

For The Six Months Ending Sept. 30, 1925

the average net paid daily circulation of The Baltimore Sun (morning and evening issues) was

239,198

The average net paid per Sunday circulation of THE SUNDAY SUN for that period was 183,814 —a gain of 1,783.

How Gimbel Brothers Concentrate Their New York Store Advertising

GIMBEL BROTHERS

Incorporated

NET SALES

MONTH OF OCTOBER, 1925

$13,300,000

A Net Gain in Sales Over the previous October of

$1,900,000

Public recognition of the better values and greater savings produced by this organization with a purchasing power larger than any other department store group in America.

The above is an extract from an announcement published in the Evening Journal and other New York, Philadelphia and Milwaukee newspapers on Friday, November 6, 1925, by Gimbel Brothers, Inc. A reprint of the entire ad will be mailed on request.

IN THE

NEW YORK EVENING JOURNAL

Nothing can show more clearly the selling power of the New York Evening Journal than the proven experience of firms that use it.

Gimbel Brothers, Inc., America's largest department store organization, have used the Evening Journal consistently and dominantly for 15 years since the opening of their New York store in 1910.

During the record-breaking sales month of October, 1925, Gimbel Brothers, New York, concentrated more than half of their advertising investment among New York evening papers in the New York Evening Journal. The Evening Journal received more money than all the other evening papers combined! More money than all the New York morning papers combined! More money than all the New York Sunday papers combined!

During the year of 1924 Gimbel Brothers also spent more money in the Evening Journal than in all the other New York evening papers combined.

Gimbel Brothers' outstanding record of growth in sales volume, based on the manner in which they have invested their advertising dollars, has been closely linked with the largest and most responsive evening circulation in America.

Two million men, women and children in over six hundred thousand homes of Metropolitan New York read the Evening Journal every day. They look upon this modern family newspaper as New York's greatest buying and selling medium. It is the strongest sales factor any New York merchant or manufacturer can employ in America's largest market.

America's largest evening newspaper circulation—and at 3c a copy

DOUBLE THE CIRCULATION OF ANY OTHER NEW YORK EVENING PAPER

BURN-SOFT-COAL WORK OF DAILIES APPROVED

Government Officials Applaud Newspaper Campaigns to Teach Public Use of Bituminous Coal as Anthracite Substitute

WASHINGTON, Nov. 18.—Reports reaching Washington this week would seem to indicate a rapidly growing popular response to the "Burn Bituminous" educational campaign being conducted by certain leading newspapers in the East.

To save their readers from the threatened fuel "pinch" of the anthracite strike these newspapers are engaged in teaching householders how easily soft coal may be substituted for hard coal in the family furnace.

At Newark the *Evening News* is conducting a bituminous "drive" in cooperation with the city government.

The *Washington Star,* with the cooperation of the local Coal Merchants Board of Trade, is devoting much space daily to instructing its readers on how to burn soft coal and coke. It is printing rules for preparation of equipment for any kind of coal; management of the furnace for bituminous coal; and for burning coke with small-size anthracite. The rules were prepared by Prof. L. P. Breckenbridge after an extensive study and research, both at Yale and Illinois universities, pertaining to the economical burning of different fuels in house-heating boilers.

"Evidences are increasing everywhere to show that the war on the hard coal industry, until it decides to settle its labor disputes for good and bring the price of anthracite down to reachable figures, is sweeping the whole East," The Washington Star stated Monday. It was pointed out that since the Newark News launched its bituminous campaign demands for demonstrations of soft coal burning being conducted by that newspaper are pouring in from all sections of New Jersey.

Three demontration stations were opened at Washington Tuesday under the auspices of the Star. Expert engineers were engaged to teach Washington householders "how easily bituminous coal can be made to do the same work as hard coal, with no more dirt and much less expense."

"So popular has become the campaign to teach the use of soft coal that many appeals have reached the Star from Maryland suburbs to assist in the establishment of similar stations within easy access of that great portion of Washington's real population," the Star also announced.

Editorially the Star stated on Monday:

"Anthracite miners and operators are offering every possible encouragement to experimental scientists who are supposed to be on the lookout for the fuel of the future. Prosperity prevails. The business outlook is favorable. The public has money to burn, but the privilege of transmuting coal into heat is arbitrarily denied. It is the psychological moment for the man in the laboratory who has specialized on utilizing new material and forces to replace the wastefulness of old-time methods of producing heat."

The *Washington Herald* a year ago instituted a bituminous-burning educational campaign. The interest of the public, gradually centered by Eastern newspapers upon the possibilities of soft coal as a practical substitute for hard coal, had became widespread already before the present anthracite strike began. Since the strike now threatens to drag along, and render hard coal scarcer and more costly, government officials stated to EDITOR & PUBLISHER that the use of soft coal is becoming increasingly general, and they welcome the effort of big newspapers in directing the attention of the public to anthracite substitutes.

Endorsement of the Washington Star's Bituminous campaign was given by the Washington Chamber of Commerce by the passage Thursday of the following resolution:

'Be it resolved, that the Washington Chamber of Commerce heartily approves of the attitude of President Coolidge in respect to non-intervention by the federal government in the present industrial dispute in the anthracite fields to the end that the differences may be settled within the industry and thus give promise of remaining settled; and endorses the cooperative work of the Evening Star of Washington and Washington Coal Merchants Board of Trade relating to a practical educational program through public demonstration of the burning of bituminous coal in various types of stoves and heaters."

PRESS AGENTS BARRED BY RADIO WRITERS

New Association Formed in Washington Last Week to Accept Only Legitimate News Men As Members

Press agents are strictly barred from the ranks of the newly organized National Association of Radio Writers. Membership is to be confined exclusively to bona fide radio editors and writers.

This has been agreed upon by those responsible for the formation of the association upon the conclusion of the Fourth Annual Radio Conference held in Washington last week under the auspices of the United States Department of Commerce.

Lamdon Kay, of the *Atlanta Journal,* chairman of the Committee on Constitution and By-laws, was instructed to have the constitution and by-laws of the association so framed as to exclude press agents from its membership.

"Our association is dedicated solely to the dissemination of legitimate radio news and information," Robert D. Heinl, formerly of the *New York Sun,* who is one of the organizers and author of "Listening In Upon the United States," told EDITOR & PUBLISHER. "Our association is intended to promote systematic gathering and distribution of radio news and information for newspapers and magazines, and closer co-operation between radio editors and writers toward bettering and developing the broad and growing news and editorial field we are engaged in. We have banned press agents for obvious reasons. Any bona fide radio editor or writer is, however, cordially invited to join our association."

Harry La Mertha, of the *St. Louis Globe-Democrat,* is president; Stephen L. Coles, *New York Herald Tribune,* vice-president; Thomas Stevenson, Washington, D. C., secretary; and Stuart C. Mahanay, *Country Gentleman,* Philadelphia, treasurer.

The Board of Directors is composed of the following:

C. B. Locke, WBAP, *Fort Worth Star-Telegram;* L. M. Lamm, *Radio Digest;* Washington, D. C.; Stephen L. Coles, *New York Herald Tribune;* Thomas Stevenson, Stevenson Radio Syndicate, Washington, D. C.; Charles H. Van Housen, radio editor, *Philadelphia Public Ledger;* Stuart C. Mahanay, radio editor, *Country Gentleman,* Philadelphia; Harry La Mertha and Robert D. Heinl, Washington, D. C.

G. V. Wilcox, "Radio Scope," Washington, D. C.; Carl H. Butman, Washington Radio News Service, Washington, D. C.; Adams Colhoun, radio editor, *Dallas News;* F. M. Rendelman, radio editor, *Houston Post-Dispatch;* W. R. Hedges, radio editor, *Chicago Daily News;* and Lamdon Kay, *Atlanta Journal.*

Paul J. Croghan, a veteran newspaper man, in charge of the pressroom at the United States Department of Commerce, was elected sergeant-at-arms, and A. J. O'Leary, of Mr. Croghan's staff, assistant sergeant-at-arms.

Staff Celebrates Publisher's Anniversary

George Hampton Evans, publisher of the *Chickasha* (Okla.) *Daily Express,* was tendered a surprise dinner by Mrs. Evans and the staff Nov. 3, celebrating the 22nd year of his ownership of the Express. A special edition telling the "inside story" of the growth of the Express was circulated at the dinner.

Pennsylvania Group Meets

Members of the sixth district, Pennsylvania Newspaper Publishers' Association met recently at Franklin, Pa., with 2 publishers in attendance. Speakers included John L. Stewart, *Washington* (Pa.) *Observer & Reporter,* president of the Association, and Albert Fell, Association manager. George A. Fahey manager of the *Franklin News-Herald* chairman of the sixth district, presided

Cincinnati Market Paper Sold

Walter Gabennesch, publisher for the past 15 years of the *Daily Bulletin,* official organ of the Cincinnati Grain & Hay Exchange and the Cincinnati Produce Exchange, sold his interest Nov. 1 to George Mossbacker and William A. Paulus, former employees. The name of the paper has been changed by the purchasers to the *Cincinnati Market Reporter.* Mr. and Mrs. Gabennesch have gone to Florida to reside.

The INDIANAPOLIS NEWS

IN 1923 and again in 1924, The Indianapolis News printed more paid advertising than all other Indianapolis newspapers combined (six issues a week against thirteen). And then, breaking records that have stood since 1920, The News had in 1925 the largest October in its history.

By invitation, exclusive Indiana representative, The 100,000 Group of American Cities.

* Represents average daily production during best three months of previous years, with allowances for changes in machines.

NEWSPRINT production in the United States during October 1925 amounted to 135,225 tons and shipments to 142,204 tons according to the monthly bulletin of the News Print Service Bureau. Production in Canada amounted to 137,506 tons and shipments to 139,982 tons, making a total United States and Canadian Production of 272,731 tons and shipments to 282,186 tons. There was also 12,314 tons of newsprint made in Newfoundland and 1,157 tons in Mexico in October, so that total North American production for the month amounted to 286,202 tons and for the first ten months of the year to 2,592,051 tons. The newsprint mills also made 1,919 tons of hanging paper, 462 tons of which were made in Canada. Stocks of newsprint paper at United States mills totaled 20,446 tons at the end of October and at Canadian mills 20,328 tons, making a combined total of 40,774 tons which was equivalent to 3.7 days' average production. During October the United States mills operated at 90.2 per cent of capacity and the Canadian mills at 97.0%.

Comparing production during the first ten months of 1925 with same period of each of the five previous years the United States mills made 2 per cent more than in 1924, and 1 per cent more than in 1923, 5 per cent more than in 1922; 24 per cent more than in 1921 and about the same as in 1920; the Canadian mills produced 11 per cent more than in 1924, 18 per cent more than in 1923, 40 per cent more than in 1922, 91 per cent more than in 1921 and 71 per cent more than in 1920.

The combined production of the United States and Canadian mills for the first ten months of 1925 was 6 per cent more than in 1924, 9 per cent over 1923, 20 per cent over 1922, 50 per cent over 1921, and 26 per cent over 1920. There was a production of 71,695 tons in Newfoundland and 10,659 tons in Mexico during the first ten months of 1925.

Miss Scripps Aids Cleveland School

Miss Ellen B. Scripps, one of the owners of the *Cleveland Press,* has given $25,000 as the initial endowment of Cleveland college. She is 90 years old. Miss Scripps is a sister of E. W. Scripps and was employed as a proof reader in a newspaper office until she was 45 years old. Her contribution enables night school students to obtain degrees as valuable as those granted in two other colleges of Cleveland with which Cleveland College is connected. She is a native of London.

That strange light in his eyes while you are giving advice means that he has at last discovered how little you know.—*Birmingham News.*

NEW KELLY-SMITH BRANCHES

Offices Opened at Boston and Philadelphia and New Managers Appointed

The Kelly-Smith Company announced this week from New York headquarters the establishment of two branch offices, one at Boston and the other at Philadelphia.

The manager of the Boston office, which is located in the Waterman Building, 44 School street, is J. W. Cummings, who has been associated with the Kelly-Smith Company, in their New York offices, for more than six years. Mr. Cummings is a native of Fall River, Mass., attended Harvard University for two years, leaving in 1917 to enter the Army. In war service he was a first lieutenant with the First Division, at the front.

J. W. CUMMINGS

FRED D. STAHL

The new Philadelphia office will be managed by Fred D. Stahl, formerly of the Richard A. Foley Advertising Agency of Philadelphia. Mr. Stahl graduated from the University of Pennsylvania in 1915 and began advertising work with the Foley agency shortly afterward. His first eight months were devoted to a general study of advertising media. He became a space buyer in 1917, but enlisted in the Marine Corps and served until Jan. 31, 1919.

Returning to the Richard A. Foley Advertising Agency in February 1919 he became manager of the Plan and R Department with full charge of sp buying. He presonally bought all of t space from 1919 to 1923 on Velvet Smo ing Tobacco and other Liggett & My Products, running into an expenditure millions of dollars.

In 1923, Mr. Stahl became service a contact man on accounts and continued this work until 1924 when a cert amount of his time was devoted to act selling of Foley Service, resulting in ma new accounts.

The Kelly-Smith Company announc this week that Lawrence Dunlea formerly assistant to Mr. Pierson of Walter Thompson Company, at Chica had joined the Kelly-Smith Chica branch office, which has just been moved from the Lytton Building to t Chicago Tribune Tower.

NEW CHINESE PAPER

China Monitor, Semi-Monthly Pap Launched in New York

Ernest K. Moy, American correspon ent of the *Peking Daily News,* has pu lished a new Chinese newspaper, t *China Monitor,* a semi-monthly, w headquarters at 12 East 47th street, N York City, presenting Chinese and ge eral news, with pictures, in tabl form.

He claims that it is the first atter in this country to adapt American sta ards of journalism to a newspaper the Chinese language; and the chief a of the paper is the promotion of the i terests of Chinese merchants in Am ica by publishing facts and informati pertaining to the conduct and protecti of their businesses.

The tabloid is photo-engraved fr written Chinese characters, and is n being printed at the rate of 7,000 month, 3,500 each issue. The first iss of 5,500 copies appeared Oct. 1.

Pending the arrival of type fr China the paper is being written hand by T. M. Huang, the manag editor.

Our Own World of Letters

By JAMES MELVIN LEE

IF the 25 experts whose names are printed in the table of contents of "Masters of Advertising Copy" (Frank-Maurice, Inc.) were scheduled to speak at an advertising convention on the subjects which they discuss in this book every advertising man would be asking himself the question "Can I afford to stay away?"—not "Can I afford to go?" No such convention is possible for some of the contributors have made their last speech and written their final copy.

Who are the contributors to this volume? They include: Joseph H. Appel, Bruce Barton, Humphrey M. Bourne, Harry E. Cleland, George L. Dyer, F. R. Feland, Frank Irving Fletcher, Richard A. Foley, J. K. Fraser, Mrs. Christine Frederick, Kenneth M. Goode, John Starr Hewitt, A. Holmes, Claude C. Hopkins, Ruth Leigh, Theodore F. McManus, John Lee Mahin, Ben Nash, Wilbur D. Nesbit, A. O. Owen, Charles Addison Parker, T. Harry Thompson, Harry Tipper, James Wallen, and Helen Woodward. The editor of the volume is J. George Frederick.

The most important question is "What are the texts used by these masters of advertising copy?" While recent books on advertising are mentioned here and there, a careful reading of the volume shows that the two great texts are the newspaper and Bible.

Bruce Barton believes that three of the best principles of copy writing—brevity, simplicity, and sincerity—are exemplified perfectly in the New Testament parables. Barton never used that word "perfectly" carelessly. The unofficial degree "Master of Advertising Copy" is only awarded for excellence in the use of words.

On the importance of words T. Harry Thompson says in the volume:

> Words are the working tools of the advertising craft. They are not things to be picked up and handled by those who have not learned the trade.
>
> Unskilled hands that would shun the surgeon's scalpel or the carver's spoon-gouge sometimes make bold to seize these tools of advertising and ply them with abandon. As a result, advertising is frequently scarred and blemished, when it might have revealed the beauty and symmetry of finished craftsmanship.

While Mr. Barton in his contribution "Human Appeals in Copy" insists that Jesus was the greatest of all advertisers James Wallen in his chapter "Emotion and Style in Advertising Copy" boldly asserts that to his mind the greatest advertisement ever written is the 23rd Psalm of David and he gives his proof somewhat in detail. Later he makes this comment about emotion in copy:

> Let us remember that man does not live by the bread of reason alone. He lives partly by the inspirational word. We speak of pictures as a power. They are not nearly as potent as a few words of consolation that have gone down the ages. "Surely goodness and mercy shall follow me all the days of my life." The mere affirmation couched in the language of faith without a shred of explanation suffices all of the needs of the average heart and mind. Now, here is the great secret of emotional writing. There is reason back of it, but the machinery is not revealed. The author finds that his thought is logical—that it analyzes, so he presents it. It is not necessary to print the formula on the glass of wine nor count the molecules in the pearl. I am conscious of reasoning about emotion now and, in so doing, I open myself more to debate than if I wrote a song instead of a lecture.

Toward the close of this chapter Mr. Wallen mentions four advertisements remarkable for "fidelity to the idea and mood and perfect balance in the clothing of them." He then adds:

> These advertisements had the fervor of oratory, and it is a peculiar coincidence that they all savored of Biblical literature as if the writers had dipped their pens in the incense of the great Hebrew poets. No one can, however, deny that the Bible has commanded some influence in this world.

Charles Addison Parker in his chapter "Wanted—By the Dear Public" takes exception to the assertion that the ordinary things that are advertised have no special sense of poetry about them and adds this pertinent remark:

> And yet they have when we run across them in the Bible, haven't they? I find thousands of references in the Bible to the commonest things of life: a mustard seed, interest on money, loaves of bread, yokes of oxen, coats and shoes and olive oil and honey and sparrows and houses and fig trees and sheep and vineyards; and each one charged with that sense of mystery and poetry.

Joseph H. Appel in his chat "Axioms of Advertising" pays this tribute to the newspaper:

> The newspaper is the natural medium for advertising. Distribution of merchandise is most efficient when concentrated and cooperative, under freedom of competition, with just rewards to the most capable. Distribution is greatest where the three elements of a sale are densest—merchandise, people and money. Newspapers circulate in the densest centers of population, where are also congreated the largest stores with the greatest column of merchandise; they are, therefore, the most efficient media for all advertising.

Kenneth M. Goode sends this message through "Copy First":

> For there is nothing so absolutely unimportant as copy for copy's sake. Copy is only the telephone wire that carries the message: if only it carry the message clearly, swiftly, accurately, powerfully, the wire itself may be as rusty and bent as an old nail.

What is most important in his message is where he shows a tremendous waste in advertising through a comparison of copy in advertisements and copy in special feature articles.

Helen Woodward in her chapter "The Sales Power of Good Copy as Demonstrated in Book Advertising" offers these three suggestions:

> First, that the publisher advertise books for what is in them rather than some literary measure of forty years ago; second, that publishers appeal to a new public; and third, that publishers invest in a non-literary author with the same foresight which a soap manufacturer might invest in soap.

J. K. Fraser's contribution is a chapter of "Copy Dont's." From his three pages of don'ts the following three are selected practically at random:

> Don't fail to make a special study of headlines. The headline makes or breaks many an advertisement.
>
> Don't assume that people won't read long advertisements. Rather admit to yourself "I don't know how to be interesting."
>
> Don't be fooled by dumb advertising which has succeeded. Look behind the scenes for expensive sampling, clever sales work, an extraordinary product or some other important factor which turned the trick.

Humphrey M. Bourne opens and closes his chapter "Simplicity in Advertising Copy" with the advertising man's prayer, "O Lord, make me short on words and long on ideas." To which every advertising man of the Methodist persuasion will shout a loud "Amen."

The real text used by George L. Dyer in his chapter is "Advertising is News."

Theodore F. McManus in his chapter is short on dont's and long on do's as he discusses how to write advertising copy.

Claude C. Hopkins tells about "Some Lessons I Have Learned in Advertising." Here is one of his lessons:

> In other ways I learned the fearful cost of changing people's habits. One was in a campaign on oatmeal, another on a dentifrice. I tried to induce more people to eat oats, and I found that the cost of winning new users was vastly beyond any possible returns. I tried to convert new users to the tooth brush habit. As nearly as I could figure, the cost was $25 per convert. If all converts used our tooth paste all their lives we could scarcely get the money back.
>
> So I quit that. I am letting others convert people to new habits. I simply try to get them, where they are converted, to use my type of product. Since I learned that lesson, I have spent millions of dollars in advertising oatmeal and tooth pastes. But I have never used one line, one word, to win people to a habit they have not as yet adopted.

J. George Frederick gives a valuable list of data questions for advertisers in his chapter "The Research Basis of Copy."

F. R. Feland in his chapter "Making Advertisements Read" answers these three questions:

> Why do people read at all?
> What is it they read?
> What are the general attributes of the things they will not read?

Harry E. Cleland in his chapter "Looking at Copy and Looking Into It" develops this prayer of the advertising writer, "O Lord, this day make me think."

John Starr Hewitt describes "The Copy Writer's Work Bench." Even the shavings from this work bench are interesting.

"Masters of Advertising Copy" is like a newspaper: some will like one story; others, another. Space has permitted only a few of the headlines of the advertising stories. All the chapters are worth reading. The only one that needs a little more research and careful editing is the one which traces the growth and development of advertising. Modern resea has brought forth some very interest things about the beginnings of adver ing, but Mr. Frederick may be pardo his slips because of the excellent work has done in bringing together such a v uable collection of papers by ackno edged masters of advertising copy.

Long Beach *is the Fourth Largest City in California!*

AS strategically situated as either Oakland, California, or Brooklyn, N. Y., the present and future markets of Long Beach are irrevocably assured.

Its amazing growth from a town of 17,800 people in 1910 to a thriving city of 135,000 with metropolitan importance in 1925, is attested by building permits averaging over $20,000,000 per year, total bank deposits of $52,323,768 and a monthly industrial payroll of $1,500,000.

Long Beach is not only in the "100,000 class," but serves 200,000 people within a 10-mile radius of the city proper.

In this valuable merchandising field the PRESS-TELEGRAM is the dominant daily newspaper, with a circulation 4½ times that of its nearest Los Angeles competitor, and twice that of all the Los Angeles dailies combined.

Manufacturers seeking profitable markets for their products cannot afford to overlook the Long Beach PRESS-TELEGRAM as the preferred advertising medium in its important field.

Blessed is the man that walketh not in the counsel of the ungodly, nor standeth in the way of sinners, nor sitteth in the seat of the scornful.—Psalms, 1; 1.

WHO PAYS FOR ADVERTISING?

COMPLETE candor with the public is a development of the day's business enlightenment. In New York the Gimbel Brothers' great store recently advertised in page spaces that October sales were $13,300,000, a gain over last year's October of $1,900,000. Another conspicuous instance of business candor was exhibited at San Francisco last week by Granat Brothers, manufacturing jewelers, who took a five-column newspaper space to explain to the public that advertising is not a tax upon the consumer.

This piece of copy, signed by Jay Haight, the advertising manager of the store, is a classic. In heavy display is asks: "Who Pays the Advertising Bills?" A Granat advertisement in a Sunday newspaper, it was shown, cost $800, and Mr. Haight declared: That advertisement brought $16,000 in sales, costing 5 per cent. It is so year in and year out. Does it raise the price of the diamond ring you select? Does it add a further tax upon your pocketbook? We believe not. The advertising increases sales and as a result the ratio of other expense is lowered. Whether we sell $1,000 a year or $100,000 a year, the rent is the same.

This remarkable store publicity then goes on to show that the average overhead expense of 394 retail jewelers last year, as certified by the Harvard Bureau, was 38.3 per cent of their sales, but Granat Brothers expense was 25.2 per cent. Many of these jewelers did not advertise. Their combined sales reached $34,978,000 and their net profit was only 1.2 per cent of sales. Granat Brothers sold their goods at about 8½ per cent lower gross profit than the average, but made 5½ per cent net on sales.

"Advertising," wrote Mr. Haight, "increased sales to a point where we could afford to sell our diamonds and jewelry at lower prices to you and still make a larger net profit for ourselves. That is having your cake and eating it, too. So our customers did not pay for the advertising in increased prices. Who did then pay for the advertising? We'll tell you the answer. Our competitors in the jewelry business, chiefly those who do not advertise, paid for our advertising. They paid for it in trade that slipped away from them to us. They paid for it in the new customers we got which they might have had. They paid for it in high expense, low volume, high gross profit and low net. They paid for it in small turnover."

Look out for "free" daily menus—all are loaded with mooch advertising!

DO WOMEN BELONG?

MORE than 10,000 women are engaged in newspaper work in the United States. Editors have various opinions concerning their efficiency. Ferdina Reinholt, according to *The Journalism Bulletin,* has just concluded circulation of a questionnaire concerning the ability of press women, receiving replies from 84 editors in 39 states. The general opinion seems to be that women are not as good for the work as men, although show creditably in society or general reporting and in instances succeed in desk work, feature writing or as secretaries.

Some editors regarded them as "too temperamental, or lacking initiative or physical strength."

Nine editors, out of 84, found women writers to be persons possessed of sympathy and able to express it in news writing, being much less inclined to synicism than men. EDITOR & PUBLISHER conceives that these are nine discerning editors. They know something about the trade that others have missed. They have in mind the large fact that sympathetic news writing is desirable, that it warms the hearts of readers, refreshes faith, serves to light dark places, makes life better worth living. Intelligent, sympathetic, purposeful women have a high and a secure place in journalism. They have won it with honor in the race for half a century. The press carries a surfeit of chilling cynicism written by men, some expressing bitter truth which belongs to common knowledge, some distorted and out of place. All women writers are not necessarily committed to writing of "sweetness and light," but we do not know of a successful woman news writer who does not strive to find a silver lining for every cloud she describes.

In defense of women journalists, it might be said that there would be fewer instances of failure if editors would use better judgment in selecting women, in more appropriately assigning them and in protecting their finest and most delicate touches from the hacksaws of hurry-up copy desks.

Valuable suggestion to typewriter manufacturers: Put a paragraph sign on machines used by newspaper writers!

TOLERANCE EDITION

TOLERANCE is one of the high ideals and the editors of the *Minneapolis* (Minn.) *Star* will do notable public service in promoting it by lending the editorial powers to the representatives of five dominant religious faiths for a day.

Next Tuesday's editions of the Star will furnish a complete journalistic novelty. It will be edited by a Congregational minister, a rabbi, a Catholic priest and a Lutheran clergyman, while a Methodist minister will aid by drawing a cartoon. Editor W. C. Robertson will step aside for the day and permit the clergymen to have their way.

Interesting as is the significance of this event, the publication, we dare predict, will not show any important departure from routine custom as regards religious freedom and race tolerance. There is not in the whole country an outstanding daily journal which is editorially committeed to a policy of race or religious antagonism. That brand of mischief, at least in concrete form, is dead in America. The press, however, has incalculable opportunities to actively serve the high cause of race and religious tolerance among the people and a new pace may be set at Minneapolis. How the committee of editors will handle social, political and economic controversies will be interesting, but inconclusive.

WANTED—A HISTORY

A THRILLING history might be written of th progress of American civilization paced by fre spirits who found their expression in dail newspapers. Behind every great movement has bee one or more courageous journalists, fighting for fre dom and its fruits.

A writer, signing "F. J. L.," presents in the curre issue of *The Iowa Journalist,* a monthly periodic published by the School of Journalism of the Un versity of Iowa, a sorry list of omissions of new paper men and their works from recently publishe textbooks of United States history for use in co leges. The writer suggests that historians are n familiar with the contributions made by newspape in the political and social structure of America, e tirely failing to avail themselves of the treasures o source material to be found in the files of newspaper

Here are some of the omissions cited: In "Political and Social History of the United State 1492-1828," there are but three indexed references t newspapers. The first tells of the apearance of th *Boston News-Letter* in 1704, but does not take th pains to give the name of John Campbell, the pione postmaster and printer of Boston.

The second informs the reader that the three news papers in circulation by 1730 (names not given showed more evidence of literary impulse than can b found in the books of that period; that by this tim other important centers had newspapers, "dissemina tors of information and quickeners of thought."

The third reference is to the attacks on Presiden Washington made by Philip Freneau. But the reade is not informed that Philip Freneau was the editor o Jefferson's paper, the *National Gazette,* with whic the secretary of state was fighting Hamilton's pape the *Gazette of the United States,* and making Wash ington as well as Hamilton decidely uncomfortable.

Another college textbook of United States histor has but a single reference to newspapers.

An important contribution to the weath of Amer ican historical literature awaits the hand of a write who, appreciative of the valor of those who fough for the free press we enjoy, shall make a new recor of progress from this sorely neglected point of view

It is now proposed to ascertain whether the Federal Trade Commission can compel a newspaper to accept advertising which the publisher deems objectionable, but we imagine that the result will be as empty as all previous attempts to break down the principle of private control.

THE OLD CLUB

HERE is the old club with a new coat of varnish In the State of Washington, at Walla Wall a lawyer and a number of local advertiser have formed a corporation to be known as "Unite Advertisers, Inc." Evidently the business in hand i to repress newspaper advertising rates and dictat terms.

Under the list of objects and purposes of the cor poration, as stated in the incorporation papers, th following appears:

> "On a non-profit, co-operative basis for the stockholders of this corporation, and as the agent of and on the behalf of other advertisers to engage in making contracts for all classes of advertising and to negotiate for and with all classes of newspapers, periodicals, printing concerns and advertising agencies for the publication and distribution of all kinds of advertising matter."

But the real object is to "pool the advertisin needs of the members and buy space from the news paper in bulk." That is to say, the corporation pro poses to buy bulk space and resell it, on a non-profit making basis, to its members. The business obviously, is to break rates in the interest of th membership.

This is a visionary scheme and will probably no "get beyond first base" in Walla Walla, but it indicate the disposition of occasional local advertisers to con trol newspapers.

Stand firm against such movements! Ad vertising rates must be democratic, open alike to al comers. When a few advertisers propose to corne space, or to dictate rates, the time has come for con test, for behind such a movement is dynamite.

PERSONALS

DR. DOUGLAS FREEMAN, editor of the *Richmond* (Va.) *News-Leader,* historian and orator, will be one of the speakers at the annual meeting of the Virginia Society in New York on Dec. 6.

John L. Stewart, editor and publisher of the *Washington* (Pa.) *Observer and Reporter,* accompanied by Mrs. Stewart and their daughter have left for a trip around the world. They will sail for the Orient from San Francisco in a few days.

Marshall N. Dana, associate editor of the *Portland Oregon Journal,* has been appointed a member of the state parole board of Oregon.

Grove Patterson, editor of the *Toledo Blade,* has been elected a trustee of Oberlin College, Oberlin, O., by the alumni.

George V. Moore, a nephew of A. P. Moore, former owner of the *Pittsburgh Leader,* now Ambassador to Spain, was appointed a judge of the Court of Common Pleas of Allegheny County by Gov. Pinchot. Mr. Moore, who served in the World War, was at one time on the editorial staff of the Pittsburgh Leader.

William F. Metten, publisher of the *Wilmington* (Del.) *Every Evening,* has returned from a week's visit to Asheville, N. C.

Chester E. Bryan, owner and editor of the *London* (O.) *Democrat,* has returned to his work after a long illness.

F. A. Hazeltine, editor of the *South Bend* (Wash.) *Journal,* and his wife are visiting in Chicago.

IN THE BUSINESS OFFICE

HAROLD E. WILLIS, former circulation manager of the *Des Moines Capital,* has joined the *Des Moines Register and Tribune-News* circulation staff.

Harry T. Watts, business manager, and F. E. McCray, manager of the classified department of the *Des Moines Register and Tribune-News,* are spending a few weeks visiting in Minneapolis, Milwaukee, Chicago, Kansas City and Louisville.

Robert McIntire of the circulation department, *Des Moines Register and Tribune-News,* is ill with influenza.

IN THE EDITORIAL ROOMS

L. V. B. RUCKER, formerly of the Hearst newspapers in New York and Washington and one-time cable editor of the United Press in New York, has returned to newspaper work as head of the copy desk and editorial writer of the *Miami* (Fla.) *Daily Tab.*

Tracy Sutliffe of the financial department, *New York Herald Tribune,* and formerly financial editor of the old *Herald,* has resigned to become assistant director of publicity, New York Stock Exchange.

C. C. Clifton, state house reporter for the *Des Moines Register and Tribune-News,* has been made commercial editor of the Sunday Register.

Grantland Rice, sporting writer for the *New York Herald Tribune,* and Frank Craven have written a football drama called "The Kick Off," which opened in Pittsburgh on Nov. 16.

Frank L. Pond has succeeded his brother, the late Frederick E. Pond, as conductor of the rod and gun column in the *New York Herald Tribune.*

Fred Whalen has joined the art staff of the rotogravure department, *Des Moines Sunday Register.*

Lawrence Hawkins is now police reporter on the *Lansing* (Mich.) *Capital News.*

Bob Horan, who acted as publicity representative in Iowa for Robert La Follette when the late senator ran for the presidency, has joined the staff of the *Des Moines Tribune-News.*

John Wolgamot, sporting editor, *Danville* (Ill.) *Commercial-News,* has resigned and gone to New York City, where he expects to do newspaper feature writing. He has been succeeded by Dan Farrell, country editor on the Commercial-News. Robert Poisall, formerly with the *Bloomington* (Ill.) *Pantagraph,* succeeds Mr. Farrell as country editor.

David Resnick, a student last year in the School of Journalism, University of Missouri, has returned to the *St. Louis Times.*

Mary Ruth Packard, who was graduated last June from the School of Journalism, University of Missouri, has joined the *Kansas City Journal-Post.*

John H. Griffin, of the city staff, *Springfield* (Mass.) *Union,* has been transferred to the copy desk.

Mrs. Maud V. Henderson, former La Plata (Mo.) newspaper woman, is now editor of the new community department, *Palmyra* (Mo.) *Spectator.*

Eldon Sanderson has joined the *Toledo Blade* copy desk.

Miss Barbara Hawley has joined the reportorial staff of the *St. Paul Daily News.*

Sid Murray has assumed editorial direction of the *Harlingen* (Tex.) *Daily News.* Jack Rector, former editor, was to go to Evansville, Ind.

Nelson H. Randall is doing night police for the *Toledo Blade.*

George Breed, City Hall reporter for the *Springfield* (Mass.) *Republican,* has taken an indefinite leave of absence because of ill health. He is spending the winter in New York.

Miss Edith Walton has joined the city staff of the *Springfield* (Mass.) *Union.*

Jay R. Mead of the *Springfield* (Mass.) *Union* staff, has resigned to go to Florida, where he will continue in newspaper work.

PRESS ASSOCIATION NOTES

EDWARD McKERNON, Eastern division superintendent, Associated Press, spoke before the City Club of Boston Thursday night.

Wayne Weishaar of the New York staff of the Associated Press has returned from a two weeks' visit to Des Moines, Ia., his home city.

A. L. Finestone, student last year in the University of Missouri School of Journalism, has joined the Kent Press Service in St. Louis.

Douglas Rowley, a graduate of New York University, has joined the New York office of Reuters News Agency as an assistant news editor.

MARRIED

D. W. BERNSTEIN, national advertising manager of the *New Orleans States,* to Miss Dorothy Wronker of Rochester, N. Y., Nov. 12, in Chattanooga, Tenn.

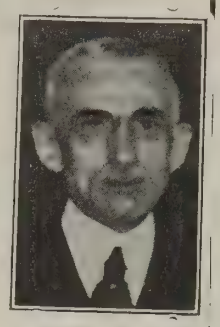
Philip Stong, member of the New York staff of the Associated Press, to Miss Virginia Swain, feature and serial writer for NEA Service, Inc., Cleveland, in Cleveland Nov. 8. They will reside in New York, where Mrs. Stong will continue her work with NEA.

Earl Minderman, now on the editorial staff of the *Columbus* (O.) *Citizen* and formerly with the *Toledo News-Bee,* to Mrs. Florence Blayney of Columbus.

William L. Mapel of the *Maryville* (Mo.) *Democrat-Forum,* to Miss Evelyn Raines.

Richard L. Scurlock of the advertising staff, *Blackwell* (Okla.) *Tribune,* to Miss Gladys Pratt of Enid, Okla.

Miss Evalin McMaster, society editor of the *Taylorville* (Ill.) *Daily Courier,* to James A. Bell in Chicago, where they will reside.



Stanley B. Lowe, former political writer for the *Springfield* (Mass.) *Union,* to Miss Evelyn E. Pine, former librarian for the newspaper, in Montpelier, Vt., Nov. 16. Mr. Lowe was recently appointed secretary to Congressman Henry L. Bowles.

HOLDING NEW POSTS

MERIWETHER LEWIS SHARPLEY, from *Chicago Tribune* copy desk, to news editor, *Lansing* (Mich.) *Capital News.*

FOLKS WORTH KNOWING

W. S. JONES, the man who is now general manager of the *Portland* (Ore.) *Telegram,* was, until recently, joint owner and business manager of the *Minneapolis Journal.* He graduated into daily newspaper work, after long experience in trade journalism.

W. S. JONES

Born in the Catskill district of New York, he moved to Minneapolis in 1884. A year later he was owner of a general merchandise trade paper, which met with remarkable success.

Later he established a paper in the interests of the hardware industry. Both trade journals achieved national reputation, and Mr. Jones sold them and in 1908, he and his brother, H. V. Jones, bought the Minneapolis Journal, an evening and Sunday paper.

For 14 years, Mr. Jones has been a member of the National Arbitration Board, an organization that handles labor matters for the American Newspaper Publishers Association.

Robert F. Harber, from *New Bedford* (Mass.) *Times,* to city staff, *Springfield* (Mass.) *Union.*

H. B. Appleby, from circulation department, *Lansing* (Mich.) *Capital News,* to circulation staff, *Chicago Herald and Examiner.*

John J. Reardon, from sporting department, *New York Herald Tribune,* to *New York Times* sporting staff.

WITH THE SPECIALS

KIMBALL-MOGENSEN Company, with offices in New York, Chicago, San Francisco, Los Angeles and Seattle, has been appointed national advertising representatives of the *Red Bluff* (Cal.) *News.*

SPECIAL EDITIONS

WORCESTER (Mass.) TELEGRAM, 68-page First New England Conference edition, Nov. 13.

Paducah (Ky.) *News-Democrat,* Murray State Normal section, Nov. 6.

St. Paul Pioneer-Press, 4-page section covering Junior Livestock Show, Nov. 12.

Champaign (Ill.) *Daily Illini,* University of Illinois student daily, 40-page edition with 8-page rotogravure in connection with Illinois-Michigan homecoming game, Oct. 24.

Elmira (N. Y.) *Star-Gazette,* 14-page extra section of news and advertising in connection with the annual presentation of the Knights of Columbus minstrel show.

Worcester (Mass.) *Gazette,* 62-page New England conference edition, Nov. 12.

Richmond Times-Dispatch, 104-page edition, with 20-page section in connection with Richmond's first annual radio show, Nov. 15.

NEW PLANTS AND EQUIPMENT

THREE Florida newspapers recently purchased new Duplex flatbed presses, the *Stuart Messenger, Deland Sun,* and *Tarpon Springs Leader.* The *Lansing* (Mich.) *Capital-News* has purchased a Duplex heavy duty mat roller. A new four page deck has been purchased by the *St. Johns* (N. F.) *Evening Telegram.*

Albert Lea (Minn.) *Evening Tribune* has purchased three Intertype line-casting machines.

LeRoy (N. Y.) *Gazette-News* has moved into its new building in Bank street of that village.

Recent Ludlow installations have been made by the *Philadelphia Tageblatt, Washington* (Pa.) *Observer Reporter, Marshfield* (Ore.) *Southwestern Oregon Daily News, Brazil* (Ind.) *Daily Times, Rochester* (N. Y.) *Herald, Daytona Beach* (Fla.) *Journal, Eugene* (Ore.) *Register* and *Ansonia* (Conn.) *Evening Sentinel.* Foreign installations include the *Calcutta* (India) *Statesman* and *Stuttgart* (Germany) *Stuttgarter Neues Tageblatt.*

CHANGES OF OWNERSHIP

T. W. Parry, Jr., has sold the *Centralia* (Mo.) *Courier* and joined the editorial staff of the *St. Louis Post-Dispatch.*

Alexandria (Ind.) *Times-Tribune,* a daily published by Will F. Baum for the last 13 years, has been sold to DeLoss Arnold of Alexandria, associated with Mr. Baum since the latter acquired the paper.

Nebraska City (Neb.) *Daily,* oldest newspaper in the state, has been sold to Early R. Marvin, publisher of the *Beatrice* (Neb.) *Daily Sun.* The Nebraska City Daily was founded in 1854.

Warren F. Brooks of Philadelphia has bought control of the *Easton* (Md.) *Gazette* from J. Waters Russell, who held a majority of the stock.

Poulsbo (Wash.) *Record* has been purchased by Peter Iverson, editor, *Poulsbo Kitsap County Herald,* from C. P. Christenson.

ON THE MECHANICAL SIDE

THEODORE EICHHORN, secretary of the Erie (Pa.) Typographical

CENTRAL PRESS

Is Dominant

in the Keystone State

THE Central Press Association had 18 clients in Pennsylvania, eighteen months ago. Now it has FIFTY!

Central Press has a client in 13 of the first 15 cities of the state, and service begins to newspapers in the two other leading cities in six months.

No other illustrated feature news service is in so strong a position in this great state. Central Press has more Pennsylvania clients than ANY competitive service, and Central Press features have more readers.

If you want to know the name of the most popular illustrated daily newspaper feature service in America, study the figures in our series of advertisements in the Editor and Publisher, of which this is the second. Figures don't lie.

The Central Press Association

V. V. McNITT, President — Central Press Bldg., Cleveland — H. A. McNITT, Manager

P.S.—We produce the world's best daily picture page.

Union for the past 25 years, resigned last week because of his increasing duties as street director in Erie.

H. C. Johnson has been elected president of Olean (N. Y.) Typographical Union, No. 345. Other new officers are: vice-president, Tracy G. Saint John; secretary and treasurer, Orrin P. Oakley.

ASSOCIATIONS

EASTERN LEAGUE BASEBALL WRITER'S ASSOCIATION held its annual meeting and election of officers at Waterbury, Conn., last week. Officers elected were: John M. Greene, *Hartford* (Conn.) *Courant,* president; Clarence J. Cassin, *Waterbury* (Conn.) *Democrat,* vice-president; Victor N. Wall, *Springfield* (Mass.) *Union,* secretary-treasurer.

Mail Advertising Service Association of Boston elected the following officers last week: President, Mrs. Elizabeth J. Broderick; vice-president, Miss Mary Flynn; secretary-treasurer, Benjamin Gottesman; directors, E. R. Andrews, Charles W. Hawkes, John A. Loring, and the Misses Mary A. Dewell, Gladys Gilliam and Jessie M. Sherwood.

Special Libraries Association will hold its monthly dinner meeting, Nov. 30, at the Town Hall Club. James Melvin Lee, director of the department of Journalism, New York University, Louis Wiley, business manager *New York Times,* and William Alcott, librarian of the *Boston Globe,* will speak.

Iowa Press Association has tentatively selected May 6-8 as dates for its annual meeting at Des Moines.

SCHOOLS

MAURICE E. VOTAW, professor of journalism at St. John's University at Shanghai, China, for the past three years, has returned to his home in Columbia, Mo., on furlough. He will replace Dean Walter Williams of the Missouri School of Journalism for four successive lectures to the class in History and Principles of Journalism.

Forty specialists in the mechanical, editorial, and business phases of newspaper making will address the 1,100 editors of school and college publications and their advisers at the annual convention of the Central Interscholastic Press Association in Madison, Wis., next Friday and Saturday, Nov. 27 and 28.

Sixty Kansas high schools were represented by more than 220 delegates—editors, business managers and supervisors—at the seventh annual conference at the University of Kansas department of journalism, Nov. 14-15.

Mrs. May Bunnell Hartman of Dansville, N. Y., has presented to the Department of Journalism, New York University, the various pamphlets and reports relating to the press of the State of New York brought together by her father, the late A. O. Bunnell. Mr. Bunnell was for many years editor of the *Dansville Advertiser,* and for almost as many years secretary to the New York State Press Association. This collection is also remarkable for its completeness in literature relating to the journalism of New York State.

Installation of Alpha Zeta Chapter of Theta Sigma Phi, women's national journalistic honorary fraternity, took place at Washington State College, Pullman, Wash., recently, when the Scribblers' Club, local honorary, was given its national charter.

Eastern A. P. Board Meets

Eastern Advisory Board of the Associated Press met in New York Tuesday to discuss routine business. Richard Hooker of the *Springfield* (Mass.) *Relican,* chairman, presided. W. B. Bryant of the *Paterson* (N. J.) *Press-Guardian* is secretary of the group.

Martin Heads Capital Ad Club

J. O. Martin, editor of *The Transmitter,* employes' magazine of the Chesapeake and Potomac Telephone Company, has succeeded John Poole, president of the *Federal American National Bank,* as president of the Advertising Club of Washington.

MOTZ DIES SUDDENLY IN CINCINNATI

Business Manager of Times-Star Succumbs to Heart Failure—Had Been With Paper Since 1884

C. Henry Motz, business manager of the *Cincinnati Times-Star,* and one of the most widely known newspaper men in the country, died suddenly of heart failure Nov. 14 at his home. He was preparing to leave for his office when death overtook him. The funeral was held Tuesday at 2 p. m.

Mr. Motz, who would have celebrated his fifty-sixth birthday on Nov. 26, had been with the Times-Star since 1884, or since he was 14 years old. During all of Friday he had been in his office and apparently in the best of health.

News of his death came as a great shock to his friends and business associates.

Mr. Motz was a splendid example of the self-made man. Forced to go to work early in his boyhood, he became a telegraph messenger boy. It was during that term of service that he decided upon making newspaper work his life career.

His trips often took him into the Times-Star office and as soon as the opportunity offered, he took a job as office boy. While in that position he became a tireless student and soon emerged as a competent bookkeeper.

When a bookkeeper's job on the Times-Star became vacant, young Motz got it. Then he became assistant business manager, circulation manager and finally business manager.

Besides his widow he is survived by two children, J. Louis Motz and Mrs. Philip R. Cottrell.

Melvin A. Hoyt

Melvin A. Hoyt, 67, engaged in newspaper work in Wisconsin and Michigan for 40 years, died of heart disease at his home in Milwaukee, Nov. 17. For 30 years he was owner and publisher of the *Milwaukee Daily News* until that newspaper was absorbed by the Hearst interests. He also had published a paper in Sault Sainte Marie, Mich., in company with Chase Osborn, former Governor of that State.

Mrs. J. G. Tanner Dies

Mrs. May Vinton Tanner, wife of J. Grant Tanner, of the EDITOR & PUBLISHER advertising department died Nov. 13, at Mt. Clemens, Mich. Burial was in Mt. Hope Cemetery, Rochester, N. Y.

Obituary

ALEX C. SANDS, 68, Ohio newspaper man, died Saturday at the home of his sister in San Jose, Cal. Mr. Sands was at one time managing editor of the *Cincinnati Enquirer.* Later he was engaged in newspaper work in Columbus and was connected for a time with the state library. He also represented the *New York Times* in Columbus.

ROBERT R. COLEY, 58, father of Richard Coley, editor and publisher of the *Buffalo Evening Post,* died after an illness of several months.

SAMUEL R. SAUNDERS, 80, for many years editor and publisher of the *Hamburg* (N. Y.) *Erie County Press,* died recently after a long illness, which forced his retirement from his publishing duties seven years ago.

JOEL FEDER, president of the New York Syndicate News, which distributed photographs of fashions throughout the United States and Europe, died in New York, Nov. 15.

DANIEL B. TIDD, 67, for 30 years city editor of the *Lancaster* (O.) *Daily Eagle,* and correspondent of the Associated Press, died at his home in that city this week. He was elected president of the city council at the election this month, receiving the largest majority of any city candidate.

ETHEL BOWMAN RONALD, 46, wife of W. R. Ronald, publisher of the *Mitchell* (S. D.) *Daily Republican,* died Nov. 8. Mrs. Ronald was the author of numerous short stories and poems.

JOHN L. SHIELDS, 68, former owner and publisher of the *Mt. Pleasant* (Pa.) *Journal,* died Nov. 7. Mr. Shields was a graduate of Princeton University and a classmate of Woodrow Wilson. He took over the Journal in 1878 and published it until several years ago.

WILLIAM THOMAS WOOD, probably the oldest pressman in Virginia, died recently in the home of his son, Milton C. Wood, in Newport News. "Uncle Billy" learned his trade on the old *Richmond Dispatch,* continuing in the service of the Dispatch and the *Times-Dispatch* for 47 years. Later he ran the press of the *News-Leader.*

HON. JOHN Q. VAN SWEARINGEN, 59, president judge of the Fayette County courts, died at his home at Uniontown, Pa., Nov. 18. Judge Van Swearingen was a stockholder and an active figure in the Fayette Publishing Company, publishers of the *Uniontown Morning Herald and Evening Genius.*

HENRY H. MARCY, 69, oldest employe of the *Pittsburgh Chronicle Telegraph,* died at his home in Knoxville, a suburb of Pittsburgh, Nov. 17. Mr. Marcy had been connected with the editorial department for the past 38 years. He was city editor of the Chronicle Telegraph for some years and later was the court man.

CHARLES J. PETERSON, 57, for 22 years editor of the *Alcester* (S. D.) *Union* and widely known South Dakota newspaper man, died recently.

MISS ABBIE MACFLYNN, for more than 30 years society editor of the *Burlington* (Ia.) *Gazette,* died Nov. 10 at St. Francis Hospital, after several months illness.

CHARLES A. BIRD, former Hornell editor of the *Elmira* (N. Y.) *Telegram* and more recently general manager of the William Fox studio on the Pacific coast, died at his home in Hornell, N. Y. Oct. 11.

J. S. SHEPHERD, 91, publisher of papers in Keosauqua, Corydon and Mount Ayr, Ia., practically all his life, and one of the oldest Masons in the state, died at his home in Mount Ayr, Ia., Nov. 11.

DARIUS H. MINSHULL, 64, a compositor on the *New York Graphic* and formerly connected with the *World, Herald* and *Journal,* died on Sunday at his home in Brooklyn.

Weekly Publisher Named Senator

Gerald P. Nye, 33, appointed Senator from North Dakota by Governor A. G. Solie, Nov. 14, has for years been a weekly newspaper publisher, directing the *Cooperstown Griggs County Sentinel-Courier.* He will succeed the late Senator E. F. Ladd.

New Executives On Oregon Daily

W. H. Grubbs, formerly of the *Santa Rosa Press Democrat* and the H. F. McCann Company, has been appointed advertising manager of the *Klamath Falls* (Ore.) *News.* George P. Hunt has joined the staff as editor.

Apropos of Church Advertising

Your readers are interested in religion.

There is today, unmistakably, a quickening of interest in all aspects of religion. It is the one theme that has a vital, universal and unceasing appeal.

That is why the New York Herald Tribune is publishing a series of articles by celebrated men and women on "My Religion."

And other newspapers throughout the country are developing church news and church advertising.

Our Church Advertising Department is anxious to give its service to your newspaper. Write us for plans and copy to develop your church page.

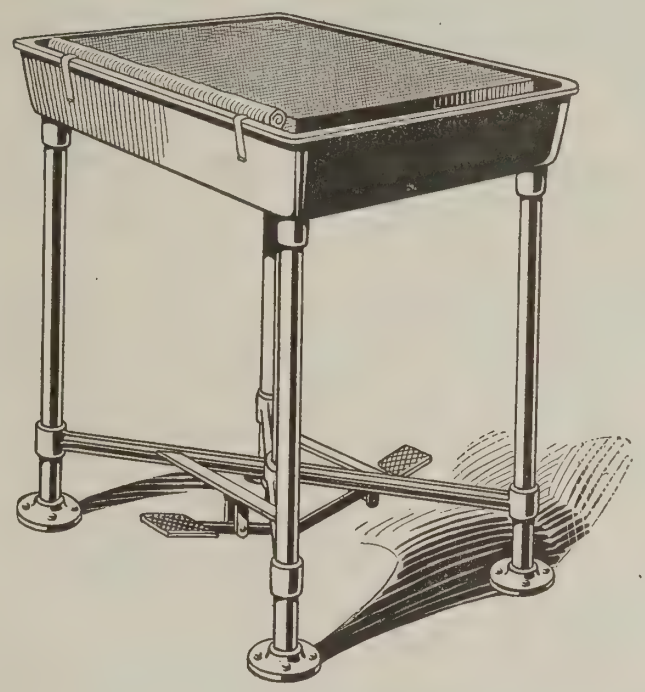
POWERS PERFECTION COOLER

Every Newspaper Photo Engraving Plant should have at least one



The Powers Perfection Cooler requires no water connection of any kind.

It can be moved at will by simply picking it up and placing it where it is wanted.

It has no mechanical parts to get out of order.

It applies cold water evenly and simultaneously to all parts of the plate—ON THE BACK OF THE PLATE only.

It cools the plate instantaneously to the exact temperature required and saves wiping, mopping and reheating.

The price of the Powers Perfection Cooler is $350

The *Powers Perfection Cooler* met with the instantaneous approval of both the workers and the owners wherever it was installed and tried. The men in the shops like it because it helps them in their work. They save time and effort, turn out more work and better work, and do it with very little physical labor. It is a clean, workmanlike way of doing what is otherwise a messy, sloppy task.

Proprietors like it because it saves gas, water, time and makeovers. These savings mean money and profits and that is what we all want. To satisfy yourself, go into your etching rooms and see what happens when the etcher tries to cool a large plate by dragging it over a roller wrapped in old towels and rags or a piece of burlap. Watch the plate buckle and then see him try to straighten it out. You know what that means in color work.

The use of the Powers Perfection Cooler does away with buckled and twisted plates, the splashing of water on the face of the plate and the constant work and worry connected with etching. A zinc etching is heated from 13 to 16 times by the etcher. That tells the story.

WHAT'S WHAT IN THE FEATURE FIELD

Warner's Song Introduces "Love Bound" in Baltimore—New Omaha Mat Service Organized—Cosmos Handling Galli-Curci's Adventures

IT is a lucky newspaper that has a poet to promote its features.

This week all Baltimore is humming and dancing to "Love Bound" new popular song by Henry Edward Warner of the *Baltimore Sun* staff and writer of "Songs of the Craft" which appear in EDITOR & PUBLISHER each week. It was written to announce the start in the Evening Sun, Nov. 19, of "Love Bound" Beatrice Burton's latest serial, which is being handled by Johnson Features, Inc., New York.

Ten days ago a conference of Sun executives was considering publicity for the feature. Mr. Warner offered to write a song with the serial title. It was suggested that this would take considerable time. Mr. Warner astonished the conference by promising to have both words and music ready within 24 hours. He left for his office and after invoking the muse had the lyric written in less than an hour. That night the music was written and next day 2,000 copies of the song were printed. Hotel and dance orchestras played the piece, entertainers sang it; it was sung in the schools.

Arrangements are being made for use of the song by Johnson Features, Inc.

Electricaster Service, Inc., is a new company just formed at Omaha, Neb., for the production of a weekly feature and art service in mat form. E. E. Beard, formerly a Pacific coast publisher is president. Electric equipment will be supplied for casting.

C. F. Hodge, formerly with the Western Newspaper Union, will be general manager of the new company. Editorial work will be in charge of Charles F. Wadsworth, who comes from the advertising promotion department of the *Los Angeles Times*. Electricaster Service will be released through the Western Newspaper Union.

Myles F. Lasker, vice-president of the Cosmos Newspaper Syndicate, after a tour of the South, paid a flying visit to New York last week before starting on a business trip through the Middle West. Among his syndicate's new features are "Magic Decorative Motifs," "Coded Limericks" by S. F. Dickson, "A Flapper's Diary" by Constance Talmadge, and "Fifth Avenue" a column of comment by Mrs. Katherine Lane Spaeth, wife of the critic and composer.

Five King Features Syndicate color comics are appearing in *Chiribitss* one of the weekly journals of humor in Madrid, Spain. The features which appeal to Spanish taste are: "Bringing Up Father," "Polly and Her Pals," "Tillie the Toiler," "Toots and Casper," "Barney Google and Spark Plug." The ballons are in Spanish and the titles have been changed into popular Hispanic names.

"Singing Around the World," Madame Amelita Galli-Curci's record of her 100,000 miles of adventure since she left Italy, is a new Cosmos Newspaper Syndicate, Inc., feature. It is illustrated and describes the salient points of the great coloratura's life.

"The Life Story of Christy Mathewson" is a new feature being written for the Bell Syndicate, New York, by Mrs. Christy Mathewson in collaboration with Bozeman Bulger. This syndicate also has a new series by Neysa McMein, famous American artist and illustrator, on Numerology, colors, vibrations, harmony, etc., in relation to character and life.

Edward Dolbey, of the New York Herald Tribune Syndicate will arrive in New York this week from a three months' business trip by automobile covering virtually the entire country. He travelled west through the upper tier of states to Seattle, down the coast through Southern California and Arizona, along the Southern states to Florida, and back to New York through the East coast states. Mr. Dolbey was accompanied by Mrs. Dolbey.

Henry Martin, manager of the Des Moines Register and Tribune-News Syndicate visited New York this week on business following a trip through the South. His syndicate is handling a new feature "Tiny Tot Tales" made up in rebus form for children. It is written by Martha Hart (Mrs. Helen Cowles Le Cron) and lettered and illustrated by Bob Williams.

The Boy Scouts Association of America have officially approved a new comic strip "Good Scout Andy" drawn by S. A. Booth for the Cosmos Newspaper Syndicate, Inc.

WEEK'S AD TIPS

George Batten Company, 383 Madison avenue, New York. Has secured account of the Happiness Candy Stores, Inc., Long Island City, N. Y. Reported will make up a list of newspapers for the National Lead Company, New York.

Yost, Gratiot & Company, 701 International Life Building, St. Louis. Reported to have secured account of the Emerson Electric Mfg. Company, St. Louis.

Tabulation of 430 *Answers Received to a Questionnaire Sent by the Boswell-Frankel Advertising Agency, New York City, to Two Thousand Representative Readers of the Sunday edition of* THE NEW YORK TIMES

QUESTIONS

1. *Do you regularly read the Magazine Section?*
2. *Do the women of your home read the Magazine Section?*
3. *Is the Magazine Section kept for leisurely reading?*
4. *Do you read the advertisements in the Magazine Section?*
5. *Do you answer the advertisements in the Magazine Section?*

ANSWERS

90% of these 430 representative readers regularly read the Magazine Section.

From the answers received it is indicated that in suburban families not only do *all* the women read the Magazine Section, but often they pass it on to others in the neighborhood. Women constitute 88% of the readers of the Magazine Section of The New York Times. 88%

73% have stated definitely that it is their custom to keep the Magazine Section for leisurely reading. There is frequent mention of its being passed on from one to another. It is also kept in libraries.

A check-up shows that 81% recall reading advertisements in the Magazine Section. 81%

56% of the readers who responded to the questionnaire stated that they had answered advertisements in the Magazine Section of The New York Times Sunday edition.

More than 600,000 *men and women buy The New York Times every Sunday. Of these,* 400,000 *are in New York City and within a radius of* 150 *miles.*

American Bottlers Plan Four Year Campaign—$300,000 Atlanta Campaign to Be Launched in 1926—Krekell Joins Gold Dust Corporation—Hupp Sales Rise

A FOUR-YEAR national advertising campaign is to be inaugurated in the near future by the American Bottlers of Carbonated Beverages, the national association of the manufacturers of "soft drinks." Endorsement by unanimous vote of the proposal to enter upon a large advertising program was one of the outstanding actions of the recent Annual A.B.C.B. Convention, held in Kansas City, Mo., and a contract for its execution has been made with the Millis Advertising Company, of Indianapolis, Ind.

The campaign will be an educational one designed to impress upon the general public the food and health values of bottled carbonated beverages and the sanitary methods employed in their manufacture and distribution. It will be financed by the individual bottlers and by the manufacturers of supplies and equipment used by the bottlers, and will be carried on in the leading national publications of this country.

Plans for the financing of the campaign over a period of four years by an equitable prorating of contributions from the bottlers and their supply houses, the preparation of copy and a consideration of mediums to be used, are in the hands of the A.B.C.B. Advertising Committee which is working with representatives of the Millis Company.

The A.B.C.B. Advertising Committee is composed of Charles V. Rainwater, Atlanta, Ga., chairman; I. M. Oberfelder, Baltimore, Md., and H. E. Kimball, Millis, Mass.

The Millis Company handled the "Say It With Flowers" campaign of organized floriculture; the "Gifts That Last" campaign of the National Jewelers' Publicity Association, and the advertising of a nation-wide group of large tourist camps by the National Association of Motor Lodges.

Fred Millis, president of the Millis Advertising Company, in a statement to EDITOR & PUBLISHER said that no definite information as to the size of the budget or the media to be used is available at this time. His agency is now making a nation-wide survey which will take six weeks or two months to complete, he stated.

Atlanta's $300,000 campaign of national advertising, said to be the largest ever undertaken by a single city, will be handled by Eastman, Scott & Co., Atlanta advertising agency, according to Ivan E. Allen, chairman of the committee of Atlanta citizens superintending the expenditure of funds.

The amount was raised by popular subscription. The Atlanta agency is now at work on its definite program of advertising, actual copy on which is expected to begin early in 1926.

E. Gerry Eastman, is president of Eastman, Scott & Co., and Myra C. Scott, vice-president. James E. Winn is secretary-treasurer.

Buick Motor Company's New York branch sold 1,287 cars in the metropolitan district during October, the second largest monthly volume this year. In sales volume Buick was second only to Ford, which led by 37 cars.

The consolidated statement of Stewart-Warner Speedometer Corporation as of Sept. 30, 1925, shows total assets of $39,788,927, compared with $27,069,981 Sept. 30, 1924. Profit and loss surplus totaled $15,792,076, against $13,361,930.

Sales of Hupmobile eights for the eleven months to Nov. 30 will be 13,500 cars, according to O. C. Hutchinson, general sales manager of Hupp Motor Car Corporation.

The directors of the Carbide & Carbon Chemicals Corporation, a subsidiary of the Union Carbide & Carbon Corporation, recently elected W. F. Barrett president. Mr. Barrett is also president of the Linde Air Products Company and the Prest-O-Lite Company, Inc., both of which are subsidiaries of the Union Carbide & Carbon Corporation.

The Monterey (Cal.) Sardine Canners' Association has been organized, with all the sardine canning firms represented. Herbert Hume, superintendent of the local plant of the F. E. Booth Company, has been chosen president; Ernest Bernstein, of the Carmel Canning Company, is vice president, and Joseph Alves, assistant manager for the F. E. Booth Company, is secretary. No statement was made regarding possible advertising plans of the organization.

The Reo Motor Cor Company delivered more than 34,000 cars, trucks, buses and taxicabs during the fiscal year ended Aug. 31, or 7,000 more than in the preceding year, a recent report states. Last month Reo delivered more units than in any previous October. November production will approximate 2,600 units. Dealers' stocks are only 40 per cent as large as a year ago.

A cooperative group life insurance program offering equal benefits to all its employes, from the highest officials down, has just been adopted by the National Biscuit Company. The insurance is expected to total nearly $30,000,000 and will provide protection, without medical examination, for approximately 25,000 men and women in more than 300 cities of the United States.

H. S. Conell has assumed the duties of advertising manager of the John Wanamaker store, Philadelphia. Mr. Conell succeeds H. Gordon Cilley, who recently resigned, after 16 years of association with the store. Mr. Conell comes from Gimbel Brothers, where he was a member of the advertising department. Prior to that, he was advertising manager of Strawbridge & Clothier for two years.

Again We Ask—Where Do the Checking Copies Go ?

Harrisburg Telegraph

Harrisburg, Pa.

"After a thorough trial, we are convinced that you have the Advertising Checking Bureau, Inc., functioning as nearly perfect as it is possible to make any service that aims to supply checking copies to advertisers.

Since using your complete service we have had very few calls for additional checking copies and the prompt and efficient manner in which you handle these few calls has convinced us that you have this work down to a real system and that you are really doing remarkable work.

We have no hesitancy in advising any publisher who wants prompt and efficient checking copy service without annoyance to tie up with your organization.

Yours very truly,

HARRISBURG TELEGRAPH,
A. R. Michener, General Manager."

IF every newspaper publisher was to use our complete checking proof service he would find his answer to this vexing problem.

Our service would mean a definite relief to his office as we would assume the entire detail work of supplying checking proofs promptly and efficiently to ALL of his customers—agencies and advertisers.

Over two hundred newspapers are now subscribers—and each one started by accepting our two months' trial test.

Would you take that chance?

A revelation in service awaits you.

The Houston Chronicle

Houston, Texas.

"I am in receipt of your letter of November 6th advising that you are now planning an extensive campaign to extend your service by the addition of more subscribers and requesting me to briefly set forth the benefits that we are receiving from the Advertising Checking Bureau, and I am pleased to submit the following:

(1) Your service has relieved us of considerable work and annoyance in mailing out tear sheets direct to advertisers.

(2) The present system of getting out checking copies is much less expensive than the old method.

(3) It has been our experience that your method of delivering tear sheets is more certain, which greatly stimulates collections.

(4) Generally speaking, we believe that most agencies prefer to receive tear sheets through the Advertising Checking Bureau rather than to receive them direct from the publisher.

About the only thing that would cause us to go back to the old method would be for the Advertising Checking Bureau to cease to exist and I do not hesitate to say that the Houston Chronicle is well pleased with the service that you are rendering.

Very truly yours,
G. L. Mims, Secretary."

Application for the Pennsylvania charter for the Smith, Schreiner & Smith, Inc., advertising agency of Pittsburgh will be made on Dec. 8. The incorporators are Lambert Smith, G. Reed Schreiner and Leo N. Dillon.

VINS ELECTION ON DEBUNKED" PLATFORM

om Sterrett, Erie (Pa.) Times Columnist, Sweeps County in Nov. 3 Election—Will Continue Newspaper Work

"People are tired of political bunk!" Thomas Garfield Sterrett, columnist on ıe *Erie* (Pa.) *Daily Times*, sets that own as proposition No. 1 for aspiring olitıcians following his overwhelming ection Nov. 3 as sheriff of Erie County, a., on a wet, independent ticket in a dry, ock-bound Republican county. He ran o the largest majority ever received by candidate for the office.

Sterrett, who was in charge of the ıblicity department of the Marines dur- g the war, and who has had long ex- erience in newspaper work and advertis- g, ran on a "de-bunked" platform.

It fascinated the public because of its ankness and made politicians aghast for e same reason.

Through his "What D'ye Know" col- nn in the Times he told voters he didn't ant the office in order to render lofty ervice" to the community, but because needed the money more than any other ndidate.

He told them he wasn't going to vote ry" and drink "wet"—that he was "108 r cent wet," and would leave enforce- ent of the prohibition laws to State and ederal authorities.

He declared allegiance to no party or oup.

He told voters he would give only part ne to the sheriff's job, and continue s newspaper work on the Times.

Mr. Sterrett discussed his unusual mpaign in New York this week for DITOR & PUBLISHER.

"I think my election, if it proves any- ing, proves that people are tired of litical bunk. I simply told them what would and would not do if I were ected. My advertising experience had ught me the value of reiteration—I unded the same ideas home every day my column. I used no paid advertis- g, and promoted my campaign solely rough my column.

"I think my campaign demonstrates at the power of newspapers to influence blic opinion has not waned. It was a matter of creating public interest in a personality through a newspaper column. I believe firmly that in these days of standardized newspapers and wishy-washy editorials readers look for a definite personality in the paper with whose opinion they can either take issue or concur."

The new Erie County sheriff intends to continue newspaper work, as he promised the voters, leaving the routine duties of his office in the hands of deputies.

Mr. Sterrett joined the Erie Times last April, after two years on the *Erie Dispatch-Herald*. After serving as publicity director for the Marines he was with the American Association of Advertising Agencies when that organization was handling government advertising.

Mr. Sterrett's political experiences will appear in book form in January under the title "Running for Sheriff," he has announced.

El Paso Times Opens N. Y. Office

The *El Paso* (Tex.) *Times* on Nov. 1 opened its own New York advertising office at 19 W. 44th street, with M. S. Cadden, former advertising manager of the Times, in charge. In addition to its Sunday English edition, the Times prints a weekly Spanish edition dated Sunday and issued on Friday. M. J. Boretz is advertising manager in charge of the Spanish edition; E. T. McCormick has charge of advertising in the English editions, with the title of assistant advertising manager.

Will Rogers Advises New Orleans

When Will Rogers visited New Orleans recently the *Sunday Item-Tribune* printed a 4-page Will Rogers section carrying a full page ad placed by the city of New Orleans and containing a letter of welcome from the Mayor. Before leaving town Mr. Rogers bought half-page space in Item-Tribune, *States* and *Times-Picayune* thanking the Mayor for his welcome. The comedian advised the city to stick to its customs and traditions rather than becoming a "typical commercial club town."

Starts Merchandising Paper

The *Grand Rapids* (Mich.) *Press* this month started publication of *The Retailer's Bulletin*, merchandising paper, which will be issued monthly.

WANTED: An Opportunity to Help Build a Few Conspicuous Successes

There are good reasons why we can be exceptionally helpful to:

A FOOD ACCOUNT that will not conflict with
MUELLER'S MACARONI

A TOILET GOODS account that will not conflict with the products of
V. VIVAUDOU, Inc.

A HOUSEHOLD UTENSIL account that will not conflict with
WISS SHEARS

A MUSICAL INSTRUMENT account that will not conflict with
HOHNER HARMONICAS

A TOOL ACCOUNT that will not conflict with
KRAEUTER PLIERS

A SPORTING GOODS ACCOUNT that will not conflict with
KROYDON GOLF CLUBS

A PROPRIETARY ACCOUNT that will not conflict with the products marketed by
SMITH, KLINE & FRENCH

ALL the advertisers mentioned above are conspicuous successes. We do not claim that we made them so. They would have succeeded without us—but they are kind enough to say that our assistance has been of unusual value because in each instance we were able to supply the close and constant services of a *man* experienced in handling their special problems.

Our clients have helped us as much as we have helped them. The knowledge we have absorbed and the experience we have gained in our contact with them is at your disposal.

A word from you will put you in touch with *the man* in our organization who speaks the language of your business most fluently. He will not weary you with many words; but what he says will have meat in it.

NEWSPAPER MAKERS AT WORK

By PHILIP SCHUYLER

W. B. Bryant Makes Friends

"FRIENDS," said W. B. Bryant, business manager of the *Paterson* (N. J.) *Press-Guardian*, "are the best assets a newspaper man can have."

And at the convention of the American Newspaper Publishers Association at White Sulphur Springs last week, it was conclusively proved Mr. Bryant has many friends in this business. He also made many more for himself.

Mr. Bryant was chairman of the program committee, which, with the aid of the association's board of directors, and L. B. Palmer, manager, planned and executed what those who attended declared was the greatest convention in the history of the A. N. P. A.

"If a newspaper association accomplishes nothing else, it at least creates a remarkably fine spirit of friendliness among publishers," Mr. Bryant said in an interview. "I am a firm believer in association work. Friendly co-operation among publishers is of great benefit to the entire profession."

That Mr. Bryant has always believed in the value of newspaper associations can be seen in a summary of his career.

In the first place he is the son of William Cullen Bryant, late publisher of the *Brooklyn Daily Times*, who was one of the organizers and the first secretary and manager of the A. N. P. A. The son has carried along his father's interest in this national newspaper organization. For the past three years he has been chairman of the A. N. P. A.'s advertising agency committee, which he resigned this year to become chairman of the topics committee.

In his own State, Mr. Bryant is also actively interested in association work. He is a former president of the New Jersey Press Association and the Passaic County Newspaper Association.

This year he was elected delegate to the advisory board of the Associated Press by the New Jersey A. P. Editorial Association, which he helped to organize.

The elder Bryant did not want his son to go into newspaper work, and the present publisher of the Paterson Press-Guardian spent two years studying engineering at Columbia before he was able to prove to his father that he didn't want to do anything else but newspapering.

Thus he went to work on the Brooklyn Times as an advertising solicitor at $6 a week, working up in the family's paper until he became circulation manager and then assistant business manager.

In 1901, he became assistant business manager of the *New York Tribune*, a post he retained for two years, before he quit to take over the management of the *Paterson* (N. J.) *Press-Chronicle*.

Subsequently the Press purchased the Paterson Guardian and the two oldest evening newspapers in Paterson were merged. Mr. Bryant is now secretary and treasurer of the Guardian Printing and Publishing Company. He is also a part owner.

With the exception of eight months spent in Spanish-American war service with the First New York Volunteer Cavalry, Mr. Bryant has now spent an uninterrupted period of 28 years in newspaper work.

CHARLOTTE PUBLISHER HONORED

Several Hundred Attend Dinner to Col. Wade H. Harris

Several hundred representative citizens of Charlotte, N. C., and the Carolinas, including about 75 newspaper editors and publishers, Tuesday joined in honoring Col. Wade H. Harris, editor of the *Charlotte Observer*, at a dinner given by the Chamber of Commerce, in observance of the fiftieth anniversary of the beginning of his newspaper career.

The occasion was featured by brief addresses by Theodore Price, editor of *Commerce and Finance*, New York; J. W. Atkins, of Gastonia, president of the North Carolina Press Association; former Governor Cameron Morrison, Associate Justice Heriot Clarkson, of the North Carolina Supreme Court, and Mayor Harvey W. Moore, all of whom paid tribute to Colonel Harris for constructive service to the community.

FLORIDA

Sunshine City's Largest Circulation

The DAILY NEWS, St. Petersburg's *Picture Paper*, has the largest circulation in the Sunshine City.

The DAILY NEWS was started on March sixteenth last. Its circulation is growing daily . . . On October tenth it reached fifteen thousand, without the aid of any circulation campaign.

It carries the flag of progressive newspaper achievement in Western Florida. *Everybody reads the NEWS.* Any bank reference.

MORE SCIENTIFIC NEWS IN FRENCH PAPERS

Editors Recognizing Heightened Public Interest in Science by Giving Space to New Inventions and Discoveries

PARIS, Nov. 10.—In connection with the article which appeared recently in EDITOR & PUBLISHER, "Science Unexplored Journalism Field" it is interesting to note that the need for more scientific news is being felt as much in France as elsewhere. Where before the war a scientific article was a rarity in the Paris press, now almost every newspaper carries each day articles on scientific subjects.

The automobile first got French people interested in mechanics, as was manifest by the huge attendance at the automobile expositions before the war. The cinema added to this interest, and now wireless holds so many that there are few today ignorant of the elements of electricity.

The first inkling newspaper editors in France got of the possibilities of interesting their readers with more news of a scientific nature was when a monthly review entirely devoted to mechanics and science appeared. Its success was phenomenal. Then one paper after another began to publish articles on the latest inventions and discoveries.

In the forefront of such newspapers one might certainly place *Excelsior*, a daily belonging to the group of publications owned by Senator Paul Dupuy. This paper loses no opportunity to make known the latest inventions, giving clearly-drawn diagrams and explanations written in the simplest language.

Even a weekly publication devoted to literature, *Les Nouvelles Littéraires*, has a small section set apart for science, although one hardly expects the reader who delights in verse and elegant prose to be interested in machinery and invention. This is merely cited as an example of the great attention being paid to science in French newspapers.

The *Temps* never fails to report inventions or discoveries and reports faithfully almost all the lectures before tl scientific bodies of France.

There is undoubtedly a change takii place in the tastes of newspaper reade the world over, and French editors ha not been slow to realize that well-wr ten scientific articles appeal to ev growing numbers of their readers.

NEWSPAPER ADVERTISING CUTS MONTH SALE TO 8 DAYS

SOME time back a well known clothing store at Wabash, Ind., went into the hands of a receiver. The receiver was instructed by the court to liquidate the stock. He used newspaper space to aid in this. Here are some of the things accomplished:

The sale was planned to last a month, but was cut short because all merchandise was sold at the end of eight days.

At the end of two days, more money had been taken in than was offered for the entire stock by the highest bidder.

Receipts for the entire eight days were far in excess of expectations.

The sale recognized as one of the biggest merchandising events ever held in Wabash.

Since the stock had to be liquidated, creditors and customers both profited.

$2,500,000 Mill Expansion Progran

A program of expansion which will r sult in $2,500,000 being spent by t Inland Empire Paper Company at mill at Millwood, Wash., was announc in Spokane by Judson G. Rosebush, pre dent, this week. Mr. Rosebush ca west from Appleton, Wis., to confer w officials of the company.

Because they "turn the trick" EDIT & PUBLISHER classified columns show creased use weekly.

The Ludlow-Equipped Newspaper Constantly Holds

A New Attractiveness for Its Readers

THERE'S a keen satisfaction for the newspaper owner and advertiser in the sparkling, clean appearance of all-slug display advertising composition cast on the Ludlow.

With the elimination of worn, battered, broken type, Ludlow equipped newspapers take on a new attractiveness and typographic beauty because, from the day the Ludlow is installed, their display is always set in new, attractive and well proportioned faces. The Ludlow-set paper represents a saving in time, an increase in composing room efficiency and a lower productive cost, to say nothing of floor space saved by elimination of type cases.

A Ludlow will produce an inexhaustible supply of type in slug lines, from six to sixty point, including light, bold and extended faces—all without mold or machine changes.

There is a universal application of the Ludlow in the worlds' newspaper plants. The biggest metropolitan dailies have installed Ludlows because their readers and advertisers demand the best—the struggling country weekly uses the Ludlow because it conserves energy and spells economy.

W. A. WHITE HONORED BY SIGMA DELTA CHI

Kansas Editor Named Honorary President at Boulder Meet—Joseph Pulitzer Jr., Honored—Clark Named President

(*By Telegraph to* EDITOR & PUBLISHER)

BOULDER, Colo., Nov. 18.—Special business sessions of the eleventh annual convention of Sigma Delta Chi, national professional journalistic fraternity, came to a close this noon.

WILLIAM ALLEN WHITE

William Allen White, publisher of the *Emporia* (Kan.) *Gazette*, was elected honorary president; Donald H. Clark, editor of the *Mid-Continent Banker*, St. Louis, and national secretary this past year was chosen president; Joseph Pulitzer, Jr., owner of the *St. Louis Post-Dispatch* was chosen national honorary member; James A. Stuart, managing editor of the *Indianapolis Star*, first national vice-president; Lawrence R. Murphy, head of the Department of Journalism, University of Illinois, second vice-president; Roy L. French head of the Department of Journalism, University of North Dakota, secretary. Mortimer Goodwin, Chicago, treasurer; and Robert B. Tarr, Detroit, alumni secretary and director of personnel bureau were other officers elected.

Executive councilors elected were Franklin Reck, director of publicity, Iowa State College; R. A. McMahon, director of sports publicity, Purdue University; Carl Shoup, editorial department, *New York World* and Clifford Deputy, Des Moines, Ia. The Wisconsin chapter at Madison will be host to the 1926 convention.

Two chapters were granted to petitioning groups, Upsilon Pi Chi, a local fraternity at the University of South Dakota and the Fourth Estate Club at Butler University were admitted. A model initiation through which Sidney B. Whipple, managing editor of the *Denver Express* became an associate member of the Colorado chapter was put on before the convention by that Chapter Tuesday morning.

First place in the annual Chapter Efficiency Contest was won by the North Dakota Chapter which received a cup given by Prof. F. W. Beckman of Iowa Chapter former national honorary president. Five other chapters placing and in their order were Iowa, Colorado, Oregon, Wisconsin, and Toronto. The Efficiency Cup is presented to stimulate the professional character of the meetings.

The *Kansas City Star* was selected to be used in ritual ceremonies as a representative American paper. Each year a different paper is selected. Donald H. Clark, newly elected president, was accredited with having given the greatest service to Sigma Delta Chi for the past year and was awarded the Wells Memorial Key, the only jeweled insignia of the organization. The convention was called to order by Ralph L. Crosman of the Department of Journalism, University of Colorado, Monday morning. Prof. Crosman introduced Fred B. Hellems dean of the College of Arts and Sciences and acting president who gave an address of welcome and George F. Pierrot, national president of Sigma Delta Chi who opened the convention for business.

In the evening the delegates attended a banquet arranged by the *Boulder Daily Camera* and the *Boulder Daily News Herald*. at which L. C. Paddock, editor of the Camera was Toastmaster. Speakers at the banquet included C. T. Brainard owner of the McClure Newspaper Syndicate, A. A. Parkhurst, editor of the Boulder News Herald, Thomson Burtis, short story writer of New York, George Pierrot, national president, Donald Clark, national secretary and Ward Neff, secretary-treasurer of the Quill Endowment Fund. The Womans Press Club of the University entertained the visitors at luncheon Tuesday noon and won the admiration of all. Business gave way in the evening to social activities when the convention turned for recreation to a "49 ER" dance given by the Colorado Chapter. Following the close of the business session Wednesday morning the visitors were taken on a drive through Boulder Canon to a point near the foot of the Continental Divide.

A banquet was given Wednesday night by the Scripps Howard Newspapers and the *Denver Express*. Sidney B. Whipple managing editor of the Denver Express was toastmaster at the farewell event.

Daily's Cooking School a Success

The *Spokane Chronicle* recently completed its ninth annual cooking school, which drew an annual attendance of about 1,000 women for the six afternoons of the week. A baking contest for merchandise prizes donated by the merchants was a feature of the school.

St. Louis

A City of Diversified Demand

St. Louis is a composite cross section of the United States, with characteristics and buying habits found in all parts of the Union. It is neither eastern nor western, northern nor southern in character. With well-defined seasons, the St. Louis market has a seasonal demand for those articles in use in every section of the country.

Great Purchasing Power

The potentiality of a market depends largely upon its purchasing power. Automobile ownership and income tax returns are indexes to the purchasing power of a community. St. Louis, not including suburbs, has one automobile for every 1.66 families. In 1924, St. Louisans made 95,920 income tax returns. This is a greater number of income tax returns than any one of 38 states. Although surpassed in percentage by New York and Chicago, St. Louis is far ahead of Philadelphia, Cleveland and many other large cities.

A Compact Area Covered by ONE BIG Newspaper

The St. Louis market of 1,246,000 people, as defined officially by the Audit Bureau of Circulations, is a circle having a radius of 40 miles with St. Louis at its center. In this compact market, the most densely populated area of its size west of Chicago, five out of every eight families buy the Daily Post-Dispatch, and five out of every seven buy the Big Sunday Post-Dispatch. This is virtually complete family coverage at ONE COST—with no duplication.

Merchandising Service Co-operation

Valuable groups of information and general statistics now compiled and properly classified, are immediately available, but the Post-Dispatch will, upon request of any seriously interested agency, advertiser, or prospective advertiser, make a special survey concerning every trade angle for any specific product.

The Post-Dispatch is FIRST in St. Louis in Local Advertising, FIRST in St. Louis in National Advertising, FIRST in St. Louis in Classified Advertising, and FIRST in St. Louis Circulation.

A. N. A. STUDIES NEWSPAPER AD RATES

(*Continued from Page* 5)

should be determined by scientific study and be limited by economic considerations with interest to eliminate waste,

THEREFORE, be it *resolved* that the A. N. A. by vote of its membership in annual convention assembled expresses itself as unalterably opposed to the practice of newspaper publishers of both evening and morning papers of selling these two separate and distinct publications to national advertisers only as one unit; and be it further

Resolved, that it seriously objects to the discrimination shown by publishers of such combination in selling local advertisers either unit of their combination separately, while refusing to so sell them to national advertisers.

WHEREAS, Congress at its sixty-eighth session increased postal rates to a prohibitive point without any scientific basis, therefore to the detriment of American industry, and

WHEREAS, except for charges improperly allocated to the Post Office Department, the Department is now producing a substantial profit over and above the cost of carrying the mails, and

WHEREAS, said rate increases are discriminatory and amount to a special tax upon those who use the mails.

Be It Resolved, that the Association of National Advertisers composed of leading manufacturers of all lines of American industry, by vote of its membership in annual convention assembled, protest the increases as adopted, and

Resolved, that we advocate the return of second class rates to those in effect in 1920 for the reason that the 1920 rates produced the greatest volume of revenue from that class of mail for the Department, and

Resolved, that we advocate the return of first, third and fourth class rates to those in effect in 1924 for the reason that those rates, long in effect, were scientifically arrived at by the Post Office Department from the standpoint of the cost of carrying the mail, the proper balance of the mail and the public service which the Post Office Department should render to American business, and be it further

Resolved, that this resolution be spread upon the Minutes of the Association and that copies hereof be forwarded to each Congressman and Senator, the President of the United States, the Postmaster General, and other interested parties.

View of A. N. A. Delegates Meeting

"Tying up advertising with sales," was the announced keynote of the Monday business session, and speakers discussed merchandising through jobbers, tendencies in retailing, the need for closer cooperation in department store distribution, and the important problems of chain stores and mail order houses.

The meeting was opened with an address of welcome by Acting President Schumann and the report of Robert K. Leavitt, secretary-treasurer.

Inside organization conditions are in splendid shape they reported. The membership at 242, representing the biggest advertisers of the nation, is the largest in the association's history. The past year has been one of great good fortune for the A. N. A., Mr. Leavitt declared, adding it would be possible very shortly to increase the points of service offered to the membership.

Discussion of the chain store and mail-order house problems was injected into the opening session by Edward A. Filene, president of William Filene's Sons Company, Boston, who made the first formal address of the day. Subsequent speakers expressed varying views on the two subjects.

Mr. Filene was of the opinion that the chain store age had definitely arrived. He called it the "Fordization of business." The picture he drew of the future was of chain department stores, departments of which would be separate chains in themselves.

In regard to opinions on mass production and distribution, H. W. Prentis, Jr., general sales manager of the Armstrong Cork Company, the second speaker, differed from Mr. Filene.

"There is still room for the producer and the distributer who holds price secondary to quality," he said.

"I look upon mass production and mass distribution as comparable to a benevolent autocracy. The present system of distribution through jobbers and small retailers—and after hearing Mr. Filene I feel I must talk as a representative of a dying race—I would compare with democracy as we know it in America.

"I believe in the small independent merchants. It will be a sad day for the United States when all distribution and all production is massed in a few hands."

Mr. Prentis' subject was "Merchandising Through the Jobber," and he told a story of increase in sales of Armstrong's linoleum since 1913, when, with production outstripping demand, the first advertising program was carried out.

Success of advertising, when merchandising is through jobbers, he contended, is based on good salesmen above good advertising copy. He told of the training of salesmen by his company, and of four-day conventions held each year at the Lancaster (Pa.) plant for jobbers' salesmen.

And also to be successful, he said, advertising must be based on facts.

"Get all the facts and figures together you can on which to postulate your judgments," he advised.

As just one instance to show how advertising had helped his company, Mr. Prentis presented figures from a survey of the retail field, showing the percentages of customers who asked for Armstrong linoleum by name.

In 1921, only 31 per cent of the retail merchants asked declared the linoleum was purchased by its name; in 1922, it advanced to 49 per cent; in 1923, 64 per cent; 1924, 65 per cent, and 1925, more than 67 per cent.

Prof. H. H. Maynard, of the College of Commerce and Journalism, Ohio State University, discussed the subject, "Som Tendencies in Retailing."

Prof. Maynard pointed out that grou buying by department stores is becomin more important each year, and that wit it has come the possibility of more care ful control of retail operations throug the exchange of cost figures and othe data by the various retailers who are co operating in buying groups.

"Planned merchandising or buying ac cording to a sales budget is becoming in creasingly common and because of thi development and because of the exchang of cost figures, retailing is becomin more and more efficient," he said.

Another change pointed out by th speaker is one that is taking place in th rural districts as a result of the develop ment of hard roads and the automobil The cross-roads store is rapidly becomin a thing of the past, but at the same tim the stores in the larger villages are be coming more important retail outlets. country people are finding it possible to drive to the stores in the smaller cities and larger villages, and there do their shopping which they had previously done in the smaller communities. The speaker pointed out that for a time after the automobile became common in the country districts, there was a tendency for rural buyers to go to the large cities rather than to the smaller buying centers nearer home; but with the increasing difficulty of parking and traffic conditions in the cities in general has come a tendency for country buyers to shop nearer home. Retailers are taking advantage of this situation and are recognizing the fact that if they carry national advertised merchandise they can hold the rural trade at home. They can sell as cheaply as city stores, and country buyers prefer to buy from the merchants they know if they are assured they can get the same merchandise at the same or a smaller price than they would pay in the cities. The speaker advised the representatives of the national advertisers to put an added emphasis on the methods of distribution through the merchants in the smaller cities and villages.

He cited the opening of a department store at Evansville, Ind., by Sears, Roebuck & Co., and that this store is drawing people for many miles as an evidence of a future development of retailing which may be very important. Another tendency emphasized by the speaker was the recognition on the part of general stores in many lines of retailing that they should carry more nationally advertised merchandise. This has come about through a realization that private brands of merchandise can never make the appeal that is made by well known advertised lines of retail merchandise.

"Chain store managers are coming to realize that their advertising should stress other factors than the price appeal," he declared.

Prof. Maynard, in closing, urged representatives of national advertisers to increase their interest in the problems of retailers as a class and to do all in their power to assist in bringing about a higher level of efficiency on the part of the retailers in general.

Another speaker at this session, J. R. Brundage, vice-president of the White & Wyckoff Manufacturing Company, deplored the economic wastes common in the present system of distribution, but declared mass production and distribution would never be a success until chain stores passed on the accruing saving to the consuming public.

An advertiser's viewpoint of the postal situation was presented at the close of Mondays' session by R. N. Fellows, advertising sales manager of the Addressograph Company. His report is printed in full elsewhere in this issue.

On Tuesday morning dishonest substitution and radio broadcast advertising, two timely topics, occupied attention of the delegates.

"A wide-spread misunderstanding exists as to what substitution actually is," W. Russell Green, director of advertising and publicity of the Charles E. Hires Company, said, discussing the former subject.

"If you go into a store and ask for Hires, the dealer tells you he hasn't Hires but another root beer equally as good, that, contrary to the general impression is not substitution. That is simply competition and your remedy for it lies in advertising, publicity and salesmanship.

"When you go to a garage and ask for Mobile oil and without telling you the dealer sells you crank case drainings or some other oil he is guilty of substitution. This practice is more widely spread than most people have any idea of. It is found in almost every field of merchandising."

In curbing the evil Mr. Green declared many advertisers and newspapers were co-operating. He said laws on the subject were in chaotic state, and that his company was advocating a uniform statute.

"No definite figures can be determined as to the circulation of the radio stations," D. D. Davis, secretary and treasurer of the Washburn Crosby Company, Minneapolis, declared in advising colleagues regarding this camparatively new advertising medium.

"The efficient daylight range of a 5,000 watt station, winter and summer, to the point where the possessor of a small set can tune in, is between 200 and 500 miles. While it is true that at night reports come from almost every state in the union, yet this must not be misinterpreted to indicate a coverage of the country.

"No one can tell you with any degree of accuracy what you are buying as a purchaser of time from a station. It is known there are so many million receiving sets, but where they are is only a conjecture, and few people take into consideration the great number of 10-cent store sets in use.

"Two kinds of radio advertising are possible, the direct message and the goodwill programs, and these two are definitely divided between night and daytime. At night the program must be of the entertainment variety, while during the day it can be more direct."

As an example of the direct message possible over the radio, Mr. Davis told of the cooking school his company conducts via the air, a school in which, he said, many women are registered.

"At the end of the course," he explained, "these women are given a certificate from the cooking school, obtainable through a local dealer, and it is surprising the great amount of interest shown.

"It is the cheapest form of personal contact with the housewives of the country we have been able to find," he concluded.

The convention closed Wednesday noon following addresses by Martin P.

THE NATIONAL, STATE, AND LOCAL TUBERCULOSIS ASSOCIATIONS OF THE UNITED STATES

AN ADVERTISER VIEWS THE POSTAL SITUATION

By R. N. FELLOWS

Advertising Sales Manager, Addressograph Company. Report Before A.N.A. Convention, Washington, D. C., This Week

THE question of postal rates and service can be summed up in five words: "It is up to you."

The greatest obstacle to restoring equitable postal rates and satisfactory service is the apathy of the business man, who is more vitally affected by what Congress does at the coming session than most of them seem to realize.

The Association of National Advertisers at its Lakewood meeting some years ago, held a long and spirited discussion in regard to the policy of certain publishers. At every meeting of the A.N.A., agency relations have occupied a prominent place on the program. For the past several years, the question of taxing advertising has arisen in every A.N.A. gathering. Yet the postal increases enacted at the last session of Congress represent the greatest actual tax ever placed on advertising expenditures—and from the stand-point of many of our members, these unscientific, uneconomical and uncalled for postage increases have become a far more serious problem than some of the other problems I have just mentioned.

At the outset of the recent postal legislation activity some publishers thought it would be a smart thing to increase third-class rates. Fortunately, only a small per cent of publishers held this view. Today, every publisher knows that the increased rates on third-class mail are proving to be a boomerang because they are handicapping the publishing business even more than other kinds of business. So publishers are as seriously interested in an equitable readjustment of postal rates at the next session of Congress as any other kind of business.

The postage increases are generally unpopular among business men who have taken the time to study the situation, because they are economically wrong. This morning, Mr. Filene told us that the successful business of the future must proceed on the basis of making its profit through mass production and selling the greatest possible quantity at the lowest possible price. In short "Fordize." This is exactly what the Post Office could not do when Congress increased rates. Congress, unfortunately proceeded on the ridiculous basis of increasing profit by increasing prices and decreasing volume—diametrically opposite to the principle upon which Mr. Ford has achieved his great success mentioned by Mr. Filene this morning.

The postal hearings held in several cities this Summer, by the Joint Congressional Postal Committee, developed beyond the shadow of doubt that scores and scores of the largest users of the mails have greatly if not entirely reduced their former expenditures for postage. The obvious result is that the 69th Congress must again face this question of postage rates.

The Cost Ascertainment Report revealed a postal deficit for the year of 1923 of approximately $40,000,000. According to a recent statement by Postmaster-General New, this deficit of $40,000,000 has been equalled in the first few months of the present postal year, and according to predictions of those in a position to know, the postal deficit for the present year will not be $40,000,000 but more nearly $100,000,000.

This state of affairs quite conclusively proves that increased prices and decreased volume do not accomplish the desired result—and if Congress had followed the advice of the Post Office Department and let rates alone, and proceeded on the principle that Henry Ford has found so successful, namely, decreasing prices and increasing volume national distributors and local dealers would not now have to face the necessity of reducing their mailings of sales literature at such an alarming rate as thousands of users of the mails are now doing.

So, the postal situation rests almost entirely in the hands of the business man. If you continue to be disinterested in one of the most important channels of distribution which you have used for years, as a matter of course, you may soon wake up to find that channel of distribution, namely, the United States mails, practically closed to you from the standpoint of distribution expense. But if you take an active interest in the situation at this critical time and let your United States Senator and Congressman personally know your real thoughts, you can be sure that Congress will take and must take a business-like view of this matter at its next session. But if you business men do not take the time and trouble to make your wants known to members of Congress, you have only yourselves to blame for an unsatisfactory postal situation.

So personally tell your Senators and Congressmen what you want done about postal rates and tell them *now* before the 69th Congress convenes in December.

KPSN READY TO BROADCAST

Pasadena Star-News Station to Give First Program Nov. 23

The 1,000-watt radio broadcasting station of the *Pasadena* (Cal.) *Star-News*, KPSN, will be on the air for the first time on the night of Nov. 23.

The Star-News broadcasting station occupies a part of the fifth floor of the new half-million newspaper publishing plant which was completed last August.

KPSN is an integral part of the Pasadent Star-News, and will be operated under the direct supervision of Charles H. Prisk, editor and manager. In active charge of the radio department will be George Cecil Cowing, veteran reporter and golf editor of the Star-News. He will be assisted by Forbes W. Van Why, radio operator; George Frenger, program director, and P. C. Pryor, son of Judge J. H. Pryor, associate editor and manager of the Star-News.

Mr. Cowing, who has been a member of the Star-News staff for many years, recently returned from a two months' trip to Europe.

Sen. Hardin Buys Equipment

Sen. Roy Hardin has purchased a plant for publication of his *Kaufman County Times* at Terrell, Tex. Sen. Hardin has been having the Times printed in Forney.

FILENE SEES GROWING AD VOLUME

(Continued from page 8)

W. K. Burlen (at left), of the New England Confectionery Company, and Chairman of the Advisor's Service Bureau, discusses an advertising problem with H. C. Bursley, Murphy Varnish Company, Newark, N. J., and Chairman of the A. N. A. Publicity Committee.

vertising is not general and large, and cannot be because the units of production and distribution are too small. The newspapers in such a country, working under about the same conditions as here, where I understand about 20 percent of the cost of a paper comes from circulation, must provide the balance of 80 per cent some other way. In this country it is largely provided by advertising, and such advertising leaves the newspapers free to be as good papers as they want to be or can be. In other countries where this advertising is impossible on any general or large scale, on account of the small units of production, it not only makes newspaper freedom difficult or impossible, but it endangers the prograss of the world.

An instance to the point may interest you. It so happened that I had to go last year, in connection with the Dawes Plan negotiations, into a country where, at the critical moment, the newspapers were opposing the Dawes Plan. The country's finances were in such shape that, if the Dawes plan did not go through, there would come a crash. That was clearly recognized, and the group to whom I talked was called together, composed largely of members of the Government and representatives of the most influential newspapers.

But the policies of these newspapers were at the time controlled by special interests and parties in opposition to the Government. As they had to depend for 80 per cent of their income either from Government subsidies from private interests, it is apparent that they were not free to dictate their own policies. It so happened that the interests then in control did not believe, rightly or wrongly—and I believe they were sincere in their views—that the Dawes Plan was for their own best interest to support. The result was that they were opposing it to the detriment of the country and the world. I give you this instance simply to show that this condition of affairs was made possible because those newspapers did not carry enough advertising to support them and leave them free in their policies. I am glad to say, incidentally, that when it was made clear to the groups with whom I conferred what enormous effect the failure of the Dawes Plan would have on the immediate future of their country, change in policy resulted.

I think it most essential that the advertising men of the country study most carefully not only the problems of production and distribution, but all of the authoritative suggestions and opinions regarding the solution of these problems. Advertising must assume new and heavier responsibilities. It must take a firmer, more valuable place as a necessary power in our economic system. For the purpose of securing mass distribution, which is essential to mass production, big advertising must be freely used.

If I may be permitted, let me now briefly state what kind of development this advertising must take to be successful. In my opinion, the signs indicate that advertising will be made to appeal more to reason and less to the emotions. As the new order develops, I think that our large industries will not be satisfied with opinions or chance or luck in their advertising campaigns, and that more scientific methods will be demanded to eliminate, so far as that is possible, every chance of advertising waste and loss.

In other words advertising will be used at its best to tell the weaknesses as well as the strength of business systems; it will be our principle medium for the broadcasting of facts, and it will not only describe goods for the purpose of selling them, but will also describe advanced methods and processes for the purpose of proving to the public that they are the best because of the better qualities and lower prices they bring about.

This kind of advertising is an aid to the consumer in buying advantageously, and in my opinion, supported by all my research and study, the big rewards of the future will go to the big advertisers who back their up-to-date scientific mass production with that kind of advertising. This may sound theoretical; but my experience shows it to be entirely practical. If advertising will profitably sell a poor article or a good article at too high a price, then it defeats its purpose as an economic factor. If good, truthful advertising will not sell an article, then there is something the matter with the article, and the remedy lies not in hanging the advertising by exaggeration to make it sell the goods, but to so improve the merchandise that good advertising will sell it in such large volume that the manufacturer will be able to pass along to the consumer the many benefits of mass production.

Finally just a word in closing. For many years I have both studied and practiced advertising. And I am convinced that for everybody interested in advertising, a broad understanding not only of conditions in this country, but of international conditions is necessary. I believe that nothing will repay you more than a careful study of your own activities, as advertisers, in your relaton to the coming changes which I have been privileged to refer to here.

SHAW RETURNS TO BOSTON

Leaves New York to Become Boston American and Advertiser Publisher

Edgar D. Shaw, formerly publisher of the *Boston Advertiser,* and recently associated with Arthur Brisbane in New York, has been appointed publisher of the *Boston American* and Boston Advertiser to succeed Barrett Andrews.

C. I. Putnam, also a former Boston man, has been named executive head of the Boston American.

The appointments were effective Nov 13. Mr. Andrews has not announced hi plans for the future.

Mr. Shaw was publisher of the Adver tiser up to about six months ago whe the management of Mr. Hearst's tw Boston papers was merged under Mr Andrews.

Some years ago Mr. Shaw was asso ciated with the *Boston Journal* and *Bos ton Herald.* Later he served in an ex ecutive capacity on Hearst papers i Chicago, Detroit and New York.

In commenting upon his latest appoint ment he said that it seemed like old time to return to Boston, where he was bor and educated, having been a graduat of Harvard class of '93.

Formerly connected with the Bosto American as an auditor, Mr. Putnar until recently was publisher of th *Washington Herald.* Early this mont he came to New York as assistant pub lisher of the *New York Journal.* At on time he was New York advertising rep resentative of the Boston American.

y competition, are subtracted from the ross expense. He must have so much noney to meet his costs and enough above t to net some returns on the capital in- ested.

Finding such figures, shall he apply to all advertising regardless of all the ifferences of conditions, differences of olume—of each classification of ad- ertising differences in value of classes f advertising to circulation, and to other epartments of the newspapers? No. It ould be neither logical, practical nor ir.

He decides to establish different rates r national and local advertising. He as been brought to this conclusion by any factors, mathematical and unmathe- atical. He has consulted what ever na- nal advertising costs he has and re- nsults them year after year for possible ljustments. He has found that these e high. They include 15% to a general gency, whose services in the main can legitimately counted as a part of the wspaper selling expense only by the ildest stretch of imagination or tradition. e has paid 10 or 15% to special presentatives to work at selling the na- nal advertiser. He has spent thousands dollars of expense for work from his vn office direct. And to all this he s added the merchandising department hich is costing him fifteen of twenty ousand dollars a year.

He has found that the total linage of tional advertising has been one-fourth one-fifth of his total volume, one-third one-fourth of his local advertising and cause of this volume and despite his al rates being lower in 1924 his na- nal advertising has cost him a greater r cent than his local. In one instance, ntlemen, dislosed by my survey, the st of national amounted to more than e total cost of the local advertising de- rtment, salaries and expenses combined -yet the local advertising amounted to ree times the national in volume.

Not only does volume of national ad- rtising enter into the finding of cost lt so must all other considerations. The tional advertiser is not an all year und advertiser. He is seasonal. In the per a few weeks or a few months out each year. He does not carry the ld like the local advertisers. He does rt provide the potentiality of continuity r the potentiality or ever increasing tronage to the newspaper.

Whether it be a 1,000 line contract or a20,000 line contract, the national ad- rtiser must be taken care of. The wspaper must stand ready to give him rvice when he wants it and how he nts it.

The national advertisers' copy—with all i requirements and demands—does con- tbute to the stabilization of the news- per business and to the raising of that wspaper into a higher class medium and titution, but not to any such degree as do the local advertisers with their voluminous space and their constant perennial patronage. Indeed the national advertiser owes much to the local ad- vertiser for furnishing the former with such an effective local medium for the distribution of his goods. Aside from the desirability of a local newspaper car- rying such a representation of local copy as will add to its pulling power for the national advertiser, a factor which none of you underestimate, the local ad- vertiser by his greater ever constant pat- ronage helps keep national advertising rates as low as they are.

The Wichita publisher or the Des Moines publisher or any other publisher takes these facts into his calculations.

But over and above them all he is controlled by one irresistible fact. He knows that practically all national ad- vertisers receive value from his news- paper's total circulation. There is no waste. The national advertiser's pro- ducing and selling power is not deter- mined by the size and trade volume of that newspaper's home city as is the buying, selling and merchandising powers of the local or retail merchant. His position is unlike the retail merchant in other vital particulars. The national advertiser does not depend on special prices and sales days. His obligation to the public is not the offering of spe- cial bargains that must be viewed per- sonally and purchased at certain hours. The local advertiser has but one outlet for his merchandise. The local mer- chant's outside territory is determined by the size of adjacent towns, hard sur- faced roads, transportation facilities as well as his own capacity.

But after all and in conclusion—is the fairness or logic of the national advertis- ing rate dependent on comparison with the local advertising rate, even though the differential is justified by these many factors?

Is there any question of the national advertiser not being satisfied with an advertising rate that constitutes a fair price for the goods he buys, when such fairness is based on costs, proved by com- parison with other advertising media and justified by sales results obtained?

That the price is thus fairly determined there is no doubt. The national advertiser can rest assured of this. Costs cannot be loaded to his disadvantage in determining a fair price. He is not paying an ex- orbitant price.

If in the instances of some newspapers local retailers with four or five hundred thousand line contracts, are paying too little, the differential is coming out of the profits of the publisher, who thus sees fit to further contribute to the devel- opment and welfare of his own home town through its retail merchants.

You might as justifiably contest his right to make a direct donation or be- quest to his city as to question his right to do this. You have the right to refuse to carry much of his burdens and the as- surance that you are not doing so is in these factors I have mentioned and the inevitable processes of economic law.

A. N. A. E. SURVEY SHOWS SERVICE WASTES

(*Continued from page 12*)

the effect that the value of these papers is dependent almost entirely upon their editorial merit. A paper that contains material that creates reader interest among wholesalers and retailers naturally can give valuable support to advertisers while any amount of trade paper support is worthless if the sheet is unable to cre- ate at least a reasonable degree of reader interest. These papers have a direct val- ue to the newspaper, in addition to sup- porting the advertised products as they should keep the trade sold.

"6. The value of letters of introduc- tion to the trade is almost as great as the dealer papers. Obviously, this form of service is very inexpensive to the newspa- per as it requires merely a letter for the salesman to carry that will give the trade definite asurance in regard to the adver- tising campaign. Obviously, these letters cannot be handed out indiscriminately as they depend for effectiveness upon the degree of confidence that the trade has in statements made by the newspaper. If the newspaper supplies letters and the ad- vertising does not appear as promised, the newspaper suffers a loss of confidence upon the part of the dealers and their fu- ture statements are discredited. The practice of our own newspaper is to re- quire a non-cancellable contract or an agreement upon the part of the manu- facturer to accept the return of mer- chandise purchased upon the strength of the advertising in case the advertising does not appear as promised and in case the dealer is dissatisfied for that reason.

"Since these six forms of service are the only ones that are considered proper functions by 50% or more of the adver- tisers and agencies, it is reasonable to as- sume that a newspaper that believes in the greatest good to the greatest number of advertisers should limit service to these primary and practical functions."

Two Year Old Libel Suit in Court

The criminal libel suit against M. M. Levand and Sam P. Day, publisher and managing editor respectively of the *Casper* (Wyo.) *Herald*, pending since November, two years ago, was opened Tuesday morning, before Judge William A. Riner. Libel charges were the result of editorial in the *Herald* protesting against the acquittal of Earl Cantlin, Wyoming deputy sheriff, charged with the murder of Mrs. Nellie B. Newcomb.

That strange light in his eyes while you are giving advice means that he has at last discovered how little you know.—*Birmingham News.*

LONDON DAILY FINED 100 POUNDS FOR "RED" CARTOON, AMERICAN STYLE

Although No Names Were Mentioned, Court Held Publication Was Prejudicial to Rights of Six Arrested Communists

By HUGH J. HARLEY

A FINE of 100 pounds and trial costs upon the editor of the *London Evening News* because he published a cartoon deemed prejudicial to the communists who were arrested recently in the British drive against agitators of this type, gives a curious view of the trials and tribulations of British newspapers. The cartoon and the accompanying article were typically in accord with the natural reaction of newspapers throughout the United States—in fact they may be regarded as a part of the American newspaper atmosphere of enterprise, featuring and fearless comment which has invaded the British Isles.

But that atmosphere is being achieved at heavy monetary costs as the Evening News case will illustrate.

The charge of contempt of court was brought on behalf of six of the communists who had been arrested and accused of violating the Incitement to Mutiny Act. The publicity to which objection was taken included an article and a cartoon entitled "The New Road Signs." The Home Secretary Sir William Joynson-Hicks was depicted in the uniform of a policeman painting "Stop" on the road in front of a dilapidated motor car labelled "Red," and which contained three unpleasant looking persons labelled "Communism," "Mutiny" and "Sedition.'

The article was headed "Well done, Jix," and its opening paragraphs read:

"Sir William Joynson-Hicks, Secretary of State for the Home Department, more briefly and affectionately known as 'Jix,' has made good.

"The strong words which he has spoken on public platforms with regard to the Communist menace have been translated into fact and the law has been put into operation against the spreading of sedition.

"Almost alone among the members of the government, the Home Secretary has for some time past recognized the gravity of the situation created by allowing direct incitements to violence to continue unchecked.

"When he declared his intention of putting an end to this state of things he was girded at alike by those who imagined that to prosecute sedition was only to advertise those who spread it, and by those who declared that free speech was such a priceless jewel that no bounds should be placed upon it.

"He has proved himself a strong man by getting his own way with the Government despite the inertia against which he had to contend; and not only the Conservative Party whose views were clearly expressed at the Brighton Conference, but the whole country will thank him for his energetic action."

The prosecution alleged that if this sort of publication were to be allowed it would be extremely difficult for any juryman to bring an unbiased mind to the trial of these men and it mattered not that some people might be influenced in their favor.

A full court in the King's Bench division sat upon the case very promptly. The defense was a cross section of the newspaper political and official pronouncements against communistic activities as a menace to the British nation. It was held that the cartoon and the leading article entitled "Well done, Jix" were not intended to prejudice the trial of the accused men; there had been for some time a campaign of revolutionary propaganda which had for its object the sapping of the foundations and well-being of the country.

It was not a mere newspaper rumor; its exstence was stated on the Home Secretary's authority. He was not suggesting that any of these defendants had anything to do with that campaign. But in this situation there had arisen two sharply contrasted schools of thought; a passive school which held that to prosecute was to advertise and to convict was to make martyrs, and that movements of that sort should be treated with a little amusement and a good deal of contempt. Against that school was an active school consisting of those who thought that to ignore such a movement was the policy of the ostrich, and that steps should be taken by those in authority to put the law in motion.

The Evening News for a long time had advocated the active school and the cartoon and the article to the regular reader of the newspaper would seem merely a logical step in the policy of the publication and would not be thought to be directed against any individuals. No doubt, the proper policy to be adopted was a matter most carefully considered by the Government, and this article and the cartoon were merely intended to express satisfaction that the Government had adopted the policy which the newspaper had been advocating and were not directed to the innocence or guilt of particular persons.

The Court's judgment stated that the question to be determined was whether the Evening News, either by its cartoon or in the artcle "Well done, Jix" had violated the well-established rule of the court which prohibited the publication of anything other than that which was a fair and accurate report of the proceedings in the Court itself. It was true that the jurisdiction was not to be exercised when there was merely a technical contempt, and the definition of that brought one back to the rule that the matter must be either intended or calculated to prejudice a fair trial.

In the present case, the Court held, there was no suggestion or ground for suggesting any such intention, and all that the Court had to consider was the question of possible prejudice against the defendants through the publication. Having carefully considered the whole of what was written and the cartoon, it was decided that this could not fairly be described as comment only on the policy pursued.

Looking at the cartoon—and but for the cartoon the Court would have been disposed to accept the argument for the defense—it represented a person driving a car. He was labelled "Communism" and there were two others in the car labelled "Sedition" and "Mutiny"—the very offenses with which the men under arrest were charged. The court considered that it was calculated, or might tend to prejudice the defendants, although they were not directly pointed at in the cartoon, nor was anything written against any individual.

The defense had called the Court's attention to other newspapers in which attacks were made on the policy of this particular prosecution; they had not today to consider whether any or all of those publications constituted the same offense as that alleged against the Evening News. If and when any of these publications were brought before the Court, they would deal with them as justice demanded. It was true that as had been said, this case was one which would attract considerable public attention. It was the more necessary that there should be care not to publish criticism of the prosecution or the defense which might affect the trial.

If comments were brought to the notice of the Court which tended to prejudice either the prosecution or the defense the Court would not hesitate to use its powers to put a final stop to such comments. The judgment concluded with the fixing of the "light" fine.

The case has opened an almost endless vista of possible prosecutions for the Evening News defense quoted many comments printed in the most important newspapers of England.

Europe won't pay the instalments on that war and we can't take it back.—*Little Rock Arkansas Gazette.*

LETTERS FROM OUR READERS

Direct Mail and Newspapers

To EDITOR & PUBLISHER: On several ifferent occasions during the past few ıonths, there have appeared in your ·onderful publication special articles ritten by feature writers on the general ıeme, "Direct Mail Advertising vs. ewspaper Advertising."

The result of these feature articles is ıat it has caused advertising men to el that there has been some kind of ontroversy between the official groups f newspapers and direct mail advertisers. his situation has caused me concern as ell as other men in Direct Mail Adver- sing.

If at any time literature has appeared ıat prompted a discussion or controversy etween these two great mediums of ad- ertising, we in organized Direct Mail dvertising have not been responsible for in any way, shape, or form.

At the recent Boston convention of the)irect Mail Association, I made this a ıatter of record, by bringing up in our ıeeting a strong recommendation to ledge (as a Direct Mail organization) ıpport to the newspapers of the country.

This presentation was later put into ıe form of a resolution and adopted by ıe General Assembly at the last session f the convention as follows:

"RESOLVED, That as advertising is the art nd science of persuading a profitable propor- on of a given class or classes of people to uy, through the printed word, and that all gencies of expression and circulation are but ieans to that end, we pledge to the newspapers nd all the other proper advertising media our earty co-operation and support, thanking the oston newspapers, in particular, for the news nd editorial support they have so generously ven."

Mr. William Rogers of the *Boston ranscript* was present at the time I ıade this presentation to the Association, nd entered a strong plea to every Asso- iation member to give hearty support to ıe newspapers of the country, and to efrain at all times, in any meeting of dvertisers, from making a comparison ne way or the other as an official body.

I want to be sure that this expression f the Direct Mail Advertising Associa- on is given to all the members of the ewspaper fraternity, because we have verything in common to work for, and hen any one medium of advertising attacked by another medium, the whole tructure of advertising is consequently eing undermined.

HOMER J. BUCKLEY
Buckley, Dement & Co., Chicago.

The feature articles that Mr. Buckley vidently refers to were precipitated by ıe amazing and we believe wholly mis- aken assault on newspaper advertising y J. G. Pattee, of the Necomb Endicott epartment store, Detroit, and the broad- asting of his statement to department tore proprietors. Mr. Buckley's attitude nd the resolution adopted are highly ommendable in theory and in practise.

Miami Herald Advertising

To EDITOR AND PUBLISHER:

In your issue of October 31, on page 2, under the caption "New Week-day ecord," calling attention to the edition f the *St. Louis Post-Dispatch* which onsisted of 76 pages, you say—

> "*The Miami Herald* was the only one other newspaper to equal the Post-Dispatch achievement, for which Florida real estate advertising was responsible."

In the first place, your statement is an error since during the past three months, the Miami Herald on several occasions has printed regular week-day editions of 80 pages. Therefore, the word "equal" is not in place. It should have been "exceeded."

The concluding phrase of your paragraph, "for which Florida real estate advertising was responsible," we regard as entirely uncalled for. During the 16 years history of the Miami Herald, real estate has been the source of the largest linage in advertising in Miami. It is as much a part of our financial life as automobiles in Detroit, or a department store in St. Louis. A large number of the present real estate firms, advertising in The Herald, have been in existence for 15 years or more. Therefore, they should rank as high in the estimation of the public as the Famous & Barr store.

We note the Post-Dispatch carried 15 solid pages of advertising for one department store and 7 solid pages for another department store.

We do not recall that at any time in the newspaper history of Miami that any real estate firm has carried more than four pages of advertising in one issue. Occasionally a number of them carry two pages, but the general run is from one page down to the smaller advertisements.

Therefore, we believe that the real estate advertising in The Miami Herald is more representative of the number of concerns doing business in Miami than is the department store advertising in the St. Louis Post-Dispatch.

We believe that the writer of the paragraph we have referred to, must have intended a slighting reference to The Miami Herald. Of course, it was bred of ignorance of the real estate conditions that have existed in Miami for more than 15 years. We believe it is as reputable to print an 80 page paper made up of a large percentage of real estate advertising from established firms and properly incorporated companies as it is to run department store advertising or any other kind of advertising.

We might question the judgment of any one concern running 15 solid pages in one edition of any paper. It might appear as if the firm using so much space intended using the complete paper as a catalog rather than a direct appeal to the day's trade. That, of course, is a matter for discussion. The newspaper that naturally has the greater appeal to the public, is the one containing the greatest representation in number of advertisers. The public is entitled to the advantage offered by competition.

We are sure that you personally intended no reflection on The Miami Herald by the phrase "for which Florida real estate advertising is responsible," but we are certain that you see our point and will do what you can to prevent a recurrence of these statements.

Sincerely yours,
FRANK B. SHUTTS.
Publisher
The Miami Herald.

"PLAYER WRITER" RULING

Washington and New York Baseball Scribes Vote Hands-off

Washington's baseball writers are inclined to keep hands off the approaching conflict over player-writers. At a meeting last night they adopted a resolution to the effect that they have nothing to do with the regulations of organized baseball along this line, nor to tell owners and managers of newspapers what should be printed or not printed in sports news. In taking this action the Washington writers allied themselves with their brethren in New York and in opposition to those in Chicago.

President James M. Gould, of St. Louis, is bitterly opposed to the custom of having baseball players "write" stories of world series games and went on record to this effect during the series between Washington and Pittsburgh.

A couple of weeks ago the Chicago chapter of the Baseball Writers Association adopted a resolution asking Judge Landis to refuse permission to players in the future. Now votes are being taken in every major league city. President Gould is seeking to learn the feeling among the writers before proceeding further in the matter.

Alumni Association Meets

Routine business was transacted at a short meeting of the Graphic Arts Alumni Association, of the N. Y. E. P. A., held Monday, November 16, at the Cafe Boulevard. The members will hold another meeting December 14.

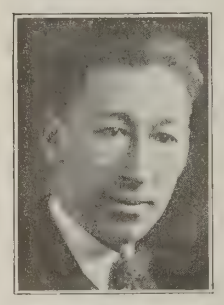
HOME DELIVERY THE CIRCULATION HEART OF COMMUNITY NEWSPAPER'S SERVICE



By A. A. BRANDON

Circulation Manager, Long Island City (N. Y.) Star

Address Delivered at Buffalo Convention, New York State Circulation Managers' Association

Mr. Brandon has been in charge of circulation on the Star *for a year. He is now 33 years old and has been in circulation work since he began to carry the* Denver Post *22 years ago. Most of his experience has been in the West, including several years as circulation manager of the old* Ogden (*Utah*) Examiner.

BUILDING circulation on a community daily in the city of New York presents a promotion problem different from that found in most other metropolitan cities.

A. A. Brandon

We make no pretense whatever of out-and-out competition with Manhattan dailies. To do that would be certain suicide. We can't hope to crowd a big paper out when we push our paper in. Therefore, we carry very little telegraph news and sometimes none at all.

We consider our main task to be educating the prospect to the fact that no matter what Manhattan newspapers he reads, he owes it to himself and his family, to first know what is going on in his own community—in fact, in his own block. We shoot our heavy newsheads on local happenings, and in New York City there are always enough accidents, court cases and important local news in every community to make interesting reading for those residing in that section.

From this you will see that our big task is to ding-dong at newcomers until we convince them that they are a part of our community—that the community welfare is their own welfare and that the only way to keep abreast of the community news is to read our paper regularly.

And thereby hangs a tale. Until recent years all New York newspapers, community and Manhattan papers as well, depended entirely for their circulation in the greater city on newsstand and newsboy sales. No direct sales contract with the reader could be made. Carrier delivery to the homes was looked upon as "small town" and an expensive, impossible thing. The *Bronx Home News* was the first newspaper to realize the value of a home delivery, and so set about to develop what turned out to be the first successful carrier home delivery system in the Greater City.

Since the success of the Home News other community dailies have become home-delivery-inspired. On nearly every community newspaper where a home delivery system is not in the process of installation now, it is perhaps in the publisher's mind as his next move when he gets the material, money and confidence to go ahead with the thing. There are three other New York community newspapers to my knowledge that have installed or are now installing carrier home delivery.

We started installing our system not quite a year ago, and today the territory is over half covered with a first-class delivery. I have gone ahead with our system slowly but surely, and our promotion expenses for the year, including all installation costs, as well as several carrier contests, sampling, solicitation, verification, etc., is within $8,000. From the foregoing, you will understand that I consider the first step in building circulation on a community newspaper, the establishing of a boy delivery system.

Since launching the system on half-coverage I have run a few successful carrier contests. In the direct contact I have secured I have been driving home through the carriers' sales talks the one big point, namely, showing the prospect that he is an actual part of this community and needs our paper. We have used a systematic sample campaign to educate our residents to read our paper and we are going to conduct more similar campaigns.

We have a prize stunt on now in which various prizes of value ranging from 50 cents to $4.50 are offered to boys and girls who turn in a specified number of 3 month-subscriptions. I have found our field to be unusually responsive to this kind of promotion because, odd as it may seem for New York City, these prize offers are new to the kids and have not been overworked as in most places. That much for direct promotion.

Now for the paper itself. I have always considered the classified pages of a newspaper a very important factor in the paper's circulation possibilities. It is even a more important factor in a New York community newspaper's success than it is in a city newspaper's. My opinion is that if you can get the classified—the right kind and enough of it—your prospects for circulation growth are incomparably greater than without it. Fortunately, we have more than two solid pages of good, clean classified, and we play strongly on it.

Our news and editorials are always written from the community angle, with the editorial force focusing their efforts on community appeal alone. Our front page is given over entirely to local news. Our sports department covers in detail the local sport situation covering high schools, etc., religiously. Everything in our newspaper from first to last page is treated entirely from a community angle and planned entirely from the point of view of community appeal.

In summing up I will say that circulation building on a metropolitan newspaper in New York City—taken for granted, of course, that your paper has the proper ingredients as before outlined—consists of establishing a point of sales contact which the Manhattan dailies lack, and working that point of contact overtime, plus.

BICKEL COMPLETING TOUR

U. P. President Has Visited Brazil, Uruguay, Argentina and Chile

Karl A. Bickel, president of the United Press Associations who is on a trip of inspection to all South American bureaus, arrived Nov. 19, in Arica, scene of the negotiations for arranging the terms of the Tacna-Arica plebiscite. He was greeted on his arrival by Harry W. Frantz, United Press staff correspondent who is covering the plebiscite.

Mr. Bickel's trip, now nearing completion, has taken him to Brazil, Uruguay, Argentina and Chile and, before it is concluded, will take him to Peru, Panama and Cuba.

Accompanied by Mrs. Bickel, the United Press president arrived in Rio de Janeiro on Sept. 23. He spent two weeks in Rio and Sao Paulo, Brazil conferring with the client newspapers of the United Press and arranging for improvements and expansion of the service. James I. Miller, vice-president and South American manager of the U.P., Joined Mr. Bickel in Brazil and accompanied him when he left for Buenos Aires during the second week in October.

He reached Buenos Aires on Oct. 15 and remained three weeks in that city.

President Alvear, of Argentina, received Mr. Bickel in special audience during his Buenos Aires stay. The chief executive, in an interview with the U.P. president on that occasion voiced the desire of Argentina to encourage the immigration to that country from European countries.

A visit to Mendoza, Argentina, preluded Mr. Bickel's trip across the Andes to Chile. The Chilean foreign minister Senor Barros Jarpa, American Ambassador Collier, the directors of the Santiago newspapers and other distinguished citizens of Chile were the guests of Mr Bickel at a dinner given before his departure from Santiago for Valparaiso where he took ship for the north.

Following a brief stop at Arica, Mr Bickel will continue his journey northward to Lima where he will remain a week or more before proceeding to the Canal Zone.

NATION'S BEST BUSINESS BRAINS TO STUDY DISTRIBUTION PROBLEMS

ional Conference in Washington Will Seek New Paths to Prosperity by Light of Best Available Statistics—Advertising to Play Large Part

By J. BART CAMPBELL

ASHINGTON, Nov. 18.—Prepara-ions for the National Distribution erence—the first of its kind—to be here on Dec. 16 and 17 under the ices of the United States Chamber ommerce, are being rapidly whipped shape.

ie purpose of the conference is to fe the task which is before distributors tudying their own problems. It is he intention to solve these problems assing resolutions, or to attempt to a cure-all, it was stated.

ther it is desired to obtain a con-s of opinion as to what are the most rtant problems, and to lay plans for e work. A comprehensive task for conference has been carefully out-. This includes a survey of existing stical sources; suggestions for a ing house of statistical information void duplication by those now en-d in such work; analyses of trade tices; the devising of better methods; a study of the functions of the vari-agencies of distribution now in ex-ce.

so-called Steering Committee has formed to decide questions of general y or methods of procedure by the ral important committees which are ged already upon the preparation of ries of reports intended to have a reached bearing upon the various lems to be considered by the con-nce.

espite published statements to the rary, these report are still in pro-s of completion. This is particularly of the report of the Committee on ket Analysis, Advertising and Ad-ising Mediums, which held a prelim-y meeting on Nov. 11 at New York . Stanley Resor, president of J. ter Thompson Company, is chairman his committee. While a preliminary ey of its field has been made by this mittee, its report is still to be ap-ed by the committee as a whole, OR & PUBLISHER was informed this k.

hree sub-committees of this commit-ave been named as follows:

b-Committee A—To determine the stics needed in market analysis; to its cooperation to the Committee on ction of Business Figures in order data as complete and as timely as ible shall be available for the econom-distribution of merchandise.

he members of this sub-committee are e P. L. Thomson, Western Electric pany, New York, chairman; E. T. edith, Meredith Publications, Des nes, Ia.; Malcolm Muir, McGraw-ll Company, New York City; C. C. ain, manager, Division of Commercial earch, advertising department, Curtis ishing Company, Philadelphia; Harry ght Smith, Fuller & Smith, Cleve-n O.; and Dr. Daniel Starch, director esearch, American Association of Ad-sing Agencies, New York City.

b-Committee B—To cooperate with the Department of Commerce in the compilation of market information now being undertaken by the Department; and to recommend to the department the inclusion of other elements in the work of market analysis which the sub-committee regards as essential.

The members of this sub-committee are to be: Dr. Daniel Starch, chairman; Prof. E. E. Day, University of Michigan, Ann Arbor, Mich.; T. O. Grisell, George Batten Company, New York; Dr. W. I. King, National Bureau of Economic Research, New York; Robert K. Leavitt, secretary, Association of National Advertisers, New York; Dr. Wesley Mitchell, National Bureau of Economic Research, New York; William A. Thomson, director, Bureau of Advertising, American Newspaper Publishers Association, New York; and A. Heath Onthank, Department of Commerce.

Sub-Committee C—To prepare a statement upon the economic value of advertising; to classify advertising mediums according to their special services as shown from experience; and to recommend methods for eliminating wastes in advertising wherever possible.

The members of this sub-committee are to be: L. B. Jones, Eastman Kodak Company, Rochester, N. Y.; John H. Fahey, Boston; J. W. Hayes, Crowell Publishing Company, New York; William H. Johns, George Batten Company, New York; G. L. Johnson, chairman of the Board, General Outdoor Advertising Company, New York; and E. T. Meredith.

In conjunction with the Committee on Collection of Business Figures, the Committee on Market Analysis, Advertising and Advertising Mediums is studying available sources of statistics. All research material is being indexed in cooperation with the Department of Commerce in order that it may be accessible ultimately to everyone interested in market analysis.

As a result of information received from many national advertisers, studies are being made possible which will bring out many new facts regarding the economic value of advertising.

The formation of the Committee on Collection of Business Figures was left to Secretary of Commerce Hoover. A principal reason for adopting this method was because studies have been conducted for several months under the direction of Mr. Hoover and it was thought best to combine the work of the conference with that already accomplished by the department.

"Business has suffered seriously in the past from a lack of knowledge of the factors contributing to, or forming the basis for intelligent studies of marketing possibilities, which indicates accurately the approach to good or bad times, and which might determine future buying policies," it was stated.

"It falls within the functions of this committee to examine into, and discriminate between the sources of existing information; to correlate these sources so as to make the most effective use of them; and to increase the amount of information now available."

Owen D. Young, chairman of the board, General Electric Company, New York, is chairman of this committee; Julius Barnes has been appointed chairman of an executive sub-committee.

Other committees of the conference are: Trade Relations, A. Lincoln Filene, Boston, chairman; Expenses of Doing Business, Robert R. Ellis, president, Hessig-Ellis Drug Company, Memphis, Tenn., chairman; Methods of Distribution, L. D. H. Weld, Commercial Research Department, Swift & Company, Chicago, chairman; General Conditions Affecting Distribution, G. S. Brown, president, Alpha Portland Cement Company, Easton, Pa., chairman.

Poster Group's Ad Stunt

When the Poster Advertising Association met in Kansas City recently it purchased one-quarter page space in local newspapers to print daily the "Outdoor Advertising News." Copy was made up in newspaper form and gave news of the convention.

More naval planes might do away with war. They would keep the battle fleets so busy hunting for them they wouldn't have time to fight.—*New Orleans Times-Picayune.*

W. E. CARPENTER DEAD

Was Prominent Newspaper Man and Newsprint Administrator During War

Willard E. Carpenter, former Chicago newspaper man and Federal newsprint paper administrator during the war, died Tuesday in St. Luke's Hospital, Chicago.

He had a long newspaper career, which included a period as business manager of the *Chicago Chronicle*. He was the founder of Carpenter & Co., newspaper representatives, and since 1922 was president and publisher of the *Lincoln* (Ill.) *Courier Herald*.

During the paper crisis which followed the Armistice in 1918, he was instrumental in obtaining from metropolitan publishers large supplies of newsprint paper for small publishers, which in many cases saved them from suspending publication.

He was prominent in publishers' association work in the Middle West.

THORPE IS SPEAKER AT A.N.A. BANQUET

or of Nation's Business Says vertising Makes Mass Production ossible—Newspaper and Agency Men Attend

dvertising's greatest contribution is place in mass production, Merle rpe, editor of the *Nation's Business*, ered in his address at the annual er of the A. N. A. in Washington, 17.

he automobile is a European inven- but America sold $200,000,000 worth otor cars to foreign countries last " he said. "Beat them at their own e. How? By quantity production, ndustrial development purely Ameri-

ut where would mass production be out mass selling? Can you imagine production finding an outlet by the individual salesman route?

n the beginning a man peddled his product. Then as he prospered he oyed another man to do the peddling. n we had the age of commercial trav- but the pace became so swift that rder to keep up with the increased uction of comfort commodities some iod of multiplying the salesman had e found.

National advertising was the answer. akes the place today of millions of people. It short-cuts the whole dis- ition process. Advertising not only dements but complements mass pro- ion. When the history of this decade ritten describing, as it will, in super- tes the tremendous advance in the dards of living whereby the com- est laborer has luxuries that kings years ago did not dream of, a large ter will be devoted to this little rstood phenomenon, national adver- tising. Machinery will be given credit as will transportation, and management, but the credit for motive power will go to advertising.

"Advertising as a social agency, as an educational influence, as a purveyor of business intelligence, all these things, yes, but the greatest of all is its place in mass production, an economic necessity in this complex and intensive industrial period."

Guests of the A. N. A. at the banquet included G. Logan Payne, publisher of the *Washington Times;* Fleming Newbold, business manager, *Washington Star;* Don Seitz, *New York Evening World;* Marcellus Murdock, *Wichita Beacon;* and Roy Durstine, Barton, Durstine & Osborne, and president of the American Association of Advertising Agencies.

STAFF HONORS WOMAN WRITER

Surprise Party for Miss Nannie Lancaster of Washington Star

Stress of "copy" was forgotten temporarily Wednesday afternoon in the news room of the *Washington Star* while employes of all departments assembled for a surprise party on Miss Nannie Lancaster, editor of the paper's "Around The City" column, and conductor of the columns devoted to the news of Women's clubs.

It was the end of "Miss Nannie's" twentieth year of service in the employ of the *Star,* and her many friends decided the day should not pass unnoticed.

In groups of twos and threes, the *Star* "family" quietly assembled in the ordinarily feverishly active news room. On the paper-stacked desk of the "boss" stood a hugh basket of chrysanthemums and beside this lay a smaller but no less beautiful bouquet of chrysanthemums, "Miss Nannies" birthday present from her fellow workers.

Before going to the *Star,* she was a member of the Washington staff of the *New York Tribune* and formerly society editor of the *Washington Times.*

DOLLAR $$ $$ PULLERS

ONE DOLLAR WILL BE PAID FOR EACH IDEA PUBLISHED

BUSINESS TICKLERS

RUN a page of advertisements, with pictures, of closed USED cars offered for sale by local dealers. Running pictures would give a touch of novelty and should make the page easier to sell.—F. H. W.

Your radio editor can quickly compile a list of "air attractions" under subject-headings, such as Beauty Talks, Cooking Hints, Fashion Reviews, Football Instruction, Golf Lessons, Jazz Programs, Minstrel Shows, Opera, Radio Plays, Spanish Courses, etc., giving after each subject the hour it is put on the air and the station from which it is broadcast. This list, under some such caption as "Free to You—If You Own a Radio," can be made the nucleus of a special page of ads from radio dealers.—M. S. M., Denver.

J. C. Denious, editor of the *Dodge City* (Kan.) *Globe,* speaking at the Kansas Press Association recently, told how he had increased a hardware store's advertising account $50 a month. He had observed the advertisements of a hardware merchant in another Kansas town whose ads were written in a newsy fashion. Instead of the conventional advertising this merchant ran a lot of little items about people who had visited his store, especially when he could report the sale of an article. This ad shown to the Dodge City merchant brought increased space for the Globe.—E. La Ferte.

The *Sherman* (Tex.) *Democrat,* cooperating with the Chamber of Commerce, has put on a successful "Sherman Manufacturers' Week," during which Sherman-made products were extensively advertised, displays of local products were displayed in all the show windows, and a banquet was given by the Chamber of Commerce at which the officials of the local manufacturing concerns were guests of honor, and the editor of the Democrat was toastmaster. It stimulated interest in local products and was a great publicity stunt for the paper, more than paying its own way.—W. H. M., Austin, Texas.

Banner a page with a heading similar to "Fitting the car for Winter." On each side of that four column art head, advise early precaution against cold weather driving, and suggest to the readers to tear out the page as a directory of reliable firms to keep in mind. Accessory men, closed car dealers, top and curtain makers, and dealers in enclosed bodies for open cars readily see the advantage of taking space.—J. G. McLean, Fresno, Cal.

To create advertiser-confidence in a good classified page why not give figures showing number of replies received each day, week, month or year? It might be run at the head of the columns like this: "It pays to advertise where people look. Last week's replies to ——— small-ads numbered ———. Last month's total was ———." A British paper does it.—G. F. WILKINSON.

It is a common practice for restaurants to advertise their Thanksgiving dinners a day or two prior to the national turkey festival. Invariably by this time the average housewife has planned her Thanksgiving dinner, and probably has ordered the eats. Ad. men can point out the necessity of advertising Thanksgiving menus well in advance, so that more people will decide to have their Thanksgiving dinner away from home.—Henry R. Helsby.

SEEKING ELECTION REFORM

Washington Press Association Would Abolish Pamphlets

The Washington Press Association is sponsoring an "election reform" bill slated to come before the special session of the Legislature called this month by Governor Roland Hartley. The bill would abolish all election and initiative and referendum pamphlets.

In place of circulating pamphlets to the registered voters as has been done each biennial in the past, the new plan would utilize several newspapers in each county and would thus reach a far larger number of persons, particularly in the more isolated portions of the state than if dependent upon expensive mail circulation.

Under old postage rates a sum of $8,000 was required to send out the pamphlets, whereas, under the new postage rates effective this year, the cost will be $12,000, it has been shown.

The actual printing of the pamphlets is shown to average around $24,000, while the cost of the envelopes, with the service of clerical help to stuff them, is said to involve expenditure of about $5,000.

Backers of the bill believe paid newspaper space will be an economy.

HUNCHES

ONE DOLLAR WILL BEPAID FOR EACH "HUNCH" PUBLISHED

EVERY day the papers are full of crime news and discussions by prominent persons as to the cause of excessive crime in America. Why not start a popular discussion on the subject, and possibly offer a small prize for the most constructive suggestion? Letters would be readily forthcoming from readers and lively interest would be worked up. If the desire was to make the discussion warm, it would be a good plan to interview the police, welfare league president, mayor, governor, a business man, lawyer, judge, and write briefly what they had to say. Casualty insurance companies might advertise burglar and hold-up insurance on the same page. Also approach those who have locks and bars and bolts to sell with the view of getting copy.—Fred L. W. Bennett.

The death rate among dolls has been lowered greatly in the last few years, any proprietor of a toy shop or manager of a doll department in a large store will tell you. Just so has the taste in dolls changed, their looks, size, physical construction and the number sold. A good pre-holiday story can be written on this subject.—A. C. Regli, Superior, Wis.

The freight agent can provide material for a good story about local "loss and damage" conditions, telling what kinds of goods come to the local station in a damaged state, how claims are adjusted, and how damaged goods are disposed of. A useful feature of such an article, will be the agent's suggestions on how expert packing and proper marking can prevent loss and damage for local shippers.—R. F. Cross.

The small daily and the weekly paper still realize that names are We developed a school column by se the *News* to teachers in the rural sc The teachers or youngsters wrot items which were mostly names, but eagerly scanned, we believe, by parent.—A. R. Buckingham, (Minn.) *News.*

Put down on your assignment sh it is not already there, a beat co the local express companies or m van concerns. The departure and a of many people, new residents as w visitors will be obtained—news which are welcome in your colun G. Harris Danzberger, *Hartsdale* Y.) *Herald.*

INDUSTRIAL ADVANTAGES IN THE SOUTH LOOM LARGER EVERY DAY

With mighty strides, surpassing anything which has heretofore been seen in any other part of the country, except in a limited area, the South has been expanding its activities amazingly. The "New South," throbbing with industrial life, is fascinating in its aggressive advancement.

Advantages offered American industries in the Southern states loom larger every day. Profound wisdom is being shown by those industrialists of the North who are turning southward for favorable opportunities that greatly outweigh any drawbacks incident to change of location.

With some of the greatest minds of the country devoting earnest attention to unsound labor conditions in the North, and admittedly failing to stem the tide, sane business judgment dictates the choice of security in that section of the country which has gone through the bitterest crises of war and economic depressions without ever bowing to radicalism.

The "Solid South" is the home of solid workmen, solid business men, solid business programs, solid industrial relations, solid economic foundations, solid American principles, solid Americans.

The South is of tremendous importance as a merchandising and sales promotion territory with a demand for products that includes every necessity for livelihood and manufacture, increasing in proportion to its expanding activities and growing population.

No sales promotion campaign is complete that does not include advertising in the daily newspapers.

These newspapers are a progressive force in the progressive South

Is This Your Problem?

ASKED the Managing Editor: *"How can I make my Sunday paper distinctive? I have a capable staff, a good plant, all the spot news, as fine a comic section and as good a magazine as my competitor, but I haven't a distinctive newspaper."*

Suppose you could get a political story by a nationally-known newspaper man who is famous for his knack with words and twenty years' intimacy with the nation's celebrities?

Suppose the one woman who can put a laugh into every line of her copy and still keep it COPY in the news-desk sense, would cable you a mirthful yarn from some odd corner of the world?

Suppose a man, the unique combination of news-writer and acknowledged investment expert, would tell your readers just what their securities were worth this week and another specialist would send you a banner-head story of the business week?

Suppose you could get four of the outstanding journalists in Europe, trained in writing for American readers, to radio you the story of the week in Europe right up to last-minute developments?

Suppose three sport-writers, each trained in his line and honored in his profession, wrote you a story on baseball, football and golf and then, for good measure, you were handed three or four live, human-interest dispatches that you could gamble would be exclusive?

And suppose, best of all, it would be on your desk on Friday night (the real week-end), your exclusive property?

There is your distinctive Sunday newspaper, thanks to the ***Friday Night Leased Wire Service of***

The Radio Buyer Doesn't "Stay Sold"

—he is always in the market for new hook-ups, devices, equipment. Every radio fan is something of a technician, as well as a zealot in behalf of his favorite entertainment. He makes converts all about him.

Therefore, the best market for radio products is in concentrated areas of great population, where radio is firmly intrenched.

One of the greatest of these markets is Chicago. There are approximately 100,000 radio sets in Chicago, according to recent estimates—and there are 686,000 homes.

What to do?

Reach the radio fans and prospective buyers through the medium to which the great majority of Chicago people look for buying information and guidance--The Chicago Daily News. Besides its interesting and authoritative daily radio departments, and Saturday radio section, which are closely followed by radio enthusiasts, The Daily News maintains close professional touch with the radio public by means of its own broadcasting station, WMAQ. The Daily News is the only newspaper in Chicago that owns and operates its own radio broadcasting station.

Radio advertisers in The Daily News are assured the attention of the great majority of buyers and prospective buyers in the Chicago market.

Selling Cigars and Tobacco IN PHILADELPHIA

Philadelphia, having the third largest population in the United States, is an important market for the maker of Cigars, Cigarettes, Pipes, Smoking and Chewing Tobacco, and other articles that can advantageously be sold over the cigar store counter.

With a population exceeding three million, it numbers many devotees of the aroma of a good cigar or fragrant cigarette, who are receptive to the advertisements of new blends and brands.

Many specialties, such as magazines, safety razors, candies, chewing gum, books, school supplies, novelties, etc., find ready sale in the neighborhoods where cigar stores are located.

Send for a free copy of THE BULLETIN ROUTE LIST OF CIGAR STORES IN PHILADELPHIA AND CAMDEN. It will be of great help to your salesmen when calling on the trade.

DOMINATE PHILADELPHIA

Create maximum impression at one cost by concentrating in the newspaper "nearly everybody" reads—

The Evening Bulletin.

The Big Retail Merchant's Problem

The Public Must Be Won and Held—Merchandising Alone Can't Do It—Merchandising Plus Advertising Can—Penetrating Analysis of Retail Cost Figures

By CHARLES W. MEARS

Copyright, 1925, by Charles W. Mears, Counselor-in-Marketing, Keith Building, Cleveland, O., and published by EDITOR & PUBLISHER *through special permission of the author.*

NEVER was there a period of greater uneasiness among merchants than at the present time. Few merchants feel themselves superior to the problems of today and tomorrow.

Swift and extensive changes are sweeping the mercantile field. The chain store invasion, the entrance of mail-order and 5-and-10 merchants into the department store business, the tremendous onrush of installment purchasing by consumers (who by mortgaging the future cut down their potential buying power), the unprecedented congestion of down-town shopping avenues by non-shoppers, the steady rise of new shopping centers closer to residential districts, and in big cities the comparative lack of buying by customers during the morning hours—all these conditions, arising in quick succession, give retail merchants in many lines of trade a large and complicated problem to solve.

* * *

Within the memory of elder men, business in the United States was transacted in small units. Manufacturers were small, retailers were small and trading areas were small. The introduction of new and improved methods of manufacturing and the increase and improvement of transportation facilities, caused a complete revolution among manufacturers. The little, unprogressive producer found himself crowded out. The survivors grew big and powerful, and distributed their goods, no longer in limited sections of the country, but over all the nation and much of the world.

During this period population increased, cities of great size and wealth developed, and merchants found themselves growing beyond even their own expectations. The old dry goods store gave way to the new and gigantic department store, which is today an outstanding phenomenon of business life.

In the course of time our manufacturers reached a point where improved machinery and improved methods had approached their limit. No new progress could be made at the previous rate of speed. And since profits are greatest where improved methods are most readily applicable, men who otherwise might have been attracted to manufacturing went instead into the retail field. To them retailing proved most inviting, because retailing had not developed any acknowledged great efficiency.

* * *

The war period raised two important issues:

1. The charge that many retailers were profiteers.

2. The charge that consumers were paying altogether too much for mere distribution compared to the cost of the physical production of goods.

Since the war, retail competition has grown keener. More research, analysis and intelligence have been applied to retailing, and today the slow-thinkers in retailing are being crowded out by chain stores (6000 new ones established in three years), by associated buying, and by smarter methods generally than retailing previously employed.

* * *

Meanwhile no merchant who hopes to survive can sit serene. Unless he is on his toes to fortify himself and to bring his methods to high effectiveness, he totters. No longer can he get by on mere inertia. He must do something—and what he does must be right, else he will surely be defeated by competitors who are right.

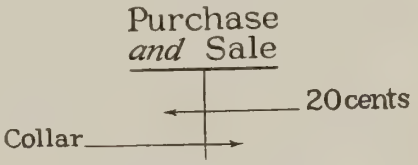
The battle started in the manufacturing field. That battle has been definitely transferred to the field of distribution, and today the retailer is in the midst of combat.

Every retailer is in business to get the consumer's dollar—a perfectly legitimate purpose.

Consumers must live. They must eat food, and wear clothes, and have household furnishings and equipment for their protection, comfort and pleasure.

All these goods must be supplied by retailers. Therefore, the retailer who stocks goods for consumers renders a public service. The retailer is practically a purchasing agent for the public. But he is self-appointed; the public does not enfranchise or underwrite him. He engages in business at his own risk.

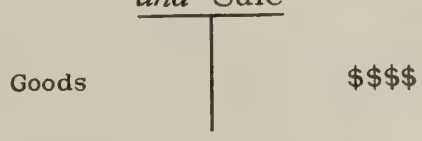
That risk, however, is one that many thousands of enterprising men have freely undertaken; so many of them in fact that retail competition is keen, almost everywhere and in every line of goods.



Once engaged in business, the normal retailer desires to do a larger business and to make more profit and to fortify his business against future contingencies.

* * *

To do this, he is quite willing to carry larger stocks of goods and to enlarge his premises when necessary and to employ more sales people. He is not always aware that these activities are not enough. Sales involve more than store and goods and sales people. Sales always involve purchasers—a fact so simple and obvious that it is sometimes neglected.



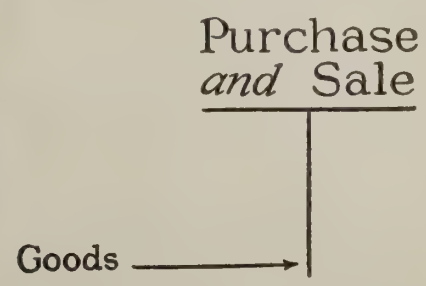
A sale is not merely something accomplished by a salesman. Every sale is also and at the same time a purchase—and in law books is defined as Purchase and Sale.

Every Purchase and Sale engages at least two persons—a purchaser as well as a seller. And every sale is a two-way action, legally "the exchange of title (or goods) for a valuable consideration." In common language, the merchant sells a collar and I buy it, when he hands me the collar and I hand him 20 cents.

Since every retailers prosperity depends upon the exchange of his goods for purchasers' money across the Purchase and Sale line, let us consider it more in detail.

All the retailers' unsold goods in the world are on one side of this line and all the consumers' unspent purchasing money in the world is on the other side.

So long as goods and dollars stay in these positions, no sales are made and business fails.



Plainly the merchant's one big job is to get his goods across the line in exchange for consumers' dollars.

In order to do this the merchant has two and only two classes of acts to perform; no other is possible.

1. He can move his goods up to the line.

2. He can draw consumers (with money) up to the line.

Consider now what the merchant con do to get his goods up to the line.

First he establishes what he regards as a suitable store and possibly engages a warehouse. He employs men and women to help him carry on the business. From

C. W. MEARS' RETAIL ANALYSIS

EDITOR & PUBLISHER *herewith presents the first of two installments of a book just published by Mr. Mears, wherein the following points are emphasized:*

Radical changes are sweeping the retail field.

The department store has become an outstanding phenomenon of business life.

Slow-thinkers in retail business are being crowded out by chain stores.

The battle of business has been transferred from the manufacturing to the distribution field.

Traffic congestion in large cities intensifies the down-town merchants problem. How can he meet the competition of neighborhood shops and bring women from the homes to the crowded city centres?

Wanamaker is solving the problem in New York.

The big merchant is expending practically six times as much on merchandising as on influencing people to come to his store to trade, and he insists that the cost of the latter function is too high. What difference does it make if that cost is 4.3 cents per dollar or 8.6 cents, if it consummates sales at reasonable profit?

Last year department stores sold 4 to 10 per cent of their goods at reduced prices; proper advertising can save these losses.

CHARLES W. MEARS

manufacturers and wholesalers he purchases goods, which are brought to his warehouse and store. On every piece of goods he sets a retail price. The goods are then ready for consumers to buy.

Now what do these acts signify?

First—They are acts that affect goods.

Second—By bringing goods to his store he makes them accessible to his public—more accessible than when they were in the hands of manufacturers or wholesalers—*accessible as to place.*

Third—By placing a price on his goods he makes them accessible to such possible buyers as are able to pay—*accessible as to price.*

Fourth—He has used discrimination in buying. He wants people to like his goods. Hence, where he had choice, he chose goods that appeared *attractive.*

Fifth—Also discriminating in his buying, he has selected goods of intrinsic merit—goods that are *valuable.*

Do not confuse attractive and valuable. A suit of wool may be valuable because it will wear long and well, and still not be attractive if it lacks style.

* * *

So then, working on the left side of the Purchase and Sale line, the merchant's activities deal with goods exclusively, and bring them closer to the line by making attractive and valuable goods accessible as to both place and price.

Purchase *and* Sale

Goods

Accessible as to place
Accessible as to price
Attractive
Valuable

(These are Merchandising)

These acts of the merchant are acts of *merchandising.*

They are by no means all the acts he can perform as a merchant, for thus far he has worked on only one side of the Purchase and Sale line.

However, with these activities, merchandising reaches its limit and stops absolutely. The merchant may change his original prices by mark-up or mark-down, but these are simply variations of his original act in making the goods accessible as to price.

* * *

In time past many a merchant's success depended almost wholly upon his merchandising skill, and the better merchandiser built up the bigger business. Everything moves forward. The world's activities grow more complex and nowadays (except for 5 and 10 cent stores), the merchant who depends upon his merchandising to the exclusion of advertising will find himself outclassed.

Wise merchandising will always continue to be a cornerstone of successful retailing. Changed business conditions have not and will not lessen the need of good merchandising. We cannot get along without it. But changed business conditions have brought out another business activity, on the right side of the Purchase and Sale line, and the retailer who neglects that activity or underrates it is building trouble for himself. Work done on the right side of the line, to draw people into the store, is called Advertising.

Purchase *and* Sale

Merchandising | ADVERTISING

Vital as good merchandising is, we have reached a competitive stage in retailing where the most urgent of all necessities is to reach out and draw people into the store. For unless people come into the store, unless they step up to the counter, of what use is the best merchandising in the world?

In at least a vague way even the less intelligent retailer realizes this. Therefore he doesn't establish his store in an uninhabited forest or desert, but establishes his store where some people are sure to pass by; and he reaches out to draw them in by putting a sign over his door and by displaying goods and placards in his windows. All that, however, is merely advertising in its most infantile state.

We might even say that to most big stores advertising as a necessity is taken for granted. "Yes, we've got to advertise," they'll admit. But that today they must advertise more vigorously and more intelligently than ever before is a fact which many large retailers have yet to recognize and to accept whole-heartedly.

The outlook is not encouraging for any large store that fails to put as much intelligence and effort on the Advertising side of the Purchase and Sale line as it does on the Merchandising side.

The public must be won and held. Merchandising alone can't do it. Merchandising PLUS Advertising *can.*

Is Congestion a Menace?

The growth of cities and skyscraper office buildings and the marvelous multiplication of motor cars have combined to give down-town merchants a problem that has absolutely no precedent.

For many years it has been taken for granted that the store located where the crowds are thickest has the best possible chance to draw customers.

This is still true as to cigars, cigarettes, drugs and other small commodities known as convenience goods. But having found that crowds do not necessarily mean sales, grocery stores have left the down-town crowds in order to be nearer their customers—i.e. the homes of consumers.

The crowds that pass by on the sidewalks begin to mean less and less for department stores and specialty shops—less and less in profit. It is a question to these stores if congested streets and sidewalks are not a positive drawback and menace.

* * *

For the most part the down-town city crowds are composed of people who are there of necessity and not by choice. The skyscrapers contain armies of tenants, who in turn attract other armies of clients and customers. These tenants and their clients and customers are mainly men and women busy with their own business and professional affairs, and not intent upon shopping.

Department stores and specialty shops are primarily stores for women—for women of the homes. And as residences move farther away from down-town, and as down-town sidewalk and street congestion grows more and more uncomfortable, the women of the homes are less and less likely to throw themselves into its laborious maelstrom in order to supply every shopping need that arises.

One consequence of this is that big cities are undergoing a sure and definite process of decentralization. New shopping centers are arising in outlying and suburban districts. Chicago presents one very notable instance in three highly successful department stores, under one ownership, all far away from the overcrowded loop. In Cleveland at Euclid Avenue and East 105th Street, four miles from down-town, one finds stores supplying goods to satisfy almost every human need. Like conditions are in evidence in many other cities. The trend is clear.

Hence, more than ever before, the down-town merchant must ask himself whether he approaches or has reached the limit of his growth—whether skyscrapers and motor cars, congesting his neighborhood with non-shoppers, have not more than offset his merchandising ingenuity—whether he can even hold his own unless he takes vigorous measures.

* * *

On the other hand, in New York, Wanamaker's store is far both from residential districts and from the more popular shopping centers—and still Wanamaker's lives on successfully. If in this instance there is a gleam of encouragement for down-town merchants elsewhere, we do well to remind ourselves why it is that Wanamaker's lives where many another store would have died long since.

Can the reason be other than that Wanamaker's is a well-rounded store? A store that has worked energetically and faithfully on both sides of the Purchase and Sale line?

Wanamaker's merchandising has been excellent. Smart buyers have bought well. Goods offered—not at Cheap John prices—but at reasonable prices, have done for Wanamaker's all that good merchandising could do for any store.

But Wanamaker's didn't stop there. John Wanamaker knew what Epictetus knew and said "Men (and women) are not influenced by things, but their thoughts about things."

I recall very vividly Mr. Wanamaker's telling me how, out of the first day's receipts at his Philadelphia store, he set aside money to spend for advertising, and how from that day forward he never neglected to talk to the people in their homes about his store and his goods and his policies and his hopes and aims—through newspaper advertising. Wanamaker didn't wait for passers-by to drop into his store; he reached out afar to them, put his thoughts into their minds and drew them into his store as inevitably as anything in this world can be inevitable.

* * *

John Wanamaker was a man ahead of his times. He did not wait for competition and congestion to spur him on. He did not spend his advertising money either foolishly or reluctantly, but knowing very well what he was doing, he counted advertising expenditure as an investment even more vital to him than the purchase of any particular goods—since advertising as he practiced it gave him first and firmest hold on the good will of his readers and brought their trade to him from near and far.

John Wanamaker never believed a merchant's job ended with good merchandising. He worked with skill and energy and persistence on the other side of the Purchase and Sale line—by Advertising.

In Wanamaker's earlier days, shopping was no hardship. Passers-by might alone have built up a business for him. But Wanamaker caught and practiced the great secret of retailing, and because of that his business grew faster and more surely than did the business of any competitor. And that secret is that if you cause people in their homes to feel favorably toward you and your store, they will give you first call when the time comes to buy for their needs.

* * *

Today much more than ever before, shopping is done mentally before it is done physically. It is much easier for a woman to look through 20 pages of newspaper advertisments in her home than it is for her to visit personally even one down-town store. Therefore the women of the home in a big city shops no more by running down-town every day or two. Instead she reads and keeps informed and makes note of certain offerings and then, at her convenience, she does her down-town shopping all at once and gets it done for a week at least.

Today the great necessity in retailing is to draw people into the store. Merchandising, essential as it is, cannot reach far beyond the show windows; but newspaper advertising goes into the homes, influences purchases and brings purchasing dollars across the Purchase and Sale line and across the retailer's counters.

* * *

The retailer can work on both sides of the Purchase and Sale Line. He can Merchandise and he can Advertise. Nowadays, no matter how good his merchandising may be, if he neglects to advertise, neglects to influence people at a distance to prefer his store and his goods, he is thereby endangering his own welfare.

Figuring the Cost

Figures covering department store operations in 1924 show that for more than 150 large stores the three largest items of expense were for salaries, rent and advertising.

Out of every dollar received from customers—

salaries took (including advertising salaries) .....*16.2 cents
rent took ..... 3.0 cent
advertising took ..... 4.3 cent
(Advertising 3.2 cents; advertising salaries and incidentals 1.1 cents.)

Thus the total advertising cost was th second largest item of the retailer's ex pense, and assumed, therefore, an impor tance that has caused larger merchants t ask: "How can we cut down advertisin expense?"

Total retailer's expenses are 30.1c. pe customer's dollar of Purchase and Sale and can be divided as follows:

Purchase *and* Sale

Merchandising Expense	Advertising Expense
25.8 cents (85.7%)	4.3 cents (14.3%)

In other words, the big merchant is ex pending practically six times as much o merchandising as he expends on influ encing people, and he insists that the cos of influencing people must be reduced.

* * *

Theoretically the ideal business woul be one which involved *no* expense what ever. That of course is an absurdity The nearest approach to rock bottom i the peddler with his pack, traveling o foot and paying no salaries, rent, taxes or license fees. His expenses are the cos of his goods and his own time—that's all

Experience has proved that the peddle cannot supply people's wants. So we hav stores with rents, taxes, wages and so or listed as merchant's expenses. Even un der these added burdens retailing ha paid profits, and men have continued t engage in it.

Many men have become retailers. To day so numerous are stores and so shar is competition that the buying public re mains the one big deciding factor; an that merchant lives and wins and grow bigger who is most expert in winning th public to his side, into his stores and t to his cash registers.

Where then is the wisdom that say that 4.3 cents per dollar is too much t pay for drawing prosperity into a store

Or what difference does it mak whether that cost is 4.3 cents or 8.6 cent —if it consummates sales at reasonabl profit?

If there is a price that the merchan *must* pay to win the public, that IS th price and he pays it or loses his busines

And that price—whatever it may be will be determined largely by busines conditions from day to day in the futur —not by anybody's figures of the pas These historical records of past per formances are indeed a guide to actio but if meanwhile Merchant A (who fol lows figures) is losing trade to Merchan B (who is beating past performances then Merchant B is the wiser man of th two.

* * *

The merchant protests against in creased expenses of all kinds. It is some times difficult to adjust one's business t increasing costs. Yet ultimately tha ability to adjust himself to changing con ditions and rising costs is precisely th mark of the genuine business man.

If a merchant's taxes were doubled o tripled, if his rent were heavily increase if the wholesale prices of goods were t advance sharply—he would not on tha account shut his doors and go out o business.

By what reasoning then can he sa that if advertising costs rise he canno afford to advertise? No matter wha the cost, he really cannot afford *NOT* t advertise.

* * *

I know and you know that the expense of a business must be lower than its gros margin, else the boks will show a los and the merchant will suffer. But w also know that the merchant can set hi own retail price and that the laborer i worthy of his hire. By that I mean sev eral things, but chiefly three:

1. If the merchant will stop advertis ing price, price, price as his big appea and will make his goods desirable to con sumers on service and quality, peopl will gladly pay him more for his goods

If he will stop hammering price as advertising inducement, he will take himself more and more out of the pressure of competition. And

The honest merchant, who by advertising gets the public on his side, will run up his stock-turn and his sales volume to such an extent that, with no sacrifice of quality or service, he can lower his prices to a point where competition cannot control him. That has been proved.

* * *

Interesting also is the news that store buyers receive in salary 2.3 cents of every retail dollar. Again the laborer is worthy of his hire.

Figures also show that stores pay considerably less in advertising salaries—which might be interpreted this way.

Purchase *and* Sale

To get goods	To win the public
Buyers' salaries 2.3cents	Advertising salaries 0.5cents

Every large store, to be sure, retains more buyers than advertising employees, but if an advertising writer, single minded, were able to win the public to purchase all the goods all the store's buyers purchase, would not that one advertising writer be worth as much to the store in salary as all the buyers are?

* * *

The question is worth considering. The merchant is in business to sell—indeed he *must* sell—that's how he earns his profits, and unless he does sell, his buyers work in vain.

Let us not underrate the value of able buyers. Nevertheless, on the merchanding side of the Purchase and Sale line if big mercantile drive nowadays is to purchase by groups of merchants and price in larger quantities, a purpose which must necessarily lessen the importance of many individual buyers.

* * *

Then, too, on the buying side other factors arise.

. The markets of the world are wide open and there are literally no goods which any one buyer or any one store can obtain which cannot be duplicated by another buyer or store.

. Buying wisdom depends in large part on knowing from experience what style, kind and volume of goods patrons of the buyer's store are likely to consume at particular prices.

The degree of accuracy with which a buyer judges his store's customers and their desires may be judged by his "mark-downs," providing of course that the mark-downs are legitimate and do not represent goods that are deliberately marked up in the first place for the chief purpose of making them look like bargains when they are marked down. Some stores are charged with that practice.

Records for 1924 show that in the department stores 4 to 10% of all sales are sales of goods marked down from the originally announced retail prices. The average mark-down figure is 7.8% of total net sales, and is increasing, since the 1923 average was 6%.

* * *

A legitimate mark-down always represents to the merchant a loss of profit which would have been his had the goods sold at originally marked prices. Hence, mark-downs are to some extent discreditable to the buyer.

Among the reasons why goods are marked down are these:

Remnants.
Samples.
Damaged.
Out of season.
Clean up stock
Slow selling.
To meet competition.
Error in marking.

If a store advertised so well as to increase the number of the customers materially, isn't it quite likely that such entries as

Out of season,
Slow selling,
To clean up stock, and
To meet competition

would be greatly reduced?

Goods become unseasonable and slow selling simply because customers are not found for them in season. If there was good reason for their purchase at all, their sale at original prices depended chiefly upon getting enough customers into the store. It is simply a matter of mathematics—the old law of averages.

More and better advertising at the right time might easily save the merchant's hoped-for profit and at the same time relieve the buyer from having his judgment questioned.

[In the concluding chapter, to be published next week, Mr. Mears discusses fundamental principles of retailing and offers some valuable recommendations.]

ASHLAND (KY.) INDEPENDENT NOW PRINTING FROM NEW MODERN HOME

ABOVE is pictured the new home of the *Ashland* (Ky.) *Independent,* just occupied by that newspaper. To celebrate removal to the new plant a special 56-page Progress edition was printed.

The new home of the Kentucky daily is located in the heart of the business section of Ashland, on Seventeenth street, near the Government building and the city hall.

The building is 48 by 100 feet. The business offices and the press and mailing rooms are on the lower floor. A basement provides ample room for paper storage. An alley at the south side of the building accomodates the paper's trucks and facilitates delivery.

On the second floor are the editorial rooms, where the full leased wire services of both the Associated Press and the United Press are received. In the rear is the composing room which contains six linotypes and one monotype.

The Independent was established as a daily in 1896 and has been operating continually since, the Sunday edition having been added in 1920. B. F. Forgey, president, editor and general manager, has been connected with the paper for 20 years. He has associated with him in the business J. T. Norris, vice-president and associate editor, and E. S. Cogan, advertising manager.

Changes to Morning Field

The *Bend* (Ore.) *Central Oregon Press,* afternoon paper, on Nov. 29, will be changed to the morning field. No Sunday edition will be issued. The paper was purchased this fall by J. E. Sheldon, Harold A. Moore and J. W. Jones, all of Eugene, Ore. Mr. Moore is editor and Mr. Jones business and advertising manager.

Kaltenborn Resumes Radio Talks

H. V. Kaltenborn, associate editor of the *Brooklyn Daily Eagle,* has resumed his radio talks. He is delivering a summary and interpretation of world news through station WOR at 8 P. M. each Monday evening.

Short cuts to a job, a man for a job, or mechanical equipment may be found on page 46 of this issue.

PRESS HITS RAILWAY MAIL PAY INCREASE

American Publishers Conference Tells Interstate Commerce Commission It Will Mean Higher Second Class Rates

The American Publishers Conference, representative of many important newspapers and magazines, launched an attack in Washington, Monday, before the Interstate Commerce Commission upon the proposed railway mail pay increase. A petition, signed by A. C. Pearson, national chairman, and William I. Denning, counsel for the Conference, was filed with the Commission in which leave was asked to intervene in the railway mail case as a protest against claims of rail carriers for increased compensation.

The conference was joined in the petition by the Agricultural Publishers Association, Marco Morrow, of the Capper publications, president; Associated Business Papers, Inc., Malcolm Muir, president; National Editorial Association, Frank O. Edgecombe, president; National Publishers Association, Inc., Arthur J. Baldwin, president; and Southern Newspaper Publishers Association, Walter C. Johnson, president.

It was contended by the petitioning publishers that any increase in pay of railroads for handling the mails would bring about higher postage rates on second class matter and seriously restrict the distribution of their publications through the mails.

If the Government through the Postoffice Department is obliged to increase the pay of the carriers for transportation and other services connected with the mails, the petitioners claim it "will result in increasing the allocations to second class mail matter showing alleged costs of transporting this class of mail matter and such findings as to costs will be the basis of unjust and unreasonable increases in postage rates on publications."

The railroads are asking that the Commission order increases in rates paid by the Postoffice Department for the carrying of the mails which would aggregate several million dollars, basing their claim on the allegation that the present loading of cars is twice what they were when rates were fixed by the Commission. The publishers deny this claim and desire to join with the Postoffice Department in opposing the proposed increases.

Brooklyn Times Raises Price

The *Brooklyn* (N. Y.) *Times* announced an advance in subscription price from 2 cents a copy to 3 cents effective Nov. 23. Carrier delivery was increased from 10 to 12 cents a week.

N. Y. GRAPHIC EXPOSES BEAUTY CONTEST

Atlantic City Affair Alleged to Be Fraud by Tabloid, Sued for $1,000,000 by Earl Carroll

In serial form extending over two weeks time, the *New York Evening Graphic* is now exposing as an alleged "gigantic nation-wide fraud" the 1925 Atlantic City Beauty Contest, involving about 1200 newspapers and almost that many participants.

The exposure alleges that the contest was "synthetic" and commercialized, the winner picked before the judges ever met, and the mothers of several of the beauty entrants defrauded of money in the promise they would be chosen "Miss America."

An almost immediate result of publication of the first of the series was the filing of a $1,000,000 libel suit on Nov. 30 against the Macfadden tabloid by Earl Carroll, New York theatrical producer and promoter. The Graphic had alleged that Fay Lanphier, the ultimate winner, a professional stage and screen beauty who posed as a stenographer, and Kathryn Ray, Carroll's "Vanities" beauty, were "ridden rough shod over the hundreds of unsuspecting entrants to a manufactured victory."

Daily articles in the exposé, which has another week to run, are signed "K. C. West," a nom de plume belonging to Woodman Morrison, who has, since he wrote the story, left the Graphic and is now engaged as publicity man for a New York brokerage house.

Emile H. Gauvreau, the Graphic's managing editor, named in the Carroll $1,000,000 suit this week showed EDITOR & PUBLISHER sworn affidavits supporting his allegations. Two affidavits were from mothers, swearing they had been "hoodwinked" out of $5,000, in the belief their daughter, would be chosen Miss America.

A development in the exposé this week, was the resignation of the management of the Atlantic City chamber of commerce.

"I decided to go the limit when I discovered the affair was a fake from start to finish," Mr. Gauvreau declared. "If I can put beauty contests on a decent honest basis in America I will be satisfied.

"My contention is the contest should not be commercialized. The impression was sent abroad in the preliminary days of the contest that it was being held for amateurs. I want to see the free puff people and the professional element given the gate.

"I discovered that behind this contest was a terrific battle between Florida and California for free publicity in the newspapers, and the newspapers were supporting the contest."

Sanford (Fla.) Signal Starts

The *Sanford* (Fla.) *Signal,* morning daily, started publication, using the Associate Press Report, on Nov. 27. T. R. Higgins is publisher and A. P. member.

Pollard Moves Up

Ernest C. Pollard, city editor of the *Richmond Times-Dispatch,* has been made managing editor.

Hause Ill

Frank Hause, managing editor of the *New York Daily News,* is ill at his home with an abscessed shoulder. Jack Masters, city editor, is in charge.

FREE PRESS OCCUPIES NEW $4,000,000 PLANT

Detroit Daily's Home Is Last Word In Mechanical and Structural Efficiency—Built of White Limesto
Six Stories High With Fourteen Story Central Structure—E. D. Stair Is Publisher

ON the evening of May 4, 1831, in a rude, log cabined structure, the first editor of the *Detroit Free Press* took up his quill pen and by the light of a tallow candle, wrote the following editorial, which appeared in the first issue of this newspaper on the following day:

"The Democratic citizens of this territory, having found that the two other newspapers already established in Detroit are under the domination of the city aristocracy, we have been compelled to set up an independent press."

The words "Independent Press" were in capital letters in order that the purpose of the new journal might be emphasized.

Round about the little stockade that represented Detroit and her 2,200 inhabitants there was little but primeval forest, Indians and wild beasts.

Sheldon McKnight was the first publisher of the Free Press—a great leader—a strong character. Associated with him were two of the most powerful men in the village—Joseph Campau, friend of the Indians, a strong, alert, farseeing French trader, and Gen. John R. Williams, a great national character. Thus from its beginnings the Free Press had behind it the sound, stable support of an aggressive, thoughtful, straight thinking element—a foundation that endured throughout 94 years of public service.

Just a little over 94 years after its founding, the Detroit Free Press started to occupy its splendid new $4,000,000 home on Lafayette Boulevard, Detroit, making the eleventh time in its journalistic history this newspaper has been forced to seek larger quarters to provide for its growth. Fronting 212 feet or one city block on Lafayette Boulevard, with a depth of 130 feet on Wayne and Cass avenues, its white limestone exterior presents a beautiful, yet massive face to a district that at one time was the outskirts of the old Fort Shelby Military Reservation. The main structure rises six stories above the sidewalk; the central portion of the building has eight additional stories, making a 14-story tower in the center of the block. Below the street level are two floors containing the press room, stereotyping department, paper storage, power equipment and paper reels. The building was designed by Albert Kahn and erected by Crowell, Little & Co., of Cleveland. All floors have a carrying capacity of more than 200 pounds to the square foot permitting the future installation of such newly developed processes of newspaper production as may be found necessary.

The new home of the Free Press was really built around its remarkable press room. Here more than a million dollars has been spent in the latest machinery and equipment. The press equipment onsists of a battery of 25 Goss High speed multiple type presses with a capacity of 504,000 16-page papers per hour. From two to 64 pages may be printed, cut and folded on these presses at one time. Cline-Westinghouse automatic controls regulate the speed. The electrical installations in the press room are said to be the finest of their kind in America—the wiring job alone representing a quarter of a million dollars investment. In addition to these 25 press units there is a 12 cylinder multi-color press, so built as to permit its expansion to 24 cylinders. This press prints the colored comics and the colored pages of the Sunday Free Press, requires 96 plates to load and has a capacity of 25,000 eight page comics and 12 page magazines per hour, in four colors. Down in the subbasement just below the press room is the group of paper reels that feed news print to the presses. Each of the twenty-five press units is equipped with a reel holding three rolls or 4,500 pounds of paper. It takes two car loads of paper to load these reels. Paper is brought from the storage room by an industrial trucking system operating on more than a half mile of sunken track, equipped as in any railroad with turn tables and tiny cars called dolleys. All work is done by machinery, automatically. Fingers that touch bottons, pull leavers and make adjustments are all the man power required. Foundations have also been laid in the press room to permit the eventual incluion of 38 more press units identical with the equipment already installed, in order to provide for future growth. In the stereotype department adjacent to the press room the equipment consists of 2 matrix moulding machines, 10 steam drying tables, 2 double Junior Autoplate machines, 2 Auto Shavers, 1 three pump furnace, 3 curved casting boxes, 1 Hoe plate finisher, 1 complete double plate casting outfit and 2 curved plate routers. The auxiliary stereotype foundry equipment consists of a three ton furnace, four casting boxes, combination saw and trimmer, 1 table saw, 1 table trimmer, 1 shaving machine and a flat routing machine.

An entire block front on Lafayette Boulevard gave the *Free Press* architect a well-realized opportunity to combine beauty and utility in their design.

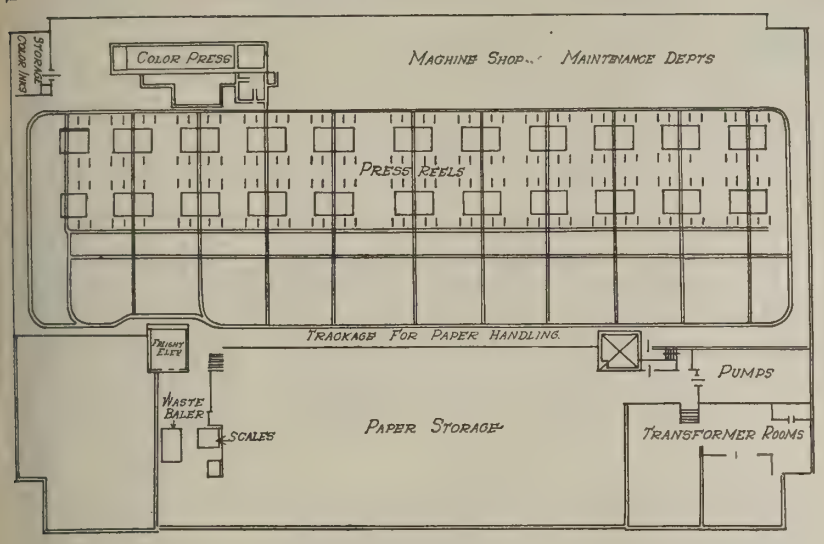
On the ground floor, just off the main lobby of the building is the beautiful Public Relations office. Both walls and ceilings are splendidly paneled in American walnut. Picked out against the soft browns of the ceiling wood is a decorative design in gold leaf, interspersed with vermilion. Occupying the upper half of the walls of the office is a series of five remarkable mural paintings done by Roy Gamble, which relate in picture the history of Detroit from the landing of Cadillac to the present time and two paintings by de Jonge Smith that tell in allegory the progress of printing.

The mailing room, which contains 25,000 square feet of space, is located on the first floor. Adjacent to the mailing room is the block-long, covered, loading platform. The loading of motor trucks with newspapers at the plant of the Free Press without interference in any manner with street traffic has been accomplished through the incorporation of this covered driveway as an integral portion of the building. It is one block long and 20 feet wide and is equipped with large steel shutter doors on the alley side so that trucks may be loaded with comfort and dispatch even in the most inclement weather. The out-of-town distribution of The Free Press is greatly facilitated by the fact that directly across from the outgoing end of this covered driveway is the Detroit postoffice, while only a few blocks away are the docks of the steamer lines and the railroad and interurban stations.

On the second floor of the building are located the offices of the circulation department, advertising department, including local, national and classified advertising, the managing director, the general manager, the auditor, the critics, the society department, Sunday editor, photographic and art departments. The Want ad order board with 42 positions is one of the largest want-ad order boards in the world. A large auditorium or assembly hall is also located on the second floor, adjacent to which a well appointed rest room for employes has been constructed. Care has been exercised throughout the entire plant to insure physical welfare through providing the very best types of lighting, heating and ventilating conditions. All air entering the various offices is filtered and washed, while outgoing ventilators remove vitiated air.

The reference library and morgue located on the second floor. Mod steel filing cabinets specially desig have been installed.

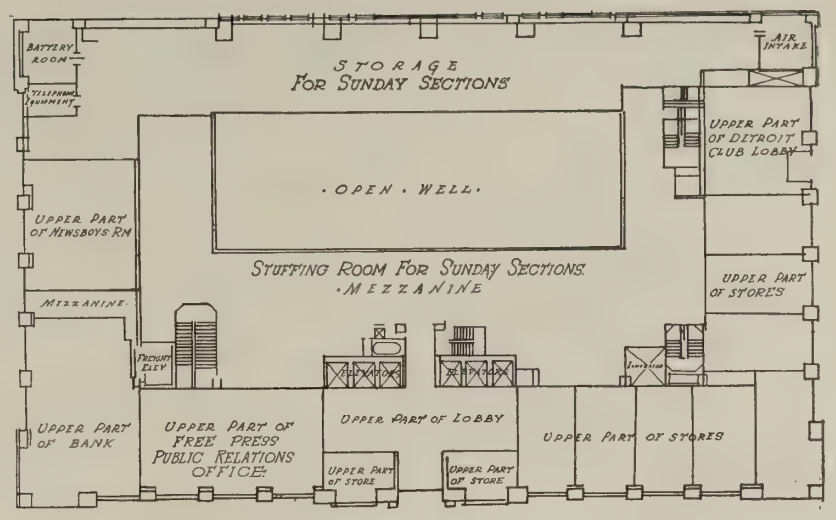
Centered in spacious, well-ligh rooms on the third floor and overflow to parts of the second floor, are the F Press editorial offices afford exceptic facilities for assembling and handling curately and speedily the daily news fr every corner of the world. In addi to the home office staff, the Free P is served by its 596 suburban and s correspondents and about 100 Canad and foreign representatives. Supplem ing the staff the complete news serv of the Associated Press, United Pr New York World News Bureau, In national News Service, Chicago Trib Associated Newspaper Service, and Mutual, World Wide and Current N Feature services.



Besides the Associated Press, spe service and leased wires, more than Postal and Western Union "loops" c prise the telegraphic battery at one of the city room to handle special patches. To facilitate the welding these widely scattered contributing tors into an effective newspaper organ tion, the Free Press editorial rooms h been laid out to permit the closest sible contacts. Light and ventilation amply provided for and disturbing no have been eliminated by treating the ings with sound-absorbing Acousti-C tex, the second installation of its kin American newspaper offices. All sp writers, including editorial writers l private offices with their own indivi reference libraries.

The southern half of the third of the building is occupied by the posing room, job print shop, and stereotype department. The pre equipment consists of 42 linotype mah with space provided for 28 more. T are also four monotype machines. linotype machine is individually m driven, and the metal used is kept m by the use of electrically heated Air vitiated by natural uses or the metal is drawn from the room by ventilators, and filtered, washed ai continually forced in. The lightin done by Cooper Hewitt vapor la The floor is built of Kreolite wo blocks. The add alleys, linotypes make up tables are so arranged that flows through the department in an derly, efficient manner—a system terned after the assembling lines in large motor car plants. Each month composing room handles an averag 5,000 columns of advertising. Appr mately 10,500 columns of news and vertising matter are handled in the posing room each month.

E. D. Stair is publisher of the Press. He is considered to be on the most conservative minded me Detroit, yet his genuine passion for derliness, beauty and efficiency has him and his associates in designing new Free Press plant to carry out t desirable qualities in a most precise admirable manner in both the equip of the building and the fine stateli and impressiveness of its exterior. has been only a little over a decade the Free Press erected its own new story building three blocks from its sent office. At that time it was felt provision had been made to care for growth and progress of the newsp for a quarter century or more.



In the ten years just past, how the growth of Detroit and the Free P have been so rapid it was realized the building would soon prove inadeq Departments became more and crowded, and it was decided that a and larger plant was imperative.

TRAIL BLAZERS OF ADVERTISING

The Indian Medicine Tent Show

by Chalmers L. Pancoast

COPYRIGHT 1925 BY EDITOR & PUBLISHER CO.

Chapter VI

(Continued from last week)

THE old time Labor Day was another event for wearing the Royal Garments of Publicity. I once built a float for a Labor Day parade advertising the William Penn cigar. It was a beautiful float until the town boys pulled it to pieces, while I drove proudly around the Public Square. But the building of this float, while my first tragedy in advertising, started me on the great adventure in the game; in the William Penn statue was the germ of a genius.

I became a house-to-house handbill distributor. My success was due to not mistaking a culvert, sewer or dark alley for a doorway. Those early masterpieces of advertising art, those famous old medical almanacs I distributed with great pride. Well do I remember such old almanacs as "The Seven Barks," with colored pictures of beautiful dogs, which the country people framed for their parlors; there were the almanacs of Dr. Jaynes Expectorant, published these 90 years; Paine's Celery Compound and many others greatly desired at that time.

My particular association with advertising almanacs was to give them to the country people standing in the market, and also to place one in each farmer's buggy or wagon hitched around the public square. These choice bits of advertising literature, with their highly-colored picture backs, stood at that time as the highest development in advertising art.

Tacking medical signs on telegraph poles, fences and barns was another advertising job at which I became an expert. I made a stepladder and used a long handled hammer to place the cards beyond the reach of devilish boys. The price paid was a cent a card, for those that stayed up. Once I became rather too expert. I was threatened with arrest in Zanesville, O., for tacking old Dr. Clark's Oil of Arnica cards on top of other signs. At the age of 14, in knee breeches, I traveled about Ohio passing hand-bills, tacking signs and taking orders for patent medicines. At that time I had the reputation of being the youngest traveling salesman and advertising man in the state.

I always seemed to be thinking in terms of advertising. There was always a thrill in some idea or scheme which popped into my head.

One time I wanted to sell a cow. I wasn't sure that the cow's own personality was attractive enough to make a real advertising appeal. So I dressed up in my Sunday-go-to-meeting clothes and had the cow's picture taken with me.

The picture sold the cow. I always thought it was my curly hair and big wing collar and bold necktie which added the finishing touch to the sale.

My idea as a beginner was that the cow should have personality plus.

I also helped advertise one of the Seven Wonders of the World. As a smart news butcher I sold view books and photographs of the Grand Canyon of Arizona, and told timid tourists about the wonders of this great chasm before I had ever laid eyes on it. Such is the foundation of my imaginations.

I also advertised Corse Payton, by selling his photographs to the audience when he played 10-20-30 cent shows in our town.

"Cures every ill that human flesh is heir to!" Under the flicker of kerosene torches the medicine show fakers held their small town audiences enthralled. Glib oratory played on human ignorance to sell worthless compounds for cash.

Chapter VII

Indian Medicine Tent Show

I FIRST felt the great lure of adventure in advertising and saw its romance and glamour in helping advertise an Indian Medicine Tent Show. I can still feel the thrill of the old, picturesque, traveling Doctor's superb eloquence. He advertised by marvelous words of mouth.

I can still see the gaudy, painted faces of the Indians, who sat on the gasoline-torch-lighted stage, wrapped in their flaming red blankets, and grunted "Amen "to old Doc's eulogies.

I shall never forget the colorful, glimmering beauty of that scene under the glare of the smelly gasoline torch light, as a few of us, highly honored boys, passed out bottles of Indian medicines. The people in the audience were asked merely to hold the bottles in their hands while the Doctor talked to them about ailments, complaints, and diseases, until all felt they had some of the symptons of the dreadful and fatal diseases mentioned. Then we collected the silver dollars. A man could enter that tent show a picture of health but he would depart a terribly sick man, a bottle of cure-all clasped in his hand.

The only show that I have seen in recent years to bring back vivid memories of this famous character in the early days of advertising was when Maclyn Arbuckle played in "Home Again." He truthfully portrayed Doc. Townsend, the purveyor of Townsend's Magical Bitters. I merely had to close my eyes to see that old Indian Medicine Tent Show of long ago.

Each spring saw the return of the Medicine Show's brightly painted wagon, gaudily decorated and skillfully painted Indians, and the jolly black-face banjo performers. The outstanding figure was Old Doc, himself, smiling, unctuous and bediamonded. His big white felt hat, Prince Albert coat and flowing beard completed the picture.

How well I remember the terrifying distinctness with which the doctor rolled off the unpronounceable names of the dread diseases the human flesh was heir to, any and all of which his remedies would positively cure, guaranteed or money refunded.

The hand-bills we boys passed from door to door told a wondrous story of how humanity was being saved from an early and unnecessary grave.

I have seen many attempts of advertising to get the crowds, yea, even in this enlightened age of dime novel movies, but the "free, gratis and for nothing" Indian Medicine Tent Shows had them all skinned to death.

There will never again be an advertising spectacle that will appeal to my imagination with such superb, dazzling brilliancy as the old Indian Medicine Shows. Even the gems of that sparkling publicity giant, the Great White Way, have never had the appeal of the golden sparkle of the old gasoline torch.

No publicity event will ever eclipse in my mind those exciting, hilarious nights when the old Doc awarded the prizes to the most beautiful woman and the most homely man in the audience.

No medal for bravery at sea, or in battle, could have filled me with greater pride, or conceit, as when Old Doc patted me on the head for passing bills into homes instead of stuffing them in culverts, as some boys did. My first important part played in the advertising game was a minor associate to that historical hysterical spell-binder; that master of words and advertising phrases—that pioneer adventurer in the advertising game.

Chapter VIII

The Call to Adventure

ONE of my first important adventures was a part played in a real genuine Wild West Carnival down in New Mexico. Here all the thrills stored up by reading Diamond Dick, Nick Carter, Buffalo Bill, Wild Bill and Old Cap Collier came back to life. I had an interview with the real Buffalo Bill and wrote for him a great advertisement. All this was years after I read of his daring adventures at five cents a copy.

I was a frontier reporter, publicity man, special edition writer, and I became a strolling newspaper man. In New Mexico, Arizona and Texas I won notoriety and met many strange advertising adventurers, who played a bold, clever hand in the advertising game.

I made history—exciting history to me, playing the newspaper and advertising game. It was the kind of history that leaves its red marks on the memory, and its records turning brown in many scrap books.

I have met all those unique characters in the game who sailed on the good ship adventure. It required cleverness, nerve and a reckless sort of daring to play the game they played.

EDITORS DISCUSS RHINELANDER CASE AS NEWS

Printing of Letters and Complete Details Held to Be Pandering Boldly to Public's Taste for the Salacious by Many Executives—Others Defend Full News Treatment, Calling Case Most Sensational Court Story of This Generation

WAS publication, direct or by suggestion, of the revolting testimony in the Rhinelander annulment case at White Plains during the past two weeks justified?

EDITOR & PUBLISHER *put this question this week to a score of prominent editors.*

Opinion is divided, the majority, however, holding that the scandalous facts, even with the actual smut deleted, were too indecent for print in daily newspapers.

By C. P. J. Mooney

ditor, *Memphis* (Tenn.) *Commercial Appeal*

The *Commercial Appeal* does not print tories about degeneracies and other bscene sex matters for the benefit of iorons. If the Rhinelander trial were n in Memphis we would dismiss it every ay with about two hundred words. This aper has the largest circulation of any the South and it eliminates all such uff as the Rhinelander and Nan Patrson cases. We do not play up crime at disgusts, but we do print crime and ragedies that are the outgrowth of assion, violence and cupidity. We try run a he-man paper.

By Wallace Odell

Editor, *Tarrytown* (N. Y.) *News*

The New York papers went to lengths, at I thought they would never dare to , in publishing the detailed testimony in e Rhinelander annulment case. What spectacle of seeing men, supposed to be aders in public thought, publishing the ash and filth in the lives of an ignorant olored girl and a man admittedly not ormal.

Anything for circulation!

Is filth news? We speak a language. has its good words and its foul words. Vith news we have lost the good and ow there is no depths to which a ewspaper will not go. Circulation at y cost to the human race and the oming generation—we must have it! Ve criticize the parents and blame them r the follies of the youth of today. urely the publishers are to blame for oding the world with all the garbage at is being dumped into the newspaper olumns these days. What a responsility!

The A. N. P. A. could do no greater ing for America than to arrange for discussion of this important subject at s next meeting.

If the publishers would agree to put e soft pedal on crime news, uphold the ws of the country vigorously and reise to publish all the details of such otten stuff as the Rhinelander case we ould soon see a greater and better merica. Isn't it worth a trial? The ress can do it. How much more imortant this would be than to feed such will to the public as has come out of White Plains the last week or two. hink it over!

By Julian S. Mason

Managing Editor, *New York Herald Tribune*

It seems to me a newspaper should esent a record of this case, disgraceul as it is, because it is a record of life. ut decent newspapers should not print s revolting details, nor should they exoit it by position or headline. In the erald Tribune we have kept down the ace devoted to this case and have not ayed it once on the front page.

By Philip A. Payne

Managing Editor, *New York Mirror*

I won't defend publication of details of is case on any moral grounds at all; it purely a circulation matter. Personly, not as an editor, I would rather ve seen the case settled out of court. s a news story, however, I consider it ice as interesting as the Stillman case. involves added problems. In the inelander story the greatest problems all time are rolled into one. To menon but a fwe there are the race probm, the servant in the house problem, e profligate son, the relations between verty and wealth. If its publication is stified at all, it is that rich parents ay be instructed in the better upbring- of their children.

By Julian Harris

Editor, *Columbus* (Ga.) *Enquirer-Sun*

Concerning the publication of the details of the Rhinelander case: It is the type of story which unfortunately is forced into newspapers by the pressure of the public's greed for salacious stories. If I could I would prevent such incidents from occurring and thus bar unclean stories from our news columns. But since it has happened, it is news and is so handled. The *Enquirer-Sun* held the "Fatty" Arbuckle story to a minimum for two days. Many subscribers complained bitterly because of the brevity of the Arbuckle news. This insistent demand of many persons for all the incidents of the sordid and unfortunate Arbuckle story led the Atlanta newspapers, published just a hundred miles from Columbus, and which carried every detail of the case, to flood the city with thousands of extra copies which were literally gobbled up.

Another phase of the Rhinelander trial which applies particularly to Southern newspapers, and their readers, is the interest in the efforts of a wealthy man to get rid of his mulatto wife. Many Southerners, if not sympathizing with the woman in the case, hope that Rhinelander will lose since New York recognizes as legal the intermarriage of whites and blacks. The color line feature of the case seems to be creating more interest here than the erotic details.

By Donald Sterling

Managing Editor, *Portland* (Ore.) *Journal*

The Rhinelander story is ugly at best. But the *Oregon Journal* published rather detailed stories, each day deleting from the press association reports some of the letters and testimony that were too offensive. It was not inspiring reading, but we believe that the public interest is better served by its publication at some length. The story certainly did not make vice alluring. If the newspaper doesn't turn the light of publicity into dark corners, what agency will?

By E. C. Hopwood

Editor, *Cleveland* (O.) *Plain Dealer*

I do not believe publication of detailed testimony and letters of plaintiff and defendant in the Rhinelander case in any newspaper of general circulation can be justified. Most of this testimony and correspondence was unspeakably indecent. While the *Plain Dealer* printed the story, it edited it without mercy and attempted to keep it within the bounds of propriety. Newspapers which make sour faces about indecency on the stage and about offensive news-stand magazines are in a mighty poor position when they report the Rhinelander case in detail.

By Edmund W. Booth

Editor, *Grand Rapids* (Mich.) *Press*

The *Grand Rapids Press* carried a brief notice of the start of the annulment suit brought by young Rhinelander and will print nothing more concerning the case until it announces the verdict. In my opinion the space given to the details of scandal news of this type is worse than space wasted and such cases have no legitimate place in the pages of papers entitled to call themselves home papers. We must believe that the great news gathering agencies would pursue a better public policy by leaving the gathering of unsavory details to such newspapers as desire them.

By Gene Fowler

Managing Editor, *New York American*

The Rhinelander case is Eugene O'Neil's "All God's Chillen' Got Wings" reversed. Its drama has been bigger than any court story I have ever known in basic elements as well as action. It is even greater than the Stillman story. Every paper that has played it up has increased its circulation.

We, as newspaper editors, are the servants of our readers. Our readers wanted the Rhinelander story, and we gave it to them. It has been handled in a very clean way, I think. The most astounding thing to me was that the case was ever allowed to go to trial.

By Stanley M. Reynolds

Managing Editor, *Baltimore Sun*

The Sun did not print Rhinelander letters nor detailed testimony, although the opposition did. We could see no justification for its use.

By E. S. Beck

Managing Editor, *Chicago Tribune*

The Rhinelander case, in various respects, is obviously exceptional and as news deserves the detailed reports that are being printed, as a matter of public policy no less than from the view of human interest. This publication is justifiable. None of those newspapers I have seen and read has stepped beyond the bounds of ordinary taste and decency in relating the proceedings of the trial.

By Jack Williams

Telegraph Editor, *Kansas City* (Mo.) *Journal*

Perhaps the public's most acute shock from the Rhinelander scandal was from finding it in newsprint.

It is one of those stories that appeals to the morbid in human makeup, therefore, it is a financial and circulation success. But after it is read it results in a general bitter condemnation of the press.

It seems improbable that the big play given the detailed story is worth the fall in dignity the press has suffered.

A story that causes parents to forbid children to read it will reflect in the prestige of the press in the next generation. It was a financial success. A worse story, do doubt, would have been a bigger financial success. Otherwise it was a horrible "flop" as far as public opinion goes toward the press and has injured the

THE RHINELANDER CASE AS VIEWED BY ROLLIN KIRBY OF THE NEW YORK WORLD

PHEW!

newspapers. It opened the gates wide for yellow journalism.

By Charles L. Knight

Publisher, *Akron* (O.) *Beacon Journal* and *Springfield* (O.) *Morning Sun*

In reply to your inquiry as to whether the letters and detailed testimony in the Rhinelander case were justified, my opinion is that they were not. Such stuff adds nothing to the wisdom of the world. It teaches no lesson humanity will learn. It can only be justified upon the assumption that the province of the newspaper is to stimulate circulation by pandering to a morbid appetite which always needs allaying rather than arousing. It is a sad commentary on the tendency of the times when such stuff as this occupies columns while a serious discussion of the pressing problems of the day would probably get mention so brief as to be incomprehensible.

By William Preston Beazell

Assistant Managing Editor, *New York World*

Our attitude on cases of this kind is this: when people go into court, they have invited public attention to their affairs, their so-called spiritual disasters, and have, therefore, forfeited their rights to secrecy and anonymity. Since full knowledge and attention of the community has been invited in the Rhinelander case, we have been governed only by good taste. We have kept away from vulgarities and obscenities as much as possible.

I hold, and I have reached this decision after years of consideration, not by myself alone, that crime and misbehavior have a definite place in a newspaper, because a newspaper is a mirror of day by day life, and as long as people fall into evil ways, it is the newspaper's job to reflect their fall truly.

Publication of the Rhinelander story is further justified by the fact that you will not find a stratum or group of society not discussing it, almost exclusively. If they are not shocked, why should a newspaper be stopped from printing it? Another thing that must be borne in mind, is that every essential of drama and realism is involved in this case. It is just life in the raw.

By Keats Speed

Managing Editor, *New York Sun*

We have given more actual space to the Rhinelander story, than any other newspaper in town. We have run probably 80 columns on this one case alone from Nov. 10 to Nov. 24, using as high as nine columns in one day. Let that record speak for itself. We haven't printed a line of actual filth and we have received only one complaint from a reader, who told us the story should not have been run at all.

By Vincent Byers

Acting Managing Editor, *New York Evening Post*

The Rhinelander case has occupied the time of our courts, has certain human interest values, and cannot be ignored. On the other hand, many details are not the kind one could discuss in full in a family circle, and therefore do not belong in a respectable newspaper. It becomes a matter of taste as to how much should be used. We have endeavored to cover the essential features, without leaning too much towards the realistic school in painting the sordid side.

By Joseph Mulcahy

Managing Editor, *New York Evening Journal*

Why not get the answer to your question from the public? The public wants the story; they buy the papers. It would have been unfair to the public, had the newspapers not played up the Rhinelander case. If you don't believe the public want it in the newspapers, ask the circulation managers.

Department stores put their best goods in their show windows. Newspapers which want to succeed do the same. The Rhinelander story is the best of its kind in this generation, and, of course, should go into the newspaper show window—the front page.

By Lafayette Young, Jr.

General Manager, *Des Moines* (Ia.) *Capital*

Publication of detailed evidence in the Rhinelander case, within bounds of discretion, is justified under the news principle that truth should be told and that sunlight is the best cure. Emphasis upon the color line and the picture of a rich man's son preying upon the womenfolk of his social inferiors, probably incites race and class hatreds, but frank treatment of the story and public denunciation of the offender balance these evil effects.

Everyone recognizes there is a certain kind of testimony that is unprintable, but the fact that such testimony is given should be published so as to strengthen in the public mind a confident belief that newspapers tell the whole truth and shield no one.

By M. E. Foster

Publisher, *Houston* (Tex.) *Chronicle*

The Rhinelander case was of national interest because of the race question involved. While it brought forth some letters that seemed shocking, we do not believe the extracts published did any harm nor do we think the newspapers gave too many details considering the great interest in the inquiry. In our opinion, the news associations handled the subject very carefully and did not inflict upon newspaper readers anything that would injure the mind or morals of any sane person.

The effect on the other hand should be good in that it may cause the impetuous youth of the country to refrain from making hasty matrimonial connections or from putting in writing this that the unco guid think in private but never utter in public. There was certainly nothing in this story that would encourage crime or lead one to follow in the footsteps either of the animal-like female or the half-witted male.

By Boyd Gurley

Editor, *South Bend* (Ind.) *News-Times*

If public interest is the final censor of news, then publication of the testimony and letters in the Rhinelander case was imperative. That any elevation of morals or safeguarding of readers against any temptations was accomplished, is exceedingly doubtful. Few newspaper readers are found in similar entanglements or perplexing situations. Any argument that the detailed revelation would curb the impulse of youth to express his first fancies in lavish language, or any weak girl to refrain from falling for flattering attentions from wealth, or those of rank, is specious. No editor would be accused of being remiss in his obligations to his readers had he deleted the details.

But any editor whose standards are either higher or lower than those of the average of his readers is quite likely to print for private circulation in the near future. The details formed an interesting story, unusual in its setting, unique in its psychology and were not revolting to the average sense of decency. The real justification is found in the fact that a larger percentage of readers followed that story with greater interest than they gave to any other printed matter in the same edition.

By Denver (Col.) Post

The *Denver Post* believes that the widest publicity should be given to the testimony and letters in the Rhinelander case. The testimony shows that this was a case where a white man of good family and wealth deliberately planned the seduction of what he believed to be a helpless negress who had aroused his passions. Feeling that his social position and wealth protected him, he even went to the length of marrying the girl, confident that he could toss her aside at will. Now he should pay the full penalty of his love crime and nothing will hurt him more than the widest publicity which has been given the case.

Whatever the court decides is competent testimony in this case should be printed in the newspapers. There are other Rhinelanders stalking their prey right now and the proper kind of publicity might cause them to hesitate.

By R. Charlton Wright

Publisher, *Columbia* (S. C.) *Record*

I can discover no justification for publication of the details of testimony and letters in the Rhinelander case. I believe in publishing news, but the publication of sordid incidents of this so-called romance of miscegenation illustrates a type of journalism that serves no worthy purpose and panders boldly to the taste of seekers of sexual sensations. You may call this an old fashioned Southern attitude.

W. M. CLEMENS JOINS GANNETT GROUP

Leaves Knoxville Journal to Become Assistant Publisher of New York State Chain of Dailies—Simmons Promoted

W. M. Clemens has resigned as managing editor of the *Knoxville* (Tenn.) *Journal* to become assistant publisher of Gannett Newspapers Inc., with headquarters in Rochester, N. Y. T. J. Simmons has been promoted from news editor to succeed Mr. Clemens on the Journal.

W. M. Clemens

Mr. Simmons is a newspaper man of 25 years experience. For 17 years prior to going to Knoxville he was vice-president and managing editor of the *Macon News.* Previous to that time he was city editor of the *Atlanta Journal.*

Mr. Clemens takes up his new duties in Rochester effective Nov. 30. A native of Louisville, Ky., he has spent the past 20 years on Southern newspapers, and was for some years secretary of the Southern Newspaper Publishers Association. He was formerly general manager and managing editor of the *Memphis News Scimitar,* managing editor of the *Birmingham News,* editor of the *Mobile Item,* and managing editor of the *Atlanta Georgian* and *American.*

A luncheon was held in Mr. Clemens' honor Nov. 21 by the Journal staff.

WOMEN BAN CRIME NEWS

History Club Members Edit Sioux Falls Press for a Day

Crime news disappeared from page one when twelve women members of the Sioux Falls History Club edited the *Sioux Falls Press* Tuesday. Sordid details of crime were called a menace to the American home and all such news virtually disappeared from the paper.

The verdict of a South Dakota murder trial, which the publisher, F. C. Christopherson, said would normally carry a first-page "streamer," was given a secondary head on page eight. The Rhinelander annulment story was not used.

Mrs. W. Grimes, president of the club, was general manager, aided by a staff of 11 club members.

New York financial news, comment and stock lists were eliminated, the editors declaring them "uninteresting to South Dakota." Grain and live stock markets were published in full.

One comic strip was retained as "the best and least offensive." Serial stories were omitted to "make way for better stuff."

STANSBURY TO EDIT NEW YORK AMERICAN

Comes from Washington Herald to Succeed Gene Fowler, Who Remains in Hearst Service As Writer—Other Changes

Harry H. Stansbury, managing editor of the *Washington Herald,* was this week transferred to New York to edit the *New York American,* succeeding Gene Fowler, who, after several months' vacation, will remain in the Hearst service as a writer.

Mr. Fowler became managing editor of the American on Nov. 8, 1924. Prior to that he had been sporting editor of the *New York Mirror,* Hearst tabloid, since its establishment. Altogether he has been for eight years in Hearst service.

With Mrs. Fowler, Mr. Fowler plans to leave shortly, he said, on a trip to Egypt. On his return, it is understood he will become associated with King Features Syndicate, Inc., the Hearst feature service.

Before becoming managing editor of the Washington Herald, Mr. Stansbury was for several years Washington manager for Universal Service. He has been in the Hearst organization about 15 years.

Other shifts in Hearst executive personnel which became known this week include:

Joseph Mulcahy is now managing editor of the *New York Evening Journal,* succeeding John Hastings, transferred temporarily to the *Baltimore News.*

J. E. Watson, formerly publisher of the *Syracuse Telegram,* now city editor New York American.

E. T. Jorgenson, formerly managing editor, *Fort Worth Record,* now night editor, New York American.

John Stuart, formerly star reporter *New York Sun,* replaces Frederick Landis, editorial writer, New York American.

Martin Dunn continues as day city editor of the American with Ed Sullivan as news editor, John F. Cullen as night city editor, and Lou Levins, head of the copy desk.

PASADENA SUN LAUNCHED

New Morning Paper Began Publication Monday—J. L. Meehan, President

The *Pasadena* (Cal.) *Morning Sun,* the first morning daily ever published in Pasadena, made its initial appearance Monday, Nov. 23, and is to be published every morning except Sunday.

The Sun is owned by the Pasadena Morning Sun, Inc., of which J. L. Meehan is president; E. C. Schmidt, vice president; and Roger Wilson, secretary-treasurer and business manager. Mr. Meehan and Mr. Schmidt were formerly members of the editorial staff of the *Salt Lake City Tribune.* Mr. Schmidt is now managing editor of the *California Oil World.*

H. W. Hall, veteran Pasadena newspaper man, is managing editor of the new publication. F. W. Ryan, formerly on the staff of the *New York World,* is city editor. The telegraph editor is C. McClurg.

The Sun is receiving world news over the wires of the International News and United News services. The paper is Republican in its policies. It is published from a new business block at 1207 E. Colorado street.

Pasadena now has three daily newspapers. In addition to the Sun there are the *Star-News* and the *Post,* both evening papers.

Sir Charles Buys Sargent's House

Sir Charles Higham, British advertising agent, has purchased John S. Sargent's house in Tite Street, Chelsea, London, so that Alfred E. Orr, the portrait painter, may occupy it. Sir Charles says he had become Orr's patron and wanted the artist to be able to work in the atmosphere of the great master.

CRIME, SCANDAL AND MEDICINE ADS HIT WASTEBASKET WHEN PASTORS EDIT

Tree Comic Strips and Boxing News Also Banned When Four Clergymen of Various Faiths Supervise Tolerance Edition of Minneapolis Daily Star

By W. C. ROBERTSON
Editor *Minneapolis Daily Star*

MINNEAPOLIS, Nov. 24—Tolerance had its day in the Good Will Edition of the *Minneapolis Daily Star* which was ed on Tuesday by four clergymen esenting various religious groups of city, and after laying down the blue il which they had wielded so indus-riously upon crime news and items they ded as unwholesome, the editors de-ed for a six o'clock dinner meeting d for the purpose of organizing a rance Club to be composed of clergy-e and laymen of all faiths and opinions religious, international, political, so-ia and economic questions.

he editors for a day were: Dr. Harry Dewey, Congregationalist, Rabbi C. aid Matt; Father James Reardon, aolic, Rev. G. K. Stark, Lutheran. vi the cartoonist was a clergyman—r Roy Smith, of Simpson M. E. ch, former "chalk-talk" lecturer on he Chautauqua circuit.

very bit of copy submitted for the ication was edited by the clergymen h were given carte blanche to do as he desired with it.

he wastebasket did a rushing business. rne news was held to a bare minimum n barred from the first page. Scandal tcies were thrust into the wastebasket vi.out any consideration and items of oroversial nature which did not give o sides of the question were elimina-ec Across the top of the first page was hmotto of the Board: "Have We Not A One Father?"

he left hand ear depicted a knight on oeback with the shield of Good Will oing his lance at the Dragon of In-olrance which lay in wait in the right ca Beneath the motto at the top of he page was engraved, "Good Will Ecion" with the names of the editors n cartoonists and their religious affil-ations.

he streamer in 60-point Cheltenham colensed light italic read "Friends of God Will Organize," and announced ar-rgements for the dinner to launch the Terance Club movement. Second in mortance in first page display was a w-column head on a statement con-rriited by Charles Evans Hughes on "Te Menace of Intolerance."

i five column layout above the fold hved Father Reardon and Dr. Dewey m ing up the first page and Dr. Stark sting beside the International News pator reading the news of the pro-ceings of the trial of Col. Mitchell.

ews of the possible impeachment of Go. "Ma" Ferguson, a move for the setement of the coal strike, the new Prhibition regulations, Briand's failure to rm a French cabinet and the Mitchell ca were the only stories of national in-erst which made page one. The Dr. Srth cartoon run below the fold of pa one showed the Furies of Hate, Sl der, Trouble, Envy, War and Malice esping from Pandora's Box which was lated "Intolerance," with a caption ring, "Let's Drive Them Back and Clap the Lid down Tight."

small streamer at the bottom of pa one contained a quotation from Psm 133-1 in Latin "Ecce quam bonum et quam jucundum habitare fratres in unn," followed by the Hebrew and the Erlish translation, "Behold how good an how pleasant it is for brethren to dwl together in unity."

oprietary medicine ads were re-ected on the ground that the editors we not familiar with the merits of all the products and would therefore ban the. All boxing news was stricken out to e intense grief of the sporting editor as ell as ads announcing dances.

he editors attended Monday night's perrmance of "Blossom Time" occupying a box together and impressed Rev. Irv E. Deer, Secretary of the Council of Churches to write their composite views on the production. After praising the character of "Blossom Time," Dr. Deer said, "We might be excused for uttering the pious hope that the gentlemen who control the stage would insist upon plays which are clean, wholesome and dramatically satisfactory and present them with such regularity that the public might always be assured that its intelligence and feelings would not be insulted no matter when it might choose to attend the theater."

The issue contained numerous statements and letters on the value of tolerance from Archbishops, Bishops and other prominent clergymen among them Rev. S. Parkes Cadman, president of the Federal Council of Churches, Rabbi Stephen B. Wise and Father John Ryan of the Catholic University of Washington.

Each of the editors contributed a signed editorial on the various angles of tolerance each of which contained a half-measure cut of the author with his facsimile signature.

Three of the regular comic strips received the ax—"You Know Me, Al," "Abie the Agent," "Adamson's Adventures."

Telegrams from all parts of the country asked for special copies of the Good Will Edition. Unsolicited contributions were received from as far west as San Diego, Cal. Requests by several religious publications for the editors to write an account of their experience as scribes added to the clergymen's burden.

Goodfellowship was manifested throughout around the large desk on which the editors worked and considerable "joshing" took place.

When Rabbi Albert Minda, who acted as a substitute for Rabbi Matt when the latter was called away by the announcement of his father's death entered the editor's office he greeted the three ministers with the remark, "At last I am in a position to call three ministers scribes. Surely you do not object."

Father Reardon quickly retorted "No, we don't object even when it comes from a Pharisee."

FORESHADOWED EVENTS

Nov. 30-Dec. 5—Formal opening new home, Poor Richard's Club, Philadelphia.
Dec. 2-4—Texas Editorial Assn., annual meeting, Brownsville, Tex.

Jan. 15-16—Virginia Press Association, mid-winter meeting, Farmville, Pa.

SONGS OF THE CRAFT

(*Written Exclusively for* Editor & Publisher)

By Henry Edward Warner

TROUBLES

My desk's piled high with troubles,
They mount in nagging style;
My curse by day, my dream at night,
It is a stubborn pile!
I see it growing, always growing,
Staggering skyward, there
It stands and grows to draw my face
And gray my failing hair!

Some men go golfing gaily
And shed their troubles so;
But I no mashie have to swing
Nor will to let them go.
I nurse my troubles, pet my troubles,
Take my griefs to bed! . .
And all night long they stately dance
A saraband in my head!

Have I a problem waiting?
I clutch it to my breast!
I love these things that worry me
And keep me so distressed.
Without them I should perish, crying
Lonesome on my way! . . .
I love these nightmares of my sleep,
These menaces of Day.

My desk's piled high with troubles!
They keep me company,
And all my troubles seem to think
An awful lot of me!

N. Y. ITALIAN EDITOR MAY GET MILAN POST

Barzini of Corriere d'America Mentioned as Successor to Sen. Albertini, Ousted from Corriere della Sera for Anti-Fascist Views

Senator Luigi Albertini has abandoned editorship of the *Corriere della Sera* of Milan, Italy, according to Rome dispatches reaching this country this week. This newspaper, owned by the Crespi Brothers, has always headed the fight against the Fascismo. Reorganization of the paper to support Mussolini is reported, and Luigi Barzini, editor of the *Corriere d'America,* New York Italian language daily tabloid, is mentioned as a possible successor.

Mr. Barzini came to the United States three years ago. Prior to that date he was for 25 years connected with the Corriere della Sera. Sought out by Editor & Publisher, he said his Milan correspondent had notified him his name was mentioned as new editor of the Milan daily, but refused to say definitely whether or not he would accept, should he be actually appointed to that position.

"I love America," was his only reply to a direct question.

While declaring the Corriere d'America was an independent newspaper, Mr. Barzini said he was personally for Mussolini.

"Italy knows what she is doing," he said. "Iron rule is necessary during this present period of reconstruction. These are not normal times in Italy.

"During the war, Italy lost 600,000 men, half her trading ships, all her richness, and all her foreign credits. Mussolini has brought about a consolidation of his country, has made its financial position sure. When he took office, Italy's deficit amounted to 12,000,000,000 lire, while now there is a surplus of 300,000,000 lire."

Mr. Barzini was asked if the Italian situation could possibly justify the Mussolini press gag, suppression of opposition newspapers, and censorship of cable news dispatches, all of which has been so drastic the Italian dictator was openly snubbed by foreign correspondents at the recent Locarno conference.

"You do not understand Italian newspapers," he replied. "They are journals of opinions, not facts.

"There is no censorship of truth from Italy, but it is true foreign correspondents there are forbidden to send untruths and unfounded opinions damaging to the Mussolini government."

The New York Italian editor insisted American newspapers were giving a false view of Mussolini and his government, particularly in their headlines, and cited as an instance Mussolini's recent speech to the Italian Chamber, advocating constitutional reforms.

"The American newspaper headline," he declared, "serves at once as a narrative and an interpretation. It creates an opinion in ten lines."

Thus, he pointed out, the headline over the *New York Times* story regarding this speech was: "Mussolini Asks Arbitrary Power," and that of the *Herald Tribune* was "Mussolini Asks Deputies for Regal Powers," while, he said, in reality the Italian Premier was seeking constitutional reforms with the constitution of the United States as his model.

"Mussolini, who plans a vast program of economic reorganization and aspires to a gradual and imposing reconstruction of his country," Mr. Barzini said, "has found in our system of government the inspiration with which to confer on the Government of Italy a stability that is indispensable. It is strange that some of our newspapers should regard the powers he asks as 'regal' and 'arbitrary' when, in fact, they are, more or less, the same as those exercised by our President —powers free and independent of the intrigues of parliament. America has the good fortune of being ruled by an embryonic quadrennial dictatorship."

Mussolini, according to Mr. Barzini, was seeking "stability for Italy" by the advocated reforms.

SCRANTON TIMES MOVES COMPOSING ROOM TO NEW HOME IN EIGHT HOURS

Linotype Machines Set Up In New Quarters 45 Minutes After Dismantling—Plant Could Have Issued Extra During Removal Operations

WITHOUT missing a single edition and maintaining at all times a condition that would permit the production of an extra in case of emergency, the *Scranton* (Pa.) *Times* last week moved its composing room to its new home.

Linotypes weighting a ton and a half apiece were removed to the new building in exactly 45 minutes; stereotyping equipment, one piece of which weighed five tons, was shifted with equal speed and a thousand other things necessary to the production of a modern newspaper were transferred without a single mishap.

Eight hours after the signal had been given to start the entire mechanical department was transferred to the temporary quarters on the second floor of the new structure. Not a single injury was suffered by men on the job and the machinery was transferred without any damage. Not a single line of hundreds of galleys of type was "pied."

Thirty electricians, carpenters, riggers and general handy men worked in dismantling and setting up the mechanical apparatus under the direction of W. H. Huntsman, superintendent of construction of the Dwight P. Robinson & Co., Inc., of New York and S. P. Weston, newspaper engineer who assisted in designing the building.

Twelve linotype machines were removed to the new building, and it took but forty-five minutes from the time the start of the moving of each machine until it was set up and ready for operation. Eight new machines were already in place in the new quarters.

A newly devised truck owned by the Mergenthaler Linotype Company, received the machines after removal of the motor and panel box, sorts trays and "pi" stackers. All that was necessary to place a machine on the truck was the removal of two pins and the brief use of a hoisting jack. Two men operated the truck to an elevator built between the two buildings in the rear especially for the removal of the machinery.

From the specially designed elevator shaft the machines were wheeled to designated spots in the new room, where experts of the Mergenthaler Company and machinists employed by the Times erected them.

At 7 o'clock Saturday night every machine was pronounced in perfect working order. From 7 o'clock until early Sunday morning men worked in placing type cases, testing newly erected monotype machines, saws and otherwise placing the department in readiness for work.

Work is going ahead in the completion of the new building, and will continue in the dismantling and wrecking of the old building without disturbing the daily routine of the publication of the newspaper. Removal of the editorial and business departments and executive offices will take place within the next few weeks.

ILLINOIS DAILY SOLD

Skewes and Morgan New Owners of Litchfield News-Herald

James H. Skewes, former owner of the *Danville* (Ill.) *Press* and Orson C. Morgan of Blytheville, Ark., have purchased the *Litchfield News-Herald* from the estate of its former editor and publisher, E. E. Burson, who died last March. Since then the paper has been published by Mrs. Mary Burson, his widow, and their two sons, Elbert E. and John H., who will remain with the publication temporarily.

Mr. Morgan will be editor and manager of the paper.

The new owners of the News-Herald are experienced newspapermen. Mr. Skewes is editor and publisher of the *Meridian* (Miss.) *Daily Star* and *Laurel* (Miss.) *Daily Leader*. Mr. Morgan until two months ago was editor and publisher of the *Blytheville Courier*, and has been in the newspaper business for 40 years.

Allardice Joins Brooklyn Eagle

James J. Allardice, for the past two years circulation manager of the *Albany Knickerbocker Press* and *Albany Evening News*, has resigned to become circulation director of the *Brooklyn Eagle*. Mr. Allardice joined the Press company organization 12 years ago, when he became secretary to the managing editor and manager of the Press news bureau. He went to the *Binghamton Press* in 1917 and was later connected with the International Time Recording Company of Binghamton, returning to the Press company in 1921. Employees of the Press company presented Mr. Allardice with a gold watch when he retired Saturday.

STANDARD BUS RATES IN INDIANAPOLIS

Public Service Commission Agrees with Publishers on 50c Per Cwt. as Rate for Carrying Newspapers

A standard rate for bus transportation of newspapers was arrived at in Indianapolis last week at a meeting of the business and circulation managers of the three Indianapolis newspapers—the *News, Star* and *Times*—with the Indiana Public Service Commission.

A flat rate of 50 cents per cwt. was agreed upon, the same as the price now charged by interurban lines. This rate applies to all bus lines operating under the jurisdiction of the Commission.

"It may be considered a step forward in solving our troubles with the buses, and newspapers in other States may feel encouraged that Public Service Commissions in their States will without doubt take similar action, if the matter is properly brought before them," J. M. Schmid, business manager of the Indianapolis News stated.

Clarence Eyster, of the *Peoria* (Ill.) *Star*, secretary of the International Circulation Managers Association, has been notified of the Indianapolis rate agreement. The I. C. M. A. has been working for standardized bus rates.

PROFESSIONAL FOOTBALL

United Press Collects Interviews By Wire from College Authorities

On Tuesday the United Press collected by wire from colleges and universities over the entire country interviews with football authorities on the question whether universities should train men, like Red Grange, to play on professional gridirons.

Most of the statements vigorously denounced the practice and condemned Grange's course. The feature received a big play in United Press papers. Coach Zuppke started the Grange condemnation.

WHAT ABOUT THE TABLOID NEWSPAPER?

By L. E. McGIVENA

(Manager of Publicity, *New York Daily News*)

Speech Delivered Last Week Before the A. N. A. Washington Meet

THE tremendous, rapid, continuing growth of the tabloid newspaper is not simply a publishing phenomenon, not merely an isolated instance or freak case; but rather a specific and definite indication of the change in the attitude of the public, in the public mind and psychology and taste, in the public demand.

On April 6, 1917, the United States entered the World War. A few weeks later, the war entered the United States upon the passage of the selective service act or draft law. The war came home to us. It touched us personally. Thereafter for the next eighteen months, the greatest news story of this generation streamed across our copy desks and front pages. Every incident was of intense and absorbing interest, because it concerned someone we knew or cherished. We lived in high key, spiritually uplifted and emotionally active. We rubbed shoulders with death, the greatest and ultimate adventure.

Then the armistice came, and the let down. There was no news in the world after the war that matched the news of the war. Disillusion, discontent, restlessness and dissatisfaction with things as they were touched all of us. Our outlook and viewpoint had changed, our attitude toward life and the world was different. So we entered into a period of stale news.

At one time the newspaper held a certain moral and political leadership. Today, the public will not take ready made opinions and leadership. The spread of literacy widened the field of the newspaper; the spread of independence of thought and action rejected any editorial leadership.

The American public today is the most prosperous, the wealthiest, and the best living group of people in the world. It has more money than ever before, more time, more ambitions, more recreations. It has unlimited means of entertainment in the motion picture, in the radio, in the automobile, in new forms of social intercourse. So it demands a higher quality of interest and entertainment from its newspapers.

And with all these new interests and ambitions,, the public is not so prodigal of its time. It no longer has hours for newspapers. The newspaper must compete with a thousand other attractions for the time and interest of its audience.

In general, then, the public has outmoded the old newspapers; not necessarily outgrown them, because all newspapers published today are better than they were a decade or generation ago—but found them out of style and demanded something different.

How has the tabloid satisfied the public?

Firstly, it has made newspaper reading more convenient. The small size page fits the hand and the eye, can be easily carried and held and read in crowded cars. The News, incidentally, has an eight point body for easier reading.

Secondly, it has brevity. It saves time. It can be read within the limits of the time the average person has to read morning papers. It must of necessity dispense with verbosity and present its stories cut to the bone. This called for a new type of news writing and news editing which had to be learned by our staff.

Thirdly, it gave new interest, new vividness, new reality to news by presenting it in pictures whenever possible.

The picture, as you know is the most comprehensive, the most graphic, the most convincing, the most immediate as well as the simplest presentation of a story, fact or argument. It has its limitations of course, but so has the written news story. The technique of getting news pictures had to be learned, and tremendous steps have been made in this direction.

Our camera men today bear no r resemblance to the fellow who crouc under a black cloth before a tri mounted camera a few years ago than present day reporter does to the fashioned journalist. They are news porters first, and photographers af wards. All the action and romance, glamour that used to cluster around news room and city desk, has, it seem me moved over to our photograph stu

The cameramen daily do the impos to get the picture, and to get it into office. Planes, special trains, extraor ary means of conveyance extraordi effort and expense, are taken for grar Romance has fled from the edit to the photographic department.

Fourthly, The News is stabilized features. The feature is often misun stood by outsiders, often thought o something that just fills up spare sp In reality, it is a tremendous asset to publisher and to the national adver who uses newspapers. There are when the news matter on the copy is as devoid of interest and sparkl a clean slab in the city morgue, Mondays when the whole world has working from a news standpoint.

Now if newspapers were bought news alone, there would be many dull issues; and if newspapers were by news alone, the publisher's sales w fluctuate considerably from day to But strong, lively, interesting featur comics, cartoons, special and service partments always assure the newsp buyer and reader of something inte ing, something amusing and entertain and assure the national advertiser o even, sustained, steady circulation, a paper that will be looked at and that will hold a readers interest thro out the pages where the advertisen are.

Such are the distinctive offering the tabloid, then—convenience, bre pictures, features—and always the hu interest point of view.

We are often asked if the tabloid r covers the news, if it is a full vel Last Spring, at the School of Journ of Columbia University, Mr. A Sarell Rudd made an independent s of the tabloid newspaper. He checke news content of the Daily News ag the front page stories, the main st of all other New York morning r papers, and found that over a peri ten weeks the Daily News carried of such stories.

Sometimes we hear, also, the ac tion made that we neglect the impo news. Well, what is important n On that night in July 1914, when r of the assasination in Serbia that the immediate start of the World reached New York, I have been tol many of the morning papers gave account in their early issues, but c story in the subsequent editions "for important news!"

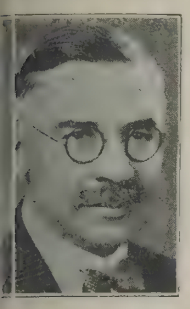
The editor is no soothsayer. He not guage or foretell the importan any incident that passes across his because time discovers that many tri ties are tremendously important. A editor can do is feature the inter news—the news that interests most p most! Often such news is trivial.

A downtown traffic policeman st traffic one day five times while a n cat carried a tiny mewing kitten the street, five kittens in all. O our photographers came along durir transmigration and snapped the inc It made a tremendously interestin talked of story, but the event wa portant only to the cat.

In conclusion, what does the t hold for the advertiser? The small gives greater visibility, gives the a tisement more chance to be seen a be read, gives a greater reader ir and lessens the competition of othe vertising.

Virginia Dailies Now 8 Colun

The *Danville* (Va.) *Register an* this week adopted the eight colun em format, according to H. B. Tr business manager.



ZENGER, NOT BRADFORD, WAS FIGHTING EDITOR OF COLONIAL DAYS

Bradford Merely a Job Printer Always Subservient to Authority of the Crown Says Iowa Journalism Professor

By PROF. FRED J. LAZELL

Iowa University School of Journalism

The Editor & Publisher, Nov. 7, is an excellent article by Marion R. Leland, giving the reasons for the celebration by the printing crafts of New York of the 200th anniversary of William Bradford's *New York Gazette*. With nearly all of that story the careful student of the history of journalism will be in hearty agreement; but he will probably regret that so much credit is given to Bradford and so little to John Peter Zenger, also deserving.

Prof. Fred J. Lazell

The printing crafts may well honor Bradford because he was New York's first job printer. But he deserves little honor as a journalist. That honor belongs to John Peter Zenger and the men associated with him in the publication of the *New York Weekly Journal*.

There are two paragraphs in Miss Leland's article which are likely to make the student muse regretfully upon the fact that the good that men do is too often interred with their bones. Too often the world forgets the patriots whose lives were filled with service and self sacrifice. Often it pins roses upon the remembrance of a man who was diligent in his business and became almost rich enough to "stand before kings." The eulogy of Bradford and the slighting of Zenger is a case in point.

The two paragraphs read:

When Bradford started his paper conditions in New York were rather quiet. And late period however, local bickerings arose between the colonial governor and the state assembly. But as the strictures upon printed matters were very severe, Bradford, employed as he was by the Crown, had to be very careful of what he printed and found it better to let political matters alone. The times, however, were rife with the agitations caused by Governor Crosby's high-handed demands. Some organ for expressing the people's' views was required. John Peter Zenger, a Palatine orphan, was sponsored and literally subsidized by Crosby's opponents as printer of New York's second paper, the *New York Weekly Journal*.

Zenger had been trained in Bradford's shop. But after first running away, then later joining in partnership with Bradford for a short period, he had finally set up an independent shop. He was very poor, but aided by such men as Rip Van Dam and James Alexander, he soon prospered in his new enterprise and in his historic fight against the tyranny of the government over so-called seditious printed matter, he became famous as one of the early champions of the freedom of the press. It must be recalled, however, that Mr. Bradford had earlier suffered arrest and had been threatened with the loss of his press when in Philadelphia. In New York however, where he was under oath and practical bondage to the Crown he was of necessity conservative and loyal.

It was more than "local bickerings" which arose between Governor Cosby (not Crosby) and the provincial (not state) assembly.

Cosby had previously been ousted as governor of the Island of Minorca for confiscation of private property which he appropriated to his own use. His record was known to the colonial leaders before he arrived. But the assembly treated him fairly.

He claimed to have been instrumental in obtaining the repeal of a sugar bill detrimental to the interests of the colonies. For this the assembly voted him a gratuity of £750.

"Damn them," he shouted, "why didn't they add the shillings and pence?" And the gratuity was raised to £1000.

Rip Van Dam had been governor between the time of Cosby's appointment and his arrival. The salary, and emoluments of the office had been collected by him. Cosby claimed half; but he already had grabbed £6,000 more than had come into Van Dam's hands and Van Dam refused to comply with his demand unless he accounted for what he had received.

Cosby dared not bring a suit at common law, knowing that the people already hated him and that a jury would decide against him. He could not bring suit in chancery because he was a chancellor; nor in the supreme court because it had no equity jurisdiction. So he forced an ordinance through the council, erecting a court of equity in the supreme court and directed Richard Bradley, his pliant attorney general, to bring suit against Van Dam in that court.

The erection of this court was contrary to the laws of Great Britain and of the provincial assembly. The assembly passed strong resolutions against it. Chief Justice Lewis Morris refused to sit upon it and was summarily removed from his office by Cosby without even the action of the council. That left the court with two members instead of three which was also contrary to law. In an effort to get judgment against Van Dam by default, Cosby's agents made two men drunk and then obtained their signatures to a lying document saying that Van Dam could not be found.

This was something more than "local bickerings." There were many other causes for popular indignation. Cosby deliberately destroyed a deed to the corporation of Albany made by the Mohawk Indians, because he expected big fees for the execution of another. He refused to grant lands to settlers unless he was permitted to retain a third for his personal use. Often he "packed" elections with his henchmen and with soldiers. He refused to allow Quakers to vote. He summoned to his council meetings only such members as were favorable to his avaricious schemes.

Bradford knew all this. But his New York Gazette took the governor's side. "Employed as he was by the Crown he had to be very careful of what he printed and found it better to let political matters alone."

There was one Francis Harrison, an agent of Cosby in a murder plot, who later came to a bad end. He wrote fulsome eulogies of Cosby and carried them to Bradford who printed them in his New York Gazette.

It is not on record that Bradford ever printed one word against Cosby or any other tyrannical officer of the British Crown, or one word in favor of the Colonial patriots who were fighting against tyranny and robbery. He was an Englishman who never ceased to be loyal to the land of his birth, and never became able to be loyal to the cause of American liberty. And for many long years he was public printer. Perhaps he did not

"crook the pregnant hinges of the knee
That thrift might follow fawning,"

but those effusive eulogies of Cosby printed in his paper make the reader wonder if they were not comparable to what Shakespeare had in mind.

Miss Leland follows James Melvin Lee in his statement that Zenger ran away from his apprenticeship at Bradford's shop. The source of Dr. Lee's statement would be interesting. Hudson in his History of Journalism does not mention it. Neither does Isaiah Thomas in his History of Printing, nor John Fiske who devotes several pages of his history of the "Dutch and Quaker colonies" to Zenger. Livingston Rutherfurd, Zenger's best biographer, says that "at the expiration of his apprenticeship he went to Maryland." George Henry Payne in his History of Journalism, says that "after serving an apprenticeship of eight years with Bradford, Zenger went to Maryland."

Be that as it may, it is true that he "prospered in his new enterprise." It was because he fought on the side of the colonists, whom Cosby called "a lazy, good-for-nothing crowd, filled with the spirit of insubordination." It is true, also, as John Fiske says, that "in point of telling argument and bold sarcasm Bradford was no match for Zenger and when sundry deeds of Cosby were held up to scorn the governor writhed under the infliction." It is true that the assembly was on the side of Zenger. Unfortunately, also, it is true that Bradford's Gazette derided Zenger, because he was one of a company of poor Palatinates who had been brought over to America by Queen Anne; to which Zenger made a reply so spirited that Bradford, like the governor, should have "writhed" under it.

Bradford had his first trouble with the Philadelphia Quakers when he printed the name pf "Lord" Penn in his almanac. When he was called before the council after printing the protest of women because the fair ground was located too far from the city he turned the tables on his accusers by bringing forward the thing that rankled him most—the unfulfilled promise made by William Penn, that he should be public printer. As soon as the offer of the public printing in New York came to him he lost no time in leaving the Quakers, renouncing their faith and becoming a member of the Church of England, as soon as he reached New York.

He was an amiable, peaceful, God-fearing man who loved peace—and the public printing. It is as a printer rather than newspaper man that his anniversary should be celebrated. He was not a journalist. He started no paper in Philadelphia—did not start one in New York until his son Andrew had made a success of the *American Mercury* in Philadelphia. Even then the elder Bradford printed his first New York Gazette with the types which were too rounded and battered to be of much use in the job office. And all the time he printed that Gazette he seems to have remembered, as Miss Leland says, that "he was under oath and practical bondage to the Crown." In his paper he plumed himself for having been for 40 years "obedient to the King and all that are put in authority under him." What he did was to hinder, rather than to help the great victory for which Zenger was at first a vicarious sacrifice, the establishment of the principle that a newspaper may criticise any dishonest and tyrannical public official so long as it is careful to tell the truth, with good motives and for the good of society. It is regrettable that William Bradford can lay claim to even the smallest part of that victory.

But he was a vestryman in Trinity church. And his tombstone was over his grave in that famous chruchyard, until the New York Historical Society took it away for better preservation. He was kind, affable, and once did a good turn to Ben Franklin, who nevertheless later wrote of him as a "cunning old fox."

He was diligent and successful in his business. He built paper mills and printed a family bible to be used as a premium for subscriptions. Nearly 200 years after his death he is honored by a great historical society in the Nation's largest city.

Zenger, who fought for the people, died in poverty. His widow and children almost starved and his paper actually died of starvation.

As Frederic Hudson said in his history, *Ainsi va le monde!*

Wherewithal shall the young man in journalism shape his way? With the life of Bradford, bidding him take heed to his job work that he may win present riches and future honor? Or with the life of Zenger, using his newspaper to "make the bounds of freedom wider yet" but perhaps achieving for himself only present trouble and fut

These are questions likel by those who read of the bration in New York; b Fates, and the public, us gressive and patriotic jo than they did John Pete

Why doesn't New Yor bration in honor of the memory o Peter Zenger and Harry Croswell, genuine journalists, and of Andrew Hamilton and Alexander Hamilton, their brilliant and successful defenders?

TEXAS AD CLUBS PLAN $500,000 AD FUND

Committee Named to Work Out Details at Annual Meeting of 10th District in Fort Worth—Simpson District Chairman

A plan to raise a $500,000 fund to advertise Texas was adopted at the annual meeting of the Tenth District Associated Advertising Clubs of the World in Fort Worth, Nov. 19-20.

A committee, consisting of Fred Johnston, of the Johnston Printing Company, Dallas, chairman; Dale Rogers, Houston; W. A. Garrabrant, Beaumont; Amon G. Carter, publisher of the *Fort Worth Star-Telegram*, and Harold Kayton, San Antonio, was appointed to work out plans of procedure and report back to the district officers. Organization of the movement followed an address by Mr. Johnston on "Advertising Texas."

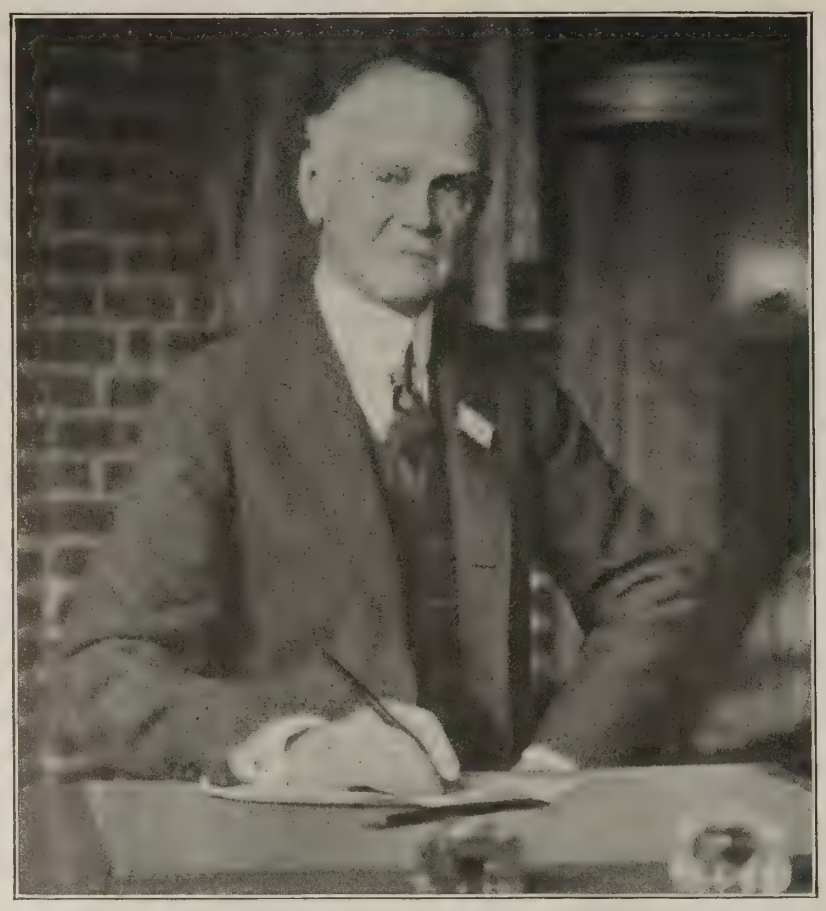
As committee chairman he stated that $100,000 should be raised immediately, to be increased in time to $500,000. An operating fund of $700 for use of the committee was subscribed.

James P. Simpson, of Dallas, was elected chairman of the district to succeed Amon G. Garter. O. S. Bruck, *Beaumont Enterprise and Journal*, was named first vice-president; J. H. Allison, Wichita Falls, second vice-president; Beeman Fisher, Dallas, secretary-treasurer.

C. King Woodbridge, president of the Associated Advertising Clubs of the World, was chief speaker at the meeting. He stressed the importance of advertising club work. He arrived on Friday afternoon, the second day of the meeting, and was met at the station by all the delegates, numbering more than 200.

Miss Jane Wood, advertising manager of Joske's department store, San Antonio, spoke on advertising to a family, showing the different appeals advertising must make to reach all classes. A. L. Shuman, of the Fort Worth Star-Telegram, attributed the frequent failure of advertising to the fact that merchants often fail to live up to their advertising. H. W. Stanley, manager of the Lumbermen's Reciprocal Association, Dallas, charged that advertising failure was often the result of mental bankruptcy on the part of the advertiser. He named mental alertness as the best advertising asset. The necessity for truth in advertising was emphasized by Milton Pandres, advertising manager of the Titche Goettinger Company, Dallas.

In the second day's business session a resolution was adopted to take steps to safeguard investors in other states from unscrupulous promoters who might be operating at present or in future in Texas.



Directors of the district elected at the meeting are: W. A. Garrabrant, Beaumont; Lowry Martin, Corsicana; Miss Cora Kraueter, Dallas; Art Millican, El Paso; Fred Michael, Houston; R. G. Coulter, San Antonio; Alfonso Jonson, Dallas; Garnet Clark, Galveston; J. M. Brinkley, Sherman; Miss Edith Axtell, Houston, and Alva Wilgus, Wichita Falls.

Advertising Handbook

"The Handbook of Advertising Club Management" was issued this week by the Club Service Department of the Associated Advertising Clubs of the World. The book was compiled under the direction of Ed Hunter, head of the department.

NEWSPAPER MAKERS AT WORK

By PHILIP SCHUYLER

"Too many specialists in sensation."—E. H. O'Hara.

"IF I were only a national advertiser," began Edward H. O'Hara, editor and publisher of the *Syracuse Herald,* and then followed a newspaper man's version of the much discussed advertising week-end traffic jam.

"Our big days each week are Thursdays and Fridays, with Saturdays' business dropping way down. This is the situation which I believe is general with most newspapers. It is natural that department stores should not place big business on Saturdays.

"But I cannot see the point of view of large national advertisers. It is their theory that they should place their copy in newspapers already crowded with advertising, and stay out, when, as a matter of fact, their message would catch more eyes, more minds, and more pocket books, than on any other day of the week.

"Saturdays, I think, should be made National advertiser's day in the newspapers.

"Saturday's news is just as interesting as Friday's, and large numbers of people have more time to read it."

Mr. O'Hara started newspaper making as a reporter about 45 years ago, on the *Syracuse Journal,* now his opposition. He had been a printer before he entered the editorial side. He joined the Herald when it first began publication.

In 1877, the late Arthur Jenkins started the Syracuse Herald. It was a tiny paper in comparison to present day dailies. But for all its miniature size of four pages, and circulation of 700 copies, it was enterprising from the start, and for that reason destined to grow. Syracuse in those days was a city of less than 40,000, while today the population number about 200,000.

First evidence of enterprise seen in the baby Herald, was when with the first number the price was set at 2 cents a copy, a big reduction, in view of the fact that all other dailies of that date were maintained the Civil War charge of 5 cents. Then, after it had been publishing, for a few years, the Herald was responsible for bringing the first electric light to its city, because of the backing it gave in the early '80's to the Louis Brush Electric Lighting Company.

The Herald has outgrown three plants since it was first started, and today its home is a modernly equipped building into which it moved eight years ago.

In the conduct of the paper now, Mr. O'Hara said he worked from the theory that the reporter was the most valuable man to a newspaper.

"It is easy to get editorial writers," he said. "It is easy to find men who can ring door bells and sell space. The most important man, and the hardest to find, is the reporter who can see clearly, and write down what he sees accurately and truthfully.

"Reporters today have become 'specialists,' and I wonder if with all their specialization they are not in many cases forgetting to specialize in accuracy and truthfulness, the fundamentals of their trade.

"At any rate, I think, there are too many specialists in sensation."

Mr. O'Hara was asked what he thought of the future possibilities of the tabloid newspaper.

"We have considered starting a tabloid newspaper in Syracuse," he admitted. "We studied the proposition carefully. The decision we reached was that the tabloid, in its present day conception, will never be successful in a city under 500,000.

"Perhaps I may be considered old-fashioned, but I cannot bring myself to think of the tabloid as a newspaper. It has its own good and growing field, that of the daily magazine."

Jemison Joins N. Y. Special

Dick Jemison has purchased a substantial interest in the firm of Hal T. Boulden & Associates, Inc., publishers' representatives, New York, and has been elected vice-president. Mr. Jemison has opened an office in the Finance Building, Cleveland. Prior to joining Hal T. Boulden and Don F. Whittaker in the above concern, Mr. Jemison was with the United States Advertising Corporation, Toledo, and Williams & Cunnyngham, Chicago, in executive capacities.

A. P. Executive Committee to Meet

The executive committee of the Associated Press will meet at New York headquarters, Nov. 30.

800 AT TIMES FROLIC

Employes Hold Reception and Dance at Hotel Roosevelt

More than 800 members of the *New York Times* staff and their friends attended a dance and reception held Tuesday night in the grand ballroom of the Hotel Roosevelt.

Parker A. Gleason was chairman of the Arrangement Committee, the other members including W. Berlinghoff, Florence M. Egan, Catherine Erb, Andrew Heath, Winifred M. Horan, Howard Humphrey, John J. O'Brien, Blanche E. O'Neill, William A. Penney, Paul J. Rowan and Mary Timmons.

The Reception and Floor Committee was headed by Hugh A. O'Donnell, chairman. The other members were Frances E. Atwater, Joseph M. Birch, John Black, Hazel Felleman, Etta M. Frank, Carol F. Hotopp, Walter Keenan, Katherine Maguire, Marie Mullaney, Michael Munz, Joseph Paterno, Charles C. Pogue, Thomas J. Roche, Marie F. Schmidt, Fred J. Schuyler, Edwin O. Sheets, B. J. Squier, Jr., Violetta A. Stoney and Cortlandt J. Strang.

NEW VICE-PRESIDENT NAMED

F. D. McKenney Replaces Odgen Mills as Mergenthaler Officer

Frederic D. McKenney, Washington, D. C., was elected vice-president of the Mergenthaler Linotype Company, when Ogden Mills, who has held that office for more than 30 years, declined re-election at the recent annual meeting of the company's board of directors.

Mr. Mills accepted re-election to t board of directors, and also to the exec tive committee, and in both such capa ties will continue as heretofore.

Mr. McKenney is senior member the firm of McKenney & Flannery, la yers, of Washington, D. C., which many years has been counsel at th point for the Pennsylvania Railroad Sy tem and other railroad companies oper ing into the District of Columbia; for t Washington Terminal Company (Uni Station); the Mutual and the New Yo Life Insurance Companies; the Equita and the Fulton Trust Companies of N York; the American Security & Tr Company of Washington, D. C., and oth corporate organizations, including Mergenthaler Linotype Company. formerly served as a director on t boards of the Riggs National and Commercial National Banks of the D trict of Columbia, and on several oc sions has represented the United Sta as counsel in international arbitrations The Hague and elsewhere. He is a grad ate of Princeton University, class of 18 and is a member of the following-nam clubs: Metropolitan, Lawyers, Congr sional Country Club of Washington, U versity of Princeton of New York.

Sun Club Dance Dec. 9

The annual holiday dance of the *N York Sun* Club will be held Dec. 9, the Hotel McAlpin. The arrangeme committee consists of John Hefferm H. Muller, M. Entler, Fred. Ehlert, N Kingsley, Einar Petersen, Conrad Sch Joseph Francis, Ames Zina, Louis Ma aco. Fred Carrington is chairman.

UBLISHERS ASK DISMISSAL OF TRADE COMPLAINT CLAIMING NO JURISDICTION

Majority of Federal Trade Commission Expected to Sustain Motion Made When Hearing Opened Monday—Say No Public Interest Involved

By BART CAMPBELL

WASHINGTON, Nov. 25.—Spokesmen for the advertising and publishing interests charged with conspiracy and other unfair practices in the preparation and distribution of national advertising appeared confident this week that their contentions that the Federal Trade Commission has no jurisdiction in the case will be sustained by a majority of the Commission itself.

Counsel for the American Newspaper Publishers' Association, the American Association of Advertising Agencies and the Southern Newspaper Publishers' Association argued at the hearing held by the Commission in the case on Monday that the motion to dismiss the complaint for want of jurisdiction by the Commission should prevail.

Counsel for the Southern Newspaper Publishers' Association based this motion upon the three substantive judicial questions, viz:

"(a) Whether the facts and purposes clearly set forth in the pleadings, any acts of the respondents can be said to be unfair.

"(b) Whether there is involved here any operation in commerce between the States and whether any of the restraint alleged to have been procured can possibly be such direct restraint as the law prohibits.

"(c) Whether there is any such public interest shown here as is considered by the Commission necessary to give it jurisdiction."

Counsel for the Commission submitted an elaborate brief in opposition to the motion for dismissal but as the argument on all sides proceeded before the Commission for four hours it was evident from inquiries made and comments injected by members of the Commission that they were not inclined to agree regarding the question of jurisdiction.

It was predicted in some quarters here that while there may be a dissenting minority decision rendered, which is not unusual, as the Commission is now constituted, a majority concurring opinion upholding the contentions of the publishing and advertising interests—may be anticipated.

How widespread has become interest in the case was shown by the appearance of representatives of monthly and weekly publishing interests at the scene. They were obviously interested in the case as one that might extend to their interests eventually unless it were stopped where it rests now.

A formidable array of U. S. Supreme Court and other precedents and authorities were cited by opposing counsel to support the argument, pro and con, as to whether the Commission has jurisdiction, or not.

Counsel for the publishing interests agreed that the case, whittled down to the bare truth, "merely represents an attempt by an infinitesimally small group to collect something that does not belong to it."

The hearing was confined largely by counsel combatting the complaint in their efforts to convince the Commission the case is not one involving interstate commerce, or related to it in any way, and hence the commission should wash its hands of the matter.

Several important points were scored by counsel for the publishing and advertising interests represented at the hearing, viz:

That there is no foundation for the allegation by counsel for the Commission that both the A. N. P. A. and the Six Point League have entered into advertising agreements in restraint of trade.

That the A. N. P. A. does not attempt to influence or dictate to its members with respect to rates, discounts, agencies or similar phases of the advertising business.

"Our organization has no machinery to enforce its will upon its members even if it desired to interfere in advertising matters," stated M. D. Plante of counsel for the A. N. P. A. "Its charter would not permit it to assess penalties."

"The A. N. P. A. had only adopted a general policy of recommending the A. A. A. A. to its members," he explained.

That it is impossible for the Four A.'s or any other organization to coerce either members of the A. N. P. A., Six Point League or the Southern Newspaper Publishers Association into adopting any advertising policy they do not approve or desire.

That a contract between the publisher and the advertiser or his agent is an intrastate, not an interstate matter, and hence does not lie within the jurisdiction of the Federal Trade Commission.

That advertising is essentially a public service, and has been so recognized repeatedly by U. S. Supreme Court and other rulings.

Clark McKercher, counsel for the Four A's, in riddling the complaint, pointed out that several large advertising agencies are not members of that organization, although these agencies "handle some of the biggest accounts in the country and have not the slightest trouble in buying space or placing copy."

"The newspaper makes certain requirements and we claim we are well within our rights if we too make our own requirements," said Mr. McKercher. "Just suppose a manufacturer receives a 15 per cent commission from the publisher on his own business. He contends this to be entirely just and fair. But if you go direct to him and demand a wholesale price for his goods, what is his reply to you? He will inform you that a secret rebate is illegal. But he will not grant your request in any other form. We see no difference between his stand and that of the newspaper publisher. The advertising agent is a wholesale buyer of space, and no matter how large he is, the individual advertiser is a retail buyer."

Mr. McKercher emphasized the fact that 97 per cent of all advertisers in the United States have adopted the standard agency policy of doing business. He and other counsel also stressed the thought expressed by J. F. Finley, of Chattanooga, Tenn., spokesman for the Southern Newspaper Publishers Association, that the "real reason for the complaint is that the publishers would not allow a few manufacturers the agency commission."

Mr. Finley argued that if the publishers were to allow such a commission it itself would have been against the public interest and restraint of trade.

"It would allow the big manufacturer to obtain a rebate upon his advertising, and would prevent the small manufacturer from buying his advertising as cheaply as does his more powerful competitor," said Mr. Finley.

"We pay agencies commissions because of value received. If it were not for their service the publishers would have to meet greater costs than an agency commission to obtain business. There are few newspapers which can afford to solicit their business at the rates they charge. The agency system developed because of a definite need. It is entirely legitimate and necessary and like many sound business practices has developed the supply and demand in the development of all business."

Mr. Plante, speaking for the A. N. P. A., pointed out that for many years the newspapers have had card rates, fixed by the individual publishers, and that the commission has not charged that the publishers ever combined or conspired to fix these rates.

"The only charge we have here is that we do not give the advertiser the same discount as we give accredited advertising agencies. The publisher pays the agency because it does the work of a salesman soliciting business, creating and mapping out campaigns, writing copy, finding selling ideas.

"The agency creates advertising business. The agency not only performs many special and necessary tasks that the manufacturer is not competent to perform, but it encourages the appropriation of money for advertising. The agency is in all ways a very necessary factor in the publishing business.

"On the other hand, the publisher guards his business against the dummy agency which may be set up by an advertiser for the mere purpose of obtaining an unearned discount."

EL PASO TIMES SOLD TO HERALD PUBLISHER

H. D. Slater Discontinues His Morning News-Herald and Will Continue Publication of Times

An Associated Press membership dating back more than 42 years, one of the originals in the old Illinois Association changed hands Nov. 20, when the *El Paso Times,* morning and Sunday, was transferred to H. D. Slater. Mr. Slater has published the *El Paso Herald,* evening paper, since 1897 and has been an evening member of the Associated Press for 23 years.

He bought entire control of the El Paso Times Company. E. C. Simmons was publisher of the Times. No real estate was involved. The price paid for plant, good will and current assets on a debt free basis was approximately equal to the annual average of five years' gross revenues.

The separate character of the papers will be conserved. For a year the Herald has been issuing a morning and Sunday edition called the News-Herald for local circulation only and this paper will now be suspended and the Times will be the only morning and Sunday paper in the field. The Herald plant has long been organized to take care of the morning paper and there will be only a slight enlargement of the force and no other change will be required. Herald executives in all departments took charge of the Times as successor to the News-Herald without interference with established routine. The combination has four leased wires, three night and one day, besides the service of North American Newspaper Alliance and partial reports of Consolidated Press, United Press, International News and numerous special services.

In the early days there was no railroad or commercial telegraph in El Paso and the Times as Associated Press member furnished the reports of Apache warfare over the military telegraph to the nearest commercial relay 500 miles north.

Mr. Slater was editor of the old *Public Opinion* in New York 30 years ago the periodical that later was merged in the *Literary Digest* and for a time was engaged in railroad civil engineering in Mexico before he bought the Herald He served nearly two years in the war as captain of infantry in the 90th Division overseas and spent most of another year in European travel. Associated with him as department heads are George W. Lemons, five years advertising director of the *Dallas News and Journal,* B. D. Marcum, circulation director of Seattle papers and the Vanderbilt group, C. C. Gibson, auditor, Hubert S. Hunter, assistant to the editor-in-chief; L. C. Townsend and C. G. Nuchols, news editors.

The John Budd Company represents both papers in the foreign field.

The "Two Heralds"

The *Two Heralds* published every Sunday in Bridgeport and Waterbury, Conn., were not listed in the recent EDITOR & PUBLISHER tabulation of Sunday newspapers. No reply was received by this office to advance requests for information from the publishers.

NEWSPAPER TAX RULING APPLIES TO ALL FIRMS

Capitalization of Prior Expenditures Thoroughly Established When U. S. Tax Board Holds for Goodell-Pratt Company

The so-called newspaper tax ruling, A. R. M., 141, which permits newspaper publishers to capitalize expenditures made in prior years to build circulation, was thoroughly established recently and extended to all other taxpayers in a ruling of the U. S. Board of Tax Appeals in the case of the Goodell-Pratt Company of Springfield, Mass.

This company, which manufactures mechanics' tools, nullifies the regulations of the Commissioner of Internal Revenue which have in practice prohibited taxpayers from capitalizing expenditures made to develop intangible assets.

The Goodell-Pratt Company appealed when it was prohibited from listing as invested capital a sum of $280,513.26 spent in developing patents, secret processes, special machinery and establishing foreign markets.

The Board of Appeals ruled as follows:

"Taxpayer is entitled to restore to its surplus account and include in its invested capital the sum of $280,513.26 representing capital expenditures previously charged as current expenses on its books and income tax returns in error."

M. E. FOSTER REMINISCES

Tells of Start of Houston Chronicle on Its 24th Birthday

The *Houston* (Tex.) *Chronicle* celebrated its 24th anniversary Nov. 15 with a 152-page edition.

Marcellus E. Foster, president and editor reminisced upon the start of the paper in his page one column as follows:

"Looking back 24 years from a newspaper standpoint:

"A few young men gathering together, with the aid of friends, a few thousand dollars, to start a new daily in Houston.

"Some of them were fortunate in having been trained from boyhood in newspaper work, but not one had any real business knowledge.

"They thought Houston needed a live afternoon newspaper, and believed they were capable of furnishing that need. The happy egotism of youth!

"The Houston Chronicle was started. The plant consisted of three typesetting machines, a small press that printed direct from type, a few second-hand typewriters, some old desks, one telegraph wire, scissors, pencils, paste pot and a dozen employees.

"That was the beginning of The Chronicle in the fall of 1901."

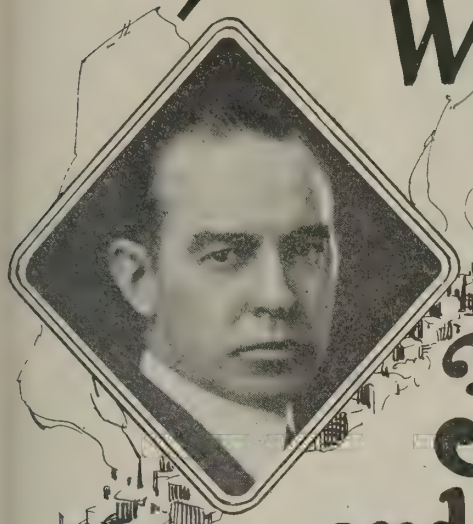
The Chronicle now publishes from a ten-story plant and has leased an adjoining ten-story building.

Elias Asheville Times Owner

In EDITOR & PUBLISHER, Oct. 3, it was incorrectly stated that P. M. Burdette had purchased the *Asheville* (N. C.) *Times.* The Times was purchased by D. S. Elias who became president and business manager. E. B. Wilson is vice-president, and E. C. Greene, secretary-treasurer.

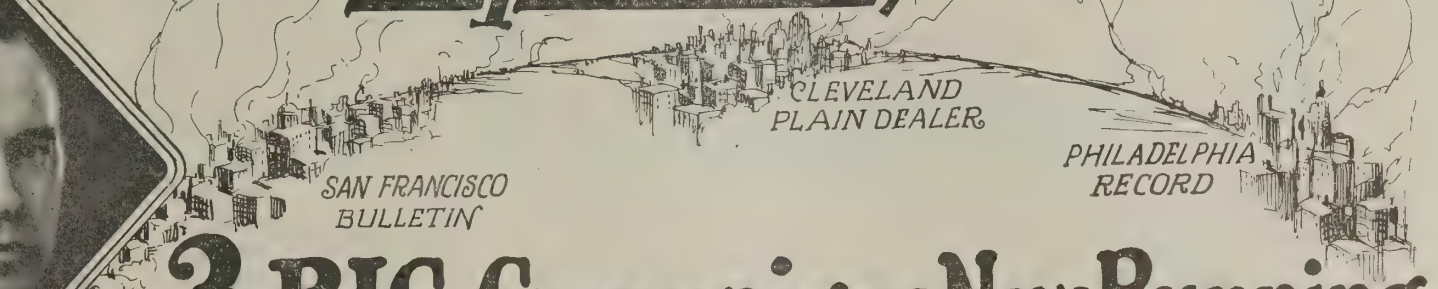
New York Mirror Adds to Plant

The *New York Daily Mirror* is installing its own photo-engraving plant. It will be ready for operation next week.



Booker Joins Tulsa Tribune

John H. Booker, for the last eight years managing editor of the *Sapulpa* (Okla.) *Herald* joined the staff of the Tulsa Tribune, as telegraph editor on Nov. 27.



Baby Girl in Walker Home

Stanley Walker, of the *New York Herald Tribune* staff, and Mrs. Walker are the parents of a girl, born Nov. 24.

FROM COAST TO COAST the Hollister Circulation Organization is again proving, as it has proved conclusively in the last twenty years, its matchless leadership in the circulation building field. Only three BIG campaigns for large circulation gains are now being conducted — and every one is a Hollister campaign! The Cleveland Plain Dealer's $115,000 campaign is the greatest one on record in newspaperdom; and The Plain Dealer's invitation to Hollister to conduct it came as a direct result of their unqualified satisfaction with the methods used and profitable results obtained during his first campaign for them four years ago; The San Francisco Bulletin's campaign, in similar fashion, results from a previous Hollister success there; The Philadelphia Record's campaign follows two previous impressive triumphs for Hollister methods in that city.

SUCH A CIRCULATION GAIN as only Hollister plan campaigns can obtain — and all of the increase bona-fide, NEW, home-delivered, prepaid and lasting—can benefit any metropolitan newspaper. It only takes ten weeks to secure the gain; almost immediately the advertising revenue shows a substantial increase; within four or six months the campaign is decidedly on the profit side of the ledger; and for years and forever the newspaper benefits by a Hollister campaign.

While Hollister's established clients keep the organization busy practically all the time, the publisher of any metropolitan newspaper who desires a rapid and sure increase in circulation can obtain full information and open dates by writing, wiring or telephoning care of The Cleveland Plain Dealer.

REPORTERS SQUIRMED WHEN GOV. PEAY, INTERVIEWED, TURNED INTERVIEWER

Tennessee Executive Turned Tables When Asked for Comments on State's "Darkness" During Scopes Trial—News Men's History Lacking

By KENNETH WATSON

WASHINGTON, D. C., Nov. 24.—Ever since the evolution trial at Dayton, newspaper men have been chuckling on how clevrely one correspondent learned from Judge Raulston how a vital ruling was to be made without the judge being aware that he had disclosed anything.

This was when William K. Hutchinson, International News man, scored an important scoop by announcing that Raulston was going to overrule the motion by defense counsel to quash the indictment against John T. Scopes on the grounds that it was unconstitutional.

Hutchinson obtained the story by the simple process of interviewing Judge Raulston during the noon hour and asking if the trial would go on after the ruling had been made. When the judge said it would he unwittingly had given Hutchinson the information that the ruling would be against the motion.

Now it appears that all of the mental dexterity palms weren't carried off by the press.

Another side of the picture has just been disclosed by Governor Austin Peay, of Tennessee, who testified in Washington recently before the House Ways and Means committee framing the new tax bill and advocated repeal of the federal inheritance tax.

During most of the time the Scopes evolution trial was in progress Governor Peay was vacationing at a Battle Creek, Mich., sanitarium.

Local reporters were not long in discovering his identity and besieged him for interviews. Peay at first talked rather freely to the newspaper men but when he discovered that the more he talked the more he was asked for opinions on evolution he evolved a clever scheme for ending the requests.

The procedure as related to me by Peay today was amazingly simple.

It consisted of merely turning interviewer instead of being the object of the questioning.

And incidentally in convincing the newspaper men that Tennessee hasn't wholly been the home of "ignorant mountaineers" as some accounts would indicate.

"After I had formulated my plan of getting some respite from being interviewed I did not have long to wait to put it into execution," Peay told me.

"I simply told the first reporter that I had no objections to giving him a story if he had none in my asking a few questions.

"I then asked him where he was born and after ascertaining that it was not Tennessee asked him what the capital was. He didn't know—in fact none of the four or five reporters who followed him did. One said Knoxville and one Memphis, but the others simply confessed they did not know."

"I then asked him if he knew how many Presidents Tennessee had furnished and if he knew that one of the decisive victories in the Revolutionary War—one which really turned the tide against Great Britain—had been won by Tennessee mountaineers.

"Or that a Tennessean had played a decisive part in the War of 1812 and that the War with Mexico in 1845 had been conducted under the leadership of a president elected from Tennessee."

Peavy said that he followed up these initial questions by asking the various reporters if they know how prominent a part Tennessee had played in the Civil War and that if they knew the greatest hero in the World War was a Tennessean.

"Most of them seemed greatly surprised when I told them more engagements had been fought during the Civil War in Tennessee than in any other state," Peay said, "while none could tell me the name of Sergeant Alvin York."

"I then asked that and each succeeding reporter if he knew whether any of the present justices of the United States Supreme Court were from Tennessee and not one could tell me," Peay said.

"I also asked the reporters if they knew how many national commissioners of education we had had. When they invariably replied 'No' I told them the number—seven.

"I then asked if they knew how many of the seven were from Tennessee and none knew. I told thm three of the seven were appointed from Tennessee while the other 47 states had contributed only four commissioners between them and asked if they thought this was such a reflection on the educational standards of the state."

Governor Peay told me that by this time each reporter, that questioned him after he had conceived his plan of turning interviewer, was squirming nervously on his chair.

"I then would say: 'Well, son, I have no objection to talking to you later, but first don't you think you had better brush up a little on your history and then come back?

"And not one of them did and from that time on my way stay wasn't interrupted by requests for interviews," Peay said.

For the benefit of readers who aren't students of history the answers to Governor Peay's questions not given in his own statements above are enumerated here.

1. The capital of Tennessee is Nashville.

2. None of the 30 Presidents of the United States were actually born in Tennessee, but three of them are accredited to Tennessee because of their residence there at the time of accession to office. They were Andrew Jackson, seventh President; James Knox Polk, eleventh President and Andrew Johnson, seventeenth President.

3. The battle of Kings Mountain which was fought on Sept. 25, 1780, is regarded by many historians as the most important victory of the Revolutionary War next to Saratoga. A little army composed entirely of East Tennessee mountaineers led by Cols. John Sevier, Isaac Shelby and William Campbell, intercepted a larger British force commanded by Col. Patrick Ferguson who was advancing from the Carolinas to join Cornwallis in Virginia. Ferguson was killed in the battle and his whole army either killed or taken prisoners. This battle prevented the junction of the two British forces and hastened the surrender of Cornwallis to General Washington at Yorktown.

4. General Andrew Jackson, then a Tennessean, was the outstanding figure in the War of 1812 because of his victory over the British at New Orleans even though peace had been declared previously.

5. Polk was president when the war with Mexico was fought.

6. Two of the justices of the U. S. Supreme Court are Tennesseans. They are Justice James Clark McReynolds and Justice Edward Terry Sanford.

7. The present Commissioner of Education, Dr. John J. Tigert, was born in Tennessee, as was his predecessor, Dr Philander Claxton, while John Eaton, commissioner from 1870 to 1886, altho born in New Hampshire, was appointed from Tennessee.

Dry Goods Stores and Specialty Shops Prefer the Times-Star

Like the dealers in food stuffs and apparel, the merchants who sell dry goods and specialties in Cincinnati rely upon the family circulation of the Times-Star for most of their business. They place more display advertising in this one paper during the six business days than they carry in the two morning papers combined in seven days. They place more display advertising in this paper in six months than they place in the second afternoon paper in a year.

And they do this day after day, year in and year out, which proves that the actual consumer influence of the Times-Star is greater than that of both morning papers and twice that of its afternoon contemporary.

What a world of meaning is revealed by these figures! Take any classification of business in which the advertising must actually pay its own way as it goes, and you will find that the bulk of the advertising goes on its way through the Times-Star.

No generalities,—no long-drawn-out investment in hypothetical "good-will" or "dealer influence,"—but results, direct, immediate, and the kind of good-will that expresses itself in sales over the counters and the cheerful music of the cash register bell!

Yet, the line rate for display advertising in the Times-Star with 50% more daily local circulation than both morning papers combined is only 2/3 as great as the combined line rates of the two morning newspapers.

Think it over!

CINCINNATI TIMES-STAR

1ST in St. Louis
4TH in America

The volume of Total Paid Advertising carried by the Post-Dispatch in October was the fourth largest among all metropolitan newspapers in America—and, as usual, first in St. Louis. This new high record advances the Post-Dispatch from seventh to fourth place in America, and second in the nation's group of great evening and Sunday newspapers.

Because of the marked supremacy of the Post-Dispatch as an advertising medium in St. Louis, this one newspaper alone regularly carries far more paid advertising than the second and third newspapers combined—often more than all three others combined.

The fact that the Post-Dispatch is first in its home city and fourth in America, while the second newspaper in St. Louis is thirty-eighth in America, emphasizes the important position occupied by the Post-Dispatch among America's leading newspapers.

The Post-Dispatch naturally takes a measure of pride in its enviable position with such newspapers as the Detroit News, the Chicago Tribune and the New York Times—all of which are published in cities which surpass St. Louis in population.

Results are responsible for this advertising supremacy. Local advertisers who concentrate the major portion of their advertising in the Post-Dispatch, and those who depend upon the Post-Dispatch exclusively, have learned, through many years of experience, that this one newspaper produces more sales at less cost than can be secured from any other St. Louis newspaper, or combination of newspapers.

DENVER PRESS CLUB ATTAINS ITS GOAL WITH OPENING OF NEW $30,000 HOME

Unwritten stories of Denver will be tossed from chair to chair in the new Press Club cozy corner, a view of which is shown above.

CULMINATING happily a 20 year dream of its members and officers, the Denver Press Club formally opened its handsome new home at 1330 Glenarm Place, Denver, Sunday, Nov. 22. More than 500 state and city officials and business and professional leaders of Denver were guests of the club during the three-hour opening reception.

Erected on valuable property purchased in the heart of the city ten years ago, the new clubhouse was built at a cost of approximately $30,000. Architect, contractor and interior decorators donated a large part of their services and all construction materials and interior furnishings, including restaurant-type kitchen and poolroom equipment were presented at cost.

"We believe our new club home to be unique on two counts," E. C. Day, president of the Denver organization, declared.

"First, we move into it absolutely debt-free—an achievement in itself. And secondly, a large portion of the customary cost of building was virtually written off by our friends to whom we appealed directly.

The club as it stands today is conservative valued at $50,000, though the cost to us was around $30,000, this cash sum representing many long years of saving, several money-raising activities and many substantial gifts."

Active members of the Denver Press Club number 150, with 50 non-resident and 100 honorary associates and life members including every president of the United States since McKinley. The Denver organization claims to be one of the few large press clubs whose active membership is strictly limited to newspaper men, virtually 90% of the active newspaper workers of the city being members.

Architectural style of the new clubhouse is Old English. The exterior is of rough stucco with terra cotta trim, leaded window panes and heavy studded oak door, near which in a recessed niche, is a medieval, torch-style door light.

Ground-floor plan includes a spacious lounge, the great fireplace of which is flanked by sconce-type electric fixtures and surmounted by the Denver Press Club emblem carved in stone. A large alcove off the lounge is used as a dining room. The kitchen is of latest restaurant type fully equipped even to an ice-making plant.

On the second floor an auditorium capable of seating 300 occupies the rear two-thirds of the floor space, the front being devoted to a comfortable library with fireplace and leaded glass windows.

Card rooms and a well-lighted billiard room occupy the basement. Brick wainscoting and exposed beams are the decorative feature here.

Officers of the Denver Press Club are E. C. Day, *News-Times*, president; Frank E. White, Conner Advertising Agency, vice-president; Warren E. Boyer, Denver Tourist bureau, secretary and house manager; Charles MacA. Willcox, Daniels & Fisher's, treasurer, and Raymond A. Eaton, News-Times, historian. C. L. Parsons, *Denver Post*, Sidney B. Whipple, *Denver Express*, A. Thomas Pollock, *Rocky Mountain News* and Lee T. Casey, *Denver Times*, with the officers, compose the board of directors.

BETTER READERS NEEDED

Profesor Urges Classes in Newspaper Reading for Schools

Learn how to read! What is the use of producing good newspapers, if the public does not read them intelligently?

Grant Milner Hyde, professor of journalism at the University of Wisconsin, made the statement and asked the question in an address on "How to Read a Newspaper," given before the Illinois State High School Press association conference in Urbana, Ill., Friday, Nov. 20.

"A great deal is being done in the newspaper profession and in the schools of journalism toward the production of better newspapers," concede Prof. Hyde.

"But almost nothing," he maintained, "is being done to produce better newspaper readers."

"Why bother to gather the news carefully and accurately?" he asked. "Why hire good reporters and correspondents, why keep men in France and England and Washington at great expense—if all the public wants is comic strips and sport 'dope'?"

To develop a public that will appreciate and support a good newspaper, Prof. Hyde advocated that regular courses in "How to Read a Newspaper," be established in high schools and that an advanced course of the same nature be offered in every college.

Wyoming Paper Loses Suit

Found guilty of criminal libel, M. L Levand and Sam H. Day, publisher a managing editor respectively of t *Casper* (Wyo.) *Herald*, were fined $2 each by Judge William A. Riner, Torrington, Wyo. Notice of appeal w immediately given. Editorials in t Herald, alleging that the Ku Klux Kl swayed the jury for acquittal in the ca of Deputy Sheriff Errol Cantlin, Caspar, tried for the killing of Mrs. Ne lie B. Newcomb, were the cause of t suit.

FRANK P. MacLENNAN REVIEWS HIS 40 YEARS AS NEWSPAPER OWNER

From debt to prosperity—Frank P. MacLennan

FRANK P. MACLENNAN celebrated the fortieth anniversary of his purchase of the *Topeka* (Kan.) *State Journal* recently by publication of the following editorial:

FORTY YEARS.

Forty years ago, today, the writer became the owner of the State Journal and has been the proprietor and publisher continuously since that date, October 30, 1885. The previous week he had bid for the property at public auction and on the last named date took possession, the district court having confirmed the plant and its ill-will to the highest, successful bidder. The paper had gone through two receiverships, and the last receiver, in the course of two years, had sunk $10,000, which was a large amount in those days, in the enterprise.

The new, young and enthusiastic publisher struggled a long while to overcome the bad repute into which the publication had fallen, and to get it on its feet. This required a longer time and more money than had been anticipated. After using all his own capital and all he felt he could borrow, he was ready to sell out, but there was none willing to step into his shoes, so there was nothing to do but remain and hang on. The publication began to pay and since that time several hundred thousand dollars in profits have been put back into the enterprise to place it in its present position of prestige and prosperity.

Forty years seems a long time to be connected with and the manager of one enterprise, and the changes that have happened in that time are almost unbelievable. Topeka was a growing city of twenty-one thousand, without a block of paved or hard-surfaced streets. Kansas avenue following a heavy rain was a quagmire; frequently farmers' wagons were stalled on the highway.

There were few concerns in business at that time that are still in business today under the same ownership. Among those few are the Crosby Brothers department store, then a dry-goods store; R. L. Cofran, of the Western Foundry; D. H. Forbes, hardware; Doctors C. B. Reed and A. C. Sloan were young dentists, W. A. S. Bird, attorney, and T. G. Shillinglaw, real estate.

The day following the sale Crosby Brothers had a five-column advertisement, which helped some. It undoubtedly paid, for they have kept on advertising ever since and ought to know after forty years' trial.

At the site of the present Crosby Brothers' big store were one-story, frame buildings; a little restaurant known as "The Hole in the Wall," and in front rickety, board sidewalks.

Only two wings of the state house were in existence, the east and west wings. The dome had not yet risen to dominate the landscape, and the principal part of the southwest section of the city, now thickly dotted with beautiful homes, was a prairie, across which were diagonal paths leading to the few scattered houses that pioneers had erected at that date.

A journey from one side of Kansas avenue to the other was considered a trip over waste places; now an avenue the proper width for a business street.

The State Journal building was a one-story affair, the ground south of it vacant, except it was overgrown with weeds and was the site of a small shanty from which lime and coal were sold.

Automobiles were unknown. The daily supply of paper was received in a wheelbarrow; now carloads are used monthly.

The State Journal had one reporter and a circulation of 800, against more than ten reporters and a circulation of 23,000 today.

No one other than the publisher connected with the paper is with it today, although there are many who have served with him twenty and twenty-five years.

Is present managing editor and its business manager were unborn.

The member of the present staff in longest continuous service is W. T. Brown, editorial writer. "Tom" was present at the auction when the paper was "knocked down," but did not join the force until eight years later, when he became North Topeka reporter. That was thirty-two years ago.

The paper, it is believed, was from the start, an important factor in the welfare and growth of the community, forward-looking, confident and with abiding faith, and must always, so long as it exists, be such a factor.

F. P. M.

PLAN NEW DAILY

Company Incorporated to Start Third Woodland, Cal., Paper

Woodland, county seat of Yolo County, California, is soon to have its third daily newspaper. Articles of incorporation of the Woodland Independent Publishing Company were filed Nov. 16, 1925.

The newspaper is capitalized at $50,000 and the directors are J. F. Garrette and F. W. Stephens of Woodland and L. B. Hart of San Francisco. Mr. Garrette, who will head the new company, is owner of extensive farm lands and is secretary and a director of the Yolo Water and Power Company. He has not yet determined whether the paper will be published morning or evening.

At the present time, Woodland is served in the morning field by the *Mail* and in the evening field by the *Democrat*.

Wilke's METALS
THE HIGHEST STANDARD

Building on Performance

WHEN you buy type metals on the basis of quality you expect *certain results*. For quality in type metals expresses itself in performance just as surely as it does in other commodities.

You expect solid slugs, type, and stereo plates, which will print clear and sharp. You expect a metal which will work at low casting temperatures, with a minimum of drossage. A metal which is always the same, one order after the other.

It is these characteristics which have established the good reputation of "Wilke's" Type Metals. It is upon performance, day after day, week in and week out, that we have built our business in type metals—and maintain it.

If you become a "Wilke's" User you may take advantage of the "Wilke's" Type Metal Insurance Plan. This plan is your protection against the deterioration of your metal supply. Ask us about it.

EVERYBO

Says—

PASSAIC DAILY NEWS
Passaic, New Jersey

We consider the Pony Autoplate Machine the ideal equipment for a newspaper of our size.

R. E. LENT,
General Manager

Says—

NEW BRITAIN DAILY HERALD
New Britain, Connecticut

We certainly find vastly improved conditions in our Stereotype Department since we discarded the hand operated equipment and installed the Pony Autoplate Machine.

It is a sturdy machine, with very few wearing parts and evidently built to last. It is easy to operate, turns out a first class plate and certainly speeds up production at a time when production is most needed.

Its most appealing feature to us, however, is labor saving. It takes away that blood-sweating horse work from the stereotype department and enables the stereotypers to produce plates very rapidly without the exertion which was so noticeable with the old methods. We are pleased with it.

T. F. JACKSON,
Business Manager.

Says—

TAMPA MORNING TRIBUNE
Tampa, Florida

Our Pony Autoplate Machine is giving us entire satisfaction. In fact we are really surprised at the wonderful capacity this machine is displaying. We are casting close to 1,000 plates per week on this machine, and it has never faltered at one stage of the game.

J. S. MIMS,
Business Manager.

PONY AUTOP

DY LIKES

Says—

THE NEWS SCIMITAR

Memphis, Tenn.

No doubt you will be interested in knowing that our Pony Autoplate Machine is doing everything that we expected of it. In fact, it has really done more. We find it reliable, free from breakdowns, and the upkeep has been free from unnecessary expense.

JOHN M. HERTEL,
Business Manager.

Says—

THE TOLEDO TIMES PUBLISHING CO.

Toledo, Ohio

We have had most satisfactory results from the Pony Autoplate Machine.

When the machine was installed in our Stereotyping Department we continued our old equipment fearing that some time something might go wrong and it might be necessary for us to return to this old equipment in case of emergency, but this has not been necessary.

We have used the Pony Autoplate constantly and find that it has not only been a time saver but also a very economical machine from all standpoints.

R. C. PATTERSON,
President.

Says—

THE TIMES-PRESS

Akron, Ohio

I believe that this office is on record as to the Pony Autoplate.

I can only add that, in my opinion, the Pony Autoplate is so far ahead of the old method of casting by hand-box that there is absolutely no comparison.

So far as the printing properties of the plates are concerned, I believe they are as nearly perfect as they can be made.

L. E. HERMAN,
Business Manager.

E ATE MACHINE

EDITORIAL

SPACE BUYERS' GUIDE

EDITOR & PUBLISHER appears this week in two sections, a total of 344 pages, including the Space Buyers' Guide, an annual service number contributed to the thousands interested day by day in distributing and advertising commodities among the American people. Our Guide is the most authentic and complete local trade reference work in existence, as will be obvious to any reader glancing at its monumental classification of information concerning the people, institutions and customs of the cities and towns of America where daily newspapers are published.

Two years ago the Space Buyers' Guide was a cherished plan in the EDITOR & PUBLISHER office. Today realizes its second number, in greatly amplified and refined form. It will find its place on thousands of busy desks in the realm of merchandise selling, and for a year serve as a searchlight which in a jiffy may be turned upon any city or town for essential facts to guide intelligent trade campaigning.

Some of our friends have called the Guide EDITOR & PUBLISHER'S best single achievement for advertising interests. May we say that it was scientific advertising's most urgent need. The Guide may now be regarded as an institution ranking with audited circulations, published rate cards and all other modern factors which tend to make the newspaper space buyer's purchase a soundly tangible investment.

Glance through the pages of Space Buyers' Guide and stand in wonder and awe of the immensity of our nation and its boundless resources in the year 1925!

The best news is local, and by the same token the best advertising copy has local flavor.

ANOTHER PROFESSIONAL SPORT

IS the newspaper press about to erect in this country another million-making professional sport?

Professional football is the latest contrivance of a few shrewd business men for highly profitable returns from small investment. To succeed it must draw large crowds to a given place, but no advertising appropriation is necessary. Football is "news." The press services, through the demands of their clients, will be compelled to string wires into the grounds and cover the games. Sporting editors will fall over themselves in a mad rush to find attractive material with which to promote the new sport. They will tell the public that the game will start promptly at 3:15 o'clock. They will expend publisher's capital with lavish hand to create interest. They will run little funny stories about ticket speculation which drives up the price of seats two or three thousand per cent. They will get out extras announcing the results of games. It will all be in the name of "sport," but the little coterie of promotors will be best able to appraise its value.

Professional football is to supplement professional baseball. It is to fall upon the shoulders of a press now burdened to the breaking point with professional boxing, horse racing, six-day meets, and all the infinite variety of dollar netting sporting schemes.

Collegiate football, in amateur terms, is one of the happy institutions in American life. It jolly well justifies the interest that is bestowed upon it. Professional football to us seems a gross perversion. It's first act is to turn a good boy's head with some absurd salary like $100,000 per year. No longer is Red Grange, it is said, interested in his college degree. He looks intelligent and perhaps may stand the strain, but we submit that nothing could be better calculated to wreck a fine lad than professional football at $100,000 per annum for the two or three seasons that he can run, then to discard him as a useless and fallen hero.

Will the newspaper press support professional football and make of it what professional baseball has become? We fear this will happen. It is apparently now in process.

Christian Science Monitor recently published an Ohio special edition which might be used as a model for such enterprises—a special edition of such editorial merit as to warrant permanent filing.

Where shall wisdom be found? and where is the place of understanding? Man knoweth not the price thereof: neither is it found in the land of the living.—Job, XXVIII; 12, 13.

THE RHINELANDER CASE

MANY newspapers have published decent and wholly justifiable accounts of the Rhinelander annulment case at White Plains. The public is entitled to the socially significant information that another rich man's son, reared in idleness and shallow material luxury, has been exposed in his young manhood as a sottish degenerate. From the ignorant female's side of the case the ancient and unsolved problem of miscegenation was perhaps wholesomely revived. The news served to bring to public consciousness many other vital social questions which can only be solved by discussion. Not the least of these is whether it is civilized, all questions of law and advantage aside, to permit a woman bare her body in the presence of the officers of a court.

The Rhinelander case has had its important social aspects and it is with pride in the newspaper profession that EDITOR & PUBLISHER is able to record this week that the majority of editors have not only conserved decency in print but have had the courage to give the public sufficient information upon which to base its rightful power of judgment.

A minority of the daily press has wallowed in the filth, using the inane mumbling letters and as much of the lascivious testimony as the law would permit for the lowest form of circulation pandering. This pornographic orgy in print is without a parallel in modern journalism in the country. Much of it has been produced by the subtle process of creating through deletions an imagery more devastating to the simple mind than publication of brutal facts which carry with them their own antidote in the form of natural revulsion. This skirting of the actual smut to evade the law has been accompanied by a familiarity with the "Kips" and "Alices" and "Bobs," in headlines and pictures, fit to turn a normal stomach inside out.

There was no Theodore Roosevelt to cry out, as the late President did from the White House 20 years ago when the Thaw principals were on parade, that newspapers carrying indecency should be refused the United States mails. Yet the Thaw testimony at its worst had no such corroding influence on undisciplined minds as has been intended by swinish suggestion in the Rhinelander case.

The power of a newspaper for good or for evil is incalculable. When it goes wrong it must be curbed. There are powers that can and will control it. The lines that lie between freedom and license are easily distinguishable. License digs its own grave in this country.

A 1926 VISION

WHAT would it mean to the newspapers of the United States if all automobile free publicity were to be discontinued? Millions of dollars in conserved newsprint and mechanical costs, which might very well be spent by editors to obtain material which would spell sound advantage for the automobile industry. They could employ able writers to cover the legitimate news of the automobile field. Instead of vapid puffing of local dealers and far-fetched press agent yarns, made in New York or Detroit for local consumption, newspapers might commence publishing the facts about local road construction and maintenance and take up the thousand and one problems of the car rider, not overlooking the grafting roadside cop and the scatterers of bent nails and broken glass.

The average automobile driver has no conception of the play of mechanical forces that propel his car. Rubber has jumped amazingly in price and it may be true that there is a British rubber corner. There is constant experimentation in the manufacture of cars. Automobile statistics, such as are prepared by the Automobile Chamber of Commerce, furnish wonderfully interesting information. Any imaginative reporter can write a column of per day with more real interest concerning automobiles than all the press agents that are now bombarding newspaper offices with their endless pages of half-baked "dope." In our opinion one column written true to news principle would do more for the industry than a thousand columns of the puffing which no sensible person wastes time to read.

We believe the day may be near at hand when the automobile industry will accept the point clearly raised by Albert R. Erskine, President of the Studebaker Corporation, published in our columns last week. All industrial free publicity will fall by the wayside when this happens. Ably conducted columns, written by newspaper men for newspaper readers, will spring up to cover such fields as radio, movies, real-estate, financial and similar classifications of industrial interest each contributing sound news values.

Is it too much to believe that this great reform vital to editors, necessary to advertising rate stability urgently demanded by all clear-visioned men whether on the buying or selling side of publishing, may be realized in 1926? The answer lies in the power of the organized press of the United States.

Advertising men must study the problems of production and distribution more carefully to win in the great business development of the immediate future, wisely said E. A. Filene at Washington last week.

$1,000 A WEEK

ONE small-city newspaper editor last week received a total of 70 columns of free advertising in mat form from press agents. If he had published it at card rates it would have been worth $1,176. Being a sensible editor he did not publish a line, but returned the whole mess to EDITOR & PUBLISHER as an exhibit. "This is somewhat less than we usually receive," the editor commented. "I believe that the big national distributors are beginning to see that the press agent is not as effective as formerly

PERSONALS

ILLIAM RANDOLPH HEARST left New York, Nov. 22, to return is ranch at San Simeon, Cal.

Villiam Allen White, editor and pub-ir of the *Emporia* (Kan.) *Gazette,* is tor of a new biography called "Calvin idge, The Man Who Is President," shed Nov. 17, by MacMillan.

WITH THE SPECIALS

DEVINE MACQUOID Company, Inc., newspaper representatives, New York and Chicago, have opened an additional office at 921 Bessemer building, Pittsburgh, Pa., with E. J. Hayes in charge. Mr. Hayes has been engaged in the sales and advertising business in Western Pennsylvania and West Virginia for the past ten years, his last connection being the Continental Sales Company of Pittsburgh. The Devine MacQuoid Company has been appointed to represent the *Philadelphia Graphic,* tabloid, east and west.

FOLKS WORTH KNOWING

TWENTY years with the *New York Tribune,* now the *Herald Tribune,* is the record of Arthur S. Draper, who is at present foreign editor of that newspaper, with headquarters in New York.

ARTHUR S. DRAPER

When he was graduated from New York University, Mr. Draper became a Tribune reporter. He was later shifted to the rewrite staff, and promoted to night city editor and then in 1913 to Sunday editor. In 1915 Mr. Draper was sent abroad as general European manager of the Tribune with headquarters in London. From 1915 until the close of the war, he sent a daily communique, interpreting war developments. He made during this time many trips to the front as war correspondent. His coverage of the start of the Irish Free State also attracted considerable attention in this country.

In his present position, Mr. Draper has charge of all Herald Tribune correspondents abroad, and also writes editorials on foreign affairs for his newspaper.

CHANGES OF OWNERSHIP

NEGOTIATIONS were brought to a close last week transferring the ownership of the *Penn Yan* (N. Y.) *Democrat* from the estate of the late H. C. Earles to Earl F. Morse and Ellis Kennedy.

Staples (Minn.) *World* has been sold by E. D. Lum & Sons to Howard Sims of Pinckneyville, Ill. Mr. Sims' father has been publisher of the *Pinckneyville Advocate* for 46 years.

Harold Hamstreet has bought from D. M. Major the *Wallowa* (Ore.) *Sun.*

J. S. Daley, publisher of the *Eagle Rock* (Cal.) *Reporter,* has bought from W. L. Miller the *Eagle Rock* (Cal.) *Sentinel* and has merged the two as the *Sentinel-Reporter.*

George A. and H. A. Clark, publishers of the *Madera* (Cal.) *Tribune,* have purchased the *Madera Mercury* and merged the two papers as an afternoon daily.

Herman Hilson, formerly of the *Coeur d'Alene* (Ida.) *Press,* has bought the *Oakesdale* (Wash.) *Tribune.*

HOLDING NEW POSTS

N. C. HOUK, from *Minneapolis Tribune,* to copy desk, *St. Paul Daily News,* succeeding James Keefe, resigned.

Missouri School of Journalism will write, edit and direct the make-up Jan. 5, 1926, of a 48-page issue of the *Missouri Ruralist*, a Capper farm paper published in St. Louis.

ON THE MECHANICAL SIDE

EDGAR YATES for more than 28 years with the proofreading department of the *Boston* (Mass.) *Post* was recently presented with a gold watch and chain by his friends on the Post in recognition of his years of service on the paper and as of vice-president of the Boston Post Bank. Mr. Yates was forced to retire from active duty last month on account of ill health.

ASSOCIATIONS

OFFICERS recently elected by **Montana State Press Association** are: president, Henry O. Woare, editor and publisher, *Chester Reporter;* first vice-president, Martin J. Hutchens, editor and publisher, *Missoulian;* second vice-president, Joseph Gehrett, editor, *Laurel Outlook;* third vice-president, Charles H. Draper, editor, *Red Lodge Picket-Journal;* secretary-treasurer, S. E. Peterson of Great Falls.

Goodfellowship Club of Ohio Associated Press telegraph operators has elected Joseph Lemkuhl of Lima president and R. A. Pfadt of Columbus, secretary-treasurer.

Victoria (B. C.) Press Club recently re-elected R. T. Freeman, city editor of the *Victoria Times,* president. Percy Richards, marine editor of the *Colonist,* was re-elected president, and Jerome B. Eberts, political writer of the same paper, was elected vice-president.

Oklahoma Interscholastic Press Association held its annual convention, Nov. 21, at the school of journalism, Oklahoma University. Speakers included Claude V. Barrow, state editor, *Oklahoma City Oklahoman,* and Clyde E. Muchmore, publisher of the *Ponca City News,* and president, Oklahoma Press Association.

New York Newspaper Women's Club has invited officers of the Newspaper Men's Club to an informal dinner in their honor at the club's rooms at 47 W. 44th street, on Friday evening, Dec. 4, for the purpose of showing them the club's new home. In the absence of Miss Louella Parsons, president, who is in California, the hostesses for the evening will be Miss Theodora Bean, first vice-president, and Miss Martha Coman, chairman of the dinner committee. Invited guests include Dwight S. Perrin, president of the Newspaper Men's Club, William P. Beazell, first vice-president; James Melvin Lee, second vice-president; Frank E. Perley, treasurer, and Augustin McNally, corresponding secretary.

Advertising Club of New York held a Thanksgiving dinner-dance at the clubhouse Thanksgiving Day.

National Conference of Business Paper Editors has postponed its Washington meeting from Nov. 30 to Dec. 14, so that members may combine attendance with the National Distribution Conference to be held Dec. 15-16.

Women's Advertising Club of Chicago celebrated its eighth birthday on Nov. 18, with a dinner dance at the Parkway hotel. Among the guests of honor were many of the club's former presidents.

ASSOCIATION CHIEFS

HAROLD SEARLES, recently elected president of the California Circulation Managers' Association, is the circulation manager of the *Hollywood Citizen.*

HAROLD SEARLES

Practically all of his life has been spent in Hollywood, where he has watched that city grow from a small town to its present 100,000 population. He knows its peculiar circulation problems thoroughly. Following his graduation from the Hollywood High School in 1915, he attended Occidental College, and when war was declared he joined the Army, serving for 2½ years.

On returning from the war he joined the Pacific Mail Steamship Company, and sailed as purser until the latter part of 1921, during which time he made three trips to South America, one trip to China, and one trip around the world.

He joined the Hollywood Citizen as circulation manager in February of 1922, without previous circulation experience. He joined the California Circulation Managers' Association and the International Circulation Managers' Association.

Mr. Searles became active with Harlan G. Palmer, publisher of the Hollywood Citizen in the fight against free circulations being certified as paid by the Audit Bureau of Circulations, under the classification of 'combination circulations.' In 1923, with Searles as one of the leaders, the California Circulation Managers' Association took up the fight against the certification as paid, by the Audit Bureau, of circulations of two papers sold for the price of one. The fight was successfuly brought to an end at the recent A. B. C. convention when the general assembly of the convention condemned the practice.

Searles, who was vice-president during the past year, was elected president at the seventh annual convention of the C. C. M. A. October 19-20, 1925, to succeed John Grey.

Woman Wins Damage Suit

In a suit against the Portland (Me.) Evening Express Publishing Co., Mrs. Frances M. Smith on Nov. 21, was awarded $5,150 damages by a Superior Court jury for injuries received when a bundle of newspapers was thrown to a sidewalk from a truck delivering the Express. The jury was out 80 minutes. Mrs. Smith sued for $15,000. The defendant company admitted its liability, the only question before the jurors being the amount to be awarded for damages sustained. The accident happened Dec. 27, 1924.

Covering the Ohio Market

Cleveland Press

The Cleveland Press has the largest circulation of any newspaper in the entire State of Ohio—largest total circulation—largest city and suburban—largest city circulation. The Press has the lowest milline rate. On every point it is the FIRST advertising "buy" in Cleveland.

Akron Times-Press

All of the circulation of The Times and of The Press was combined and retained in the consolidation and The Times-Press is steadily growing in circulation. The Sunday Times-Press is the only Sunday paper in Akron. The Times-Press is first choice in Akron.

Toledo News-Bee

In this busy industrial center, The News-Bee is the best and most economical contact with city families. Circulation exceeds 90,000. Not only because of its large circulation and advertising volume but also because it has such an intimate place in the lives of the most responsive people of the community, The News-Bee is the preferred medium.

Cincinnati Post

The Cincinnati Post is first in Cincinnati with a total daily net paid circulation of 191,816. The Post's city and suburban circulation in October, 1925, was 19,600 greater than in October, 1924. Cincinnati and the rich Ohio Valley cannot be covered without listing The Post, the leading paper.

Youngstown Telegram

With a larger circulation than any other Youngstown paper, daily or Sunday, and with a long-established dominance in volume of Youngstown advertising. The Telegram is first choice of discerning national advertisers. The Telegram's "firsts" include total circulation, local circulation, total advertising, local advertising.

Columbus Citizen

First in verified (A.B.C.) circulation, The Citizen is first choice with national advertisers who buy circulation as a definite, measurable, audited commodity. The Citizen is the strongest force in this quality market.

The six Ohio Scripps-Howard Newspapers have a combined rate of $1.15; a combined milline rate of $1.79; a total combined circulation exceeding 641,000. These evening newspapers are represented in the national advertising field by—

WITH THE GENERAL ADVERTISERS

Dodge Brothers, Inc., Purchases Majority Interest in Graham Brothers—Buick Ad Chief Praises Newspapers—Campaign Being Planned for Dillingham

DODGE BROTHERS, Inc., nave purchased for cash the majority interest in Graham Brothers, one of the largest independent motor truck manufacturers in the world, it was announced this week by Clarence Dillon, head of the firm of Dillon, Read & Co., bankers.

Ray A. Graham has been appointed general manager of Dodge Brothers, and Joseph E. and Robert C. Graham have been added to the board of directors.

With the consummation of this deal, Dodge Brothers becomes the third largest producer of motor cars in the United States. Graham Brothers rank first among manufacturers of 1½-ton trucks and are second in the production of 1½ and 1-ton trucks combined. The field constitutes approximately 75 per cent of the total truck production.

Graham Brothers have factories in Detroit, Evansville, Ind., Stockton, Cal., and Toronto. There will be no change at present in the executive personnel, it was announced. Production for the first six months was 11,000 trucks, equal to the entire output of 1924, and the estimated output for the current year will more than double the 1924 output.

Graham Brothers Company was organized in 1919 and in 1921 effected an arrangement with Dodge Brothers whereby they were to use Dodge Brothers engines as standard equipment and market exclusively through Dodge Brothers dealers. In 1921, the first year of that arrangement, their output was 1,085 cars. This has been increased to 16,500 cars for the first ten months of 1925.

More than a million people were brought to Buick salesrooms in two days, following announcement of the 1926 model in 7,000 newspapers, according to A. Brown Batterson, director of advertising of the Buick Motor Company.

"The coming year promises to show a larger volume of Buick advertising in newspapers than has ever been published since the inauguration of the Buick national newspaper advertising campaign several years ago," Mr. Batterson declared.

"About 4,000,000 inches of display space was used last year, divided between the dealer advertising and that of the factory branches and distributors. The entire cost was over $2,000,000. The dealer and distributor paid for his own space, but the copy, plates, etc., were furnished gratis by the sales advertising department.

"The list ow newspapers now used totals 4,420 dailies and weeklies carrying dealer advertising, and 335 metropolitan papers which are used as media for branch and distributor advertising. The composite newspaper circulation of all these is about 40,000,000 and the list is constantly increasing."

Newspapers are to be used almost exclusively for the 1926 campaign for Dillingham's Plant Juice, Cincinnati, it was announced this week by the E. C. Harris Advertising Agency, Inc., Atlanta, Ga., which is handling the account. The appropriation is said to be about $250,000.

Advertising will probably be used to promote the "Save to Travel" movement, plans for which were discussed in New York this week at a meeting between representatives of leading banking institutions, the North American Steamship Conference, and some of the principal railroads. Francis H. Sisson, vice-president of the Guaranty Trust Company, New York, is one of the backers of the move.

Paul H. Helms, president of the General Baking Corporation, this week announced the purchase of the Smith Great Western Baking Corporation. The General Baking Corporation operates three plants in Kansas City, Mo., one each in Kansas City, Wichita and Hutchinson, Kan., and one each in Oklahoma City, Enid and Tulsa, Okla. To these will be added the nine bakeries operated by Smith Great Western in Missouri, Kansas and Oklahoma.

Directors of the William Wrigley Jr., Company this week declared an extra dividend of 50 cents a share on capital stock, in addition to four regular monthly dividends of 25 cents each. The extra dividend is payable Jan. 2, to stockholders of record Dec. 19.

For the quarter ended Oct. 31 the Fisher Body Corporation and subsidiaries report net income of $8,238,400, equal after all charges, to $3.36 a share earned on the 2,400,000 shares of common stock of $25 a share par value outstanding. This compares with net income of $3,178,199 in the same quarter last year, equal to $1.25 a share.

An increasing tendency towards newspaper advertising was reported by Stanton Van Wie of the Beech Nut Packing Company, speaking for his firm to EDITOR & PUBLISHER. Now Beech Nut is using small space in about 10 newspapers.

"But," he said, "the retail dealers are telling our salesmen they want advertising in their local newspapers, and the trend is definitely that way."

Mr. Van Wie believes in the power of the small newspaper advertisement.

Gold Dust Corporation, New York, reports net profits of $677,885, after charges, comparing with $673,885, last year.

ADVERTISING AGENCY AFFAIRS

Critchfield & Co. Opens New Chicago Offices—Hine Named Frank Seaman, Inc., President—Wyly Elected Vice-President of Tauber Agency

CRITCHFIELD & CO., advertising agency, has leased the entire ninth floor of the Lytton building, Chicago for their headquarters in that city. Architects have devised a floor layout which will result in the utmost efficiency in the internal operation of the business and will give the company one of the finest and most complete advertising offices in America.

Critchfield & Co., was established in 1892, and ranks among the oldest agencies in the country. It maintains branch offices in New York, Detroit and Minneapolis.

F. A. Sperry is chairman of the board; Scott S. Smith, president; A. L. Salisbury, vice-president; R. J. Birkle treasurer and E. P. Nesbitt, secretary.

At a meeting of the directors of Frank Seaman Inc., Nov. 18, Frank Seaman was chosen chairman of the board and Walter R. Hine was elected president of the corporation to succeed Mr. Seaman. Mr. Hine has been associated with Mr. Seaman for the past thirty years and from the time the business was incorporated in 1905 has been its vice president and general manager.

The Tauber Advertising Agency, Washington, D. C., has elected R. D. Wyly vice-president. Mr. Wyly has been connected with this agency for the last year and a half.

W. G. Hastings and Eugene C. Cassady have joined the staff of the Massengale Advertising Agency, Atlanta, Ga.

Arthur E. Andrews has resigned from N. W. Ayer & Son, following seven years service with that advertising agency.

Irvin F. Paschall, Inc., Chicago a vertising agency, announces the appoi ment of Miss Cora I. Leiby to its co staff. Miss Leiby was formerly with t H. W. Gossard Company, Chicago.

John Craig Healy has opened an fice in Chicago to act as counsellor advertising agencies and service corpor tions and as an independent advertisi copy writer. Most recently Mr. Hea was associated with the Smith-Pauls Advertising Service, Inc., Chicago.

Watch this Department weekly f Agency Changes and keep informed.

J. C. CORY, CARTOONIST, DIES IN DENVER

Nationally Known Newspaper Artist Aided in Wilson Campaign and War Activities—Formerly on New York World

J. Campbell Cory, nationally known newspaper artist, cartoonist and writer, died Nov. 17, at his home in Denver following a three weeks' illness.

Cory's work on the *New York World, New York Journal* and the *Cincinnati Times-Star,* and most recently on the *Rocky Mountain News* and the *Denver Times* won him national recognition as one of the most powerful political cartoonists of the day.

During the Woodrow Wilson campaign Cory was chosen to prepare cartoons for 100 newspapers in the doubtful sections of the United States, the effectiveness of his pen playing no small part, it was said, in the successful outcome of the campaig

A signal honor was paid Cory when the United States Government appointed him official cartoonist of the Government in France. Ill health prevented his acceptance of this commission.

Cory was born in 1867 in Waukegan, Ill. His first ambition was to become an animal artist and his first newspaper job was drawing horses for the horse race department of the New York Journal.

Later he became cartoonist of the New York World working for that paper for nine years at two different periods in his life. Some of his World cartoons of 25 years ago on Roosevelt are still remembered.

For seven years immediately prior to his death Cory's daily cartoon was a feature of the Rocky Mountain News and the Denver Times for which papers also he created his humorous feature, "How Strangely Small One Feels At Times." At the time of his death Cory had just inaugurated an animal series for juveniles entitled "Jack Cory Stuff."

Interspersed between Cory's newspaper experiences were years of vivid life as explorer, adventurer and mining man. He travelled the wilder sections of the Old West and remote parts of British Columbia as scout for a mining syndicate. He also established records as an amateur balloonist.

Cory is survived by his widow and one sister, Fanny Cory of Chicago, who under the pen name of F. V. Cory is a nationally known magazine artist.

N. Y. Graphic Cartoonist Dies

William Garvey, 20, cartoonist on the *New York Evening Graphic,* died Nov. 22 in the Hackensack, N. J. hospital. He was creator of the racing strip "Asparagus Tips." His first newspaper position was with the *New York American* and later he worked on the *Baltimore News.*

Mrs. Carpenter to "Carry On"

Following the death of Williard E. Carpenter, president of the *Lincoln* (Ill.) *Courier-Herald* the management of the paper has been transferred to Mrs. Carpenter, who was associated with her husband since he purchased the paper in 1922.

Memorial Tablet for Publishers

A bronze tablet commemorating the late William Henry Greenhow, publisher of the *Hornell* (N. Y.), *Tribune-Times,* from 1870 to 1918, has been placed near the entrance of the newspaper's new home at Cass and Canisteo streets.

Italian Editors Fight Duel

Curzio Suckert, editor of the Fascist paper *Conquista* and Pietro Nenni, director of the *Avanti* fought a duel in Rome, recently. Nenni was twice wounded in the tenth assault, but the duelists parted unreconciled. Suckert challenged Nenni after a newspaper controversy.

Obituary

NATHAN WELTMAN, 64, formerly connected with the *Pittsfield* (Mass.) *Journal,* died suddenly Nov. 21 in Pittsfield.

PATRICK H. LANNAN, 85, former publisher of the *Salt Lake City* (Utah) *Tribune,* died in Los Angeles, Nov. 6.

GEORGE MEANLEY, 4, grandson of E. W. Scripps, newspaper publisher, was killed at La Jolla, near San Diego, Cal., recently by an automobile truck.

EDGAR F. ENNIS, editor of the *Kiester* (Minn.) *Courier,* died Nov. 18, of heart failure.

THOMAS J. KENDRICK, 59, veteran Denver printer and long-time employe of the old *Denver Republican,* died Nov. 17, at his home in Denver.

MRS. TENA M. JORDAN, for the past two years dramatic critic of the *Portland* (Me.) *Press Herald,* died suddenly.

SOLOMON W. RAYMOND, for more than 30 years joint owner and publisher of the *Durango* (Col.) *Herald,* died recently in Denver, following a short illness. He retired six years ago.

EDWARD J. ECKHARDT, 53, New York advertising agent, died Nov. 22 at his home in Hollis, L. I. He was formerly on the staffs of the *New York World,* the *New York Journal,* and the *New Yorker Staats Herold.* At one time he was advertising manager for Ludwig-Baumann, New York furniture store.

A. A. SCHUTE, for the past three years editor and publisher of the *Gallatin* (Mo.) *Missouri-Democrat,* died at Minneapolis, Minn. Burial was made in Gallatin.

JOE BURNETT, 78, for many years editor of the *Paris* (Mo.) *Mercury,* and for half a century prominent in Missouri newspaper circles, died suddenly. He entered the newspaper business in 1860.

THOMAS P. MONTFORT, retired Missouri and Kansas newspaper man, died at his home in Kansas City. He founded the *Exelsior Springs* (Mo.) *Advocate* in 1880 and later the *Pittsburg* (Kan.) *Democrat,* now the *Pittsburg Daily Headlight.*

FRANCIS H. WITTRAM, former El Paso, Tex., newspaper man died recently and was buried at his former home in Ft. Scott., Kan.

ETHEL M. STEADMAN, for more than 20 years connected with the composition and proofreading departments of the *Boston* (Mass.) *Transcript,* died at her home in West Somerville, Mass., following an illness of about 8 weeks, Nov. 23.

Editors Guests of Stock Exchange

More than 200 editors from New York state, New Jersey and Connecticut and their wives were guests of the New York Stock Exchange, Monday Nov. 16, at the invitation of E. H. H. Simmons, president of the Exchange. Following the conference at which Mr. Simmons spoke, the guests watched operations on the floor of the Exchange. The editors also inspected the Federal Reserve Bank and the National City Bank. Luncheon was served at the Luncheon Club of the Exchange.

NEWS TEACHERS PLAN MEET

Two Journalism School Groups to Gather in New York

Plans are being completed in New York for the annual conventions to be held in that city Dec. 28-31 of the American Association of Teachers of Journalism and the Association of American Schools and Departments of Journalism. Sessions will be held at the Pulitzer School of Journalism, Columbia University.

Nelson Antrim Crawford, president of the former group, has announced various questions, which will be discussed. They include: What training would be given for other than newspaper work—for instance, magazine and book writing? What policies methods and habits of mind determine success in administration of a journalism department? What new and useful teaching methods have been devised? How many students best get the professional spirit in journalism?

Reports will be made by the association's committee on research and the special committee investigating salaries paid in various newspaper positions in the several parts of the country.

Charles Phillips Cooper, of the Pulitzer School, heads the schools group.

Tietsort Launching Florida Pap

Francis J. Tietsort, formerly of *New York American,* was to bring the first issue of his new paper, the *M* (Fla.) *Town Talk,* a weekly, on Tha giving Day.

OLDEST WISCONSIN AD FOU

Prairie du Chien Miller Offered I for Sale in 1818

The first Wisconsin business ma place an advertisement in a newspape Joseph Rolette, a miller of Prairi Chien, the historic city on the Missi river, and he made the venture in 18

It was on the first day of Dece that year that Mr. Rolette's baby a peared in the *St. Louis Inquirer.* I as follows:

"Three hundred barrels of fine flour, manufactured at the Prairi Chien water mill, can be yearly furn on the most reasonable terms by the scriber, Joseph Rolette, Prairie du C

The ancient ad was unearthed by G. Gregory, a veteran newspaper m Milwaukee while at work in the Wisc State Historical Library at Madison says that Prairie du Chien in 1818 population of about 300.

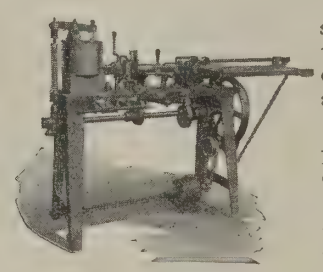
Ludlow Slug-Line Still Good after 1,000,000 Impressions

The following unsolicited letter from Mr. R. E. Fithian, Edito and General Manager of the Bridgeton (N.J.) Evening New gives some idea of the satisfaction he is receiving since hi feature heads and display advertisements are all being set th Ludlow way.

"NEXT week completes five months since we installe our first Ludlow. This afternoon our foreman brough to my attention a 94 em line of 48 Caslon which, with today' run, passes the 1,000,000 impression mark and as you wil observe, is good for considerable duty yet if we decide to le it ride the limit before renewing the line.

"When we installed this Ludlow, we had been studying numerous other kinds of machines. We have been consistently complimented upon the marked cleanliness of our advertising pages and the make-up which Ludlow slug-lines make possible. In fact we are tickled to death with the Ludlow System."

Simple — Economical — Efficient



The Elrod Slug Caster

Now fully licensed by agreement under both Knight (Monotype) and Elrod paten

for Leads, Slugs and Plain Rules

The Elrod Slug Caster is a profitable investment in all bu the smallest composing rooms because—

It casts leads, slugs and plain rules of various point sizes in full lengt strips or cut to any lengths for less than the cost of distributing.

Practically automatic and extremel simple, it does not require constant a tendance of an expert operator or m chinist. It can be operated with minimu attention by almost anyone.

Changes from one size or kind product to another are made quickly an easily with no intricate adjustments.

Elrod material is solid and stands u under the most severe press and stere typing conditions.

LUDLOW QUALITY COMPOSITION

NEWSPAPERS IN PENNSYLVANIA ARE PRODUCERS

Pennsylvania is still commercially supreme and continues its leadership in individual wealth. As a merchandising territory it is of vast importance to the National advertiser because of its attractive variety of trade advantages.

Pennsylvania productions are enormous and it demands commodities in variety and volume. It is a potential, prosperous market.

Successful newspaper advertising campaigns have been carried through in Pennsylvania, campaigns are now in operation and others will follow. If your merchandise is manufactured to meet the demands in this territory, you can be assured of the utmost cooperation in territorial survey, merchandising and sales promotion by the daily newspapers that dominate the Keystone State.

The concentration of an intensive National advertising campaign will cultivate this territory and secure the cooperation of jobber, dealer and newspaper for permanent trade.

Don't pick your papers at random. The advertising rates and circulation figures that are submitted by the daily newspapers listed below assure you state wide service at a nominal cost.

HOW LARGEST LIBRARY FILES NEWSPAPERS

Congressional Librarian Declares 810 Papers Preserved Because They Reflect Life of People, Investigation by F. B. Shutts

Methods employed in filing newspapers by the Congressional Library, Washington, the largest in the world, were investigated recently by Frank B. Shutts, publisher of the *Miami* (Fla.) *Herald.*

"I was interested to know what importance the librarians attached to newspapers that would lead them to preserve newspapers so carefully—all issues are kept at least a month," said Mr. Shutts.

"I was surprised to learn that 318 newspapers are bound and permanently preserved. I was told by the chief of the periodical division that they receive 810 newspapers—about 300,000 issues annually. Of these, 507 are American dailies and ninety-nine foreign, while 179 are weeklies published in this country. with twenty-five weekly editions from abroad.

"I got the librarian's viewpoint from H. H. B. Meyer, director of the legislative reference service, who told me that there is much information in newspapers not found in books or periodicals—local information not, as a rule, given in periodicals. I found they are particularly interested in interviews and details of opinions of prominent men which are given quite fully in newspapers as well as current business, political and social events.

"The legislative reference service of the library maintains a collection of newspaper clippings on current, social, political, economic, financial and historical questions for the use of committees and members of Congress. These clippings are pasted on standard sheets of manila paper and kept in regular letter files.

"Mr. Meyer, I think, sounded the keynote when he said, 'Librarians are committed to the preservation of files of newspapers as far as their resources permit, because newspapers reflect more fully the life of the people.'"

DAILY WINS SUIT

Truck Carrying Newsboys to Picnic Is on Business Wisconsin Court Rules

A newspaper truck transporting newsboys to a picnic is being used for business, it was stated in a ruling handed down by the Wisconsin supreme court in the case of the *Milwuakee* (Wis.) *Journal* against the General Accident Insurance Company.

The supreme court affirmed an order overruling in this case a demurrer of the insurance company. The Journal Company had a policy of insurance against damage or loss in connection with its trucks. Five newsboys were killed and one injured while in a Journal truck on the way from a picnic given newsies by the Journal. The insurance company denied liability, claiming the truck was used for pleasure, making it exempt from damages under a specific clause of the policy.

The court held that the truck and other automobiles used for the gathering were employed partly in the business of the Journal Company and that the insurance company was therefore liable.

GRAPHIC'S SHOCKING PICTURE

New York Tabloid Describes With Photographs Court Disrobing Scene

On Wednesday *New York Evening Graphic,* the Macfadden tabloid, appeared on the streets with the most shocking news-picture ever produced by New York journalism. With headline and caption it filled the space of the first page. It purported to depict the scene in the private chambers of Justice Morschauser, of the White Plains court, when Mrs. Leonard Kip Rhinelander partially disrobed to furnish evidence of her flesh coloring.

The Graphic represented the picture as a "composite photograph." The figure of a woman, her back turned and face concealed, stood in the foreground, naked except for a single piece of lingerie which dropped to the waist and extended half way to the knee. E. H. Gauvreau, managing editor of the Graphic, told an EDITOR & PUBLISHER reporter that the person who posed for this picture was a chorus girl employed for the occasion.

At desks in a semi-circle, facing the partially nude figure, were ranged the judge, lawyers and family of Mrs. Rhinelander. A Graphic photographer had snapped these portraits in the court room and they were rephotographed for size and pasted in true perspective on the "composite" layout. The desks and background were from a photograph made for the purpose.

The caption did not explain how the picture was made except that it was "carefully prepared from a description given by one of the witnesses to this amazing scene." Mr. Gauvreau said that the paper had broken all previous circulation records for the day.

According to other newspaper reports Mrs. Rhinelander wore a long coat which she lifted. The scene was enacted in private by order of the court.

The Mirror, Hearst morning tabloid, used as striking a method of illustrating the disrobing episode, but instead of a "composite" photograph, reproduced Gerome's famous painting of Phryne disrobing before a Greek jury.

Presbrey a Director

Frank Presbrey, president and treasurer of the Frank Presbrey Company, has been elected a director of the White Rock Mineral Springs Company.

Entertain Wizard

WHAT'S WHAT IN THE FEATURE FIELD

Col. Edward M. House to Break His Long Silence—McNaught Now Handling "Dubbville Foursome"—Al Posen Has a New Comic Strip

PURCHASE of the world rights for newspaper serial publication of "The Intimate Memoirs of Colonel House" was announced late last week by Harry Staton, manager of the New York Herald Tribune Syndicate, New York.

The sale, Mr. Staton said, carries with it the option to a later book by Col. House, covering a different period, which will not be written for two or three years.

The present memoirs, to be published in book form by Houghton Mifflin & Co., Boston, will be edited down from 300,000 words to about 150,000 words for newspaper publication, which will begin early in 1926.

"The Dubbville Foursome," a four-column Sunday golf comic has been taken over by the McNaught Syndicate, Inc., New York, effective, Dec. 6. This weekly art feature is drawn by A. W. Brewerton.

Henry M. Snevily returned this week to New York headquarters from a two weeks' business trip.

Al Posen, creator of "Them Days are Gone Forever," is now drawing a new daily two-column comic for United Features Syndicate, New York.

The D. P. Syndicate, has signed a co tract with Mayor John F. Hylan of N York for his memoirs of eight years the City Hall, to be ready in January a daily and weekly serial, just after he tires from the Mayoralty.

Two new comic strips entered the fi this week under the aegis of the Prem Syndicate, New York. They "Brothers-in-Law," drawn by Darr McClure, and "Frollicky Fables," Wesley Morse.

"Fifty Ways to Entertain at Bridg by Jean Walden, is announced this w as a new offering from the Ledger Syn cate, Philadelphia.

International Syndicate, Baltimo Md., has had prepared four full-p Christmas features and one full-page nual review of sport for the New Ye They are under the headings, "Christn Playthings Blend Art and Skill," Malcolm MacDonald; "Indians Ha Their Christmas Dolls," by Duncan Ca eron; "The Story of Jesus and the H Family in Nazareth," and "Famous P tures of the Christ Child." The sp feature is called "Champions of 1925."

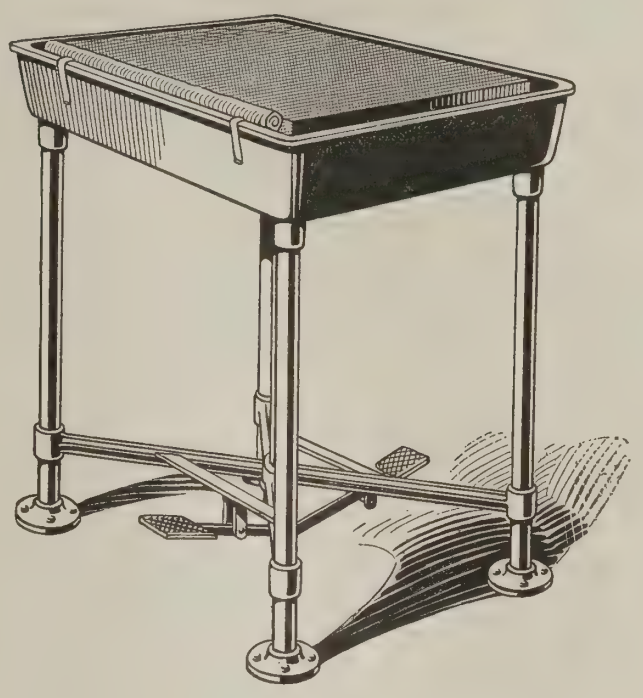
POWERS PERFECTION COOLER

Every Newspaper Photo Engraving Plant should have at least one

The Powers Perfection Cooler requires no water connection of any kind.



It can be moved at will by simply picking it up and placing it where it is wanted.

It has no mechanical parts to get out of order.

It applies cold water evenly and simultaneously to all parts of the plate—ON THE BACK OF THE PLATE only.

It cools the plate instantaneously to the exact temperature required and saves wiping, mopping and reheating.

The price of the Powers Perfection Cooler is $350

The *Powers Perfection Cooler* met with the instantaneous approval of both the workers and the owners wherever it was installed and tried. The men in the shops like it because it helps them in their work. They save time and effort, turn out more work and better work, and do it with very little physical labor. It is a clean, workmanlike way of doing what is otherwise a messy, sloppy task.

Proprietors like it because it saves gas, water, time and makeovers. These savings mean money and profits and that is what we all want. To satisfy yourself, go into your etching rooms and see what happens when the etcher tries to cool a large plate by dragging it over a roller wrapped in old towels and rags or a piece of burlap. Watch the plate buckle and then see him try to straighten it out. You know what that means in color work.

The use of the Powers Perfection Cooler does away with buckled and twisted plates, the splashing of water on the face of the plate and the constant work and worry connected with etching. A zinc etching is heated from 13 to 16 times by the etcher. That tells the story.

LETTERS FROM OUR READERS

Insurance Space Grafting

To Editor & Publisher: In a recent issue of your most valuable publication appeared a long letter from the "advertising manager," of the Hartford Fire Insurance Company, one of the largest units of the fire insurance monopoly, in which he took you to task for taking "a gentle crack at us."

What is needed in dealing with these people is not "a gentle crack," but a "mighty blast," as they are the worst space grafters in the country, through their annual fire prevention week, when frequently headed by the president of the United States and many state executives, they make one great onslaught on the press of the country. The primary purpose of this Fire Prevention week is to obtain a vast amount of publicity for their business, without the payment of a red cent, and they have been wonderfully successful.

Your correspondent admits as much, when in his communication he boasts of the "200 full page mats," which were sent out by his company. Publishers not wanting to look a gift horse in the mouth, were invited to accept these free mats, and send out their own advertising men to sell space to their local advertisers to help the Hartford, and other units of the fire insurance trust.

Personally I would rather donate them the space in the first place, than try to make our local advertisers pay for their advertising.

Edwin Rackaway,
Editor *Mt. Vernon Register-News.*

Why Not Advertise?

To Editor & Publisher: I have just read your editorial in which press agents are so vehemently referred to, and I must say, that you are right—but only partly so.

Don't you think yourself a bit hasty in condemning *all* publicity men just because some few—might have "pulled your leg" at one time or another?

Did you ever stop to think that press agents have been known to do good—as well as doing you good?

Let's think it over. During the World War, our citizens were called on again and again for money with which to support the army. Who told the people about the Liberty Loans? Advertising men? Yes, but publicity men stepped in and did their part, too.

An immense church is about to be erected, and a lot of money is needed to do the work. Advertising starts the ball rolling, but publicity places the story before thousands of people who would never have known of it.

Motion pictures. "The Ten Commandments"—perhaps one of the greatest factors for good ever put on a screen was just as good when it was shown in a projection room; but its work wasn't accomplished until the citizens of Gotham were told about it. If a press agent hadn't worked day and night on that one picture—"The Ten Commandments" would never have run for fifty-nine weeks on Broadway, and certainly, it would never have been the phenomenal success it turned out to be.

"The Fool"—another play which might come under the same category is an example of skillful publicity. I could keep this up for an indefinite length of time, but I hope you've gotten my point of view.

Before closing, I think it wise to state a fact—I am not a press agent!

James B. Zabin.
Famous Players-Lasky Corp.

Those Lost Checking Copies

To Editor & Publisher: "Where do the checking copies go," asks "A. D. Manager," in your issue of Nov. 7. His discussion of the subject was to the point and in not one instance was he wrong, neither did he exaggerate the situation, which, to say the least, is very aggravating.

In fact, I feel that much more could be said upon the subject. I do not feel it necessary to go over his ground, but the fact does remain, that a great many advertising agencies appear to lack a lot of system somewhere in their departments, evidently in the checking department, or perhaps the trouble is centered in the receiving and distribution of the mail.

For years we heard a great cry from agencies, and this was echoed through the trade journals, that newspapers were very lacking in their system of providing the agencies with checking copies. This complaint was hurled at the country press so consistently that the old practice of maintaining agencies on the mailing list was abolished, especially by the larger weeklies and the country dailies. The tear sheet system was adopted and apparently was a great help all around.

About four years ago, my publisher abolished the mailing list system and adopted the tear-sheet system. This country daily has about 50 foreign agencies for its clientele. At the end of each week, tear sheets showing the insertion of foreign advertisements are mailed to the respective agencies. They are carefully checked and mailed under first class postage, in a strong envelope, bearing the huge inscription on the front, "Advertising Checking Copies—Please Preserve." In the four years we have been mailing tear sheets in this manner, we have never recorded one instance of non-delivery of these envelopes by the postoffice department. But, sorry to say, at least a fourth of the agencies are heard from each month with the same old stereotyped message, "your bill held up for missing checking copies." And it is the same offenders each and every month, showing that something is "rotten in Denmark" with their systems.

It is mighty fine with some agencies—they attend to their business as though they meant business. Never a whimper is heard from them, and their checks are always correct to the cent. Then there the other offenders who never issue a correct check, and who take their discounts any old time they issue their checks. Purely unfair tactics. The writer can name a prominent advertising agency which never issues a correct check, and can beat the record for requesting checking copies. Then there is the other agency which does not pay until forced, and this applies to a large agency handling one of the large auto accounts.

What a blessing it would be if agencies had dependable service in their checking departments, and were as careful with their checking copy mail as they are to cut the publisher short and take unfair advantage of him in various ways.

"A. D. Manager" wrote a "mouthful," and in conclusion, this writer suggests that instead of the trade papers yelping at the publisher, they do a little yelping at the careless, unfair and non-co-operating agencies, and suggest to them the need of system and co-operation with the publishers. They would get more for their money and would create a kindlier feeling for their "free publicity," which, to a large degree, is now consigned to the waste basket.

A little organization and system in many of the advertising agencies would prove a Godsend to the publishers.

"Another A. D. Manager."

Editorial Ignorance

To Editor & Publisher: As one who has worked in both the "front office" and the mechanical departments of newspapers, I wish to endorse the statements made by Edward H. Edwards in his two articles on "How Editorial Laxity Nibbles Profits," which have appeared in Editor & Publisher. The ideas which are expressed in the articles are not in the least exaggerated, judging from my personal experience, and I believe a publication such as Editor & Publisher would do well to stress them by referring to them often, for I am afraid that the editorial offices will be slow in grasping the significance of them. Too often, I have found, the editorial office feels that those who work in the composing room "do not know anything," when, as a matter of fact, the printers are constantly making stories conform to the style of the paper, correcting grammatical errors, and even rewriting headlines so that they will fit.

I would hate to believe that young men and women, who have just left college, as many of the members of the staffs on some of our metropolitan papers have, can not write grammatically, yet a grade school pupil's compositions are written in much better English than a good portion of the copy which is turned in to the composing room. Of course, those in the editorial office have the excuse that they must work fast, and therefore do not have time to read copy carefully, but if they had worked in a composing room they would realize, as Mr. Edwards points out, that more time would be saved if the copy reader took the time to edit carefully, than if he left the work to the linotype operator, who would have the choice of letting an ungrammatical sentence "go through," or resetting two or three lines to make corrections. And a good printer invariably has enough pride in his work to refuse to let bad workmanship get by. He will either reset the sentence, or, as I have seen done, leave out a whole sentence becaus it lacks a verb, on the theory that "When in doubt, leave it out."

I once worked in a plant where there was a "production manager," whose duty was to increase the efficiency of the production of the paper. So far as I could see, he did not increase the efficiency of the composing room at all, although I understand he did complain about the payroll of that department. But I do not think he was a printer, for he apparently saved work for the clerks in the want ad department by attaching a lot of carbon paper to want ad copy, which probably increased the efficiency of the $30 a week clerks by decreasing the efficiency of the $50 a week men who had to handle all the extra paper in the composing room.

There were many ways in which the production of the composing room could have been increased, by securing more co-operation from other departments, but I think Mr. Edwards has pretty well covered them in his articles.

WASHINGTON PAPERS GAINED

October Linage Up Half Million Over Year Ago

The *New York Evening Post* Statistical Department this week announced a correction of linage figures for the newspapers of Washington, D. C., for October, 1925. The revised agate line record is as follows:

	1925	1924	Gain
Washington Star..	2,664,757	2,426,707	238,050
Washington Post..	1,006,128	848,400	157,728
Washington Times.	785,342	750,693	34,649 (Loss)
Washington Herald	474,594	490,307	15,713
Washington News.	218,888	129,431	89,457
Total	5,149,709	4,645,538 (Gain)	504,171

In the previous announcement, reproduced in Editor & Publisher last week, all classified linage had been omitted by mistake, it was said. Instead of showing a loss, the Washington newspapers had a sound gain in October.

Colorado Springs Launches Campaig

The Colorado Springs Chamber o Commerce, through its Climatic Condi tions Committee, has started a uniqu advertising campaign in metropolita newspapers reaching the states of Illinoi Indiana, Michigan, Ohio, Wisconsir Iowa, Kansas and Missouri. It is di rected especially to sufferers from tuber culosis and features an ideal year-roun climate. The first advertisements wer 225 lines on 5 columns. The Chicag office of Albert Frank & Company, Ad vertising Agency, is handling this ac count.

New Chicago Radio Editor

O. N. Taylor, associate editor of *Radi Digest,* has assumed editorial managemen of the *Chicago Evening Post's* radio mag azine, succeeding D. D. Richards, who i leaving the newspaper field to becom assistant director of the Sears, Roebuc & Co. broadcasting station WLS.

CLASSIFIED AND TO THE POINT

That is why the busy publisher likes the Classified page. That is why every Manufacturer with either Equipment or Supplies to sell to the Newspaper should carry on the Classified page an announcement of his product and where to get it. Under proper classification and stating vital facts only the Classified advertisement does its work. It conveys to the busy reader the information he wants without waste of time or effort.

The Classified page can also meet the demands of Syndicates and Services for quick contact with clientele and prospects.

And as a meeting place for the man who wants a job and the man who wants help, the Classified page has a record that substantiates its claim to successful service.

DAILY'S FULL PAGE CAMPAIGN CHECKED INDIANAPOLIS REAL ESTATE SLUMP

By WILLIAM H. PICKETT
Classified Manager, Indianapolis News

THERE is no use trying to evade or equivocate, real estate was "off" in Indianapolis during July, August and September. The real estate fraternity was in the doldrums. Whatever the causes may have been—excessive Florida speculation, too high prices, too long and too many vacations, the excess building activity in rental properties that had considerably reduced rents—the fact was inescapable: real estate was "off."

In spite of increased selling efforts the volume of advertising in our real estate columns was showing a steady loss, both in actual lines and in number of offerings. Our linage in relation to the other papers was constant, so it was evident that the cause lay outside of our own organization and with the general condition of the real estate business.

We determined to run a promotion campaign of large display copy to advance the interests of our classified department, but, more than that, to create a market in Indianapolis for Indianapolis real estate. It seemed a task almost impossible of accomplishment. To transform a dull market into a brisk one, to turn indifference into enthusiasm, to overcome unvoiced obstacles that even the real estate men had been unable definitely to discover, was a job that might well dampen the ardor of even enthusiastic advocates of the power of display advertising.

Appreciating the magnitude of our objective, we prepared a campaign of six full pages, scheduled to run in two weeks, from Oct. 10 to 22, a page every other day.

Classified advertising occupied only a very minor position in the campaign, in fact four of the six pages had no displayed signature whatever. The real theme was to sell Indianapolis to Indianapolis, to sell the soundness of an investment in city real estate, to interest the speculative buyer in the certain future profits from Indianapolis real estate as indicated by the record of the past.

Six pages on alternate days is a big campaign, but the objective demanded it, and the copy was written with a broad, forceful sweep, worthy of the amount of space and the size of the schedule. We did not stop with the use of the space, we did as any other advertiser would have done with that amount of copy—we merchandised it intensively to the real estate profession. Complete sets of reprints were supplied them for display in their offices, giving us a second and third reading for the copy at the "point of purchase," tieing up each realtor with the campaign. Reprints were also displayed by banks and trusts companies, building and loan associations, building material dealers, and we even went so far as to display them in the paymasters' offices of Indianapolis industrial plants. This was done primarily for the effect on the real estate men who appreciated having the "buy a piece of Indianapolis" message put before the reader for the second time at the time when he had received his pay and thus felt more able to buy.

A week before the first advertisement appeared, classified salesmen called on every real estate dealer in the city with a portfolio of the campaign to tell him the full story of the advertising and the merchandising of it.

During the campaign our real estate classification showed an increase, directly traceable to the campaign, of 3,290 lines. This is not a large gain, but having transferred a losing classification over to the gaining side in two weeks is an achievement relatively larger than the mere gain in the lines indicates.

The biggest gain in linage will come in the next two months as an aftermath of the campaign. This is no mere hazarded prediction but it is a certainty because the real estate market is now sufficiently active to warrant extensive advertising by the real estate fraternity. The two objectives of the campaign have already been achieved (1) a satisfactory increase in linage has immediately resulted and (2) the stability of the real estate market has been assured, indifference on the part of the buying public has been turned into an alert activity and receptivity that augurs well for the winter months to come.

GOVERNOR SETS TYPE

Ohio Executive Earns 40 Cents in Columbus Dispatch Plant

Opening of the new building of the *Columbus* (O.) *Dispatch* got into the daily papers Nov. 24, when Gov. Vic. Donahey crossed the street from his office and tried out his hand at typesetting again, his former occupation. Next Tuesday he will receive a check for 40 cents, representing pay for 20 minutes work in the composing room.

The Governor made a bee-line for the composing room and asked Foreman John P. Kuhns for a job. The Chief Executive still retains a card in the Typographical Union.

He was first put to work on a linotype machine. After setting several sticks he donned a printer's apron and was given a job making up one of the Dispatch pages. In all he put in 20 minutes.

"The pace is too fast," he said as he walked out. "When I was a printer we worked much slower."

Foote & Morgan Has Priess Radio

The Foote & Morgan, Inc., advertising agency, New York, is placing the account of the Priess Radio Corporation, New York, not the Ferry-Hanley Advertising Company, New York, as reported in last week's EDITOR & PUBLISHER.

Mexican Editor Sentenced

A Texas jury last week assessed a penalty of 30 days in jail upon the editor of a paper in Mexico on a charge of criminally libeling a resident on the Texas side of the border. C. Learte Sanisteban, editor of *La Democracia*, Nuevo Laredo, Mex., was arrested when he crossed the international bridge to Laredo, Tex., after publishing in his paper, which was circulated in the Texas city, an article alleged to have libeled P. M. Alexander, Laredo bank president.

UNDER FIRE !

John O'Brien at the Morocco front

When French troops were bombarding Riffian tribesmen in Morocco, one of the few American correspondents at the front was John O'Brien, staff correspondent of the United Press and United News.

Always a restless trouble-seeker O'Brien this week welcomed the assignment from New York headquarters, to speed to Damascus, and the Syrian front.

O'Brien makes his home office the U. P. Paris bureau, but is seldom there. He is a roving correspondent, and likes new best when, he must write while under fire.

Furniture Store Takes 10 Pages

Ten solid pages of advertising were carried in the *Binghamton Press* by the Stickley-Brandt Furniture Company, Nov. 19, telling about a two-day $50,000 sale.

EXPANSION IN RETAIL BUSINESS IN New York State INDICATES A RECORD HOLIDAY TRADE

A record holiday trade in New York State is foreseen in the unusually satisfactory reports of business in retail stores. October retail business, as reflected in the reports of chain store organizations and department stores, was strikingly larger than in the same month of last year. November opened with business activities and indications favoring further expansion.

Other evidences of progress appear in the increasing operations at textile plants, in the betterment in mercantile collections, and in the reduced number of liabilities of failures, while such important barometers of commercial activities as bank clearings and freight car loadings continue to make exceptionally favorable comparisons. During the entire year business as a whole has made substantial gains and the upward trend of recent months has been the more gratifying because it has been of a conservative and healthy character.

New York offers ideal merchandising facilities and, with the exceedingly favorable trade conditions, no sales or advertising campaign is complete that does not include this steadily expanding market.

Shrewd national advertisers will use this list of New York newspapers

INCREASE OF PAVED ROADS AIDING NEWSPAPERS TO SERVE SUBSCRIBERS

Speedy Rural Delivery by Truck Has Added Farm Subscribers and Given Added Service to Advertisers—60,000 Buses Now Operating in U. S.

Following, in part, is the text of an address by H. Colin Campbell, advertising manager, Portland Cement Association, on "Highway Construction As Related To Newspaper Delivery Service" given before the Inland Daily Press Association Convention, Chicago, Oct. 14.

WITH practically 18,000,000 motor vehicles registered in this country, motor transportation naturally has assumed a position of importance.

Two things are basic to industrial and commercial prosperity—production and distribution. Distribution is synonymous with transportation. It doesn't do anyone any good to produce anything unless that thing can be placed within reach of somebody who wants it. Competition in all industry in this country is so intense today that speed is all-important. The automobile has annihilated distance for us in a way the railroads never did, and never can. They have to do their distributing where the rails lead. The automobile, the motor bus and the motor truck have greater flexibility since they may go where highways permit.

As molders of public opinion, newspapers occupy an enviable position. And as business organization, they likewise occupy the same position of selfish interest in local affairs that is occupied by the individual.

The experience of the *Indianapolis News* as a user of good roads from the standpoint of a business enterprise should be particularly interesting.

Early this year, John M. Schmid, circulation manager, called our attention to the important part which the highways in the vicinity of Indianapolis played in the circulation increase of his paper. Mr. Schmid's story was so interesting we asked him to tell it in his own way for the readers of our *Concrete Highway Magazine*. I am going to quote from Mr. Schmid's manuscript:

"Good roads are necessary, or this newspaper could not even attempt to serve its patrons in rural districts. They have opened a new field for the advertiser. For example, a city merchant advertises a sale for the following day. A rural subscriber has the same opoprtunity to read the advertisement as the city subscriber, and plans a trip to town early the next day to attend the sale. As travel on a paved highway is as convenient in January as in July the trip is easily and quickly made.

"The total circulation of the News in Marion County is approximately 85,000. About 9,000 copies are distributed in the country outside the city of Indianapolis. The News is an afternoon paper with its last edition going to press about 2:30 P. M. and both city and county deliveries are made before 6:00 P. M."

The remainder of Mr. Schmid's article is well summed up from the standpoint of interest to newspaper publishers by his concluding paragraph:

"Advertisers find favor in the plan as it tends to increase the radius of their trade. And the paved highways, most of which are concrete, make it convenient for customers from many miles around to get into the city quickly at any time."

Experience similar to Mr. Schmid's has been recorded by numbers of much smaller papers than his and located in parts of the country where on first thought you would not suspect that highways were so important to a newspaper.

One of the latest examples of this kind was brought to my attention recently by one of my fieldmen while making a trip through the Michigan peninsula. He called on the publisher of the *Iron Mountain* (Mich.) *News*, and among other things began to talk of the necessity for more improved highways in the Michigan peninsula.

The Iron Mountain News has a total circulation of approximately 6,500. Of this number about 1,350 copies are distributed in suburban towns within a radius of 20 miles. These towns are along what is known as the Iron Range.

When motor bus service was established between Iron Mountain and the Iron Range towns, the Iron Mountain News extended its circulation area to include these towns. This was impossible before the busses began operation because the only afternoon train leaving after the last edition was printed departed at 7:30 P. M., too late for evening delivery. With busses operating over good highways, the Iron Mountain News now leaves the publication office at 4:30 P. M. and is unloaded at various towns so that rural subscribers receive the paper on the date of publication at practically the same time it is delivered to city subscribers. By developing this suburban territory, the Iron Mountain News has been able to increase its circulation 22 per cent.

Advertising and business managers will testify that increased circulation of this kind make the paper of greater value to advertisers and likewise increases the advertising linage of the paper for quite obvious reasons.

There are other examples, but perhaps the two that follow will be sufficient to complete the picture.

Twenty-five thousand pounds of newspapers are delivered each month by the motor or bus line of Denver, Colo., to towns, villages and farms surrounding Denver.

Newspapers reach readers within 25 miles of Denver one hour after they have been printed; 54 miles from Denver two hours after printed; 70 miles from Denver three hours after printed.

The newspapers are carried on regular passenger coaches which run every two hours and serve farmers along the route. The three o'clock afternoon edition of Denver papers are delivered in Greeley, 54 miles away, at the same time they are placed on the doorsteps of Denver subscribers.

The Motor Transit Company of California operates 150 stages out of Los Angeles. During June, 1925, these stages carried 159,000 pounds of newspapers for delivery to various cities throughout southern California.

A "paper car" leaves Los Angeles at 1:00 A. M. for Bakersfield, arriving there at 6:00 A. M., so that Los Angeles newspapers can be laid on the breakfast table at Bakersfield and Taft. The last Southern Pacific train for San Joaquin Valley points leaves Los Angeles at 11:30 P. M., which is too early for the last edition of the Los Angeles newspapers. The stage leaving Los Angeles at 1:00 A. M. beats that train to Bakersfield by three hours and transfers consignments of newspapers to it for delivery to points farther south.

California has more than 4,000 miles of concrete roads and where there is a concrete road, there is an open traffic way for the motor bus or motor truck, as well as the automobile, 365 days a year.

The 60,000 busses now operating in the United States are the property of 31,000 separate corporations or individuals. The bus lines at present in this country travel regular routes of 200,000 miles. That is, there are established bus routes only 50,000 miles shorter than our present railway mileage. Some railroads are abandoning certain branch lines or are petitioning the Interstate Commerce Commission for permission to do so because they recognize that the railway has an inflexibility that does not meet present traffic demands. There are 20 of the leading railroads in this country at the present time operating bus lines—probably because it pays. There are 200 electric railway lines in the country also operating bus lines and, no doubt, for the same reason. Busses carry to and from school each day in this country more than 450,000 children.

Those of you who are immediately responsible for the business or advertising departments of your paper have no doubt connected some of my remarks with advertising possibilities. Do not the few figures which I have given you, indicate that your publication has a circulation possibility to a certain extent unknown to you, and if that is true, is it not also true that by getting that circulation, which means a larger audience, you can make your paper more valuable to its advertisers, more valuable therefore to yourself, and likewise more valuable to its readers? It seems to me that these are simple business facts.

The Portland Cement Association is a service organization, having nothing to do with the commercial side of the cement business, and therefore is not interested in the business affairs of its membership. Although our work is almost enti educational, it is nevertheless admitt for the purpose of increasing the busi of our members.

We are in a position to give an interested the last word as to what may expect from any proposed use concrete. Sometimes, and not in quently, we may have to tell an intere person that even concrete will not do w he hopes.

We maintain a Laboratory in coop tion with Lewis Institute here in Chic where a staff of 40 scientists is consta engaged in studying the behaviour possibilities of concrete.

The construction industry in its br est sense is one of the most far reach

ilustries as viewed from the benefits hich it spreads. $6,000,000,000 worth of nstruction means that a good deal of oney is put and kept in circulation. If e construction industry is enjoying reas-cable activity, the whole nation is shar-ig in some measure in its prosperity.

J look at a newspaper as simply a siness enterprise. It is one man's idea how to make a living. A newspaper blisher says: "I believe I can make a good living in this town by publishing paper here." He has a right to think a town in that way. First, it is noth-ig but a business proposition. To suc-ed, a newspaper, like any other business erprise, must make money. And to sceed, any business soon finds there is a mutual interdependence or obligation derlying success. You have to help sneone in order to succeed. This fact i obvious and it seems almost foolish t mention it, but simple things are fre-ently lost sight of.

You go into a community as a news-per publisher, unasked, like any other biness that comes to town—a shoe store example. As a newspaper, the busi-s success you enjoy depends upon how yi contribute to the success of you com-nity. It is characteristic of newspapers t be boosters—characteristic of most wspapers. There are a few who think tlt the community owes them a living. Fortunately, there are only a few. You hve to boost your community to get oney out of it. You have to help make yur community a larger one to get more culation for your paper. To make your community larger, you have to make it bter, more attractive, so that more p ple will want to come there and live, al like you, wrest a living from the pce. When you have done these things, y have increased your circulation. For mre people buy more papers; more pple read advertising; more people call oyour business men—your advertisers—a purchase their wares. Better paved stets, better schools, better homes, better sitary conveniences make your commun-it a better place to live. So if you are alays behind these things, you benefit directly and most surely from every such mvement.

n soliciting advertising, newspapers lay gat stress upon the fact that advertising is news" and that the advertiser should bi space to tell his news. That is a local viewpoint. We are buying space in5,200 newspapers at this time to tell on news. As nearly as I can find out, ony three or four other national adver-tirs have ever used as many newspapers inone year as we have used each year fc several years past.

often wonder what you mean some-tijes by the term "free publicity," which yt so frequently use. I have just re-mded you that nothing is free. You ca't give anything to anyone without ge ing something in return. And you cat discuss the news of the day without eraging in "free publicity" as you call it, or propaganda, if you please, that benefits someone, some thing or some case. You can't publish baseball "news" w out attracting people to the box-office of the grandstand. You can't tell abit someone having made a transcon-tinental motor trip without giving "free publicity" to automobiles. You can't talk of viation without directly helping some-on who may be at the present time en-gaed in financing an aeroplane factory. It is utterly impossible to separate pro-paanda of some kind or in some form from "news." Because advertising is news, news itself must necessarily partake something of advertising.

The great amount of material which we mail to publishers is by way of information. We are willing to abide by their judgment as to whether any of the information is of use. We feel we have a right to take exception to published statements that are contrary to the facts, when we have gone to the trouble of trying to place before those who take the responsibility of directing public opinion, the facts as we know them.

It has been our experience that many publishers pay no attention to certain classes of advertising in their publications. We are solicited each week by some newspaper representative from a paper which has been carrying our advertising over periods ranging from several months to several years, who does not seem to be aware of that fact. Such experiences are at least somewhat discouraging. Nevertheless, we have found that our advertising is read by many and it is producing results. If publishers themselves would make it a practice to read it more often, results would be in larger measure.

INTRODUCING THE NEW A. N. A. CHIEF

"A FRIEND of newspaper men and newspapers" is what is said of Edward T. Hall, advertising manager and vice-president of the Ralston Purina Company, St. Louis, elected this week president of the Association of National Advertisers. Mr. Hall invests $500,000 annually in advertising, is an extensive user of newspaper space, and is, he reported, rapidly increasing the appropriation for this medium. Mr. Hall said he liked "to get his feet under the same table" with newspaper publishers.

"I don't want free puffs in newspapers," he said to EDITOR & PUBLISHER in an interview following his election in Washington. "I do not believe it is good advertising.

"I do not believe that if the big buyers of space will get their feet under the same table with the newspaper advertising directors, that most advertising problems can be easily solved."

Mr. Hall said he liked to use newspapers that were showing a healthy growth in circulation and that he was absolutely opposed to some of "the high pressure circulation promotion stunts employed by some newspapers."

Asked his view regarding the merchandising services, offered by some newspapers, he replied:

"Newspaper merchandising departments should not give away the world with a fence around it, but should be willing to adapt their plans within reason to the requirements of an advertiser's business. I have been delighted to see that most newspapers the country over are willing to do this.

"I think the next big advance in merchandising service work by newspapers will be to cut out the unnecessary frills and spend what funds are justifiable along lines calculated definitely to move goods from dealers' shelves."

Mr. Hall graduated from Andover and then Amherst College, in 1907. His first work was in the circulation department of the Curtis Publishing Company, Philadelphia. He remained with this concern three years, during which time he was promoted to head of the subscription agents department, where he worked among the Saturday Evening Post carrier boys.

Next he went to St. Louis as promotion manager of the Ralston Purina Company. In 1918 he was made a member of the executive committee and shortly afterwards was appointed secretary. Two years ago he was promoted to vice-president of the company, retaining control, however, of the advertising activities.

With Theodore Roosevelt, he believes that every man should do something for the business in which he is engaged. Thus, in addition to his activities in the A. N. A., he has been president of the Advertising Club of St. Louis, a director of his local Better Business Bureau and very active generally in national Vigilance work. He has also been a member of the board of governors of the Direct Mail Advertisers Association, and last year was vice-president of the A. N. A.

His hobby, he said, was working with young boys, and he is chairman of a committee in St. Louis, which is promoting the building of a new Y. M. C. A. building. He also plays the cello and is very fond of painting.

Dr. Clay MacCauley

Dr. Clay MacCauley, vice-president of the International Press Association of Japan, and a cousin of Miss Lena MacCauley art editor of the *Chicago Evening Post*, died Nov. 15 at his home in Berkeley, Cal.

Springfield, O. Wisely Selects Imperial

THE Springfield, Ohio, Daily News and Daily Sun put Springfield on the Imperial Plus Plan Map.

We can't help but feel that the publishers of these papers showed an unusual amount of discrimination when they selected to care for their type metal, a concern whose entire efforts were confined to making and serving just one product—Type Metal.

Imperial's efforts, all being directed in one channel, enable us to give, through the Plus Plan, a metal and a service without a peer. To the publisher the Plus Plan means a constantly efficient metal with many years of additional working life.

Metal Wisdom

We think you will agree that the publisher who places the care of his metal into the hands of exclusively type metal specialists will reap a reward in service and saving. Have you read our Plus Plan?

AUTO MAKERS PLAN 1926 AD SPLURGES WITH PROSPEROUS YEAR ENDING

Tour Through Motor Territory Finds Everyone Optimistic—Abundant Page Copy Will Precede and Follow January Show

CHICAGO, Nov. 25.—Automobile manufacturers have had such a good year that they are now loosing purse strings for 1926 advertising. A tour through the motor territory finds everyone feeling very optimistic for next year. If one goes to Detroit, for example, he will find the advertising men very busy with plans for the annual shows which open at New York in January.

For New York this year the plans call for a number of full pages. There will be more of them than ever. The problem of the papers and the special representatives will be in placing them. Already the advertising men at factories and agencies are asking just what can be done on position for their copy, and they emphasize that they are going to start with full pages and may duplicate some of these during the week.

During this year the factories have done a great business. The orders have been coming in unceasingly from all over the country, with many sections looming up that never had looked to be at all possible for more than a few sales. Florida is an example. Factories have been shipping cars there by the hundreds when in past years they counted them by the half dozen. Dealers have had to get warehouses in Georgia to accept shipments because of the embargo against Florida. Agencies that in the past ranked low have jumped distributors in big cities who always were among the first 10. Other cars that never got a foothold in Florida are now well represented. A Miami paper on the desk of an executive in Cleveland carried a full page advertisement by a Ford dealer showing a business running into seven figures in eight months and telling of a new salesroom and service station there. Other places, where booms have not hit, have emerged from the "never-ran" class into the main speedway now.

In the last few months a number of men in the industry who knew that the financial conditions of their companies would cause their stock to rise in value added to their holdings. And they felt that the general rise would carry along others. So they went into the market and made money. They were not gambling or speculating, but decided to go along with the upward tide. They knew when to step out of the boat.

With the big profits from both angles they are optimistic. Looking ahead, they see in the downward revision of taxes tangible reasons for anticipating a good year. Some there are who feel that there will be good times anyway for the first six months and they will have made enough to tide along for any slowing up toward Fall and Winter.

With new models coming along there will be a greater incentive to advertise than ever. The hard-headed men in the industry realize that it has been the advertising which helped put the big volume of sales over. And they intend to do better.

General Motors has been a liberal spender this year, and the new Pontiac Six to sell under $1,000 is going to be backed by heavy copy. This car fits in between Chevrolet and Oldsmobile, also Oakland, and these cars, good sellers this year, will not be allowed to slip back.

Ajax came on the market recently and by show time it will be widely represented.

Paige-Detroit has a new six that will sell at a lower price and its campaign will be larger than ever beginning with full pages the middle of December, followed by half pages with now and again a full page until next June.

Peerless is entering a new regime with a light six selling at $1,595, and for the first time in months it is using full pages. Its policies are shaped for more aggressive advertising, of which the present is an indication.

Stutz is working on an eight cylinder model and will have to let the world know all about it to sell the car. With F. E. Moskovics, Col. E. S. Gorrell and Bert Dingley all in the Stutz organization, as they were with Marmon until recently, more activity for Stutz is expected than it has had in recent years.

Hupmobile introduced a new six a few weeks ago. To enable the dealers to keep up their sales of eights, when they might drop off due to the arrival of a new model, the Hupp people launched a newspaper campaign all of which was paid for by the factory. It is going yet, full pages alternating with half pages.

There will be other new announcements coming along about show time that are bound to add to the incentive to splurge. And when one adds to this all the copy of the old line companies the total to start the year is going to be good. The expected elimination of a number of companies this year did not take place, and while a few dropped out of the picture, others came back, with tentative new ones getting a start.

DAVIS PUNCTURES WILSON DRIVE

Herald Tribune Reporter Uncovers Plans of Obscure Promoters

A smart bit of reporting by Forrest Davis, staff correspondent of the *New York Herald Tribune,* has shattered the $5,500,000 dream of two obscure Washington promoters.

The dream was a vague one of gothic architecture rising on the banks of the Potomac to memorialize Woodrow Wilson in a University. The dreamers were W. W. Pettey, a clerk in the Treasury Department and A. Russell Lowell, a newspaper man out of a job.

Several months ago the two engaged offices in the Transportation Building and began sending out letters to prominent persons, enlisting their support.

A lesson in "suckerism" resulted. More than 50 of the best known politicians and educators in the country signed up for the "Executive Committee" of the Memorial without investigating and soon circulars were being dumped into the mails bearing these "big" names.

The Wilson following in Washington and New York sensed something unstable about the Memorial but were powerless to do anything, fearing that any move on their part would be misinterpreted as unwillingness to aid any Wilson cause.

Then Davis got a lead on the inside workings of the Memorial. He came to Washington and spent several days getting a line on Lowell and Pettey and then broke a series of four articles showing the thinness of the promoters' plans.

Today the Memorial has virtually collapsed. A majority of the politicians, after reading Davis' story, withdrew their names. The Memorial's offices have been closed and the circular campaign cut short.

STUDENT DAILY SUED

City Official Asks $30,000 Libel Damages of Columbia Missourian

Charging publication on Nov. 12, of a false and malicious news story about the city water and light department, J. E. Hathman, city councilman, late yesterday filed in Boone County Circuit Court a libel suit for $30,000 against the Missourian Publishing Association, a corporation.

The defendant owns the *Columbia Missourian,* evening daily paper written and edited by students in the Missouri School of Journalism. Hathman has supervision over the water and light department.

Hathman particularly stressed this paragraph: "No invoices are filed in the records of the water and light department to cover the expenditure of $1,534.22 of the $7,726.56 not yet approved by the council. Of this amount not proved by the council a check for was paid to J. E. Hathman and one $403.20 to Ira L. Davis."

Hathman alleges that Nov. 13, the Missourian "renewed and reiterated" statement. He claims $15,000 actual ages and $15,000 punitive damages, sides the cost of prosecution.

The date for the trial will be set a December docket.

C. H. Armstrong Joins Printing

C. H. Armstrong has resigned as iness manager of the *Chicago Journ Commerce* and will become a partn the Gentry Printing Company. Suc ing him on the paper is Ellis Sibley of W. G. Sibley, who writes the Jour highway column.

WHAT THEY ARE SAYING

YOUTH DICTATING BUYING TODAY

"TEN years ago the young woman came into a store accompanied by her mother. The latter would say to the clerk: 'My daughter wants this r that.' But the mother did the selecting while the daughter merely looked n, not daring to make known her own desires. Today the young woman does er own buying and she also accompanies her mother. And now it is the aughter who says: 'Now mother, you don't want that. It isn't youthful nough.' And in the majority of cases mother buys what daughter prefers. he younger man and woman invariably pay more for the things they buy.)ad finds that $3 shirts are good enough for him but Jonathan, Jr., plunks own $10 for a silk shirt without batting an eye. Mother pays 85 cents for ockings, but Marjorie's trim ankles must be encased in silk hose at $3 a pair." —Andrew L. Carmical, Promotion Manager, *Chicago Evening American.*

* * *

PENALIZING INDUSTRY

"WOULD you put a tax on mass production, penalizing a man or the industry which makes possible a superior product at a price no other ountry can meet in spite of its low wages and low living cost? Certainly not, ut our government is doing that very thing today in placing a special postal ax on advertising."—Merle Thorpe, Editor, *The Nation's Business.*

* * *

THE PATH TO BROADWAY

"WERE I required to chart a course for a newly fledged reporter with his eye on a Broadway assignment as the ultimate Heaven of his existence, would present it as my opinion that he should at first establish himself in a maller community. I think that an ideal place to begin would be on a daily ewspaper in a town of from 20,000 to 50,000 people. A year or two in uch an environment would bring the ambitious acolyte into contact with almost very fundamental phase of newspaper publishing."—Frederick B. Edwards, f *New York Herald Tribune* staff.

WEEK'S AD TIPS

Agricultural Advertisers' Service, 76 West lonroe street, Chicago. Now handling the ac- iunts of John P. Gasson, Brookfield Poultry arm and Hatchery, Versailles, Ohio, and the ardner Nursery Company, Osage, Iowa.

Vanderhoof & Company, 167 E. Ontario street, Chicago. Handling account of the Kewanee Private Utilities Company, Kewanee, Illinois.

N. C. NEWSPAPER INSTITUTE

University and Press Association Join in Planning Discussional Meet

CHAPEL HILL, N. C., Nov. 25.—A Newspaper Institute will be held here Jan. 13-15, 1926, under the joint direction of the North Carolina Press Association and the University of North Carolina. The Press Association, through its executive committee, has set the problems and the University has undertaken to supply experts to discuss them. The Institute will be open to any member of the Association on payment of a nominal registration fee, but the bulk of the expense will come from the treasury of the Association and from the University.

Five problems affecting all newspapers have been selected for study during the two-day session, and in addition a place will be reserved on the program for the discussion of questions peculiar to country weeklies.

The five scheduled general problems are, (1) free publicity, including propaganda of all sorts, (2) professional ethics, (3) editorial policy, (4) business policy, and (5) the law of the press.

The treatment of each problem will include at least one lecture and a round-table discussion. Paul Patterson, president of the A. S. Abell Company, publisher of the *Baltimore Sun,* will talk on business policy from the practical side.

E. E. Peacock, professor of accounting in the University School of Commerce, will discuss the theory of accounting. The law of the press will be discussed by a professor from the law school.

ADVERTISE IN

Indiana

The Business is There

Because it has unequalled trade advantages, great wealth in agriculture and live stock, manufacturing that includes practically all standard products and daily newspapers of dominating influence, Indiana offers a sales promotion territory that must not be neglected by the National Advertiser.

Transportation facilities are ideal, with 7,197 miles of steam railways, carrying immense tonnage, and over 2,000 miles of electric railroads.

Indiana farms are the best in the world. It is a big producer of corn. Cattle, horses, sheep and hogs are produced by the millions. Manufacturing products exceed agriculture and mining.

These diverse sources of prosperity combine to produce a purchasing power among an industrious people that are influenced by their daily newspapers.

Advertising in the Indiana newspapers will create local demand for your merchandise.

WOODBRIDGE SPEAKS AT 7TH DISTRICT MEET

Associated Ad Clubs Spending $750,000 Yearly for Truth in Advertising He Says at Oklahoma City

OKLAHOMA CITY, Nov. 24.—President C. King Woodbridge of the Associated Advertising Clubs of the World was guest of honor of the Seventh District convention of the Associated Clubs which closed here Tuesday night. In two addresses he discussed "Truth in Advertising" and "Problems and Results of Organized Advertising."

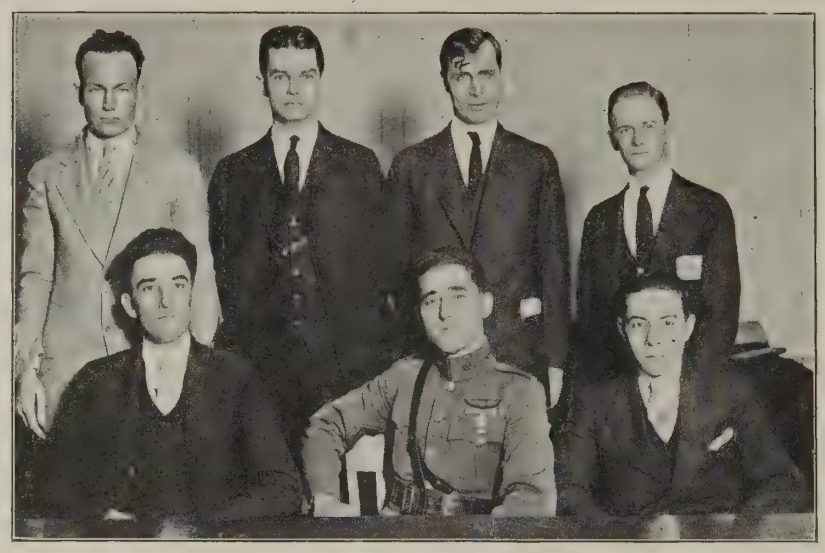
"This great world organization which I represent has two primary functions," he said. "One of them is the weeding out of statements in advertising that are misleading to the public.

"We are spending $750,000 annually to protect the American public from the fake stock promotor and concerns that use fraudulent, misleading and deceptive statements in their advertising.

"We are doing this through our central office in New York and in co-operation with 54 better business bureaus throughout the United States.

"The other primary function of this great organization is to make the dollar spent for advertising perform the maximum of service for both the advertiser and the consumer who busy the product advertised."

Other speakers were James Andrews, president of the Oklahoma City Ad Club; J. A. McLeod, Pine Bluff, Ark.; Ed. Overholser, president and manager of the Oklahoma City Chamber of Commerce, R. Fullerton Place, St. Louis; Shelley Tracy, Southwestern Advertising Agency, Dallas; John Fields, Oklahoma City banker; Dr. C. S. Duncan, Washington; K. E. Kilby and Robert H. Timmons, Wichita, Kan.; Arthur Hallaman, University of Oklahoma School of Journalism; R. D. McManus, Chicago; Carl Williams, editor of the *Oklahoma Farmer-Stockman* and George Ade Davis, Oklahoma City.



Arthur O. Fuller, of Muskogee, Oklahoma, was elected chairman.

Letters That Speak For Themselves

The Register-Gazette
ROCKFORD, ILL.

The Advertising Checking Bureau, Inc.,
15-19 East 26th Street,
New York City, N. Y.

Gentlemen:

We have been subscribers to your service almost since its inception, and we have never for a moment regretted our inclusion in your list of patrons. We have, through your service, relieved ourselves not only of a considerable amount of confusion and detailed work, but we have given our national advertisers and the advertising agencies a more regular and prompt proof of service, and because of this we find that our national advertising bills are paid more promptly.

Yours very truly,
THE REGISTER-GAZETTE CO.,
Elliott S. Bartlett, Bus. Mgr.

Detroit

OHIO'S GREATEST HOME DAILY

Our Own World of Letters

By JAMES MELVIN LEE

THE first issue of *Art & Publicity* edited by Goffrey Holme has made its bow to the public. Its editor hopes to make the publication an annual event. It has certainly made a good start.

The first volume opens with a resumé of the growth and development of advertising. The old advertisements reproduced by way of illustration will doubtless make the expert smile but they show the tremendous advance that has been made—especially in recent years.

It is the purpose of Art and Publicity to cover every field of advertising media including the container for goods manufactured. The editor invites the submission of material and requests that the name and address of the following be given at the same time: the advertiser, the designer, the advertising agent, and the printer.

Specimens should be addressed to the Editor of Art and Publicity, 44 Leicester Square, London, England. It should be noted, however, that he should receive nothing of which the sender is unable himself to authorize reproduction.

* * *

THE Committee on Economics of the National Advertising Commission of the Associated Advertising Clubs of the World has compiled a booklet "Facts Worth Knowing About Advertising Mediums." In very compact form it sets forth the advantages of almost every advertising medium.

The first section is devoted to daily and weekly newspapers. Emphasis is laid upon the fact that the inherent strength of newspaper advertising may be found in its exceptional flexibility. The advantages of newspaper advertising are listed under five main heads: Relatively small cost; Universal appeal; Timeliness; Frequency of publication; Localized circulation.

Other facts noted are the low cost of newspaper advertising, the ability to insert by telephone or by telegraph, and the quick-action results.

Other sections take up "General Magazines," "Business and Class Publications," "Agricultural Publications," "Direct Advertising," "Outdoor Advertising," "Car Cards," "Window Displays," "Theatre Programs," "Motion Pictures," "Specialties," "Radio," and "Reference Media."

The Committee on Economics responsible for the publication of the pamphlet consists of Frank L. Blanchard, of Henry L. Doherty & Co., New York; Homer J. Buckley of Buckley, Dement & Co., Chicago; C. H. Henderson, Union Trust Company, Cleveland; John Sullivan, New York; James O'Shaughnessey, American Association of Advertising Agencies, New York; and Julius Holl of the Lee Belt Company, Chicago.

* * *

WILLIAM A. DILL, assistant professor of journalism at the University of Kansas, has compiled a graphic check list of periodicals published from 1665 to 1790 in what was to become the United States. In this list may be found the names of newspapers and magazines of the century covering—so far as they can be ascertained—the date of establishment, the name of the editor, and the "thirty" of the paper. As far as possible newspapers related—either by continuing with the name or with the serial number of another—have been grouped together. Otherwise the plan of grouping is alphabetical by states and towns and chronologically within each town listed. The pamphlet bears the title "The First Century of American Newspapers" and may be obtained upon application to the Department of Journalism, University of Kansas, Lawrence, Kansas.

* * *

THE charity organization department of The Russell Sage Foundation of New York City has just published a new edition of "What Social Workers Should Know About Their Own Communities" by Margaret F. Byington. For all practical purposes this pamphlet might have been entitled "What Newspaper Men Should Know About Their Communities." It is filled to the brim and overflowing with practical suggestions for newspaper workers who would know their communities better.

THE story of the first newspaper in Iowa is given somewhat in detail in *The Iowa Journalist* for November. This pioneer paper *The Dubuque Visitor* first appeared on May 11, 1836 at the Dubuque Lead Mines, then a part of Wisconsin territory. A facsimile of the first issue and an illustration of the press on which the paper was printed are also given.

Frederick J. Lazell, the editor, opens the issue with "Wherein Some Histories are Found Wanting." He finds these histories wanting in the part played by newspapers in the organization and development of the American republic. Incidentally, he makes a strong case for the newspapers.

George H. Gallup follows with a discussion of "The Newspaper as Entertainer."

The Iowa Journalist is published by the School of Journalism at the University of Iowa, Iowa City.

* * *

THE advertising department of the *New York Times* has published a booklet entitled "The Educational Value of the New York Times." It is a compendium of excerpts from letters of prominent American educators. Charles W. Eliot, president emeritus of Harvard University, heads the list.

Preceding the excerpts is a foreword. This brief for a more intelligent perusal of newspapers asks the reader the pertinent question, "What do you get out of your newspaper?" and then answers it for him as follows:

The news of course.
But do you get out of it also—
a knowledge of current history,
a clear picture of the course of great events,
a multitude of suggestions for building up your information,
a stimulus to thought,
a method of arriving at sound judgments—
In short, does your newspaper contribute vitally to your education?

If it does not, you are getting only a small part of what the true newspaper can give you; for the time you spend on newspaper reading you are receiving only half a return.

This booklet is No. 21 of the series put out by the advertising department of the Times and may be obtained upon direct application to that department.

* * *

A SORT of reporters' Hall of Fame will be found in the article which O. O. McIntyre contributes to the current issue of *Hearst's International-Cosmopolitan* under the title "The Nose for News." Just why these reporters are entitled to their niches is given by Mr. McIntyre, but not until he has chatted for three or four paragraphs about the reporter and his job.

The newspaper reporter, according to Mr. McIntyre, strikes the highest note of excitement in the human scale and never *willingly* leaves his newspaper for a more lucrative position in another occupation.

The reason why so many skilled reporters seek other fields is because they are worth more than the newspapers pay them and when they find this fact out they quit romance for dollars—but always with regrets.

Mr. McIntyre insists that reporters have changed only outwardly; that they no longer liquor up between editions, that they are no longer out at elbows, but that inwardly, even though they may carry canes and wear spats, they are consumed by that same journalistic urge that propelled Stanley into the heart of Africa.

Among the men nominated by Mr. McIntyre for the Hall of Famous Reporters are Frank Ward O'Malley, Albert Payson Terhune, Jim Keeley, Irvin S. Cobb, Jersey Chamberlain—to distinguish him from the other Chamberlains that worked on the *New York Sun*, Arthur Brisbane, Will Irwin, John Vandercook, Richard Harding Davis, E. W. Howe, William Allen White, Alfred Segal, Thomas Millard, and Martin Green, called dean of Park Row reporters.

Possibly to emphasize the note struck in his opening paragraph Mr. McIntyre concludes his article with that Green said when given a dinner by his fellow workers, "I'd like to be starting out to-morrow on my first three-alarm fire."

* * *

THE official organ of Pi Delta Epsilon, the honorary collegiate journalism fraternity, is *The Epsilog*. It is edited by Robert Hooper McNeil of Colgate University, Hamilton, N. Y. The current issue contains a number of practical articles for those who are members of the editorial boards of undergraduate newspapers.

REPUDIATION

No European Government, except Soviet Russia, has yet repudiated any part of its indebtedness to the United States.

When the United States was a debtor nation, however, eight American States repudiated their debts to Europe.

These debts, as has recently been brought out in the House of Commons, were contracted for industrial purposes, and not for war purposes.

Are European nations entitled to credits for these repudiated debts in the forthcoming funding operations?

This interesting subject is set out in full detail in our report of May 22.

BUSINESS TICKLERS

"WINTER Sports News" was the heading of a special page in a Canadian daily recently. A general outline of what was planned in basketball, ice hockey, bowling, badminton and other winter sports was printed in the centre of the page. Advertising from sporting concerns which handled various makes of equipment was sufficient to make the effort worth while.—J. A. G., Vancouver.

"100 Ways to Make Money" is the title of a series of boxes on the front page of the *Calgary* (Canada) *Albertan* which each day shows one way to make money by using the classified section.—C. M. L.

Christmas club savings amount to thousands in your community each year. Why not prepare a special page featuring Christmas cuts and the total figure to be released from local banks this year.—D. O. V. *Frankford* (Ind.) *News.*

The banner of the "wet wash" or "family wash" keeps marching on. More and more people are sending their washing to the laundries. Get the laundries to come in on a page of ads devoted to the purpose of getting more family washing customers.—Frank H. Williams.

A good "reminder" stunt is to print some blotters using the wording, "We cannot write the little check that is necessary to renew your subscription for the coming year, but we'll provide the blotter." Mail these with expiration notices.—H. J. Whitacre, Lindsay, Neb.

Recently we published an "Information for the motorists" page. At the top of the page we used a cut of a speeding motor car and the words "Information for the motorist"—in the center we picked out some of the most common and important state laws for motorists with this heading "Do You Know These State Motor Laws"—on the outside and at bottom were ads from automobile dealers, tire dealers, automobile painters, automobile insurance agents, etc. The fact that we used the state motor laws in the center created unusual reader interest in this page, for so few people have a chance or rather know where to get them.—M. L. Wilson.

Right after Christmas the banks should welcome an opportunity to finance a series of cooperative advertisements offering prizes for letters telling how individuals or families saved up the money for a happy holiday season by starting early in the year with a savings account.—Fremont Kutnewsky.

A series of full pages with a strong general selling message on the radio set as an ideal family Christmas gift would be a good thing for radio dealers, who could have their advertisements grouped around the general display.—Fremont Kutnewsky.

Where does the large volume of classified advertising in the newspapers come from? It would be interesting to pick out a hundred average ads and find out how many of these advertisers had ever before used the classified columns, how many had picked out the paper because of the recommendations of friends who had previously used the classified columns and how many came to the paper because they liked its appearance. A story along this line would go far toward enhancing the prestige and standing of the paper's classified pages.—F. H. Williams.

YOUNGSTERS SET RECORD

Exonian Editors Issue "Extra" 13 Minutes After Game

Young newspaper men at school showed their metal recently when an "extra" of the *Exonian,* semi-weekly paper of the Phillips Exeter Academy, Exeter, N. H., was put on the streets 13 minutes after a tie game between that "prep" and its old rival Andover. Nearly 1,000 copies of the "extra" were sold at the regular 10 cent price.

Author of the football story was Geoffrey Parsons, Jr., who is editor-in-chief of the Exonian. Parsons' father is assistant editor of the *New York Herald Tribune.* Also on the staff of the school paper is John Darling, son of J. N. "Ding" Darling, star cartoonist of the New York Herald Tribune Syndicate.

A number of sons of newspaper men are preparing for college at Exeter, including Arthur G. Draper, son of Arthur S. Draper, foreign editor of the Herald Tribune; Ralph Pulitzer, Jr., son of the editor of the *New York World,* and Roy Howard, Jr., son of the president of the Scripps-Howard Newspapers.

HUNCHES

ONE DOLLAR WILL BEPAID FOR EACH "HUNCH" PUBLISHED

ONE of the most valuable features that newspaper can run is the "snapper" feature which introduces the competitive idea among readers. While some newspapers have stirred up interest by running "snapper" contests on who has the collar button or razor that has been in the longest continuous use, E. C. Pulliam, editor of the *Lebanon* (Ind.) *Reporter,* is conducting a contest to find the oldest newspaper in his county. The oldest paper so far discovered is a copy of the *Massachusetts Sun,* issued July 17, 1776, at Worcester, Mass.—Norman J. Radder, Bloomington, Indiana.

The Denver Post has inaugurated a feature which plays upon the intense interest manifest in religion at this time and is proving surpassingly popular. "If people won't go to church, let's take the church to the people," the Post urges and invites *ministers and laymen alike* to write short sermons, two of which—one from the clergy and one from laymen—are printed side by side each Sunday. These sermons are limited to 400 words each and because of the wallop that representatives from both sides of the pulpit manage to pack into this brief space, the feature, in three weeks time, has come to be widely followed.—M. S. M., Denver.

Each day a minister of one of the Seattle churches selects the text for the head of the editorial page of the *Seattle* (Wash.) *Post Intelligencer.* The name of the minister selecting the text, as well as his church is used. At the same time the name of the Minister who will pick the text for the following day is announced.—C. M. L.

Offer an award for the best New Year's resolution in 300 words and th use the winning resolution on New Yea day, or the day before and get th talking.—B. A. T., Springfield, O.

Department store detectives are alwa good sources of news as well as feature In the larger cities these stores ha woman detectives who watch especial for women shoplifters. Maybe there a many of these petty criminals in yo city and maybe they are so few that will make even a better story.— Smedal, Jr.

Thanksgiving and Christmas are t two big turkey eating days of the ye A Boston paper recently featured an a ticle on turkeys, where and how th were raised, killed, packed, shipped, e It also gave the reasons for the pric on different ones. The article was i teresting and timely.—C. E. Pellissie Boston.

Your National Advertising in
NEW ENGLAND
Is Local to Dealer and Consumer

The success of a National Advertising campaign is based on the cooperation of the jobbers and retailers in the territory covered, and the extent of their interest in your product depends entirely on the consumer demand that your advertising creates.

This consumer demand is assured through the greater cooperation of the newspapers, embracing as it does information on territorial facts such as marketing and transportation conditions, density and purchasing power of population and the actual requirements of the inhabitants.

Advertising is the most essential part of carefully planned merchandising, and there is no better medium for National Advertising—to bring the message of manufacturer directly to consumer—than the daily newspaper.

New England, industrious and prosperous, with a great variety of manufactured products and an enormous fishing industry, is an ideal tryout territory for distribution and sales promotion.

The one sure way to reach the New Englander is through his daily newspaper. More than two million people read the newspapers every day in New England.

These daily newspapers offer merchandising cooperation to National Advertisers

Carried 673 columns of advertising, the largest volume ever printed in a regular Sunday issue.

Three Records Broken in Eight Days . . .

IT requires no better indication of the trend of advertising in New York than the three records noted above.

That these "peaks" were recorded within eight days by three papers under one direction constitutes a record in advertising that establishes once and for all the virility, the productiveness and effectiveness of THE WORLD and THE EVENING WORLD in serving those advertisers facing the problem of covering the New York market.

These three papers have a combined circulation of 1,162,000 copies. About 80% of this, or approximately 900,000 copies, is distributed in greater New York, within immediate reach of the retail establishments of the city.

It is natural, therefore, that many of the most successful local merchants think *first* of THE WORLD and THE EVENING WORLD when the question of advertising arises.

The importance of this to the national advertiser is obvious. It is through these very local stores that he secures his best distribution and his greatest volume of sales.

The service represented by these papers constitutes one of the indispensable units of New York advertising. In other words, it is a business fallacy to depend upon covering New York *adequately* without using *World Service*.

As factors in effecting distribution in this market, THE WORLD and THE EVENING WORLD have long exerted an influence among retailers distinctively their own, as evidenced by the result of a survey which indicated that 65% of New York retailers in all lines of business were readers of one or both of these papers.

There are many equally as sound reasons for the marked trend of advertising toward the papers comprising THE WORLD GROUP.

The Newspaper of Today Is the Most Direct, Acceptable, Completely Covering, Readily Available, Economical and Resultful Advertising Medium Ever Known

Newspaper advertising now, more than ever, demonstrates its immediate availability, its instant adaptability, and its speedy responsiveness. You may talk to every nook and corner of this broad land tomorrow if you like, or you may select your spots and sections, a score, a hundred, a thousand cities and towns, as you desire, or as manufacturing and transportation conditions advise.

We are the National Advertising Representatives of Twenty Progressive Newspapers in that many fine cities of the United States.

Our several offices are the offices of each of those publications, where complete files and data of all kinds concerning both field and publication are in readiness for anyone interested. Our traveling representatives are thoroughly familiar with the publications and the fields in which they circulate.

We are at all times prepared—in conjunction with their respective service departments—to provide valuable and useful merchandise surveys and information reports that will assist the manufacturer of any commodity, either in opening up the territory, or in extending trade already under way.

We bring to the advertising agency an intimate, complete and down-to-the-minute knowledge of market conditions and possibilities and of publicity outlets in the fields we cover, that will enable it to act with the decision, speed and assurance so largely contributing to satisfactory and successful service to its clients.

Editor & Publisher's Space Buyers' Guide

Trading Conditions in 1257 American Cities and Towns Surveyed for the Sellers of Merchandise and Buyers of Advertising—An Exclusive Service for the Executives of Concerns Engaged in Interstate Selling And Advertising—Authentic Data Giving Reliable Basis for Trading

EDITOR & PUBLISHER herewith presents the second annual issue of the Space Buyers' Guide, an exclusive national survey of trade conditions in 1,257 cities and towns of the United States and Canada, where daily newspapers are published.

This book, which is dedicated to the modern science of advertising and selling, represents months of painstaking research by more than two thousand individuals. The idea has been to produce for the vast army engaged in the manufacture, distribution and advertising of commodities, a soundly authentic, complete listing, in the most convenient form, of the essential facts concerning trading areas.

The Space Buyers' Guide has taken its place as an indispensable factor in the routine operations of thousands of sales executives doing national or sectional business, and there is no important advertising agency which lacks the benefit of this reference service.

Our readers will observe that the listings in the pages which follow are in amplified form and that the survey is much more comprehensive and complete than in our initial effort, launched a year ago. The size of the Guide has increased from 266 to 292 pages. The additional survey factors have been found in response to suggestions and requests made during the year by merchandise distributors or advertising executives. However, EDITOR & PUBLISHER has amplified the list of subjects only when the items were of general interest. The additional listings are as follows:

Number of medical doctors, dentists and osteopaths; number of wired houses; facts regarding street car service; natural or artificial gas; alternating or direct current electric service; hard or soft water; chain stores, classified as follows: Total number of chain grocery stores, total number of chain meat markets, total number of chain cigar stores, total chain restaurants; the names of counties have been added to the geographical data; also distance by travel by hours to the nearest larger city by automobile, trolley or railroad; concerning climatic conditions, the surveys include the average temperature, average number of rainy days and the most pleasant months of the year.

Obviously these added facts are not only generally germane, but in instances will prove of the highest service value to our subscribers. For instance, we do not believe that there has ever before been collected from the cities and towns of the United States the facts shown in this Guide in regard to chain store development, one of the most amazing of the modern retail trends. Dealers in electric specialties will doubtless find valuable new data in the new classification concerning wiring and currents and although this classification is not as complete as we had hoped to make it, it nevertheless furnishes to the electric trade an up-to-date and authentic local survey upon which to base sales and advertising operations. We do not believe that there has ever been a compilation of information of public service data to compare in value with that showing in the columns of this issue.

All of the classifications of interest covered by the Space Buyers' Guide of last year have been brought up to date in this issue, corrected and double-checked for accuracy.

Again, it was necessary for EDITOR & PUBLISHER to canvass the larger cities by assigning to the task trained survey investigators. They secured their information from city officials, chambers of commerce, boards of trade, business men's associations, banks and trust companies, newspapers and all other available sources of information, and the surveys were written locally, all the facts being sifted and checked by experts.

EDITOR & PUBLISHER gratefully acknowledged the splendid co-operative assistance given to our representatives wherever they have appeared.

The bulk of the surveys in this issue were made, at the request of EDITOR & PUBLISHER and on its prepared forms, by the advertising staffs of local newspapers. It has been a work of time and patience and the results represent the fine art of accurate reporting. Our newspaper friends everywhere have diligently sought the facts and have promptly returned the questionnaires. These have been edited by a specially trained staff, and in instances where inaccuracy has been indicated the subject has been returned for review and possible correction.

To the newspaper men who have devoted themselves to the preparation of this contribution to scientific advertising EDITOR & PUBLISHER hereby offers profound thanks.

Myriad uses have been found during the year for the Space Buyers' Guide, some idea of the range of service being found in letters which are constantly coming to EDITOR & PUBLISHER, largely from national sales managers and advertising agencies handling national accounts.

It is obvious that no man, or organization of men, can carry in mind or through hap-hazard collection of data the facts concerning the town and city markets of the United States. An amazingly large volume of advertising and sales effort has heretofore been "blindly" conducted, or on general information and belief. EDITOR & PUBLISHER has, it is everywhere concede, built a stout bridge where one was badly needed in interstate trade.

Whereas it is impossible for a sales manager or an advertising expert to visualize the infinite promotion possibilities of the whole trade field for a commodity, through these pages he now may, with a very marked degree of certainty, find the lines at least resistance. The hazard is materially reduced. An electric instrument for the household that can be operated only by alternating current need not, for instance, be inappropriately promoted in towns that are possessed only of direct current. Again, a soap adapted to soft water may not be offered to a city where hard water alone is obtainable. There is an endless variety of special services that may be taken from this reference book, each individual to the user. Whether the book serves to capacity depends upon the imagination of the person using it. Here is a case in point:

Charles W. Hoyt Company, Inc., in a recent letter to EDITOR & PUBLISHER said:

> "In making up a list for one of our accounts, a toilet powder, we intended to use schedules only in cities having drug jobbers. Our rate services did not contain this information, but we did find it in your Space Buyers' Guide. Your book contains a great deal of valuable information."

How other national distributors or advertising agencies have made use of the Space Buyers' Guide is indicated from the following statements, selected at random, from hundreds of letters received by EDITOR & PUBLISHER during the year:

> "During the past eight months we have had occasion to refer to the Space Buyers' Guide a good deal and have found it very useful. We make a practise of studying our markets very closely and are always looking for definite information such as is found in this book. The section we use the most is the section entitled, 'Number of retail outlets for nationally advertised products' being especially concerned with the number of grocery and delicatessen stores. This information has proved very helpful in a number of cases. Keep up the good work.
>
> "Carnation Milk Products Company."

> "Your standardized survey is a wonderful present to the American advertiser. In twenty years of experience with publishers I have never met a finer and more helpful example of enterprise and we thank you heartily for it.
>
> "Federal Advertising Agency."

> "The Space Buyers' Guide will actually revolutionize the methods of business development as at present practised by hundreds of companies. Sales managers and other charged with the intensive development work will find in this Guide a compact service that absolutely costs hundreds of dollars to procure elsewhere. We recall paying about $200 recently for exactly the same report covering one state only. With your Guide it is not difficult to compile this information at a considerably reduced cost.
>
> "National Surety Company."

> "We find the Space Buyers' Guide a very quick and useful reference book and is used many, many times through the year.
>
> "Calkins & Holden."

> "The material contained in the Space Buyers' Guide is of inestimable value to an advertising agency or national advertiser. It is one of the best tools for the advertising fraternity that I have had the pleasure of receiving. It is a splendid illustration of the wonderful advance made in the development and organization of advertising information in the last few years.
>
> "Lyddon & Hanford Co."

> "We have examined your Space Buyers' Guide very carefully. It contains much data of practical value to us in service to our clients.
>
> "George Batten Co."

> "The Space Buyers' Guide strikes me as being a very valuable book for our sales and advertising departments as it appears to give a very accurate cross section of cities throughout the United States and Canada. The information contained between the covers of this book is very useful in determining the market possibilities in the different cities and aids us materially in establishing agencies in cities where we are not now represented.
>
> "The General Fireproofing Company."

The Space Buyers' Guide is as well a service to the newspaper industry, as it communicates to the trading world the essential facts concerning local trade conditions in all cities and towns where dailies are issued. The following pages in this reference book indicate to the space buyer the stupendous possibilities of the trading fields covered by the daily press. They speak eloquently of the power and the flexibility of the daily press as an advertising medium.

Complete Index of Contents of the Space Buyers' Guide See Pages 286, 287 and 288

ALABAMA Daily Newspaper Markets

ALBANY-DECATUR, ALABAMA

(Morgan County)

1920 Population, 12,404.

City and Suburban Estimate, 20,000.

Native Whites, 90%; Negroes, 9.4%; Foreign Born, 1.6%; Industrial Workers, 25%; English Reading, 98%; Families, 5,000.

Schools: Public Grade, 8; High, 3; Number of Pupils, 4,500.

Churches: Baptist, 5; Christian Science, 1; Christian, 2; Episcopal, 1; Hebrew, 1; Methodist, 5; Presbyterian, 4; Roman Catholic, 1; Miscellaneous, 5.

Banks: National, 3; State, 1; Total Resources, $9,500,000. Savings Bank Deposits Total, $1,500,000.

Theatres: Legitimate, 1; Moving Pictures, 5; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 7,000.

Location: On the south shore of the Tennessee River, served by the Southern, and L. & N. R. Rs. Tennessee River Line of ship traffic. Bus service to south and west to Muscle Shoals, south to Birmingham. River boats to Chattanooga, Paducah, Muscle Shoals cities. Middle point Chicago to Florida Highway. To nearest large city by railroad, 3 hours; by auto, 4½ hours.

Principal Industries: Silk dress goods, silk shirting, mattresses, pillows, brick, tile, staves, handing, casting, hosiery, cooking oils, box and basket cornice, ventilators, railway cars, wood products, fertilizer, tanning extract. Only cities in south with the silk manufacture, location of second largest plant of American Oak & Leather Co., 2,500 employed in railway shops.

Manufacturing Establishments: Leading firms: Asphalt Rock (Southern Rock Asphalt Co.), Louisville and Nashville R. R. shops, American Oak & Leather Co., Schwartzenbach-Huber (silk), Alabama Brick & Tile Co., Albany Broom Works, Southern Cotton Oil Co., Home Oil Co., Churchill Compress, Decatur Fertilizer Co., Cooper-Wells Hosiery plant, Decatur Brick Corporation, Decatur-Albany Furniture Mfg. Co., Y. & S. Piston Ring Mfg. Co. Total value of yearly output of factories estimated at $26,000,000.00.

Special Information: Location of cities makes largest distributing center in northern part of the state. Position relative to Muscle Shoals project makes cities one of most sought for locations for eastern manufacturers. Distributing point for agricultural section with annual output of $50,000,000. Large bridge now under construction to cost $500,000. Cotton crop predominant feature in agricultural figures. Principal marketing point for farm products in northern section of state.

Residential Features: Mostly one- and two-family houses. Limited section devoted to workingmen's tenements. Private homes predominate. Health and climate makes this one of the finest residential sections of the state. Frame houses in great number, although brick seems to be the coming material.

Retail Shopping Section: Extends from Fourth Avenue, South Albany, to Church Street, Decatur, a distance of 12 blocks. People come from south, 16 miles with the aid of valuable bus service, west and east, distance of six miles. Northern trade distance of seven miles.

Trading Area: Extends distance of 10 miles each way, with approximate population of 40,000.

Wholesale Houses: Groceries, 8; meats, 4; fruits, 2; hardware, 2; dry goods, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 7; commercial auto agencies, 3; automobile accessories, 16; automobile tire agencies, 12; bakers, 2; cigar stores and stands (including hotels), 24; confectioners (including hotel stands), 7; delicatessen, 3; dressmakers, 15; druggists, 11; dry goods, 32; department stores, 1; electrical supplies, 6; florists, 2; fruits, 35; furniture, 11; furriers, 2; garages (public), 9; grocers, 76 (chain, 3); hardware, 6; jewelry, 3; meat markets, 15; men's furnishing, 23; men's clothing, 4; merchant tailors, 2; milliners, 5; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 5; radio supplies, 4; restaurants (including hotels), 9; shoes, 2; sporting goods, 7; stationers, 11; women's apparel, 32 (5 exclusive); total, 37.

ANNISTON, ALABAMA

(Calhoun County)

1920 Population, 17,734.

City and Suburban Estimate, 25,000.

Native Whites, 66%; Negroes, 32%; Foreign Born, 2%; Industrial Workers, 33⅓%; English Reading, 100%; Families, 4.000.

Schools: Public Grade, 8; High, 1; Junior High, 1; Alabama Military Institute; Number of Pupils, 200 (Presbyterian), Barber Memorial Seminary (Col.), 150.

Churches: Baptist, 15; Christian Science, 1; Congregational, 1; Episcopal, 2; Hebrew, 1; Methodist, 17; Presbyterian, 6; Roman Catholic, 2; Miscellaneous, Salvation Army.

Banks: National, 3; State, 1; Total Resources, $8,583,867.00. Savings Bank Deposits Total, $1,797,752.71.

Theatres: Legitimate, 2; Moving Pictures, 4; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 4,000.

Location: Northeast Alabama in foothills of the Alleghenies, 56 miles ENE. of Birmingham, 104 west of Atlanta. Southern L. & N. and Seaboard Rys. Has 2 express and 2 telegraph companies. Southern Bell telephone. Through Pullman service to New York, Chicago, St. Louis, Kansas City, and Florida points. Water rates to Orient, Central and South America via Mobile Port and Panama Canal.

Principal Industries: Cast iron and pressure pipe, textiles, chemical products, iron and steel, cotton and corn. Principal farm products valued at $4,165,000 annually.

Manufacturing Establishments: 87. Leading firms, Federal Phosphorus Co., U. S. Cast Iron Pipe and Fdy. Co., Central Fdy. Co., Anniston Fdy. Co., and 10 other pipe plants. American Net and Twine Co., Anniston Mfg. Co., and 7 other textile plants. Kilby Car & Fdy. Co., Anniston Steel Co., using the electric process. Pipe output valued annually at $20,000,000. Total value of yearly output of factories estimated at about $35,000,000.

Special Information: Anniston is the home of Camp McClellan, where a garrison is maintained the year round and 10,000 young men of the R. O. T. C. and C. M. T. C. are trained every summer. The army payroll and other expenditures locally amount to about $2,250,000.

Residential Features: Principally one and two-family houses. Limited section devoted to workingmen's tenements. Private homes predominate. Sunset Heights, set in the foothills of the Blue Ridge, overlooking the Country Club and golf links, is one of the show places of the South. Homes in this section average $25,000.

Retail Shopping Section: Eight to Fifteenth on Noble St., with two blocks east and west on Tenth and Eleventh, and three blocks on West 15th St. This does not include Oxford, a town of 3,000 adjoining Anniston on the south, and Blue Mountain, a prosperous mill village on the north.

Trading Area: Twenty-five miles north, south, and east, and fifteen west. Splendid motor bus connections to Jacksonville, Piedmont, White Plains, Choccolocco, Talladega, and Gadsden. Good railway schedules to Heflin, Edwardsville and to Tallapoosa, Ga.

Wholesale Houses: Groceries, 7; Meats, 3; Fruits, 2; Hardware, 2; Dry Goods, 1; Miscellaneous Lines, 1 Paper.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial auto, agencies, 5; automobile accessories, 19; automobile tire agencies, 19; bakers, 3; cigar stores and stands (including hotels), 15; confectioners, (including hotel stands), 13; delicatessen, 6; dressmakers, 12; druggists, 13; dry goods, 3; department stores, 4; electrical supplies, 4; florists, 3; fruits, 4; furniture, 9; furriers, 1; garages (public), 8; grocers, 95; hardware, 6: jewelry, 7; meat markets, 15; men's furnishings, 7; men's clothing, 7; merchant tailors, 10; milliners, 4; opticians, 4; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 35; shoes, 7; sporting goods, 3; stationers, 5; women's apparel, 8.

BIRMINGHAM, ALA.

ALABAMA (Cont'd)

Birmingham (con't)

tar, benzol and all by-products of coal. Lumber manufacturing.

Manufacturing Establishments: 824. Varied products manufactured, 1,640. Leading firms, Tennessee Coal, Iron & Railroad Co., and the American Steel & Wire Co., subsidiaries of the United States Steel Corporation; Sloss-Sheffield Steel & Iron Co., Woodward Iron Co., Gulf States Steel Co., Republic Iron & Steel Co., Alabama By-Product Co., Pratt Consolidated Coal Co., De Bardeleben Coal Corp., American Cast Iron Pipe Co., Lehigh Portland Cement Co., Alabama Portland Cement Co., Atlas Portland Cement Co., Continental Gin Co., Hardie-Tynes Mfg. Co., Ingalls Iron Works, Virginia Bridge & Iron Co., The Barrett Co., American Radiator Co., Alabama Power Co., Grassell Chemical Co., Stockham Pipe & Fittings Co., and Kaul Lumber Co. Total value of yearly output of factories estimated at $600,000,000.

Special Information: Birmingham is the center of the industrial South and is referred to as the "Pittsburgh of the South." City is only 54 years old and is one of the largest cities for its age in the world. Phenomenal growth due to rapid expansion of coal, iron and steel business; unlimited supplies of coal and iron remain in hills surrounding Birmingham. Recent rapid growth of cement industry adds another basic industry to Birmingham.

Residential Features: Private residences prevail; very few two-family homes; best residential sections and one of the finest in South, located on Red Mountain, south of business district; majority of homes of bungalow type. On account of continued large increase in population many magnificent apartments have been constructed in the last two years.

Retail Shopping Section: Bounded by L. & N. R. R. tracks on south, Fifth avenue on north, six blocks; 19th street on west, and 22nd street on north, three blocks. These are boundaries of retail, department store section. Downtown retail section reaches from L. & N. tracks to Eighth avenue, 17th street to 26th street. Eight blocks by nine blocks.

Trading Area: Within radius of 52 miles, including such small cities as Anniston, Gadsden, Jasper, Carbon Hill, Sylacauga, Talladega, Tuscaloosa and Cullman.

Wholesale Houses: Groceries, 25; produce, 48; meats, 17; hardware, 4; dry goods, 17; electric, 7; drugs, 23; bottlers, 13; cigars and tobacco, 4; confections, 15; flour, feed and grain, 35; jewelers, 3; lumber, 37; shoes, 5; bakers, 8.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 35; commercial automobile agencies, 16; automobile accessories, 109; automobile tire agencies, 48; bakers, 47; cigar stores and stands (including hotels), 1,145 (chain, 17); confectioners (including hotels), 136; delicatessen, 18; dressmakers, 26; druggists, 188 (chain, 15); dry goods, 81; florists, 31; fruits, 138; furniture, 126; furriers, 4; garages (public), 74; grocers, 1,200 (chain, 235); hardware, 34; jewelry, 59; meat markets, 83 (chain, 3); men's furnishings, 35; men's clothing, 56; merchant tailors, 71; milliners, 14; opticians, 19; photographers, 24; pianos (and miscellaneous musical instruments), 15; radio supplies, 12; restaurants (including hotels), 5; shoes, 43; sporting goods, 5; stationers, 8; women's apparel, 20.

Miscellaneous Data: Average temperature, 63 degrees; average number of rainy days per twelve months, 43.02; doctors (medical), 318; (dentists, 117); (osteopaths, 6); number of wired houses, 40,221; street car service; gas, artificial; electric current, alternating and direct; water, hard and soft.

See announcement page 4

DOTHAN, ALA.

(Houston County)

1920 Population, 10,034.

City and Suburban Estimate, 18,000.

Native Whites, 60%; **Negroes,** 40%; **English Reading,** 100%.

Schools: Public Grade, 3; High, 1; Junior High, 2.

Churches: Baptist, 3; Christian Science, 1; Episcopal, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 1.

Banks: National, 3; State, 1.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), Municipal Opera House; Total number of seats, 2,000.

Location: Dothan is located in the extreme southeast corner of Alabama is on the Atlantic Coast Line; Atlanta and St. Andrews Bay and Central of Georgia R. Rs., connecting Dothan with all the larger cities of the South. The Atlanta & St. Andrews Bay Railroad furnishes us a direct route to the Gulf of Mexico, only 80 miles to the south. The nearest larger city is Montgomery, 4 hours distant by automobile and 4 hours by railroad.

Principal Industries: Agriculture, fertilizer, and lumber manufacturers; coffins and caskets, overall and mattress factories, peanut oil mills, cigar factories, cottonseed oil mills, sulphuric acid plant.

Manufacturing Establishments: Home Guano Co. (Red Fox), Grascilla Chemical Co., Dothan Coffin & Casket Co., Inc., Bama Cigar Co., Virginia-Carolina Chemical Co., Southern Cotton Oil Mill Co., Young-Sanders Oil Mill Co., Williams-Voris Lumber Co., Dothan Overall Factory, Dothan Mattress Factory, Dothan Oil Mill, Dothan Ice Cream Co., Houston Guano Co., Dothan Guano Co.

Special Information: In 1890 Dothan's population was 247; 1900, 3,275; 1910, 7,016; 1920, 10,034; 1925 (post office statement), 18,788. Dothan is in the center of the wiregrass region of south Alabama, and has a trade territory of 200,000 derived from a number of small towns within a radius of 80 miles. It is one of the largest distributing centers in this section, reaching southeast Alabama, southwest Georgia and west Florida.

Residential Features: 1,997 White residences, approximately 600 Negro dwellings, 6 apartment houses.

Retail Shopping Section: Foster Street, 3 blocks; Main Street, 4 blocks; St. Andrews Street, 5 blocks; Crawford Street, 2 blocks; Troy Street, 3 blocks; College Street, 2 blocks; Powell Street, 3 blocks; Oates Street, 2 blocks.

Trading Area: North, as far as Abbeville, Ala., and Ft. Gaines, Ga., 35 miles; west as far as Florala, Ala., 60 miles; south as far as Panama City, Fla., 80 miles; east as far as Bainbridge, Ga., 60 miles. Towns within a radius of 50 miles are: Abbeyville, Ft. Gaines, Headland, Newville, Ozark, Brundidge, Newton, Pinckard, Midland City, Slocomb, Hartford, Geneva, Webb, Samson, Taylor, Ashford, Cowarts, Malvern, Madrid, Alaga, Cottonwood, Ala.; Cottondale, Fla.; Campbellton, Fla.; Blakely, Ga.; Donaldsonville, Ga.; and other small towns.

Wholesale Houses: Groceries, 6; Meats, 1; Fruits, 3; Hardware, 2; Dry Goods, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto agencies, 2; automobile accessories, 15; automobile tire agencies, 7; bakers, 2; total cigar stores and stands (including hotels, 15; confectioners (including hotel stands), 8; dressmakers, 10; druggists, 7; dry goods, 10; department stores, 7; electrical supplies, 2; florists, 3; fruits, 3; furniture, 5; garages (public), 15; total grocers, 66 (chain, 2); hardware, 4; jewelry, 3; meat markets, 14; men's furnishings, 4; men's clothing, 9; merchant tailors, 5; milliners, 6; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 4; shoes, 17; sporting goods, 2; stationers, 4; women's apparel, 8.

FLORENCE, ALABAMA

(Lauderdale County)

1920 Population, 10,529.

City and Suburban Estimate, 1925 School Census, 19,300.

Native Whites, 75%; **Negroes,** 22%; **Foreign Born,** 3%; **Industrial Workers,** 20%; **English Reading,** 98%; **Families,** 3,860 approx.

Schools: Public Grade, 5; High, 1; Junior High, 2; Parochial, 1; Normal Training, 3; Negro Graded, 1; Negro High, 1. Number of Pupils, 4,910.

Churches: Baptist, 3; Christian Science, 1; Congregational, 2; Episcopal, 1; Hebrew, 1; Christian, 2; Nazarene, 1; Methodist, 4; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 1.

Banks: National, 1; State, 3; Total Resources, $4,000,000; Savings Bank Deposits Total $1,000,000, aggregate (approx.).

Theatres: Legitimate, 1; Moving Pictures and Vaudeville, 1 (combination); Motion Pictures, 1; White, 1; Colored, 1; Miscellaneous (Auditoriums, etc.), 4.

Location: On Louisville & Nashville R. R., 122 miles south of Nashville, Tenn., on the Tennessee River, at the foot of the famous Muscle Shoals. Wilson Dam, greatest hydro-electric development in America, is just outside of corporate limits of the city. To nearest city, by railroad, 5 hours; by auto, 6 hours.

Principal Industries: Iron furnaces, wagon building plant, cotton mills, fertilizer plant, stove foundry, asphalt producing plant, cotton gins, grist mills, lumber mills, dimension mills. Located within a hundred mile radius of coal, iron, phosphate, limestone, asphalt, kaolin, bauxite and with the greatest hydro-electric power in the world at its front door. At head of present navigation on the Tennessee River.

Residential Features: Said to be one of the most beautiful small cities in this section of the South. Streets broad and well-paved. Over 20 miles of asphalt streets. Beautiful and well-kept residences. Great majority of population own their own homes. Health conditions far above average. Recent inspection by U. S. Health Service said: "Florence and Lauderdale County can be held up as a model community from health standpoint." Municipally owned waterworks thoroughly modern.

Retail Shopping Section: Occupies approximately eight city blocks, and there are two suburban shopping centers, each with a group of stores.

Trading Area: Extends in a 30-mile circle around city, with bus service to all important points. Three national highways converge at Florence, Jackson, Lee and Scenic. All three of these highways are routed across the top of Wilson Dam, which is nearing completion.

Wholesale Houses: Groceries, 4; Meats, 1; Fruits, 2; Hardware, —; Dry Goods, 1; Miscellaneous Lines, Drugs and Sundries, 1; Produce, 1; Meat Packing Distributing Offices, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 18; commercial automobile agencies, 5; automobile accessories, 5; automobile tire agencies, 14; bakers, 3; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 3; delicatessen, 2; dressmakers, 12; druggists, 9; dry goods, 18; department stores, 3; electrical supplies, 3; florists, 2; fruits, 5; furniture, 7; furriers, 1; garages (public), 3; grocers, 47 (chain 7); hardware, 5; jewelry, 3; meat markets, 6; men's furnishing, 7; men's clothing, 2; merchant tailors, 4; milliners, 3; opticians, 4; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 4; restaurants (including hotels), 14; shoes, 2; sporting goods, 5; stationers, 1; women's apparel, 7; decorators and drapers, 2.

Miscellaneous Data: Doctors (medical, 22), (dentists, 7), (osteopaths, 2); number of wired houses, 1,800; street car service; gas, artificial; electric current, alternating; water, soft.

GADSDEN, ALABAMA

(Etowah County)

1920 Population, 14,737 (1925, est. 22,160).

City and Suburban Estimate, 32,355.

Native Whites, 79%; **Negroes,** 20%; **Foreign Born,** 1%; **Industrial Workers,** 25%; **English Reading,** 85%; **Families,** 3,500.

Schools: Public Grade, 6; High, 1; Parochial, 1; Number of Pupils, 2,950.

Churches: Baptist, 3; Christian Science, 1; Episcopal, 1; Hebrew, 1; Methodist, 3; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 3; State, 1; Total Resources, $6,250,000; Savings Bank Deposits Total, $1,250,000.

Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 2,300.

Location: On Coosa River, river transportation to Rome, Ga., and south to Lock 3, on Coosa River. Louisville & Nashville Ry.; N. C. & St. L. Ry.; Southern Ry.; A. G. S. Ry.; T. A. G. Ry. and interurban lines to Alabama City and Attalia.

Principal Industries: Iron and steel, including pig iron, steel billets, merchants bar iron, reinforcing steel for concrete construction, ties, fish plates, wire (plain and barbed), wire fencing, nails and staples, stoves and ranges, plumbers' pipe and fittings, also brass plumbers' fittings, steam fittings, doors, sash and blinds, general lumber supplies, fertilizers, overalls, hosiery, mattresses, cotton goods.

SELMA, ALA.

(Dallas County)

1920 Population, 15,589.

City and Suburban Estimate, 22,000.

Native Whites, 46.3%; Negroes, 52.6%; Foreign Born, 1.1%; English Reading, 95%; Families, 4,232.

Schools: Public Grade, 5 white, 2 colored; High, 1 white, 1 colored; Junior High, 1 white; Parochial, 1; Number of Pupils, about 2,100 in white schools, 1,400 in colored.

Churches: Baptist, 2 white, 12 colored; Christian Science, 1 white; Congregational, 1 colored; Episcopal, 1 white; Hebrew, 2 white; Methodist, 3 white, 6 colored; Presbyterian, 3 white, 2 colored; Roman Catholic, 1 white; Miscellaneous, 4 white, 1 colored.

Banks: National, 2; State, 3; Total Resources, $10,000,000; Savings Bank Deposits, $2,000,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 3,600.

Location: Southern, Western of Alabama and Louisville and Nashville Railroads. Ala. River Steamboat service. Naturally located so as to serve as the distribution point for the rapidly developing Gulf States. Proximity to the Port of Mobile makes Selma destined to become an inland port of considerable consequence.

Principal Industries: Textile, lumber and cotton seed products, also creamery products.

Manufacturing Establishments: 51. Leading firms: Sunset Textile Mills, Selma Manufacturing Co., Dallas & Central Ala. Lumber Companies, Buckeye & People's Cotton Oil Companies, Union Iron Works, Leigh Banana Case Co. and Southern R. R. Shops, Selma Creamery & Ice Co., and Purity Creamery & Ice Co.

Total value of yearly output of factories estimated at $12,000,000.

Special Information: Location of the city in the rich, fertile agricultural section of the South makes it an important trade center for Alabama. Water and rail transportation makes it an ideal location for textile mills, furniture factories, and its proximity to the iron and coal fields with its cheap hydro-electric power makes it admirably suited for location of foundries.

Residential Features: Delightful climate and pure artesian water makes it an ideal city in which to live. Private homes predominate, with a very large percentage of the homes owned by the occupants. The town is growing rapidly and steadily.

Retail Shopping Section: Broad St. 4 blocks; Washington St. 3 blocks; Selma Ave. 2 blocks; Ala. Ave. 3 blocks; Water Ave. 2 blocks.

Trading Area: 70 miles west, 70 miles south, 60 miles north and 25 miles west.

Wholesale Houses: Groceries, 11; meats, 2; fruits, 1; hardware, 4; dry goods, 2; miscellaneous lines, candy 1, seeds 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 1; automobile accessories, 15; automobile tire agencies, 9; bakers, 3; cigar stores and stands (including hotels), 18; confectioners including hotel stands), 18; delicatessen, 1; dressmakers, 7; druggists, 12; dry goods, 12; department stores, 8; electrical supplies, 4; florists, 4; fruits, 4; furniture, 9; garages (public), 3; grocers, 90; hardware, 6; jewelry, 9; meat markets, 8; men's furnishings, 1; men's clothing, 8; merchant tailors, 1; milliners, 3; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 5; radio supplies, 1; restaurants (including hotels), 26; shoes, 6; sporting goods, 3; stationers, 2; women's apparel, 10.

SHEFFIELD, ALA.

(Colbert County)

1920 Population, 6,682.

City and Suburban Estimate, 10,000.

Native Whites, 75%; Negroes, 22%; Foreign Born, 3%; Industrial Workers, 12%; English Reading, 80%; Families, 1,360.

Schools: 3. Number of Pupils, 2,400.

Churches: 11.

Banks: 2. Total Resources, $1,000,000.

Theatres: 2. Total number of seats, 1,000.

Location: On Tennessee River in northern part of state. Served by Southern and L. & N. R. R.

Principal Industries: Pig iron and blast furnaces, stove foundry. Cotton seed oil, railroad shops, machine shops, nitrate plant, agriculture.

Residential Features: Mostly one and two-family houses of southern and bungalow types.

Principal Industries: Mining, fishing, farming, printing, railroad shops, outfitting point for big-game hunters, lumbering, Standard Oil station, cold storage, cannery, Summer resort at Lake Kenai.

Special Information: Seward is the salt water terminus of the Alaska Northern Railroad, the basis of supplies for the Alaska Peninsula.

Residential Features: Mostly one family structures, one apartment house for seven families. Modern homes.

Retail Shopping Section: Railroad Ave. to Adams (2 blocks) on Fourth St. (Main St.).

Trading Area: People come from about 52 miles on the railroad, and from Kenai Lake and westward and outlying islands.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 4; commercial auto. agencies, 4; automobile accessories, 4; automobile tire agencies, 4; bakers, 2; cigar stores and stands (including hotels), 4; confectioners (including hotel stands), 2; delicatessen, 1; dressmakers, 3; druggists, 1; dry goods, 2; department stores, 1; electrical supplies, 3; florists, 1; fruits, 1; furniture, 2; furriers, 2; garages (public), 2; grocers, 4; hardware, 2; jewelry, 2; meat markets, 2; men's furnishings, 2; men's clothing, 2; merchant tailors, 4; milliners, 1; opticians, 1; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 1; restaurants (including hotels), 5; shoes, 3; sporting goods, 4; stationers, 3; women's apparel, 3.

Space Buyers' Guide to Newspaper Markets of ARIZONA

BISBEE & BISBEE MINING DISTRICT, ARIZ.

(Cochise County)

1920 Population, 9,205.

City and Suburban Estimate, including Bisbee mining district, 22,836.

Native Whites, 85%; **Negroes,** 1%; **Foreign Born,** 14%; **Industrial Workers,** 95%; **English Reading,** 92%; **Families,** 8,600.

Schools: Public Grade, 12; High, 1; Junior High, 3; Parochial, 1. Number of Pupils, 3,000.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 3.

Banks: National, 1; State, 3; Total Resources, $7,113,946.67.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 3,100.

Location: 750 miles east of Los Angeles on El Paso and Southwestern Ry., 9 miles from Mexican border in southeastern corner of Arizona. To nearest large city (El Paso, Tex.) by railroad, 11 hours; by auto, 16 hours.

Principal Industries: Mining and allied industries are the only ones in the district.

Special Information: Phelps Dodge Corp. has uncovered an enormous low grade ore body which is being mined by steam shovels. Already among the largest industrial communities in Arizona the Warren District is in position to produce copper in greater volume than ever before. Population is a satisfied, well-paid class, the minimum wage being $5.20 per day, and average wage above $6.00. Over 50 miles of railway trackage is above ground in the district. Various towns united by electric railway, Bisbee and Lowell being the two trading centers.

Residential Features: Homes modern in every respect.

Retail Shopping Section: 14 blocks along Main Street and Brewery Gulch constitute the retail district, the other district being 4 blocks in Lowell, 3 miles from Bisbee.

Trading Area: Confined to the Warren district, with a good trade from outlying points in Cochise county and that portion of northern Sonora, Mexico, easily accessible to the district. Excellent concrete and macadam roads lead to the district from all the trading area.

Wholesale Houses: Groceries, 4; Meats, 1; Fruits, 4; Hardware, 1; Dry Goods, 1; Miscellaneous Lines, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 13; commercial automobile agencies, 8; automobile accessories, 6; automobile tire agencies, 14; bakers, 5; cigar stores and stands (including hotels), 35; confectioners (including hotel stands), 20; delicatessen, 3; dressmakers, 3; druggists, 9; dry goods, 20; department stores, 4; electrical supplies, 4; florists, 2; fruits, 26; furniture, 7; furriers, —; garages (public), 22; grocers, 61 (chain, 3); hardware, 4; jewelry, 5; meat markets, 15 (chain, 2); men's furnishings, 12; men's clothing, 10; merchant tailors, 10; milliners, 6; opticians, 2; photographers, 4; pianos (and miscellaneous musical instruments), 3; radio supplies, 6; restaurants (including hotels), 24; shoes, 9; sporting goods, 3; stationers, 6; women's apparel, 15.

Miscellaneous Data: Most pleasant months, all but January, February and March. Doctors, (medical, 16), (dentists, 5), (osteopaths, 3). Gas, artificial. Electric current, alternating. Water, soft.

DOUGLAS, ARIZ.

(Cochise County)

1920 Population, 9,916.

City and Suburban Estimate, 13,216.

Native Whites, 75%; **Negroes,** 1%; **Foreign Born,** 24%; **English Reading,** 85%.

Schools: Public Grade, 6; High, 1; Parochial, 1. Number of pupils, 3,400.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; **Hebrew, 1; Methodist, 1; Presbyterian,** 1; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 1; State, 2; Total Resources, —. Savings Bank Deposits Total, $5,250,000.

Theatres: Legitimate, 1; Moving Pictures, 3.

Location: On main line of Southern Pacific Railroad. State service and railroad (So. Pac. branch) in valley north of Douglas. Nacozari Railroad south into Mexico.

Principal Industries: Smelting of copper.

Manufacturing Establishments: 6. Leading firms: Phelps Dodge Corp., Calumet & Arizona Mining Co., Arizona Gypsum Plaster Co.

Special Information: City modern in every respect. Metropolis of Sulphur Springs Valley, rich agricultural section. Splendid schools, churches, parks, public buildings and a progressive, hospitable citizenship. Bankhead Transcontinental Highway; free camping ground. Fine climate, maximum of sunshine; altitude, 3,930 feet. One of the greatest copper smelting cities in the West, smelters having monthly capacity of 31,000,000 pounds of copper. Fine paved streets—eight miles in length. Gateway to rich State of Sonora, Mexico.

Residential Features: Mostly one-family tions in any town in the county of its size.

Retail Shopping Section: Business section concentrated, with a few grocery stores in outlying sections.

Trading Area: Fifty miles west, 90 miles east, 150 miles north, and 150 miles south in Sonora, Mexico.

Wholesale Houses: Groceries, 4; meats, 2; fruits, 2; hardware, 3; dry goods, 1; miscellaneous lines, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial automobile agencies, 4; automobile accessories, 14; automobile tire agencies, 15; bakers, 2; cigar stores and stands (including hotels), 10; confectioners (including hotel stands, 7; delicatessen, 2; dressmakers, 3; druggists, 4, dry goods, 8; department stores, 4; electrical supplies, 5; florists, 1; fruits, 20; furniture, 3; furriers, 2; garages (public), 10; grocers, 43; hardware, 3; jewelry, 2; meat markets, 6; men's furnishings, 7; men's clothing, 7; merchant tailors, 7; milliners, 5; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 1; restaurants (including hotels), 7; shoes, 7; sporting goods, 2; stationers, 5; women's apparel, 6.

MIAMI & GLOBE, ARIZ.

(Gila County)

1920 Population, (Miami, 6,689; Globe, 7,044); Total, 13,733.

City and Suburban Estimate, 25,000.

Native Whites 75%; **Foreign Born, Mex.** 25%; **Industrial Workers,** 80% **English Reading,** 80%.

Schools: Public Grade, 16; High, 2; Junior High, 2; Number of pupils, 7,000.

Churches: Baptist, 2; Christian Science, 2; Episcopal, 2; Methodist, 3; Presbyterian, 2; Roman Catholic, 2; Miscellaneous, 2.

Banks: National, 3; State, 2; Total Resources, $5,935,000. Savings Bank Deposits Total, $2,590,000.

Theatres: Legitimate, 2; Moving Pictures, 5; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 8,000.

Location: Arizona Eastern R. R., sub. of So. Pac. is the only railroad touching these two cities. Regular stage service to Phoenix in western part of state, also to New Mexico state line. Miami is terminal of Miami, Superior Highway also on route of famous "Apache Trail" to Roosevelt Dam, 40 miles distant. To nearest large city by railroad, 8 hours; by auto, 4 hours.

Principal Industries: Copper mining and smelting.

Manufacturing Establishments: Leading firms: Inspiration Con. Copper Co.; Miami Copper Co.; Old Dominion Copper Co.; Boston and Superior International Smelting Co.; Iron Cap. International smelts 23,000,000 pounds of copper per month. Present price of copper 14¾ cents f. o. b., New York. Total value of yearly output of factories estimated at, $42,000,000.

Special Information: Miami and Globe are situated about 6 miles apart. Due to congested living conditions, as far as homes are concerned, the employes, or rather a large number of them, who are employed at the smelters of the Miami Copper Co., and the Inspiration Co., live in Globe as well as in Miami. This has created a better business condition in both cities. While the freight rates are quite high in this region, these two cities are twelve-month towns. Monthly payroll over $1,000,000. Not susceptible to mail order houses and very little outside trading in other cities. The district also draws trade from the big ranches in this vicinity. The Coolidge Dam on the Gila River, 25 miles distant from Miami, to cost $5,500,000, is now in course of construction. It will generate power and irrigate 25,000 acres of adjacent land. The Inspiration Cons. Cop. Co.'s leading, plant to cost $5,000,000, is now in course of construction at Miami. The Horse Mesa Dam, 60 miles from Miami on the Salt River, is building at a cost of $4,500,000 to furnish cheap power for Miami mines and smelters. These three projects will be completed by the end of 1926, or early in 1927.

Residential Features: Mostly one-story houses. Inspiration and Miami Copper Co.'s also have many houses near their mines for employes. All modern conditions in both cities.

Retail Shopping Section: In Globe; North Broad St. is principal business street, while in Miami there are 3 streets running parallel, extending about 7 city blocks, and three streets crosswise, 3 outlying sections between Globe and Miami, known as Lower Miami, Misland City, and small business city outside of Globe.

Trading Area: 7 miles west, south, and east, also some intermittent business from the north —San Carlos, Indian Reservation, ranches, etc.

Wholesale Houses: Groceries, 5; Meats, 3; Fruits, 3; Hardware, 6; Dry Goods, 13; Miscellaneous Lines, 14.

Number of Retail Outlets for Nationally Advertised Products: Passenger Automobile Agencies, 10; Commercial Auto. NOGALES, ARIZ.

(Santa Cruz County)

1920 Population, 5,199—plus 3,261 members of 25th U. S. Infantry (colored).

City and Suburban Estimate, 7,033, including 1,100 colored soldiers.

Native Whites, 45%; **Negroes,** 4%; **Foreign Born,** 51%; **Industrial Workers,** 12%; **English Reading,** 66%; **Families,** 1,300.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 1,447.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Roman Catholic, 1.

Banks: National, 2; Total Resources, $5,458,854.45. Savings Bank Deposits Total, $1,148,737.24.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 2,576.

Location: On the Mexican border. Port of entry for the Southern Pacific Railway system extending 1,000 miles into the interior and is projected through to the city of Mexico.

Principal Industries: Eighty per cent of the business of Nogales is the export and import trade of the west coast of Mexico. Roy & Titcomb, Inc., has a large plant turning out Mexican hardwood products. This plant is now supplying sixty per cent. of the cedar cigar boxes of the United States.

Manufacturing Establishments, 2; **Leading firms:** Roy & Titcomb, Inc., Arizona, Sonora Mfg. Co.

Residential Features: All residences of Nogales must be built of fireproof, or semi-fireproof materials.

Retail Shopping Section: Morley Ave., four blocks; Grand Ave., four blocks.

Trading Area: One thousand miles into Mexico—maximum of 44 miles into Santa Cruz County in the agricultural and mining district.

Wholesale Houses: Groceries, 2; Meats, 1; Fruits, 1; Hardware, 1; Dry Goods, 2; Automobile Accessories and Mining Machinery.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; commercial auto agencies, 7; automobile accessories, 3; automobile tire agencies, 5; bakers, 3; cigar stores and stands (including hotels), 5; confectioners (including hotel stands), 5; dressmakers, 6; druggists, 3; dry goods, 11; department stores, 3; electrical supplies, 2; fruits, 4; furniture, 3; garages (public), 4; grocers, 14; hardware, 3; jewelry, 4; meat markets, 2; men's furnishing, 3; merchant tailors, 2; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 2; restaurants (including hotels), 4; shoes, 2; sporting goods, 1; stationers, 2; women' apparel, 1.

PHOENIX, ARIZ.

(Maricopa County)

1920 Population, 29,053. (1925, est. 45,000.)

City and Suburban Estimate, 110,000.

Native Whites, 90%; **Negroes,** 1.5%; **Foreign Born,** 85%; **Industrial Workers,** no%; **English Reading,** 95%; **Families,** 8,963 in Phoenix. Approximately 20,000 in immediate suburban area.

Schools: Public Grade, 18; High, 1, Group of seven bldg.; Parochial, 2; Number of Pupils, 10,933.

Churches: Baptist, 7; Christian Science, 2; Congregational, 2; Episcopal, 1; Hebrew, 2; Methodist, 8; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 16.

Banks: National 4; State 4; Total Reources, $28,596,342.73; Savings Bank Deposits Total, $7,030,042.

Theatres: Legitimate, 1; Moving Pictures, 1; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 4. Total number of seats 11,800.

Location: Phoenix is located in the heart of Salt River Valley (110,000 population), irrigated by famous Roosevelt Dam. Southern Pacific and Santa Fe Railroads serve community. Excellent railway and auto stage service connects with all of Arizona. To Los Angeles, Calif., by railroad, 12 hours; by auto, 18 hours.

Principal Industries: Agriculture which embraces the raising of high grade long staple-cotton, large crop of early cantaloupes, all citrus and deciduous fruits. Dairying, mining, cattle, poultry, jobbing and distributing center for state. Cotton gins, cotton seed oil mills, brick yards, broom factory, canning factories, creameries, flour mills, ice plants for freight car refrigeration.

Special Information: 161% increase in population in 10 years. Over 426 miles of concrete roads within 35 miles of Phoenix makes this city easily accessible to entire state, as these roads in turn connect with splendid state highways. 340,000 acres of rich irrigated land surrounds Phoenix. Phoenix is the political, shopping, wholesale, shipping, supply, educational, social, railroad and geographical center of the whole state. That is why Phoenix, a town of 45,000, looks, acts, and does business equal to a city of a quarter of a million. $45,000,000 being expended by Southern Pacific Ry. on new main line, and on big power and irrigation dams which are fast making Southern Arizona a great agricultural center.

Residential Features: A city of beautiful homes and apartment houses, mostly of brick and other durable materials. Annual winter residents build palatial homes, with extensive grounds. Spanish style of architecture coming into favor, majority of homes bungalow type. Wide streets, evergreen parks, unexcelled schools and public buildings.

Retail Shopping Section: Extends from railroad tracks on South to Pierce Street on North a distance of eight blocks. From Fourth Street on East to Seventh Avenue on West, a distance of 11 blocks. An outlying business district covering 4 square blocks. Neighborhood sections. Because of great number of paved roads radiating from city, the entire Salt River Valley being as one large town, with Glendale (2700), Mesa (5,000), Tempe (1800), Chandler (1500), Scottsdale (1000) considered as suburbs of Phoenix.

Trading Area: Immediate trading area bounded by Maricopa County approximately 40 miles in each direction. Entire trading area embraces practically whole state. Although not of metropolitan size, Phoenix is looked upon as being the metropolis of this vast area. Salt River Valley, the 32 mile radius around Phoenix, is the actual "suburban" market. The A. B. C. reports the 110 mile radius around Phoenix as suburban, which radius comprises a mountainous, "mining and live stock" market which presents different sales and advertising problems than in Phoenix and the Salt River Valley. The actual suburban market is the Salt River Valley, and 32 mile radius around Phoenix, in which 110,000 people, or one-third of the entire population of Arizona are concentrated.

Wholesale Houses: Groceries, 3; Meats, 9; Fruits, 8; Hardware, 1; Dry Goods, 2; Miscellaneous Lines, Stationers, 3; Automobiles, 16; Optical, 1; Confectionery, 3.

BATESVILLE, ARK.

(Independence County)

1920 Population, 4,299.

City and Suburban Estimate, 6,000.

Native Whites, 95%; **Negroes,** 5%; **Industrial Workers,** 25%; **English Reading,** 100%.

Schools: Public Grade, 4; High, 1; Junior High, 1; Number of Pupils, 1,750.

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Miscellaneous, 1.

Banks: National, 1; Total Resources, $600,000; Savings Bank Deposits Total, $3,000,000.

Theatres: Legitimate, 1; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 10,000.

Location: Situated on the White River, important station on the Missouri Pacific Railroad.

Principal Industries: Sawmills, lumber mills, stave mills, printing, mining, milling, marble quarries, and farming. Manufacture of lime for all purposes.

Manufacturing Establishments: 50. Leading firms—Mount Olive Stave Co., Terry Lumber Co., Padgett & Pool Lumber Co., Batesville Bottling Co. Total value of yearly output of factories estimated at $2,000,000.

Special Information: Batesville has one of the largest high schools north of the Arkansas River, having 1,750 school children. We have the oldest chartered college in the state. Arkansas College has 250 students. Batesville is in center of large manganese fields, covering an area of 250 square miles. One of the largest towns on the Missouri Pacific R. R. between Little Rock, Arkansas, and Joplin, Missouri. Lying in the foothills of the Ozark Mountains it has a large trade territory covering the adjoining counties.

Residential Features: Batesville is noted for its beautiful homes and healthful climate. The city is sometimes called the "Athens of the Ozarks," as it has exceptional educational advantages. Batesville is a home city, a pleasure and health resort. The beautiful White River flows through the city. Three government dams provide three beautiful fresh-water lakes. Fine fishing and boating. Mountain-climbing and hiking, cave exploring, and camping provide pleasure for the visitor.

Trading Area: 100 miles in every direction for wholesale, and 25 to 50 miles for retail. Retail business in 1923, $4,750,000; wholesale business, $5,000,000. Total bank clearings for 1923, $20,000,000.

Wholesale Houses: Groceries, 3; fruits, 1; dry goods, 2; miscellaneous lines—drug companies, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 3; commercial auto. agencies, 3; automobile accessories, 5; automobile tire agencies, 10; bakers, 1; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 8; delicatessen, 1; dressmakers, 5; druggists, 3; dry goods, 8; department stores, 3; electrical supplies, 2; fruits, 12; furniture, 2; garages (public), 6; grocers, 15; hardware, 4; jewelry, 2; meat markets, 4; men's furnishings, 3; men's clothing, 3; merchant tailors, 3; milliners, 2; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 5; restaurants (including hotels), 6; shoes, 7; sporting goods, 3; stationers, 4; women's apparel, 4.

BLYTHEVILLE, ARK.

(Mississippi County)

1920 Population, 6,447. **(1925 estimate,** 6,700.)

City and Suburban Estimate, 12,000.

Native Whites, 80%; **Negroes,** 20%; **Industrial Workers,** 600%; **English Reading,** 100%, **Families,** 2,380.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1; Number of pupils, 3,610.

Churches: Baptist, 2; Episcopal, 1; Hebrew, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; miscellaneous, 2.

Banks: National, 1; State, 2; Total Resources, $8,000,000. Savings Bank Deposits Totals, $1,680,000.

Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 1; Total number of seats, 1,500.

Location: On St. Louis & San Francisco, Cotton Belt, and Jonesboro, Lake City & Eastern Railroads, and Florida Midwest Highway, with concrete roads and daily truck service to Memphis, Paragould, Jonesboro, Caruthersville, and other cities. To nearest large city by railroad, 3 hours; by auto, 3 hours.

Principal Industries: Cotton compresses, cotton oil mills, cotton warehouses, hardwood lumber mills, woodworking factories, barrel factories.

Manufacturing Establishments: 20. Leading firms: Chicago Mill & Lumber Co., Arkansas Compress Co. Total value of yearly output of factories estimated at $25,000,000 (including output of cotton compresses).

Special Information: Blytheville claims to be one of the largest cotton markets in Arkansas. Mississippi County, of which Blytheville is the seat, grows $20,000,000 worth of cotton annually, leading all other counties of the United States. The city draws heavily from adjoining counties in northeast Arkansas, and southeast Missouri. Is a railroad center with extensive wholesale and jobbing interests, wheat, alfalfa, and flour mills.

Residential Features: Some of the finest homes in Arkansas are located in Blytheville. Of a total of 2,550 homes, more than 2,000 are owned by their occupants.

Retail Shopping Section: Ten blocks on Main Street, 4 blocks on Second Street, 4 blocks on Fourth Street, 6 blocks on Ash Street, 4 blocks on Walnut Street. Blytheville has more stores than most cities of twice its size, due to the rich country tributary to the town, and the extensive country trade enjoyed by local merchants and dealers.

Trading Area: Nine miles east to the Mississippi River, 60 miles south toward Memphis, 40 miles west toward Paragould, and Jonesboro, and 30 miles north toward Poplar Bluff, Mo.

Wholesale Houses: Groceries, 4; meats, 2; fruits, 2; hardware, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial auto agencies, 4; automobile accessories, 16; bakers, 2; total cigar stores and stands (including hotels), 11 (chain, 6); confectioners (including hotel stands), 6; delicatessen, 3; dressmakers, 14; druggists, 12; dry goods, 22; department stores, 5; electrical supplies, 4; florists, 2; fruits, 11; furniture, 6; garages (public), 9; grocers, 89 (chain, 2); hardware, 5; jewelry, 4; meat markets, 7; men's furnishings, 9; men's clothing, 9; merchant tailors, 5; milliners, 5; opticians, 5; photographers, 4; pianos (and miscellaneous musical instruments), 2; radio supplies, 4; total restaurants (including hotels), 11; shoes, 14; sporting goods, 5; stationers, 3; women's apparel, 12.

Miscellaneous Data: Doctors (medical, 18), (dentists, 6), (osteopaths, 2); number of wired houses, 2,310; electric current, alternating and direct; water, soft.

CAMDEN, ARK.

(Ouachita County)

1920 Population, 3,238.

City and Suburban Estimate, 10,000.

Native Whites, 40%; **Negroes,** 40%; **Foreign Born,** 20%; **English Reading,** 100%.

Schools: Public Grade, 2; High, 2; Junior High, 1.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Hebrew, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 15.

Banks: National, 1.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1.

Location: Cotton Belt, Rock Island, and Mo.-Pac. R. Rs. Boats the year around from Camden to New Orleans on Ouachita River.

Principal Industries: Oil, sawmills, screen doors, handle factories.

Manufacturing Establishments, 4. Leading firms; Bear State Handle Co., Rockwell Mfg. Co., Houston Oil Co.

Special Information: Center of oil fields. Good farming.

Residential Features: Mostly one and two-family houses, private homes predominating. Limited section devoted to workingmen's tenements.

Retail Shopping Section: Two main streets, namely,: Washington and Adams, which run crosswise. Eight blocks of main business, with 2 blocks with retail groceries, confectionery, meat, and other small shops.

Trading Area: Extends for 20 miles, extending to the oil fields. Daily trains run extras on the Missouri-Pacific Railroad.

Wholesale Houses: Groceries, 2; meats, 7; hardware, 3; dry goods, 12; miscellaneous lines, 50.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 1; commercial auto agencies, 4; automobile accessories, 9; automobile tire agencies, 9; bakers, 3; cigar stores and stands (including hotels), 25; confectioners (including hotel stands), 10; druggists, 6; department stores, 5; electrical supplies, 4; fruits, 7; furniture, 4; garages (public), 6; hardware, 3; jewelry, 3; meat markets, 8; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 8; shoes, 4; sporting goods, 2; stationers, 1; women's apparel, 4.

CONWAY, ARK.

(Faulkner County)

1920 Population, 4,564 (not including 1,000 college students here 9 months every year).

City and Suburban Estimate, 8,250.

City and Suburban Estimate, 150,000.

Native Whites, 69%; **Negroes,** 28%; **Foreign Born,** 3%; **Industrial Workers,** 15%; **English Reading,** 98%; **Families,** 24,500.

Schools: Public Grade, 33; High, 2, Junior High, 3; Parochial, 7. Number of Pupils, 19,700.

Churches: Baptist, 59; Christian Science, 2; Congregational, 1; Episcopal, 5; Hebrew, 2; Methodist, 34; Presbyterian, 9; Roman Catholic, 6; Miscellaneous, 15.

Banks: National, 3; State, 8; Total Resources $55,779,802. Bank Deposits Total, $49,853,856.22.

Theatres: Legitimate, 1; Moving Pictures, 9; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 11,000.

Location: On Arkansas River, in center of State of Arkansas, with excellent railroad connections, making it very accessible to all parts of the State. There are eight distinct railroad rights of way leading into Little Rock, extending in seven different directions. The railroads serving Little Rock are the Missouri Pacific Rock Island and Cotton Belt systems. Excellent bus service is also maintained to points within radius of 64 miles, embracing Hot Springs, Pine Bluff, Conway and other cities. To nearest large city, by railroad, 4½ hours; by auto, 6 hours.

Principal Industries: Railroad engine and car shops, cotton compresses, cottonseed oil mills, woodworking, stave and cooperage plants and furniture, overall, candy, harness, brick, tent and awning, broom and mattress factories and jobbing concerns in practically all lines.

Manufacturing Establishments: 219. Leading firms, 9; Charles T. Abeles Co., Nelson Mfg. Co., Arkansas Brick and Tile Co., Bruce Hardwood Flooring Co., McLean Arkansas Lumber Co., Hamlen Stave Co., Burton Dixie Corporation. Dixie Oil Mills, Rose City Oil Mills. Total value of yearly output of factories estimated at $175,000,000.

Special Information: Little Rock is in the center of the financial and commercial district of the State of Arkansas. It is the one large city of the State and, with its excellent railroad service and central location, dominates to a most unusual extent the commerce of Arkansas. New Lafayette Hotel, with 250 rooms, and Federal National Bank have been recently opened.

Residential Features: Mostly all one-family houses owned by the people living in same. A number of apartment houses have recently been erected. Well kept yards and lawns are attractive features of the residential sections. Sidewalks and 150 miles of paved streets contribute to make Little Rock's residential sections attractive.

Retail Shopping Section: Extends from Markham Street for nine blocks south on Main Street. Louisiana and Center Streets parallel Main Street and are business streets for about seven blocks. There are three outlying business sections and several smaller neighborhood sections.

Trading Area: Covers radius of about 50 miles in every direction. Intermittent business is secured from people living a greater distance because Little Rock stores offer a larger variety and higher class of merchandise than is available in the smaller cities in the State.

Wholesale Houses: Groceries, 4; meats, 7; fruits, 5; hardware, 2; dry goods, 2; produce, 6; drugs, 2; shoes, 1; ladies' ready-to-wear, 1; paper, 3.

Number of Retail Outlets for Nationally Advertised Produce: Passenger automobile agencies, 26; commercial auto agencies, 14; automobile accessories, 58; automobile tire agencies, 28; bakers, 23; cigar stores and stands (including hotels), 22, (chain, 2); confectioners (including hotel stands), 44; delicatessen, 8; dressmakers, 23; druggists, 68; dry goods, 27; department stores, 5; electrical supplies, 8; florists, 8; fruits, 16; furniture, 35; furriers, 2; garages (public), 31; grocers, 400 (chain, 54); hardware, 8; jewelry, 18; meat markets, 56; men's furnishings, 9; men's clothing, 9; merchant tailors, 26; milliners, 12; opticians, 5; photographers, 10; pianos (and miscellaneous musical instruments), 6; radio supplies, 12; restaurants (including hotels), 179; shoes, 16; sporting goods, 4; stationers, 3; women's apparel, 9.

Miscellaneous Data: Average temperature, 62 degrees; average number of rainy days per twelve months, 89; most pleasant months, October to May, inclusive; doctors (medical, 139), (dentist, 53), (osteopaths, 4); number of wired houses, 21,418; street car service; gas, natural; electric current, alternating and direct; water, medium hard.

MALVERN, ARK.

(Hot Springs County)

1920 Population, 3,854.

City and Suburban Estimate, 5,000.

Native Whites, 75%; **Negroes,** 23%; **Foreign Born,** 2%; **Industrial Workers,** 75%; **English Reading,** 92%; **Families,** 1,238.

Schools: Public Grade, 6; High, 2; Junior High, 2. Number of Pupils, 2,500.

Churches: Baptist, 5; Methodist, 3; Presbyterian, 1; Miscellaneous, 2.

Banks: National, 1; State, 2; Total Resources, $1,500,000; Savings Bank Deposits Total, $1,300,000.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 1,500.

Location: On Missouri Pacific and Rock Island Railroads.

Principal Industries: Lumber and brick plants.

Manufacturing Establishments: 5. Leading firms: Sheldon Handle Factory, Van Veneer Co., Moline Timber Co., Wisconsin and Arkansas Lumber Co. Annual output, $1,000,000.

Special Information: Through the center of Hot Springs County flows the Ouachita River, in the valley of which are some of the finest farms in the State. Recently the Arkansas Light & Power Co. has undertaken the project of constructing a series of dams along the river, extending from Magnet Cove to above Hot Springs. These plants will cost several millions and generate nearly 100,000 h.p. The first dam is being built near Malvern and will furnish cheap power.

Residential Features: A few apartment houses, private houses predominating.

Retail Shopping Section: Extends from Mo. Pac., and R. I. stations 5 blocks on Main St. Business and professional offices on 2d and 3d Streets.

Trading Area: About 25 miles in all directions.

Wholesale Houses: Groceries, 2; hardware, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial auto. agencies, 6; automobile accessories, 6; automobile tire agencies, 8; bakers, 2; cigar stores and stands (including hotels), 8; confectioners (including hotel stands), 4; dressmakers, 10; druggists, 5; dry goods, 18; electrical supplies, 3; florists, 1; furniture, 6; garages (public), 6; grocers, 20; hardware, 4; jewelry, 2; meat markets, 4; men's furnishings, 3; merchant tailors, 3; milliners, 3; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 2; restaurants (including hotels), 4; shoes, 1.

MENA, ARK.

(Polk County)

1920 Population, 3,441.

City and Suburban Estimate, 5,000.

Native Whites, 100% **Negroes,** none; **Foreign Born,** none; **Industrial Workers,** 400; **English Reading,** 100%.

Schools: Public Grade 2; High, 1 Parochial, 1; Number of Pupils, 1,275.

Churches: Baptist, 1; Christian Science, 1; Epsicopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 5.

Banks: National, 1; State, 2; Total Resources, $1,194,504.92; Total savings account of 3 above banks, $368,040.36.

Theatres: Moving Pictures, 1 (combined with vaudeville); Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 1,750.

Locations: Kansas City Southern Railway Co., 380 miles direct line from Kansas City, Mo.; 468 miles from Port Arthur, Texas. To nearest large city, by railroad, 3 hours; by auto, 4⅔ hours.

Principal Industries: Planing mills, woodworking plants, stave and heading plants, flour mills, cotton gins.

Manufacturing Establishments: Leading firms, none widely known. Total value of yearly output of factories estimated at $3,000,000.

Special Information: Mena is the center of a valuable farming district, and, being the county seat and largest town in the county, has wide trade territory.

Residential Features: Majority of residents are home owners; average residence 5 rooms, 45% modern homes, with lights, sewer, city water, etc.

Retail Shopping Section: Mena street, principal street, has 6 blocks solid business houses, both side street; DeQueen street, next in importance, has 3 blocks. Minor side streets with small stores. Railroad divides the town, making Northside and Southside. Farmers supply stores, wagon-yards, etc., located on Southside. Stores relying on town trade on Northside.

Trading Area: Estimated 35 miles east and west, 20 miles north, and 35 miles south. Railroad runs north and south. Bus line south gives shoppers splendid service.

Wholesale Houses: Groceries, 2; Hardware, 1; Dry Goods, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; commercial auto. agencies, 4; automobile accessories, 7; automobile tire agencies, 7; bakers, 1; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 4; dressmakers, 3; druggists, 3; dry goods, 9; department stores, 2; electrical supplies, 2; florists, 1; fruits, 1; furniture, 3; garages (public), 6; grocers, 11; hardware, 3; jewelry, 2; meat markets, 3; men's furnishings, covered by dept. stores and dry goods companies; merchant tailors, 3; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 2; jewelry store (carries radio supplies), 1; restaurants (including hotels), 7; shoes (none exclusive); sporting goods, 1; book store, 1; stationers, 1; women's apparel (covered by dry goods and dept. stores).

Miscellaneous Data: Average temperature, 61 degrees; most pleasant months, May, October and November; doctors (medical, 6); (dentists, 3); (osteopaths, 1); number of wired houses, 550; electric current, alternating; water soft.

NEWPORT, ARK.

(Jackson County)

1920 Population, 3,771.

City and Suburban Estimate, 6,500 .

Native Whites, 75%; **Negroes,** 25%; **Industrial Workers,** 25%; **English Reading,** 100%: **Families,** 1,300.

Schools: Public Grade, 2; High, 2; Number of Pupils, 1,700.

Churches: Baptist, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 6.

Banks: National, 2; State, 1; Total Resources, $4,000,000. Savings Bank Deposits Total, $500,000.

Theatres: Moving Pictures, 1. Total number of seats, 500.

(The general merchandise stores carry shoes, hats, clothing, etc.).

Miscellaneous Data: Doctors (medical, 5), (dentists, 2); electric current, alternating; water, soft.

HANFORD, CALIF.

(Kings County)

1920 Population, 5,888. (1925, est. 7,000).

City and Suburban Estimate, 15,000.

Native Whites, 65%; Negroes, 2%; Foreign Born, 33%; Industrial Workers, 25%; English Reading, 80%; Families, 2,666.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Methodist, 2; Providence, 1; Roman Catholic, 1; Christian, 1; Seven Day Adventists, 1.; Miscellaneous, 6.

Banks: National, 2; State, 1; Total Resources, $8,741,036.04; Savings Banks Deposits Total, $2,666,203.21.

Theatres: Combination, 1; Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 6,234.

Location: In the center of San Joaquin Valley, exactly equidistant between San Francisco and Los Angeles. On main line of Santa Fe, and branch line of Southern Pacific Rys. Also on Sierra-to-the-Sea State Highway, connecting valley and coast trunk lines. County has complete paved highway system. Truck and passenger auto stages to all points over state and county paved highways. To nearest large city (Fresno), by railroad, 1 hour, 35 minutes; by auto, 1 hour, 25 minutes.

Principal Industries: Raisins, fruits, hay, grain, livestock, dairying, cotton.

Manufacturing Establishments: Leading firms, Kings County Packing Co., California Packing Corp., Associated Raisin Co., California Peach Growers, California Prune & Apricot Assn., Star Piston Ring Co., Lucerne Cream & Butter Co., Swift & Co., Los Angeles Cream & Butter Co., Hanford Foundry Co., Adell-Cortright Concrete Works.

Residential Features: Mostly one family houses. Private homes predominate, and are mostly owned by occupants. Homes average in value $3,000.

Retail Shopping Section: Business section runs 3 blocks east and west and 2 blocks north and south. There are three outlying retail sections and several neighborhood stores.

Trading Area: Extends about 25 miles west and south and ten miles north and east. Intermittent business is secured from people living at a greater distance because of the splendid county and state paved highway system.

Wholesale Houses: Meats, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 13; commercial auto agencies, 3; automobile accessories, 3; automobile tire agencies, 10; bakers, 5; cigar stores and stands (including hotels), 42; confectioners (including hotel stands), 25; delicatessen, 2; dressmakers, 8; druggists, 4; dry goods, 3; department stores, 3; electrical supplies, 2; florists, 1; fruits, 8; furniture, 5; garages (public), 10; grocers, 31 (claim, 3); hardware, 3; jeweler, 3; meat markets, 11; men's clothing, 4; merchant tailors, 1; milliners, 5; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 5; restaurants (including hotels), 10; shoes, 2; stationers, 2; women's apparel, 2.

Miscellaneous Data: Average temperature, 69 degrees; average number of rainy days per 12 months, 10; most pleasant months, April, May, June, Sept., Oct., Nov.; doctors (medical, 9), (dentists, 4); number of wired houses, 1,877; gas, artificial; electric current, alternating; water, soft.

HAYWARD, CALIF.

(Alameda County)

1920 Population, 3,487. (1925, est. 5,000.)

City and Suburban Estimate, 15,000.

Native Whites, 75%; Foreign Born, 25%; Industrial Workers, 15%; English Reading, 90%; Families, 1,000.

Schools: Public Grade, 4; High, 1; Number of Pupils, 2,100.

Churches: Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian. 1; Roman Catholic, 1; Miscellaneous: Grace, 1; Lutheran, 1.

Banks: National, 1; State, 3; Total Resources, $5,037,529.71; Savings Bank Deposits, Total, $3,500,000.

Theatres: Moving Pictures, 1; Vaudeville, 1. Total number of seats, 800.

Location: On Southern Pacific, and Western Pacific RRs. Trunk line connections with key system boats on San Francisco Bay. To nearest largest city, by railroad, 1 hour; by trolley, 1 hour; by auto, 1 hour.

Manufacturing Establishments: Leading firms, Hunt Brothers Cannery, Farm Products Corporation, Eden Creamery, Jersey Creamery.

Special Information: Hayward's population grows solidly over the city limit lines at all points. While the city population is estimated at 5,000, the population of the city and adjoining districts is 15,000.

Residential Features: One thousand homes, only one apartment house. Ninety per cent of people are home owners and have single houses.

Retail Shopping Section: Castro Street, 8 blocks; A Street, 3 blocks; B Street, 8 blocks; C Street, 3 blocks; Watkins Street, 4 blocks; Main Street, 6 blocks.

Trading Area: Fifteen miles east of town, 10 miles south; 3 miles north to San Francisco Bay, and 5 miles west. Trading center of very diversified farming region, poultry center, fruit and vegetable canneries and preserving plants.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto agencies, 3; automobile accessories, 8; automobile tire agencies, 12; bakers, 4; total cigar stores and stands (including hotels), 15 (chain, 1); confectioners (including hotel stands), 8; delicatessen, 2; dressmakers, 6; druggists, 5; dry goods, 3; department stores, 2; electrical supplies, 3; florists, 2; fruits, 18; furniture, 3; garages (public), 12; total grocers, 12 (chain, 2); hardware, 3; jewelry, 4; meat markets, 6; men's furnishings, 2; men's clothing, 5; merchant tailors, 2; milliners, 4; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 12; restaurants (including hotels), 5; shoes, 6; sporting goods, 1; stationers, 2; women's apparel (exclusive), 1.

HEALDSBURG, CALIF.

(Sonoma County)

1920 Population, 2,412.

City and Suburban Estimate, 3,750.

Native Whites, 75%; Foreign Born, 25%; English Reading, 95%; Families, 750.

Schools: Public Grade, 1; High, 1; Number of Pupils, 800.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 2.

Banks: National, 2; Total Resources, $4,668,988.21; Savings Bank Deposits Total, $1,634,102.41.

Theatres: Legitimate, 1 combination; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 2,500.

Location: On main line of Northwestern Pacific Ry., 60 miles north of San Francisco, on Russian River and famous Redwood Highway. Bus lines from Eureka to San Francisco pass through, and line from Healdsburg to Santa Rosa (16 miles); also one from Healdsburg to The Geysers (24 miles). Paved highways radiate. To nearest large city, by railroad, 30 minutes; by auto, 30 minutes.

Principal Industries: Agriculture, canneries, fruit packing. No purely factory industries in Healdsburg.

Manufacturing Establishments, 8; California Packing Corp., California Prune Apricot Growers Assn., J. F. Miller & Sons, Sebastopol Apple Growers' Union, Diana Packing Co., Enterprise Canning Co., Sherriffs Brothers.

Special Information: Healdsburg is in the very heart of one of the richest agricultural sections of California, noted for the high quality of its prunes. The hops raised in this locality get highest market price, and grape juice shipped in cold storage all over the country also bring in top price. Orchard land held from $1,500 to $2,500 per acre. Sonoma County, of which Healdsburg is in the richest section, has been declared the 8th county in value of agricultural products, by the U. S. Census Bureau, in the entire United States.

Residential Features: Almost exclusive residential section of single homes; two or three small apartment houses, a couple of rooming houses, and two hotels. Houses average $4,500.

Retail Shopping Section: West St., 5 blocks; Center St., 3 blocks; Matheson St., 3 blocks; Powell St., 2 blocks; North St., 2 blocks. In the center is a park covering an entire block. Several neighborhood stores.

Trading Area: 20 miles north, 15 miles east and west; 10 miles south. Special sales draw trade from as far north as 75 miles.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 2; (District Agents' Representatives, 8); commercial auto agencies, 3; automobile accessories, 5; automobile tire agencies, 8; bakers, 2; cigar stores and stands (including hotels) 8 (chain, 1); confectioners (including hotel stands), 4; dressmakers, 2; druggists, 3; dry goods, 2; department stores, 1; electrical supplies, 4; florists, 1; furniture, 2; garages (public), 11; grocers, 8 (chain, 2); hardware, 4; jewelry, 2; meat markets, 5; men's furnishings, 1; men's clothing, 1; merchant tailors, 2; milliners, 3; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 4; restaurants (including hotels), 8; shoes, 3; sporting goods, 5; stationers, 2; women's apparel, 2.

Miscellaneous Data: Average temperature, 60 degrees; average number of rainy days per 12 months, 60; most pleasant months March to October, inclusive; doctors (medical, 4), (dentists, 5), (osteopaths, 1); electric current, alternating; water, soft.

HOLLYWOOD, CALIF.

(Los Angeles County)

1920 Population, 60,000.

City and Suburban Estimate (1925, est. 130,000).

Native Whites, 90%; Foreign Born, 10%; Industrial Workers, 15%; English Reading, 96%; Families, 20,000.

Schools: Public Grade, 15; High, 2; Junior High, 1; Parochial, 3; Number of Pupils, 18,529.

Churches: 33; Baptist, 2; Christian Science, 4; Congregational, 3; Episcopal, 3; Hebrew, 1; Methodist, 6; Presbyterian, 3; Roman Catholic, 3; Miscellaneous: Christian, 1; Lutheran, 2; Pro-Catholic, 1; Unitarian, 2.

Banks: 34; National, 3; State, 31; Savings Bank Deposits Total, $55,000,000. Total bank clearings, 1924, $319,147,541.85.

Theatres: Moving Pictures, 16; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, in theatres, 8,000; in private auditoriums, 10,500.

Location: Seven miles from the business center of Los Angeles; 32 miles from Los Angeles harbor. Hollywood is served by the same railroads and steamship lines that serve Los Angeles, using the L. A. stations and terminals. Hollywood is connected to L. A. by five street car lines, operated by two companies, and by six motor bus lines operated jointly by the street car companies. To Los Angeles, by trolley, 30 minutes; by auto, 30 minues (no railroad).

Principal Industries: Moving pictures and numerous allied industries, building materials, eighteen motion picture laboratories.

Manufacturing Establishments: 32. There are 53 moving pictures companies operating in Hollywood. Leading firms include Buster Keaton Comedies, Century Film Corporation, Christie Comedy Company, Famous Players-Lasky, Fox, Hollywood Studios, Sol Lesser Productions, Principal Pictures Corporations, Schenck Productions, United Studios, Vitagraph, Lois Weber, Hunt Stromberg. Total value of output of moving picture studios for 1925 is estimated in excess of $175,000,000.

Special Information: There are 25,000 people employed in the various branches of the moving picture industry, which has a yearly payroll estimated at $75,000,000, and which spends for materials $30,000,000 annually. The University of California, Los Angeles branch, is in Hollywood, so is the California Christian College. There are numerous private schools of stenography, dancing, musical, sculptoring, English, scenario writing, and military academies. Hollywood has its natural amphitheatre. The Hollywood Bowl, with summer symphony concerts and operas; an annual season of production of the Pilgrimage Play, America's Oberammergau. There are 43 civic, commercial and social clubs in Hollywood. The Hollywood Chamber of Commerce has a membership of 1,500.

Residential Features: Hollywood is generally considered the best residential section in Los Angeles. It is a community of homes, private single dwellings predominating. There are a large number of bungalow courts, high class apartments and two-family dwellings. No tenement district. Values of homes varies from $5,000 to $200,000.

Retail Shopping Section: Hollywood, Sunset and Santa Monica Boulevards are best east and west business thoroughfares in that order. Hollywood and Santa Monica Boulevards have street car lines; Sunset has a bus line. Vermont and Western avenues are best north and south business streets, each has a bus line; Western has a street car line in addition. Highest class shops and limit-height buildings (12 stories) are on Hollywood Boulevard. None of these streets are built solidly with business. They are from four to six miles long.

Trading Area: This shopping section has as its trading area the territory within and immediately adjacent to the boundaries of Hollywood, which include a population of 130,000. This trading area also includes the San Fernando Valley, an area of 247 square miles.

Wholesale Houses: Building materials, 18; film accessories, 14; storage and transfer, 9.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 36; commercial automobile agencies, 8; automobile accessories, 14; automobile tire agencies, 31; bakers, 36; cigar stores and stands (including hotels), 27 (chain, 1); confectioners (including hotel stands), 41; delicatessen, 22; dressmakers, 8; druggists, 91 (chain, 3); dry goods, 37; department stores, 2; electric supplies, 26; florists, 21; fruits, 331; furniture, 30; furriers, 16; garages (public), 36; grocers, 312 (chain, 10); hardware, 28; jewelry, 28; meat markets, 176 (chain, 9); men's furnishings, 18; men's clothing, 18; merchant tailors, 54; milliners, 41; opticians, 14; photographers, 26; pianos (and miscellaneous musical instruments), 10; radio supplies, 21; restaurants (including hotels), 183; shoes, 17; sporting goods, 8; stationers, 11; women's apparel, 42.

Miscellaneous Data: Average temperature (summer), 69.2 degrees; (winter), 56.1; Average number of rainy days per 12 months, 11; most pleasant months, February to November; doctors (medical, 137), (dentists, 81); (osteopaths, 23); number of wired houses, all; street car service; gas, natural; electric current, alternating; water, hard.

INGLEWOOD, CALIF.

(Los Angeles County)

1920 Population, 3,286.

City and Suburban Estimate (1925), 26,000.

Native Whites, 98%; Foreign Born, 2%; Industrial Workers, 20%; English Reading, 100%; Families, 6,000.

Schools: Public Grade, 5; High, 1; Number of Pupils, 5,000.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

LOS ANGELES, CALIF.

(Los Angeles County)

1920 Population, 576,673. (1925 est. 1,100,000).

City and Suburban Estimate, (1920) 700,000; (1925) est. 1,280,000.

Native Whites, 75.4%; Negroes, 2.7%; Foreign Born, 21.9%; Industrial Workers, 31.6%; English Reading, 95%; Families, (1920) 159,476; (1925) est. 301,000.

Schools: Public Grade, 234; High, 23; Junior High, 14; Parochial, 37; Number of Pupils (Sept. 8, 1925), 176,848.

Churches: Baptist, 58; Christian Science, 20; Congregational, 27; Episcopal, 28; Hebrew, 21; Methodist, 80; Presbyterian, 52; Roman Catholic, 49; Miscellaneous, 211.

Banks: National, 14; State, 24; Total Resources, $1,084,527,009. Savings Bank Deposits Total, $547,310,665.

Theatres: Legitimate, 6; Moving Pictures, 127; Vaudeville, 4; Burlesque, 3; Miscellaneous (Auditoriums, etc.) 3. Total number of seats, 122,095.

Location: On the Pacific Coast of Southern California, served by Santa Fe, Union Pacific and Southern Pacific Railroads. Pacific Electric Railway connects with all cities within a radius of 75 miles. Extensive bus service in all directions. Direct steamship service to all of the principal ports of the world.

Principal Industries: Motion pictures, petroleum products, iron and steel machinery, food products, meat packing, agriculture, lumber and planing mills, confectionery, ice cream, wearing apparel.

Manufacturing Establishments: 5,750. Leading firms: Bishop & Company, Angelus Furniture Co., Llewellyn Iron Works, Cudahy Packing Co., Milton G. Cooper Co., Pacific Ready Cut Homes, Inc. Total value of yearly output of factories estimated at $959,806,503 (1922). $1,100,000,000, (1923 estimate). $1,175,000,000. (1924 estimate).

Special Information Largest city on the Pacific Coast, and the wholesale jobbing center for Pacific southwest. 139 steamship lines (15 carrying passengers) operate out of the port of Los Angeles; 7,445,573 out of 9,618,615 tons of the east-bound traffic through the Panama Canal during the year of 1923 originated at Los Angeles, and 1,177,463 out of 3,772,769 tons of west-bound traffic was consigned to Los Angeles. Manufacturing is rapidly increasing; the monthly payroll for 1923 being $27,015,634.

Residential Features: Los Angeles is largely a town of single family and duplex homes. There are two high class residential sections occupying considerable area of the western portion of the city where the values range from $20,000 upward. The middle-class homes will average in value from $5,000 to $10,000. There are a few low-price residential sections where the valuations will range from $2,000 to $4,000.

Retail Shopping Section: The principal downtown shopping district extends from First Street for nine blocks along Main, Spring, Broadway and Hill streets, continuing out Main for another 20 odd blocks. Exclusive retail shops are located on 6th, and 7th Streets, the latter covering a distance of nearly a mile to Westlake Park. In the western portion of the city there is a local shopping area in Holywood extending from Western Avenue about 20 blocks westward. In addition there are over 50 local shopping districts extending for two or three blocks in various parts of the city.

Trading Area: About 40 to 60 miles. This area is served by the numerous bus lines as well as by frequent service on the Pacific Electric Railway. This area is practically all covered by the leading department stores with a daily delivery service, and all is within the "two-or-three deliveries per week" area of these stores.

Wholesale Houses: Groceries, 25; meats, 30; fruits, 32; hardware, 20; dry goods, 30; miscellaneous lines: electric supplies, 7; furniture, 30; drug, 16; shoes, 18; confectionery, 70; stationery, 10.

Number of Retail Outlets for Nationally Advertised Products: Automobile agencies, 325; auto accessories, 340; auto tire agencies, 240; bakers, 425; cigar stores and stands, 320 (chain, 75); confectioners, 675; delicatessen, 85; dressmakers, 525; druggists, 746 (chain, 69); dry goods, 429; department stores, 31; electrical supplies, 151; florists, 150; fruits, 675; furniture, 380; furriers, 65; garages, 390; grocers, 2,990 (chain, 365); hardware, 385; jewelry, 365; meat markets, 1,235 (chain, 135); men's furnishing & clothing, 225; merchant tailors, 3; milliners, 335; opticians, 208; photographers, 190; pianos and musical supples, 102; radio supplies, 142; restaurants, 2,110 (chain, 28); shoes, 223; sporting goods, 32; stationers, 59; women's apparel, 113.

cific. Salt Lake line. Hourly motor bus transportation to San Francisco and Los Angeles. Served by paved highways to Portland, Los Angeles and San Francisco. River navigation to Sacramento and San Francisco to be resumed. Government engineers now dredging channel. To Sacramento, by railroad, 2½ hours; by trolley, 2 hours; by auto, 2 hours.

Principal Industries: Fruit growing, farming, dairying, canning, gold dredging, sheep rasing in adjacent foothills, cattle. Sand pits shipping 20 carloads sand daily. Annual gold output 6 million dollars, peaches, $4,000,000 annually, pears $1,000,000 annually. Shipped 1,400 carloads of grapes this year; 4,000 acres sugar, beets grown. Rice culture extensively carried on. Every kind of fruit from apples and other northern fruits to oranges, lemons, figs, etc., thrive here and are grown commercially. One farm boasts over 200 varieties fruits, berries, and grains. Cotton now being extensively grown.

Manufacturing Establishments: Main factory Yuba Tractor Co., which also manufactures the gold dredges used in Yuba River operations and in Alaska, and in Russia. Concrete pipe factory makes irrigation systems. Virden Packing Co. operates peach and pear cannery, employing 600 to 800 persons in season. California Canning Corp. (Dei Monte Brand) operates cannery for peaches, apricots and fruits in Yuba City, employing 900 workers in fruit season. Fruit picking in summer employs 2,000 to 3,000. Flour mills, Sun Maid Raisin stemming and packing plant, brick factory. Total output valuation yearly, $23,000,000.

Special Information: 53% canning cling peaches of United States produced within an area of 15 miles from Marysville-Yuba City. 10,000 tons raised in 1925. Most of this industry centers in Yuba City. Many points of historical interest here. In early gold days of California, Marysville was principal distributing point. Several hydro-electric plants in mountains nea here receive supplies through Marysville. A $3,000,000 dredge now building for the Russian government, to be used in platinum mining in the Ural Mountains.

Residential Features: Marysville is situated in a triangle between the Yuba and Feather Rivers, and vertually all available space in this area is built up with homes, a large number of which are of native burned clay brick. Yuba City is devoted almost exclusively to one-family homes of the bungalow type. These two towns are connected by electric street cars, and it is only five minutes ride from business district of one to the other. Homes in Marysville average $8,000; in Yuba City, $4,500.

Retail Shopping Section of Marysville extends from Yuba River bridge, 5 blocks on D St. to 5th St. Cross Sts., 1st, 2nd, 3rd, 4th and 5th Sts., average 2 blocks each of business houses. C. & E. paralleling the main street (D), each have 3 blocks business houses. Yuba City has 2 retail trading districts, older being on 2d and Bridge Sts., which take 4 blocks of stores. New section lies on Plumas St. on what is known as the "Hill" and has received 59 new retail business concerns in past 2 years. These 3 shopping districts are connected by electric trolley line and are a 10 minutes' ride on the electric line.

Trading Area: Extends 100 miles north and east into foothills district of Sierra Nevada Mountains. Marysville being the only gateway into this particular area, and 25 miles to the west, south, and north, it embraces all of Yuba and Sutter counties in the Sacramento Valley, and parts of Butte, Nevada, and Colusa counties. Paved highways into these areas. Rural mail delivery out of Marysville covers Yuba County, and rural mail delivery out of Yuba City covers Sutter County.

Wholesale Houses: Groceries, 1; meats, 2; fruits, 1; hardware, 2; miscellaneous lines, 1 electrical pumps and supplies.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 20; commercial auto agencies, 5; automobile accessories, 5; automobile tire agencies, 12; bakers, 9; cigar stores and stands (including hotels), 11; delicatessen, 1; dressmakers, 15; druggists, 7; dry goods, 7; electrical supplies, 3; florists, 2; fruits, 9; furniture, 4; garages (public), 8; grocers, 36 (chain, 4); hardware, 3; jewelry, 6; meat markets, 18; men's furnishing, 8; men's clothing, 6; merchant tailors, 4; milliners, 5; opticians, 7; photographers, 2; pianos (and miscellaneous musical instruments), 3; radio supplies, 5; restaurants (including hotels), 52; shoes, 6; sporting goods, 4; stationers, 2; women's apparel, 4; auto tops, 2; harness makers, 1.

Miscellaneous Data: Average temperature, 63 degrees; average number of rainy days per year 72 months, 61; most pleasant months, March, April, May, June, Sept., Oct., Nov.; doctors (medical, 18), (dentists, 16), (osteopaths, 1); street car service; gas, artificial; electric current, alternating and direct; water, hard and soft.

MERCED, CALIF.

(Merced County)

1920 Population, 3,974. (1925 est. 7,000.)

City and Suburban Estimate, 9,000.

Native Whites, 80%; Foreign Born, 20%; Industrial Workers, 6%; English Reading, 92%; Families, 2,000.

Schools: Public Grade, 1,075; High, 450; Number of Pupils, 1,590.

Churches: Christian Science, 1; Episcopal, 2; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 5.

Banks: National, 1; State, 2.

Theatres: Moving Pictures, 2; Vaudeville, 2.

Retail Shopping Section: Extends from G street (south) to K street (north) and from Ninth street (west) to 12th street (east). Total of 34 blocks. Nine neighborhood sections with usual stores and shops.

Trading Area: Extends twenty miles south, 30 miles east, 25 miles west and 14 miles north. Considerable business is secured from people residing at more distant points due to the many miles of paved highways leading into Modesto from all directions.

Wholesale Houses: Groceries, 4; meats, 3; fruits, 4.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 26; commercial auto agencies, 7; automobile accessories, 2; automobile tire agencies, 15; bakers, 5; cigar stores and stands (including hotels), 14; confectioners (including hotel stands,) 12; delicatessen, 4; dressmakers, 14; druggists, 10 (chain, 2); dry goods, 9; department stores, 4; electrical supplies, 5; florists, 3; fruits, 7; furniture, 6; garages (public), 13; grocers, 102 (chain, 5); hardware, 4; jewelry, 6; meat markets, 17; men's furnishings, 8; men's clothing, 7; merchant tailors, 5; milliners, 9; opticians, 5; photographers, 3; pianos (and miscellaneous musical instruments), 4; radio supplies, 4; restaurants (including hotels), 61 (chain, 1); shoes, 9; sporting goods, 4; stationers, 2; women's apparel, 10.

Miscellaneous Data: Average temperature, 76 degrees! average number of rainy days per 12 months, 5 per cent; most pleasant months, May, June, Sept., Oct.; doctors (medical, 10), (dentists, 18), (osteopaths, 2); number of wired houses, all; gas, artificial; electric current, alternating and direct; water, soft.

MONROVIA, CALIF.

(Los Angeles County)

1920 Population, 5,480.

City and Suburban Estimate, 12,000.

Native Whites, 82%; Negroes, 8%; Foreign Born, 10%; Industrial Workers, 25%; English Reading, 98%; Families, 3,000.

Schools: Public Grade, 6; High, 1; Parochial, 1; Number of Pupils, 2,157.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 1; State, 2; Total Resources, $5,400,000; Savings Bank Deposits Total, $1,800,000.

Theatres: Moving Pictures, 4; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 4,200.

Location: 13 miles southeast of Los Angeles in the San Gabriel valley. Served by Santa Fe, Southern Pacific and Pacific Electric railroads. Excellent bus service to surrounding points. Transportation and shipping situation excellent. To nearest large city (Los Angeles), by railroad, 15 minutes; by trolley, 45 minutes; by auto, 30 minutes.

Principal Industries: Orange and citrus fruit growing. Dairying, poultry raising, small farming. Date packing, broom manufacturing, water heater plants, automobile and truck and tractor manufacturing. Sash and door factory.

Manufacturing Establishments: 10. Leading firms, Day & Night Solar Heater Company; Coast Heaters Mfg. Co.; Kimball Truck Co.; Campbell Sash & Door Co.; Colby Mfg. Co.; Valley Packing Assn. (largest date packing plant in the U. S.) Total value of yearly output of factories estimated at $12,000,000.

Special Information: Largest city in the San Gabriel valley. One of the largest shipping points for citrus fruits in citrus growing section of So. California. Noted as health center with numerous recreation resorts and sanitariums. Rapidly growing industrial city making concerted bid for establishment of small industries of various nature. Per capita wealth high. For years recognized as one of most stable small communities in southern section of state.

Residential Features: Mostly one and two-family houses, with one-family houses and private homes of highest class architecture highly predominant. No tenement or cheap residence district, due to its location in foothill country and popular permanent home location of people of wealthy class. Homes in better residence sections will average in value $6,000.

Retail Shopping Section: Myrtle avenue, White Oak avenue, Olive, Lemon and Lime streets. Extends on Myrtle from Olive to White Oak, a distance of 6 long blocks, one block each side of Myrtle on intersecting streets and two blocks each side on Olive and White Oak. Two outlying small retail centers.

Trading Area: Extends out for a radius of 5 to 7 miles. Considerable business from small communities immediately surrounding.

Wholesale Houses: Wholesale business on small lines only, most wholesale distribution coming from Los Angeles.

Number of Retail Outlets for National Advertised Products: Passenger automobile agencies, 22; commercial auto. agencies, 7; automobile accessories, 7; automobile tire agencies, 8; bakers, 5; cigar stores and stands (including hotels), 11; confectioners (including hotel stands), 14; delicatessen, 3; dressmakers, 6; druggists, 8 (chain, 1); dry goods, 6; department stores, 4; electrical supplies, 4; florists, 4; fruits, 11; furniture, 3; furriers, 1; garages (public), 17; grocers, 25 (chain, 4); hardware, 4; jewelry, 4; meat markets, 22 (chain, 4); men's furnishings, 7; men's clothing, 6; merchant tailors, 2; milliners, 3; opticians, 5; photographers, 2; pianos (and miscellaneous muscal instruments), 2; radio supplies, 6; restaurants (including hotels), 10; shoes, 6; sporting goods, 3; stationers, 2; women's apparel, 10.

Miscellaneous Data: Average temperature 77 degrees. Average number of rainy days per twelve months 5 per cent. Most pleasant months nearly all. Doctors (medical, 24), (dentists, 7), (osteopaths, 5). Number of wired houses, 3,145. Street car service, Gas, natural. Electric current, Alternating and direct Water, soft.

MONTEREY, CALIF.

(Monterey County)

1920 Population, 5,479 (Monterey only).

City and Suburban Estimate, 13,000 (including immediately adjacent Pacific Grove and Carmel by the Sea).

Native Whites, 75%; Negroes, 1%; Foreign Born, 24%; Industrial Workers, 20%; English Reading, 95%; Families, 1,600.

Schools: Public Grade, 2; High, 1; Parochial, 1; Number of Pupils, 1,570.

Churches: Baptist, 1; Christian Science, 3; Congregational, 1; Episcopal, 2; Methodist, 1; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 3.

Banks: National, 1; State, 1; Total Resources, $3,428,918.27; Savings Bank Deposits Total, $1,643,132.20. (Also 1 bank in Carmel, 2 in Pacific Grove.)

Theatres: Legitimate, 1; Moving Pictures, 2 (also one in Carmel and 1 in Pacific Grove; Miscellaneous (Auditoriums, etc.), 3.

Location: Southern Pacific Railroad, Santa Cruz and Monterey S. S. line, and Linden S. S. line. The steamship lines are merely freight lines, picking up fresh and canned fish from industries here, lumber, etc. Monterey is situated on the southern part of the great Bay of Monterey, which promises to become a great seaport in the future. Excellent bus service to Santa Cruz, San Francisco, San Jose, Los Angeles and the San Joaquin Valley and Yosemite. In the background is the great Salinas Valley.

Principal Industries: Fisheries, sardine canning, poultry, dahlia tubers, gladiolus bulbs, diatomaceous earth, mining, stock raising.

Manufacturing Establishments: 7 large canneries. Leading firms: Hoyden Canning Co., Booth Canning Co., Carmel Canning Co., Monterey Canning Co., Funston & Gross Bayside Company, Monterey Products Co. Total value of yearly output of factories estimated at $4,000,000, not including Monterey Products Co.

Special Information: Monterey Peninsula is the greatest playground of California. Regular flow of business dependent upon the sea throughout year, maintaining general level of prosperity, which reaches very high peaks in summer and winter months, as result of tremendous influx of tourists and Californians from the valleys. Jobbing houses consider this locality this year a "bright spot" in California. All merchants credits very high. City of Monterey, which is main center of peninsula, is the old capital of California, first and last Spanish capital, Mexican capital, and here the American flag was first raised officially in California. Great number of historic buildings and land marks. Presidio of Monterey, home of 11th U. S. Cavalry and 76th Field Artillery, C. M. T. C. camps, National Guard summer camp, Hotel Del Monte.

Residential Features: Mostly one-family houses. No slums, no tenements. Private homes, owned by occupants, predominate greatly in Monterey, Pacific Grove and Carmel. Homes average in value about $5,000, but there is great variation, due to expensive villas in Monterey, Pebble Beach and Carmel Highlands, 18,000 acres being exploited by Del Monte Properties Company for the homes. Climate shows variation of mean temperature winter and summer not more than ten degrees. Great purchasing power in population.

Retail Shopping Section: Alvarado street in Monterey, three blocks, in main shopping district—Lighthouse avenue in New Monterey section of Monterey is secondary district, two blocks; also Lighthouse avenue in Pacific Grove, three blocks, and Ocean avenue in Carmel, three blocks. Main shopping district is in Monterey, to which most business comes from Pacific Grove, Carmel and outlying territory. There is the city of Monterey as a political unit, but it is the Monterey Peninsula that is the economic trading unit.

Trading Area: Extends 38 miles to the south down the coast-line, 33 miles up Carmel Valley, 15 miles N. E. toward Salinas, 14 miles North up the coast-line, and including the entire Monterey Peninsula, which is composed of Monterey, Pacific Grove and Carmel. Hotel Del Monte, Del Monte Lodge, Pebble Beach and Seaside, are all immediately adjacent communities. There is a high class bus service within and between these places.

Wholesale Houses: Groceries, 2; meats, 2; miscellaneous lines, 12 fresh and packed fish, 1 flour products.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 17; commercial auto agencies, 3; automobile accessories, 8; automobile tire agencies, 9; bakers, 6; cigar stores and stands (including hotels), 19; confectioners (including hotel stands), 11; delicatessen, 3; dressmakers, 11; druggists, 8; dry goods, 5; department stores, 3; electrical supplies, 5; florists, 3; fruits, 3; furniture, 5; garages (public), 9; grocers, 31; hardware, 5; jewelry, 5; meat markets, 12; men's furnishings, 4 exclusively; men's clothing, 4 exclusively; merchant tailors, 6; milliners, 4 exclusively; opticians, 2; photographers, 9; pianos (and miscellaneous musical instruments), 3; radio supplies, 4; restaurants (including hotels), 38; shoes, 10; sporting goods, 3; stationers, 3; women's apparel, 3.

NAPA, CALIF.

(Napa County)

1920 Population, 6,757. (1925, est. 7,600.)

City and Suburban Estimate, 10,000.

Native Whites, 75%; Foreign Born, 25%; English Reading, 95%; Families, 1,200.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 150.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 1; State, 2; Bank of Italy, 1; Total Resources, $8,385,925.30.

Theatres: Moving Pictures and Vaudeville combined, 1; Miscellaneous (Auditoriums, etc.), Hippodrome, 1. Total number of seats, 1,800.

Location: At the head of navigation on Napa

Continued on page 18

CALIFORNIA (Cont'd)

Napa (con't)

River, 46 miles north of San Francisco. One steam car, and one electric line. Boat plys between Napa and San Francisco daily, carrying freight and passengers. To nearest larger city by railroad, 3 hours; by trolley or auto, 2½ hours.

Principal Industries: Grape and prune growing, peaches, apricots, cherries and apple cultivation. Boots and shoes, tanning, gloves, shirts,

Manufacturing Establishments: Leading firms: California Glove Co., Keig's Boot & Shoe Co., Sawyer Tanning Co., Cameron Shirt Factory, Sugar Beet Factory. Total value of yearly output of factories estimated at $3,750,000.

Special Information: A beet sugar factory, with a daily capacity of 600 tons, is now under construction. This industry wil add very materially to the agricultural production of the farmers, and the value of the output of the factories.

Residential Features: Ideal location for homes. Excellent climate, pure mountain water, transportation facilities unexcelled, good soil, many wooded hillsides. Its proximity to San Francisco Bay, and other bay cities makes Napa an ideal residential city.

Retail Shopping Section: On Main Street, 4 blocks; Brown Street, 5; Coombs Street, 3; First Street, 3; Second Street, 2; Third Street, 2.

Trading Area: North, 30 miles; east, 30; south, 10; west, 14.

Wholesale Houses: Fruits, 6.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 16; automobile accessories, 6; automobile tire agencies, 18; bakers, 6; cigar stores and stands (including hotels), 18 (chain, 2); confectioners (including hotel stands), 10; delicatessen, 2; dressmakers, 8; druggists, 5; dry goods, 14; department stores, 2; electrical supplies, 12; florists, 1; fruits, 30; furniture, 2; garages (public), 32; grocers, 34 (chain, 4); hardware, 6; jewelry, 4; meat markets, 6; men's furnishings, 8; merchant tailors, 2; milliners, 10; opticians, 4; photographers, 4; pianos (and miscellaneous musical instruments), 2; radio supplies, 8; restaurants (including hotels), 16 (chain, 1); shoes, 4; sporting goods, 4; stationers, 4; women's apparel, 10.

Miscellaneous Data: average temperature, 52 degrees; average number of rainy days per twelve months, 25; most pleasant months, June to October, inclusive; doctors (medical, 20), (dentists, 12); (osteopaths, 3); street car service; gas, artificial; electric current, alternating; water, soft.

OAKLAND, CALIF.

(Alameda County)

1920 Population, 216,261.

City and Suburban Estimate: (1925), Oakland, 295,000; Oakland and contiguous territory, 475,000.

Native Whites, 204,004; **Negroes,** 5,489; **Foreign Born,** 45,162; **Industrial Workers,** 39,000; **English Reading,** 208,261; **Families,** 43,252.

Schools: Public Grade, 50; High, 6; Junior High, 17; Parochial, 9; Number of Pupils, 53,000.

Churches: Baptist, 17; Christian Science, 10; Congregational, 12; Episcopal, 12; Hebrew, 15; Methodist, 25; Presbyterian, 15; Roman Catholic, 17; Miscellaneous, 62.

Banks: National, 2; State, 5; Total Resources, $173,000,000; Savings Bank Deposits Total, $98,500,000.

Theatres: Legitimate, 2; Moving Pictures, 35; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 50,248.

Location: Oakland is the hub, or trading center of a group of communities on the eastern, or continental shores of San Francisco Bay, easily accessible from all directions, with expansion possibilities unlimited. A growing, prosperous territory with an estimated population in excess of 550,000. To San Francisco, by rail or ferry, 40 minutes.

Principal Industries: Diversified, from automobile manufacturing, fruit packing, electric lamp manufacturing, chemical industries to paints and roofing materials, caused by comparatively low distribution costs, excellent transportation facilities, complete power requirements, ideal climate and satisfied labor.

Manufacturing Establishments: 1,050. Leading firms: General Motor Co., Durant Motor Co., Fageol Motor Co., Fisher Body Co., Victor Talking Machine Co., California Cotton Mills Co., Magnavox Company, Montgomery Ward Co., Libby, McNeill & Libby, Palmolive Co., Wyllis Overland Pacific Co., and many others of equal importance, nationally and locally. Total value of yearly output of factories estimated at $400,000,000.

Special Information: Location of the city makes it the terminus of the Southern Pacific, Western Pacific, and Santa Fe Railways. Oakland has wonderful water terminal facilities which mke the city a port of ever increasing importance. It is a port of call for steamers from ports all over the world. Oakland is well termed the city "Where Rail and Water Meet."

Residential Features: The homes of Oakland possess a charm that inspires a love of home and pride in ownership. It is a perfect home city, with private homes for working men, but with the wealthier classes predominating. There are no slums or tenement districts. The average cost of the Oakland home will range from $5,000 to $8,000.

Retail Shopping Section: Extends First and Broadway, Washington, Franklin, and Webster streets, on the South to 28th and Broadway, on the North to 14th and Broadway, the center or hub of all radiating laterals for street cars, bus transportation and automobile boulevards or highways leading to the great Santa Clara Valley. On the east and south are Richmond, Vallejo and a rich back country. On the north and east small sectional trading centers are numerous throughout this entire district.

Trading Area: Extends about fifty miles east and north. A wonderful system of paved highways, steam railways, electric railways, locally situated trolley lines and efficient motor bus transportation make trading in Oakland from any point within this fifty mile radius an event of convenience and pleasure for the buyer.

Wholesale Houses: Groceries, 10; meats, 15; fruits, 38; hardware, 1; dry goods, 4; shoes, 1; confectionery, 21.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 42; commercial auto agencies, 8; automobile accessories, 39; automobile tire agencies, 69; bakers, 152; cigar stores and stands (including hotels, 198 (chain, 16); confectioners (including hotel stands), 102; delicatessen, 40; dressmakers, 15; druggists, 227 (chain, 19); dry goods, 59; department stores, 6; electrical supplies, 50; florists, 75; fruits, 92; furniture, 78; furriers, 21; garages (public), 206; grocers, 1,257 (chain, 190); hardware, 108; jewelry, 55; meat markets, 234 (chain, 29); men's furnishings, 32; men's clothing, 26; merchant tailors, 116; milliners, 33; opticians, 40; photographers, 51; pianos (and miscellaneous musical instruments), 37; radio supplies, 83; restaurants (including hotels), 215 (chain, 12); shoes, 59; sporting goods, 15; stationers, 21; women's apparel, 100.

See announcement page 19

ONTARIO, CALIF.

(San Bernardino County)

1920 Population, 7,280. (1925, est. 12,500.)

City and Suburban Estimate, 28,000.

Native Whites, 96%; **Foreign Born,** 4%; **English Reading,** 95%.

Schools: Public Grade, 4; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 3,500.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 6.

Banks: National, 2; State, 1; Total Resources, $4,497,106; Savings Doposits, $1,515,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1; Total number of seats, 3,000.

Location: On main lines of Union Pacific, Southern Pacific, and Santa Fe, R.Rs. Bus service and Pacific Electric interurban connections to all points in southwestern California; 37 miles east of Los Angeles, midway between mountains and the sea in a fertile valley devoted to intensive cultivation in agriculture and horticulture. To nearest large city, by railroad, 2 hours; by trolley, 2 hours; by auto, 2 hours.

Principal Industries: Electric appliances, work clothing (men's and children's), automobile accessories and metal specialties.

Manufacturing Establishments: 4. Leading firms: Edison Electric Appliance Co.; Hotpoint plant of Edison Electric Appliance Co., Ironall Factories, Inc.

Special Information: Ontario is uniformly prosperous because of the diversity of its resources and industries. There are a dozen different industries that insure good times. Citrus fruits keep the packing houses busy; deciduous fruits keep the canneries going; poultry and dairying are active throughout the year; the Hotpoint electric plant, manufacturing a nationally known product and some smaller industries furnish steady employment to hundreds. A junior college of agriculture attracts many.

Residential Features: Ontario has a far wider and more populous community than the census report indicates. Although the 1920 census gave it 7,280 and it is now 12,500 (est.), it is the center of a close-in community of 18,850 and has a trading territory of 30,000. It is a well balanced community, mostly devoted to agriculture and horticulture, but with an unusual amount of industrial activity for a western city. People are prosperous, nearly all living in their own homes.

Retail Shopping Section: Centers at Euclid and A streets; 6 blocks on Euclid and 8 blocks on A, with intervening blocks occupied by smaller shops.

Trading Area: Extends 15 miles east, 18 miles south, 10 miles north and 5 miles west. Good roads in every direction make trading easy for any one in the trading territory, and free telephone service to all the tributary territory makes Ontario the trading centers for entire region.

Number of Retail Outlets for Nationally Advanced Products: Passenger automobile agencies and commercial auto agencies 25; automobile accessories 15; automobile tire agencies 6; bakers 5; cigar stores and stands (including hotels) 10 (chain 1); confectioners (including hotel stands), 8; delicatessen, 2; dressmakers, 6; druggists 6 (chain 1); dry goods 6; department stores 3; electrical supplies 3; florists 2; fruits, 2; furniture, 4; garages (public), 22; grocers, 43 (chain, 2); hardware, 3; jewelry, 4; meat markets, 13 (chain, 2); men's furnishings, 4; men's clothing, 4; merchant tailors, 7; milliners, 8; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 1; radio supplies, 6; restaurants (including hotels), 10; shoes, 5; sporting goods, 1; stationers, 8; women's apparel, 6.

Miscellaneous Data: Average number of rainy days per 12 months, 14; most pleasant months, February to December; doctors (medical, 20), (dentists, 8), (osteopaths, 6); number of wired houses, 5,000; street car service; gas, natural; electric current, alternating; water, medium hard.

ORANGE, CALIF.

(Orange County

1920 Population, 4,884. (1925, est. 9,000.)

City and Suburban Estimate (1925), 14,000.

Native Whites, 95%; **Foreign Born,** 5%; **Industrial Workers,** 20%; **English Reading,** 98%.

Schools: Public Grade, 5; High, 4 (1,300 seats); Parochial, 2; Number of Pupils, 1,800.

Churches: Baptist, 1; Christian Science, 1; Christian Disciples, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 2; Lutheran, 1; Free Methodist, 1; Nazarene, 1.

Banks: National, 4; State, 1 (savings department also); Total Resources, $3,892,131.64; Savings Bank Deposits Total, $988,732.90.

Theatres: Moving Pictures, 1; Vaudeville, 1.

Location: Santa Fe, Pacific Electric, and Southern Pacific R.Rs. Crown Stage bus line. To nearest large city, by railroad, 1 hour; by trolley, 1½ hours; by auto, 1½ hours.

Principal Industries: Wire works, cordage factories, rope factory, gold leaf factory, cereal breakfast food, towel factory, ice and cold storage, citrus packing plants, cement pipe works.

Manufacturing Establishments: 10. Leading firms: California Wire Co., California Cordage Co., Western Cordage Co., West Coast Textile Co.

Special Information: Ideal labor conditions are helpful to all industries. Cheap power and ample raw material for industries named.

Residential Features: Mostly bungalows. Numerous small ranches.

Retail Shopping Section: Glassell St. and Chapman Ave. are main business streets. The Plaza is a circular park in the heart of the city from which business district radiates.

Trading Area: 2 miles from El Modena to Orange, 3½ miles from Olive, 2 miles from Villa Park, 2 miles from West Orange.

Wholesale Houses: Groceries, 1; fruits, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; automobile accessories, 2; bakers, 3; druggists, 4; dry goods, 4; electrical supplies, 3 florists, 2; fruits, 2; furniture, 3; garages (public), 5; grocers, 25 (chain, 5); hardware, 2; jewelry, 2; meat markets, 10 (chain, 2); men's furnishings, 3; men's clothing, 3; merchant tailors, 1; milliners, 2; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 4; restaurants (including hotels), 5; shoes, 4; sporting goods, 2; stationers, 2; women's apparel, 2.

Miscellaneous Data: Average temperature, 65 degrees average number of rainy days per 12 months, 25; most pleasant months, nearly all; doctors (medical, 5), (dentists, 4), (osteopaths, 2); number of wired houses, 3,300; street car service; gas, natural; electric current, direct; water, hard.

OROVILLE, CALIF,

(Butte County)

1920 Population, 3,340. (1925, est. 5,700.)

City and Suburban Estimate, 11,000.

Native Whites, 90%; **Negroes,** 2%; **Foreign Born,** 8%; **Industrial Workers,** 20%; **English Reading,** 93%; **Families,** 2,015.

Schools: Public Grade, 4; High, 1; Junior High, 1; Number of Pupils, 1,400.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Hebrew, 1; Methodist, 1; Roman Catholic, 1.

Banks: National, 1; State, 1; Total Resources, $1,900,000; Savings Bank Deposits Total, $450,000

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), Civic Auditorium. Total number of seats, 3,000.

Location: At the mouth of Feather River canyon. On Southern Pacific, Western Pacific and Northern Electric Rys. Division point on Western Pacific Ry. To nearest large city, by railroad, 2 hours 10 minutes; by trolley, 2 hours 15 minutes; by auto, 2 hours.

Principal Industries: Orange, olive, grape, fig, nut and cotton growing, tile and brick factory.

Manufacturing Establishments: 3. Leading firms: Virden Packing Co., The Olive Products Co., Wyandotte Canneries. Other independent fruit packing companies. Total value of yearly output of factories estimated at $4,000,000.

Special Information: Railroad shops located at Oroville. Direct shipment east to Chicago by the shortest route east and west.

Residential Features: A wide section devoted to private residences. Most homes owned by occupants, mostly single families.

Retail Shopping Section: Six streets averaging 4 blocks each.

Trading Area: East 180 miles (canyon country); west, 15 miles; north, 25 miles; south, 25 miles.

Wholesale Houses: Groceries, 1; meats, 1; fruits, 5; hardware, 1; drugs, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial auto agencies, 3; automobile accessories, 4; automobile tire agencies, 6; bakers, 4; cigar stores and stands (including hotels, 7; confectioners (including hotel stands), 3; delicatessen, 1; dressmakers, 7; druggists, 4; dry goods, 4; department stores, 3; electrical supplies, 3; florists, 1; fruits, 3; furniture, 2; garages (public), 5; total grocers, 32 (chain, 4); hardware, 3; jewelry, 3; total meat markets, 3 (chain, 1); men's furnishings, 4; men's clothing 4; merchant tailors, 2; milliners, 3; opticians 2; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 4; restaurants (including hotels), 3; shoes, 3; stationers, 1; women's apparel, 4.

Miscellaneous Data: Average temperature, 61½ degrees; average number of rainy days per 12 months, 56; most pleasant months, all but January and February; doctors (medical, 8), (dentists, 4), (osteopaths, 3); gas, artificial; electric current, alternating; water, soft.

OXNARD, CALIF.

(Ventura County)

1920 Population, 4,417.

City and Suburban Estimate, 12,000.

Native Whites, 80%; **Negroes,** 1%; **Foreign Born,** 19%; **Industrial Workers,** 25%; **English Reading,** 95%; **Families,** 1,000.

Schools: Public Grade, 3; High, 1; Parochial, 1; Number of Pupils, 800.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 2.

Banks: National, 1; State, 1; Total Resources, Savings Bank Deposits Total, $6,000,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 800.

Location: 62 miles north of Los Angeles, on Southern Pacific R. R.

Principal Industries: Truck farming, sugar beet raising and sugar manufacturing, lima beans.

Manufacturing Establishments: A. B. S. sugar factory, Wineman A. B. S. factory and Dunn Mfg. Co. Total value of yearly output of factories estimated at $5,250,000.

Special Information: Oxnard is close to shipping port at Hueneme, excellent transportation facilities, fertile soil, every street in the city paved, fine school systems, ideal climate.

Residential Features: Mostly one-family houses and adequate apartments. Restricted poorer section. Private homes perdominate. Handsome residential section takes in twelve square blocks with Fifth Street as main business thoroughfare.

Trading Area: Five miles west and south of city, and 25 miles east.

In Oakland, California

[And Trading Area]

—indicative of progress, population-increase and sound prosperity is the vast amount of needed construction work now being carried to completion.

Public service corporations show increasing demands made by the people of the Eastbay cities for water, telephone, gas and electric connections. Street car and bus transportation companies are continually extending and increasing carrying facilities.

107,511 water meters are in service.
5,523 new water meters were installed in the first six months of 1925.

91,900 gas meters are in service at this time.
3,785 new gas meters were installed in the first six months of 1925.

323,049 passengers is the average number carried daily by the public transportation service of the Eastbay area.

Downtown building construction continues with the general move and trend of business. The construction of dwellings in all parts of the community is greater than for any previous period. New homes by the block are being erected and sold in great numbers.

13,094 building permits were issued in the Eastbay area in the first six months of 1925. Total amount of money involved in this immense building program is $25,261,890.

School construction work is going forward with adequate speed to meet the needs of increasing school registrations.

A $9,600,000 bond issue recently voted by the people in this community is now being used for the improvement and the enlargement of schools already functioning and for the building of many additional units to the present schools system.

55,000 pupils are enrolled in the Eastbay public schools. 3,535 pupils are enrolled in Eastbay private schools. The University of California registration is above 10,000.

REDWOOD CITY, CALIF.

920 Population, 4,020 (Chamber of Commerce timate, 1925, 5,350).

ity and Suburban Estimate, 12,000 (entire ling area).

ative Whites, 90%; Negroes, 1%; Foreign n, 9%; Industrial Workers, 19%; English ding, 92%; Families, 1,600.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 1,710.

Churches: Baptist, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Roman Catholic, 1.

Banks: National, 1; State, 1.

Theatres: Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), 3.

Location: Located 25 miles south of San Francisco on the San Francisco peninsula, main line of the Southern Pacific, Peninsula Rapid Transit Co., and other bus lines. Also many trucking companies out of San Francisco. Water and barge transportation down the San Francisco Bay.

Principal Industries: Cement, leather tanning, magnesia, asbestos, salt, silicate, fruit and produce canning.

Manufacturing Establishments, 10. Leading firms: Pacific Portland Cement Co., Frank Tannery, Beegar Tannery, National Magnesia Co., Pratt-Lowe Preserving Co.

Special Information: Redwood City has both the greatest potential factory sites of the peninsula, as well as the most beautiful home and residential district. These two sections do not conflict due to the geographical make-up of the city. Many millionaires make their homes in and about Redwood City. Being so located, all roads from the surrounding territory lead into Redwood City. In the last two years its possibilities have been recognized and it is advancing with great rapidity. The Pacific Portland Cement Plant ($2,000,000), is a proof of its recognition. Other industries are coming.

Residential Features: Redwood City is in a perfect climate belt. It is free from wind and fog, and suffers from no excessive heat in midsummer. The city is an ideal place for home building. There are 1,200 dwellings in the city limits.

Retail Shopping Section: Broadway from Highway to Main St., 6 blocks. Main St. from Chestnut to Five Points, 10 blocks.

Trading Area: South (Menlo Park), 4 miles. West (Half Moon Bay and Pescadero), 35 miles; North (Belmont), 6 miles.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; commercial auto. agencies, 1; automobile accessories, 6; automobile tire agencies, 3; bakers, 4; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 7; delicatessen, 3; dressmakers, 5; druggists, 3; dry goods, 2; department stores, 4; electrical supplies, 2; florists, 2; fruits, 4; furniture, 3; garages (public), 10; grocers, 17; hardware, 4; jewelry, 3; meat markets, 7; men's furnishing, 2; men's clothing, 2; merchant tailors, 3; milliners, 2; opticians, 3; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 12; shoes, 5; sporting goods, 2; stationers, 3; women's apparel, 3.

RICHMOND, CALIF.

(Contra Costa County)

1920 Population, 16,843 (1925 est. 29,000).

City and Suburban Estimate, Retail trade area, 40,000.

Native Whites, 79%; **Negroes,** 1%; **Foreign Born,** 20%; **Industrial Workers,** 75%.

Schools: Public Grade, 11; High, 1; Junior High, 1; Number of Pupils, 5,000.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Methodist, 4; Presbyterian, 1; Roman Catholic, 3; Miscellaneous, 3.

Banks: National, 1; State, 4; Total Resources, $8,500,000; Savings Bank Deposits Total $3,000,000.

Theatres: Moving Pictures, 4; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 8; Total number of seats, 5,000.

Location: Mainland deep-sea terminus of the Santa Fe, and Southern Pacific Rys. Direct rail to deep-water connections. On eastern shore of San Francisco Bay. Metropolitan area, 1,300,000 people within 25 mile radius. Two electric interurban systems to all parts of metropolitan area. To nearest large city (Oakland), by railroad, 30 minutes; by trolley, 45 minutes; by auto, 30 minutes.

Principal Industries: Oil refining and metal products, vitreous and porcelain ware, sanitary fixtures, railroad and car shops, foundries, building materials.

Manufacturing Establishments: 60. Leading firms: Standard Oil Co. (refining), Certainteed Products Corp., Pullman car shops, Pacific Sanitary Mfg. Co., California Art Tile Co. Value annual output, $135,000,000.

Special Information: Third largest tonnage of any port on the Pacific, ranking ahead of Portland, Oakland, Seattle and Vancouver in 1923; fourth pay-roll city in California; $15,000,000 payroll for 27,000 population. City is 21 years old and has increased 51% in population since 1923 census. Metropolis of manufacturing county, Contra Costa, which ranks third in state. Los Angeles and San Francisco counties being first and second, with $400,000,000 factory output in 1923.

Residential Features: No slums or tenements; mostly one-family homes, bugalow type predominating. Cheap land makes home ownership for workingmen easy. 35 minutes from San Francisco by ferry makes the city as admirable suburban residential district. Hill district facing San Francisco Bay and Golden Gate affords view unsurpassed by any residential district in the world. Wide use of gas and electricity for power minimizes smoke nuisance. Few objectionable foreigners. Excellent schools from kindergarten to high school.

Retail Shopping Section: Macdonald, 23 blocks; Nevin, 2 blocks; 23rd Street, 1 block; Standard Avenue, 3 blocks; 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th and 15th Streets, 2 blocks each. Many neighborhood stores and trading districts.

Trading Area: Includes all of western end of Contra Costa county, tapped by two railroads, regular bus lines and good highways.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 3; automobile accessories, 16; automobile tire agencies, 6; bakers, 4; cigar stores and stands (including hotels), 75 (chain, 3); confectioners (including hotel stands), 15; delicatessen, 5; druggists, 7; dry goods, 10; department stores, 3; electrical supplies, 10; florists, 3; fruits, 35; furniture, 7; garages (public), 18; grocers, 40 (chain, 3); hardware, 3; jewelry, 6; meat markets, 10 (chain, 1); men's furnishings, 5; men's clothing, 5; merchant tailors, 5; milliners, 1; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 5; radio supplies, 5; restaurants (including hotels), 14; shoes, 3; sporting goods, 2; stationers, 1; women's apparel, 8.

Miscellaneous Data: Avearge temperature, 65 degrees; most pleasant months, August, Sept., October, November; street car service; electric current, alternating; water, soft.

RIVERSIDE, CALIF.

(Riverside County)

1920 Population, 19,341. (1925, est. 31,000.)

City and Suburban Estimate, city 20,000, suburbs, 7,000. Trading area 65,000.

Native Whites, 27,000; **Negroes,** 1,000; **Foreign Born,** 2,500 (Mexican); **Industrial Workers,** 23%; **Families,** approx. 10,000, average 3 to 1 family.

SACRAMENTO, CALIF.

(Sacramento County)

1920 Population, 65,908.

City and Suburban Estimate, 101,942.

Native Whites, 79%; **Negroes,** 1%; **Foreign Born,** 20%; **Industrial Workers,** 25%; **English Reading,** 88%; **Families,** 25,895.

Schools: Public Grade, 19; High, 2; Junior High, 1; Junior College, 1; Parochial, 4; Number of Pupils: Public Schools, 19,976; Parochial, 1,400.

Churches: Baptist, 4; Christian Science, 3; Congregational, 1; Episcopal, 2; Hebrew, 2; Methodist, 8; Presbyterian, 3; Roman Catholic, 6; Miscellaneous, 11.

Banks: National, 4; State, 9; Total Resources, $99,410,120; Savings Bank Deposits, Total $50,448,957.

Theatres: Legitimate, 2; Moving Pictures, 8; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 14,000.

Location: On Sacramento River, 125 miles from San Francisco. Southern Pacific and Western Pacific transcontinental railroads with branch lines. Central California electric connecting with Santa Fe at Stockton, 48 miles from Sacramento. Sacramento Short-line to San Francisco Bay points and Sacramento Northern to Sacramento Valley points. Sacramento River navigable for river shipping and passenger and freight, operating to points in Sacramento Valley and San Francisco Bay sections.

Principal Industries: Canning and preserving, railroad repair shops, slaughtering and meat packing, flour and feed mills, rice cleaning and polishing, bread and bakery products, automobile repairing, butter, planing mill products, printing (book and job), gas (manufactured), ice cream, iron and steel products, food by-products, ice (manufactured), boxes, caskets, barrels, beverages, bookbinding, engraving, sheet metal products, confectionery, chemical and drug compounds, coffee roasting and grinding, auto bodies and parts, brick and pottery.

Manufacturing Establishments: 417. Leading firms: Southern Pacific Company, Western Pacific Company, Pacific Gas and Electric Co., Great Western Power Co., Earl Fruit Co., Libby, McNeill & Libby, California Packing Corporation, Smith-Frank Packing Co., Cannon & Co. (clay products), Pacific Coast Biscuit Co., H. S. Crocker Co., California Almond Growers, Swanston & Son. Total value of yearly output of factories estimated at $48,301,500.

Special Information: Sacramento has one of the largest railroad shops west of the Mississippi, with a yearly payroll of $8,000,000. It has two immense fruit and vegetable canning establishments, and large almond-shelling plant. It is a big wholesale center, covering entire northern California and parts of Nevada and southern Oregon.

Residential Features: Private residences prevail, most of them constructed during the past few years. The city is distinctive in appearance because of the extraordinary number of shade trees, flowers and lawns. It has more than one thousand acres of parks.

Retail Shopping Section: Extends from Sacramento River on the west to 16th Street on the east; from I Street on north to L Street on the south, a total of 16 blocks from east to west, and 3 blocks from north to south. Also a suburban section covering 6 blocks on 35th Street, known as "Oak Park."

Trading Area: Intensive retail area extends over radius of 40 miles, and in many cases to 60 miles. Excellent transportation by train, auto stage, and river passenger boats.

Wholesale Houses: Groceries, 6; meats, 7; fruits, 11; hardware, 2; sporting goods and radio, 1; miscellaneous lines: stationers, 4.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 36; commercial auto. agencies, 9; automobile accessories, 50; automobile tire agencies, 41; bakers, 35; cigar stores and stands (including hotels), 29; confectioners (including hotel stands), 23; delicatessen, 8; dressmakers, not available; druggists, 60; dry goods, 13; department stores, 8; electrical supplies, 9; florists, 20; fruits, 20; furniture, 22; furriers, 7; garages (public), 89; grocers, 251; hardware, 22; jewelry, 21; meat markets, 68; men's furnishings, 21; men's clothing, 21; merchant tailors, 42; milliners, 9; opticians, 12; photographers, 12; pianos (and miscellaneous musical instruments), 15; radio supplies, 10; restaurants (including hotels), 118; shoes, 26; sporting goods, 6; stationers, 9; women's apparel, 16.

SAN BERNARDINO, CALIF.

(San Bernardino County)

1920 Population, 18,721 (1925 est. 25,000).

City and Suburban Estimate, 38,749.

Native Whites, 81%; **Negroes,** 4%; **Foreign Born,** 15%; **Industrial Workers,** 55%; **English Reading,** 89%.

Schools: Public Grade, 27; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 8,245.

Churches: Baptist, 2; Christian Science, 1; Congregational, 2; Episcopal, 1; Hebrew, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 4; State, 2; Total Resources, $13,283,000; Savings Bank Deposits Total, $11,267,544.

Theatres: Legitimate, 1; Moving Pictures, 6; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 7,200.

Location: Located in the heart of the Southern California citrus area, 60 miles east of Los Angeles, on Santa Fe Ry., Union Pacific, and Southern Pacific Railroads. Excellent bus service. Division points for the Santa Fe, Union Pacific, and Pacific Electric Lines.

Principal Industries: Santa Fe railroad shops with monthly payroll of $1,500,000. Wholesale jobbing center for the interior of Southern California, citrus growing, packing, icing and shipping, deciduous fruits, hay, grain and produce, grapes, olives, etc.

Manufacturing Establishments: 38. Leading firms: Parker Iron Works, Hanford Iron Works, Gill Storage Battery Co. Total value of yearly output of factories estimated at $15,000,000.

Special Information: This city is the gateway to Southern California from the east, and on the main highways of motor travel. Location of National Orange Show and entrance to the "Rim o' the World" scenic region, which is dotted with resorts.

Residential Features: Mostly bungalows and fine residences. Many fine apartment houses, section duplex structures, and bugalow courts growing. Houses being constructed at average cost from $4,500, to $6,000.

Retail Shopping Section: Extends on Third Street from B to K on about 10 blocks. On E Street from Second to Fifth, on D Street from Second to Fifth; on 4th Street from Arrowhead Avenue to F Street (three blocks), Court St. from D to F (two blocks), Mt. Vernon from Fourth to Seventh (3 blocks). There are five outlying retail business sections of the usual character as well as scattered neighborhood stores.

Trading Area: Extends 40 miles southeast to Banning, seven miles east to East Highlands,

Suburban and Farm Residents

Within a radius of 50 miles practically all of the larger purchases of over one million people are made in San Francisco. The geography of California makes San Francisco the shopping center for the entire northern part of California, drawing from the rich San Joaquin, Sacramento and Santa Clara valleys, due to the fact that the southern part of California is practically shut off by the Tethachapi Mountains.

Schools: Public Grade, 107; High, 6; Parochial, and Private, 80; Number of Pupils, 87,720. Total Number of Pupils, Public and Private, 98,870.

* First edition of Sunday Examiner is on streets at 6:30 Saturday evening.

Why San Francisco Examiner

STREET SALES

Spell results to advertisers!

Street sales of the San Francisco Examiner in San Francisco represent a definite and genuine value to advertisers. Time of publication—sales relation to passenger traffic conditions and points of sales all contribute to this end—as the following analysis shows and the tabulations verify.

The first edition of The Examiner is on the streets at 8 P.M. and is a complete newspaper in every detail. In fact it is the same newspaper that morning readers get except for the few news stories that "break" during the later hours. Features, comics and make-up however, are identical with that of the last edition which is issued in the early morning.

A glance at the summary shows that on week days an average of 15,175 Examiners are sold in thirteen districts between 8 and 10 o'clock at night, and an average total of 5,035 Examiners are sold in nine districts between 10 o'clock and midnight. After midnight only 4,500 sales are made.

The significant factor in the sales made up until midnight is that the vast majority are in districts quite removed from the retail shopping section—or districts in which the large hotels are located—and this applies to street sales of the Sunday Examiner as well as the daily. As a matter of fact the districts in which the largest sales are recorded are those largely made up of apartment and flat dwellings—where readers prefer to buy The Examiner from a newsboy at a nearby corner rather than wait for a morning delivery. In reality, then, these street sales may be truly classed as home delivered circulation.

District No. 3 for instance is approximately 16 blocks from the main down-town cross streets of Stockton and Market. Districts No. 7, 8, 10, 11 are in reality residential districts made up almost entirely of apartment houses and apartment hotels. Districts No. 12, 13, 15, 20, 25 and 28 are strictly residential sections—made up of homes, apartments and flats.

On the other hand, Districts No. 4 and 5 and a small part of No. 7 are in the down-town section—but contribute, as the figures show, but a small share of the total street sales.

That outgoing or incoming passenger traffic has little or no effect upon Examiner street sales is revealed in the fact that more than 66,000 of a total of 77,500 people who leave the city by train or ferry each day do so before the first edition of The Examiner is on the streets. Where a great proportion of the street sales of afternoon papers are made to commuters—and defined as city circulation, though taken out of the city—Examiner street sales stay in San Francisco—and must be credited on the basis of true worth.

The Examiner with its street sales coupled to its huge carrier-boy distribution reaches by far the greatest number of people who actually live and stay in San Francisco—and at the same time has a greater distribution among the great urban population that leaves the city at night and doesn't return until the morning—though in the case of The Examiner this circulation is defined as suburban circulation because it is delivered to them in the communities surrounding San Francisco in which they live.

(Candy), Western Paper Box Co., Williams Bros. Aircraft Corp., Wobbers, Inc. (Printing), West Coast Wire & Iron Co., Zellerbach Paper Co.

Special Information: Financial centers of the West. Principal port of the West. Outlet of the products of the Sacramento and San Joaquin Valleys, and the western and central Rocky Mountain states. Jobbink center for northern and central California. Western terminus for three transcontinental railroads. In San Francisco there are many branch offices of firms doing an international business. There are over 500 San Francisco concerns that maintain branches in other Pacific Coast cities.

Residential Features: There are homes of every description, from the modest cottage of the workman to the city chateau of the millionaire. The fact that San Francisco is a city of hills and valleys lends to the general effect, in the residence district, an appearance of neatness, refinement, and beauty. Both the apartment house, and the bungalow are well represented and have been brought to a point of high development.

Retail Shopping Section: Extends from Market and Kearney to Market and Eighth, and the district bounded by Market, Kearney, Sutter, and Bason. There are many outlying buying districts, and several smaller neighborhood sections. These outlying districts are: Fillmore St., 15 blocks; Clement St., 12 blocks; Mission St., 16 blocks; Polk St., 10 blocks; Geary St., 9 blocks. Also Union, Haight, Divisadero, Cortland, 24th, Ocean Ave., and others, making in all, approximately, 145 blocks of outlying retail shopping districts, in addition to the downtown section, with some 4,500 retail establishments. Due to the tremendous commuting and outside population shopping in San Francisco and district is extremely large for a town of its size. Because of its even temperature San Francisco affords an all year market for many otherwise unseasonable items. In a retail way, San Francisco stands comparison with New York City. There is, of course, a "main shopping district," and then there are an immense number of outlying, or neighboring districts. Market Street is the "big" street. It is 120 feet from building line to building line, and is said to be the only "Main Street" where four lines of street car tracks are laid, and all of them used simultaneously. Geary Street, Post Street, Powell Street, Stockton Street, Grant Avenue and O'Farrell Street are all important retail streets, all running into Market Street. Grant Avenue, just off Market, is a very highclass shopping street. Further up is the section in which the important Chinese stores are. It is the main artery of Chinatown, a part of the city that, apart from being picturesque and interesting, is important commercially.

Trading Area: San Francicso is the distributing point on the Pacific Coast. In a wholesale way, San Francisco reaches into all the Pacific Coast states, and into Arizona, New Mexico, Utah, and parts of Idaho and Montana. There are many branch offices of firms doing an international business, and over 500 San Francisco concerns that maintain branches in other Pacific Coast cities. San Francisco's retail trade zone may be roughly estimated within a fifty-mile radius, and the bulk of the populations within this territory consider San Francisco their retail shopping center. Intermittent business is secured from people living within this radius by fine trolley, bus, and ferry services. Twenty-one interurban lines and railroads, together with California's remarkable auto highways, link this high purchasing area to the business district of San Francisco.

Wholesale Houses: Grocers, 15; meats, 19; fruits, 30; hardware, 30; dry goods, 19.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 147; commercial auto agencies, 48; automobile accessories, 129; automobile tire agencies, 102 bakers, 1,500; cigar stores and stands (including hotels), 398 (chain, 79); confectioners (including hotel stands), 245; delicatessen, 165; dressmakers, 65; druggists, 321 (chain 67); dry goods, 172; department stores, 7; electrical supplies, 96; florists, 142; fruits, 188; furniture, 107; furriers, 97; garages (public), 256; grocers, 2,127 (chain, 104); hardware, 162; jewelry 120; meat markets, 400 (chain, 11); men's furnishings, 72; men's clothing, 216; milliners, 94; opticians, 46; photographers, 70; pianos (and miscellaneous musical instruments), 40; radio supplies, 125; restaurants (including hotels), 2,740 (chain, 82); shoes, 113; sporting goods, 45; stationers, 90; women's apparel, 475.

Miscellaneous Data: Average temperature, 56 degrees; average number of rainy days per twelve months, 70; most pleasant months, April, May, September, and October; doctors (medical, 1,105), (dentists, 751) (osteopaths, 38); number of wired houses, 95,294; street car service; gas, artificial; electric current, alternating; water, hard to medium soft.

See announcement page 23

SAN JOSE, CALIF.

(Santa Clara County)

1920 Population, City, 39,642.

City and Suburban Estimate, 55,000 (Santa Clara County 100,676).

Native Whites, 75%; Foreign Born, 25%; English Reading, 86%; Families, City 12,000, County 26,000.

Schools: Public Grade, 10; High, 1; Junior High, Normal, 1; Parochial, 4; Number of Pupils, 15,064.

Churches: Baptist, 3; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 11; Presbyterian, 3; Roman Catholic, 9; Miscellaneous, 19.

Banks: National, 1; State, 5; Total Resources, Available, $21,800,000 (2 branches of San Francisco Banks).

Theatres: Legitimate, 1; Moving Pictures, 4; Vaudeville, 1. Total number of seats, 6,000.

Location: Fifty miles south of San Francisco, on main line of Southern Pacific. Western Pacific branch line to Oakland. Also old Central Pacific line to Oakland. Ten miles to tidewater at head of San Francisco Bay. An interior valley running sixty miles back from the bay. Width twenty miles.

Principal Industries: Fruit, farm products, canneries, live stock. Produces 120,000,000 pounds of prunes annually. Produces 450,000 tons of fruits, nuts, and vegetables. Acreage: Cereals 61,670. Vegetables 15,930. Fruits, nuts, and berries 121,203 acres. Produces one half of the dried prunes of the world.

Manufacturing Establishments: 73, employing 3,717 people (17,000 employed in Santa Clara County). California Fruit Canners Association, California Co-Operative Canneries, Central California Canneries, Richmond, Chase Co., Pratt-Lowe Co., J. H. Flickinger Co., Shaw Family, Inc., Libby, McNeil & Libby, Virden Packing Co., Greco Canning Co., Biseeglia Canning Co., and otehrs. Canning one third the entire canned fruit output of California. Also California Prune and Apricot Growers' Association. Total value of yearly output of factories estimated at $50,000,000.

Special Information: San Jose is the chief and central city of the Santa Clara Valley, a wonderfully rich and productive locality. The surrounding towns and country are peopled by the same high class of people as live in the town.

Residential Features: The country is peculiarly adapted to the bungalow type of houses. Most of them are one, and a few two-family houses. All private homes; only a few apartment houses.

Retail Shopping Section: Two blocks, on St. John St., 20 on Santa Clara, 5 on San Fernando, 3 on Post, 2 on San Antone, 2 on San Carlos, Crosstown: 4 blocks on Market, 7 on First, 3 on Second, and 2 on Third. Shopping center is Santa Clara and First Sts. A very compact section.

Trading Area: Includes the entire Santa Clara Valley and the towns and country within a thirty mile radius of San Jose. This valley is cut off from other communities on three sides by mountain ranges, and on the north by San Francisco Bay. The entire valley, city, towns, and country is served by automobile and bicycle, carrier every day in all seasons, and the people trade in San Jose stores almost exclusively.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 1; canneries, 34.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 60; automobile accessories, 3; automobile tire agencies, 25; bakers, 28; cigar stores and stands (including hotels), 38; confectioners (including hotel stands), 23; delicatessen, 12; druggists, 25; dry goods, 2; department stores, 6; electrical supplies, 18; florists, 9; fruits, 7; furniture, 21; furriers, 1; garages (public), 40; grocers, 144; hardware, 9; jewelry, 14; meat markets, 49; men's furnishings, 12; men's clothing, 10; merchant tailors, 13; milliners, 16; opticians, 12; photographers, 11; pianos (and miscellaneous musical instruments), 11; radio supplies, 6; restaurants (including hotels), 74; shoes, 18; sporting goods, 3; stationers, 8; women's apparel, 4.

SAN LUIS OBISPO, CALIF.

(San Luis Obispo County)

1920 Population, 5,895. (1925 est. 8,000).

City and Suburban Estimate, 12,000.

Native Whites, 85%; Foreign Born, 15%; Industrial Workers, 20%; English Reading, 90%; Families, 2,500.

Schools: Public Grade, 5; High, 1; Parochial, 2; Number of Pupils, 2,000.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic Mission, 1; Miscellaneous, 2.

Banks: State, 3; Total Resources, $8,000,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 3,000.

Location: Fifteen miles from Pacific Ocean, midway between Los Angeles and San Francisco, So. Pac. R. Rs., and Pacific Coast Railroad. Steamships (Via Fort San Luis) to all coast points and bus and stage to all California. Main highway from Mexico to Canada. To nearest large city, by railroad, 9 hours; by auto, 9 hours.

Principal Industries Building brick, foundry products, insulating bricks, canned goods, meat products, dolls, toys, creamery products, quicksilver, soda, cedar blocks, dairying, diatomaceous earth, railroad shops, printing, iron ore, fisheries, electric signs.

Manufacturing Establishments: 39; Leading firms, Golden State Milk Products Co., Los Angeles Creamery, Swift & Co., Southern Pacific division point; Pacific Coast R. R. headquarters, San Luis Brick Co., Union Oil Co., pipe line and storage; Incello Brick Co. Total value of yearly output of factories estimated at $35,000,000.

Special Information: Being midway between Los Angeles and San Francisco, 250 miles from each, makes this city a center of population for the larger part of this area. Rail, water and highwy transportation. Big wholesle center. Shipping point for Orient through Port San Luis, which is one of the largest oil shipping ports in the country.

Residential Features: Practically one family houses. No tenements. City is situated in a valley surrounded by hills on which homes are scattered. Private homes predominate. Average value, $5,000.

Retail Shopping Section: Extends from city limits to Higuera St. to Morro St. and city limits on Monterey St. to Chorro St., Morro and Chorro and Garden and Osos are all in shopping center. Small outlying shopping region around the So. Pac. station and yards, with usual run of small shops and groceries in the residential section.

Trading Area: The trading area of San Luis Obispo can be divided into three distinct sections: (1st) city and suburbs, (2d) intermediate county, (3) extends 80 miles. Buyers in this territory depend on the city for 75% of their goods. Excellent bus and stage lines and 85% owning automobiles makes this city the center of the county trade.

Wholesale Houses: Groceries, 2; meats, 4; fruits, 1; hardware, 3; miscellaneous lines, confectioners, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 13; commercial auto agencies, 1; automobile accessories, 10; automobile tire agencies, 17; bakers, 4; cigar stores and stands (including hotels), 17; (chain, 2); confectioners (including hotel stands), 8; delicatessen, 1; dressmakers, 14; druggists, 7; (chain, 1); dry goods, 4; department stores, 4; electrical supplies, 2; florists, 2; fruits, 5; furniture, 3; garages (public), 14; grocers, 28; hardware, 4; jewelry, 4; meat markets, 6; men's furnishings, 5; men's clothing, 5; merchant tailors, 3; milliners, 3; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 6; restaurants (including hotels), 19; shoes, 6; sporting goods, 7; stationers, 4; women's apparel, 11.

Miscellaneous Data: Average temperature, 60 degrees; average number of rainy days per 12 months, 40; most pleasant months, all but December and January (rainy); doctors (medical, 13), (dentists, 8), (osteopaths, 2); number of wired houses, 1,800; gas, natural; electric current, alternating and direct; water, soft.

SAN MATEO, CALIF.

(San Mateo County)

1920 Population, 5,979 (1925 city census 10,486).

City and Suburban Estimate, 1,250.

Native Whites, 75%; Negroes, 2%; Foreign Born, 23%; Industrial Workers, 2%; English Reading, 90%; Families, 1,850.

Schools: Public Grade, 6; High, Day 1,200, Evening 1,000; Junior High, College 400; Number of Pupils, 1,443.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 1.

Banks: National, 1; State, 1; Bank of Italy, 1; Total Resources, 4,879,622; Savings Bank Deposits Total, $4,190,795.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1; Total number of seats, 2,100.

Location: On Southern Pacific R. R., with sixty trains daily. Thirty minutes from San Francisco. Electric cars run into city at intervals of 10 minutes. To nearest larger city, by railroad, ½ hour; by trolley, 1 hour; by auto, 40 minutes.

Principal Industries: Bottling works: feed and fuel, shoes, nursery stock, salt works, planing mills (2), creameries (2), auto tops, Italian paste.

Manufacturing Establishments: Leading firms: Highland Bottling Works, Leslie Salt Works, San Mateo Feed & Fuel Co., Planing Mills, (2), Mission Shoe Factory, Creameries (2), San Mateo Nursery, Western Auto Top Co., Ravioli Factory. About 230 people employed.

Residential Features: San Mateo is a city of beautiful homes of business men who work in San Francisco, it being but 30 minutes ride by train to the city of San Francisco. It has doubled its population in the last five years and is making rapid strides in building up its business section, as well as many new homes. The climate is its principal asset.

Retail Shopping Section: On Baldwin, 2 blocks Railroad, 2 blocks; First, 3 blocks; San Mateo Drive, 2 blocks; Third, 4 blocks; Fourth, 4 blocks; A, 2 blocks; B, 5 blocks; Main, 1 block

Trading Area: People come to shop from as far as fifteen miles north, south, and west.

Wholesale Houses: Miscellaneous Lines: San Mateo Tobacco Co.

Churches: Baptist, 4; Christian Science, 1 Congregational, 1; Episcopal, 1; Methodist, 3 Presbyterian, 2; Roman Catholic, 3; Miscellaneous, 14.

Banks: National, 1; State, 2; Branch Banks 7. Total Resources, $899,969,167.91. Savings Bank Deposits Total, $12,500,000.

Theatres: Legitimate, 1; Moving Pictures,

CALIFORNIA (Cont'd)

Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 4,620.

Location: San Pedro is located 350 miles south of San Francisco on San Pedro Bay, and is the principal port of call in southern California for 39 foreign, intercoastal and coastwise steamship lines. It is the shipping, lumber, shipbuilding, oil refining and fish canning center of southern California. To nearest large city, by trolley, 25 minutes; by auto, 20 minutes.

Principal Industries: The 24 miles of wharves furnish berths for steamship lines which employ from 3,000 to 6,000 freight handlers and longshoremen. San Pedro has 7 wholesale lumber yards, 14 fish canneries, 6 oil refineries, employing hundreds of men, and supply cargoes for a large fleet of foreign and domestic tankers. Also shipbuilding, canning, oil wells, tools, finished lumber, tile and brick, cement and awnings, dredging machinery.

Manufacturing Establishments: 23. Leading firms: Pan American Refining Co., Union Oil Refining Co., Van Camp Sea Food Co.

Special Information: The drill grounds of the battle fleet of the United States Navy are located off San Pedro, and 11 dreadnoughts with 15,000 men and officers can be sheltered behind the Government breakwater. Fort McArthur is also located at San Pedro, which is the home of many officers and men of the army and navy.

Residential Features: Beautiful one and two-family homes.

Retail Shopping Section: The principal shopping center of San Pedro lies along Sixth Street for 4 blocks; Seventh Street, 3 blocks; Beacon Street, 3 blocks; Front Street, 2 blocks. There are also many scattered neighborhood stores along Pacific Avenue for a distance of 25 blocks and also on other streets.

Trading Area: The following towns and vicinity are tributary to San Pedro, and included in the retail trading area: Wilmington, Torrance, Lomita, Harbor City, Redondo Beach, Terminal Island and East San Pedro. Wilmington is an industrial and shipping center of growing importance, while Torrance, in addition to being a manufacturing city, is in the center of an oil producing district of importance. Lomita is also an important oil producing center and also the center of a large truck farming and fruit growing section. Harbor City is a suburban town whose residents are mostly employed in San Pedro. East San Pedro and Terminal Island are supported by fishing, lumber and shipbuilding. Hundreds of acres of land to the west of San Pedro are in the frostless belt, and leased for growing early vegetables that are the first to reach the markets in southern California.

SANTA ROSA, CALIF.

(Sonoma County)

1920 Population, 8,758. (City limits of very small area.)

City and Suburban Estimate, 20,000 (several thousand more within 3 miles of city).

Native Whites, 77%; **Foreign Born** (mostly Italians), 23%; **Industrial Workers,** 10%; **English Reading,** 90%; **Families,** 3,973.

Schools: Public Grade, 6; High, 1; Junior High, 1; Parochial, 2; Number of Pupils, 4,332.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Federated Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 8.

Banks: National, 1; State, 3; Total Resources, $12,000,000; Savings Banks Deposits Total, $7,250.000. Two of these are branch banks with power to handle large loans.

Theatres: Moving Pictures, 4; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 1; Total number of seats, 4,900.

Location: 50 miles north of San Francisco Bay in the heart of the Santa Rosa Valley and Sonoma County. Served by Northwestern Pacific, and Southern Pacific Railroads. Excellent bus service to the north, south, and east. To nearest large city (San Francisco), by railroad, 2½ hours; by trolley, 2½ hours; by auto, 2½ hours.

Principal Industries: Fruit packing, canning and drying, egg packing and shipping, pickle works, abbatoirs tanneries, paste making, shirt factories, shoe factories, printing. A great many large concerns use this city as a jobbing center.

Manufacturing Establishments: 18. Leading firms: California Packing Corp., Haegin Pickle Factory, Bergoe Products Co., Fitzgerald Egg Exchange, Cameron Shirt Factory, Levin Tanning Co., Greenbaum, Weil & Michael, Santa Rost-Vallejo Tanning Co., Santa Rosa Paste Co., Noonan Meat Co.

Special Information: Buying center of a rich agricultural county, and one of the largest single berry sections in the country. Home of the Gavenstein apple. $2,000 per minute, throughout the year, is the value of the poultry industry to this county. Santa Rosa is the center of that part of California where, for hundreds of miles, the country is intensively cultivated by hundreds of prosperous, modern American ranchers. Here there is little poverty. Paved roads, and automobiles bring much trade to the city.

Residential Features: 90% of houses in the city are owned by their occupants. Many of the nation's wealthiest people own big homes in the suburbs of Santa Rosa. Educational facilities attract better class of people to this city. Health regulations strictly enforced. Good streets and sidewalks, good lights, and a fine climate add to residential attractions.

Retail Shopping Section: Extends from court house, which is the center of the city. Five main shopping streets. Fourth Street east from court house, 2 blocks; west from court house, 5 blocks. Fifth Street parallel with Fourth Street, 6 blocks. Mendocino Avenue north from court house, 2 blocks. Main Street, south from court house, 2 blocks. Four outlying neighborhood sections with usual stores.

Trading Area: 7 miles south, 20 west, 25 east and 50 north. Includes 20 small towns, all within a radius of 20 miles, with populations of 200 to 3,000. Practically every rancher in this county owns an automobile. The main roads are all paved. A great deal of trade comes from points outside the territory given, on account of the excellent automobile traveling conditions.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 3; dry goods, 1; miscellaneous lines, bakers, 3; confectionery, 2; shoes, 1; paper, 1; cigars, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 26; commercial auto. agencies, 10; automobile accessories, 21; automobile tire agencies, 15; bakers, 14; cigar stores and stands (including hotels), 16; confectioners (including hotel stands), 18; delicatessen, 5; dressmakers, 10; druggists, 8; dry goods, 6; department stores, 4; electrical supplies, 9; florists, 5; fruits, 6; furniture, 8; furriers, 3; garages (public), 26; grocers, 38 (chain, 3); hardware, 6; jewelry, 4; meat markets, 21 (chain, 1); men's furnishings, 8; men's clothing, 8; merchant tailors, 9; milliners, 8; opticians, 5; photographers, 4; pianos (and miscellaneous musical instruments), 6; radio supplies, 8; restaurants (including hotels), 20; shoes, 8; sporting goods, 7; stationers, 6; women's apparel, 10.

CALIFORNIA (Cont'd)

Woodland (con't)

So. Pacific R. R., and Sacramento Northern Elec. Line. Also 90 miles of waterfront on Sacramento Ricer, 24 miles from state capital, and 90 miles from San Francisco. Paved highway all the way. Water and rail transportation. Often referred to as being among the richest agricultural cities in U. S. in per capita bank deposits.

Principal Industries: Agriculture and allied industries. Fruit packing plants, flour and rice mills.

Manufacturing Establishments: Leading firms: Globe Mills, National Rice Mills, and ice cream factories on small scale.

Special Information: 20 miles of paved streets. City is practically a forest of trees. Every home has its orange, lemon, pomegranate, and almond orchard.

Residential Features: One hundred new homes built in the past year and a half. Special efforts to make the city beautiful by planting flowers and shrubbery. Flowers bloom out of doors the year round.

Retail Shopping Section: Main, and Court Streets. On the Pacific Highway from Portland, Ore., to Los Angeles and San Diego

Trading Area: 12 to 15 miles. Merchants have established a semi-monthly "Trade Day." This has been conducted successfully for 12 years without a break in dates.

Wholesale Houses: Groceries, 14; Meats, 4; Fruits, 9; Hardware, 3; Dry Goods, 6; Miscellaneous Lines, 70 to 95.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 5; automobile accessories, 6; automobile tire agencies, 6; bakers, 4; cigar stores and stands (including hotels), 14 (chain, 8; confectioners (including hotel stands), 14; delicatessen, 2; dressmakers, 4; druggists, 5 (chain, 1); dry goods, 14; electrical supplies, 4; florists, 2; fruits, 9; furniture, 3; garages (public), 10; grocers, 14 (chain, 3); hardware, 3; meat markets, 5; men's furnishings, 3; men's clothing, 2; merchant tailors, 4; milliners, 2; opticians, 3; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 8; restaurants (including hotels), 11; shoes, 7; sporting goods, 3; stationers, 2; women's apparel, 2.

Miscellaneous Data: Doctors (medical, 15), (dentists, 7), (osteopaths, 3).

Schools: Public Grade, 7; High, 1; Junior High, 2; Parochial, 1; Number of Pupils, 2,900.

Churches: Baptist, 3; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, Lutheran, 3.

Banks: National, 4; State, 1; Total Resources, $6,000,000.

Theatres: Legitimate, 2; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 15,000.

Location: 29 miles northwest of Denver on Colorado & Southern Ry. (Burlington System). Union Pacific RR. has a branch from Brighton. The D. & I., a good electric line, from Union Station, Denver, with 26 trains daily, leaves on the even hour. Six trains daily on the C. & S., and 4 on the U. P. give good service. Also auto bus lines. To nearest large city (Denver) by railroad, 1 hour, 10 minutes; by trolley, 1 hour, 15 minutes; by auto, 1 hour, 20 minutes.

Principal Industries: Western States Cutlery Works. Agriculture, mining, tourist trade and educational institutions count as big assets. Sanitarium, food factory, broom works, planing mills, mattress factory, and the usual small machine and other shops.

Special Information: University of Colorado is located here. Our situation near Denver, and close to the foothills of the Rockies, makes Boulder not only a popular tourist resort, but "a good place to live." Sanatariums, and a new hospital. Good water and irrigation are among the many advantages of the city.

Residential Features: A city of many beautiful homes, fine paved streets, and attractive lawns. The city of Boulder owns 6,064 acres of park lands, much of it being improved by the building of trails, shelter houses, springs, etc. The U. of C., and Sanitarium have beautiful grounds.

Retail Shopping Section: Extends from Boulder to Nederland, Ward, Eldora, and many mining hamlets, as well as to the agricultural sections north, east, and south of the city.

Trading Area: Extends 25 miles west, 18 north, and 10 east and south.

Wholesale Houses: Groceries, 1; meats, 1; fruits, 1; miscellaneous lines, cutlery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 2; automobile accessories, 20; automobile tire agencies, 10; bakers, 5; cigar stores and stands (including hotels), 8; confectioners (including hotel stands), 10; delicatessen, 2; dressmakers, 10; druggists, 9; dry goods, 4; department stores, 2; electrical supplies, 4; florists, 4; fruits, 2; furniture, 3; furriers, 1; garages (public), 6; grocers 43 (chain, 3); hardware, 3; jewelry, 4; meat markets, 34; men's furnishings, 5; men's clothing, 4; merchant tailors, 3; milliners, 4; opticians, 3; photographers, 4; pianos (and miscellaneous musical instruments), 1; radio supplies, 6; restaurants (including hotels), 20; shoes, 7; sporting goods, 1; stationers, 1; women's apparel, 2.

Miscellaneous Data: Average temperature, 67 degrees; average number of rainy days per twelve months, 37; most pleasant months, May, to November: doctors (medical, 30), (dentists, 15), (osteopaths, 6); number of wired houses, 2,800; gas, artificial; electric current, alternating; water, soft.

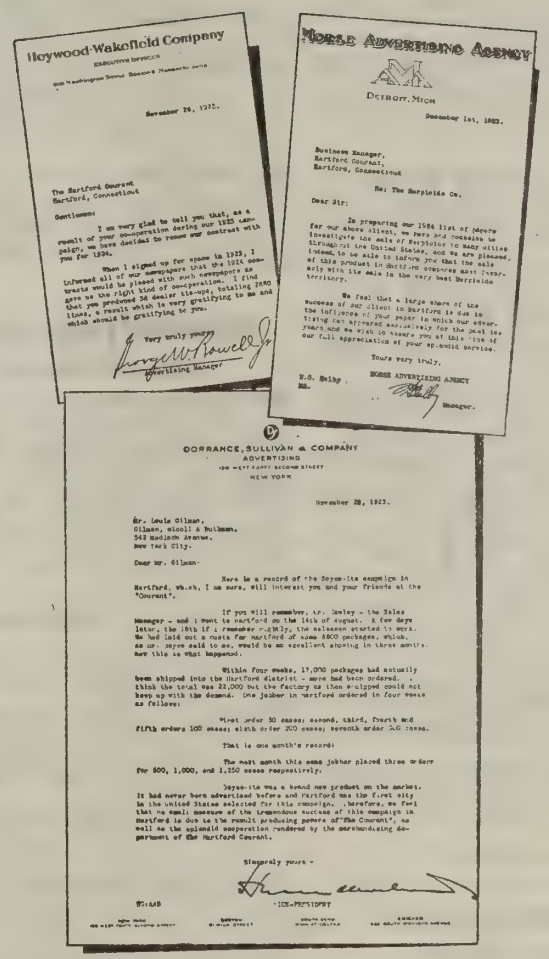
Hartford can buy your product

Sell this prosperous market through "The Courant"!

Hartford, the capital city of Connecticut, the home of 31 Insurance companies, will do an estimated retail business of over $85,000,000 this year.



Hartford is the home of the two largest typewriter factories in the country.

Hartford did more building the first six months of 1924 than four of the largest cities of Connecticut combined.

Hartford gives employment to over 40,000 industrial workers. The estimated weekly pay for Insurance workers alone is $275,000!

Hartford is prosperous—business is good—the intelligent class of readers that buy the *"Courant"* will use your product when they see it advertised.

The U. S. Census shows a list of 40 diversified industries in Hartford—a source of great economic strength and stability.

Heywood-Wakefield Company

EXECUTIVE OFFICES

November 26, 1925.

The Hartford Courant
Hartford, Connecticut

Gentlemen:

I am very glad to tell you that, as a result of your co-operation during our 1925 campaign, we have decided to renew our contract with you for 1926.

When I signed up for space in 1923, I informed all of our newspapers that the 1924 contracts would be placed with such newspapers as gave us the right kind of co-operation. I find that you produced 3d dealer tie-ups, totaling 2680 lines, a result which is very gratifying to me and which should be gratifying to you.

Very truly yours,

George W. Rowell Jr.
Advertising Manager

MORSE ADVERTISING AGENCY

DETROIT, MICH.

December 1st, 1923.

Business Manager,
Hartford Courant,
Hartford, Connecticut

Re: The Sarpiella Co.

Dear Sir:

In preparing our 1924 list of papers for our above client, we were considering investigating the sale of Sarpiello in many cities throughout the United States, and we are pleased, indeed, to be able to inform you that the sale of this product in Hartford compares most favorably with its sale in the very best Sarpiello territory.

We feel that a large share of the success of our client in Hartford is due to the influence of your paper in which our advertising has appeared exclusively for the past two years, and we wish to convey you at this time of our full appreciation of your splendid service.

Yours very truly,

MORSE ADVERTISING AGENCY

Manager.

ORRANCE, SULLIVAN & COMPANY

ADVERTISING

NEW YORK

November 28, 1923.

Mr. Louis Gilman,
Gilman, Nicoll & Ruthman,
542 Madison Avenue,
New York City.

Dear Mr. Gilman:

Here is a record of the Soyon-ite campaign in Hartford, which, I am sure, will interest you and your friends at the "Courant".

If you will remember, Mr. Morley - the Sales Manager - and I went to Hartford on the 14th of August. A few days later, the 18th if I remember rightly, the salesmen started to work. We had laid out a route for Hartford of some 6800 packages, which, as Mr. Joyce said to me, would be an excellent showing in three months. Here this is what happened:

Within four weeks, 17,000 packages had actually been shipped into the Hartford district - more had been ordered. I think the total was 22,000 but the factory as then equipped could not keep up with the demand. One jobber in Hartford ordered in four weeks as follows:

First order 50 cases; second, third, fourth and fifth orders 100 cases; sixth order 200 cases; seventh order 250 cases.

That is one month's record!

The next month this same jobber placed three orders for 500, 1,000, and 1,150 cases respectively.

Soyon-ite was a brand new product on the market. It had never been advertised before and Hartford was the first city in the United States selected for this campaign. Therefore, we feel that no small measure of the tremendous success of this campaign in Hartford is due to the result producing power of "The Courant", as well as the splendid cooperation rendered by the merchandising department of the Hartford Courant.

Sincerely yours -

VICE-PRESIDENT

If you have not received a copy of "HARTFORD," a survey compiled by the "Courant" Merchandising Dept., write to the "Courant" or

NAUGATUCK, CONN.

(New Haven County)

1920 Population, 15,051. (1925, est., 16,932.)

Native Whites, 68%; Negroes, 1%; Foreign Born, 32%; Industrial Workers, 30%; English Reading, 85%; Families, 3,571.

Schools: Public Grade, 11; High, 1; Junior High, none; Parochial, 2; Number of Pupils, 3,345.

Churches: Baptist, 1; Congregational, 3; Episcopal, 1; Methodist, 1; Roman Catholic, 3; Lutheran, 3; Miscellaneous, 5.

Banks: National, 1; State, 1; Total Resources, $1,845,000; Savings Bank Deposits Total, $5,000,000.

Theatres: Legitimate, none; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 2,500.

Location: About midway in the Naugatuck Valley, on the Naugatuck division of the N. Y. N. H. & H. R. R. Easily accessible by steam, trolley, and bus to New Haven and Bridgeport, two of Connecticut's largest cities. 82 miles from New York, 153 miles from Boston. All express trains stop. To nearest large city, by railroad, 12 minutes; by trolley, 25 minutes; by auto, 15 minutes.

Principal Industries: Rubber boots and shoes, druggists sundries, chemicals, brass and steel stampings, safety-pins, buckles, plumbers' chain, copper floats, candy, recording instruments, woolen and cotton goods, malleable iron castings, freezer cases.

Manufacturing Establishments: 12. Leading firms: G. I. R. Glove Mfg. Co., G. M. R. Shoe Co., Rubber Regenerating Co., Naugatuck Chemical Co., The Eastern Malleable Iron Co., The Hisdon Mfg. Co., Dunham Mills, J. M. Russell Mfg. Co., Naugatuck Mfg. Co., Peter Paul Candy Co., The Bristol Co., The Lasher Market Equipment Co.

Special Information: Naugatuck is situated in one of the most picturesque sections of New England, with paved roads in all directions. The High School, erected at a cost of $750,000, is one of the most distinctive and best equipped in the Nation. Naugatuck has also an up-to-date and well-planned Y. M. C. A. building which cost $300,000. Playgrounds in connection with various school buildings, with instructors in attendance. $68,000 subscribed for a recreational field, which is in process of construction. Many fine public buildings and excellent industrial conditions. Also aviation field in Bethany, 6 miles from Naugatuck center. The citizens are also musically inclined, having a fine military band, high school orchestra, and a fife-and-drum corps.

Residential Features: One, and two-family houses. Private homes predominate. One of the finest residential sections in the State of Connecticut.

Retail Shopping Section: Extends from North Main to Bridge Street, from Bridge to Spring Street. (Bus line from North Main to Church Street.) South Main Street, Maple Street, and Church Street, in which is the center of the shopping district.

Trading Area: Extends about 2 miles south, one mile west, 2 miles north, and about 2 miles east.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 7; automobile accessories, 7; automobile tire agencies, 7; bakers, 8; cigar stores and stands (including hotels), 4 (chain, 1); confectioners (including hotel stands), 14; delicatessen, 2; dressmakers, 5; druggists, 7 (chain, 1); dry goods, 17: electrical supplies, 2; florists, 2; fruits, 10; furniture, 4; garages (public), 4; grocers, 63 (chain, 13); hardware, 5; jewelry, 2; meat markets, 31; men's furnishings, 7; men's clothing, 8; merchant tailors, 6; milliners, 4; opticians, 1; photographers, 1; pianos (and) miscellaneous musical instruments), 1; radio supplies, 3; restaurants (including hotels), 10; shoes, 4; sporting goods, 2; stationers, 3; women's apparel, 8.

Miscellaneous Data: Average temperature, 50 degrees. Average number of rainy days per twelve months, 147. Most pleasant months, July, August, October, November. Doctors (medical, 11), (dentists, 7). Number of wired houses, 2,000. Gas, artificial. Electric current, alternating. Water, soft.

NEW BRITAIN, CONN.

(Hartford County)

1920 Population, 59,316.

City and Suburban Estimate, 116,816.

Native Whites, 70%; Negroes, 2%; Foreign Born, 28%; Industrial Workers, 33%; English Reading, 80%; Families, 14,000.

Schools: Public Grade, 14; High, 2; Junior High, 2; Parochial, 3; Number of Pupils, 13,000.

Churches: Baptist, 3; Christian Science, 1; Congregational, 4; Episcopal, 1; Hebrew, 1; Methodist, 1; Roman Catholic, 4; Miscellaneous, 13.

Banks: National, 2; State, 3; Total Resources, $39,877,051. Savings Bank Deposits Total, $24,199,561.

Theatres: Moving Pictures, 3; Vaudeville, 1; Miscellaneous (auditoriums, etc.), 2; Total number of seats, 11,500.

Location: New Britain is situated about half way between New York and Boston, 50 miles inland. Served by the N. Y. N. H. & H. and the Boston & Albany R. Rs. By boat, via Hartford, 10 miles distant. Trolley service to all parts of state.

Principal Industries: Hardware, household articles, bearings, buckles, iron castings, plumbing supplies, textiles, machinery.

Manufacturing Establishments, 28. Leading firms: Stanley Works, P. & F. Corbin, Corbin Cabinet Lock, Corbin Screw Corp., Stanley Rule and Level, New Britain Machine Co., Traut & Hine, Lander, Frary and Clark, North and Judd Mfg. Co., Hart & Cooley Co. Inc., Hart & Hutchinson Co., American Hosiery Co., Beston and Cadwell Mfg. Co.

Special Information: New Britain is one of the leading hardware cities of the country. Fifth largest city in Connecticut. Has industrial capitalization of more than $40,000,000. Weekly payroll of $600,000. Remarkable growth in population for a city without natural resources.

Residential Features: Mostly 1, 2, and 3-family dwellings. Workingmen's homes predominate, but some of the finest homes in Connecticut are here.

Retail Shopping Section: Extends from public square (which forms heart of business district and terminal for suburban trolley and bus lines), for 7 blocks north and south on Main Street. Intersecting streets 2 blocks, including West Main, Church, Chestnut, Commercial, Lafayette and 4 blocks on Arch Street northwest of center.

Trading Area: East 5 miles, west 15, south 15, and north 15. It is the metropolis for 8 surrounding towns, namely: Bristol, Newington, East Berlin, Forrestville, Plainville, Kensington and Southington.

Wholesale Houses: Groceries, 3; meats, 2; fruits, 1; hardware, 1; Miscellaneous lines, confectionery, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 18; commercial auto agencies, 9; automobile accessories, 39; automobile tire agencies, 20; bakers, 15; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 70; delicatessen, 4; dressmakers, 48; druggists, 23; dry goods, 32; department stores, 7; electrical supplies, 7; florists, 5; fruits, 12; furriers, 4; garages (public), 8; grocers, 307; hardware, 9; jewelry, 15; meat markets, 61; men's furnishings, 17; men's clothing, 15; merchant tailors, 44; milliners, 9; opticians, 3; photographers, 8; pianos (and miscellaneous musical instruments), 6; radio supplies, 10; restaurants (including hotels), 51 shoes, 33; sporting goods, 7; stationers, 4; women's apparel, 12.

See announcement page 35

NEW HAVEN, CONN.

(New Haven County)

1920 Population, 162,537. (1925, est. 225,000.)

City and Suburban Estimate, 235,000.

Native Whites, 78%; Negroes, 2.8%; Foreign Born, 19.2%; Industrial Workers, 43%; English Reading, 93.7%; Families, 36,257.

Schools: Public Grade, 56; High, 2; Junior High, 2 (construction of 2 more authorized); Parochial, 8; Trade, 1; Number of Pupils, Grade, 32,651; High (5), 7,040; Non-Com. on Parochial.

Churches: Baptist, 8; Christian Science, 1; Congregational, 15; Episcopal, 14; Hebrew, 13; Methodist, 15; Presbyterian, 1; Roman Catholic, 21; Miscellaneous, 8.

Banks: National, 5; State, 12; Total Resources, $250,000,000; Savings Bank Deposits Total, $50,867,451.

Theatres: Legitimate, 1; Moving Pictures, 21; Vaudeville, 1; Burlesque, 1; Miscellaneous (auditoriums, etc.), 13. Total number of seats, 22,962.

Location: On N. Y., N. H. & H. R. R. Home office N. E. Navigation Co. On shores of Long Island Sound. Excellent trolley and bus service to all points in trading territory in New Haven County. To New York, N. Y., by railroad, 2 hours; by trolley, 7½ hours; by auto, or bus, 3½ hours.

Principal Industries: Metal working, firearms, corsets, rubber goods, hardware, railroad shops, wire manufacturing, printing, cloaks.

Manufacturing Establishments—Leading firms: Winchester Repeating Arms Co., Sargent & Co., L. Candee Rubber Co., N. H. Clock Co., Acme Wire Co., American Steel & Wire Co., Safety Car Heating & Lighting Co., A. C. Gilbert & Co., Seamless Rubber Co., National Folding Box Co., Kolynos Co., Whitney-Blake.

Special Information: New Haven is ideally located to serve all Connecticut at wholesale rates. Yale University, and the prep. schools make it an educational center of high repute. The University further tends to elevate living standards. New Haven is also the center of the N. Y., N. H. & H. R. R. system, giving employment to thousands of well-paid clerks, repairers, and executives.

Residential Features: A city of homes, with

MIDDLETOWN

(CONNECTICUT)

A Trading Center for 50,000

Middletown is the trading center for Middlesex County, a very wealthy manufacturing and agricultural section of the state, and it has been so ever since it was settled, which is many generations back.

And since THE PRESS was first started, back in 1884, it has been the dominant paper in Middletown and Middlesex County, in fact it is today the only daily paper that is read in a large majority of the homes. For several years now, THE PRESS has been the only daily paper published in the county, and is read religiously by our subscribers for the intimate city and suburban news and the general news of the day.

There is no question but that the coverage of THE PRESS is complete. With a population of approximately 50,000, our average city and suburban distribution (net paid) is 8,000 or better. So when every factor is considered, there cannot be many homes the national advertiser wishes to reach that THE PRESS does not enter.

Use THE PRESS for Middletown and Middlesex County

The
Slump-less City

New Britain, Conn., the Hardware City of the World, is the fifth city in Connecticut. With a population of about 70,000 people, it is rated as the fastest growing city in the state and as an outlet for advertised goods is second to none in this section of the country.

It is the center of a busy manufacturing district and has a trading area of approximately 125,000 people.

New Britain's grand list is over $100,000,000. In the city there are 14,000 families and 5,977 dwellings, a very large percentage of which is owned by the occupants. There are nearly 8,000 automobile owners in the city. Factory payrolls average $1,000,000 a week.

New Britain's manufacturing establishments are so diversified that it is always busy. In reality it is a Slumpless city.

To cover this busy district

WATERBURY, CONN.

(New Haven County)

1920 Population, 91,715. (1925, est., 116,366).

City and Suburban Estimate, 160,000.

Native Whites, 60.99%; **Negroes,** 2.42%; **Foreign Born,** 36.59%; **Industrial Workers,** 30.86%; **English Reading,** 75%; **Families,** 25,-801.

Schools: Public Grade, 32; High, 3; Vocational, 2; Parochial, 6; Number of Pupils, 16,400.

Churches: Baptist, 5; Christian Science, 1; Congregational, 5; Episcopal, 5; Hebrew, 2; Methodist, 6; Presbyterian, 3; Roman Catholic, 14; Miscellaneous, 5.

Banks: National, 2; State, 8; Total Resources, $87,494,900. Savings Bank Deposits Total, $35,522,092.79.

Theatres: Legitimate, 1; Moving Pictures, 11; Vaudeville, 2; Miscellaneous (auditorium, etc.), 3. Total number of seats, 19,500.

Location: Situated in western Connecticut, in the scenic Naugatuck Valley. Served by the N. Y., N. H. & H. R. R. and Connecticut Company street railway and bus service. Waterbury has a trading area with a population of 160,000, with which it is connected by street railway systems, covering 42 cities and towns. To nearest large city by railroad, 1 hour; by trolley, 1½ hours; by auto, 1 hour.

Principal Industries: Brass, copper, novelties and fixtures, watches and clocks.

Manufacturing Establishments: 95. Leading firms: Scovill Mfg. Co., American Brass Co., Chase Companies, Inc., Waterbury Clock Co., Farrell Foundry & Machine Co.

Special Information: Waterbury is one of the great manufacturing centers of the United States. Here, approximately 50% of the Nation's brass is made, as well as a great number of manufactured articles in brass. Anything made of copper or brass can be obtained in Waterbury. Here, also is the largest clock factory in the world. More clocks and watches are made in Waterbury than in any other city. The Ingersoll watch, and the famous Waterbury watch were first made here, and are still made here by the millions.

Residential Features: Mostly two, and three-family houses. Best houses and grounds, and most valuable property, as a whole, in the northwestern section of the city. In eastern section a manor known as "Fairlawn" is building up into a one, and two-family residential district. Many of the latter are privately owned homes.

Retail Shopping Section: Extends from Exchange Place for 3 blocks on Bank Street, for 2 blocks on South Main, for 3 blocks on East Main, for three blocks on West Main, and for 2 blocks on North Main Street. Intervening streets between these streets are included. There are two outlying business sections; namely, North Square and Brooklyn, and several smaller neighborhood sections with the usual grocery, confectionery, meat and small shops.

Trading Area: Extends approximately 12 miles north, 9 miles south, 14 miles east, and 12 miles west. Business is also secured from people living at a greater distance, because of the excellent street railway and bus service This covers 42 cities and towns with a total population of 160,000.

Wholesale Houses: Groceries, 6; meats, 3; fruits, 7; hardware, 6; miscellaneous lines, 10.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile, 24; commercial automobile, 7; automobile accessories, 84; automobile tires, 18; bakers, 39; cigar stores and stands, 36 (chain, 2); confectioners, 91; delicatessen, 8; dressmakers, 81; druggists, 46 (chain, 1); dry goods, 63; department stores, 9; electrical supplies, 15; florists, 10; fruits, 43; furniture, 20; furriers, 7; garages (public), 55; grocers, 371 (chain, 6); hardware, 22; jewelry, 38; meat markets, 140 (chain, 1); men's furnishings, 27; men's clothing, 31; merchant tailors, 10; milliners, 31; opticians, 9, photographers, 16; pianos (musical instruments), 9; radio supplies, 21; restaurants (inc. hotels), 110 (chain, 1); shoes, 46; sporting goods, 7; stationers, 22; women's apparel. 24.

See announcements below and top of columns 3 and 4

Waterbury-Conn.

will reveal that Waterbury is one of America's richest markets and gives a liberal circulation and advertising support to its newspapers. It is a manufacturing city of the first import. This market is covered in the right way at the right cost to the advertiser by *The Waterbury Democrat*. A. B. C. Audit for 12 months made during May, 1925, and covering 12 months ending March 31, 1925, showed

THE WATERBURY DEMOCRAT HAS OVER 91% CITY CIRCULATION

Retail stores consider The Evening Democrat indispensable. DeLisser figures, first quarter of 1925, January to March, inclusive, showed that The Democrat had a substantial lead in Department Store advertising. If you are governed in the selection of a medium by the results achieved compared to the cost of these results, there is good reason for running your advertising in The Waterbury Democrat.

You pay *one price* for proper local coverage in a leading paper in this prolific field and

See announcement bottom columns 3 and 4

Standard Survey of WASHINGTON, D. C.

WASHINGTON, D. C.

1920 Population, 437,571. (1925), 485,375.

City and Suburban Estimate, over 650,000.

Native Whites, 68%; Negroes, 25%; Foreign Born, 7%; Industrial Workers, 3%; English Reading (Census' statistics show only 779 cannot speak English); Families, 96,194.

Schools: Public Grade, 141; High, 7; Junior High, 6; Parochial and Diocesan, 30; Miscellaneous, 147. Number of Pupils, 72,000 (May 15, 1924).

Churches: Baptist, 26; Christian Science, 2; Congregational, 4; Episcopal, 45; Hebrew, 5; Methodist, 61; Presbyterian, 33; Roman Catholic, 31; Miscellaneous, 37.

Banks: National, 14; Total Resources, $130,412,000; Savings Bank Deposits Total, $29,246,000; 7 Trust Cos.; Total Resources, $67,812,000.

Theatres: Legitimate, 4; Moving Pictures, 47; Vaudeville, 3; Burlesque, 2; Miscellaneous (Auditoriums, etc.), 20; Washington Auditorium, 6,000 seats. Total number of seats, 50,000.

Location: Southern Railway, Chesapeake & Ohio, Pennsylvania, Baltimore & Ohio, Atlantic Coast Line, Norfolk & Western; Richmond, Fredericksburg & Potomac, and Seaboard Air Line Rys. To nearest large city (Baltimore, Md.), by railroad, 1 hour; by trolley, 1½ hours; by auto, 1¾ hours.

Principal Industries: Printing, paper making, ice cream, confectionery, baking, artificial limbs, meats, hats.

Manufacturing Establishments, 595. Leading firms: Auth's Provision Co., Brodt's Hats, Capital Apron Mfg. Co., Capital Bedding Co., Chapin-Sacks Co., Corby Baking Co., D. C. Paper Mfg. Co., Stone Straw Co., John H. Wilkins Co., J. E. Hanger, Inc.; Barber & Ross. Total value of yearly output of factories estimated at $68,826,570.

Special Information: Washington, being the capital, is primarily a residential rather than a manufacturing city. Thousands of visitors are here for periods varying from a few days to weeks or months. Washington is also the gateway of the South, and the freight yards of the Southern Railway, located a few miles from Washington, are among the largest of the country.

Residential Features: Extremely large apartment house population, and high ratio of boarding houses. Congestion during the war created great need for housing and building. In the years immediately following building was greater proportionately than in any other section of the country. Because of the restricted area of the District of Columbia, thousands of persons making their living in Washington were compelled to find homes in the surrounding states of Virginia and Maryland, for a radius of 25 miles or more. More than a thousand government employees commute from Baltimore, distant 40 miles.

Retail Shopping Section: 7th Street, 10 blocks; 9th Street, 10 blocks; F Street, 8 blocks; G Street, 8 blocks; Pennsylvania Avenue, 15 blocks; 14th Street, 10 blocks; Connecticut Avenue, 6 blocks.

Trading Area: North, 20 miles; east and west, 60 miles; south, 100 miles. Nearest large city (Baltimore), 40 miles north, and Richmond, 110 miles south.

Wholesale Houses: Groceries, 14; meats, 18; fruits, 13; hardware, 4 dry goods, 2.

EVERY EVENING

Delaware's Reliable Newspaper

FOR more than 50 years Every Evening has occupied FIRST place among the newspapers of Delaware—in prestige, in influence and those essential qualities of character and dependability which go to make a newspaper worth while.

Its circulation reaches people who prefer and can afford the better things that go to make life worth living—the real BUYING POWER OF EVERY COMMUNITY. These readers have confidence in Every Evening—in its news columns and its editorial page—and this confidence extends naturally to its advertising columns. For this reason advertisers in Every Evening buy opportunity for influence which is not offered by any other medium in this territory. This has been proven so many times by advertisers that it has become an old story.

To plan an advertising campaign in Delaware without using Every Evening is like starting on a journey without gas in your motor car. Every Evening offers advertisers the BUYING POWER which builds business in its territory.

DAYTONA BEACH, FLA.

(Volusia County)

1920 Population, 5,445. (1925, 22,500.)

City and Suburban Estimate, 1925, 30,000.

Native Whites, 55%; Negroes, 45%.

Schools: Public Grade, 5; High, 2; Junior High, 1.

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 2; Hebrew, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 2.

Banks: State, 6. Total Resources, $10,500,000; Savings Banks Deposits Total, (Oct. 20, 1925), $18,948,625.

Theatres: Moving Pictures, 4; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 5,500.

Location: On Florida East Coast Railroad, 113 miles south of Jacksonville on Main Dixie Highway, also on East Coast canal from Jacksonville to Miami (freight transportation). Canal will eventually be taken over by U. S. Government. Daytona Beach is a focal point for Florida travel. Every city in Florida, except Pensacola, is within twelve hours ride by motor. Through the consolidation, Aug. 4, 1925, of Daytona, Daytona Beach, and Seabreeze, the new city of Daytona Beach came into existence as Florida's seventh largest city. To nearest larger city by railroad, 3½ hours; by auto, 4 hours.

Principal Industries: Lumber, building tile, citrus and deciduous fruits, fresh vegetables, canning (fish, fruit and vegetables), rock quarrying and crushing.

Manufacturing Establishments: No. 9 Plantation, East Coast Preserving Co. Rock quarries (2) ship 20 cars daily.

Special Information: Annual number of tourists aggregate 125,000.

Residential Features: This community has many beautiful residences and embraces a large residential area. Its natural beauty and equable climate attracts a great many visitors from the North.

Retail Shopping Section: Two distinct districts. One along the river, other on Main Street on the peninsula. In addition there are many small districts in the outskirts. The negro population has a separate district of its own along Second Avenue. The "white" sections are noted for their exclusive shops, many New York concerns operating here.

Trading Area: Twenty miles north and south.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 4; hardware, 2; miscellaneous lines, 5 small concerns.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto. agencies, 5; automobile accessories, 20; automobile tire agencies, 22; bakers, 5; cigar stores and stands (including hotels), 75; confectioners (including hotel stands), 15; delicatessen, 4; druggists, 15; dry goods, 10; electrical supplies, 15; florists, 2; fruits, 20; furniture, 3; garages (public), 30; grocers, 25; hardware, 4; jewelry, 3; meat markets, 10; men's furnishings, 8; men's clothing, 8; merchant tailors, 4; milliners, 10; opticians, 2; photographers, 5; pianos (and miscellaneous musical instruments), 2; radio supplies, 8; restaurants (including hotels), 80; shoes, 15; sporting goods, 5; stationers, 2; women's apparel, 15.

NEW YORK CHICAGO DETROIT KANSAS CITY ATLANTA SAN FRANCISCO

FLORIDA (Cont'd)

Key West (con't)

Born, 10%; **Industrial Workers,** 25%; **English Reading,** 90%; **Families,** 3,978.

Schools: Public Grade, 4; High, 1; Junior High, 1; Parochial, 2; Number of Pupils, 1,490.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 2; Hebrew, 1; Methodist, 5; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 1; Total Resources, $1,983,242.01; Savings Bank Deposits Total, $593,056.15.

Theatres: Legitimate, 2; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 2,600.

Location: Key West is 90 miles from Havana, Cuba, a night's ride by steamer from Tampa, and 180 miles south of Miami. It is the terminus of the Florida East Coast Railway, the P. & O. S. S. Co., and is also a port of call of the Mallory S.S. line between Key West and Baltimore and New York, Galveston and New Orleans. Supply base for the various Navy vessels that frequently put into this port.

Principal Industries: Cigar manufacturing, sponging, fishing and shipping.

Manufacturing Establishments: 67. Leading firms: Cortez Cigar Co., Gato Cigar Co., Lo-coval Cigar Co., Thompson & Co., American Cigar Co., R. Lopez Trujillo Cigar Co., Greek-American Sponge Co. (branch), Thompson Fish Co. Total value of yearly output of factories estimated at $3,960,000.

Special Information: Key West is an important port, having exports of over $6,000,000 per month, and imports of more than $1,000,000 per month. Cigar factory pay rolls more than $60,000 per week. Frost in Key West is unknown. The pleasant climate, winter and summer, attracts more tourists every season. No farming territory, therefore all foodstuffs consumed are shipped in.

Residential Features: Houses are principally of the two-story Spanish type. Some small houses for industrial and other workers. Many beautiful homes fronting on beaches.

Retail Shopping Section: Extends from Front Street to Petronia Street, 9 blocks on Duval Street. From Thomas Street to White Street, about 5 business blocks. Also many neighborhood blocks, with groceries, meat markets, drugs, and confectionery, and a few clothing and feed stores.

Trading Area: Key West is an island, and trade is necessarily confined to it and to several other small outlying islands and keys.

Wholesale Houses: Groceries, 7; meats, 3; fruits, 2; hardware, 1; Miscellaneous lines, 4.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial automobile agencies, 2; automobile accessories, 8; automobile tire agencies, 6; bakers, 8; cigar stores and stands (including hotels), 79; confectioners (including hotel stands), 7; dressmakers, 5; druggists, 12; dry goods, 14; department stores, 1; electrical supplies, 2; fruits, 9; furniture, 4; garages (public), 3; grocers, 58; hardware, 3; jewelry, 3; meat markets, 8; men's furnishings, 1; men's clothing, 8; merchant tailors, 3; milliners, 2; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 1; restaurants (including hotels), 62; sporting goods, 2; stationers, 2; women's apparel, 3.

Native Whites, 80%; **Negroes,** 19½%; **Foreign Born,** ½%; **Industrial Workers,** 30%; **English Reading,** 95%; **Families,** 7,000.

Schools: Public Grade, 6; High, 2; Southern College (Methodist), 1; Number of Pupils, 6,300.

Churches: Baptist, 3; Christian Science, 1; Episcopal, 1; Methodist, 4; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 5.

Banks: National, 1; State, 3; Total Resources, $7,630,720.

Theatres: Moving Pictures, 4.

Location: Lakeland is the meeting point of five divisions of the Atlantic Coast Line R.R., making it the logical distribution center for a large part of Florida, as it is located in the center and richest part of the state. Bus lines lead to all parts of Florida from Lakeland. To nearest large city by railroad, 1 hour; by trolley, 63 minutes; by auto 1 hour.

Principal Industries: Phosphate mining, cigars and tobacco, citrus fruit packing, railroad machine shops, canning factories, brick and tile works, cement products, iron and foundry works, lumber, ice manufacturing.

Manufacturing Establishments: 40. Leading firms: Non-acid Fertilizer and Chemical Co., Lakeland Novelty Works, Lakeland Iron Works, Mutual Iron Works.

Special Information: Due to its location is one of the best distributing points in the state. One of the finest up-to-date parks and civic centers now under construction. Is the center of an extensive hard road system. Its even temperature and excellent drinking water make it a wonderful residential city. Florida Citrus Exchange is located in Lakeland.

Residential Features: $5,000 homes predominate, the resident usually being the owner. Around the lakes the most exclusive homes are found. They range from $10,000 up to $30,000. There are a large number of apartments in the city. Building records show that Lakeland is building an average of one new home every eleven hours. In 1924, the average was one home every 16½ hours.

Retail Shopping Section: Main Street, from Florida Ave. to Massachusetts Ave., 3 blocks; Kentucky Ave., from Pine St. to Lemon St., 3 blocks; Pine St., from Kentucky Ave. to Florida Ave., 2 blocks; Tennessee Ave., from Main St. to Lemon St., 1 block; North Florida Ave. to Pear St., to South Florida Ave. and Lime St.

Trading Area: 15 miles west, 35 miles north, 45 miles northwest, 60 miles south, 75 miles southeast, 55 miles east.

Wholesale Houses: Groceries, 3; fruits, 6.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; automobile accessories, 15; bakers, 9; cigar stores and stands (including hotels, 26 (chain, 3); confectioners (including hotel stands), 31; dressmakers, 3; druggist, 14 dry goods, 13; department stores (small), 6; electrical supplies, 11; florists, 4; fruits, 2; furniture, 12; garages (public), 23; grocers, 65 (chain, 3); hardware, 7; jewelry, 4; meat markets, 14; men's furnishings, 6; men's clothing, 4; merchant tailors, 6; milliners, 6; opticians, 3; photographers, 4; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 37; shoes, 6; stationers, 3; women's apparel, 11.

Miscellaneous Data: Average temperature, 69 degrees; average number of rainy days per twelve months, 120; most pleasant months, Dec., Jan., Feb., March; doctors (medical, 25). (dentists, 10), (osteopaths, 2); number of wired houses, 3,200; gas, artificial; electric current, alternating; water, soft.

MIAMI, FLA.

(Dade County)

1920 Population, 29,571.

City and Suburban Estimate, 85,000.

Native Whites, 75%; **Negroes,** 22%; **Foreign Born,** 3%; **Industrial Workers,** 5%; **English Reading,** 98%; **Families,** 15,000.

Schools: Public Grade, 12; High, 3; Junior High, 1; Parochial, 2; Number of Pupils, 11,200. (estimated).

Churches: Baptist, 6; Christian Science, 2; Congregational, 3; Episcopal, 2; Hebrew, 1; Methodist, 7; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 21.

Banks: National, 2; State, 6; Total Resources, $48,674,013.31; Savings Bank Deposits Total, $46,233,256.

Theatres: Legitimate, 1; Moving Pictures, 6; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 10,000.

Location: On Biscayne Bay and Atlantic Ocean, on the extreme lower East Coast of Florida, and at mouth of Miami River. Served by Florida East Coast Railway. Steamship Lines to Baltimore, Georgetown, Charleston, New Orleans, Key West, Jacksonville and the Bahamas.

Principal Industries: Sugar making, candy, preserving and canning, furniture, printing, railroad shops, boat building, cigars, toilet goods, paint, polish, mattresses, auto accessories, stone quarrying, sugar cane, cocoanuts, fresh vegetables.

Manufacturing Establishments: Pennsylvania Sugar Co., Dade County Citrus Sub-Exchange, The Polk Company, Hialeah Furniture Co., Reed Furniture Co., Stewart-Earl, Merrill-Stevens Drydock Co. Total value of yearly output of factories estimated at $4,000,000.

Special Information: Miami is a winter resort and play spot, the population doubling during the winter months, and the estimated annual expenditure of the visitors is about $35,000,000. There are over 15,000 automobiles here. It is a fast growing port and wholesale distributing point. Phenomenal real estate development, and building construction is placing Miami in the front rank among Florida's growing cities.

Residential Features: Mostly one-family cottages and bungalows. No tenement section. Stucco homes predominate, being especially suited to this semi-tropic climate. One of the most beautiful residential cities in America.

Retail Shopping Section. Considering Flagler Street and Miami Avenue as the center, a circle with a radius of six blocks will take in most of the shopping district, although Flagler and Miami are mostly business streets throughout their entire length. Two of our largest department stores are practically doubling their floor space this summer.

Trading Area: Seventy-five miles north, thirty south, and fifteen west.

Wholesale Houses: Groceries, 8; meats, 4; fruits, 16; dry goods, 1; Miscellaneous lines, plumber's supplies, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 35; commercial automobile agencies, 5; automobile accessories, 25; automobile tire agencies, 27; bakers, 22; cigar stores and stands (including hotel stands), 34; delicatessen, 8; dressmakers, 20; druggists, 54; dry goods, 57; department stores, 3; electrical supplies, 11; florists, 7; fruits, 23; furniture, 29; garages (public), 67; grocers, 235; hardware, 20; jewelry, 16; meat markets, 40; men's furnishings, 17; men's clothing, 17; merchant tailors, 31; milliners, 22; opticians, 7; photographers, 13; pianos (and miscellaneous musical instruments), 3; radio supplies, 7; restaurants (including hotels), 152; shoes, 18; sporting goods, 14; stationers, 5; womens' apparel, 16.

FLORIDA (Cont'd)

ORLANDO, FLA.

(Orange County)

1920 Population, 9,282, (1925 est. 23,273). (Approximate increase during winter season, 7,000 to 10,000).

City and Suburban Estimate, 20,000.

Native Whites, 90%; **Negroes,** 10%; **English Reading,** 100%.

Schools: Public Grade, 5; High, 1; Junior High, 1; Parochial, 2; Number of Pupils, 1924, 4,800; 1925 estimate, 5,500.

Churches: Baptist, 3; Christian Science, 1; Episcopal, 2; Hebrew, 1; Methodist, 3; Presbyterian, 5; Roman Catholic, 1; Christian, 1; Miscellaneous, 6.

Banks: National, 1; State, 4. Banks and Savings Bank Deposits Total in excess of $16,000,000.

Theatres: Legitimate, 3; Moving Pictures, 5; Vaudeville, 1. Total number of seats, 6,500.

Location: In central part of peninsula, on Atlantic Coast Line, and Seaboard Air Line Rys. Twenty-two miles south St. Johns River steamship terminal. 150 miles south of Jacksonville and 90 miles north of Tampa. Good, hard surfaced roads radiate in every direction from Orlando, making transportation by truck simple and profitable.

Principal Industries: Citrus industry greatest single source of income, but trucking rapidly assuming important position. Sixty articles manufactured here, and total weekly pay roll is $225,000.

Manufacturing Establishments: 30. Leading firms: Atlas Mfg. Co., Orlando Potteries, Orlando Mfg. Co., Peninsular Chemical Co., J. Schnaar & Co., Southern Fertilizer Co., Cain-O'Berry Boiler Works, Curry & Smith Cigar Co.

Special Information: Because of central location Orlando will inevitably become large distributing center. Good roads and railway facilities are assisting materially. While entertaining approximately 50,000 tourists each season, this is not a tourist city, for business is good twelve months in the year.

Residential Features: City of homes. Majority of working men own, or are buying theirs. Property values constantly enhancing permit average man to invest with reasonable assurance of profit, in event it should later become necessary to sell. Magnificent homes surround our twenty beautiful lakes, and a low tax rate, and the friendly attitude of the people encourage homemaking here.

Retail Shopping Section: Business section rather well spread out, and is not confined to one street or section. Orange Avenue is the principal thoroughfare, but all cross streets, and parallel streets for several squares are closely built up. Business pushing out in every direction. Business directory shows 2,700 firms in the city. Our stores are modern in every respect, and compare favorably with those of larger cities. Churches, theatres, and public buildings are all built on the same scale.

Trading Area: Within a fifty-mile radius of city. Cars from all points within this area traverse our streets every day. This territory includes a population of, approximately, 150,000. Daily deliveries are made by wholesalers over this entire area, and retailers are able to cover profitably an area of ten miles in each direction from the city.

Wholesale Houses: Groceries, 5; meats, 1; fruits, 4; hardware, 1; dry goods, 1; Miscellaneous lines, total 25.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 18; commercial auto. agencies, 5; automobile accessories, 12; automobile tire agencies, 8; bakers, 9; cigar stores and stands (including hotels, 8 (chain, 1); confectioners (including hotel stands), 12; delicatessen, 6; dressmakers, 10; druggists, 16 (chain, 1); dry goods, 12; department stores, 6; electrical supplies, 5; florists, 6; fruits, 12; furniture, 24; furriers, 1; garages (public), 26; grocers, 91; hardware, 5; jewelry, 5; meat markets, 24; men's furnishings, 16; men's clothing, 16; merchant tailors, 4; milliners, 10; opticians, 3; photographers, 5; pianos (and miscellaneous musical instruments), 3; radio supplies, 5; restaurants (including hotels), 22; shoes, 10; sporting goods, 3; stationers 2; women's apparel, 12.

Miscellaneous Data: Average temperature, 71.4 degrees, (average, summer 79.2; winter, 64.0); doctors (medical, 36); (dentists, 18); (osteopaths, 5); number of wired houses, 5,000; street car service; gas; electricity; water, soft.

See announcement bottom column 2

PALATKA, FLA.

(Putnam County)

1920 Population, 5,102.

City and Suburban Estimate, 14,564.

Native Whites, 70%; **Negroes,** 25%; **Foreign Born,** 5%; **Industrial Workers,** 45%; **English Reading,** 95%; **Families,** 2,361.

Schools: Public Grade, 2; High, 1; Parochial, 1. Number of Pupils, 1,657.

Churches: Baptist. 3; Christian Science, 1; Congregational, 1; Episcopal, 2; Hebrew, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 1; State, 2; Total Rerources, $4,280,000: Savings Bank Deposits Total, $3,150,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1. Total number of seats, 2,100.

Location: 52 miles south of Jacksonville, on St. Johns River. Served by A. C. L., F. E. C., and Southern Rys. Two steamer lines to Jacksonville, with ocean-going schooners making calls for cargoes. Excellent bus service to nearby towns.

Principal Industries: This is a manufacturing and wholesale center, due to low freight rates, lumber being the principal industry. Bucket, cooperage, sash, doors and blinds, crates, cypress and pine lumber. Pioneer manufacturers of automobile shipping blocks, foundries, fish, and trading center for the famous Hastings potato section: Cultivation of citrus fruits and vegetables an extensive industry.

Manufacturing Establishments: 27. Leading firms: Wilson Cypress Co., Selden Cypress Door Co., Florida Woodenware Co., Southern Veneer Works, J. L. Waites Crate Factory, Browning Lumber Co., Matthews & Allen Marine Ways, Palatka Foundry & Machine Co., T. J. Burnett Co., Paul-Waymer Lumber Co., J. C. McCoy Fish Co., Moss Products Co., Southern Utilities Co. Headquarters for 23 different utility plants.

Special Information: Palatka was formerly the rail head for Florida, but is now given over to the cultivation of citrus and deciduous fruits, potatoes, and other garden vegetables. Enjoys especially low freight rates, making it desirable as a wholesale center. Not a tourist center, although many Northerners come here in winter.

Residential Features. Mostly one, and two-family houses, with more pretentious dwellings scattered throughout city. Homes average $4,000.

Retail Shopping Section: Located principally on one long street extending from the river for a distance of nearly two miles, with some retail houses on cross streets, also a number of neighborhood stores.

Trading Area: Extends all over the county and as far north as Green Cove Springs, in Clay County, and as far south as Bunnell, in Flagler County. Good roads make it possible for shoppers to come 30 and 40 miles to make purchases.

Wholesale Houses: Groceries, 7; meats, 1; fruits, 2; hardware, 2; Miscellaneous lines, stationers, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial auto. agencies, 3; automobile accessories, 3; automobile tire agencies, 6; bakers, 4; cigar stores and stands (including hotels), 18; confectioners (including hotel stands), 7; delicatessen, 2; dressmakers, 7; druggists, 5; dry goods, 6; department stores, 2; electrical supplies, 3; florists, 2; fruits, 9; furniture, 6; garages (public), 6; grocers, 21; hardware, 4; jewelry, 3; meat markets, 6; men's furnishings, 5; men's clothing, 4; merchant tailors, 2; milliners, 3; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 3; restaurants (including hotels), 6; shoes, 3; sporting goods, 2; stationers, 3; women's apparel, 4.

PENSACOLA, FLA.

(Escambia County)

1920 Population, 31,035.

City and Suburban Estimate, 39,868 (1920).

Native Whites, 66.5%; **Negroes,** 33.5%.

Schools: Public Grade, 17; High, 2; Parochial, 3; Number of Pupils, 5,900, (estimated).

Churches: Baptist, 3; Christian Science, 1; Episcopal, 3; Hebrew, 2; Methodist, 3; Presbyterian, 3; Roman Catholic, 4; Miscellaneous, 5.

Banks: National, 2; State, 1; Deposits, $7,067,655.91.

Theatres: Legitimate, 1; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 3,000.

Location: On L. & N. R. R., M. S. B. & P. Ry., Gulf Ports Terminal Ry., and Pensacola Electric Co. Has regular steamship service to all principal foreign ports. Coastwise service to New York, and to points in Florida and Alabama on Gulf of Mexico. Direct railway connection with Cincinnati, Louisville, and other points reached via these gateways.

Principal Industries: Naval stores, lumber production, shipbuilding, cooperage, petroleum products, clay products, excelsior, commercial fishing, fertilizer.

Manufacturing Establishments: 75. Leading firms: Weiss-Patterson Lumber Co., Southern States Lumber Co., Pensacola Shipbuilding Co., Newport Company, Pensacola Tar & Turpentine Co., Pensacola Cooperage Co., Tart Cooperage Co., American Agricultural Chemical Co., Southern Cotton Oil Co., Sherrill Oil Co., E. E. Saunders & Co., Warren Fish Co., Pensacola Chemical Co., Western Papermakers Chem. Co., Pensacola Candy Co., Thagen Cigar Co., Lopez-Garcia Cigar Co., Pensacola Mattress Co. Total value of yearly output of factories (1920) estimated at $18,006,919.

Special Information: Large shipper of fish, red snapper and grouper. Third primary naval stores market of the U. S. Location of large naval air training station. Value of exports increased 70%, 1923 over 1922. Imports increased 126%. Has only paved highway in entire Gulf area, reaching directly to the shore of the Gulf of Mexico. Drinking water approximately 100% pure. Sunstrokes unknown.

Residential Features: Most homes owned by occupants. Home building increased very materially during the past year.

Retail Shopping Section: Garden street, 4 blocks; Wright Street, 4 blocks; Palafox Street, 10 blocks; Romana Streets, 2 blocks; Intendencia, 2 blocks; Government Street, 4 blocks.

Trading Area: North, to Flomaton, Ala., 44 miles; east, to De Funiak Springs, Fla., 79 miles; west to Foley, Ala., 40 miles.

Wholesale Houses: Groceries, 8; meats, 5; fruits, 4; hardware, 2; dry goods, 1; Miscellaneous lines, fish, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial automobile agencies, 4; automobile accessories, 5; automobile tire agencies, 4; bakers, 4; cigar stores and stands (including hotels), 14; confectioners (including hotel stands), 7; delicatessen, 4; druggists, 12; dry goods, 14; department stores, 2; electrical supplies, 3; florists, 3; fruits, 7; furniture, 6; garages (public), 3; grocers, 75; hardware, 4; jewelry, 5; meat markets, 12; men's furnishings, 5; men's clothing, 5; merchant tailors, 3; milliners, 9; opticians, 6; photographers, 3; pianos (and miscellaneous musical instruments), 3; radio supplies, 4; restaurants (including hotels), 12; shoes, 14; sporting goods, 2; stationers, 3; women's apparel, 7.

ST. AUGUSTINE, FLA.

(St. Johns County)

1920 Population, 6,192. (1925, est. 12,500).

City and Suburban Estimate, 28,000.

Native Whites, 70%; **Negroes,** 25%; **Foreign Born,** 5%; **Industrial Workers,** 10%; **English Reading,** 90%; **Families,** 2,387.

Schools: Public Grade, 4; High, 1; Parochial, 2; Number of Pupils, 2,400.

Churches: Baptist, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, Negro, 12.

Banks: National, 2; Savings, 2; Total Resources, $11,200,000.

Theatres: Legitimate, 1; Moving Pictures, 3; Total number of seats, 2,800.

Location: Situated on Matanzas Sound, one-half mile from the Atlantic Ocean, and 37 miles southeast of Jacksonville, on main line of Florida East Coast R.R.

Principal Industries: Cigar factories, railroad shops, shrimp fishing and packing, citrus fruits, vegetable trucking, dairying and cattle raising.

Special Information: St. Augustine is the oldest town in the United States. Has romantic history and many picturesque buildings and streets. Site of old Fort St. Augustine, built by first Spanish settlement. Favorite Winter resort for tourists, fishing, sailing, etc. Trade center for surrounding country. Large shrimp cannery, silk spinning mill, State School for the Deaf and Blind, Railway general offices, printing plants.

Residential Features: All types of homes, some of colonial design.

Retail Shopping Section: One-half mile on St. George Street, one-half mile on King Street, and one-quarter mile on Cathedral Street.

Trading Area: About 20 mile radius.

Wholesale Houses: Groceries, 1; meats, 1; fruits, 3; cigar, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 7; commercial auto. agencies, 7; automobile accessories, 9; automobile tire agencies, 9; bakers, 5; cigar stores and stands (including hotels), 6; confectioners (including hotel stands), 8; delicatessen, 2; dressmakers, 3; druggists, 5; dry goods, 7; department stores, 3; electrical suppplies, 4; florists, 1; fruits, 7; furniture, 4; garages (public), 10; grocers, 36; hardware, 3; jewelry, 6; meat markets, 9; men's furnishings, 5; men's clothing, 5; merchant tailors, 5; milliners, 5; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 2; restaurants (including hotels), 14; shoes, 6; sporting goods, 1; stationers, 3; women's apparel, 4.

ST. PETERSBURG, FLA.

(Pinellas County)

1920 Population, 14,237. (1925, 45,000 summer; 150,000, winter.)

City and Suburban Estimate, 50,000.

Native Whites, 90%; **Negroes,** 9%; **Foreign Born,** 1%; **Industrial Workers,** 15%; **English Reading,** 100%; **Families,** 15,000.

Schools: Public Grade, 10; High, 2; Junior High, 1; Parochial, 1; Private Schools, 10; Number of Pupils, 8,000.

Churches: Baptist, 3; Christian Science, 1; Congregational, 2; Episcopal, 2; Methodist, 4; Presbyterian, 3; Roman Catholic, 2; Miscellaneous, 15.

Orlando Morning Sentinel

ORANGE COUNTY, FLORIDA

THE Orlando Morning Sentinel has entire command of the rich and progressive Central Florida territory impossible to cover by any other medium. A big lead in every advertising department coupled with a dependable editorial policy that has a backbone, makes this paper the choice of the people. The very fact that National advertisers use more space in this paper is acknowledged proof of its superiority. A. B. C. Report largest in this territory.

FROST, LANDIS & KOHN
Foreign Representatives

National Advertisers Have Missed This Field

Of the 7,767,840 lines of advertising carried by The Evening Independent, St. Petersburg, Florida, during the six months ending June 30, 1925,

Less Than 5½% Was National Advertising

The remarkable growth of The Independent's field is largely responsible for that. You space buyers can not be expected, at your distance from the scene, to know all about this rapid growth of St. Petersburg.

For example, it may be hard for you to believe, but it is a fact, The Independent stood

Third in the United States In Local Advertising Linage

for six-day, evening newspapers, during the first half of 1925; The Independent's linage for September, 1925, was 80% larger than for September, 1924; and the Sunshine Paper's circulation increased 32% from September to September, without a contest or promotion campaign.

The Independent realizes that you should be told these facts for the benefit of your clients. For that reason we recently appointed

FROST, LANDIS & KOHN

Our National Advertising Representatives, and they will be pleased to tell you some interesting—surprising—things about St. Petersburg and The Independent. Or, ask us, if you prefer.

The Evening Independent

St. Petersburg — The Sunshine City

FLORIDA

FLORIDA (Cont'd)

Banks: National, 3; State, 4; (one non-commercial) Total Resources, $33,759,086; Savings Bank Deposits (estimated), $5,000,000. Total deposits, June 30, 1925, $29,890,369.16. Bank clearings for 1924, $100,327,156.22; for first six months 1925, $87,954,768.67. Building Permits for the year 1924, $9,450,000. First six months of 1925, $8,353,300; seven months, $10,626,000.

Theatres: Legitimate, 1; Moving Pictures, 6; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 4; Total number of seats, 35,000.

Location: Seaboard Air Line and Atlantic Coast Line Railways, terminals for both roads. Florida and Home S.S. Line and Ft. Myers Steamship Co. Southern end of Pinellas County, on the Pinellas Penninsula between Tampa Bay and the Gulf of Mexico. To nearest large city by railroad 1½ hours; by auto, 1 hour. Gandy Bridge across Tampa Bay cuts time for autos to Tampa.

Principal Industries: Building materials and sundry supplies. St. Petersburg is almost exclusively a tourist city and the business establishments here cater mostly to the comfort, convenience, health and entertainment of Winter residents. These cannot well be classed as industries though the pay rolls would probably exceed those of commercial organizations in other industrial cities of equal size.

Residential Features: Fine residential sections of more than 500 homes valued at $100,000 or more. Average home being erected at cost of $10,000 to $15,000. Tile and stucco, or brick construction leads over frame. Limited section for negroes. Private homes predominate, though there are many apartment houses and hotels.

Retail Shopping Section: Central Avenue, 20 blocks; Ninth Street, 12 blocks; Second Street, 2 blocks; Third Street, 3 blocks; Fourth Street, 6 blocks; Fifth Street, 2 blocks; First Avenue North, 7 blocks; First Avenue South, 5 blocks.

Trading Area: Pinellas County.

Wholesale Houses: Groceries, 6; meats, 2; fruits, 5; hardware, 1; oil, 6; plumbers, 1; fish, 2; cigars, 1; candy, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 22; bakers, 23; cigar stores and stands (including hotels,) 89 (chain, 1); confectioners (including hotel stands), 50; delicatessens, 8; dressmakers, 50; druggists, 26 (chain, 4); dry goods, 16; department stores, 6; electrical supplies, 12; florists, 4; fruits, 32; furniture, 21; furriers, 9; garages and filling stations (public) 75; grocers, 150 (chain, 10); hardware, 13; meat markets, 48 (chain, 6); milliners, 23; opticians, 8; photographers, 17; pianos and miscellaneous musical instruments, 4; radio supplies, 4; restaurants (including hotels), 150; shoes, 18; sporting goods, 4; stationers, 8; women's apparel, 20.

Miscellaneous Data: Average temperature, 68.5 degrees; average number of rainy days per twelve months, 50; most pleasant months, March, April, May, Oct., Nov., Dec.; doctors (medical, 50), (dentists, 25), (osteopaths, 12); number of wired houses, 13,500; gas, artificial; electric current, alternating; water, hard.

See announcements pages 42 and 43

SANFORD, FLA.

(Seminole County)

1920 Population, 5,588. (1925, est. 15,000.)

City and Suburban Estimate, 11,000.

Native Whites, 80%; Negroes, 20%; Industrial Workers, 3%; English Reading, 100%; Families, 2,000; Agricultural Workers, 25%.

Schools: Public Grade, 4; High, 1; Number of Pupils, 3,000.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Christian, 1; Miscellaneous, 1.

Banks: National, 1; State, 2; Total Resources, $5,000,000; Savings Bank Deposits Total, $800,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 2,200.

Location: At the head waters of the St. Johns River, 198 miles from Jacksonville by water, 156 by Dixie Highway, and 125 by railroad. A. C. L., midway between Tampa and Jacksonville. Cylde S.S. Co. operates daily river steamers from Jacksonville and return, making connection with its coastwise vessels, and those of M. & M. T. Co., affording all water route from Sanford to all principal eastern seaboard points.

Principal Industries: Agriculture, principally celery. This section produces 20% of this product grown in the U. S., and 73% of the total production of Florida. 5,500 cars shipped last year. Total shipments all products, including citrus last season, 7,646 cars. Large icing station located at Sanford at which 90,000 tons of ice were placed in refrigerator cars last year. Value crops last season, $5,000,000.

Manufacturing Establishments: Principal industry is the A. C. L. shops. Others are Florida McCracken Concrete Pipe Co., Zachary-Tyler Veneer Co., Shinholzer's Crate Mill, Seminole Lumber Mill. Total value of yearly output of factories estimated at $500,000.

Residential Features: Mostly one-family dwellings; colored population segregated into two sections. Approximately 75% white population own their homes. Residential section extends south and west of business section. While a number of the growers have homes in their acreage, there are a few that live in the city. Average home value, $4,000. City Planning and Zoning Commission.

Retail Shopping Section: Confined principally to one street, 6 blocks long. It is encroaching, however, on the avenue leading into this street. Very few neighborhood stores.

Trading Area: A 25-mile radius. Good roads. Competitive water and rail facilities give preferred freight rates, and make it the logical trading center for this section of the state.

Wholesale Houses: Groceries, 2; fruits, 1; miscellaneous lines, Biscuits, 1; feed 2; confectionery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial automobile agencies, 2; automobile accessories, 15; automobile tire agencies, 15; bakers, 4; cigar stores and stands (including hotels), 15; confectioners (including hotel stands), 8; delicatessen, 3; dressmakers, 12; druggists, 6; dry goods, 15; department stores, 4; electrical supplies, 2; florists, 2; fruits, 2; furniture, 4; garages (public), 5; grocers, 22; hardware, 2; jewelry, 2; meat markets, 7; men's furnishings, 6; men's clothing, 5; merchant tailors, 3; milliners, 6; opticians, 3; photographers, 5; pianos (and miscellaneous musical instruments), 5; radio supplies, 2; restaurants (including hotels), 12; shoes, 6; sporting goods, 3; stationers, 2; women's apparel, 8.

TALLAHASSEE, FLA.

(Leon County)

1920 Population, 5,637.

City and Suburban Estimate, 10,000.

Native Whites, 56%; Negroes, 44%; Foreign Born, 3%; Industrial Workers, 280; English Reading, 92%; Families, 1,565.

Schools: Public Grade, 6; High, 2; Number of Pupils, 1,126 White, Negro 740.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1.

Banks: National, 1; State, 4; Total Resources, $8,936,847.98; Total Deposits, $3,150,000.

Theatres: Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 1,300.

Location: Tallahassee is 165 miles west of Jacksonville on the Seaboard Air Line Railroad, and the Georgia, Florida and Alabama Railroad, in the north central part of Florida. To nearest large city by auto, 6 hours.

Principal Industries: Lumber mills, naval stores, iron foundries, stave and handle factories, cigar factories, tobacco packing houses, sash, door and blind factory, barrel factory, crate factories, gas and electric light plant, concrete blocks. Estimated pay roll of factories, $4,500,000. Agriculture and dairy interests contribute largely to progress of city and county, cotton, corn, peanuts, potatoes, hay sugar cane, and vegetables.

Special Information: Tallahassee is the capital city of Florida and county seat of Leon County. Resort Features: Two large tourist hotels and many boarding houses, beautiful 18-hole golf links, sea, and fresh water hunting and fishing, about 20 beautiful lakes, largest spring in the district, sulphur springs, natural bridge, two charming rivers, fresh water and surf bathing and boating.

Residential Features: One-family homes. ....

Retail Shopping Section: Extends about one-half mile on Monroe St., quarter mile on Adams St., quarter mile on College Ave.

Trading Area: Tallahassee's trading area covers that territory lying within a radius of 25 to 30 miles.

Wholesale Houses: Groceries, 5; meats, 1; fruits, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial auto. agencies, 10; automobile accessories, 10; automobile tire agencies, 10; bakers, 3; cigar stores and stands (including hotels), 5; confectioners including hotel stands, 6; dressmakers, 10; druggists, 5; dry goods, 5; department stores, 2; electrical supplies, 3; florists, 2; fruits, 5; furniture, 5; garages (public), 10; grocers, 20; hardware, 4; jewelry, 2; meat markets, 8; men's furnishings, 6; merchant tailors, 2; milliners, 5; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 1; restaurants (including hotels), 5; shoes, 6; sporting goods, 1; stationers, 2.

Miscellaneous Data: Average temperature, 74 degrees; average number of rainy days per twelve months, 12; most pleasant months, nearly all; doctors (medical, 12), (dentists, 6), (osteopaths, 1); gas, natural and artificial; electric current, alternating; water, soft.

FLORIDA and GEORGIA Markets in Standard Surveys

FLORIDA (Cont'd)

TAMPA, FLA.

(Hillsborough County)

1920 Population, 51,608. (1925, state census, 94,808).

City and Suburban: 132,096 (Polk's Directory estimate).

Native Whites, 46%; **Negroes**, 10%; **Foreign Born**, 44%; **Industrial Workers**, 25%; **English Reading**, 75%; **Families**, 26,000.

Schools: Public Grade, 24; High, 2; Junior High, 3; Parochial, 2; Number of Pupils, 13,560.

Churches: Baptist, 34; Christian Science, 1; Congregational, 3; Episcopal, 5; Hebrew, 2; Methodist, 32; Presbyterian, 8; Roman Catholic, 5; Miscellaneous, 10.

Banks: National, 3; State, 14; Total Resources, $98,000,000. Bank Clearings, 1924, $195,979,545.41.

Theatres: Legitimate, 2; Moving Pictures, 11; Vaudeville, 1; Burlesque, 1; Miscellaneous (Auditoriums, etc.), 9. Total number of seats, 24,000.

Location: Located on Tampa Bay at the mouth of Hillsborough River, nearest port of importance to the Panama Canal. Served by various branches of the Atlantic Coast Line and Seaboard Air Line Railways. Freight service to all foreign ports. Bus service to all the nearby cities. To nearest larger city, by railroad, 3 hours; by auto, 1 hour.

Principal Industries: Cigar manufacturing, box manufacturing, asphalt block paving manufacturing, manufacturing of Florida crushed rock, macaroni, soap, mattresses, brooms, furniture, lumber.

Manufacturing Establishments: 250. Leading firms, Tampa Box Co., Hav-a-Tampa Cigar Factory, Weidman Fisher Box Co., Florida Asphalt Block Paving Co., Perry Paint & Glass Co., Leufestey Broom Works, Cuesta Rey & Co., Sanchez & Haya, Val. M. Antuono, J. W. Roberts & Son.

Special Information: Tampa manufactures 2,000,000 clear Havana cigars a day. Also ships heavy tonnage of phosphates.

Residential Features: Mostly one-family houses. Workingmen's homes in certain sections of the city. Have six very exclusive residential sections; one along Tampa's famous Bayshore Boulevard, where many beautiful homes have been erected, costing from $25,000 to $150,000 each. One new hotel and four large apartment houses erected this year.

Retail Shopping Section: Extends from Court Square (center of city) north on Franklin street for distance of about 15 squares. Tampa Street and Florida Avenue, streets parallel to Franklin have retail shopping sections of about 10 squares each. Grand Central Avenue, on which a comparatively new business section has sprung up, is one of the busiest streets in the city. Florida Ave., Nebraska Ave., and East Broadway are new retail shopping streets. There are about five small residential shopping sections in addition to these.

Trading Area: Tampa is essentially the trade center for all South Florida. Thus the trading area extends for (approximately) 100 miles north, 50 miles east, 30 miles west, and 150 miles south.

Wholesale Houses: Groceries, 30; meats, 10; fruits, 6; hardware, 3; dry goods, 3; Miscellaneous lines, cigars and tobacco, 6; lumber, 6.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 36; commercial automobile agencies, 5; automobile accessories, 40; automobile tire agencies, 40; bakers, 38; cigar stores and stands (including hotels) 55 (chain, 6); confectioners (including hotel stands), 25; delicatessen, 5; dressmakers, 53; druggists, 75 (chain, 8); dry goods, 71; department stores, 5; electrical supplies, 21; florists, 8; fruits, 14; furniture, 56; garages (public), 62; grocers, 501 (chain, 21); hardware, 21; jewelry, 22; meat markets, 84 (chain, 22); men's furnishings, 29; men's clothing, 22; merchant tailors, 4; milliners, 26; opticians, 11; photographers, 21; pianos (and miscellaneous musical instruments), 8; radio supplies 5; restaurants (including hotels), 255; shoes, 25; sporting goods, 14; stationers, 5; women's apparel, 30.

Miscellaneous Data: Average temperature, 71.9 degrees; average number of rainy days per twelve months, 116; most pleasant months, all except June, July, August, September; doctors (medical, 103), (dentists, 44), (osteopaths, 9); number of wired houses, 21,600; gas, artificial; electric current, alternating; water, hard (soft after Jan. 1, 1926).

Standard Surveys of GEORGIA

ALBANY, GA.

(Dougherty County)

1920 Population, 11,555.

City and Suburban Estimate, 20,000.

Native Whites, 55%; **Negroes**, 40%; **Foreign Born**, 5%; **Industrial Workers**, 10%; **English Reading**, 90%; **Families**, 5,000.

Schools: Public Grade, 5; High, 3; Number of Pupils, 3,050.

Churches: Baptist, White 2, Colored 12; Episcopal, White 1, Colored 1; Hebrew, 1; Methodist, White, 2, Colored 2; Presbyterian, White 1 Colored 1; Roman Catholic, White 1; Miscellaneous 1, Christian Church.

Banks: National, 2; State, 1; Total Resources, $6,145,646; Savings Bank Deposits Total, $805,876.

Theatres: Moving Pictures, 1; City Auditorium, 1. Total number of seats, 4,000.

Location: At head of navigation on Flint River, served by Atlantic Coast Line Railroad, Seaboard Air Line Railway, Central Railway of Georgia, Georgia Southeastern & Gulf R. R., and Georgia Northern R. R. These five systems operate seven lines, and 52 passenger trains enter and leave Albany daily. To nearest large city, by railroad, 4 hours; by auto, 4 hours.

Principal Industries: Cotton mill, cotton compress, fertilizer factory, cotton oil mills, brick plants, harvesting machinery, factory and foundry, peanut shelling plants, lumber mills, hardwood products, candy factory, pecan products plant, peanut products factory, hog cholera serum, tile roofing, and cigar factories.

Manufacturing Establishments: Flint River Cotton Mill, Reynolds Bros. Lumber Co., Lillistion Harvester Co., "Bobs" Candy Co., Planter Oil Mill, Flint River Brick Co., Silica Brick Co., Albany Peanut Co., McLin Peanut Co., Bain Peanut Co., American Peanut Products Co., Reynolds Bros. Box Factory.

Special Information: Albany is a great pecan center; 700,000 bearing trees of the "paper-shell" variety abound in this territory. Over 2,000,000 pounds of pecans were shipped from Albany. The National Pecan Exchange and the Southern Pecan Growers' Cooperative Association have headquarters here; also Georgia Peanut Growers' Co-operative Association.

Residential Features: Private homes predominate, with many apartment houses being erected. Albany is a splendid home city, with shaded streets and beautiful lawns. Sidewalks are bordered with grass plots and give a picturesque appearance to homes and residences.

Retail Shopping Section: Consists of Washington, Broad, Pine and Jackson Sts.

Trading Area: Albany has no city of similar size within 100 miles. It is the metropolis of southwest Georgia, and is the shopping and amusement center for this territory.

Wholesale Houses: Groceries, 6; meats, 1; fruits, 5; hardware, 4; cigars, 1; dry goods, 2; millinery, 1; Miscellaneous lines, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 2; automobile accessories, 10; automobile tire agencies, 10; bakers, 2; cigar stores and stands (including hotels), 8; confectioners (including hotel stands), 12; dressmakers, 20; druggists, 7; dry goods, 11; department stores, 2; electrical supplies, 3; florists, 2; fruits, 14; furniture, 5; garages (public), 5; grocers, 75; hardware, 3; jewelry, 3; meat markets, 9; men's furnishing, 7; men's clothing, 7; merchant tailors, 2; milliners, 3; opticians, 2; photograpers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 8; shoes, 2; sporting goods, 2; stationers, 2; women's apparel, 10.

SAVANNAH, GA.

(Chatham County)

1920 Population, 83,252.

City and Suburban Estimate, 116,000 (Board of Trade).

Native Whites, 40,826; **Negroes,** 39,179; **Foreign Born,** 3,247; **Industrial Workers,** 13,000; **Families,** 20,000.

Schools: Public Grade, 14; High, 1; Junior High, 3; Parochial, 1. Number of Pupils, 18,000.

Churches: Baptist, 7; Christian Science, 1; Episcopal, 5; Hebrew, 3; Methodist, 7; Presbyterian, 3; Roman Catholic, 7; Miscellaneous, 9.

Banks: State, 16; Total Resources (approx.), $100,000,000; Combined Bank Debits Total, $880,000,000 annually.

Theatres: Legitimate, 1; Moving Pictures, 7; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 14,683.

Location: Savannah is the largest and most important seaport on the South Atlantic, and the second city in Georgia. It lies in a geographically strategic position for receiving and distributing of all kinds of products economically to all parts of the world. It is served by five great railway systems, viz., Central of Georgia, Atlantic Coast Line, Seaboard Air Line, Southern and Savannah and Atlanta, making a most complete network of transportation through the states of North Carolina, South Carolina, Georgia, Florida, Alabama, and Tennessee, with mileage, including their short line connections, in excess of 32,000, and serving in these states a population of 13,300,000, with bank deposits of $1,800,000,000, and farm products valued at $1,700,000,000. In addition to her rail connections, Savannah has direct steamship service with Boston, New York, Baltimore, Philadelphia, Jacksonville, Miami, New Orleans, and all principal ports on the Pacific Coast. It has also regular and direct sailings between most of the foreign ports of the world. These lines maintain agencies at Savannah which are adequately equipped to handle all details pertaining to import and export cargoes.

Principal Industries: Shipping, lumber, naval stores, rosin, turpentine, cotton, cotton seed oil products, sugar refining, sails and awnings, cigars, soda, soft drinks, bags and bagging, peanuts, flour, brooms, fertilizer, fisheries, iron foundries, overalls, matches, mattresses, paints, steel products.

Manufacturing Establishments: 194; Leading firms: Savannah Cottonseed Oil Refinery, Savannah Sugar Refining Corp., South Atlantic Casket Co., Diamond Match Factory, Southern Fertilizer & Chemical Co. Total value of yearly output of factories estimated at: $110,000,000.

Special Information: Savannah's location and rail facilities, together with its wonderful climate makes it an ideal center for manufacture and distribution to inland points. The Ocean Steamship Co. operates both passenger and freight service every other day between Savannah and New York, and two sailings weekly between Savannah and Boston. The shipping season lasts the year round. Savannah has large naval stores and claims to be the largest cotton port on the Atlantic coast.

Residential Features: Savannah is noted for its beautiful squares and streets and is often referred to as the "Forest City." Savannah has a large area of parks and squares. In addition to the nearness of Tybee Beach, numerous watering places on Savannah's network of waterways are easily accessible. Its exclusive residential sections, Chatham, Crescent and Ardsley Park, boast many handsome and picturesque residences.

Retail Shopping Section: Savannah's retail district extends for one mile on Broughton Street, diverging at either side of the central thoroughfare of the city on Bull St. Cross streets on either side of Bull and Broughton Streets contain retail stores. Numerous stores and specialty shops are located in the outlying districts and cater to a thriving neighborhood trade.

Trading Area: The trading area of Savannah extends over a radius of 75 miles, and contains a population of 350,000. Chatham County alone, of which Savannah is the seat, contains 121 miles of paved roads, reaching to county lines. The million dollar road to Tybee Beach, and the bridge over the Savannah River between Savannah and South Carolina are vital additions to the strength and area of her trading potentialities.

Wholesale Houses: Groceries, 19; meats, 7; fruits, 14; hardware, 3; dry goods, 6.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto. agencies, 9; automobile accessories, 18; automobile tire agencies, 20; bakers, 25; cigar stores and stands (including hotel stands), 26; confectioners (including hotel stands), 10; delicatessen, 5; dressmakers, 5; druggists, 65; dry goods, 48; department stores, 2; electrical supplies, 10; florists, 4; fruits, 102; furniture, 25; garages (public), 30; grocers, 395; hardware, 11; jewelry, 25; meat markets, 56; men's furnishings, 20; merchant tailors, 10; milliners, 18; opticians, 5; photographers, 7; pianos (and miscellaneous musical instruments), 5; radio supplies, 7; restaurants (including hotels), 90; shoes, 26; sporting goods, 5; stationers, 8; women's apparel, 19.

See announcement column 4

TIFTON, GA.

(Tift County)

1920 Population, 3,005.

City and Suburban Estimate, 5,000.

Native Whites, 75%; **Negroes,** 24%; **Foreign Born,** 1%; **Industrial Workers,** 25%; **English Reading,** 99%; **Families,** 601.

Schools: Public Grade, 2; High, 1; Agricultural High, 1. Number of Pupils, 1,500.

Churches: Baptist, 1; (missionary); Episcopal, 1; Methodist, 1; Presbyterian, 1; Miscellaneous, Primitive Baptist, 1; Wesleyan Methodist, 1.

Banks: National, 1; State, 1; Total Resources, $2,500,000; Savings Bank Deposits Total, $717,620.21.

Theatres: Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 2,000.

Location: In central part of south Georgia, in Tift County. Served by Southern Railway System, Atlantic Coast Line Railroad, and Atlanta, Birmingham and Atlantic Ry. On National Highway, most traveled route from North to Florida. Excellent highways north and south, east and west, northeast and southwest. Bus service in two directions, twice daily.

Principal Industries: Agriculture, cotton mills, fertilizing factory, cottonseed oil mill, stemmery and redrying tobacco plant, lumber mill, planing mill. Hydroelectric power available.

Manufacturing Establishments: Leading firms: Imperial Tobacco Co. Ltd., Tifton Cotton Mills, Planter's Cotton Oil Co., International Agricultural Chemical Corp., Goodman-Golden Lumber Co. Total value of yearly output of factories estimated at: $17,500,000.

Special Information: Railroad facilities unexcelled. All roads have outlet to Atlantic ports. Agricultural section richly productive. Dairying, poultry, and stock raising being increased, as well as cotton, staple products, melons, etc. Leading shipping point for cabbage, tomato and potato plants. Railroad facilities and highways make Tifton an ideal location for wholesale and jobbing houses (six here now) and headquarters for traveling representatives. Clean, moral city and plenty of houses to be had at reasonable rent. Hydroelectric power.

Residential Features Principally one- and two-family houses, no large apartment houses. Private homes predominate; many attractive homes. City clean, sanitary, excellent water; high moral standing. There are two negro suburbs south of town. No negroes own property in city, but operate stores located in restricted territory. Cotton mill employes have neat village in cottages owned by mill in two white suburbs in north part of town.

Retail Shopping Section: Three blocks on Main St., two blocks on Love Ave., one block on Railroad St. (these streets run north and south). Two blocks on Second St., two blocks on First St., two blocks on Third St. (these streets run east and west), crossing Love, and Main Sts. There are a few grocery stores not in this district.

Trading Area: Extends twenty miles north, east, south, and west. In addition to trade from Tift County, local merchants draw trade from sections of Berrien, Cook, Colquitt, Worth, Turner, and Irwin counties, adjoining Tift.

Wholesale Houses: Groceries, 4; meats, 1; fruits, 1; dry goods, 1; Miscellaneous lines, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 2; commercial auto. agencies, 1; automobile accessories, 5; automobile tire agencies, 10; bakers, 1; cigar stores and stands (including hotels), 7; dressmakers, 4; druggists, 4; dry goods, 12; department stores, 3; electrical supplies, 1; florists, 4; fruits, 1; furniture, 3; garages (public), 5; grocers, 14; hardware, 3; jewelry, 1; meat markets, 4; men's furnishings, 1; men's clothing, 1; merchant tailors, 1; milliners, 3; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 1; restaurants (including hotels), 4

WAYCROSS, GA.

(Ware County)

1920 Population, 18,068.

City and Suburban Estimate, 28,000.

Native Whites, 75%; **Negroes,** 25%; **Foreign Born** less than 1%; **Industrial Workers,** 50%; **English Reading,** 100%.

Schools: Public Grade, 8; High, 2; Junior High, 1; Junior College, 1; Number of Pupils, 3,500.

Churches: Baptist, 8; Episcopal, 2; Methodist, 9; Presbyterian, 1; Roman Catholic, 1; Chirstian, 1; United Brethren, 1.

Banks: National, 1; State, 1.

Theatres: Moving Pictures, 2. Total number of seats, 1,100.

Location: Served by the Atlantic Coast Line, Atlantic, Birmingham and Atlanta Railways. Also Waycross & Western R.R., and Waycross & Southern R.R. short lines. A. C. L. shops located here. Over 55 passenger trains daily. Transfer point for Florida shipments. To nearest large city, by railroad, 2½ hours; by auto, 3 hours.

Principal Industries: Railroad shops, lumber mills, turpentine stills, ice cream factory, candy factory, large bee hive factory.

Special Information: Waycross is now developing its agricultural possibilities. It is in the center of the Georgia tobacco belt, and within 9 miles of the largest tobacco market in Georgia.

Residential Features: Mainly private homes between $1,500 and $10,000 in value. Three paved residential streets. All have sidewalks, and many more are now being curbed and paved.

Retail Shopping Section: Plant Ave., 4 blocks; Albany Ave., 3 blocks; Isabella St., 3 blocks; Lott St., 2 blocks; Mary St., 4 blocks; Pendleton St., 3 blocks; Frances St., 2 blocks. Smaller community retail centers.

Trading Area: Ranges to 50 miles.

Wholesale Houses: Groceries, 4; meats, 1; fruits, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; commercial auto. agencies, 5; automobile accessories, 3; automobile tire agencies, 7; bakers, 4; cigar stores and stands (including hotels), 11; confectioners (including hotel stands), 2; druggists, 7; dry goods, 9; department stores, 2; electrical supplies, 2; florists, 2; fruits, 1; furniture, 6; furriers, 1; garages (public), 12; grocers, 12, (chain, 2); hardware, 4; jewelry, 3; meat markets, 10; men's furnishings 3; men's clothing, 5; merchant tailors, 1; milliners, 3; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 1; restaurants (including hotels), 6; shoes, 12; sporting goods, 4; stationers, 1; women's apparel, 12.

Miscellaneous Data: Average temperature, 68 degrees; average number of rainy days per twelve months, 48; most pleasant months, Oct., Nov., Dec., April, May; doctors (medical, 12), (dentists, 8), (osteopaths, 1); gas, artificial; electric currents, alternating; water, hard.

EDITOR & PUBLISHER

Savannah, Georgia
AND
The Savannah Zone

All the local economic factors indicate an unusually prosperous fall and year for what has become known as **SAVANNAH'S ZONE**, which takes in part of South Carolina and Florida and extends westward and southwestward through a great part of Georgia. It is so-called because it feels Savannah's trade influence, whether through buying here, or through shipping into Savannah cotton and naval stores for export. There has been considerable building in Savannah, and employment is at a high point; while many cities have lost many people to Florida, Savannah has more than compensated for the few that have gone by an influx of newcomers, not counting specially among them the large office force and families of the operating department of the Seaboard Air Line Railway which recently moved to Savannah from Portsmouth, Va. The opening of the Savannah river bridges, which has removed a barrier between Savannah and South Carolina, has opened a new trade territory which has proved its value to the merchants of the city already. So far as can be ascertained there is not a merchant whose business this year has not been far better than that of last year, or who expects anything but very good business for an indefinite period of the future. South Carolina cars are now very common on Savannah streets. Savannah's old time preeminence in the naval stores trade of the world has been more marked this year than any year for the last ten. For all their crops farmers have received profitable prices throughout Savannah's Zone. Naturally their buying power is unusually high, and following a period of smaller profits there will be livelier buying during the coming winter and spring months than in any similar period since the high priced war years.

The prediction that Savannah would feel some of the Florida tidal wave of real estate activity has already come true and the wave is evidently getting larger. An unusually large acreage in and around Savannah has changed hands in the last twelve months, many thousands of acres all together, Henry Ford having purchased several thousand acres at Savannah's door. This purchase indicates a fact which should not be lost sight of, and that is that while many Savannahians are investing in acreage, lots and improved land, evidencing their own faith in the city's prospects, a great part of the purchases have been made by outsiders, by northern, eastern and middle western capital.

Shipping in Savannah harbor has been more active this season than for years; and the shipments, while largely of cotton and naval stores, have been extremely varied, and their points of origin have included several of the middle western states.

Savannah's industries and distributing houses have had a very good season so far, with indications that the end of the year will show broken records, based on the unusual activity in the city and the smaller places in the Zone, as well as upon the profitable seasons which the farmers generally in the Zone have had.

Bank clearings have reached new high levels the last week, showing a $5,000,000 increase over the same week of last year.

A recapitulation of all the economic factors, industrial, banking, commercial, shipping, agricultural, public building, public spirit and private faith, shows a marked trend in the direction of growth and stability, and a prospectively still further great increase in the buying power of the people.

And along with its interest in all these things, Savannah retains its interest in two other directions, that of the arts and that of making the city constantly more attractive to the eye. This past year has shown perhaps as great improvement as any year in the city's history in efforts to make its large system of parks and squares more beautiful, and while the tense activity in real estate and development plans continues, there is being kept in mind the important fact that subdivisions and home-place developments must not forget beauty, grass, trees, flowers. There is very wide interest among the people of the city in whatever efforts are made and whatever suggestions are offered to make Savannah "a place to live."

The Morning News dominates Savannah and the Savannah Zone and is this territory's leading daily newspaper. Established more than 75 years, it has the confidence and affection of its readers. It is the one paper necessary for advertisers to cover this desirable section. Include it in your next schedule.

Savannah Morning News.

HAWAII and IDAHO Newspaper Markets in Standard Surveys

HILO, Territory of Hawaii

(Hawaii County)

1920 Population: 10,431; (1925 est. 12,000).

Schools: Public Grade, 5; High, 1; Junior High, 1; Parochial, 2; Number of Pupils, 3,332.

Churches: Christian Science, 1; Congregational, 1; Episcopal, 1; Roman Catholic, 1; Miscellaneous, 17.

Banks: Commercial and Savings, 2; Total Resources, $48,951,432; Bank Deposits Total $41,119,255.92.

Theatres: Moving Pictures, 4; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 1; Total number of seats, 3,300.

Location: Island of Hawaii, terminal of the Hawaii Consolidated Railway, Ltd. Regular port of call for steamers of the Matson Navigation Co., between San Francisco, Portland, Seattle and Honolulu. Inter-Island Steam Navigation Co., Ltd., between Hilo, Honolulu, and ports of other Islands. Los Angeles Steamship Co., between Hilo, Honolulu, Kahului and Los Angeles. Nearest larger city is Honolulu, 14 hours distant by steamer.

Principal Industries: Sugar, pineapples, coffee, cattle-raising.

Special Information: Hilo is the gateway to the famous Hawaii National Park, wherein is situated the Volcano of Kilauea. This volcano is at an elevation of 4,000 feet, with an equable temperature ranging between 70 degrees (average) for the day and 35 degrees (average) for the night, and with but three degrees difference between June and December. Over 50,000 persons visited the Kilauea Volcano section during 1924, all of whom passed through Hilo.

During 1924, 135 vessels with a gross tonnage of 951,232 visited Hilo Harbor, excluding the Inter-Island steamers. Included in the grand total were three 'Round-the-World steamers of 19,602 tons, 21,516 tons, and 27,132 tons, respectively, all finding ample facilities in Hilo Harbor.

Residential Features: Hilo is admirably situated on the slope of the Mountain of Mauna Loa and offers unlimited facilities for residences. To the north of the center of the City, crossing a mountain stream spanned by three commodious bridges, is the Puueo District in which there are 120 first-class dwelling houses, each provided with spacious lawns. Slightly west of the Federal Building and within the Wailuku River is Reed's Island, another pretentious site, wherein there are 12 commodious residences. Above the business district are 105 residences, and to the south end of the city are 655 dwellings, less pretentious in character, but sanitary in every respect. To the east along the edge of the harbor are 34 dwellings which are also first-class in character. These make a total of 914 residences within the city of Hilo. Beyond along the seashore are many others within easy reach by automobile, and further south through the Waiakea district are between 300 and 400 homestead dwellings that have recently been erected. These are upon lands recently thrown open by the Government upon easy terms to prospective purcharers, one of the provisions of the bill of sale being that a dwelling shall be erected on each lot within a limited period. Many similar lots are available; in fact, three new sections are being offered for purchase within a month.

The foregoing does not include tenements, which are scattered freely throughout the city; apartment houses and hotels.

Retail Shopping Section: The bulk of Hilo's retail business is carried on in ten blocks, bounded on the east by the water-front, on the west by Keawe Street, on the north by Shipman Street and on the south by Ponohawai Street. Kamehameha Street and Waianuenue Street are the two most important streets from the business standpoint, for the former contains most of the retail stores and several of the wholesale houses, and the latter has two of the largest wholesale stores and several important retail stores.

Trading Area: Hilo is the leading city on the Island of Hawaii, which has an area of 4,215 square miles, as against 2,434 square miles for all of the other islands in the Territory. The railway line extends from Hilo 26 miles to Glenwood (on the way to the Volcano); 32 miles to Kapoho and Kaueleau, in the Puna District; and 33 miles to Paauilo in the Hamakua District. Sugar from twelve of the plantations is brought into Hilo by rail, aggregating 142,950 tons in 1924 (or 60.66% of the gross total for the Island). Plans are under consideration for the extension of this railroad about eight miles in the Hamakua District, to provide for the hauling of an additional 20,000 tons of sugar. Telephonic communication to all points on the Island is available, providing for prompt placing of orders in Hilo. Same can be filled by adequate mail or freight service, rail or automobile.

Wholesale Houses: Groceries, 1; meats, 1; fruits, 1; hardware, 1; dry goods, 1.

Number of Retail Outlets for Nationally Advertised Products; Passenger automobile agencies, 13; commercial auto. agencies, 14; automobile accessories, 17; automobile tire agencies, 17; bakers, 4; total cigar stores and stands (including hotels), 40; confectioners (including hotel stands), 40; dressmakers, 11; druggists, 4; dry goods, 20; electrical supplies, 4; florists, 3; fruits, 3; furniture, 6; garages (public), 17; grocers, 19; hardware, 49; jewelry, 7; meat markets, 10; men's furnishings, 20; men's clothing, 12; merchant tailors, 8; Milliners, 3; Opticians, 3; photographers, 10; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; total restaurants (including hotels), 14; shoes, 20; sporting goods, 8; stationers, 3; women's apparel, 20.

Miscellaneous Data: Average temperature, 70 degrees; average number of rainy days for year, 141; most pleasant months, all months pleasant; doctors (medical, 12); (dentists, 6); number of wired houses, 4,476; street car service; gas, artificial; electric current, alternating; water, soft.

HONOLULU, HAWAII

1920 Population, 83,327 (Does not include Army and Navy, 14,000; seafaring, 500, and tourists).

City and Suburban: Estimated total population for Territory, from Governor's Report, 1925, 300,000. Approximately 183,000 are American citizens, of the 125,368 Japanese, 66,647 are American citizens.

White, 29%; **Japanese,** 29.4%; **Chinese,** 16.1%; **Hawaiian,** 10.2%; **Caucassian Hawaiian,** 7.2%; **Asiatic-Hawaiian,** 3.7%; **Negro and all other,** 4.4%; **English Reading,** 63%; **Families,** 20,832.

Schools: Public Grade, Hon. 27, Terr. 176; High, Hon. 1, Terr. 3; Junior High, 1 Normal; Private 4 or 5; Japanese Lang. Schools 23, Terr. 145 including Hon.; Parochial, Terr. 64; Number of Pupils, 17,763; Terr., 52,115; Private, 6,998.

Churches: Christian Science, Hon., 1; Episcopal, Hon., 11, Terr., 12; Methodist, Hon., 6, Terr., 25; Roman Catholic, Hon., 8, Terr., 74; Miscellaneous, Hon. 23, Terr., 156.

Banks: National, 2; State, 26; Savings, 1. Total Resources, $69,553,263; Savings Bank Deposits Total, $21,765,731.

Theatres: Legitimate, 1; Moving Pictures, Hon. 19, Terr., 90; Miscellaneous (Auditoriums, etc.) Private, 2. Total number of seats, Hon. 5,000; Terr., 35,000.

Location: At center of north Pacific Ocean, so situated as to be known as the "Cross-Roads of the Pacific." Served by two S.S. lines from the Pacific Coast, and five transpacific steamship lines, which stop at Honolulu, both to and from the Orient. In constant touch with all the world by radio and cable. By steamship to San Francisco, Calif., 144 hours.

Principal Industries: Sugar, pineapples, coffee, bananas. Iron foundries and machine shops, 5; sugar mill machinery, 1; car building, 1; shipbuilding, 3; automobile bodies and wagons, 2; awnings, tent and sailmaking, 2; crackers and biscuits, 3; storage batteries, 1; furniture, 7; candy, 10; ice cream, 3; harness and saddlery, 2; cotton factory, 1; macaroni, 2; bottling and soft-drink manufacturing, 3; printing and bookbinding, 8; photoengraving, 5; lithographing, 1. Marked sources of revenue to Honolulu merchants are tourists, and expenditures of Army and Navy, which amount to over a million a month in Honolulu.

Manufacturing Establishments: 61. We have 45 sugar mills and 11 pineapple canneries in the Territory. American Can Co., Hawaiian Commercial & Sugar Co., Ewa Plantation, Hawaiian Pineapple Co., California Packing Corp., and Libby, McNeill & Libby are the largest sugar and pineapple companies. Total exports, 1924, $110,726,476. Total imports (all countries), 1924, $78,665,312. Favorable trade balance, $32,061,164. Imports from U. S. A., $69,678,434.

Special Information: Honolulu is the political, business, and financial capitol of the Territory and the only large city. Head offices of all big business are located here. Connected with other islands by Inter-Island Steamship Co.'s service of from two to five steamers per week. Communication by inter-island wireless.

Residential Features: Mostly one-family houses. Tenement section rapidly being rebuilt to single family houses. Residential districts seven in number, lying in valleys and on heights from two to five miles from business district. Excellent residential location because of equable climate the year round, seldom hotter than 85 degrees, nor colder than 58 degrees. Excellent sea bathing the year round.

Retail Shopping Section: Divided rather sharply into oriental and "haole" (white) sections by Nuuanu Street. Oriental section extends 9 blocks north along King Street, which is at right angles to Nuuanu; 4 blocks along Hotel, and Pauahi Streets, and 6 blocks along Berentania. Three latter streets are parallel to King. Haole section extends 5 blocks on King (south from Nuuanu), 4 blocks on Hotel, and Berentania Streets.

Trading Area: All the population of Oahu is dependent on Honolulu for trading. Small stores are located in outlying districts where staples can be bought, but they, in turn, buy from Honolulu. Shopping, other than regular staples, on Oahu, must be done in Honolulu. Variety carried in stock on other islands is narrow, consequently, purchasing of novelties and extraordinary lines is done in Honolulu. Hilo, with a population of 10,000, is shopping center for 30 miles on either side.

Wholesale Houses: Groceries, Hon. 7, Terr. 3; meats, Hon. 2; fruits, 4; hardware, Hon. 5 Terr. 2; dry goods, 4. Miscellaneous Lines. Many manufacturing agents carry no stock.

Number of Retail Outlet for Nationally Advertised Products: Passenger and truck automobile agencies, Hon. 8, Terr. 12; automobile accessories, Hon. 29, Terr. 31; automobile tire agencies, Hon. 12; bakers, Hon. 30. Terr. Exept. Hon. 19; cigar stores and stands (including hotels), Hon. 6, Gen. stores Hon. 635, all carry tobacco, Terr. 633; confectioners (including hotel stands), Hon. 12, Terr. 60; dressmakers, Hon. 76, Terr. 10; druggists, Hon. 48, Terr. 44; dry goods, Hon. 81, Terr. 36; department Stores, Hon. 2; electrical supplies, Hon. 7, Terr. 3; florists, Hon. 29, Terr. 1; fruits, Hon. 45, Terr. 18; furniture, Hon. 45, Terr. 9; garages (public), Hon. 11, Terr. 16; grocers, Hon. 198, Terr. 30; hardware, Hon. 22, Terr. 14; jewelry, Hon. 23, Terr. 3; meat markets, Hon. 75, Terr. 40; men's clothing Hon. 15, Terr. 2; merchant tailors, Hon. 118, Terr. 110; milliners, Hon. 9, Terr. 5; opticians, Hon. 10, Terr. 5; photographers, Hon. 43, Terr. 25; pianos (and miscellaneous musical instruments), Hon. 8, Terr. 4; radio supplies, Hon. 4; restaurants (including hotels), Hon. 177, Terr. 113; shoes, Hon. 13, Terr. 3; sporting goods, Hon. 4, Terr. 1; stationers, Hon. 18, Terr. 5; women's apparel, Hon. 3, see also dry goods.

Miscellaneous Data: Average temperature 74.8 degrees; average number of rainy days per twelve months, 160; most pleasant months, November to June (all months summer months.) Doctors (medical, 79), (dentists, 43), (osteopaths, 3); number of wired houses, 20,000; business concerns, 6,000; gas, artificial; electric current, alternating and direct; water, soft.

Standard Surveys of IDAHO

BOISE, IDAHO

(Ada County)

1920 Population, 21,393.

City and Suburban Estimate, 100,000 (A. B. C. Auditor).

Native Whites, 91%; **Negroes,** .003% **Foreign Born,** 9%; **Industrial Workers,** 25%, **English Reading,** 99%; **Families,** 5,100.

Schools: Public Grade, 14; High, 1; Parochial, 3; Number of Pupils, 5,800.

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 3; Hebrew, 2; Methodist, 3; Presbyterian, 2; Roman Catholic, 2; Miscellaneous, 6.

Banks: National, 3; State, 1; Total Resources, $15,013,656.25; Savings Bank Deposits Total, $12,483,685.20.

Theatres: Legitimate, 1; Moving Pictures, 4; Vaudeville, 1; (Miscellaneous, Auditoriums, etc.), High School Auditorium.

Location: On Oregon Short Line RR. Intermountain Ry., Boise Valley Traction Co., 435 miles west of Salt Lake City, 500 miles east of Portland. Boise is capital of Idaho. Financial and shipping center of southern Idaho and eastern Oregon.

Principal Industries: Lumber, agriculture, automobiles, printing, mining, stone quarries, metal workings.

Manufacturing Establishments: Leading firms: Idaho Power Co., Boise-Payette Lumber Co., Boise Lumber Co., Boise Stone Co., Syms-York Co., U. S. Mfg. Co., Baxter Foundry Co., H. H. Bryant & Co. Total value of yearly output of factories estimated at $22,000,000.

Residential Features: 5,080 homes in Boise, of which 70% are owned by occupants. Boise is strictly a home city of beautiful residences.

Retail Shopping Section: Extends from 5th Street to 16th Street, 12 blocks. From Front Street to Jefferson Street, 6 blocks.. Boise has one outlying retail section, known as Hyde Park, approximately 20 blocks from center of main retail section.

Trading Area: A 68-mile radius, 48 miles on the north; 15 miles on the east, 59 miles on the south; 68 miles on the west. This trading area is made possible by reason of excellent interurban service and fine auto roads to other sections.

Wholesale Houses: Groceries, 4; meats, 3; fruits, 3; hardware, 3; dry goods, 4; miscellaneous lines, confectionery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 17; commercial auto. agencies, 4; automobile accessories, 27; automobile tire agencies, 20; bakers, 8; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 20; delicatessen, 1; dressmakers, 25; druggists, 8; dry goods, 4; department stores, 5; electrical supplies, 7; florists, 6; fruits, 70; furniture, 5; furriers, 3; garages (public), 5; grocers, 66; hardware, 5; jewelry, 10; meat markets, 25; men's furnishings, 11; men's clothing, 8; merchant tailors, 6; milliners, 10; opticians, 7; photographers, 7; pianos (and miscellaneous musical instruments), 6; radio supplies, 4; restaurants (including hotels), 27; shoes, 9; sporting goods, 7; stationers, 1; women's apparel, 8.

COEUR D'ALENE, IDAHO

(Kootenai County)

1920 Population: 6,447.

City and Suburban Estimate, 9,000.

Native Whites, 90%; **Negroes,** 1/10 of 1%; **Foreign Born,** 10%; **Industrial Workers,** 75%; **English Reading,** 99%; **Families,** 2,000.

Schools: Public Grade, 7; High, 2; Junior High, 1; Parochial, 2; Number of Pupils, 2,300.

NAMPA, IDAHO

(Canyon County)

1920 Population, 7,621 (1925, est. 10,000).

City and Suburban Estimate, 35,000 to 40,000.

Native Whites, 98%; **Negroes,** 1%; **Foreign Born,** 1%; **English Reading,** 99%; **Families,** 9,000.

Schools: Public Grade, 4; High, 1; Parochial, 1; Number of Pupils, 2,500.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 8.

Banks: National, 1; State, 1.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 1,900.

Location: On main line of O. S. L. Ry. Junction of Idaho Northern, and Murphy branch lines. On loop of Boise Valley Traction Co. electric line. Bus service to Boise Valley towns. To nearest large city, by railroad, ¾ hour; by trolley, 1 hour; by auto, 1 hour.

Principal Industries: Farming and dairying, cheese making, ice manufacturing, broom factories (2), milk condensery, claimed to be the second largest in the country.

Manufacturing Establishments: Leading firms: Carnation Milk Co., Pacific Fruit Express Co.

Residential Features: Mostly moderate priced houses belonging to workingmen and business men. Private homes predominate. South side of city is the most desirable living section, but good homes are to be found any place in the town.

Retail Shopping Section: Main Street and Twelfth Avenue. Business section extends probably 20 blocks. Fifty blocks of paved streets.

Trading Area: Trading area of Nampa extends 10 miles west, 10 north, 40 east, and 10 south.

Wholesale Houses: Mostly located at Boise, except meat and agricultural implements.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial automobile agencies, 10; automobile accessories, 10; automobile tire agencies, 18; bakers, 4; cigar stores and stands (including hotels), 20 (chain, 1); druggists, 4 (chain, 2); dry goods, 14; department stores, 2; electrical supplies, 2; florists, 2; fruits, 7; furniture, 3; furriers, 11; garages (public), 8; grocers, 12 (chain, 3); hardware, 3; jewelry, 3; meat markets, 7; men's clothing, 7; merchant tailors, 3; milliners, 5; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 3; restaurants (including hotels), 8; shoes, 2; sporting goods, 2; stationers, 2; women's apparel, 5.

Miscellaneous Data: Average temperature, 50 degrees; average number of rainy days per twelve months, 100; most pleasant months, all except July and August; doctors (medical, 8), (dentists, 6), (osteopaths, 4); number of wired houses, 1,000; street car service; electric current, alternating and direct; water, soft.

POCATELLO, IDAHO

(Bannock County)

1920 Population, 15,001. (1925, est. 18,500.)

City and Suburban Estimate, 21,000.

Native Whites, 82.4%; **Negroes,** 2.4%; **Foreign Born,** 15.2%; **Industrial Workers,** 25%; **English Reading,** 20.4%; **Families,** 3,750.

Schools: Public Grade, 10; High, 1; Junior High, 2; Parochial, 1; Number of Pupils, 4,506; State Technical College (with summer school); Number of Students, 1,400.

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 11; Latter Day Saints, 4; Greek, 1.

Banks: National, 2; State, 1; Total Resources, $4,641,386.26; Savings Bank Deposits Total, $877,423.99.

Theatres: Legitimate, 1; Moving Pictures, 5; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 3,700.

Location: Pocatello is the distributing point of the Oregon Short Line (Union Pacific System), in direct connection with Utah, Nevada, Colorado, California, Oregon, Washington, Montana, and Wyoming. It is not only the gateway to the nation's most popular playground (Yellowstone Park), but the gateway to the entire northwest. County seat of Bannock County, located in southeastern Idaho. To nearest large city, by railroad, 6 hours; by auto, 8 hours.

Principal Industries: Railroad shops, cheese making, creameries, flour milling.

Manufacturing Establishments: 2. Leading firms: Kraft Cheese Plant, Armour & Co. (Mutual Creamery).

Special Information: Location of the city makes it the main distributing point for the State of Idaho, as well as the northwest, now having 42 distributors, including wholesale houses, and indications point to many more this year.

Residential Features: Mostly one, and two-family houses. Limited section devoted to negroes and foreigners. Private homes predominate. Many fine residential sections are growing up in the city as well as in the suburbs.

Retail Shopping Section: The retail area covers 23 square blocks, there being 383 retail business institutions located therein.

Trading Area: As a retail trading area Pocatello draws from a territory within a radius of 150 miles. Business is secured at even greater distances on account of the fine highways leading into the city. Pocatello is surrounded by a rich farming area, together with an ever-increasing dairying industry. Has also 28 passenger trains arriving daily.

Wholesale Houses: Groceries, 3; meats, 4; fruits, 2; hardware, 2; dry goods, 1; miscellaneous lines, 30.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 18; commercial automobile agencies, 3; automobile accessories, 19; automobile tire agencies, 16; bakers, 7; cigar stores and stands (including hotels), 19 (chain, 3); confectioners (including hotel stands), 19; delicatessen, 2; dressmakers, 5; druggists, 12 (chain, 1); dry goods, 6; department stores, 4; electrical supplies, 5; florists, 3; fruits, 6; furniture, 3; furriers, 2; garages (public), 15; grocers, 63 (chain, 5); hardware, 4; jewelry, 9; meat markets, 14; men's furnishings, 13; men's clothing, 13; merchant tailors, 5; milliners, 6; opticians, 5; photographers, 5; pianos (and miscellaneous instruments), 3; radio supplies, 6; restaurants (including hotels), 23; shoes, 10; sporting goods, 5; stationers, 2; women's apparel, 9.

Miscellaneous Data: Average temperature, 47.2 degrees; average number of rainy days per twelve months, 96; most pleasant months, April to September (inclusive); doctors (medical, 23), (dentists, 14), (osteopaths, 3); number of wired houses, 3,415; bus service; gas, artificial; electric current, alternating; water, soft (and medium hard).

TWIN FALLS, IDAHO

(Twin Falls County)

1920 Population, 8,324.

City and Suburban Estimate, 10,000.

Native Whites, 95%; **Negroes** and **Mexican** 3%; **Foreign Born,** 2%; **Industrial Workers,** 15%; **English Reading,** 98%; **Families,** 1,500.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 2,900.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 2; State, 1.

Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 7,000.

Location: On Minodoka branch of Oregon Short Line RR. Headquarters and main shipping point of a number of stage lines carrying both freight and passengers.

Principal Industries: Farming in large tributary area, distributing point for groceries and supplies.

Manufacturing Establishments: 12. Leading firms: Twin Falls Vinegar & Cider Wks. Others consist of small foundry, cheese factories, creameries, cement block works, broom factories. All on comparatively small scale, supplying only local trading area.

Residential Features: Practically all one-family houses, mostly of frame construction, with small percentage of brick and stone. Great majority of all homes are well and expensively built. Three up-to-date apartments. No tenements or workmen's district. All better residence streets fully paved.

Retail Shopping Section: Extends from main corner (Main Avenue and Shoshone Street), about 3 blocks in 4 directions. Garage business constitutes section by itself, not included in area mentioned. Several neighborhood stores.

Trading Area: South, 75 miles to Contact, Nevada; east as far as Murtaugh, about 30 miles; west to Buhl, 20 miles, and north across Snake River to Jerome, about 15 miles. Takes in many smaller towns whose residents largely shop in Twin Falls as a result of good roads.

Wholesale Houses: Groceries, 3; meats, 1; fruits, 4; miscellaneous lines, produce and commission, 8.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial auto. agencies, 3; automobile accessories, 12; automobile tire agencies, 16; bakers, 4; cigar stores and stands (including hotels), 18; confectioners (including hotel stands), 15; dressmakers, 7; druggists, 5; dry goods, 5; department stores, 2; electrical supplies, 4; florists, 2; fruits, 2; furniture, 3; garages (public), 7; grocers, 14; hardware, 4; jewelry, 3; meat markets, 4; men's furnishings, 6; men's clothing, 6; merchant tailors, 2; milliners, 4; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 4; restaurants (including hotels), 5; shoes, 14; sporting goods, 4; stationers, 2; women's apparel, 4.

WALLACE, IDAHO

(Shoshone County)

1920 Population, 2,815. (1925, est. 3,200.)

City and Suburban Estimate, 15,300.

Native Whites, 82%; **Foreign Born,** 18%; **Industrial Workers,** 80%; **English Reading,** 95%.

Schools: Public Grade, 1; High, 1; Parochial, 1; Number of Pupils, 850.

Churches: Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Roman Catholic, 1.

Banks: National, 1; State, 1; Total Resources, $7,471,111; Savings Bank Deposits Total, $6,849,766.

Theatres: Moving Pictures, 2. Total number of seats, 1,600.

Location: 90 miles east of Spokane, Wash., is on the O.-W. R. & N. Ry. from the west, and the Northern Pacific Ry. from the east. Excellent bus service to adjacent mining towns and to Spokane. To nearest large city, by railroad, 4 hours; by auto, 4 hours.

Principal Industries: Wallace is the center of the Coeur d'Alene mining district, all the mining canyons leading into this town. Considerable lumbering, but mining is the principal industry.

Manufacturing Establishments: Leading firms: C. D. A. Hdwe. & Fdy. Co., Sunset Mercury Co., Wallace Mfg. & Laboratories Co., Idaho Wholesale Co., White & Bender Co. Coeur d'Alene mining district is claimed to be one of the largest producers of lead in the country. Total value of yearly output of mines estimated at $30,000,000.

Retail Shopping Section: Extends from 5th Street to 8th Street, and from Hotel Street to Pine Street, including Cedar and Bank Streets. 12 blocks in all.

Trading Area: Includes the towns of Kellogg, Mullan, Burke, Interstate, Success, and other smaller settlements. These places are in different canyons and Wallace is situated at the mouth of them, giving it a trading area of 25 miles north, east, and west, but cut off by mountains to the south.

Wholesale Houses: Groceries, 2; meats, 2; fruits, 1; hardware, 1; dry goods, 1; miscellaneous lines, confectionery, 1, tobacco 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 13; commercial auto. agencies, 3; automobile accessories, 10; automobile tire agencies, 10; bakers, 5; cigar stores and stands (including hotels), 15; confectioners (including hotel stands), 7; delicatessen, 2; dressmakers, 3; druggists, 10; dry goods, 3; department stores, 4; electrical supplies, 4; florists, 3; fruits, 11; furniture, 4; garages (public), 13; grocers, 8; hardware, 3; jewelry, 5; meat markets, 8; men's furnishings, 6; merchant tailors, 4; milliners, 2; opticians, 2; photographers, 4; pianos (and miscellaneous musical instruments), 3; radio supplies, 2; restaurants (including hotels), 10; shoes, 6; sporting goods, 4; women's apparel, 4.

Miscellaneous Data: Average temperature, 50 degrees; average number of rainy days per twelve months, 96; most pleasant months, summer months; doctors (medical, 10); (dentists, 10), (osteopaths, 2); number of wired houses, 1,000; electric current, alternating; water, hard. hard.

Standard Surveys of ILLINOIS

Sell in Honolulu—

In prosperous Hawaii, advertising brings wonderful results. The Star-Bulletin, Hawaii's greatest daily newspaper, blankets this rich market with a circulation of over **16,000** daily and over **18,000** Sunday.

Reaching the English speaking trading channels opening the door to a buying population of over a quarter million. American territory where American business methods prevail.

Over a million lines of national advertising carried in 1924 and close to one million during the first ten months of 1925 testify to the responsiveness of this market to consumer advertising.

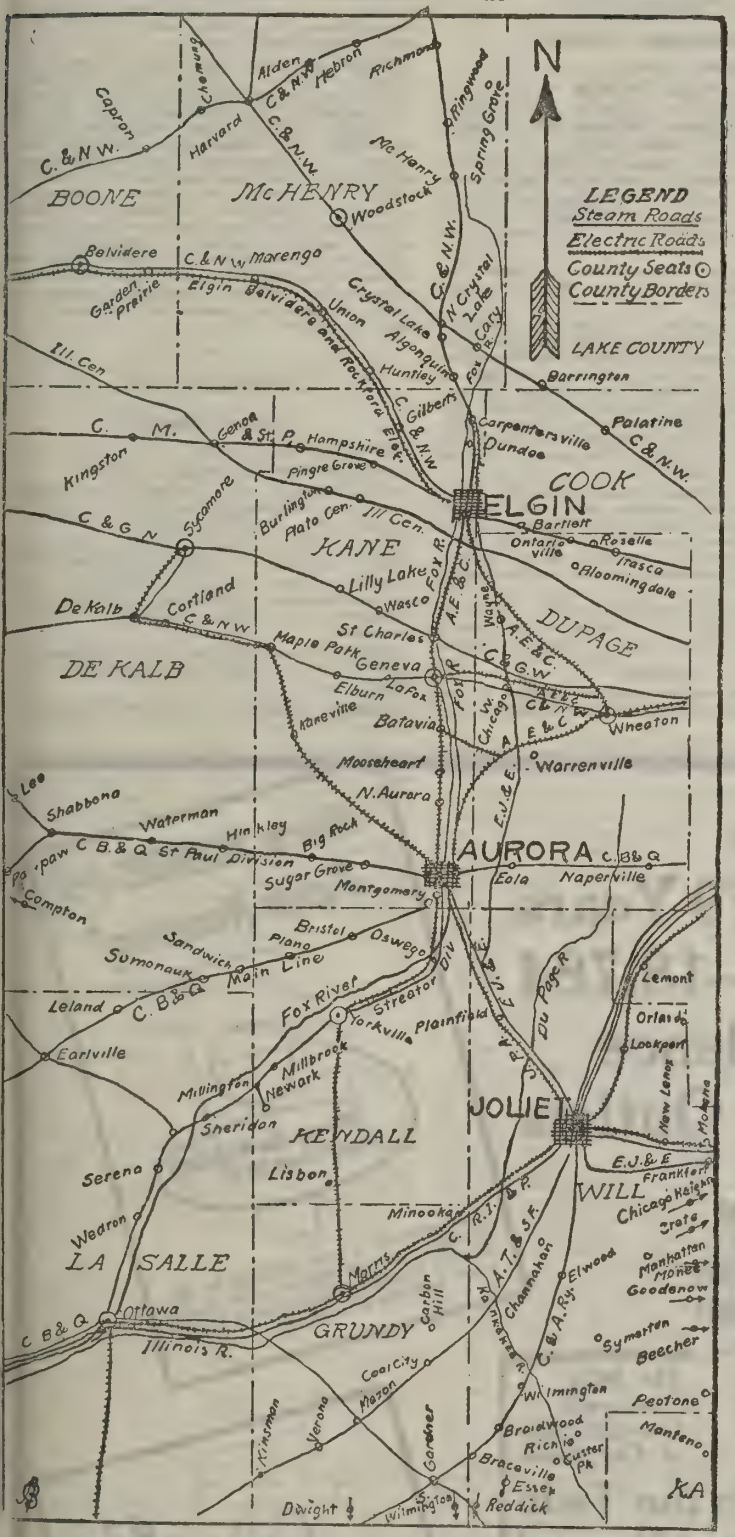
NORTHERN ILLINOIS GROUP

(Daily Newspapers)



Aurora Beacon-News **Elgin Courier** **Joilet Herald-News**

Map of the District Served

Population 255,000

Homes 55,500 **Circulation 50,000**

Illinois-Wisconsin State Line

Real Want Ad Mediums

Few newspapers in Illinois rival the three members of the Northern Illinois Group in want ad business. They have been developed up to the minute along these lines and bring great results for those who patronize them.

This Splendid Market Is Not Surpassed In The U. S. A. One of These Three Cities Is The Trading Center For Every Town On This Map.

Some Reasons Why Advertisers Should Use The Northern Illinois Group

The only list of newspapers that are grouped so that the district covered by its circulation is contiguous, making one complete community.

Population over 255,000—Number of homes over 55,500—Circulation over 50,000.

That comparison of population, homes and circulation is not equalled anywhere.

One or other of the papers have circulation in every town shown on the map, and every home is within an hour's drive of its trading center.

This is a manufacturing district. *But*—no one class of production dominates as in many eastern districts—There are about 300 different items of manufacture produced here.

There are over 350 factories, which with other enterprises employ between 35,000 and 40,000 people and with a combined pay roll of over $125,000,000.

The above shows this community has money to spend and the Northern Illinois Group offers its services to help advertisers get their share of it.

There are about 2,250 retail outlets and the wholesalers are fine co-operators to help get on retail shelves goods advertised in the Northern Illinois Group papers.

Special attention of makers of gas appliances is called to the fact that less than 4,500 cities and towns in the U. S. A. have any gas service at all. The Northern Illinois Group territory has 54 of these towns, with 50,000 gas meters in use—a word to the wise, etc.

There are also about 36,000 electric meters working for those who advertise electric appliances in The Northern Illinois Group.

There are about 30,000 autos to be supplied with accessories and repairs and there is a market for many new machines, for mind you the people here have money.

There are over 40 radio dealers and they have a market for 25,000 or 30,000 receiving sets. The set that is best advertised will get into the most homes.

BLOOMINGTON, ILL.

(McLean County)

1920 Population, 28,725.

City and Suburban Estimate, 140,000.

Native Whites, 88.4%; **Negroes,** 2.8%; **Foreign Born,** 8.8%; **Industrial Workers,** 16%; **English Reading,** 98.5%; **Families,** 7,975.

Schools: Public Grade, 16; High, 3; Parochial, 4; Number of Pupils, 7,212.

Churches: Baptist, 2; Christian Science, 1; Congregational, 2; Episcopal, 1; Hebrew, 1; Methodist, 4; Presbyterian, 3; Roman Catholic, 3; Disciples of Christ, 4; Miscellaneous, 10.

Banks: National, 1; State, 5; Total Resources, $16,996,337.17; Bank Deposits Total, $14,301-793.48. Savings deposits not available.

Theatres: Legitimate, 1; Moving Pictures, 5; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 5. Total number of seats, Theatres, 4,992; Auditoriums, 8,900.

Location: C. & A., 2 lines; I. C., 2 lines; C. C. C. & St. L.; Nickel Plate, Illinois Traction System; 3 bus lines; 80 passenger trains daily. Overnight freight service from Chicago & St. Louis, second night service from Cleveland, Cincinnati and Kansas City; third morning service from New York and Boston. To nearest large city by railroad 1 hour, 10 minutes; by trolley, 1½ hours; by auto, 1½ hours.

Principal Industries: Agriculture (principally corn, oats, livestock, dairying), washing machines, oil heaters, furnaces, railroad equipment; freight cars, passenger coaches; farm implements, book publishing, candy making (largest candy factory in the world), seeds and nursery stock, overalls, shirts, canning.

Manufacturing Establishments: 100. Leading firms: C. & A. Shops (railroad equipment), Paul F. Beich & Co. (candy), American Foundry & Furnace Co. (furnaces), C. U. Williams & Son (Oil-O-Matic Heater), Meadows Mfg. Co. (washing machines), Portable Elevator Co., Klemm's Overall Factory, Haynes-Custer Stores.

Special Information: With 7 railroad lines and 7 concrete highways entering the city, and because of the fact that no cities of similar size are located within 41 miles. Bloomington has been the logical retail trading center for a large area of Central Illinois. Bloomington ranks eighth in the United States in general quality of goods handled in retail stores. Important as a wholesale and jobbing center. The home of 1,000 traveling salesmen.

Residential Features: Individually-owned homes predominate, with only a small strip along railroads housing foreign labor and colored element, which might be classed as a poor residential district. No city in Illinois of like size has such a large proportion of fine houses as will be found in Bloomington, a statement borne out by the average valuation given herewith: 40% of homes, $8,000; 40%, $6,000; 10%, $15,000; 10%, $5,000 or less.

Retail Shopping Section: Extends from Public Square (which forms heart of business section, and terminal for interurban and bus lines, and transfer point for city trolley lines) for 10 blocks on Main St. Center, Madison and East Sts. parallel Main St. and are business streets of 6 to 7 blocks each. Cross streets 3 blocks north and south of Square have retail stores along 2 to 5 blocks. Smaller neighborhood sections are grouped around the 3 railroad depots located 10 to 14 blocks from Square. Normal, Illinois, which adjoins Bloomington on the north, and is separate only as to government, has 8 blocks devoted to business on both sides of the main street.

Trading Area: Extends about 35 miles northeast and southeast; 25 miles south, west and northwest, with fairly consistent trade coming in from a distance as great as 45 miles southwest. The exceptional stocks of department stores, together with the accessibility of Bloomington over the railroads entering the city from 12 directions, the concrete highways, and the bus lines bring buyers from many points outside the trading outlined above.

Wholesale Houses: Groceries, 4; meats, 3; fruits, 6; miscellaneous lines, seeds, 1; feeds, 2; hides and furs, 1; millinery, 2; saddlery and shoe findings, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 23; commercial auto. agencies, 8; automobile accessories, 25; automobile tire agencies, 20 (representative stocks only); bakers, 13; cigar stores and stands (including hotels, 12 (chain, 1); confectioners (including hotel stands), 19; delicatessen, 6; dressmakers, 4; druggists, 23; dry goods, 6; department stores, 5; electrical supplies, 9; florists 5; fruits, 4; furniture, 9; furriers, 3; garages (public), 8; grocers, 123 (chain, 13); hardware, 6; jewelry, 12; meat markets, 41 (chain, 3); men's furnishings, 24; men's clothing, 22; merchant tailors, 11; milliners, 14; opticians, 8; photographers, 11; pianos (and miscellaneous musical instruments), 4; radio supplies, 13; restaurants (including hotels), 45 (chain, 1); shoes, 10; sporting goods, 11; stationers, 5; women's apparel, 12.

Miscellaneous Data: Average temperature, 79 degrees; average number of rainy days per twelve months, 43; most pleasant months, May, June, August, Sept., Oct., Nov.; doctors (medical, 49), (dentists, 41), (osteopaths, 14); number of wired houses, 7,287; street car service; gas, artificial; electric current, alternating and direct; water, hard.

See announcement below

CAIRO, ILL.

(Alexander County)

1920 Population, 15,203.

City and Suburban Estimate, 49,572.

Native Whites, 66%; **Negroes,** 32%; **Foreign Born,** 2%; **Industrial Workers,** 17%; **English Reading,** 99%; **Families,** 4,111.

Schools: Public Grade, 9; High, 2; Junior High, 1; Parochial, 2; Number of Pupils, 3,490.

Churches: Baptist, 6; Christian Science, 1; Episcopal, 2; Hebrew, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 5.

Banks: National, 2; State, 2; Total Resources, $6,684,728; Savings Banks Deposits Total, $985,630.

Theatres: Legitimate, 1; Moving Pictures, 4; Vaudeville, 1; Total number of seats, 2,500.

Location: At junction of Ohio and Mississippi Rivers and at head of all-year navigation on the Mississippi. Served by Illinois Central, Mobile & Ohio, New York Central, Cotton Belt and Missouri Pacific Railroads. Northern winter terminus for the Mississippi-Warrior Barge Line, owned by Federal Government. Served also by Goltra Barge Line.

Principal Industries: Silos, ready-cut houses, hardwood flooring, vehicle parts and handles, kitchen cabinets, storage and shipping boxes, egg crates, veneer and sewing machine parts, cotton oil products, machine shops, boilers, cigars, grain products, planing mills, cotton gins.

Manufacturing Establishments, 57. Leading firms: Singer Mfg. Co., Chicago Mill & Lumber Co., Illinois Lumber Yards (owned by Sears, Roebuck & Co.), L. D. Leach & Co. Value annual output: $10,526,000.

Special Information: Location makes it important shipping point by river and rail to a wide territory in all directions. A comprehensive survey in 1923 showed a movement of 35,815 cars in and 32,945 cars out, handled by 123 Cairo concerns. These figures do not include l. c. l. shipments. Grain led with 14,090 cars in and 14,247 cars out; manufacturing industries next, and Federal Barge Line handled 5,100 cars south and 3,850 cars north.

Residential Features: Of the 3,570 dwellings in Cairo, 69% are owned by their occupants, 50% of the dwellings range from $2,500 to $6,500. Cairo has very few apartment houses.

Retail Shopping Section: Extends from Eighth and Commercial Streets north and south, two blocks on Commercial; west on 8th one block to Washington and north and south on Washington, a block in each direction. There are three outlying neighborhood retail sections.

Trading Area: Extends 36 miles north to Anna and Jonesboro, Ills.; east, 40 miles to Paducah, Ky.; south, 40 miles to Fulton, Ky., and west, 30 miles to Morehouse, Mo.

Wholesale Houses: Groceries, 4; meats, 2; fruits, 3; hardware, 1; dry goods, 3; miscellaneous lines, 14; candy, lumber, soft drinks, drugs, paint, coffee, etc.

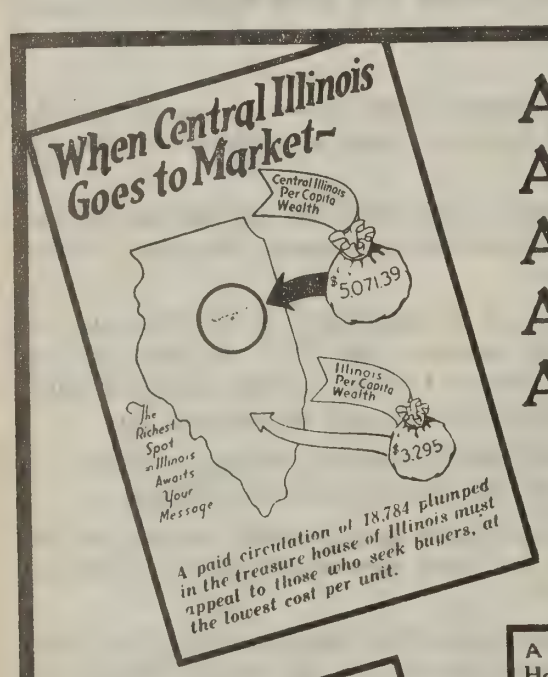
Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 10; automobile accessories, 13; automobile tire agencies, 13; bakers, 6; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 16; dressmakers, 4; druggists, 14; dry goods, 7; electrical supplies, 2; florists, 1; fruits, 7; furniture, 3; garages (public), 4; grocers, 96; hardware, 2; jewelry, 3; meat markets, 20; men's furnishings, 6; men's clothing, 6; merchant tailors, 2; milliners, 5; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 3; radio supplies, 2; restaurants (including hotels), 7; shoes, 4; sporting goods, 2; stationers, 3; women's apparel, 5.

CANTON, ILL.

(Fulton County)

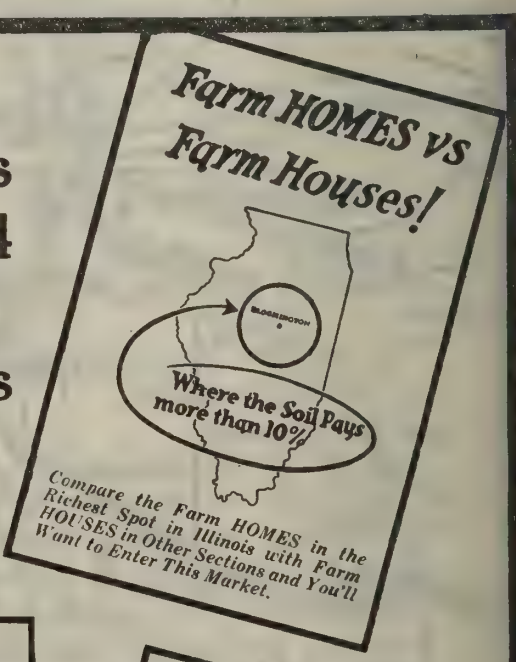
1920 Population, 10,928.

City and Suburban Estimate, 50,000.

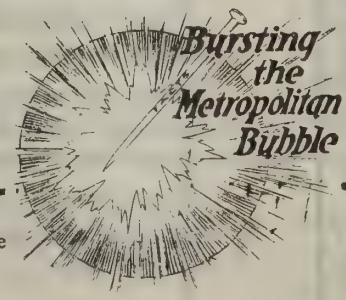


Native Whites, 92%; **Negroes,** 1%; **Foreign Born,** 7%; **Industrial Workers,** 75%; **English Reading,** 95%; **Families,** 2,300.

Schools: Public Grade, 8; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 2,708.



Churches: Baptist, 1; Christian Science Hall, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.



Banks: National, 2; State, 1; Total Resources, $5,028,308.28; Savings Bank Deposits Total, $4,039,618.86.

Theatres: Legitimate, 1; Moving Pictures, 3;

ILLINOIS (Cont'd)

Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 3; Total number of seats, 3,000.

Location: T. P. & W., C. B. & Q. and I. C. Electric Railway. To nearest large city by railroad, 1¼ hours; by auto, 1 hour.

Principal Industries: Farm machinery, overall, brick, cigars, coal.

Manufacturing Establishments: 33. Leading firms: International Harvester, P. & O. Works, Globe Shirt & Overall Co., Beam-Dean Co., Middleton Brick Co., Canton Sash & Door Co., Leaman New Way Laundry, W. H. Eyerly & Bros., Mitchell Machinery Co., Hand & Haines Box Co. Total value of yearly output of factories estimated at $3,500,000.

Special Information: The Parlin & Orendorff Co., previously controlled by U. G. Orendorff, sold its Canton plant with a capital of $5,000,000 and a surplus of over $5,000,000 to the International Harvester Co. of America in 1919 and this well-known corporation is now operating this, the oldest existing plow works in the world. The plant covers six square blocks and employs 2,300 men when in full operation.

Residential Features: Mostly one-family houses. Two or three small apartment buildings. A few workingmen's tenements. Private homes predominate. Vast majority of residents own houses they live in. Would cost $5,000 to $100,000 each to replace most houses. Average would be around $7,000, or possibly a little more.

Retail Shopping Section for most part extends in square with Jones Park as center and bounded on north by Chestnut St., on east by Main St., on south by Elm St., and on west by extension of White Court. Other stores on streets that form boundaries of square for two or three blocks from main trading center. Scattered "neighborhood" stores.

Trading Area: Twenty-five mile radius and for longer distances in directions where concrete roads, 12 inter-city truck lines and interurban car line make access to Canton particularly convenient.

Wholesale Houses: Fruits, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial auto. agencies, 3; automobile accessories, 8; automobile tire agencies, 6; bakers, 4; cigar stores and stands (including hotels), 15 (chain, 1); confectioners (including hotel stands), 7; delicatessen, 1; dressmakers, 10; druggists, 7; dry goods, 6; department stores, 8; electrical supplies, 4; florists, 1; fruits, 2; furniture, 4; furriers, 1; garages (public), 12; grocers, 55 (chain, 12); hardware, 4; jewelry, 6; meat markets, 14 (chain, 1); men's furnishings, 6; men's clothing, 7; merchant tailors, 2; milliners, 7; opticians, 6; photographers, 3; pianos (and miscellaneous musical instruments), 3; radio supplies, 5; restaurants (including hotels), 23; shoes, 8; sporting goods, 4; stationers, 1; women's apparel, 4.

Miscellaneous Data: Average temperature, 50 degrees; most pleasant months, May, June, September and October; doctors (medical, 13), (dentists, 7), (osteopaths, 1); number of wired houses, 2,793; street car service, none; gas, artificial; electric current, alternating; water, hard.

CARBONDALE, ILL.

(Jackson County)

1920 Population, 6,267.

City and Suburban Estimate, 7,998. This is actual according to count for new city directory.

Native Whites, 90%; Negroes, 6%; Foreign Born, 4%; Industrial Workers, 35%; English Reading, 87%; Families, 1,670.

Schools: Public Grade, 3; High, 1; Junior High, 1; Southern Illinois State Normal University, largest in United States. Number of Pupils, 1,909; City Schools, Normal School, 1,800.

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 3; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 2.

Banks: National, 2; State, 1; Total Resources, $2,508,000; Savings Bank Deposits Total, $132,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 3,199.

Location: On main line I. C. Ry. Division point for St. Louis Division of I. C., Interurban to Murphysboro, bus line to the east and west.

Principal Industries: Railroad terminal and shops, largest railroad tie preserving plant in the world, automobile painting plant. In one of the largest fruit growing centers in the country. Wholesale grocer house.

Manufacturing Establishments, 3. Leading firms: Marx-Haas Clothing Co., White Mule Tire Patch, Inc., Aver & Lord Tie Co. Total value of yearly output of factories estimated at $2,000,000.

Residential Features: Mostly private homes. Several 4 and 5 family apartments. Carbondale boasts of its large trees, which give lots of shade, also practically all streets paved, making it an ideal residential town.

Retail Shopping Section: Extends from public square (which forms heart of business district) with railroad station and Interurban terminal in square.

Trading Area: Excellent trading radius for 20 miles each way on account of hard roads coming in from all four directions.

Wholesale Houses: Groceries, 1; fruits, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 7; commercial auto. agenies, 5; automobile accessories, 11; automobile tire agencies, 8; bakers, 4; cigar stores and stands (including hotels), 15; confectioners (including hotel stands), 5; dressmakers, 11; druggists, 5; dry goods, 5; department stores, 2; electrical supplies, 3; florists, 1; fruits, 2; furniture, 3; garages (public), 8; grocers, 27; hardware, 3; jewelry, 4; meat markets, 10; men's furnishings, 7; men's clothing, 12; merchant tailors, 1; milliners, 4; opticians, 3; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 5; restaurants (including hotels), 8; shoes, 11; sporting goods, 4; stationers, 2; women's apparel, 5.

CARLINVILLE, ILL.

(Macoupin County)

1920 Population, 5,212.

City and Suburban Estimate, 7,500.

Native Whites, 50%; Negroes, 1%; Foreign Born, 49%; Industrial Workers, 35%; English Reading, 85%; Families, 2,300.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 1,250.

Churches: Baptist, 2; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 2; Miscellaneous Christian 1, German Lutheran 1, German Evangelical 1.

Banks: National, 1; State, 2.

Theatres: Moving Pictures, 1. Total number of seats, 650.

Location: Chicago & Alton, Illinois Traction System, R4 State Hard Road. To nearest large city by railroad, 2 hours; by automobile, 2½ hours; by trolley, 2 hours.

Principal Industries: Coal mining.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 2; automobile accessories, 10; automobile tire agencies, 10; bakers, 2; total cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 3; total druggists, 4; dry goods, 5; electrical supplies, 2; florists, 2; fruits, 1; furniture, 3; garages (public), 6; total grocers, 20 (chain, 3); hardware, 3; jewelry, 2; total meat markets, 4; men's furnishings, 3; men's clothing, 3; merchant tailors, 1; milliners, 3; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 5; total restaurants (including hotels), 13 (chain, 1); shoes, 6; stationers, 5; women's apparel, 3.

CENTRALIA, ILL.

(Marion County)

1920 Population, 12,491.

City and Suburban Estimate, 53,000.

Native Whites, 90%; Negroes, 5%; Foreign Born, 5%; Industrial Workers, 34%; English Reading, 94%; Families, 4,250 in city.

Schools, Public Grade, 10; High, 1; (township); Parochial, 2; number of Pupils, 4,000, estimated.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 6; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 6.

Banks: National, 2; State, 1; Total Resources, $5,452,462. Savings Bank Deposits Total, $2,207,128.

Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 1. Total number of seats, 2,700.

Location: Strategically at central part of south third of Illinois. Gateway of rich coal mining, fruit-growing and agricultural empire known as "Egypt." Is railroad center with distribution all points compass on trunk lines. Division point I. C. and Burlington with shops. Southern Railway, Missouri & Illinois. Bus service in all directions on concrete roads for suburban trading territory.

Principal Industries: Two large railroad shops and terminal yards. Two modern soft coal mines. One large modern envelope factory. One large furnace and general foundry, one garment factory, one packing house. Cigar factories, ice factories, soda factories, ice cream factories, flour mill, canning factories, concrete block plant, sawmills. To nearest large city by railroad, 2½ hours; by auto, 2 hours 10 minutes.

Manufacturing Establishments, 20. Leading firms, Marion County Coal Co., Centralia Coal Co., Centralia Envelope Co., St. Clair Foundry Corp., Centralia Clothing Co.

Special Information: Finest peaches and apples in the world. Fundamental pay-rolls such as railroads and mines. Railroads have investment here of around $4,500,000. Mines around $1,000,000. Unusually high savings account per capita in banks and building loans (3 of latter). Average yearly earning of those in industry over $1,200.

Residential Features: Exceptional home-owning class. One and a few two-family houses (not over dozen apartments). No tenements. Average value of homes probably $5,000.

Retail Shopping Section: Broadway, east and west, five blocks long with hub at Locust street, about half way, running north and south three blocks.

Trading Area: 25 miles north and south, 15 miles east and west.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 2; hardware, 1; candy, 1; miscellaneous lines, cigars and tobacco.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 14, with service; commercial auto. agencies, 5; automobile accessories, all garages, plus 2; automobile tire agencies, 15; bakers, 4; cigar stores and stands (including hotels), 25; confectioners (including hotel stands), 5; druggists, 10 (chain, 1); dry goods, 2, exclusive; department stores, 4; electrical supplies, 4; florists, 2; fruits, 3; furniture, 4; garages (public), 7; grocers, 77 (chain, 4); hardware, 7; jewelry, 5; meat markets, 12 (chain, 3); men's furnishings, 9; men's clothing, 5; merchant tailors, 1; milliners, 8; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 5; restaurants (including hotels), 10; shoes, 15; sporting goods, 6; stationers, 5; women's apparel, 7.

Miscellaneous Data: Most pleasant months, April, May, Sept., October; doctors (medical, 22), (dentists, 11), (osteopaths, 1); number of wired houses, 3,856; street car service; gas, artificial; electric current, alternating; water, soft.

CHAMPAIGN-URBANA, ILL.

(Champaign County)

1920 Population, 26,153.

City and Suburban Estimate, 65,000.

Native Whites, 86.9%; Negroes, 7.8%; Foreign Born, 5.2%; Industrial Workers, 6.0%; English Reading, 99.0%; Families, 4,077.

Schools: Public Grade, 16; High, 2; Junior High, 1; Parochial, 2; Number of Pupils, 6,010.

Churches: Baptist, 3; Christian Science, 3; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 4; Presbyterian, 3; Roman Catholic, 4; Miscellaneous, 6.

Banks: National, 3; State, 8; Total Resources, $15,000,000. Savings Bank Deposits Total, $13,000,000.

Theatres: Legitimate, 3; Moving Pictures, 7; Vaudeville, 1; Burlesque, 2; Miscellaneous (Auditoriums, etc.), U. of I. Auditorium, U. of I. Stadium. Total number of seats, 8,000. (U. of I. Stadium seats 55,000).

Location: 128 miles south of Chicago, Illinois, on main line of Illinois Central R. R. Served by Illinois Central R. R., Wabash R. R., Big Four, and Illinois Traction System. Absolutely the heart of the great corn belt of Illinois—Champaign County alone producing $26,000,000 worth of crops last year. To nearest large city by railroad, 40 minutes; by trolley, 40 minutes; by auto, 1 hour.

Principal Industries: Printing, dairy products, electric light bulbs, electrical fixtures, machinery, tools, radio equipment, railroad equipment, rubber goods.

Manufacturing Establishments: 123. Leading firms: Caldwell Elec. Corp., Burr Co., Cushman Tool Co., Circle A Products Corp., Cliffords-Jacobs Co., Locomotive Crane Co., Pioneer Creamery Co., Crescent Rubber Co. Total value of yearly output of factories estimated at $6,637,000.

Special Information: Champaign and Urbana corporation lines adjoin, forming practically one community, with Champaign proper the trading center of the community, although Urbana is the county seat. Water, sewer, lights, power, street car lines, etc., used in common by both towns, the city governments being the only separate agencies. University of Illinois, with 10,000 students and 1,100 faculty, located in Champaign-Urbana. 98 buildings are represented on the campus, not including the $3,000,000 U. of I. Memorial Stadium, seating 55,000. More than $50,000 a day is spent in the community directly and indirectly by the university. Champaign County is one of the richest agricultural counties in the entire United States.

Residential Features: Mostly one-family homes. Practically everyone owns his own home, which are way above the average, in fact Champaign-Urbana have a reputation as cities of beautiful homes. Most of the people are well-to-do. Average home is worth $10,000. Many represent an investment of from $25,000 to $75,000.

Retail Shopping Section: Main street, eight blocks; Neil street, seven blocks; Church street, one block; Taylor street, three blocks; Walnut street, five blocks; Green street, two blocks; Wright street, two blocks; Market street, three blocks; Race street, two blocks; University avenue, four blocks; Park street, one block; Hill street, one block; Randolph street, two blocks; Washington street, one block; Hickory street, two blocks.

Trading Area: Thirty-five miles north to Buckley on Illinois Central R. R.; 30 miles south to Arcola on Illinois Central R. R.; 20 miles east to Fithian on Big Four R. R.; 23 miles west to Farmer City on Big Four R. R.; 18 miles southwest to Homer and Sidney on Wabash R. R.; 20 miles west to Monticello on Illinois Traction System Electric R. R. Logical trade area extends approximately within 26 miles' radius. Trading influence extends about 35 miles radius except east, which goes only 22 miles to Fithian.

Wholesale Houses: Groceries, 4; meats, 3; fruits and vegetables, 3; miscellaneous lines—cigars and tobaccos, 1; confectionery, 3; auto accessories, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 23; commercial automobile agencies, 9; automobile accessories, 20; automobile tire agencies, 20; bakers, 10; cigar stores and stands including hotels), 120 (chain, 2); confectioners (including hotel stands), 30; delicatessens, 3; dressmakers, 37; druggists, 20; dry goods, 5; department stores, 3; electrical supplies, 10; florists, 6; fruits, 4; furniture, 13; furriers, 3; garages (public), 29; grocers, 110 (chain, 9); hardware, 8; jewelry, 11; meat markets, 23 (chain, 20); men's furnishings, 19; men's clothing, 19; merchant tailors, 14; milliners, 13; opticians, 6; photographers, 10; pianos (and miscellaneous musical instruments), 6; radio supplies, 5; restaurants (including hotels), 68; shoes, 19; sporting goods, 8; stationers, 9; women's apparel, 14.

Miscellaneous Data: Average temperature, 6 degrees; average number of rainy days per twelve months, 72; most pleasant months, April to December; doctors (medical, 59), (dentists, 31), (osteopaths, 11); number of wired houses, 10,000; street car service; gas, artificial; electric current, alternating and direct; water, hard.

CHARLESTON, ILL.

(Coles County)

1920 Population, 6,615.

City and Suburban Estimate, 15,000.

Native Whites, 98%; Negroes, 1%; Foreign Born, 1%; Industrial Workers, 5%; English Reading, 99½%; Families, 3,500.

Schools: Public Grade, 5; High, 2; Junior High, 2.

Churches: Baptist, 1; Christian Science, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; United Brethren, 1; Miscellaneous: 1 Holiness, 1 Free Methodist.

Banks: National, 2; Total Resources, $3,796,000.

Theatres: Moving Pictures, 2; Total Number of seats, 850.

Location: Big Four (main line) and Nickel Plate (Clover Leaf main line). Nickel Plate shops here.

Principal Industries: Railroad shops and large Brown Shoe Co. plant.

Manufacturing Establishments, 2. Leading firm: Brown Shoe Co.

Special Information: City located in center of Illinois broom corn belt with prosperous corn and wheat country. Eastern Illinois State Teachers' College.

Retail Shopping Section: Largely public square but spreads about block in each direction.

Trading Area: From west 10 miles, from south 12 to 15 miles, from east from 12 to 15 miles, and from north from 15 to 20 miles.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 8; automobile accessories, 5; automobile tire agencies, 7; bakers, 2; cigar stores and stands (including hotels), 15; confectioners (including hotel stands), 6; dressmakers, 5; druggists, 4; dry goods, 5; department stores, 3; electrical supplies, 3; florists, 2; furniture, 3; garages (public), 6; grocers, 16; hardware, 3; jewelry, 2; meat markets, 5; men's furnishings, 3; men's clothing, 3; merchant tailors, 2; milliners, 5; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 5; radio supplies, 1; restaurants (including hotels), 7; shoes, 5; stationers, 1; women's apparel, 6.

CHICAGO, ILL.

(Cook County)

City Class as: Chicago claims to be the third city in population in the world and is the second in the United States. It is the world's foremost railroad terminus, the nucleus of the great railroad and water transportation systems of the country. Chicago holds an important position in world finance, being the financial center of the West. It is the supply center for retail trade throughout the West and Middle West. Industrially, Chicago ranks second in value of products manufactured in the United States. Chicago is the world's live stock market, the world's grain market and the world's lumber market. It is the largest mail order distributing center in the world.

POPULATION

1910 Census	2,185,283
1910 Census (Metropolitan District)	2,446,921
1920 Census	2,701,705
1920 Census *(Metropolitan District)	3,521,753
1925 U. S. Census, July 1, est. city	2,995,239
1925 U. S. Census, July 1, est. Metropolitan District	4,000,000

*Note: As defined by the census, the Metropolitan District includes in addition to the central city, counties: Kane, Cook, Lake, Du Page and Will in Illinois and Lake County in Indiana.

Native white	66%
Negroes, a little over	4.2%
Foreign born	29.8%
Students—	
University	37,632
Public	447,855
Parochial	215,536
Total	663,391
English reading	74%
Factory workers	385,685
Families 1920 census	623,912
Families (est. 1925)	701,910

The figures for birth and parentage in Chicago show a very large foreign born percentage, and an almost equally large population of native born, but having foreign born parents or mixed. The figures for whites with foreign or mixed parentage is a trifle over 41%, and 36% foreign born and only 20% native white of native parents.

Comparison of Chicago's Population

	1910	1920

Colleges & Academies (Girls)	13	10,500
Preparatory Seminary	1	735
Total Enrollment all Catholic Schools		215,536

Music Schools

Out of Chicago's 97 music schools, only a few can be named, but they are imposing in their enrollment:

Chicago Musical College	5,000
American Conservatory of Music	3,500
Columbia School of Music	2,000
Bush Conservatory of Music	3,500
Sherwood Music School	5,000

Colleges and Universities

University of Chicago	13,890
Northwestern University	8,785
DePaul University	3,860
Armour Institute of Technology	1,946
Lewis Institute of Technology	1,526
Loyola University	3,800
University of Illinois (Chicago only)	1,000

Chicago supports a complete system of continuation schools, which includes part-time classes for working boys and girls, classes for apprentices in various trades and a graduate commercial school intended to prepare young men and women for higher secretarial positions and for expert accounting. The public school system also provides 31 evening schools and 66 evening community centers.

Northwestern University is located in Evanston, just outside of Chicago, but its schools of Commerce, Law and Dentistry are in Chicago.

In the City of Chicago there are 25 girls' preparatory schools. The most widely known are: Miss Faulkner's School, University School and Kenwood Loring School.

Fourteen boys' preparatory schools are located here. The best known are: The Harvard School and Chicago Latin School.

Of the 29 medical schools the best known include: Rush Medical College, Bennett Medical School, Chicago College of Medicine and Surgery, College of Physicians and Surgeons, Russell Medical College, Northwestern Medical School, Illinois Post Graduate Medical School and the Chicago Eye, Ear and Throat College.

There are four Dental Schools most important of which include those at Northwestern University and University of Illinois.

The prominent theological schools of Chicago are: Chicago Theological Seminary, Garrett Biblical Institute, University of Chicago Divinity School, Western Theological Seminary, Quigley Memorial Seminary and McCormick Seminary.

There are nine law schools, the most important are: Chicago Kent College of Law, Chicago Law School, Illinois College of Law, Law Department of DePaul University, John Marshall Law School, Lincoln College of Law, Northwestern Law School and University of Chicago Law School.

CHURCHES

Evangelical	37
Evangelical Synod	50
Methodist	208
Baptist	84

There are also listed in Chicago:

Licensed halls	242	Seating	112,000
Lecture halls	3	Seating	8,000
Concert halls	6	Seating	7,500
Amusement parks	2		
Picnic grounds	18		
Roller rinks	3		

Dexter Park Pavilion for Stock shows seats 7,000; Coliseum seats 22,000; New Furniture Exposition Bldg. seats 8,000.

Chicago has more than 700 places of amusement, ranging from palatial structures, devoted to grand opera and the highest form of dramatic art, to small neighborhood photoplay houses. Some of the largest movie houses in world are located in Chicago. In addition to many public ball rooms, one reputed to be the finest in the world, and cabarets, many of the hotels operate roof and summer gardens.

Located in Chicago are several of the largest and best equipped radio broadcasting stations in the country.

Chicago has provided lavishly for recreation. It has 50 miles of lakefront with 11 bathing beaches, 60 street end beaches, accommodating 250,000 people; 8 large parks, 68 small parks, 120 supervised playgrounds and 8 athletic fields containing modern facilities for baseball, football, boating, etc. In addition to the public recreation, Chicago has 100 private, and 20 daily public and fee golf courses, lake excursions, sightseeing, two national baseball parks and two conference football fields.

The Auditorium, the home of Chicago's Opera Co., is also used for dramatic and spectacular productions. It is Chicago's largest theatre, seating 3,747. The total seating capacity of all kinds of theatres is 285,020.

LOCATION AND TRANSPORTATION

Chicago is situated 190 miles northwest of the centre of population in the northwest corner of the State of Illinois, on the extreme southwest shore of Lake Michigan, and extending along the shore for 26 miles. It is elevated 600 feet above sea level, and 19 feet above Lake Michigan..

It is the terminus of 38 railways including 23 great railroad systems. The trunk lines terminating in Chicago are: Chicago & Northwestern, Chicago & Alton, Chicago, Burlington & Quincy, Chicago, Milwaukee & St. Paul, Pennsylvania, Baltimore & Ohio, Chicago Great Western, Pere Marquette, Soo Line (M. St. P. & S. Ste. M.), Chicago, Rock Island & Pacific, New York Central, Nickel Plate (N. Y. C. & St. L.), Chesapeake & Ohio, Chicago & Eastern Illinois, Chicago and Western, Indiana (Suburb), Erie, Grand Trunk, Monon (C., I. & L.), Santa Fe (A. T. S. F.), Wabash, Big Four (C. C. C. & St. L.), Illinois Central, Michigan Central.

Chicago is by far the greatest railroad center in the whole world; 40% of the railway mileage of the United States terminates there. No train passes through Chicago. It either begins its journey or finishes there.

There are about 10,000 miles of railroad tracks within the city limits, and an investment of $1,000,000,000 in railroad property.

Chicago has the most comprehensive system for handling freight within its own railroad area; 1,400 miles of belt railway lines intersecting every railroad entering Chicago give unusual switching facilities by linking up the trunk railroads into a compact system. (This is one-third of the belt line mileage in the U. S.).

There are fifteen belt and industrial lines within and encircling Chicago.

Chicago has more than 120 railroad yards for the receipt, transfer and despatch of freight shipment with 184 freight receiving yards distributed throughout the city. A number of Chicago freight yards cover 160 acres and more of land each, and one a tract of 240 acres.

There is a supply of about 45,000 cars within the Chicago district each day. The freight traffic in and out of Chicago daily consists of about 30,000 cars.

Over 2,500 through package cars leave Chicago daily to about 2,000 points in forty-eight states, and one transfer service to 60,000 other points.

Chicago also has an unrivaled system for handling freight within the Metropolitan district. Belt lines intersect all railroads entering the city. The greatest switching yards have been built. Sixty miles of tunnel, under the central business section used exclusively for freight, connect docks, depots, warehouses, wholesalers and department stores and industries with the various railroad terminals and warehouses.

Chicago has four great systems of elevated railways, aggregating 194 miles of tracks. These systems interchange business so that for one fare, passengers may go from one section of the city to the other merely by changing cars at the transfer stations. The Metropolitan "L" serves the west side of the city; Chicago and Oak Park System extends from the Loop westward, serving not only the West Side of Chicago, but some important suburban towns including Oak Park and Forest Park. The South Side "L" is what the name implies. The Northwestern "L" runs north from the Loop through Evanston to Wilmette and northwest to Ravenswood. The elevated railroads have 205 stations and 1,664 cars.

Chicago surface lines operating 3,300 double track cars over 1,100 miles of single track, exceeds any other city railway, surface, elevated or subway in the world in miles of track, number of cars and passengers carried. Daily traffic 2,000,000 cash, and 1,500,000 transfer passengers.

There are six railway passenger stations located in or near the heart of the city: Central Station, which is terminus for the Big Four, Illinois Central and Michigan Central; Chicago & Northwestern Station, terminus for all divisions of the C. & N. W. Ry.; Dearborn Station, for Santa Fe, Chesapeake & Ohio, Chicago & Eastern Illinois, Erie, Grand Trunk, Wabash and Chicago & Western Indiana. The Grand Central Station, for Baltimore & Ohio, Chicago Great Western, Soo Line, Pere Marquette; the La Salle Street Station, for Chicago, Rock Island & Pacific, New York Central Lines, New York, Chicago & St. Louis; Union Station, for Chicago & Alton, Chicago, Burlington & Quincy, Chicago Milwaukee & St. Paul and Pennsylvania Lines.

There are six electric interurban roads serving Chicago. Four of these furnish freight and package freight service in addition to regular passenger service. These lines extend far out into the suburbs and surrounding territory and connect with many other electric railway systems that feed Chicago. There is also a motor bus company and an interurban motor despatch which is a freight service over the various electric lines.

The Chicago Motor Coach Co has in operation in Chicago about 500 of the latest type double deck motor busses, serving nearly all sections of the city. Total passengers carried 1924, 29,300,000.

Other facilities are: motor truck lines serving a radius of 50 miles, are in daily operation. Chicago has been established as the headquarters of the Air Mail Service of the U. S., and is the center of plans for development of commercial air traffic.

Chicago Freight Tunnel: Beneath the streets of Chicago's business district are 55 miles of freight tunnels, electrically operated, connecting factories, warehouses, wholesale and retail stores with central district freight stations. Tunnel service eliminates trucking and saves time and money for shippers.

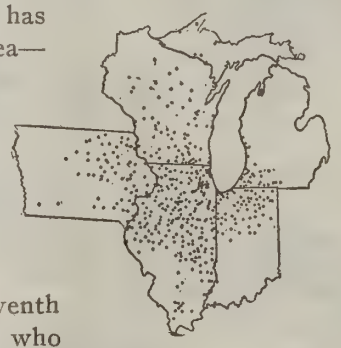
This system furnishes universal freight forwarding through four stations conveniently located at different points in the central district for concerns not having direct tunnel connections.

Thirteen hundred and seventy-six passenger trains, carrying 275,030 passengers, arrive and depart every day. Of the passengers, about 229,339 are commuters, and 45,691 are travelers. These figures do not include passengers who arrive or depart from stations other than those located in the downtown district.

Water Transportation

Chicago has 101 miles of water front; fifty two miles equipped with dock and railway facilities.

With the Chicago and Calumet Rivers, the city has two natural harbors. Work will begin shortly on the development of an industrial harbor in Lake Calumet, offering attractive facilities for industries utilizing water and rail service.



Completion of the Illinois Waterway—now under construction—will give Chicago through barge line connections with the Gulf via the Illinois and Mississippi rivers. Construction of the Great Lakes-St. Lawrence Waterway is inevitable and will make Chicago a world port tremendously increasing its industrial and commercial development. Looking to the future Chicago is planning a co-ordinated system o

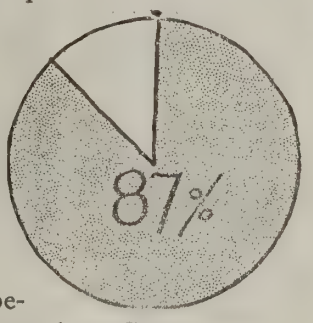
Why The Chicago Market *and* The Chicago Tribune *make an ideal combination for the advertiser*



Circulation . . . The Chicago Tribune is bought every weekday by more than 680,000 people—500,000 of whom live in Chicago and its suburbs. On Sundays over a million copies of The Tribune are sold, 650,000 of which are purchased in Chicago and suburbs. The Tribune has 40% more local circulation than the next Chicago paper and reaches practically 100% of the English reading families.

Market . . . The Tribune is not only of local influence but has enormous coverage and prestige in a much larger area—Zone 7, comprising Illinois, Indiana, Iowa, Wisconsin, and Michigan. In this great Chicago Territory there are 1151 towns in every one of which The Sunday Tribune reaches more than one-fifth of all the families, and in some of which it reaches four-fifths of the families. The map at the right shows 509 of the 1151 towns that have more than 1000 population.

Zone 7 (The Chicago Territory) with but one-eleventh of the country's area has one-sixth of the population who possess one-fifth of the national wealth.

Influence . . . Dealers in this territory appreciate Tribune advertising as a powerful means of selling their goods and are eager to tie up with manufacturers who make Chicago Tribune advertising the backbone of selling campaigns. In Chicago 80% to 85% of the retailers read The Tribune. Outside the City, in a zone 400 miles in diameter, from 60% to 85% of the retailers read The Tribune. Not only do they read it but from 63% to 87% of them state that Chicago Tribune advertising is a selling influence and moves goods from their shelves.

Cost . . . Advertising in The Chicago Tribune is economical because circulation gains make each contract a bargain before it expires. Based on comparative figures Tribune space is positively cheap. National advertisers can buy Daily Tribune space for $1.37 per milline and Sunday Tribune space for $1.22 per milline. Where can you buy circulation as cheaply as this?

The Tribune's BOOK OF FACTS on markets and merchandising will be mailed free if requested on business stationery.

The Chicago Tribune

The World's Greatest Newspaper

Circulation Over 680,000 Daily and Over 1,000,000 Sunday

harbors and terminals to take advantage of these waterway systems.

The following steamship lines (freight and passenger) maintain routes from Chicago: Chicago, Duluth & Georgian Bay; Goodrich Steamship Lines; Garham & Morton Line; Michigan Transit Co., and Chicago & South Haven Steamship Co. There are about 50 other lines that run into Chicago, practically all of which are bulk freighters carrying coal, iron, lumber, steel, grain and automobiles.

Freight Transportation in Chicago District

Approximately 500 road freight trains bring to and take from Chicago district 30,000 freight cars each day. Of this amount there are about 15,000 inbound and 15,000 outbound. Of the total 30,000, only about one-third are empty.

26.5 per cent of all the freight cars brought into Chicago are through cars. Therefore 73.5 per cent of the cars are loaded with goods for distribution in Chicago.

Chicago has as many freight cars going in and out daily as New York and St. Louis combined.

The Chicago District loads about 4½ percent and unloads about 1¼ percent of the country's total freight car loadings. In other words about 10.5 percent of all the freight cars loaded in the United States are loaded or unloaded in the Chicago District.

There are 10,000,000 tons of merchandise in and out of Chicago each year. The ratio of business moving east out of Chicago to business moving west out of Chicago is 1.59 to 1.

More than 4,000 industries are served by private sidetracks.

The Chicago roads own 30.4 per cent of the tota lnumber of freight cars owned by class-1 railroads; 49 per cent of the locomotives, and 47 percent of the total passenger cars.

About 100,000 people living in Chicago are engaged in railroad service.

The clearing yards have a capacity of 10,580 cars. The Proviso yards a capacity of 4,705 cars at the present time and the plans for the new yards arrange for the accommodation of 22,000 cars. The Illinois Central yards will have a capacity of 12,000 cars standing with a working capacity of 6,000 cars daily.

PRINCIPAL INDUSTRIES

	Metropolitan District 1919	Municipal 1919
Establishments	12,399	10,537
Persons engaged		502,100
Proprietor and firm members		8,192
Salaried employes		21,877
Wage earners	520,133	403,942
Capital		$2,074,692,014
Salaries and wages		90,330,278
Salaries		98,426,324
Wages	$677,237,891	507,753,924
Cost of materials	2,981,183,882	2,308,034,184
Value of product	4,651,333,391	3,657,424,471
Value added by mfg.	1,670,149,509	1,278,182,243

Latest municipal figures available are for 1923, and are herewith presented:

Number of establishments	9,334
Average No. of wage earners	385,685
Wages	$571,724,743
Value of products	$3,323,341,460

The Chicago Industrial District, which ranked second in manufacturing in 1919, embraced 409,087 acres, of which 120,210 acres represent the area of Chicago, and 288,877 the outside territory. The District comprises, in addition to the City of Chicago, the townships of Berwyn, Bloom, Calumet, Cicero, Evanston, Leyden, Lyons, Maine, New Trier, Niles, Norwood Park, Oak Park, Proviso, Ridgeville, Riverside, Stickney, Thornton and Worth, all in Cook County, Illinois: and Calumet and North townships in Lake County, Indiana.

Chicago is the pre-eminent city of diversified industry. It produces a wide variety of manufactured products, because it possesses conditions favorable to nearly every type of industry. In 1919 there were 12,392 industrial establishments in the metropolitan district of Chicago producing three hundred and forty-nine classes of products valued at $4,651,333,391. Since 1919, Chicago has become the third largest city in the world, with a consequent increase in industrial development.

The principal industries of Chicago for which statistics can be presented separately, arranged in the order of value of product in 1919.

Industry	1914 Output
Slaughtering and meat packing	$410,709,000
Foundry and machine shop products	83,359,000
Printing and publishing	97,507,000
Clothing, men's including shirts	84,340,000
Electrical machinery, apparatus and supplies	17,568,000
Bread and bakery products	34,217,000
Cars, steam, railroad	50,931,000
Automobiles, including bodies and parts	4,700,000
Clothing, women's	19,211,000
Confectionery and ice cream	22,980,000
Paint and varnish	22,811,000
Furniture	23,350,000
Lumber and timber products	28,711,000
Copper, tin and sheet iron products	13,236,000
Soap	21,255,000
Musical instruments	12,671,000
Boots and shoes	11,663,000
Boxes—paper and other	6,945,000
Leather goods	5,463,000
Fur goods	1,605,000
Grand total, including all industries not listed above	$1,483,498,000

Industry	1919 Output
Slaughtering and meat packing	$1,092,908,000
Foundry and machine shop products	230,419,000
Printing and publishing	194,612,000
Clothing, men's, including shirts	193,051,000
Electrical machinery, apparatus and supplies	78,348,000
Bread and bakery products	77,542,000
Cars, steam, railroad	77,229,000
Automobiles, including bodies and parts	59,545,000
Clothing, women's	64,203,000
Confectionery and ice cream	61,577,000
Paint and varnish	50,306,000
Furniture	41,612,000
Lumber and timber products	40,118,000
Copper, tin and sheet products	38,015,000
Soap	25,505,000
Musical instruments	24,682,000
Boots and shoes	23,879,000
Boxes—paper and other	19,251,000
Leather goods	13,382,000
Fur goods	8,019,000
Grand total, including all industries not listed above	$3,657,424,000

Industry	1914-19	Per Cent Increase
Slaughtering and meat packing	$682,199,000	166.
Foundry and machine shop products	147,060,000	177.
Printing and publishing	97,105,000	99.5
Clothing, men's, including shirts	108,711,000	129.
Electrical machinery, apparatus and supplies	60,780,000	346.
Bread and bakery products	43,325,000	126.
Cars, steam, railroad	26,298,000	51.75
Automobiles, including bodies and parts	64,845,000	1375.
Clothing, women's	44,992,000	233.5
Confectionery and ice cream	38,597,000	168.
Paint and varnish	27,495,000	120.5
Furniture	18,262,000	78.4
Lumber and timber products	11,407,000	39.8
Copper, tin and sheet iron products	24,779,000	186.5
Soap	4,250,000	20.
Musical instruments	12,011,000	95.
Boots and shoes	12,216,000	104.
Boxes—paper and other	12,306,000	177.6
Leather goods	7,919,000	144.5
Fur goods	6,414,000	400.
Grand total, including all industries not listed above	$2,069,052,000	139.

Diversified industry is the basis of Chicago's market. Twelve thousand industries employing more than 500,000 workers thrive in this city.

Chicago leads the world in the production of food staples, in the manufacture and distribution of agricultural implements, dry goods and general merchandise, millinery, jewelry, railroad supplies, foundry products, furniture, telephone equipment, men's clothing, women's wearing apparel, electrical and gas devices, refined petroleum products, pianos and band instruments, parlor lamps and shades; in the manufacture of products for export and the diversification of manufactured goods.

Figures subject to revision, on the value of the 1923 output of Chicago's manufacturing establishments, have been made public by the United States Census Bureau. The compilation contains the following items on general merchandise:

	1923 Output.
Slaughtering and meat packing	$514,666,667
Clothing, men's	170,497,452
Foundry and machine shop products	151,446,868
Printing and publishing, book and job	129,998,603
Electrical machinery, apparatus and supplies	127,308,433
Iron and steel	117,160,880
Cars, steam, railroad	113,053,950
Printing and publishing, newspaper periodicals	107,623,629
Bread and bakery products	80,122,997
Motor vehicles	63,477,015
Furniture	61,330,536
Clothing, women's	54,583,589
Confectionery	49,418,800
Lumber and planing-mill products	44,991,639
Steam fittings and heating apparatus	41,821,370
Structural and iron work	32,127,748
Boots and shoes	27,644,553
Chemicals	27,148,198
Boxes, paper and other	24,146,299
Millinery and lace goods	23,775,589
Leather goods	23,764,587
Motor vehicle bodies	22,511,251
Musical instruments	21,012,968

The importance of the slaughtering and meat packing industry is apparent when it is noticed that its value of products formed approximately 25% of the total for the industry in the United States.

Chicago is a great industrial center because it combines in the most advantageous manner the greatest number of the various facilities, conveniences and conditions required for the successful manufacturing and merchandising in a great variety of lines.

Chicago is not only the most important manufacturing city in Illinois, but ranks second only to New York.

Meat Packing—The slaughtering and meat packing industry ranks first among the industries of the U. S. in point of cost of materials and value of product. Chicago is the greatest distributing center for meats and meat products in the world.

An official valuation of the live stock sold at the Chicago stockyards is given at $514,545,245 (1923). During the year 19,073,116 head of live stock were handled, including 3,157,100 cattle, 760,751 calves, 11,031,367 hogs, 4,097,833 sheep and 26,065 horses. The actual number of carloads received was 313,228.

Canned Goods—Chicago Leads as Canned Goods Mart.—Manufacture and distribution of "tinned" foods from Chicago are sent to all parts of the world and reach huge annual figures. It has been said that Chicago feeds the world. The annual output is large. There are 96 packers, large and small, in meat and meat products, 25 producers of foods, 26 packers and canners of pickles, 13 manufacturers and canners of preserves, 11 producers of condensed evaporated milk, one canner of eggs, 35 manufacturers of cans, one manufacturer of can keys, two manufacturers of canning machinery, and five manufacturers of can making machinery in the district of Chicago. The annual output of Chicago's canning and preserve establishments is estimated at 3,500,000 cases of 24 one-pound cans, valued at approximately $20,000,000. In addition the meat packers can approximately $67,000,000 worth of meat and meat products annually. One corn products company alone manufactures daily 209,000 gallons of syrup and 31,000 gallons of cooking oil. Chicago has the two largest canning plants in the country.

Furniture—The Chicago furniture market is the most important wholesale display market in the entire furniture industry. The completion of the new Furniture Mart Building on Lake Shore Drive in the heart of Chicago's wonderful water front empire makes a permanent home and palace of display for the country's 32,000 furniture retailers. Chicago, with 350 furniture manufacturing establishments employs over 15,000 workers, and in the year 1920 produced $102,000,000 worth of furniture, exclusive of pianos, phonographs, stoves and other house furnishing goods. Nearly 18,000 retail furniture dealers live within 500 miles of Chicago, they serve a population of 50,000,000 people. The annual output of the industries is $881,000,000, 65 per cent of this or $572,000,000 originates within this metropolitan district.

Musical Instruments—Chicago produces 100,000 pianos annually. This represents more than one-third of the entire production of the U. S., and employs from 6,500 to 7,000 people. This city has an immense establishment devoted to making player-pianos—35,000 a year. Chicago holds a leading position in the manufacture of band instruments and has assumed prominence in phonograph making and considerable output of all kinds of orchestra instruments. Thirty-three manufacturers of organs and pianos according to latest available figures have an output of $24,682,416.

Cloaks and Suits—Chicago ranks among the largest centers for the manufacture of men's and ladies' garments. This industry gives employment to more than 52,000 people. This number shows approximately 70 per cent female and 30 per cent male. Of these 30 per cent are Jews, 20 per cent Bohemian, 20 per cent American, 15 per cent Polish, 10 per cent Italian and 5 per cent miscellaneous. Chicago is first in the manufacture and distribution of men's clothing—a development of the last twelve years—the value of the output in 1919 was $190,017,000. Women's garments produced in 1919 had a value of $192,609,630. Including sports clothing, sweaters, etc., a volume of more than $500,000,000 is indicated for all clothing.

Telephone Apparatus—Enormous quantities of telephone apparatus (switchboards, telephone instruments, etc.) are made in Chicago. Over 60 per cent of the world's supply is manufactured in this city.

Candy—With sales that average fully $50,000,000 annually, Chicago is well in the lead as the center for distribution of candy throughout the Central West.

The production of this amount of candy necessitates a large number of well equipped factories, and with these Chicago is amply supplied. A conservative estimate places the investment in candy plants in Chicago at more than $25,000,000. This figure refers merely to the factories and not to the capitalization of the companies, some of which have other interests.

The Chicago factories use about 300,000 pounds of almonds annually and from 200 to 300 carloads of peanuts. The consumption of sugar by local candy plants is in the vicinity of 5,000 carloads a year, or about 200,000 tons. Great amounts of chocolate are used, but the amount consumed cannot be estimated according to experts, because many of the big plants grind their own supply of chocolate beans.

Iron and Steel—Chicago is today the acknowledged iron and steel center of the United States because, at this point rail and water transportation meet and all conditions are alike convenient both to iron ore, fuel and all necessary supplies. Coal and iron ore can be brought to Chicago cheaper than to any other large manufacturing center, and the products of the mills are distributed to better advantage and transported to the consumer at a lower average cost than from any other point in the United States. This is partially due to the recent "Pittsburgh Plus" decision.

Nearly 500 plants with an annual payroll of $80,000,000 to $90,000,000 are located in Chicago district.

In May, 1925, the output of iron exceeded for first time the output by Pittsburgh by 12,000 tons. This was during reduced production.

17 per cent of the country's capacity for making steel is located in this district.

United States Steel Corporation at Gary has an annual output of more than 3,000,000 tons of steel. Is largest and most complete plant of its kind in the world. The South Chicago Mill of Illinois Steel Company ranks next. There are several other important units.

There are 41 blast furnaces in Chicago district, some of them turning out as much as 5,000 tons of iron a week, averaging three times as much a day as the blast furnaces of the early days in Chicago's iron industry did in a week. Approximately 12,500,000 tons of iron ore come to this district annually from the Lake Superior iron mines.

Gary works of United States Steel Corporation broke world's iron and steel record in March, 1925, with 224,021 gross tons of pig iron, 329,418 gross tons of open hearth steel ingots and 309,676 net tons of coke. The world's record production for one month was rolled into rails, billets, blooms, slabs, plates, axles, rolled steel wheels and merchants bars and shapes, the total shipments of these finished products amounting to 254,308 gross tons.

At time of establishment of new world's record, Gary works employed approximately 14,000 men, with about 9,000 more employed in various subsidiary plants. In April, 1925, 26,000 men were on the payroll.

It is estimated that more than 100,000 men are employed in the production of iron and steel within the Chicago area.

SPECIAL INFORMATION

Twenty-five hundred through package freight cars leave Chicago daily to 2,000 shipping points. From these shipping points other shipping points are reached by making one change.

Chicago's passenger service is unequalled anywhere. There are 1,376 passenger trains and 275,030 passengers arriving and departing from Chicago railway stations daily. Of these 229,339 are suburban and 45,691 are through passengers.

The Parcels Post business at the Chicago Post Office exceeds that of any other five cities in the United States.

The Chicago Post Office in 1924 handled 3,594,746,174 pieces of mail. 4,140,215 money orders were issued in 1924 to the extent of $42,749,583.19. 39,375,306 money orders were cashed in 1924 to the extent of $258,650,357.53. Total receipts of the Chicago Post Office were $54,333,807.31, or about 17 per cent of the total business done by all offices in the country. This figure is a gain of 3½ per cent over 1923. Of the total number of pieces of mail 319,645,760 pieces were Parcel Post; 600,639,709 Special Delivery letters. The number of pieces of Parcel Post handled by the Chicago Post Office is more than the total number of express packages for the whole country. Chicago handles 15,000,000 pieces of Registered Mail a year.

Chicago does 60 per cent of the mail order business of the United States. The greater part is done by the two biggest mail order houses in the world. A million and a half people shop in Chicago in a busy week by this method.

The Electric Light Company of Chicago had at the beginning of 1925, 788,081 meters, new meters during year 1924 added 37,335.

Chicago has more telephones per capita than any other large city, and it is the greatest telephone using community in the world. There were 740,000 telephones in use. Average number of calls per day, 3,250,000.

Area square miles	200.4
Total population	2,701,705
Estimate earning power, 1924	$1,200,000,000

Chicago's growth in population and value of manufactured products:

Year	Population	Value of Manufactured Products
1900	1,698,575	$888,954,311
1910	2,185,283	1,281,313,000
1920	2,701,705	3,657,424,000
1923		3,323,341,460
1925	2,995,239	Est. 5,000,000,000

Chicago is the greatest commercial center in the United States, because of the preponderance of package freight shipments, statistics showing that the package freight business of Chicago is 10 per cent over that of the general average of the percentage of the total tonnage for this class of business.

It is estimated that within a night's ride of Chicago, there is a population of more than 50,000,000 people. The territory within this radius reaches from Omaha in the West, to Pittsburgh in the East, and from Minneapolis and St. Paul on the North, to Memphis and Nashville on the South.

New Produce Center—The Produce Mart now completed is one-half mile square, located in the Blue Island Avenue and 15th Street district. This is not only a great commercial achievement but a great civic improvement. Formerly the produce dealers were concentrated on South Water Street, overflowing into other districts with all the disadvantages of overcrowding. Furthermore, the condition of South Water Street was an eye-sore and added greatly to the congestion of traffic in the downtown district. The produce business of Chicago alone amounts to $800,000,000 a year. This does not include packing house products, groceries or the business of the Board of Trade.

Today Chicago has the greatest produce market in the world, in area, in size of buildings, economy of arrangements and unifications, as well as in the amount of its annual business. Its yearly business is in excess of $500,000,000, second only in volume to that of the packing industry. Approximately 100,000 cars of fruits and vegetables are handled by the South Water Street interests annually. Then there is the business in dressed poultry, butter, eggs and cheese. Last year the receipts of live and dressed poultry and cases of eggs received in Chicago were as follows: The receipts of dressed poultry 88,016,736 pounds. Estimated value $30,000,000. Carloads live poultry 2,600. Coops by express 425,000. Estimated weight 86,700,000 pounds. Estimated value $22,000,000. Receipt of eggs 4,676,344 cases of thirty dozen each or 140,290,320 dozen. Estimated value $46,000,000. Total value $98,000,000. This does not include receipts by trucks but it is reasonable to suppose that Chicago handled $110,000,000 worth of poultry and eggs last year.

The marketing and handling of perishables in Chicago is similar to that in other large cities. During 1924, according to the United States Department of Agriculture, 92,210 cars of perishables were received at Chicago. Some of these were shipped out again without being unloaded. There were 56,412 carloads unloaded in Chicago in 1924 or an average of over 154 a day. To this quantity must be added the tremendous quantities of vegetables grown in Cook County, which is the third largest vegetable producing county in the United States, being exceeded only by Los Angeles and Imperial Valley counties in California. Considerable quantities of produce are also received from other Illinois counties and from nearby points in Michigan and Indiana. Leaders in the produce business estimate that the business in perishables in Chicago amounts to about $500,000,000 annually. It is the second largest branch of business in Chicago, being exceeded only by the packing industry.

ILLINOIS (Cont'd)

Port of Chicago

Chicago owes its advantages as a port largely to the natural protection for vessels afforded by the mouths of the Chicago River and Calumet River. Breakwaters have been built on the east and for some distance out on the north and south by the United States Government, thus forming an outer harbor of 21-foot depth.

The rapid growth of Chicago led to the development of her port facilities known as Chicago River, Calumet River, Indiana Harbor and Gary, all within the metropolitan district and to be considered Greater Chicago ports. Chicago now has 101 miles of water frontage for the handling of its water-borne commerce, of which 52 miles are equipped with dock and railway facilities. Its outer harbor has a frontage of 24 miles, protected by Government breakwaters.

The chief business of Chicago's first port, the Chicago River, is the transportation of lumber, coal and package freight. The Calumet River has now become Chicago's greatest industrial harbor. From this harbor are served the numerous industries of South Chicago, East Chicago, Indiana Harbor and Gary by rail connection. Around this port are grouped steel mills, furnaces, smelters, forging plants, foundries, grain warehouses and numerous other factories and plants.

The lake trade of the Chicago District amounts to about 27,067,000 tons of which 13,524,000 tons were arrivals and 13,558,000 were clearances. Fifteen steamship lines serve the port of Chicago.

There are 64 grain elevators in Chicago with a total capacity of 54,235,000 bu., 29 of these having a capacity of 1,000,000 bu. or more.

Residential Features

The residents of the City of Chicago occupy principally one and two-family houses built of brick. Chicago is known as a "City of Brick."

There are 160,272 one-family houses; 101,500 two-flat buildings; 41,630 apartment houses with 266,303 individual living apartments and 63,397 living apartments over stores. From the above figures it is estimated that 762,600 live in one-family houses, 1,050,000 live in two-flat buildings, and 1,112,400 live in apartments.

New permit construction for 1924 was divided into the following classes:

Industrial (stores and factories)	1,610
Business (offices, hotels and club rooms)	8
Residences	8,768
Halls, churches, moving pictures, etc.	52
Theatres	8
Apartments	5,235
Two stories and offices	42
Three stories and family residence	181
Four stories and halls	6
Six stories and apartments	226
Misc. water towers, grain elevators, etc.	43
Total Permits	16,179

Following is a subdivision showing type of building erected: Frame, 2,526; brick, 13,727; total, 16,179.

Total Permits (1924) 16,179; total cost, $296,893,990.

According to the Federal Census Bureau the number of homes in Chicago, as enumerated in January, 1920, was 623,910 of which 165,866, or 26.6 per cent, were owned by the occupants, and 447,405, or 71.7 per cent, were rented; for the remaining 10,639 the facts as to tenure were not reported. Of the owner homes 58,382, or 35.2 per cent, were free from encumbrance and 102,719, or 61.9 per cent, were mortgaged; for the remaining 4,765 no information as to mortgage indebtedness was secured.

The Bureau of the Census secured reports regarding the value of the home, the amount of the encumbrance and the rate of interest from 76,573, or 74.5 per cent, of the 102,719 mortgaged homes enumerated in the census. The average market value of the mortgaged homes was $6,460, and the average mortgage was $2,734. Assuming that the average value and the average mortgage debt for the homes not reporting was the same as for those for which reports were secured, the total market value of all mortgaged homes in Chicago was estimated at $664,000,000 and the total mortgage debt at $281,000,000.

The prevailing rate of interest was 6 per cent, this being the rate reported for 83.9 per cent of the total number of homes reported as mortgaged and 81.6 per cent of the total amount of mortgage indebtedness. Five-and-one-half per cent was the rate on 9,16 per cent of the total number and 5 per cent was the rate on 3.1 per cent of the total number of mortgaged homes reporting. From 5 per cent to and including 7 per cent formed 98.7 per cent of the number of homes reporting the rate of encumbrance on their mortgaged debt. For the remaining indebtedness other rates were reported, ranging from less than 5 per cent to more than 8 per cent. The average rate on all mortgages was 5.9 per cent.

Of the 76,573 mortgaged homes concerning which information was secured 5,099, or 6.7 per cent, were valued at less than $2,500; 30,127, or 39.3 per cent, at $2,500 to $5,000; 22,100, or 28.9 per cent, at $5,000 to $7,500; 9,444, or 12.3 per cent at $7,500 to $10,000; 5,721, or 7.5 per cent, at $10,000 to $15,000; and 4,082, or 5.3 per cent, at $15,000 and over. Of the latter number 1,308, or 1.7 per cent, were valued at $25,000 and over.

As a rule the greater the value of the home the smaller the proportion which the encumbrance represents of the total market value, this proportion ranging from 38.8 per cent for homes valued at $15,000 to $20,000 each to 50.2 per cent for those valued at less than $2,500. On homes valued at amounts of more than $25,000 the encumbrance amounted to $22,466,190, forming 41.9 per cent of the market value on January 1, 1920.

Retail Section

The main business section which is known as the Loop District, is a seething caldron of commerce, finance, traffic congestion and humanity. It embraces only a quarter of a square mile. In this little patch are 19 streets, running east and west and north and south. On fifteen of these streets are street car tracks and cars turning in all directions at every intersection.

There are daily within this district 10,000 street cars, 152,000 vehicles of all sorts, 323,000 working population and over 1,000,000 floating population. This wildly pulsating heart is held viselike in the coil of the river which bounds it on two sides, the railroads on the third and the lake on the fourth.

Chicago has outgrown this small and congested district known the country over as the "Loop," and with about 168 active communities with outlying banks, where total deposits exceed $636,137,000 and whose cash resources aggregated $118,523,000, it is no wonder that the business of Chicago is being distributed throughout the entire city.

In six blocks on State Street, the main downtown retail trade, the retail clothing, dry goods and department store business is said to be equal to that of any similar area in the world. This includes the paper of pins as well as the $5,000 fur coat. An average of a quarter of a million individual sales are made within these few blocks every day.

The new Boulevard Link Bridge connecting Michigan Avenue on the south with Lake Shore Drive on the north has given downtown Chicago its greatest opportunity for the spreading of general business, particularly offices, retail stores, and specialty shops. The business trend is out of the Loop and northward on Michigan Boulevard.

The following are the principal shopping centers or neighborhood retail sections. In most cases with these herewith mentioned the shopping is not necessarily confined to the immediate section or even streets. Some of the larger neighborhood centers are really the centers of towns within Chicago, the sales area will extend from two or three blocks on one or both streets to ten and twelve in some of the larger retail distributing centers.

63rd and Halsted Streets.
This section is the busiest on the south and southwest sides both as a business and transfer center. It is a large banking and commercial district and is the terminus of suburban electric lines connecting with Kankakee, Crete, Steger, Harvey, and Chicago Heights. It is predominantly Swedish.

63rd and Cottage Grove Avenue.
This section is the largest outlying amusement center in Chicago. It is also one of the largest outlying auto sales centers and at the same time is fast becoming a rooming house and light housekeeping neighborhood. It is predominantly American.

32nd Street and Commercial Avenue.
This section is in the heart of the steel industry and is commonly known as South Chicago. The majority of the people are workers in the steel mills. It is a busy transfer corner with many electric cars passing from Whiting, Hammond, East Chicago and Gary, Indiana. It is predominantly Lithuanian and Polish.

Milwaukee Ave. and Paulina Street.
This district is the greatest business section outside of Duluth. It is particularly a large furniture center and also a large volume of business is done in men's and ladies' wear, shoe stores and millinery shops. It is predominantly Jewish and Polish.

Halsted Street and Roosevelt Road.
This particular district sells almost exclusively to people of foreign birth. Located in this section is the Maxwell Street center where the dealers sell and display their goods from pushcarts in the open. It is predominantly Jewish and Italian.

Lincoln and Belmont Avenues.
This district is one of the best on the North Side. It is predominantly Swedish and German.

Wilson Avenue, Broadway and Sheridan Road.
This section is given over to the better class rooming houses with many large apartments. It is the largest amusement center on the North Side. It is predominantly American.

Ashland Avenue and 47th Street.
This district is almost entirely composed of foreign speaking people employed in the stockyards. It is predominantly Polish and Lithuanian.

Michigan Avenue and 111th Street.
This is a fast growing community and while not as densely populated as some others a large amount of business is transacted here. It is predominately Bohemian.

Roosevelt Road and Kedzie Avenue.
This district is composed of the better class of Jewish people who do most of their buying in this district. The largest retail business is in the lades' ready-to-wear. It is predominantly Jewish.

North Avenue and California Avenue.
This district is a particularly busy one with many small retail stores. It is predominantly Jewish and Swedish.

North Avenue and Larrabee Street.
In this district is located quite a few chain stores together with department stores, men's clothing and other small retail stores. It is predominantly German.

Madison and Halsted Streets.
This is a particularly good transfer point, located in a large factory district with lodging houses and cheap hotels abounding. It is a good amusement center. It is of mixed nationality.

Chicago and Ashland Avenues.
This district is composed of practically all foreign born. The stores handle only low-priced merchandise. It is predominantly Polish and Lithuanian.

18th Street and Blue Island Avenue.
This is a fairly good district with business centered on Blue Island Avenue between 18th and 19th Streets. It is predominantly Bohemian.

26th Street and Longdale Avenue.
This district is a home-owning one, and the stores are quite busy. It is predominantly Bohemian.

Madison Street, Kedzie and Crawford Avenues.
In this district are found people of the better class and it is rapidly growing. Many of the better stores are located here. It is predominantly American.

Clark Street and Belmont Avenue.
This district is a typical middle-class one with the exception of the eastern portion. Many first-class stores are found here. It is predominantly Swedish.

Lincoln, Lawrence and Western Avenues.
This district is developing into a very large business center. It is principally a community buying center with some transient trade. It is a very good transfer point. It is predominantly American.

Lincoln Avenue and Irving Park Boulevard.
This is principally a community buying center made up of first-class stores. Houses and apartments prevail throughout the district. It is predominantly American.

Stony Island and 67th Street.
This district is a community buying center with many high class stores. It has grown rapidly in the last few years and is regarded as one of the choicest residential centers of the South Side. About four-fifths of the people live in high-class apartments. It is predominantly American.

Howard and Clark Streets.
Rogers Park is one of the best residential sections of Chicago. The business section here is an L shape including all of Clark Street to the city limits and Howard Street east of Sheridan Road. Principally a community buying center. It is predominately American.

Lawrence and Kedzie Avenues.
This district is well populated and enjoys a good buying trade. It is a good transfer point. Homes and apartments predominate. It is predominantly Jewish.

Milwaukee and Lawrence Avenues.
This district has grown rapidly in the last few years. These corners are busy transfer points and a good class of stores are to be found here. It is predominantly American.

Halsted and 35th Streets.
This district is thickly populated being entirely built up and here we find a number of stores especially small department stores, dry goods and men's furnishings. Practically all the business is done on Halsted Street. It is predominantly Lithouanian.

63rd Street and Ashland Avenue.
This is a furniture center and ranks among the three most important outside Duluth. Ashland Avenue is the third most important transfer center on the South Side. It is predominantly Swedish.

Halsted and 79th Streets.
This district is one of the finest growing communities in the city. Stores are of the better class. It is a good amusement and furniture center. It is predominantly American.

Cottage Grove Avenue and 75th Street.
This district is being constantly improved with new stores all of the better class. It is predominantly Swedish.

Madison Street and Ogden Avenue.
This district contains mostly rooming houses with a fairly good class of stores. Madison Street is the business center. It is of mixed nationality.

North and Crawford Avenues.
This is a good transfer point well populated and the stores are of the better class. It is predominantly American.

Milwaukee Avenue, Irving Park Blvd. and Cicero Avenue.
This is a fairly well populated district with a good class of stores. Milwaukee Avenue is the principal business street. Homes and small apartments predominate. It is predominantly American.

TRADING AREA

In attempting to secure accurate information in regard to the trading area of Chicago it was necessary for our representatives to become familiar with transportation facilities, character of inhabitants, size of cities and towns, distributing facilities, of large Chicago stores and many other details before arriving at a conclusion of what is the retail trading area divided into a daily trading zone, weekly zone and monthly zone.

The areas have been carefully checked by impartial sales managers, merchandising managers, advertising managers, shipping clerks and others whose knowledge of Chicago territory was of value. The areas were rearranged from time to time as special information and further study of shipping facilities and buying habits of people were noted.

The three areas represent first the daily zone where the bulk of daily business is secured; second, the weekly zone. In this territory buyers are accustomed to travel to the city for business and pleasure at least once a week. Third, the limits of territory from where Chicago draws trade at least once a month. Within this zone are many fair-sized cities and towns which can easily supply the daily wants to its citizens but close enough to Chicago for these buyers to travel about once a month and usually large sales are made.

The daily zone extends to Waukegan on the north and swings westward in a semicircle around Chicago to Gary and on the east including Oak Park, Highland Park, Naperville, Chicago Heights, Hammond, South Chicago, Wheaton, and Dyer.

The weekly zone area extends northward to Racine, Wisconsin, then swinging around in an irregular semicircle to Michigan City, Indiana. This zone depends a great deal on transportation facilities. The larger cities within this zone are Elgin, Joliet, Aurora, Geneva, Syracuse, DeKalb, Momence, Valparaiso, Ind., and Kenosha, Wisconsin. Within this zone the larger stores maintain free delivery to the larger cities.

The monthly zone area on the north extends only a little further than the weekly zone as far as South Milwaukee, from there the boundary line swings almost directly west to Dubuque, Iowa, including Rockford, Janesville, Evansville, Galena, Freeport and Beloit, all to the northwest.

The furthermost point west of Chicago in the monthly trading zone is Cedar Rapids, Iowa; from this point the boundary line begins to swing south and then east, and in this direction are included Davenport and Clinton, Iowa; Rock Island, Moline, Cambridge and Galesburg, Ill. The point furthest south in this zone is Champaign and Urbana. This trading zone then swings northeast through Lafayette, Logansport, Goshen, all in Indiana, through Three Rivers, Michigan, and again swings northwest to the east bank of Lake Michigan. The large cities in this direction are South Bend, South Haven, St. Joseph and Benton Harbor.

Wholesalers—Grocers, 153; meats, 89; fruits, 125; dry goods, 159; druggists, 65; confectionery 230; clothing, 164; tobacco, 60; hardware, 23; jewelers, 198; men's furnishings, 19; millinery, 17; stationery 15,; hats and caps, 7; bakers, 15; boots and shoes, 220.

Chicago is the distributing center of the United States. Its wholesale trade in 1920 was estimated at $6,000,000,000. It leads in the distribution of dry goods, general merchandise, foodstuffs, machinery, jewelry, pianos, wearing apparel, automobiles, furniture and household requisites.

Chicago has one of the great jewelry jobbing houses of the United States, and the city's business in jewelry runs from $75,000,000 to $100,000,000 annually. The business is growing at a tremendous rate and it already holds an important place among Chicago's business activities.

There are more than 80 manufacturers of jewelry and kindred lines that have headquarters in Chicago, and there are fully 70 more that maintain offices and salesrooms with headquarters elsewhere. More than 170 jobbers of jewelry and kindred lines have headquarters in Chicago. There are more than 100 manufacturers and jobbers of china, umbrellas, lamps and brass goods in Chicago.

From a small beginning the jewelry trade of Chicago has developed so rapidly that it now ranks seventh on Chicago's business list.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 97; commercial auto. agencies, 66; automobile accessories, 1,155; automobile tire agencies, 918; bakers, 1,503; cigar stores and stands (including hotels), 4,613; confectioners (including hotel stands), 3,130; delicatessen, 1,471; dressmakers, 2,127; druggists, 1,784; dry goods, 1,226; department stores, 102; electrical supplies, 439; florists, 465; fruits and vegetables, 842; furniture, 601; furriers, 595; garages (public), 1,147; grocers, 9,273; hardware, 885; jewelry, 998; meat markets, 4,366; men's furnishings, 852; men's clothing, 506; merchant tailors, 1,644; milliners, 752; opticians, 110; photographers, 382; pianos (and miscellaneous musical instruments), 541; radio supplies, 782; restaurants (including hotels), 2,052; shoes, 876; sporting goods, 365; stationers, 552; women's apparel, 803.

See announcement page 55

CLINTON, ILL.

(De Witt County)

1920 Population, 5,898.

City and Suburban Estimate, 10,000.

Native Whites, 92%; **Negroes,** 5% **Foreign Born,** 3%; **English Reading,** 100%.

Schools: Public Grade, 4; High, 1; Parochial, 1.

Churches: Baptist, 2; Christian Science, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 1; State, 3; Total Resources, $4,000,000. Most people here put savings in building and loan stock; one company has $3,000,000 capital, three others $1,000,000 each.

Theatres: Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 2,500.

Location: Division headquarters I. C., also has Illinois Traction.

Principal Industries: I. C. RR. shops; poultry shipping house; garment factory.

Manufacturing Establishments: 1. Leading firms: Clinton garment factory.

Residential Features: Almost entirely private homes. Housing shortage. High rents. No tenement district other than 2 squares where 400 negroes live. House building rapid. Four city additions opened last year.

Retail Shopping Section: Public square, four blocks east Main St., five blocks east Washington Street, three blocks north Quincy Street, 3 blocks Monroe Street, 2 blocks Adams St.

Trading Area: Radius of ten miles.

Wholesale Houses: Groceries, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; automobile accessories, 8; automobile tire agencies, 10; bakers, 5; cigar stores and stands (including hotels), 6; confectioners (including hotel stands), 5; druggists, 5; dry goods, 5; electrical supplies, 4; florists, 2; furniture, 2; garages (public), 6; grocers, 27;
